The Bank Rate Monitor, of North Palm Beach, Fla., gave average rates as follows: money-market deposit accounts, 5.86 percent, unchanged; Super-Now accounts, 4.94 percent, unchanged; six-month certificates of deposit, 7.43 percent, down from 7.46; 1-year CDs, 7.52 percent, down from 7.55; 2 1/2-year CDs, 7.63 percent, off from 7.66; and five-year CDs, 7.78 percent, off from 7.79 percent.

The average rate for a one-year, adjustable-rate mortgage was 8.17 percent, down from 8.20 percent the previous week.

The average rate on a 15-year, fixed-rate mortgage fell in the latest week to

9.67 percent, off from 9.76, while the average rate for a 30- year, fixed-rate mortgage eased to 10.01 percent, down from 10.09 percent.

The average rate for a four-year automobile loan fell to 12.10 percent from 12.11 percent last week.

(NOV. 2) UPI - Environmental and consumer groups begin a national ad campaign today criticizing President Bush for opposing tougher energy conservation laws while sending U-S soldiers to the Mideast to protect oil supplies.

Political observers in Tokyo say Prime Minister Toshiki Kaifu's handling of the Persian Gulf crisis could cost him his job. The reason is Kaifu's UNpopular proposal to provide NON-combat support for the multi-national forces in the Persan Gulf.

Officials who asked not to be named say the problem with the secret military payload of the space shuttle Atlantis may NOT be as serious as was first thought. They say that Atlantis might be ready for flight as early as November 15th, six days behind schedule.

11 people were injured yesterday when a United Airlines flight from Hong Kong to Seattle hit severe air turbulence over the Pacific Ocean. Seven passengers and four flight attendants were hurt when the plane hit turbulence about four hours before landing at Seattle-Tacoma International Airport.

A study by the NON-partisan Economic Policy Institute says the economy may be headed toward a deeper recession than economists initially forecast. The study blames the fact that American households have become so dependent on debt to maintain comfortable living standards.

A South African woman jailed in Zimbabwe for spying on the African National Congress has been released after serving three years of a 12-year term. Officials in Zimbabwe handed the woman over to South African officials yesterday.

Malaysian Prime Minister Mahathir Mohamad today told visiting black leader Nelson Mandela that Malaysia will provide the neccessary assistance to the African National Congress. Mandela arrived in Maylasia yesterday from Japan for a four-day visit.

91 Vietnamese boatpeople who fled their homeland to Malaysia in hopes of better life in the West will return voluntarily to Vietnam. They were promised financial incentives under the United Nations repatriation program.

The president of Rwanda said today he will welcome home thousands of Rwandan

refugees scattered around east Africa after a month of civil war. He also said that Rwanda is ready for multi-party democracy.

Officials in Singapore say an American sailor who scaled the fence of the Thai Embassy grounds and broke into the ambassador's residence will be subject to U-S military disciplinary proceedings. Seaman Kelly Wiley was stationed on the U-S-S Schenectady.

A smoky fire killed 11 female workers as they slept in a small garment workshop in Thailand early today. Police are investigating the possibility that the fire was caused by negligence.

Musician Chief Petty Officer George Thompson Junior yesterday became the first Afro-American ever commissioned as an officer in the U-S Navy's music program. He will become a bandmaster in the nation's capital.

It was close, but NO cigar for a Seattle man trying to become the first person to fly a floatplane around the world. Tom Casey ditched his single-engine Cessna 206 on floats near the Aleutian Island chain. The Coast Guard is expected to reach him this morning. Casey was due to complete his circumnavigation of the globe Sunday in Seattle.

BONN, GERMANY (NOV. 2) UPI - The German government said Friday they are confident that other European personalities will join former Chancellor Willy Brandt on his controversial trip to Iraq next week.

''It is highly unlikely that Herr Brandt will travel alone,'' said Foreign Ministry spokesman Juergen Chrobog.

The statement appeared to imply that former Italian Prime Minister Emilio Colombo and former Belgian Finance Minister Willy de Clercq might join Brandt on the trip to Baghdad.

Chancellor Helmut Kohl had asked the European Community president, Italian Prime Minister Giulio Andreotti, to suggest to United Nations Secretary-General Javier Perez de Cuellar that Colombo and de Clercq should travel to Iraq as special envoys.

Perez de Cuellar, in talks with Brandt Wednesday wished the former chancellor good luck but declined to name him as U.N envoy.

Britain reacted angrily to the plan Thursday, saying that such visits must be discouraged and complaining the British government was not consulted.

British Prime Minister Margaret Thatcher was reportedly furious over the plans.

But German government spokesman Hans Klein said Friday the trip was in agreement with a European Community summit decision taken last weekend in Rome to discourage isolated visits to Baghdad.

''In its activities, the federal government strictly adheres to the Oct. 28 declaration of the European Council in Rome,'' Klein said.

Chrobog added that the govenment is seeking strong support from other European nations for Brandt's trip.

''This is a journey by Herr Brandt under his own responsibility, which enjoys the support of party representatives of other large European parties,'' Chrobog said.

''It is very important that we demand the release of all hostages, not just the Germans,'' he said. About 400 Germans are still being held in Iraq and Kuwait with hundreds of other nationals.

''Concerning Herr Brandt's mission, this is a mission planned in the framework of Europe and not an isolated action,'' Chrobog said.

MALDEN, MA (NOV. 2) UPI - A teenager allegedly beaten by a motorist whose luxury car was hit by an egg on Halloween night has died, authorities said Friday.

Timothy Doucette, 18, of Somerville was declared dead late Thursday at University Hospital in Boston.

Police said the incident apparently began sometime late Halloween night when

Doucette and two other boys and two girls were fooling around and tossing eggs in Bell Rock Park in Malden.

One of the eggs apparently struck a blue Cadillac that was passing by on an adjacent street.

The youths ran off and the motorist drove around to the other side of the park where he confronted the teens, demanding to know who threw the egg.

''You think you punks are funny,'' witnesses told police the driver said.

Police said the driver then threw one of the teens against a fence, injuring the youth's eye, and grabbed Doucette.

The driver, described as over 6 feet tall and a muscular 220 pounds, punched Doucette and banged his head against a sign post. Doucette cracked his skull as he fell to the sidewalk, police said.

''You'd better get an ambulance for your punk friend,'' witnesses said the motorist yelled just before he backed down the street and drove away.

Doucette was first taken to Malden Hospital, but was transferred to University Hospital after he lapsed into a coma.

Police said they have made no arrests in the case.

#90306u0612 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - The Index of Leading Economic Indicators, a barometer of future economic activity, declined 0.8 percent in September in yet another warning sign of tough times ahead, the government said Friday.

The drop, in line with forecasts by private analysts, follows a revised decline of 1.2 percent in August. In July, the index was unchanged.

Three or more consecutive negative quarters in the index indicate the danger of an impending recession, although the United States has seen the index fall into that pattern in recent years and not wind up in a downturn.

''The probability of a recession based on the index has gone to over 90 percent,'' said Micheal Niemira, an economist at Mitsubishi Bank in New York. ''It seems to be a forecast of recession.

''The real problem is you can't find anuything out there that really looks positive,'' Niemira said. ''There's a lot of uncertainty behind a lot of the slow down,'' mainly because of the latest Middle East crisis.

Nine of the 11 indicators that make up the index contributed to the decline, while one indicator - contracts and orders for plant and equipment - made a positive contribution, the Commerce Department said.

The average workweek, meanwhile, was unchanged during September.

The negatives, listed from the largest contributor to the smallest, were stock prices, manufacturers' new orders for consumer goods and materials, average weekly initial jobless claims, building permits, consumer expectations, change in manufactuers' unfilled orders, money supply, vendor performance and sensitive materials prices.

Kermit Baker, an economist at Cahners Economics in Newton, Mass., noted two of the negatives - stock prices and consumer expectations - are ''really based on a very quick impression on how things are going and could come back quick if things start looking better.''

Nonetheless, it appears ''the worst time for the economy is certainly going to be over the next four to five months,'' Baker said.

For the last six months the index has increased 0.2 percent, but for the last 12 months the government barometer has dropped 1.1 percent, according to the data compiled by the department's Economics and Statistics Administration.

The composite index of coincident indicators, a monthly approximation of aggregate economic activity, fell 0.4 percent in September after declining 0.1 percent in August and dropping 0.2 percent in July.

The composite index of lagging indicators, which confirms movements in the conicident index, was down 0.2 percent in September after dropping 0.5 percent in August and increasing 0.5 percent in July.

The data are subject to revision.

#90306u0613 11/02/1990 ~United Press International

DUBLIN, IRELAND (NOV. 2) UPI - An unofficial delegation of three Irish legislators was scheduled Friday to meet Iraqi authorities in Baghdad in a private bid to secure the release of about 220 Irish citizens stranded in Iraq

and Kuwait.

In another development, the Irish Foreign Ministry summoned the Iraqi ambassador, Azmi al-Salihi, to explain the circumstances of the Irish hostages snared in the turmoil spawned by Baghdad's Aug. 2 invasion of Kuwait.

Officials said Iraq's envoy - who is also accredited to Britain - met Foreign Minister Gerald Collins for about 30 minutes, but could give no assurances as to when the hostages would be released.

As al-Salihi left, he told reporters that the hostages were ''our guests. When circumstances improve, they can leave, certainly.''

The official moves were apparently to deflect any possible criticism Dublin may incur for the visit by the three politicians, who are defying an agreement among the 12-nation European Community reached in Rome last weekend not to negotiate individually with Iraq over hostages.

The government initially blessed the mission for the representative of Irelan's three major political parties, but has withdrawn official support since the EC summit. A Foreign Ministry official said the trip did not have the government's ''seal of approval.''

Britain on Thursday criticized Germany and Italy for endorsing another unofficial humanitarian mission by former Chancellor Willy Brandt, saying the trip contravened the Rome agreement.

Prime Minister Charles Haughey personally urged the three not to undertake the trip, but the group shunned his advice and left for Jordan on Thursday in order to make their Friday appointment in Baghdad.

The three are David Andrews of the ruling Fianna Fail Party, Paul Bradford of the opposition Fine Gael Party, and Labor's Micheal D. Higgens, who is mayor of Galway town.

A spokeswoman for Higgens said the group was staying at Baghdad's Rashid hotel and would meet officials from the Iraqi Foreign Ministry.

''It's all very loose,'' she said. ''It is being organized on the ground by the Irish hostages themselves.''

In London, an Iraqi diplomat said the three may meet Foreign Minister Tariq Aziz. A session with Iraq's President Saddam Hussein had been requested, but remained unconfirmed, he said.

''Usually we don't fix appointments from here,'' he said. ''They will be received by the Foreign Office, and I am sure that they will have all the meetings that they require.''

Their visit is being funded by the Gulf Relative's Support Group of Ireland, which raised $15,000 for the trip.

''This will be the first visit by Irish parliamentarians to Iraq,'' a spokeswoman said. ''We are very happy they are going.''

Most of the some 220 Irish listed as being in the region are employees of the Irish-managed Parc Hospital, but an unspecified number are in hiding in Kuwait. Reports have said four doctors, including three injured in an accident last week, and three nurses, have been granted exit visas from Iraq.

#90306u0626 11/02/1990 ~United Press International

(NOV. 2) UPI - The U.S. commander general in the Persian Gulf said there are alternatives to destroying Iraq in the quest for peace and Middle East stability, and Iraq gave its ''word of honor'' Friday that the families of hostages would be allowed to come and go freely if they visited Iraq at Christmas.

Gen. Norman Schwarzkopf said in remarks published Friday in the New York Times that ''if we have to fight, I am going to use everything that is available me to inflict the maximum number of casualties on the enemy as possible.''

He said the ''ultimate objective is to make sure that we have peace, stability and a correct balance of power in the Middle East.'' Schwarzkopf said one way to accomplish that ''would be the total destruction of Iraq, but I am not sure that is in the interest of the long-term balance of power in this region.''

''... I do think there are other alternatives to having to drive on to Baghdad and literally dig out the entire Baathist regime and destroy them all in order to have peace and stability in the area,'' he said.

''Right now there are peacekeeping forces in a lot of areas of the world that are maintaining the peace, and perhaps that's an alternative.''

Schwarzkopf, whose nickname is ''Stormin' Norman,'' also described Iraqi President Saddam Hussein - who has defied for three months international pressure to withdraw his troops from Kuwait - as a ''meglomaniac'' and ''ruthless,'' but ''not stupid.''

The U.S. general, who commands an estimated 210,000 U.S. troops deployed to the Persian Gulf following Iraq's Aug. 2 invasion of the oil-rich emirate, indicated while a war could erupt at any time, he did not expect military action in the coming weeks.

Schwarzkopf said in the interview published Friday that he wanted everything

possible done to avoid a war. But, he said, once war erupts, he would be ''ferocious enough to do whatever is necessary to get it over as quickly as possible in victory.''

Schwarzkopf had told the Atlanta Journal and Consitution last week that he would prefer to bring his troops home safely without a fight because a confrontation with Iraqi troops in the desert would result in serious American casualties.

President Bush said Thursday the time for diplomatic pressure was running short, but denied he was ''trying to prepare our country for war.''

Bush also dismissed Saddam's offer to allow families to visit the thousands of foreign hostages in Iraq and Kuwait at Christmas, saying ''I don't think he'll win any humanitarian rewards for this.''

The official Iraqi news agency INA quoted the country's minister of culture as expressing surprise at the international condemnation of the offer to allow families to visit the estimated 4,000 hostages, who are being held at key economic and military sites as a human shield against possible attack from the U.S.-led force in the Persian Gulf.

''We emphasize that Iraq has a word of honor and (is) known for its morals and promises, therefore the families that will visit Iraq will ... possess their full freedom to travel again after meeting their relatives and their meetings will take place at comfortable places," said the minister, Latif Nesyef Jassim.

Iraq also announced Thursday it would release four ailing American hostages following an appeal by the American-Arab Fellowship for Reconciliation, a little known group which sent a delegation to Baghdad.

It was not immediately clear how many families would take Iraq up on the offer or if the crisis would last until Christmas. A source from the Iraqi Embassy in London said two families had contacted diplomats to ask about the proposed trips.

INA also reported Friday a chartered Iraqi Boeing 707 arrived in Baghdad with 15.5 tons of medicine from Switzerland, which sold the supplies to Iraq for an estimated $390,000.

Switzerland said the shipment did not violate the economic embargo imposed by the United Nations, which allows humanitarian shipments of medicine.

Also Friday, the British Broadcasting Corp. said Saudi Arabia had agreed to an international investigation of complaints that Yemeni workers in the kingdom had been mistreated and even tortured because of Yemen's pro-Iraqi stand in the Persian Gulf crisis.

Saudi Arabia has expelled hundreds of thousands of Yemeni workers in recent weeks, leading to a rift between the two Arab nations that caused an Arab League meeting last month to dissolve in animosity.

The Middle East News Agency, meanwhile, quoted the ambassador to Saudi Arabia for the exiled Kuwaiti government as repeating charges that Iraqi troops were mistreating Kuwaitis, whom he said were suffering from food shortages and inadequate medical care.

INA also reported Friday that Baghdad had sponsored an art exhibition at the Saddam Arts Center of works protesting the U.S.-led response to the Iraqi invasion.

#90306u0642 11/02/1990 ~United Press International

(NOV. 2) UPI - It's ''On the Road Again'' for President Bush today. Bush is ignoring a recent decline in popularity polls and is campaigning at a fast pace for G-O-P candidates right up untill Tuesday's election. His schedule today calls for appearances in Ohio, Minnesota and Iowa.

A published report in Detroit says the number of arson fires during this week's three-day Devil's Night period increased for the first time in six years. Detroit Mayor Coleman Young and other city officials have refused to release the exact number of Devil's Night fires until later today. But city officials who asked NOT to be identified reportedly said the total will definitely be up from last year, when there were 223 fires.

U-S officials in Manila today restricted travel for 40-thousand servicemen and their dependents in the Philippines. The move came because of fears that communist rebel might stage attacks during talks next week on the future of American military bases. The talks begin Tuesday.

In Seattle last night, a federal grand jury returned a 300-page indictment against 15 people accused of participating in a nationwide scheme that allegedly defrauded banks, businesses and individuals out of Millions of dollars. The Tacoma, Washington-based Puget Sound Bank was said to have been bilked out of four-and-one-half Million dollars in bad loans.

More rallies are scheduled today outside the Daily News headquarters in midtown Manhattan by groups supporting the nine unions striking against the paper. Last night, about 13-thousand people demonstrated against Daily News management. Leaders of the city's largest unions vowed to choke the paper if it does NOT reach an accord with the strikers.

Police say about 10-thousand Hindus tried to storm a mosque in north India today in an attempt to begin construction of a temple. Police opened fire to stop the procession, killing at least 16 people and wounding 30 others. More

than 130 people have died in violence in India since Tuesday when Hindus first tried to begin construction of the temple.

The World Health Organization says cases of AIDS around the world increased by almost three-point seven percent in October. The United States accounted for half of the increase, with 52-hundred 77 new cases and a total of almost 150-thousand cases. That's half of the world figure.

China has quietly begun raising the state-set consumer prices of many daily necessities. The risky economic reform move already is causing hoarding and price speculation among residents of Beijing. The government has NOT commented on the price hikes, except to say that price reform is an economic necessity.

-30- 2838

#90306u0653 11/02/1990 ~United Press International

MANILA, PHILIPPINES (NOV. 2) UPI - U.S. officials restricted travel Friday for 40,000 American servicemen and dependents in the Philippines, fearing communist rebel attacks during next week's talks on the future of U.S. military bases.

Philippine sources said the third round of negotiations will be held Nov. 8-10 at the heavily guarded Central Bank building in Manila on the fate of Clark Air Base and Subic Bay Naval Station. The lease covering Washington's oldest and largest overseas military bases expires Sept. 16, 1991.

The United States has indicated it is willing to consider allowing the Philippines to take over Clark.

At least 10 Americans have been killed since October 1987 in attacks blamed on communist guerrillas who want the bases removed. Those killed included army Col. James Rowe, a decorated hero of the Vietnam War who was killed in his car in the capital.

Lt. Col. Ron Rand, spokesman at Clark - home of the 13th Air Force - appeared on American military television to announce the latest restrictions, which include a 9 p.m. to 5:30 a.m. curfew for servicemen outside of ''duty or emergency'' travel.

From 5:30 a.m. to 9 p.m., personnel who live off base are allowed to travel between the base and their quarters on essential business, Rand said. Travel from 6 a.m. to 6 p.m. is allowed within secured compounds, he said.

Rand said travel to Manila, Camp John Hay in the mountain resort city of Baguio, and Wallace Air Station in La Union province is not authorized except on official business with the commander's approval.

At Subic, a repair and logistics center for the U.S. 7th Fleet, spokesman Lt.

Cmdr. Kevin Mukri said similar liberty curtailments would go into effect at 11 p.m. Friday for some 16,000 troops and personnel manning the facility.

Mukri said reports from U.S. and Philippine sources showed the threat against servicemen ''has significantly increased.''

Rand said, ''We are taking this action because our security advisers believe there is an increased threat as a result of the upcoming bases talks.'' He said the restrictions will go on indefinitely and called on troops to ''be smart, be alert and be safe.''

The 19,000-member NPA, armed wing of the outlawed Communist Party of the Philippines, has been fighting to establish a Marxist state in the former U.S. colony for the past 21 years.

On the eve of the first round of bases talks in May, guerrillas gunned down two visiting servicemen outside Clark. The rebels also bombed a transmission tower of the Voice of America a day before the second round of talks began in September.

During the September negotiations, the Philippines told the American panel headed by special negotiator Richard Armitage it would take over Clark and four smaller facilities, but would agree to a phase-down of Subic.

The United States said the proposal for Manila to take over Clark would consider the proposal and submit it to Washington. The U.S. representatives promised the proposal would be discussed in the next round of talks.

#90306u0662 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - The nation's jobless rate remained at 5.7 percent in October, but the government said Friday the overall job market showed further weakness and economists warned the report shows the economy has slipped into recession.

The Labor Department's Bureau of Labor Statistics said large job losses in the construction and manufacturing industries, and a slight downturn in non-farm payroll employment, were offset partially by gains in the service sector.

''It's a clear indication we're in recession,'' said Cynthia Latta, an economist at DRI/McGraw Hill, in Lexington, Mass. ''If the number of jobs out there is shrinking, I don't know how you can call it anything else.''

''While that may not be the correct conclusion, it is the most reasonable one to draw,'' said Robert Dederick, chief economist at the Northern Trust Co. in Chicago. ''We've lost our footing, that's for sure.''

Total civilian employment slipped to 117.7 million in October from 117.8 million the month before. The government said employment has dropped by 700,000 since mid-year after gaining 500,000 jobs during the first half of the year.

Janet Norwood, the bureau's commissioner, told the Joint Economic Committee the report offers more evidence of deterioration in the job market.

''For the third month in a row, more industries lost jobs than gained them,'' she said. ''In addition, cutbacks occurred both in the overall average workweek and in the factory workweek.''

The civilian labor force, which stands at 124.8 million, has shown no growth since the spring, despite increases in the working age population. As a result fewer teenagers are entering the job market. The number of adult women entering the work force also edged down after a long upward trend, the government said.

Norwood said the bureau's survey of employers ''continues to point to a worsening employment picture.''

Excluding the effect of the Census Bureau's elimination of temporary workers in recent months, the nation's employment payroll has weakened steadily since June.

''Over this period, the number of payroll jobs has show no net gain, as sizable losses in the goods industries have been barely offset by gains in the service sector,'' she said.

Non-farm payroll declined by 68,000 jobs as substantial job losses in construction, manufacturing and retail trade offset gains in some services and state and local government positions.

The greatest job loss during the month came in the construction industry, which lost 80,000 jobs during the month. A building slowdown, largely a result of declines in the overall economy, has caused a loss of 185,000 construction jobs in the past five months, the government said.

Manufacturing employment slipped by 60,000 jobs in October, continuing a downward trend that has seen the nation's factories cut 175,000 workers in the past three months. Employment in this sector has been reduced by 580,000 jobs since January 1989.

Trouble continued to follow the retail industry as well with 50,000 jobs lost

in October after two smaller monthly declines. Wholesale trade companies lost 10,000 jobs during the month while makers of durable goods reduced their work forces by 25,000.

But the overall service industry gained 95,000 jobs in October, with much of the gain coming from health service jobs. Other areas of improvement included social services and private employment.

The average workweek for production and non-supervisory workers fell by half an hour during the month to 34.2 hours. Average hourly earnings for these workers was unchanged in October at $10.17. Average weekly hours, however, fell $4.07 - or 1.4 percent - to $349.85.

But for the year, hourly and weekly wages have gained: 3.7 percent and 2.5 percent respectively.

#90306u0671 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - The National Football League is prepared to move the 1993 Super Bowl from Phoenix if Arizona voters fail Tuesday to approve a Martin Luther King Jr. holiday, The Washington Post reported Friday.

Voters have two referendums to choose from. If either passes, King's birthday becomes an observed holiday in Arizona. That would leave Montana and New Hampshire as the only states that do not have such a holiday.

Should the January holiday remain unobserved in Arizona, the Post reported that the NFL would rather move the 1993 Super Bowl than deal with the sensitive issue.

Such a move would cost the Arizona economy tens of millions of dollars in tourism and other revenue.

Political analyst Joe Lane said the voters will approve a holiday in memory of the slain civil rights leader out of fear of losing the Super Bowl.

''People foresee empty convention halls and stores'' in the days leading up to the Super Bowl if King's birthday remains unobserved, said Lane, a former Arizona speaker of the house.

An Arizona Republic newspaper poll published Thursday indicated Arizonans favored Proposition 302, adding a paid holiday in King's memory, by a margin of 52 percent to 38 percent.

Proposition 301, which would replace Columbus Day with a King holiday, is opposed by a margin of 74 percent to 18 percent, the Republic survey showed reported.

Joe Browne, league vice president for communications, said the NFL ''looks forward to Arizona voters passing the resolution,'' the Post reported.

Phoenix Cardinals wide receiver Roy Green said he and his teammates often talk about the King holiday issue.

''We're one of three states that doesn't have a holiday,'' Green told the Republic. ''Instantly, when you talk to people outside the state, the first they think about is racism.''

BY CLAYTON NAFF - UPI

TOKYO (NOV. 2) UPI - Prime Minister Toshiki Kaifu's mishandling of the Persian Gulf crisis appears likely to cost him his job, but President Bush is being stuck with the blame.

The result could be a serious worsening of U.S.-Japanese relations.

Kaifu's legislation to provide non-combat support for the multinational forces assembled in the gulf region is widely believed to be dead.

Newspaper polls of Japanese lawmakers show a solid majority in both houses opposes the bill and political insiders confirm those polls.

As a result, Kaifu stands no chance of re-election when his term ends in October, political observers say. The more pressing question is whether he can survive that long.

''Kaifu is finished,'' said Seizaburo Sato, a political scientist and confidant of former Prime Minister Yasuhiro Nakasone.

Even members of Kaifu's Liberal Democratic Party are hinting he will have to go.

''It's possible we will have to change to another Cabinet,'' said Setsu Shiga, a Liberal Democrat and close Kaifu associate.

The first hurdle for Kaifu is an election Sunday in his home district of Aichi Prefecture. The election is being touted as a referendum on Kaifu's Middle East policy.

''Kaifu will be okay if we win,'' Shiga said. But if the seat goes to either the Socialists or the Communists, Kaifu will be on the ropes, he added.

Kaifu's mishandling of the gulf question is widely blamed in the Japanese press on Bush. Although Bush said he respected Japan's constitutional limits on deployment of forces, there is a persistent belief in Japan that he has privately pressured Kaifu to send troops to the gulf.

U.S. and Japanese officials say the United States has never asked Japan to send troops - only to contribute personnel to the effort opposing Iraq's Aug. 2 invasion of Kuwait.

The Japanese public's unwillingness to believe this results largely from Kaifu's about-face on deploying troops, analysts said.

On Aug. 29, Kaifu promised he would not send troops to the gulf. At the time officials were planning a volunteer corps of civilians, retired officers and unarmed soldiers seconded to the Foreign Ministry.

In late September Kaifu met with Bush in New York on his way to the Middle East. By the time he returned from the Middle East, efforts to recruit volunteers had failed miserably and Kaifu was beginning to hint that troops might be sent after all.

The government resorted to a bill to create something called ''United Nations Peace Cooperation Corps,'' to be composed mainly of uniformed and lightly armed Japanese soldiers.

''The bill was a fatal mistake,'' Sato said. ''Most people think Kaifu was forced by the United States. It's very shameful and is causing great resentment against the United States''

Sato, who was called to testify Thursday before the parliamentary committee considering the bill, said Kaifu already had the constitutional authority to dispatch destroyers and minesweepers to the gulf to protect sea lanes.

If he had exercised leadership to send the vessels and offer money quickly, he would have been spared this trauma, Sato said.

Speculation on Kaifu's tenure ranges between days and months.

''When this session ends (on Nov. 10), Kaifu will have to resign to take responsibility for this failure,'' said a member of the opposition Japan Socialist Party.

But others say the lack of a clear successor will keep Kaifu in office until one emerges.

In Japan, the prime minister is chosen not by voters but by backroom struggles between factions of the ruling Liberal Democratic Party.

The battle to be king, or more important, kingmaker, sometimes rages for months.

''The tottering Kaifu government will survive until at least May,'' predicted Masaya Ito, a party insider.

But no one seems able to predict who will succeed Kaifu.

Ex-Foreign Minister Shintaro Abe, once viewed as Kaifu's heir apparent, is gravely ill.

His main rival, former Finance Minister Kiichi Miyazawa, has not yet marshalled enough political might to take on the faction backing Kaifu, Ito said.

Kaifu, who came to office in 1989 as a caretaker following a series of disasterous scandals, could conceivably be replaced by another caretaker, such as his own foreign minister, Taro Nakayama, Ito said.

Meanwhile, the imminent failure of the bill appears likely to heighten perceptions abroad that Japan wants its allies to risk their soldiers' lives for Japanese interests in the gulf.

The Japanese public, on the other hand, feels the United States is recklessly bullying Japan into giving up its long-held pacificism for a short-sighted goal.

The result, analysts said, can only be increased strains in the U.S.- Japanese alliance.

#90306u0689 11/02/1990 ~United Press International

(NOV. 2) UPI - Newspapers across the country appear to be reading the same message from President Bush - he is keeping the pressure on Iraq's Saddam Hussein, comparing him with Adolf Hitler, but he is denying his bellicose words are a prelude to war in the Persian Gulf.

In campaign stops in Massachusetts and Florida Thursday Bush escalated the rhetorical war against Saddam while his spokesman told reporters the reason for the tough talk was that ''if we have to take dramatic action, we want the American people to know why.''

Friday's Washington Times in Washington, D.C., proclaimed in a banner headline: ''Bush prepares the country for war.''

But USA Today said in its headline, ''Bush softens war of words,'' The Washington Post proclaimed, ''Bush denies preparing U.S. for war'' and the

Cincinnati Inquirer said, ''Bush talks tougher, but denies war is aim.'' The New York Times carried the Bush story on the inside with the headline, ''President seeks to clarify stand.''

In Boston, The Boston Globe headline read, ''Bush plays down potential for war'' under which a subhead says ''President seeks to clarify bellicose words.'' The Boston Herald heads its story with, ''No compromise - Bush fires verbal shots at Saddam in Bay State stop.''

Many newspapers picked up on Bush's repeat comparison of Saddam to Hitler. In an Orlando, Fla., news conference Bush said many Americans are being held in Iraq against their will, ''many reportedly staked out as human targets, something Hitler didn't do.''

In Ohio, The Columbus Dispatch and the Dayton Daily News carried page one headlines respectively: ''Saddam is like Hitler, Bush says'' and ''Bush says Saddam worse than Hitler.'' The Cleveland Plain Dealer said, ''Bush flogs Saddam from along campaign trail,'' while The Akron Beacon Journal used Bush's quote from a day earlier, '''I have had it,' Bush says of Iraq.''

In New Jersey, headlines picked up on the Saddam-Hitler comparison. The (Newark) Star-Ledger, ''President assails Saddam brutality;'' The Record of Hackensack, ''Bush says Hussein's as brutal as Hitler;'' The (Trenton) Times, ''Bush lashes out at Iraqi brutality;'' and The Trentonian, ''Bush: Saddam's brutalities rival those of Adolf Hitler.'' The Asbury Park Press headline read: ''Iraq vows to free 4 captives, denies mistreatment.''

Other headlines around the country:

The Pittsburgh Post-Gazette: ''Bush: Some of Saddam's acts surpass Hitler's.''

The Des Moines Register: ''Bush likens brutality of Iraq to that of Hitler.''

The Houston Post: ''Bush likens Saddam to Hitler - But says he's not sounding alarm of war.''

The Houston Chronicle: ''Bush blasts brutal acts by Saddam - Defends comparison to Hitler.''

The Los Angeles Times: ''Bush steps up his anti-Hussein campaign.''

The San Jose Mercury News: ''Bush insists he isn't crying war.''

In Texas, the Austin American-Statesman: ''Bush escalates war of words against Saddam.''

#90306u0709 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - A national index of wanted-advertising weakened further in September, indicating the labor market slump shows no sign of easing, the index's authors said Friday.

The Conference Board, a private business research organization based in New York, said advertising volume was hit by rising layoffs and general unemployment.

The index fell to 122 in September, down from 127 in August and down 24 points from the year-ago figure.

''The slumping labor market shows no sign of abating. Layoffs remain elevated, unemployment is slowly rising, and want-ad volume continues to decline at a significant pace,'' said Conference Board Economist Ken Goldstein.

''The economy is clearly very soft. It is much too soft to generate enough job growth to keep unemployment from climbing,'' he said.

Advertising volume fell in seven regions and rose in only two. The Moutain and West South Central regions registered ''modest'' increases of 3.15 percent and 0.6 percent, respectively.

The hardest hit was New England, with a 7.6 percent fall. It was followed by the Pacific, with a 6.9 percent decline and West North Central, 5.7 percent down.

Regionally, the East Coast is ''in significantly worse shape'' than either the West Coast or the Heartland, the Conference Board said.

''New England has been and continues to be the region most affected by developing economic problems. The Middle Atlantic region has been in almost as bad shape, due in no small part to problems in the financial industries,'' Goldstein said in a statement.

The survey, of 51 major newspapers across the country each month, uses ad volume as a sensitive indicator of the local, regional, and national job markets.

#90306u0712 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - The National Football League is prepared to move the 1993 Super Bowl from Phoenix if Arizona voters fail Tuesday to approve a Martin Luther King Jr. holiday, The Washington Post reported Friday.

Voters have two referendums to choose from. If either passes, King's birthday becomes an observed holiday in Arizona. That would leave Montana and New

Hampshire as the only states that do not have such a holiday.

Should the January holiday remain unobserved in Arizona, the Post reported that the NFL would rather move the 1993 Super Bowl than deal with the sensitive issue. Such a move would cost the Arizona economy tens of millions of dollars in tourism and other revenue.

Political analyst Joe Lane said the voters will approve a holiday in memory of the slain civil rights leader out of fear of losing the Super Bowl. "People foresee empty convention halls and stores" in the days leading up to the Super Bowl if King's birthday remains unobserved, said Lane, a former Arizona speaker of the house.

An Arizona Republic newspaper poll published Thursday indicated Arizonans favored Proposition 302, adding a paid holiday in King's memory, 52 percent to 38 percent. Proposition 301, which would replace Columbus Day with a King holiday, is opposed by 74 percent to 18 percent, the Republic survey showed reported.

Joe Browne, league vice president for communications, said the NFL "looks forward to Arizona voters passing the resolution," the Post reported. Phoenix Cardinals' wide receiver Roy Green said he and his teammates often talk about the King holiday issue.

"We're one of three states that doesn't have a holiday," Green told the Republic. "Instantly, when you talk to people outside the state, the first they think about is racism."

LOS ANGELES (NOV. 2) UPI - Cheyenne Brando, daughter of actor Marlon Brando and a possible witness against her half-brother in his upcoming murder trial, lay comatose in a Tahitian hosptial after overdosing on drugs, it was reported Friday.

Physicians at Mamao Hospital told Marlon Brando on Thursday that ''the next eight hours are critical'' to her health, the Los Angeles Times said, quoting an unnamed source close to the Brando family.

A doctor at the hospital confirmed that Cheyenne was a patient there, but would not divulge further details.

Cheyenne Brando is a critical witness in the murder trial of her half-brother Christian, but shortly after he was arrested for allegedly shooting her lover, Dag Drollet, to death, she fled to Tahiti.

Prosecutors have requested a delay in Monday's scheduled start of the murder

trial to continue their attempts to compel Cheyenne to return to testify.

Christian Brando admitted shooting Drollet, but insisted it was an accident that took place during a struggle over a gun. Shortly after the shooting, Cheyenne told police it had not been an accident.

She gave birth to Drollet's son Tookie in Tahiti, where she was charged in complicity with her lover's death.

Drollet's father told the Times last month that Cheyenne has been in psychiatric hospitals twice for drug detoxification since she returned to Tahiti.

Jacques Drollet accused her of ''roaming about in Papeete ... where she has been seen shopping with her mother, Tarita, and her son, Tookie. She is also going out to the beaches and the nightclubs with her new boyfriend, an Italian.''

Marlon Brando, however, insists that his daughter has suffered physical and mental ailments since a near-fatal auto accident and Drollet's death, and at his last court appearance with his son, he wept when asked about her condition.

The prosecution's request to delay the trial is pending before a federal appeals court.

Prosecutors have also asked the Santa Monica Superior Court judge to rule on whether a formal request for help from French authorities in returning Cheyenne to California should be issued.

#90306u0714 11/02/1990 ~United Press International

CENTRAL SAUDI ARABIA (NOV. 2) UPI - The U.S. Postal Service may not stop for rain, snow or dark of night, but Sgt. Michael Bragg says American troops have come up with something that is sure slowing the mail down - letters filled with Saudi Arabian sand.

''They are sending it and it's messing up our machines,'' Bragg said Friday. ''The sand comes out of the letters in leaks and it gets into our (postage stamp) cancelling machines and they get bogged down by the sand.''

Bragg, who sorts mail for U.S. forces participating in Operation Desert Shield said sand-filled letters have caused the canceling machines to break down several times, and on one occasion postal workers had to resort to stamping mail by hand because both machines were out of order.

With 30 tons of mail coming to American troops in central Saudi Arabia each week and 90 tons to forces in the eastern part of the country, stamping the

mail by hand can become a time-consuming process.

''There's nothing wrong with sending sand, but they've got to put it in boxes and mark it because that's merchandise and it needs a customs tag,'' added Sgt. Thomas Brown, another postal worker. ''You just can't seal it in an envelope and send it through a cancelling machine.''

Bragg said he's not sure exactly why so many soldiers are trying to ship Saudi sand back to the United States, but it has become a popular pasttime. Some troopers, when forced to eat the military field rations, try to get the ones with a tiny bottle of tobasco sauce inside so they can fill the miniature container with sand.

''They say the sand here in Saudi Arabia is holy sand,'' Bragg said. ''I guess that's one of the reasons why a lot of people want to send the sand home.''

Sand isn't the only problem that the post office workers face. Some people have tried to send alcohol and magazines like Playboy and Penthouse to American soldiers in Saudi Arabia, which has strict laws against drinking and nudity.

Postal workers said the Saudi customs officials destroy the magazines. The officials could have fined the soldier to whom the liquor was mailed, but they declined to do so, the Americans said.

Another problem is getting the mail to the proper person. To ensure quick delivery, postal workers said the letter must contain the soldier's rank, name Social Security number, unit and proper postal number.

The postal workers also were concerned about the Christmas rush and said mail should be sent early. But Bragg said sand continued to be one of the biggest problems.

His post office is a tiny bit of Americana stuck in the middle of Saudi Arabia. It has electronic scales for weighing mail, rows of combination postal boxes for U.S. residents living in Saudi Arabia and signs urging people to vote.

''Some things were never meant to be mailed,'' one sign said. ''Please check with local postal officials before attempting to mail any questionable materials.''

But still the sand keeps coming.

''I get letters on my desk full of sand and I just return them to their commanders,'' Bragg said. ''I already put a letter out saying, 'Tell the troops not to send sand,' but still they send it.''

#90306u0725 11/02/1990 ~United Press International

JERUSALEM (NOV. 2) UPI - Palestinians in the occupied West Bank and Gaza Strip observed a general strike Friday to protest the 73rd anniversary of the Balfour Declaration, a statement of British policy supporting a Jewish homeland in Palestine.

To prevent demonstrations, the army clamped curfews on much of the Gaza Strip and West Bank. Five Gaza Strp Arabs suffered slight wounds during clashes with troops in Gaza City, Palestinian sources said.

Security forces also stopped Palestinians from the occupied territories from entering Jerusalem to attend Friday Moslem prayers at the Al Aqsa Mosque on the Temple Mount, the site of a deadly clash last month. Palestinians were turned back at checkpoints set up at the city's entrances.

Police prevented young Moslems from entering the Temple Mount. Prayers were held without incident.

Shops were closed and many Arab workers stayed home in observance of the strike.

The Balfour Declaration was seen as great victory by Zionists working to establish a Jewish state in Palestine. The declaration cleared the way for Jewish settlement and development that helped lay the groundwork for the foundation of Israel in 1948.

On Nov. 2, 1917, British Foreign Secretary Arthur J. Balfour conveyed to Lord Rothschild a statement declaring that Britain ''view(ed) with favor the establishment in Palestine of a national home for the Jewish people.''

Opponents of the declaration, including Arab residents of Palestine, said Britain had promised the Jews land that did not belong to Britain.

In a separate development Friday, a Jerusalem court ordered a Palestinian who was extradited from the United States on murder charges held 15 days for investigation. Mahmoud Abed Atta is accused of machine- gunning to death an Israeli bus driver in the West Bank during a 1986 attack by Abu Nidal's guerrilla organization.

Atta was brought back to Israel Wednesday after fighting extradition for three years. The State Department has said the Abu Nidal group has threatened to attack U.S. targets if Atta were extradited.

#90306u0729 11/02/1990 ~United Press International

MONTREAL (NOV. 2) UPI - A drop in demand for aircraft engines is the reason Pratt & Whitney Canada Inc., a subsidiary of Hartford, Conn.-based United Technologies Corp., will lay off up to 1,200 employees in January, a company official said Friday.

Pratt & Whitney spokeswoman Louise Boutin said a recession in Canada has resulted in customers asking the engine maker to cut deliveries. As a result, Boutin said "we have to reduce." The company will cut its workforce by 1,000 to 1,200 employees, she said.

The company employs 9,500 people, about 8,400 at a plant in the Montreal suburb of Longueuil. The company also operates two smaller plants near Toronto and in Halifax, Nova Scotia.

Boutin said management will spend November assessing where cuts can be made and that employees would be informed in early December. She said all three plants will be affected and that the layoffs will take place in January.

Although the company doesn't see the current recession as being as deep as the one in 1981-1982, Boutin said it was impossible to know when the economy will recover.

Boutin wouldn't say say whether the lay offs would be temporary or permanent only that the cuts would affect manufacturing, engineering and support staff. Pratt & Whitney builds small gas turbine engines primarily for corporate jets and regional commuter aircraft.

#90306u0731 11/02/1990 ~United Press International

LONDON (NOV. 2) UPI - Fallen East German leader Erich Honecker said in an interview published Friday he felt no guilt for the hundreds of Germans shot trying to cross the Berlin Wall and blamed Soviet leader Mikhail Gorbachev for betraying Communism.

''The intrigues which were aimed at destroying our party are already pretty transparent and they have done a lot of harm,'' Honecker said in the interview with the London-based newspaper The European. ''It was the same scenario in all the former socialist countries.''

''It won't be too long now before it becomes clear where the roots of these developments lay. The communist movement has suffered a defeat but will recover,'' Honecker said, naming Gorbachev as the intriguer.

The East German leader, who fell from power on Oct. 18 last year, was interviewed at he and his wife's tiny, drab apartment inside a heavily guarded Soviet military hospital at Bielitz, just outside Berlin.

The paper said he looked thin and was simply dressed but he denied that he had terminal cancer. He said he had undergone gallstone surgery and a large tumor was found but that it had been benign.

He said he had no fear of a show trial and lived on a small pension paid by the German government.

''I am not afraid of a show trial. I consider all the charges brought by the prosecutor's office to be untenable. I also reject responsibility for the ... 200 killed on the GDR borders. I have no personal guilt for that.

''And what, I ask myself, about those who killed GDR border guards while violating our frontiers,'' Honecker said.

Honecker said he felt bitter about the speed with which East Germans embraced the West.

''On the one hand it is a great disappointment to me that so many people have forgotten socialism and turned to the D-mark instead. But I am not afraid that former GDR citizens will threaten me or lynch me... Quite the contrary. In the end I will be seen to have been right. It has already become quite obvious to all what rights and social services they have lost,'' Honecker said.

Honecker said he was shocked at allegations of personal corruption.

''In the present situation they need scapegoats and I am being made the biggest one. My wife and I are shocked by the allegations and calumnies against us. We are accused of corruption and self-enrichment at the expense of the people. But Margot and I have nothing to reproach ourselves with. We did not lead a life of luxury and we do not have a bank account in Switzerland,'' he added.

Honecker complained he had been denied requests for a small ordinary flat in Berlin and permission to travel to Chile to visit his daughter.

#90306u0740 11/02/1990 ~United Press International

HOUSTON (NOV. 2) UPI - Jurors began deliberations Friday in a $7 million lawsuit filed against a priest and the Roman Catholic Church by a woman who claims the priest forced her into a sexual relationship and fathered her child.

Debbie McCorvey originally sought $11 million from the Catholic Diocese of Galveston-Houston and Father Fernando Noe Guzman. But her attorneys Thursday reduced the claim to $1 million in actual damages and $6 million in punitive damages.

McCorvey, 34, claims Guzman exploited her dependence on him as a counselor by

requiring her to have sex. She maintains their nearly two- year relationship was forced and violent.

The suit also claims church officials were at fault for not making sure Guzman 39, received counseling and therapy after he was discovered in a sexually compromising position with a 13-year-old girl at a Navasota church.

McCorvey's attorney, Jack Evans, said church officials ''sent a deviant in sheep's clothing'' when they transferred Guzman to a Galena Park church where McCorvey worked as a secretary.

When McCorvey sought counseling from Guzman, it was ''like a lamb to slaughter '' Evans said.

Jack Zimmermann, another McCorvey attorney, told the jury of eight men and four women that diocese officials tried to cover up Guzman's previous sexual misconduct. Bishop Joseph Fiorenza testified he did not know the extent of Guzman's misconduct or that it involved a minor.

Church officials claim McCorvey's relationship with Guzman was consensual. Attorney Margaret Wilson said McCorvey enjoyed the power of her job as parish secretary and director of religious education.

When McCorvey became pregnant by Guzman in 1986, she begged church officials to let her keep her job teaching religion to children and to allow Guzman to remain a priest, Wilson said.

But once Guzman was fired, McCorvey lost interest in him, the attorney argued.

''He was a nobody,'' she said of Guzman. ''He still wanted her, but she didn't want him anymore.''

#90306u0756 11/02/1990 ~United Press International

(NOV. 2) UPI - The New York Times quotes the commander of the U-S forces facing Iraq as saying that his troops can destroy Iraq. But General H-Norman Schwarzkopf warns that Iraq's total obliteration might NOT be ''in the interest of the long-term balance of power in the region.'' The general reportedly said that war could erupt ''anytime,'' but he says he does NOT expect any military action soon.

President Bush says he isN'T trying to prepare the nation for war, but aides say he's trying to ready the American people for any eventuality. The somewhat conflicting remarks yesterday are causing some confusion among headline writers today. The Washington Times newspaper carries the headline ''Bush Prepares Nation for War,'' while the headline in U-S-A today reads ''Bush Softens War of Words.'' Bush is to appear today at G-O-P rallies in

Cincinnati... Rochester, Minnesota... and Sioux City, Iowa.

An UNofficial delegation of three Irish legislators is scheduled to meet Iraqi authorities in Baghdad today in a private effort to win the release of about 220 Irish citizens stranded in Iraq and Kuwait. The three politicians are making the visit despite an agreement among the 12-nation European Communty last weekend NOT to negotiate individually with Iraq over hostages.

U-S Comptroller General Charles Bowsher says budget writers must scrutinize the need for every domestic and defense spending program, instead of just aiming for mandatory deficit-reduction targets. Speaking at the University of Georgia, Bowsher said unless the federal government gets its spending habits in check ''in the next few years,'' it will take a national sales tax to cover the federal deficit.

Violence over a disputed holy site in north India left at least 32 people dead today. The victims include 16 Hindus shot by police when about 10-thousand people tried to storm barricades and begin construction of a temple about 345 miles southeast of New Delhi. More than 130 people have died in violence in India since Tuesday.

A Southfield, Michigan, man paid 714-dollars at an auction yesterday for a scarf owned by singer Madonna. After buying the blue scarf, Moses Findley said he will put it back on the auction block to raise money for the homeless. And he hopes Madonna, a Michigan native, will be among the bidders. .

Madonna wore the scarf and a blue sequined dress in her ''True Blue'' video and the ''Who's That Girl?'' movie. Both garments were stolen two years ago from an M-T-V display at a mall in the Detroit suburb of Novi . A 19-year-old Dearborn woman was put on probation for the theft. Police say M-T-V took the dress back, but showed NO interest in the scarf, which was put up for auction.

#90306u0775 11/02/1990 ~United Press International

LOS ANGELES (NOV. 2) UPI - Since the start of the Middle East crisis, calls to a national mental health hotline have increased between 30 and 40 percent as American workers increasingly exhibit stress brought on by outside events.

''Most callers aren't aware that personal anxiety is increased by world tension,'' said Ronald W. Moreland, president of Managed Health Network, which provides a 24-hour emotional help ''Warm Line'' to more than 2.5 million American workers and their families.

''Calls following the evening news have escalated to where we've added additional staff at that time of day,'' he said.

Moreland, whose firm provides toll-free telephone counseling services serving

both white and blue-collar workers employed by some 370 employers nationwide, said there has been a significant increase in the number of calls for help from people from the Middle East, now living in the United States.

''Significantly, there has been over the past month more calls dealing with attempted suicide,'' he said.

Moreland said callers requesting a counselor who can speak Farsi, the language of Iran, are up nearly 30 percent over the past six weeks.

The company official said that many Middle East natives report increasing stress in their relationships with Americans, believing that they are being blamed for the crisis in the Persian Gulf.

''It's somewhat misleading to that it's all the Middle East (causing stress) '' Moreland said. ''It is the Middle East, budgetary concerns. Probably higher gas prices.

''There clearly is a signficant upswing (in calls) after the evening news,'' he said.

''There are a lot of calls from spouses for those overseas. Their husbands have been called up (by the military). They are concerned about the wages they no longer receive and there are problems with bills, loans and mortgages.''

Moreland said financial problems are exacerbated because ''most people tend to live over their heads - on plastic.''

Moreland, whose firm provides the mental health counseling for such firms as American Express, Pepsico, Hunt-Wesson, GTE, the Disney Co., and Rockwell, as well as cities, school districts and other employers, said many spouses are feeling stress because they are left to cope with rearing the children while their mates are in the Middle East.

''We try to get them into a dialogue about specific problems and refer them to specialists in such areas as alcohol and chemical dependency,'' he said. ''Some who are left alone for the first time have trouble even balancing a checkbook.''

Subscriber-callers to the Managed Health Network hotline maintain their anonymity, Moreland said, but callers are asked to identify their employer.

''We do provide quarterly reports to clients (employers) and break down all these things (problems), he said.

''If there is a serious chemical abuse problem or an indication of widespread depression or stress, we try to help employers get to the root causes of these problems and we may train company supervisors to respond to the workers'

problems.

-30- 3309
#90306u0777 11/02/1990 ~United Press International
DAR ES SALAAM, TANZANIA (NOV. 2) UPI - Young Tanzanian Moslem men have been trying to register with the Iraqi embasssy to join and fight on the side of Iraqi troops in the gulf crisis, the official Tanzanian news agency said Friday.

''(They) came to express their solidarity with the people of Iraq'' on the gulf crisis, Iraqi Ambassador Fauz ali al-Bender said. ''We believe their expressions are coming from their hearts,'' he added.

The ambassador denied, however, that Iraq was actively recruiting Tanzanians into its military service.

''There is nothing like that. Those are absolute lies,'' he said.

Asnour Abbas, Tanzanian principal secretary in the Ministry of Foreign Affairs warned the Iraqi ambassador Friday that the recruitment of Tanzanians was illegal and the practice should stop immediately.

Some youths told journalists they had gone to the embassy when they heard there were employment opportunities in Iraq.

''We have no employment here and we feel we should accept to take any job that is available,'' one young man said.

On Wednesday the Shihata news agency reported a large number of youths had been registering at the embassy to join the Iraqi army.

Registration apparently started several weeks ago, the agency said, and was mainly open to men aged between 20 and 30. Most of those who came were from the island of Zanzibar.

''What I know is that I am going to join the Iraqi army,'' the agency quoted one youth as saying.

In Zanzibar, 97 percent of the population is Moslem, whereas only 60 percent of the mainland population is Moslem.

Applicants had to read and swear by provided passages of the Koran - the sacred book of Moslems - which read: ''You are aware that Saudia is a holy land and the troops there have no right to be there as they are mixed with non-Moslems. Our Lord said you should fight to protect your religion and make jihad (holy war) in my faith and prophets,'' Shihata said.

NEW YORK (NOV. 2) UPI - Latest metal market prices as quoted Friday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 81.00-87.00 c- lb.

Antimony, domestic, refined in alloy, $2.00 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 119.63-123.00 c-lb.

Lead, common, U.S. primary producers 41.00-52.00 c-lb.; U.S. non- primary (secondary) producers 45.00-52.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $210.00-$240.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.50-4.75 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $102.00-$107.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $435.00-$459.00; dealer- approx., $436.00-$460.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $105.00-$109.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $105.67 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 297.25 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 80.00 c-lb.

WASHINGTON (NOV. 2) UPI - Buyers' interest in condominiums and cooperatives weakened during the third quarter, as resales dropped 12.6 percent from the second quarter and 5.5 percent from year-ago levels, the National Association of Realtors said Friday.

The association said the condo and co-op annual sales rate declined to 312,000 units during the period, and quarter-to-quarter declines were posted in all regions except the South. The median price for existing condos was $84,400 during the third quarter, unchanged from a year ago.

With the Persian Gulf crisis and (an) economic downturn grabbing headlines of late, "fear of the unknown kept many home buyers out of the market," said Norman Flynn, the association's president.

Flynn said credit for condo purchases remained available during the quarter, and remains available now. "People who are able to buy would be well-advised to get off the sidelines," Flynn said. "They should not let gloom and doom headlines obscure the long-term benefits of home ownership."

In the South, condo and co-op sales rose 1.1 percent during the quarter and a strong 10.5 percent from year-earlier levels. Flynn said most of the South's condo market is concentrated in Florida, and appeals to the influx of retirees to the region. Southern condo prices slipped 3.5 percent from year-earlier levels to a median of $66,500.

But elsewhere in the nation, condo prices took a dive during the quarter. In the Northeast, the region with the greatest supply of condos, sales dropped 16.6 percent during the quarter and 14.8 percent from year-ago levels.

Flynn said the area's generally sluggish real estate market has made single-family homes more attractive to potential condo buyers. The median price for condos in the region rose 2.3 percent from year-ago levels to $115,100 while the median home price dropped 2.7 percent to $143,100.

Condo sales in the West dropped 17.4 percent during the quarter and were down 2.6 percent from year-earlier levels. Again, the drop was attributed to lower prices for single-family homes. Condo prices in the West dropped 16 percent during the quarter from year-ago levels to a median of $92,300.

In the Midwest, condo sales were off 20.8 percent from the second quarter and down 9.5 percent from year-earlier levels. The sales decline failed to bring down prices, which rose 4.8 percent to a median of $69,200.

#90306u0793 11/02/1990 ~United Press International
ANKARA, TURKEY (NOV. 2) UPI - Turkey watched with interest as ethnic Turks in the Soviet Union made moves to win autonomy or outright independence, but Ankara continued the cautious policy it adopted early this year, officials said Friday.

The Turkish press gave prominence this week to reports from the Soviet Republic of Moldavia, bordering on Romania, that Gagauz Turks were seeking autonomy from the majority Moldavian community, but officially Turkey has avoided taking sides in the dispute.

A Foreign Ministry spokesman said the conflict between the Gagauz Turks and the Moldavian majority was an internal issue of the Soviet Union, but ''Ankara is very much interested in the matter and urges restraint'' on both sides.

Murat Sangur said Turkey hoped the Soviet Union would abide by rules set by the Conference on Security and Cooperation in Europe.

Ankara's official stance on the secessionist move among the Gagauz Turks, an ethnic minority of about 150,000 people in a total population of some 4.3 million, bears resemblance to the policy it adopted when some Azerbaijani Turks sought to secede in January.

The Gagauz Turks in Moldavia, however, are descendents of Turks who converted to Christianity and fled to what is now the Moldavian Republic about 160 years ago.

The Turkish media has shown less interest in the Gagauz Turks than it did in the Azerbaijanis, who are staunch Moslems and are in the majority in the Soviet Republic of Azerbaijan.

The conflict between Azerbaijanis and Soviet Armenians, who are Christians and traditional enemies of the Turks, also aroused more interest in Turkey.

In Moldavia, a state of emergency was declared and Soviet troops were called in to restore order as Gagauz Turks sought to set up an autonomous republic on a strip of terriotory.

Analysts said the government in Ankara appeared to be concerned that the Gagauz Turkish issue could develop into a refugee problem for Turkey. ''We've had enough of refugees for the time being,'' one political analyst said.

Thousands of ethnic Turks from Bulgaria fled to Turkey last year when the Sofia government tried to enforce a policy of integration between them and the majority Slavic community by suppressing the Turkish language and forcing ethnic Turks to adopt Slavic names.

The crisis subsided when the government reversed the policy as it moved toward democratic reforms, and the majority of Bulgarian Turkish refugees have since returned home.

PRAGUE, CZECHOSLOVAKIA (NOV. 2) UPI - President Bush will make a brief visit to Czechoslovakia on Nov. 17 before going to Paris for the Conference on Security and Cooperation in Europe, the official news agency CTK said Friday.

The one-day visit to Czechoslovakia, the first by a U.S. president, will coincide with the anniversary of last year's democratic revolution that swept communists from power, the news agency said.

CTK said the invitation to visit Czechoslovakia was extended by President Vaclav Havel, who only a year ago was a dissident playwright and former political prisoner.

Bush was scheduled to leave Washington on Nov. 15 and meet with Chancellor Helmut Kohl in Germany on his first stop of a European swing. The journey, expected to last about 10 days, also will take Bush to Saudi Arabia, where he will spend Thanksgiving Day with the thousands of troops sent to the Persian Gulf region to deter further Iraqi aggression.

The main purpose of the visit is the Nov. 19-21 summit of the CSCE, which is expected to be highlighted by the signing of a conventional arms agreement by Bush and Soviet President Mikhail Gorbachev.

#90306u0842 11/02/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (NOV. 2) UPI - Zimbabwe has released a South African woman serving a 12-year prison sentence for spying on the African National Congress.

The release marked a significant thawing of relations between Zimbabwean President Robert Mugabe and the South African government.

Odile Harington, 29, released Thursday after serving nearly three years of her sentence, was put aboard a special flight back to South Africa and received a welcome from President Frederik de Klerk in Pretoria Friday, a government statement said.

''The government is grateful that Miss Harington has been released and expresses its appreciation to the government of Zimbabwe,'' the statement said. ''The state president will send a personal message in this regard to

President Mugabe today.''

The Zimbabwean news agency, Ziana, confirmed Friday that Harington was pardoned by Mugabe, who has ruled Zimbabwe since its independence in 1980 and remained a most consistent foe of apartheid among the southern African leaders.

''The president's decision was prompted by the general improvement in the political climate in southern Africa, including the cessation of hostile acts against Zimbabwe by the South African government,'' Zimbabwean Minister Emmerson Mnangagwa told Ziana.

Zimbabwe, formerly Rhodesia, had been the target of South African destabilization efforts since the end of white minority rule in 1980, including scattered sabotage attacks by South African agents. At the center of the southern African region, Zimbabwe not only sheltered ANC exiles but allowed its territory to be used as a base for guerrilla attacks into neighboring South Africa.

While leaders of less prosperous southern African states, including Zambia and Mozambique, have welcomed moves by South Africa to patch up relations with its black-ruled neighbors and expand economic ties, Mugabe has remained publicly cool toward de Klerk.

The thaw began publicly last month when a parliamentary delegation visited Harare and held talks with Zimbabwean legislators and the South African government halted broadcasts of the anti-Marxist Radio Truth into Zimbabwe.

South African officals regard Mugabe as key to any regional economic cooperation to reverse years of hostility caused by Pretoria's efforts to destabilize its neighbors partly as punishment for their support of the ANC.

The Johannesburg Star reported Friday relations could further improve by a possible decision by Zimbabwe to lift a ban on contact at ministerial level.

Harington, who had posed as a left-wing activist, was jailed in Zimbabwe on charges of passing on intelligence about the ANC to Pretoria and sentenced to 25 years imprisonment, the maximum for the offense under Zimbabwean law.

The sentence was reduced on appeal to 12 after Zimbabwe's Chief Judge Wilson Sandura took into account Harington's protests of sexual assaults and torture while being detained for 10 months before her trial.

#90306u0845 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - International Business Machines Corp. and American Telephone & Telegraph Co. topped the list of the companies most computer and engineering students would prefer to join if given a chance, a survey said

Friday .

Hewlett-Packard Co., of Palo Alto, Calif., was third, followed by Digital Equipment Corp., of Maynard, Mass., and Apple Computer Inc., of Cupertino, Calif., according to a poll conducted by Computerworld magazine in its current Special Campus Edition.

The Northeast, with four companies, is the No. 1 region for students looking for good jobs, followed by California, with three. "Traits the students look for among potential employers include opportunities for further education and training, a global corporate outlook and meaningful responsibilites," the magazine said.

"For students looking for a rewarding job with clout, a solid background in business and technology is quickly becoming a ticket to a fast ride up the corporate ladder," Computerworld said.

Although many students feel high-technology is a great sector to get a quick promotion, minorities are often shut out of the senior management of a profession "that is overmingly white," Computerworld said.

"Computer professionals, academics and recruiters say minority men and women rarely attain the highest ranks of information systems management," it said.

Although minorities are making headways in other sectors, their chances of landing a senior position in a high-technology company have not improved over the past decade.

"In 1988, 92 percent of information systems managers were white and eight percent were minorities - the same percentage split found in 1980 and 1985," Computerworld said, quoting figures compiled by the Equal Employment Opportunity Commission.

Also among the top ten companies students favored most as potential employers are General Electric Co., based in Bridgeport, Conn., Motorola Inc., of Schaumburg, Ill., Arthur Andersen & Co., of St. Charles, Ill., Microsoft Corp. of Redmond, Wash., and Intel Corp., of Santa Clara, Calif.

The Special Campus Edition is distributed to more than 135,000 students nationwide and Computerworld reaches over 600,000 key executives. It is the flagship publication of International Data Group, with 145 high-technology titles in different languages sold in 44 countries.

#90306u0871 11/02/1990 ~United Press International

NAIROBI, KENYA (NOV. 2) UPI - Five lawyers Friday claimed in court that a leading political dissident, Koigo wa Wamwere, had been tortured and subjected to inhuman and degrading treatment.

Lawyers John Khaminwa, Japheth Shamalla, Kauma Mussilla, Martha Njoka and Beatrice Nduta told a magistrate's court that security personnel had also tortured two other accused dissidents charged alongside Wamwere with plotting to overthrow the government.

Shamalla, once a permanent secretary in Kenya's Foreign Office, said security agents last Monday moved Wamwere from Kamiti Maximum Security prison to the notorious Naivasha maximum security jail, about 55 miles northwest of Nairobi.

He also said the prison authorities had denied defense lawyers access to their clients.

The court responded that Shamalla and a private doctor would be allowed to visit Wamwere in jail next Tuesday and said he had not been specifically remanded to Kamiti, a Nairobi suburb.

Prosecutor Alex Etyang said any complaints relating to alleged torture or the denial of access would have to be referred to the High Court, which is to take over the case.

Wamwere, lawyers Rumba Kinuthia and Mirugi Kariuki, and Kuga Kariuki, on Oct. 19 were charged with treason, a crime punishable by death in Kenya.

Wamwere had been in political exile in Norway until last month when he appeared in Kenya and was arrested, allegedly in possession of a cache of weapons and ammunition which, according to the government, he was planning to use to overthrow President Daniel arap Moi.

The case, which led to a row between the Kenya and Norway and the expulsion of the Norwegian ambassador and his staff from Kenya, was adjourned until Nov. 15.

#90306u0892 11/02/1990 ~United Press International

KUALA LUMPUR, MALAYSIA (NOV. 2) UPI - South African black leader Nelson Mandela Friday accused right-wing elements in Pretoria's security forces of unleashing a campaign of violence to halt negotiations to dismantle apartheid.

The 72-year-old deputy president of the African National Congress said that ''silent vigilantes'' had been trained by radical white extremists to hack, shoot, ambush and kill innocent men, women and children in the hope that the violence would stop negotiations towards black majority rule.

Mandela, addressing about 7,000 people at an indoor stadium in Malaysia, said, ''The black people in our country are not being killed by other blacks. The security forces of the government have trained certain black men in order to carry out the work of killing innocent people.''

At the same rally, Prime Minister Mahathir Mohamad said Malaysia will continue to play an active role against apartheid in every forum, including the British Commonwealth and the United Nations.

Malaysia would continue to act and urge others to apply as much pressure as possible against the government of South Africa to dismantle apartheid, he added.

''Although some might think that what has been done was enough and it is time to cease sanctions against South Africa, we ourselves are not yet convinced,'' Mahathir said.

''But we do not think that is enough and we feel sanctions against the apartheid regime must go until all those people are liberated.''

The prime minister said Malaysia was looking forward to the day when a free South Africa would rejoin the Commonwealth as its 51st member.

''We will certainly be even willing to propose that South Africa become a member of the Commonwealth, and together we can make the Commonwealth more meaningful,'' he added.

Mahathir described Mandela as a nationalist who had come out of his 27-year imprisonment ''neither broken nor beaten.''.

Mandela arrived Thursday from Japan with a 14-member entourage for a four-day visit. He leaves for Brunei Sunday, continuing an extended trip through Asia.

-30- 2283

#90306u0922 11/02/1990 ~United Press International

LONDON (NOV. 2) UPI - Prime Minister Margaret Thatcher Friday named Education Minister John MacGregor successor to Geoffrey Howe as her ruling Conservative Party's floor leader in the lower house of Parliament.

Party leaders, meanwhile, worked to patch the damage from Howe's resignation Thursday.

Howe, who served as Conservative Party leader in Parliament and deputy prime minister to Thatcher, rocked the government by quitting in objection to her position against eventual total union with Europe.

MacGregor would fill Howe's place as party leader in Parliament, while Health Minister Kenneth Clarke took over the reins as education minister, a Downing Street spokesman said.

William Waldegrave, currently junior minister at the Foreign Office, will take over the job as health secretary, said the spokesman.

Thatcher named the replacements from her country retreat, Chequers, where she traveled Friday in order to duck the controversy surrounding Howe's resignation. She did not name a new deputy prime minister because she was not obliged to, the position being a created one.

Howe, who had been the last surviving member of Thatcher's first Cabinet formed when she took power in 1979, was a former chancellor of the exchequer and foreign secretary and a highly respected member of the ruling Tory elite.

Howe tried to minimize the potential for political damage, timing his Thursday evening resignation to coincide with the closing of the current session of Parliament. He refused to speak with reporters who clustered outside his residence, claiming he had lost his voice.

Howe quit because of differences with Thatcher over policy on European unity. The prime minister is reticent to fully embrace unity because she believes it will involve yielding too much British sovereign power. Howe, on the other hand, has said Britain must be at the center of an eventual European partnership.

Britain's political opposition gloated over the open divisions of the ruling party in the wake of the resignation.

''There is no unity between the two sides, and any attempt at unity is now clearly cosmetic,'' Labor leader Neil Kinnock said.

Peter Temple Morris, chairman of the Conservative Party's Foreign Affairs Committee and an avowed pro-European member, clearly stated some party members want change.

He objected to ''the awful amount, almost agonizing amount of talent that is going into pretending nothing is wrong,'' and suggested that ''it is perhaps slightly up to her (Thatcher) to make some adjustment to what many of us want.''

But senior Conservative Party members downplayed the impact, and stressed continuity.

''Resignations always cause damage, not the least because Sir Geoffrey was a very senior figure held in very great affection by the Conservative Party,'' Chancellor of the Exchequer John Major said. ''We will miss him, but it will not change policy. Policy is clear, and Geoffrey actually endorsed the policy in his own comments.''

Foreign Secretary Douglas Hurd also tried to quash ideas of any deep divisions within the Cabinet over Thatcher's lonely policy on European unity.

''It is not a question of disagreeing about policy, because (Howe) is very strongly in favor of her policy that he helped to make, the policy of making a success of our membership in the community,'' Hurd said.

But Howe's departure spawned suggestions that Thatcher may be confronted by a leadership challenge before elections that must be held by mid-1991, and at the very least, will have to relax her stance on Europe.

His resignation letter said that in Europe, Britain should be ''playing the sort of leading and constructive role that commands respect, and that Thatcher's recent strident statements against European unity made it harder for London "to hold and maintain a position of influence in this vital debate."

Thatcher said she accepted the resignation ''more in sorrow than in anger,'' and that their differences over Europe were not ''nearly as great as you suggest.''

Thatcher's objections to handing too much power to the 12-nation European Community's headquarters in Brussels climaxed in Rome last weekend, when she alone refused to sign a communique in which the other 11 members pledged to create a common European currency by the end of the century.

In a speech Tuesday in the House of Commons, the prime minister reiterated the pound sterling, Britain's currency, will not be eliminated by the government.

#90306u0926 11/02/1990 ~United Press International

(NOV. 2) UPI - Nine of the government's 11 key economic indicators pointed down in September as the barometer of future economic activity dropped eight-tenths of one percent. But this is less than a revised decline of one-point-two percent for August. Analysts often feel that three or more consecutive months of downturn indicate the danger of a recession. But the economy has hit that pattern several times in recent years and lived to tell the tale.

The Labor Department released its October job figures this morning, and unemployment was the same as in September, five-point-seven percent of the

work force. The lack of change came despite the fact that total civilian employment was down by some 100-thousand jobs, to 117-point- seven-Million. Some of this came on the loss of 80-thousand jobs in the construction industry hard hit by lower construction of everything from office towers to homes.

Two men in a security car following a New York Daily News delivery truck were attacked early today while traveling through Queens. The two, who gave police addresses from North Carolina, were taken to Jamaica Hospital suffering from face and head injuries. They were attacked as a bitter labor dispute against the Daily News moves into a second week. An estimated 13-thousand people turned out last night at the Daily News building on 42nd Street in a massive show of support for the strikers.

The U-S commanding general in Operation Desert Shield says there are altenatives to destroying Iraq in the drive for peace and stability in the Persian Gulf region. General Norman Schwarzkopf says in an interview published today that he wants everything possible done to avoid a war in the Gulf. But he says that if one does, he will be ''ferocious'' and do what it takes to end it quickly.

President Bush promised in Cincinnati this morning to do his ''level best'' to bring every American soldier home from the Persian Gulf- quoting now- ''without a shot being fired in anger.'' But Bush also told cheering Republicans at a fund-raiser that the United States will NOT stop short of the stated objective of making Iraq withdraw from Kuwait. Bush says the nation is standing for a principle in the Gulf region and- quote- ''that principle must prevail.''

Michigan authorities intensified their search in the Saginaw area today for a drugstore clerk who killed two of his co-workers with a claw hammer. A state-wide alert was issued for 28-year-old Steven Edward King, who is thought to have fled the area and possibly the state. King allegedly beat 17- and 24-year-old co-workers with the hammer in a storeroom. A pharmacist in the store at the time managed to escape with only minor injuries.

Former Representative Pat Swindall says he can now prove that he was framed in a money-laundering scheme. Swindall is asking a federal judge in Atlanta for a court hearing, saying government prosecutors withheld evidence in the case. The Republican is free pending appeal of his 1989 convictions on nine counts of perjury for lying to a grand jury.

A Los Angeles report says Marlon Brando's 20-year-old daughter is hospitalized in a coma in a hospital in Tahiti. The report quotes sources close to the family as saying the woman overdosed on tranquilizers and anti-depressant drugs. Cheyenne Brando has been the object of a legal tug-of-war between Tahiti and California, where authorities named her a key witness in the murder case against her half- brother, Christian. Cheyenne Brando's lover was shot to death in Marlon Brando's California home in May. Cheyenne Brando has refused

to return to California to testify in the case.

AUSTIN, Texas (NOV. 2) UPI - A Travis County jury has found that three-wheeled all-terrain vehicles sold by Honda were not designed defectively, and that Honda was not guilty of deceptive trade practices in their sale.

Capping one of the longest trials in Travis County history, the jury also found Thursday that Honda Motor Co. Ltd. did not engage in a conspiracy to conceal the danger of its ATVs and did not misrepresent its capabilities.

The jury did find there was a defect in the way Honda marketed the ATVs, saying their should have been additional warnings to consumers about potential dangers, and awarded the plaintiffs $800,000.

But that was far short of the $800 million that had been sought by Tammie Sue Mullins, 31, of Austin, and her son, Jeffrey, 9, in their product liability suit against Honda.

Mullins suffered permanent injuries, including brain damage and a loss of mobility on the left side of her body, in an ATV accident in 1984. According to the suit, Mullins was riding up a mound of sand when the ATV flipped backward and the headlight struck her in the face.

Corpus Christi attorney David Perry, who represented Mullins, argued that Honda's ATVs were defective because they are unstable, have a center of gravity that is too high, do not steer well and are not designed as off-road vehicles even though they are advertised for off- road use.

But the jury ruled unanimously that Mullins was negligent for not wearing a helmet as recommended by the Honda's owners manual and a sticker attached to the vehicle's gas tank.

Defense attorney Richard McCarrol said the five-month trial was worthwhile for Tokyo-based Honda ''because we feel we were vindicated. It wasn't worth it for the plaintiff.''

Perry told jurors after the verdict that his expenses totaled about $750,000, which would leave Mullins with little of the $800,000 verdict. McCarrol said Honda offered Mullins a settlement before the trial that was ''substantially more than what she's going to get.''

Critics have claimed that three-wheeled ATVs roll over too easily and are prone to flipping backward onto the driver on steep hills. About 1, 400 people have died in accidents involving ATVs since 1982.

Honda and other manufacturers of three-wheeled vehicles agreed in 1988 to stop selling the vehicles, but there was no finding by federal authorities that they were defective. Four-wheeled ATVs continue to be sold.

ST. REGIS INDIAN RESERVATION (NOV. 2) UPI - Quebec police said Friday they didn't know if a rampage by youths on the Canadian side of the violence-plagued reserve was sparked by the acquittal of a Mohawk newspaper editor on a murder charge.

Quebec police spokesman Pierre Rochefort said a group of youths have been causing problems on the Quebec portion of the Canada-U. S. border- straddling reserve in the vicinity of the town of St. Regis for about the last three weeks.

Rochefort said about 40 youths, age 8 to 18, began throwing rocks at police and vandalizing property for about two hours early Thursday evening.

At one point, a marine flaregun was fired at police, but no one was hurt and

there were no injuries reported, Rochefort said. More than 70 police were involved in the disturbance, he said.

A police car was destroyed and two police minibuses were damaged in the rampage, Rochefort said.

On Thursday, crusading Mohawk newspaper editor Doug George was cleared of charges he had killed another Indian during a gun battle over allowing casinos on reservations.

A Quebec judge ruled at a preliminary hearing Thursday there was not enough evidence to order George to stand trial.

George, 35, editor of Akwesasne Notes and Indian Time, had been charged with the second-degree murder of J.R. Edwards, who was considered an innocent bystander during an overnight gun battle on the Snye, Quebec portion of the St. Regis Indian Reservation on May 1.

Quebec Provincial Police on May 14 charged George with second degree murder, but Judge Pierre Laberge in Valleyfield, Quebec, ruled there was not enough evidence to put the outspoken anti-gambling spokesman on trial.

According to Canadian law, second-degree murder indicates a lack of intent to kill but that the person handling the weapon should have foreseen the consequences.

Last week, gunfire raked the home of Ken Lazore, a key prosecution witness against George.

Chief Lloyd Benedict, one of 13 elected chiefs on the Canadian side of the border straddling reserve, said the community was relieved over George's acquittal.

''It was a tragedy in itself that Doug was arrested without grounds,'' Benedict said. ''The police did a very one-side investigation - it was politically motivated.''

The violence-plagued reservation had been subjected to nightly arson, vandalism and shootings over gambling casinos since the summer of 1989, when an FBI raid touched off a stand-off between pro- and anti-gambling factions.

The violence came to a head with the killing of two Mohawks May 1, prompting a heavy and continuing police presence that immediately halted the violence.

Matthew Pyke, 22, was also shot and killed while attempting to evacuate seven, including George, from the home of his brother David George that day. No one was ever charged in that killing.

George had always maintained his innocence and had threatened to sue Canadian authorities for ''millions of dollars'' for false arrest.

George - while allowing himself to be photographed in camouflage, holding a rifle during a gun battle - had steadfastly maintained Canadian police did not have the ballistic evidence to tie him to the killing of Edwards.

Ironically, the acquittal comes exactly six months to the day of that shooting.

#90306u0975 11/02/1990 ~United Press International
MOSCOW (NOV. 2) UPI - The spread of pornographic films in rapidly proliferating video halls is corrupting young people and creating a nation of ''murderers, rapists, sexual maniacs and robbers,'' the Pravda newspaper said Friday.

In a sarcasm-laced tirade, the Communist Party's official newspaper said the Soviet government has not clamped down on the video halls because it collects high taxes from the semi-private cooperatives that run most of them.

Pravda also berated the Young Communist League - which the newspaper said has become a ''godfather of the video saloons 'mafia''' and opened its own erotic film halls in pursuit of profit.

''Comrade, deputies, it is time to turn the traitors out of the temple,'' Pravda said. ''The future of our children, our people, our perestroika (reforms) is at stake.''

The article ran under the headline ''Little girl, put your clothes on,'' an acerbic reference to one of the currently popular porn films it mentioned, called ''Little Girl, Take Your Clothes Off.''

The titillating article may have part of the fall subscription drive by Pravda whose plummeting number of subscribers has paralleled the sinking authority

of the party.

''The video net is like a giant octopus,'' Pravda said. ''One cannot hide from it anywhere ... This octopus is producing murderers, rapists, sexual maniacs and robbers while the Interior Ministry and the Education Ministry are silent.''

Budding entrepreneurs across the country have taken advantage of new political and economic freedoms by converting apartments into no-frills entertainment centers where viewers pay 1 or 2 rubles to watch bootlegged videocassette films.

The movies are often shown on small TV sets in rooms holding no more than 20 people squeezed into tight rows of hard wooden chairs.

The more daring video halls feature grainy erotic films that, though tame by Western standards, are quite risque compared with movies shown at state-run cinemas still guided by the Communist Party's priggish aesthetics.

In the subway tunnels beneath Moscow and other big cities, hawkers set up folding tables from which they sell tiny calendars with pictures of bare-breasted women.

''Before, girls used to play at being nurses,'' Pravda said. ''Now they play at being prostitutes. Future mothers, instead of playing 'mother-daughter' with their dolls, now dream of a career as a hard- currency prostitute.''

The newspaper approvingly cited a passage by Dmitri Likhachev, 84, a prominent literary critic and Soviet lawmaker, who wrote, ''When love is substituted for sex, sex without clothes, we cannot speak of eros.''

In its own commentary, Pravda said: ''It is a cruel joke that erotica is good for the sexual education of teenagers. Erotic films are not educational or scientific. Their sphere is emotional, and their effect is perverting.''

The newspaper called on the Soviet parliament to pass a ''law on morals'' restricting the operation of video halls.

''Pluralism has its limits - if not by state laws, then by laws of decency,'' Pravda said. ''The perestroika slogan 'everything is allowed that is not prohibited' is wrong.''

#90306u0981 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - Recent economic reports indicate the weakness that has drained the United States of much of its financial strength has spread and lessened the economy's resistance to recession, analysts said Friday.

Several economists reached that conclusion after the government said the nation's employment market deteriorated last month despite no change in the October jobless rate of 5.7 percent.

The Commerce Department, meanwhile, reported that its Index of Leading Economic Indicators, declined 0.8 percent in September in yet another warning sign of tough times ahead.

''We've lost our footing, that's for sure,'' said Robert Dederick, chief economist at the Northern Trust Co. in Chicago.

Lawrence Hunter, deputy chief economist for the U.S. Chamber of Commerce, came more to the point: ''The recession has begun.''

Whether or not that assessment is correct, economists agree that the economy's defenses against recession have slipped significantly in recent months.

Jobs are being lost in a wide variety of industries as companies react to slowdowns in consumer spending and fears that the economy could further deteriorate.

The Labor Department said total civilian employment slipped to 117.7 million in October from 117.8 million the month before. Nonfarm payroll employment was down 68,000 last month.

The government said employment has dropped by 700,000 since mid-year after gaining 500,000 jobs during the first half of the year.

Janet Norwood, commission of the Bureau of Labor Statistics, told the Joint Economic Committee the October employment report offers more evidence of deterioration in the job market.

''For the third month in a row, more industries lost jobs than gained them,''

she said. ''In addition, cutbacks occurred both in the overall average workweek and in the factory workweek.''

The civilian labor force, which stands at 124.8 million, has shown no growth since the spring, despite increases in the working-age population. Norwood said the bureau's survey of employers continues to point to a worsening employment picture.

''All indications are that the employment report will get worse before it gets better as more companies, large and small, lay off workers and close production facilities,'' said the chamber's Hunter.

''It's a clear indication we're in recession,'' added Cynthia Latta, an economist at DRI/McGraw Hill, in Lexington, Mass. ''If the number of jobs out there is shrinking, I don't know how you can call it anything else.''

The slowdown also was reflected in the Index of Leading Economic Indicators, a barometer of future economic activity. The index declined in September after falling a revised 1.2 percent in August. The index was unchanged in July.

An economic rule of thumb says three or more consecutive negative quarters in the index indicates the danger of an impending recession, although the United States has seen the index fall into that pattern in recent years and has not faced recession.

''The probability of a recession based on the index has gone to over 90 percent,'' said Micheal Niemira, an economist at Mitsubishi Bank in New York. ''It seems to be a forecast of recession. The real problem is you can't find anything out there that really looks positive.''

Nine of the 11 indicators that make up the index contributed to the decline, while one indicator - contracts and orders for plant and equipment - made a positive contribution, the Commerce Department said.

The negatives included stock prices, manufacturers' new orders for consumer goods and materials, average weekly initial jobless claims, building permits, consumer expectations, change in manufacturers' unfilled orders, money supply, vendor performance and sensitive materials prices.

Kermit Baker, an economist at Cahners Economics in Newton, Mass., said there appears to be little economic relief in sight. ''The worst time for the economy is certainly going to be over the next four to five months,'' he said.

Economists also were mixed about how the Federal Reserve will read the recent economic reports. The Fed's monetary policy-setting committee is scheduled to meet Nov. 13 and is sure to consider whether or not to ease interest rates.

The employment report, seen as a signal to the Fed, may not have been weak

enough to convince the Fed to push rates down, economists said.

''All in all, today's report hides the degree of spreading weakness in the economy. As a result it minimizes the political pressure for the Fed to ease right away,'' said Robert McGee, chief economist at the Tokai Bank Ltd. in New York.

#90306u0989 11/02/1990 ~United Press International

BOGOTA, COLOMBIA (NOV. 2) UPI - The feared Medellin cocaine cartel demanded Friday an amnesty and an end to extradition of suspects to other countries in return for freeing seven journalists it is holding hostage.

The proposal was the latest round of public maneuvering in the wake of the kidnappings aimed at forcing the government to negotiate a political settlement with the warring cartel.

A lawyer for the cartel, Guido Parra, made public a letter in which he laid down its outline for talks with a group of well-known Colombians trying to negotiate the freedom of the journalists.

The Extraditables, a hit squad and kidnapping gang that does the bidding of the cartel, admitted this week it was holding the journalists. In a statement, the gang threatened to kill the hostages if police did not cease operations against the group.

Those being held include the daughter of a former president and the son of the publisher of El Tiempo, Colombia's largest newspaper. President Cesar Gaviria has repeatedly rejected negotiations with cocaine traffickers.

Parra, in explaining his letter, said it asked for ''moving toward definitive cancellation of extraditions to those countries with which there is a treaty.''

The Medellin lawyer also told a Bogota radio station the subject of a general amnesty should be included in the themes to be discussed by an elected assembly set to meet next year to reform the constitution.

He proposed an amnesty similar to that extended in 1957 after a period of intense political violence.

The letter also appeared to ask for supervision of a peace process by the United Nations to guarantee the human rights of those who surrendered.

''I think that all of these points ... could move us toward reviving the surrender process,'' Parra said.

Gaviria, while rejecting a political agreement with the cocaine traffickers,

has offered reduced prison sentences and exemption from extradition to those who surrendered and confess their crimes.

The kidnapped journalists include Diana Turbay de Uribe, the owner of a television news program and a magazine and the daughter of former President Cesar Turbay. Also being held is Francisco Santos, news editor of El Tiempo and son of publisher Hernando Santos, along with five other reporters, editors and cameramen, including German correspondent Hero Buss.

#90306u0996 11/02/1990 ~United Press International

SAN SALVADOR, EL SALVADOR (NOV. 2) UPI - Windows rattled in the Salvadoran capital Friday as government troops bombarded suspected rebel positions north of San Salvador.

The bombardment came after a night of sabotage in which rebels of the Farabundo Marti National Liberation Front, or FMLN, burned a factory and bombed a power sub-station and several transmission lines.

An operator at the First Infantry Brigade in San Salvador said the bombardment that began late Friday morning was centered north of Guazapa, a craggy mountain 15 miles north of the capital where the rebels maintain hidden camps.

''Its in Guazapa,'' the operator said. ''We are carrying out an operation there and rebel columns have been detected.''

The Armed Forces Press Committee said that Thursday night rebels fire-bombed a textile factory in the town of Quetzaltepeque, 12 miles north of the capital. Military sources, who asked not to be identified, said the factory was owned by the family of El Salvador's economy minister, Arturo Zablah.

Radio Venceremos, the clandestine voice of the guerrillas, said in its Thursday broadcast that 918 electrical structures were damaged in the first 10 months of 1990 as part of the rebels campaign of economic sabotage.

-30- 1451

#90306u0998 11/02/1990 ~United Press International

(NOV. 2) UPI - Green Bay Packers Coach Lindy Infante has been searching for a weakness in the San Francisco 49ers, and his hunt will likely continue through kickoff Sunday.

The teams meet for the first time since last November, when the Packers beat the 49ers 21-17. San Francisco, 7-0, has since won 15 straight games, including Super Bowl XXIV.

''It's kind of hard to find chinks in a 7-0 armor,'' Infante said. ''If there

is, it's a little nick here and there someplace. You don't have big holes and come out 7-0 or 15-0 or whatever they are since we played them last.''

Infante downplays last year's victory and is hoping for the same the type of performance this season from the Packers, 3-4.

''The only thing we did that nobody else did was we got more points in that particular football game,'' Infante said. ''We went out there and played one of our better games last year. That's what you have to do if you expect to beat the world champs. They're very talented, they're very well put together and they're certainly playing with great confidence.''

Green Bay may catch San Francisco at the right time this season. The 49ers and quarterback Joe Montana have struggled on offense the past two weeks. Montana has thrown for a total of 342 yards, two touchdowns and four interceptions. The ground game has 267 yards in the same period.

''There are some things we have to evaluate,'' 49ers Coach George Seifert said. ''The last two teams have done a good job of defensing some of the things we do, and maybe we have to look at what we're doing to see if we're tipping by formation, or down and distance, or what we do.''

San Francisco should be bolstered by the return of running back Roger Craig and wide receiver John Taylor, both who have been sidelined with injuries.

''They've got all the pieces in place,'' Infante said. ''They've been together for a long time and they go out there and figure out ways to win. If anybody's going to beat them, you've got to go out there and figure out a better way to win than they do.''

In other games Sunday, it's Chicago at Tampa Bay, Washington at Detroit, New Orleans at Cincinnati, Buffalo at Cleveland, Atlanta at Pittsburgh, Dallas at the New York Jets, New England at Philadelphia, Houston at the Los Angeles Rams, Miami at Phoenix, the Los Angeles Raiders at Kansas City, and San Diego at Seattle.

Denver plays at Minnesota in the Sunday night game and the New York Giants visit Indianapolis Monday night.

At Tampa, Fla., the Buccaneers are 3-0 in NFC Central games but have lost their last two overall entering Sunday's game against the division- leading Bears. They committed 12 turnovers in those two losses.

''We've still got eight games left and we know we can't make the kinds of mistakes we've made the last few weeks,'' said Tampa Bay's Vinny Testaverde, the NFL's second-rated passer who will return to the lineup after missing one game with a toe injury. ''The toe feels good now and I don't expect any problems with it Sunday.

''Everybody's pretty confident, but we're a little frustrated with the way things have gone this year.''

At Minneapolis, the Vikings and Broncos will try to get their kinks worked out and get back on the right track.

Minnesota heads into the game with a dismal 1-6 record, while Denver has a 3-4 mark. Both teams are struggling in all phases of their games.

At Indianapolis, the Giants put their 7-0 mark on the line. They join the 49ers as the NFL's only unbeaten clubs.

-30- 3749

#90306u1007 11/02/1990 ~United Press International

NEW DELHI, INDIA (NOV. 2) UPI - At least 68 people died Friday in fighting over a disputed holy site in north India, including 18 Hindus shot by police when about 10,000 people stormed barricades and tried to begin building a temple.

The deaths brought to more than 160 the number of people who have died in violence since supporters of the right-wing Hindu Bharatiya Janata Party first attempted Tuesday to begin construction of the temple in the northern Uttar Pradesh state town of Ayodhya, 345 miles southeast of New Delhi.

Friday's violence began when Hindus gathered near the disputed site, now occupied by a 460-year-old Moslem mosque, and were blocked by police barricades. The crowd of about 10,000, wanting the mosque relocated so they can begin construction of the temple, sat on the road and sang hymns.

Later, the crowd threw stones at security forces and tried to storm the barricades, and police responded by lobbing canisters of tear gas and then opening fire, killing 18 people and wounding more than 60 others, Ayodhya police and the Press Trust of India news agency said.

Another 10,000 Hindus gathered on the outskirts of Ayodhya, demanding that they be allowed to visit the site, but authorities reported no violence.

Tension continued throughout Uttar Pradesh, with authorities enforcing a curfew in 23 of the state's 65 districts, a state Home Ministry official said.

Police and the Press Trust said violence in other parts of India Friday left another 50 people dead in fighting related to the temple dispute. Many of the victims were Moslem.

Nine of the victims were set ablaze in the western Gujarat state capital of Ahmedabad and the village of Godhra, police said. They gave no further details.

In several parts of the state, Hindus and Moslems attacked each other's religious shrines, witnesses said. Many of the activists of both religions brandished swords, knives and other weapons.

In neighboring Bangladesh, authorities relaxed for 2 1/2 an indefinite curfew in the capital city of Dhaka amid fears of violence between Hindus and Moslems over the temple issue.

At one point, police used bamboo sticks to disperse a crowd of about 5,000 people who gathered to demand that the curfew be lifted.

India's temple dispute has sparked the worst political crisis Prime Minister V.P. Singh's five-party National Front government has encountered since it assumed power 11 months ago.

The BJP withdrew its support from the government after its president, L.K. Advani, was arrested when he failed to heed a government warning to call off the plan to begin construction of the temple.

The arrest prompted the BJP to withdraw its crucial support from Singh's coalition government.

The BJP has 86 members in the Lok Sabha, or the lower house of Parliament, and its support is necessary for the survival of Singh's coalition. The BJP is not a member of the coalition, but extended critical support to the government.

President R. Venkataraman subsequently asked Singh to prove his majority in Parliament Nov. 7.

Hindu radicals claim that the mosque that occupies the Ayodhya site was built by the Moghul emperor Babbar after he destroyed a temple marking the birthplace of Lord Rama, one of the most important gods in the vast Hindu pantheon.

Moslem leaders dispute the claim and contend that no temple ever existed there.

The Ayodhya dispute has been smouldering since February 1986, when a court agreed to allow Hindus to worship in the mosque. The move led to widespread communal riots in northern India.

#90306u1021 11/02/1990 ~United Press International

(NOV. 2) UPI - Private economists are still warning of a recession after the Labor Department reported the October unemployment rate was the same as September, five-point-seven percent of the work force. The economists are more worried by the loss of 100-thousand potential jobs, down to

117-point-seven-Million.

One economist calls another government report today- quoting now- ''a forecast of recession.'' The government's Index of Leading Economic Indicators dropped eight-tenths of one percent in September. The decline in the barometer of future economic activity is in line with forecasts by private analysts.

President Bush told a Republican fund-raiser in Cincinnati that he will do his ''level best'' to bring home every American soldier in the Persian Gulf- quoting now- ''without a shot being fired in anger.'' But Bush also reiterated his position that Iraqi aggression against Kuwait canNOT be allowed to stand.

Ann Hoffman of Columbus, Georgia, calls Iraq's offer to let hostage relatives into the country during the Christmas holidays ''ridiculous''. She just wants her son Miles home. He was shot by Iraqi soldiers in the Kuwait invasion and is now a human shield at an Iraqi chemical plant.

City officials in Moscow have had a change of heart and the official Tass news agency says anti-government demonstrations will be allowed on November 7th. That's the day the Soviet Union marks as its Revolution Day. But possible demonstrators are asked to use different routes from the tradional parades.

The 40-thousand U-S servicemen and dependents in the Philippines are working under restricted travel orders today. Officials fear the possibility of communist rebel attacks next week during the third round of negotiations over the future of U-S bases in the Philippines.

Two suspects in the slaying of a Texas coed jumped to their deaths from a 12th-floor room of a West Hollywood, California, hotel early today as police arrived at the door. Officers describe it as a possible ''double suicide.'' The two were wanted in Austin, Texas, in the slaying of 18-year-old Toni Terrell.

Police in Malden, Massachusetts, say an 18-year-old believed beaten by a motorist whose luxury car was hit by an egg Halloween night has died. Police say they have made NO arrests in the incident, which apparently began with a group of youths fooling around and tossing eggs in a park late Wednesday.

-30- 2591

#90306u1036 11/02/1990 ~United Press International

(NOV. 2) UPI - Oil prices fell in midday trading Friday after a quiet week in the Persian Gulf and the market's perception that a Middle East war won't break out soon and that supplies were currently adequate.

On the New York Mercantile Exchange, the benchmark West Texas Intermediate crude for December delivery down 62 cents by midday from Thursday to $34.55 a barrel.

''Nothing happened all week as far as military action in Kuwait is concerned and the general perception is that nothing is going to happen until after the (Nov. 6) election,'' said Joe Miller of Shearson Lehman Hutton's International Energy Desk in New York.

Steve Platt, senior energy analyst with Dean Witter Reynolds Inc. in Chicago, noted that President Bush appeared to have softened his warlike statements this week including one that he would be willing to meet Iraqi President Saddam Hussein.

The trader also noted that Gen. H. Norman Schwartzkopf, commander of U.S. forces in Saudi Arabia, told the New York Times in an interview that while war could erupt ''anytime,'' he did not expect military action soon.

Schwartzkopf added that Saudi oil fields were virtually immune to attack by Iraqi forces that have occupied neighboring Kuwait since the Aug. 2 invasion.

The Energy Department also reported Thursday that the four-week average of crude, gasoline and heating oil supplies rose last week over the prior week although the oil industry's American Petroleum Institute reported late Tuesday that crude stocks last week dropped for the seventh week in a row.

''Many times our figures differ,'' said Jonathan Cogan of the department's Energy Information Administration.

While there ''probably has been some technical selling'' based on the market's previous highs and lows, Platt said, ''I think the fundamentals are providing the basis for what the market has been doing - reflecting the underlying supply-demand situation drying up some of the panic buying.''

Home heating oil for December delivery was down 1.02 cents at midday to 89.35 cents a gallon.

Perhaps in response to the Energy Department's report of a drop in supplies, December unleaded gasoline had fallen 2.55 cents by midday on the Merc to 89.75 cents a gallon.

Gasoline had been the market's strong performer thus far this week, gaining 4.97 cents a gallon since last Friday's close.

The American Petroleum Institute had reported Tuesday that the nation's gasoline stocks fell 2.2 million barrels last week to 220.4 million barrels.

Ashland Oil Inc. Chairman John Hall also told a meeting of Wall Street security analysts Wednesday night that the higher prices since Iraq's Aug. 2 invasion of Kuwait would lessen gasoline demand this winter and he expected stocks to remain at their current level even though imports would decline.

On the European spot market, where crude is bought and sold for cash, Britain's widely traded North Sea Brent was down 70 cents from Thursday to $34.95 a barrel.

United Arab Emirates' Dubai Light - the key OPEC crude from the Middle East shipped mainly to the Far East - had declined 65 cents to $29.85 a barrel.

-30- 3346

#90306u1050 11/02/1990 ~United Press International

(NOV. 2) UPI - Auschwitz concentration camp survivor Eva Kor says Saddam Hussein is a ''madman.'' But Adolf Hitler? No.

''I very much resent anytime anybody compares anything to the Holocaust,'' says Kor, of Terre Haute, Ind., reacting to President Bush's latest comparison of Iraq's and Nazi Germany's dictators.

''There is no way that the world could ever understand the madness of the whole world - people following Hitler, intelligent people from all over Europe following Hitler. I think it may be magnifying his (Saddam's) stature,'' Kor said Friday.

Bush has disturbed some Jewish leaders by his remark Thursday that Saddam is holding 300 innocent American civilians held against their will in Iraq, ''many reportedly staked out as human targets, something Hitler didn't do.''

In Minneapolis, Morton Ryweck, executive director of the Jewish Community Relations Council Anti-Defamation League of Minnesota and the Dakotas, saw merit in Bush's earlier analogy of Saddam's conquest of smaller Kuwait with Hitler's takeover of lesser European countries in the 1930s.

But the latest comparison goes too far, Ryweck says, because Hitler ''conducted a holocaust and a program of systematic murder of people on racial grounds and religious grounds of Jews and other people. It's not just the scale (of atrocities). Hitler had an ideology of racial conquest and a world view of racially superior and inferior people.''

B'nai B'rith International President Kent E. Schiner said Bush needs a history lesson.

''Nazi policies of seizing and executing innocent hostages - both Jewish and non-Jewish - in reprisal actions, as well as Gestapo harassment of foreign diplomats who tried to save Jews, are well documented,'' Schiner said.

Phil Baum, associate executive director of the American Jewish Congress, agrees. ''Bush is no historian. It is the kind of rhetoric politicians use that serve no good.''

Abraham H. Foxman, national director of the Anti-Defamation League in New York calls Bush's statement an ''unfortunate exaggeration because it can impact on the president's credibility. Saddam Hussein is barbaric enough and needs no comparison with other barbarians.'' Foxman and others also say they worry Bush has aggravated the Middle East situation with his latest comment.

Adds a spokesman for the American Jewish Committee in Washington, D.C., ''We do think the threat of Saddam Hussein needs to be eliminated but we don't think the comparison with Hitler is useful.''

CANTON, NC (NOV. 2) UPI - Between 40 and 50 cars and at least a dozen tractor-trailers slammed into each other during foggy weather on North Carolina's Interstate 40 Friday morning.

At least 47 people were taken to area hospitals, although none suffered life-threatening injuries. State troopers had to call for three buses to take the rest of the drivers and passengers to a nearby high school, where they were asked to wait until police could sort the accident out, said Elaine Cowan a North Carolina Highway Patrol dispatcher.

''There was some fog. I don't know if that was the culprit,'' Cowan said. ''We've had a lot of pileups due to the fog in that area. This is the biggest one recently, in the last three or four years.''

The wreck occurred a few miles east of Canton about 8 a.m. Traffic was blocked both directions for miles, Cowan said. Troopers finally cleared one eastbound lane about noon, but another accident a few miles away quickly blocked it again.

Among those taken to Haywood County Hospital were 22 elementary school students, who were not seriously injured, said hospital spokeswoman Janet Burnham.

One person was admitted to Haywood with a broken leg. Five other people were treated at Mission Hospital in Asheville, N.C., one with moderate injuries.

Canton police also reported heavy traffic problems in the downtown area as detoured drivers made their way through city streets.

#90306u1058 11/02/1990 ~United Press International

(NOV. 2) UPI - Jason Verduzco has a chance to do something Jeff George never did at Illinois: go to the Rose Bowl.

All the sophomore quarterback has to do is guide the sixth-ranked Illini to victory over No. 13 Iowa Saturday. No. 18 Michigan is waiting in the wings to face Illinois next week.

''This is what you play football for,'' Verduzco said. ''This game (against Iowa) represents everything we work for, what you look for all your life. This is for the upper hand to go to the Rose Bowl. I'm really looking forward to this game.''

So is Illinois Coach John Mackovic, whose 6-1 team is tied for first in the Big Ten with Iowa. Both are 4-0 in conference play.

''This is going to be a big game,'' Mackovic said. ''We're telling our team that there's still several big games after this one and there's still several teams in the race.''

Verduzco has been a pleasant surprise filling in for George, who turned pro instead of completing his senior year. Verduzco is rankd 20th nationally and fourth in the Big Ten in passing efficiency, completing 133 of 207 attempts for 1,475 yards. He has thrown nine touchdown passes and seven interceptions.

''I thought with George being gone that there would be quite a dropoff but their quarterback (Verduzco) has really done a heck of a job,'' Iowa Coach Hayden Fry said.

So has the Hawkeyes junior Matt Rodgers, who has thrown for 1,286 yards this year and has talented tailbacks Nick Bell and Tony Stewart to support him.

''You've got to get them before they get you,'' Illinois defensive tackle Mel Agee said of Bell and Stewart.

But the two stingiest defenses in the Big Ten will also be on the field. Illinois is ranked 15th nationally, first in the conference in total defense, giving up 280 yards per game. Iowa is 20th nationally, second in the Big Ten, allowing 302 yards per contest.

''As long as we win, I don't care if it's low (scoring) or what,'' Fry said. ''We just want to win the game. It appears Illinois has the same philosophy - just scratch where it itches.''

In other games Saturday between rated teams, No. 1 Virginia is home against No. 14 Georgia Tech with the ACC lead at stake, No. 2 Nebraska is home against No. 7 Colorado in a Big Eight clash, No. 5 Washington plays No. 19 Arizona in a Pac-10 showdown, and No. 17 Clemson meets No. 24 North Carolina.

Other games involving the top 25 teams pit No. 3 Notre Dame at Navy, No. 4 Auburn at Florida, No. 8 Miami against Pittsburgh, No. 9 Brigham Young at Air

Force, No. 10 Tennessee against Temple, No. 11 Florida State at South Carolina No. 12 Texas at Texas Tech, No. 15 Mississippi at Louisiana State, No. 16 Wyoming at Colorado State, No. 18 Michigan at Purdue, No. 20 Oregon against UCLA, No. 21 Penn State at West Virginia, No. 22 Louisville at Cincinnati, No. 23 Southern Cal against California, No. 24 Texas A&M at Southern Methodist.

The top-ranked and undefeated Cavaliers are led by quarterback Shawn Moore, who is ranked No. 1 in the nation in passing with 18 touchdown throws and just four interceptions. He is averaging 167 yards per game in the air. Virginia also leads the country in total offense, averaging 545 yards per game, and points per game with a 48 ppg.

Colorado's Eric Bieniemy, the top-rated rusher in the country, will face the No. 8 rushing defense when the Buffaloes travel to unbeaten Nebraska in the Big Eight showdown. Bieniemy overtook Michigan's Jon Vaughn as the top ground gainer in the nation after rushing for 188 yards last week against Oklahoma. Bieniemy is averaging 154 yards per game, while Vaughn now averages 144 ypg.

NEW YORK (NOV. 2) UPI - A female jogger who was gang-raped and beaten in Central Park by a gang of youths last year was grilled Friday by a defense lawyer who suggested the woman's boyfriend used to beat her up.

The jogger, whose identity has not been revealed due to the nature of the crime, walked into in state Supreme Court in Manhattan to face two of her accused attackers, still unsteady on her feet 18 months after the bloody assault.

Once on the stand, the woman, who has no memory of the attack, was asked by Colin Moore, attorney for defendant Kharey Wise, 18, whether she recognized his client. She admitted she did not.

Moore then proceeded to grill the petite blond for 30 minutes about her relationship with her former boyfriend, Kevin O'Reilly, trying to suggest O'Reilly used to assault the woman.

''You have indicated you have absolutely no recollection of what happened to you on the evening of April 19, 1989?'' Moore asked the woman, who appeared shaky even while sitting down, clad in a gray and black-stripped dress adorned with a simple gold necklace and earrings.

''Yes,'' she replied.

''And while you were in Metropolitan Hospital, do you ever recall calling out the name of a boyfriend,'' Moore continued, prompting an objection from Assistant District Attorney Elizabeth Lederer, which the judge granted.

Undaunted, Moore pushed on. ''Prior to April 19, did you ever have any altercation with Kevin O'Reilly?''

''Objection!'' shouted Lederer - a protest the judge again sustained.

''Were you ever assaulted by any male friend or companion?'' Moore persisted, prompting a third objection that was also granted.

On Thursday, jurors snickered as they listened to Moore try to suggest that the woman, who was found bloody and unconscious in a muddy ravine in Central Park, did not suffer life-threatening injuries.

Wise is on trial along with Kevin Richardson, 16, for attempted murder and rape in the attack on the woman, who was ambushed as she jogged in Central Park.

A total of six youths have been indicted in the case, including three teens who were convicted of rape and assault, but acquitted of attempted murder, in the first trial earlier this year.

Those three youths, Yusef Salaam, Raymond Santana and Antron McCray, all 16, are each currently serving 5 to 10 years in a juvenile facility.

#90306u1074 11/02/1990 ~United Press International

ATLANTA (NOV. 2) UPI - Delta Air Lines said Friday it is considering buying parts of Continental Airlines, the Houston-based carrier that recently said it had considered but rejected the idea of filing for bankruptcy protection.

Delta spokesman Neal Monroe said the Atlanta-based airline is ''exploring the availability of any assets they might have for sale.''

Continental spokesman Art Kent declined to comment on the report that some of Continental's assets might be on the block.

Airline analysts said Continental's most attractive asset could be its international routes to the Far East and Australia. Such routes would dovetail with Delta's buildup in the Pacific.

Delta will inaugurate two new daily flights to Japan and one to Hong Kong in 1991. The airline applied for a route to Australia last year but lost out to American Airlines.

''I would think the principal interests of Delta could be in acquiring some of the international routes of Continental,'' said Hans Plickert, an analyst with The Transportation Group in New York. ''Yet, at the same time, Continental has

to be very much aware that those routes are potentially very lucrative. It's a case of cash up front versus long-term profits.

''This is the point at which strong carriers like Delta can make deals. Fuel cost increases are pinching carriers like Continental. This is definitely the time to go shopping, but it remains to be seen what Continental is trying to sell and what Delta is willing to buy.''

Continental operates hubs in Honolulu and Guam, from which it serves Australia New Zealand and Japan, as well as secondary destinations through a contract with Air Micronesia.

Hollis Harris, the former Delta president who left to become chairman of Continental this past summer, said Thursday in a speech in Houston that ''certain routes, (airport landing) slots, subsidiaries or other operations'' might have to be sold.

Harris said rising fuel costs have added $70 million a month to Continental's expenses, and he said the airline is preparing to streamline by axing some low-volume flights.

Continental's board last week considered and rejected a plan to seek Chapter 11 bankruptcy protection to obtain some relief from the rising fuel costs. Harris said last week and repeated Thursday that Continental would not enter bankruptcy.

#90306u1081 11/02/1990 ~United Press International

LONDON (NOV. 2) UPI - Stock prices closed mixed in light trading Friday on the London International Stock Exchange as the end of a trading period and uncertainty in the Persian Gulf kept professional investors on the sidelines.

Stocks eased slightly in Frankfurt anmd Paris.

London's blue-chip Financial Times 100-stock index, which fell 22.3 points Thursday, closed up 2.7 points to 2,030.7. For the week, the key index, which measures the value of Britain's largest 100 companies in terms of market capitalization, posted a loss of 32.4 points.

The narrower top 30 industrial average slipped 1.4 points to 1,570.7 and lost 27.7 points for the week.

Volume amounted to around 403 million shares compared with 373 million shares changing hands Thursday.

Analysts said local investors largely discounted the controversy surrounding the resignation of British deputy prime minister Geoffrey Howe, the FTSE

100-share index preferring to hold steady at just above the psychologically important 2,000 point barrier.

Institutional trading was confined to technical positioning before the end of the account period, analysts said.

Market watchers also said trading remained light due to uncertainty in the Persian Gulf after strong comments from Washington.

On the trading floor, among the most widely traded stocks, a weaker U.S. dollar on major foreign currency markets hurt international shares.

Eurotunnel PLC, the consortium building the Channel tunnel between England and France, tumbled 67 cents to $8.26 after announcing a 3-for-5 rights issue which was considered by analysts to be undervalued.

Royal Bank of Scotland gained 10 cents to $2.67 after a Warburg Securities brokerage firm upgrading the bank.

Barclays de Zoete Wedd bank climbed 12 cents to $6.36 in response to an ealier announced restructuring of its global financial services and administrative sectors.

Elsewhere in Europe, stocks closed slightly lower in featureless trading on the Frankfurt Stock Exchange.

The Weighted German Stock Index slipped 2.94 points to 1,414.32.

Stocks also slipped in Paris, where local investors on the Paris Bourse sent the closely-watched CAC-40 Index down 10.78 points to 1, 634.79 in dull trading.

#90306u1106 11/02/1990 ~United Press International

BELGRADE, YUGOSLAVIA (NOV. 2) UPI - The federal government said Friday it will ask Yugoslavia's highest judicial body to rule on the legality of legislation enacted by the republics of Serbia, Croatia and Slovenia.

In a related decision, the government of Prime Minister Ante Markovic said it was ordering federal officials to step up enforcement of federal laws and regulations in the nation's six republics.

The moves were the latest signs that, with a series of crucial elections approaching, Markovic intends to take the offensive against efforts by the republics to undermine his reform program, the main appeal of a political alliance he launched this summer.

Markovic is regarded as the only Yugoslav politician with a cohesive program of Western-style economic and political reforms and his policies have been hampered by nationalist leaderships in the republics that fear his growing popularity.

An official statement said the federal Cabinet agreed at a meeting Thursday that it will ask Yugoslavia's Constitutional Court to decide on the legality of laws recently implemented in Serbia, Croatia and Slovenia.

The court is Yugoslavia's ultimate legal arbiter and has the power to order republics to nullify statutes it deems unconstitutional.

The laws cited by the federal government include protectionist legislation enacted this week by Serbia's communist regime imposing extra taxes on rents paid in the republic by businesses owned by companies based in Slovenia and Croatia.

The government also wants reviewed Serbia's reduction by 25 percent of its financial obligations to a federal fund for developing poorer areas of the troubled Balkan nation of 23 million.

The federal government said it would ask for rulings on a number of constitutional amendments aimed at increasing Slovenian self-government, including one provision giving the republic's leadership peacetime command of all military units on its territory.

That provision has led to a major dispute between Slovenia's nationalist regime, elected earlier this year in the nation's first multiparty polls since 1945, and the Yugoslav military.

The official statement said the court would be asked to rule on a decision last week taken by Croatia's nationalist administration imposing a moratorium on reprivatization of publicly owned enterprises.

One of the mainstays of Markovic's reforms is restructuring a communist-imposed system of ''socially owned enterprises,'' which have been managed by workers' councils. Many such firms are bankrupt or on the brink of insolvency.

Regarding its order for tougher enforcement of federal statutes in the republics, the government said it told officials to ''file criminal charges against all those who, by violating federal laws, commit criminal acts.''

NEW YORK (NOV. 2) UPI - An American DC-10 flying from London to Dallas-Fort Worth with 242 people aboard landed safely Friday at Kennedy International

Airport after reporting a blown tire and flap control problems.

The plane was put in a holding pattern off Long Island about 1 p.m. EST after reporting its difficulties to the Federal Aviation Administration control tower at Kennedy and was ordered to dump some fuel before attempting a landing.

It came down safely at 1:28 p.m., the FAA reported.

FAA spokesman Kathleen Bergen said the plane blew a tire taking off from London Friday morning and also was experiencing problems with the hydraulic system that operates the landing flaps.

According to Port Authority police, the plane was carrying 225 passengers and 17 crew.

PITTSBURGH (NOV. 2) UPI - Auditors cannot account for $100,000 in University of Pittsburgh athletic booster funds, the Pittsburgh Post-Gazette reported Friday.

The newspaper also said Pitt's Office of Internal Audit discovered a previously unknown bank account at an unnamed Beaver County bank.

Auditors are trying to determine why numerous checks made payable to the university or the booster club, known as the Golden Panthers, were deposited into the mystery account, the newspaper said.

''The university is continuing a comprehensive investigation and an internal audit of the handling of several activities in the Golden Panthers,'' said Pitt spokesman Timothy Ziaukas, who added the audit is incomplete. ''There may be legal ramifications. If the university finds evidence of wrongdoing, it will seek and it will insist upon restitution.''

At the heart of the matter is former Golden Panthers Executive Director Robert Heddleston, who resigned last April after former football coach Mike Gottfried alleged that Heddleston forged a university check, the newspaper said.

The Post-Gazette said it sent Heddleston a certified letter seeking comment on the audit, and he received it but did not reply.

Athletic Direcotr Ed Bozik said Heddleston has been cooperating with the investigation.

The Golden Panthers has about 6,000 members and has raised some $11.5 million for Pitt athletics.

#90306u1132 11/02/1990 ~United Press International
NEW YORK (NOV. 2) UPI - American Telephone & Telegraph Co. said Friday it is launching a $6 million Seabed Tractor robot to install and maintain its undersea fiber-optic cable for communications across the ocean. The ten-ton tractor, equipped with treads, can start burying a cable from the shore and travel down the seabed to a depth of up to one mile.

Seabed Tractor, manufactured by Soil Machine Dynamics of Newcastle, Britain, is the latest addition to the many underwater equipment AT&T is using for its thousands of miles of cables sunk in the Atlantic and the Pacific Oceans.

Undersea cables must be buried under the seabed in order to avoid rough surf, fishing and trawling activities. In addition, shark bites have proved to be a problem more than once since AT&T laid its first fiber-optic cable in the Atlantic ocean in 1985.

AT&T so far has been using divers working from rafts or boats to sink the cable in the surf, while Sea Plow robots were burying the cable in the sand at greater depths. The cables are buried about three feet deep. Seabed Tractor can perform all these tasks independently while being controlled remotely by an operator aboard a cable ship.

"The Seabed Tractor will be used to help AT&T construct its Worldwide Intelligent Network," the telecommunications giant said. "In the past two years, AT&T has spanned the Atlantic, Pacific and Caribbean with fiber-optic cable."

The fiber optic-based Intelligent Network carries high-quality voice signals as well as complex transmission such as data and video input.

The company has already announced plans to build additional fiber-optic cables in coming years, including a cable across the Atlantic in 1991, across the Pacific in 1992 and from the U.S. mainland to Hawaii in 1993.

Seabed Tractor is equipped with a sonar system to direct itself, a magnetic system to locate cables and four video cameras to send technicians a visual feedback of the problem.

While its tread system allows the robot to progress on virtually any kind of underwater terrain, it can dig through the sand by jetting water or claw through hard soil with a chain trencher and cut through rocks with a rock wheel cutter.

Seabed Tractor can travel at a speed of 150 feet per minute, and at three to 15 fifteen feet per minute when trenching. Robot operations will be based in Baltimore, and be conducted by AT&T subsidiary Transpacific Communications Inc.

#90306u1135 11/02/1990 ~United Press International

PRAGUE, CZECHOSLOVAKIA (NOV. 2) UPI - Germany and Czechoslovakia will discuss property claims by Germans who were expelled from western Czechoslovakia's Sudetenland after World War II, it was annpounced Friday.

The province was annexed by Nazi Germany in 1938.

After World War 11 in 1945, the Czech government ousted about 3 million Sudeten Germans, most of whom resettled in East or West Germany.

''At the government level we will be discussing this,'' German Foreign Minister Hans-Dietrich Genscher told a news conference during a one-day visit to Prague.

He stressed, however, that the Sudeten German question would not necessarily

figure in a new treaty of cooperation to be signed by Czechoslovakia and Germany.

The German government has come under increasing pressure from the Sudeten Landsmannschaft, an organization representing former Sudeten Germans and their descendants, which is seeking the return of German property that was confiscated by Czechoslovaks after 1945.

Many former Sudeten Germans also claimed to have suffered ill- treatment after the war, being deprived of sufficient food and even being sold as indentured servants to local Czech farmers.

Genscher emphasized that the question of restitution or remuneration for the Sudeten Germans was a matter for the two governments to discuss and said Bonn would not bow to pressure from the Landsmannschaft.

''This question and all ownership questions are for the governments to discuss and not for private demand,'' he said.

On Thursday, a group known as the Czech Union of Freedom Fighters issued a statement rejecting the demands of the Landsmannschaft and similar German groups as ''unjustified.''

The union, which includes World War II resistance fighters and former victims of Nazi concentration camps, said the ''damage caused to our citizens by Nazi violence, in which the Sudeten Germans took part in important posts, has not be redressed.''

Dagmar Buresova, chairwoman of the Czech National Council, warned current Sudetenland residents to make sure they have valid titles to their property.

''Citizens living in the border lands, particularly in the Sudetenland, should ensure the legality of ownership rights of property they have acquired and even those rights they may have stemming from small privatization,'' she said Thursday.

The Czechoslovakian parliament last week passed a law to privatize state-owned small businesses except those that were illegally confiscated.

#90306u1174 11/02/1990 ~United Press International

ROCKVILLE, MD (NOV. 2) UPI - Champion boxer Sugar Ray Leonard and his estranged wife reached an agreement Friday on a divorce settlement just before they were to go to court but the couple refused to disclose any details.

The Leonards and their attorneys negotiated in private at the Montgomery County Courthouse for about two hours before court officials announced the pair had reached an agreement.

A hearing was set for 9:30 a.m. on Juanita Leonard's request for an increasein monthly child support and alimony payments from $12,000 to $50,000. But celebrity attorney Marvin Mitchelson, who represents Juanita, 33, said the accord also involved a pre-nuptial agreement signed in 1979.

Earlier this week, Mitchelson said a hearing had been scheduled for March on the validity of the pre-nuptial agreement. He had said Leonard, 34, was worth an estimated $50 million.

''This has not been a happy time for either of us,'' Leonard said in an impromptu news conference at the courthouse, his arm draped over Juanita's shoulder. ''It's been painful and agonizing for us the last couple of years.

''I still love her and she loves me (but) I think it's time we went our separate ways,'' said the five-time boxing champion. ''We will always be together because we have two lovely kids but life goes on.''

The Leonards said they would not discuss Juanita's allegations of physical abuse and adultery on the part of her husband.

''Everybody has their fights,'' she said.

''There's always room for forgiveness,'' he said.

The Leonards were married in 1980, but Mitchelson said they had been living together for seven years before that. Sugar Ray filed for divorce last March, three years after Juanita gave birth to their second child.

The couple share joint custody of their two children, ages six and 16. Each lives in a separate home in Maryland.

Mitchelson called the divorce settlement one of the nicest he has seen ''in 34 years and 5,000 cases.''

Leonard is preparing to fight for a Junior Middleweight Championship against Terry Norris next year. He last fought in December 1989 and won a decision over longtime rival Roberto Duran of Panama.

When asked if he was dating anyone special, Leonard said he was.

Juanita said she wasn't but added, ''I'm looking.''

(NOV. 2) UPI - Analysts are tearing apart this morning's October job report, trying to find out what it all really means. The unemployment figure remained just where it was in September, five-point-seven percent of the work force. Janet Norwood, commissioner of the Labor Department's Labor Statistics Bureau, says that more industries lost jobs than gained them last month, the third month in a row that that has happened.

Increased layoffs and a general business contraction are showing up in the latest help-wanted advertising index from New York's Conference Board. The September reading is down to 122. That's 24 points below last year, and five points below August. The volume of advertising for new jobs is down in seven of the nine regions, up in only two.

A ruling may come by the end of the year in the case of a Missouri couple asking court permission to remove the feeding tube keeping their daughter alive. Nancy Cruzan suffered severe brain damage in a 1983 car accident and is now in what is called a ''persistent vegetative state.'' Two former co-workers and one of her former bosses testified in court yesterday that Cruzan had told them she would rather be allowed to die if she were ever in a coma.

Hospital officials in Tahiti confirm that the daughter of actor Marlon Brando is one of their patients but they refuse to say why. Reports from the Pacific island say that Cheyenne Brando is suffering from a drug overdose. The 20-year-old woman fled to Tahiti after her half-brother Christian allegedly killed her lover at Marlon Brando's estate in Hollywood Hills.

The Washington Post says the National Football League is considering moving the 1993 Super Bowl out of Phoenix if Arizona voters do NOT approve a Martin Luther King Junior holiday next week. Arizona, Montana and New Hampshire are the only three states without the King holiday, but the question is on the ballot in two referendums. If either passes, King's birthday becomes an Arizona holiday. N-F-L officials reportedly would rather move their biggest showcase than deal with the sensitive issue.

A part-time soldier who survived an Irish Republican Army attack three years ago was NOT so fortunate today. Police in Northern Ireland say the soldier died in an explosion at the garage where he worked 55 miles west of Belfast. Police say a woman dressed in black asked the soldier to fix her van... then disappeared just seconds before the vehicle exploded, killing the soldier.

Palestinians in the West Bank and Gaza Strip are observing a general strike today, with the Israeli army imposing a curfew on most of the occupied areas.

Shops are closed, and many Arabs workers stayed home in observance of the 73rd anniversary of a statement of British policy supporting a Jewish homeland in Palestine. Palestinian sources say five Arabs were hurt during clashes with troops in Gaza City.

The U-S Postal Service may NOT stop for rain, snow or the gloom of night, but it's having some trouble with Saudi Arabian sand these days. Sergeant Michael Bragg sorts mail for Operation Desert Shield in Saudi Arabia. He says American soldiers are mailing Saudi sand home. The problem is... it leaks out of envelopes and gums up the stamp-cancelling machines. Bragg says workers had to resort to hand-cancelling on some occasions because the machines stop. Bragg says there's NOTHING wrong with sending sand home, but it should be in boxes and labeled as merchandise.

EAST ST. LOUIS, IL (NOV. 2) UPI - The Wall Street investment firm behind the financing of the failed East St. Louis riverfront development pleaded guilty to fraudulently issuing more than $223 million in bonds, U.S. Attorney Frederick Hess said Friday.

The firm, Matthews & Wright Inc., will pay a $1 million fine and set up a $7 million trust fund "to benefit the citizens of East St. Louis" under a plea agreement with Hess. The plea agreement and penalties must be approved by U.S. District Judge William D. Stiehl.

Matthews & Wright made $8 million by issuing $223.7 million in tax-exempt bonds for a port that was to have been developed along the Mississippi River. The firm also made $11.6 million on the issuance of $250 million in bonds for two other projects slated for poverty-stricken East St. Louis.

Hess said plea negotiations had been going on for several months, but no charges were filed in the case until Thursday - when the firm responded immediately with a guilty plea.

The now-defunct investment firm and its former vice president, Arthur Abba Goldberg, pleaded guilty to selling fraudulent bonds for one of the three failed development projects.

Goldberg accepted an 18-month prison sentence and agreed to drop his appeal of an 18-month sentence he received for mail fraud charges in a similar case in Guam. Goldberg will be sentenced Jan. 31 and will serve both sentences simultaneously, Hess said.

The firm, Hess said, bought the port bonds with a worthless check, drawn on a credit union controlled by Matthews & Wright. Hess also said the firm influenced a favorable opinion on the feasibility of the port so the bonds

would be exempt from taxes.

The guilty plea ended a four-year investigation into Matthews & Wright. However, Hess said his office will continue to investigate the failed development projects.

East St. Louis Mayor Carl E. Officer, who envisioned "a riverfront renaissance " has not given up hope of revitilizing his city. "The riverfront is still going to be developed," Officer said. "My dreams will not end until I die."

Matthews & Wright in 1985 issued $474 million in bonds for the city to build a port, a recycling plant and an apartment complex. None of the projects has been built. The banks that hold the bond money will refund it to investors Dec. 15.

Although the money for the port bonds did not come out of the pockets of city residents, Hess said they deserved compensation because the scheme falsely elevated their hopes for economic renewal. Hess also said the city will not control the $7 million trust fund. Rather, the trust should be handled by a non-political administrator, he said.

#90306u1196 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - The nation's retailers face a major shakeout during the 1990s that will leave half of them out of business by the turn of the century, an economist said Friday.

Ira Kalish, senior consultant and economist of Management Horizons, the retail consulting division of the accounting giant Price Waterhouse, said the reduction in retailers would result from changing demographics, and new stricter spending habits following the binge of the 1980s.

Quoting Retail 2000, a report issued by the firm earlier this year, he said the retailing industry has too mmany stores, too much sameness and too much debt. "By the end of the decade half of the retailers in the U.S. will be out of business," he said.

Speaking to reporters, he said retailing as a share of gross national product would slip to about 31 percent from the current 34 percent by the year 2000, representing about $150 billion worth of business.

Retailers would have to contend with significant shifts in population, he said. For example, the crucial 18-to-34 age group toward which most retailers aim their merchandise, would be reduced eight million by the year 2000.

Spending habits and priorities will change, too, he said. "In the 1980s, people spent more and saved less. The 90s will be the reverse. People will be

less acquisitive and more concerned with their children's education and their own retirement."

In addition, the Black and Hispanic populations of the United States would rise to 24 percent by the year 2000, demanding another shift of emphassis on the part of retailers.

"There will be no more homogeneous mass market," he said. Success will come to the retailer who focuses on individual customers so that it becomes a large share of each consumer's budget. It will be a "relationship market."

The key to survival, Kalish said, would be an emphasis on the individual consumer, rather than the mass market. Successful retailers would have the ability to focus sharply on their customer in terms of age, income and lifestyle, and lure them with things such as liberal return policies and private label credit cards.

The fragmentation of the customer base would demand "the ability to manage at the micro level and to have a decentralized system of control." He cited The Limited Inc. of Columbus, Ohio, a women's apparel retailer, as being a successful recent example of this approach, through its portfolio of stores that cater to narrow markets.

Successful retailers will use technology to identify their customers. And they will be able to react quickly to a changing market. "They will be able to move the right products to the stores at the right time."

Retailers will be more successful as part of a "strip center" or multi-use neighborhood complex than as part of a mall, Kalish said. "America will be demalling."

ATHENS, Greece (NOV. 2) UPI - Iranian President Akbar Hashemi-Rafsanjani

said Friday there was serious danger that war may be imminent in the Gulf because Iraq ''has not yet come to its senses,'' Tehran radio reported.

In his strongest criticism of Iraq since President Saddam Hussein sent his forces into Kuwait Aug. 2, Rafsanjani said the situation in the Gulf had deteriorated because Iraq ''has not yet come to its senses and won't see reason.''

The Iranian president said Saddam's stance on his invasion and annexation of Kuwait ''could not be tolerated.''

''The problem (Iraq had created) is intolerable,'' and Iran's views on this were the same as those of other countries, he said.

''I see security in the region to be in serious danger,'' Rafsanjani said. ''There is concern that clashes will break out,'' but Iran would ''make every effort to prevent this war,'' he said.

Iran was coordinating its efforts with other countries in the region for this, the president said.

Rafsanjani's remarks came a day after Bahraini Foregin Minister Mohammad bin Mubarak al Khalifa ended a two-day visit to Tehran, where he met the president.

Iranian Foreign Minister Ali Akbar Velayati said Al Khalifa briefed the Iranian leaders on decisions taken by the Gulf Cooperation Council to seek Iran's help in bringing about a solution to the Gulf crisis.

The GCC is made up of Bahrain, Kuwait, Saudi Arabia, the United Arab Emirates, Qatar and Oman.

In Istanbul, the newspaper Hurriyet reported that Turkish President Turgut Ozal was scheduled to visit Tehran late next week to meet Rafsanjani and brief him on his recent contacts with U.S. officials and regional leaders on the Gulf crisis.

Ozal's trip was due to take place three days after his scheduled meeting with Secretary of State James Baker Tuesday.

Earlier during the Gulf crisis, Iran took an ambiguous stance, condemning the Iraqi invasion of Kuwait while at the same time expressing concern about the presence of foreign forces in the Gulf.

Tehran restored diplomatic relations with Baghdad last month, some two months after Saddam pulled his troops out of Iraqi territory and pledged to honor the 1975 Algiers accord which divides the Shatt al Arab river between Iran and Iraq.

But over the past few days Iran has expressed increasing irritation that Baghdad has still not returned several thousand Iranian prisoners of war who were not registered with the International Committee of the Red Cross during the 1980-88 war.

Early this week, the Iranian state radio expressed fears that an all- out war could break out any moment in the Gulf and that Iran may be drawn into the conflict along with other countries of the region.

#90306u1238 11/02/1990 ~United Press International

PORTLAND, OR (NOV. 2) UPI - Seven former followers of a dead Indian guru who once operated a controversial commune in central Oregon have been charged with plotting to kill the U.S. attorney in Portland.

The seven former followers of the Bhagwan Shree Rajneesh have been indicted for conspiring to murder U.S. Attorney Charles Turner.

The indictment was handed down by a federal grand jury May 25, but was made public only Thursday after six of the defendants were arrested around the world.

The seventh defendant, alleged ringleader Ma Anand Sheela, was the former top aide to the Bhagwan who once served time in federal prison after being convicted of attempted murder, immigration fraud, eavesdropping, arson and poisoning residents near the commune.

After being released from federal prison in 1988, Sheela was deported.

Authorities now believe she is living in Switzerland. Sheela married Urs Birnstiel, a Swiss citizen, which means that if she is living in Switzerland she cannot be extradited to the United States to stand trial.

The last of the other six defendants, Sally Croft, 41, was arrested Tuesday in England after surrendering to police.

The indictment alleges the group decided to murder Turner and then assembled weapons and spied on him in the summer of 1985. The plot never was carried out. Turner is still the U.S. attorney for Oregon.

According to the indictment, he was targeted for murder because a federal grand jury was investigating possible immigration fraud by the Rajneeshes.

The indictment also accuses the seven of plotting to kill the guru's doctor, Swami Devaraj, and all but Sheela are charged with illegal interstate transportation of firearms.

The murder conspiracy charge carries a maximum penalty of life in prison.

In the early 1980s the Bhagwan, a self-described rich man's guru and ''free love'' advocate, established a commune on a ranch in the central Oregon desert. At one time, the group had a fleet of almost 100 Rolls Royces for the Bhagwan's personal use.

Animosity quickly grew between the Rajneeshees and longtime residents of the area, and authorities accused the Bhagwan's followers of a variety of crimes. Eventually Rajneesh was deported from the United States in November 1985 for immigration fraud. He later returned to a commune in Pune, India, and died there last January.

In addition to Croft, those arrested and indicted are Catherine J. Stubbs, 45, also known as Shanti Bhadra; Ann P. McCarthy, 43, also known as Yoga Vidya; Susan Lissanevitch, 50, also known as Anand Su; Carol Matthews, 45, also known as Prem Samadhi; and Richard K. Langford, 40, also known as Swami Anugiten.

Three of the defendants were arrested in West Germany, two in England and one in South Africa.

#90306u1261 11/02/1990 ~United Press International

CHICAGO (NOV. 2) UPI - Grain futures were higher in quiet trading but a late sell-off pressured soybean futures Friday on the Chicago Board of Trade.

The grains were higher all day on light commercial and commission house buying and a slight increase in export business.

South Korea bought 150,000 tons of corn and Morocco was in the market for 150,000 tons of wheat.

Gains in wheat were tempered by the weather forecast. Rain was predicted for much of the Wheat Belt during the weekend with the potential for an inch or more in some areas. The precipitation was expected to be in the form of snow in northeast Colorado and western Nebraska.

There was widespread speculation that President Bush might announce the granting of export credits to the Soviet Union during a speech in Rochester, Minn., but he made no reference to the issue. Bush was campaigning for Republican candidates in Minnesota and Iowa.

Soybean prices tumbled during the final minutes of trading. The aggressive selling was attributed to the lack of an announcement of credit guarantees to the Soviets.

Continued harvest activity weighed on corn and soybean values.

Basis levels generally were steady.

At the close, corn was up 1/2 to 1 3/4, soybeans down 3 1/2 to up 1, wheat up 2 1/2 to 4 1/4 and oats unchanged to up 1/2.

#90306u1310 11/02/1990 ~United Press International

GREEN COVE SPRINGS, FL (NOV. 2) UPI - A panel of parents and educators debated Friday whether to ban ''My Friend Flicka'' from a list of recommended readings for elementary students because of bad language.

Also on the list of books under consideratin at the Clay County school superintendant's office were ''Abel's Island'' and ''Little Red Riding Hood,'' which some parents feared promoted drinking alcohol.

The debate lasted most of the day in the courthouse annex at Orange Park, a suburb of Jacksonville. No indication was given when the book review committee might issue a decision.

The controversy began when Karen and Ken Wacha were approached by their 11-year-old son, Randy, with complaints that the 1941 classic ''Flicka'' was marred by bad words. In October, he brought home a condensed version of the book.

''There it was - 'damn' twice and 'bitch' once,'' said Wacha. ''I didn't remember seeing those words before, but there they were.''

The word ''bitch'' was used to refer the character of a female horse.

Within days, other parents objected to ''Abel's Island'' and ''Little Red Riding Hood.'' The former depicts a lost mouse having a drink of wine with a soused toad; a version of the latter published by Houghton Mifflin Publishing Co. refers to wine young Red takes to her ailing grandmother.

School officials in the largely rural county were worried the references might cloud the anti-drinking messages hammered into children by the schools.

''A book that might be acceptable in Miami or of Chicago might not be acceptable here,'' said Keystone Heights Elementary School Principal Ken Blair. ''I don't see any reason to have profanity at the elementary level.''

Norma Jones, assistant director of the Clay County Public Library System, said the system's 120,000 volumes include the three books cited.

'''My Friend Flicka' is a classic,'' Joles said. ''I see nothing wrong with it.''

Others insist they don't want their kids picking up ideas about cursing and drinking at school.

''The truth is, there's a lot of profanity in the world, and I just don't mean language,'' said Blair.

Wacha said he at first considered letting it pass when his son complained about a conversation between a character and the book's central figure, a little boy.

''Well, you'll never make a friend of that filly,'' the passage reads. ''She's all cut and scarred up already with tearing through barbed wire after that bitch of a mother of hers.''

''That wasn't a reference to a female dog,'' Wacha told The Tampa Tribune for Friday's editions. ''I even called a friend who raises horses to make sure that a bitch wasn't also a female horse.''

His friend said it was not.

Other county residents said they didn't see what the fuss was all about.

''It can't be any worse than what Bart Simpson says every week,'' said Jeanne Birtel, a clerk at the downtown Green Cove Springs Shop. ''I don't think kids could read anything as bad as what they see on TV.''

''Children these days know an awful lot more than we did at their age,'' said Dawn McCormick, a secretary at the First Presbyterian Church of Green Cove Springs.

#90306u1323 11/02/1990 ~United Press International

DES MOINES, IA (NOV. 2) UPI - The National Pork Producers Council Friday called on U.S. officials to seek trade retaliation against the European Community for banning imports of U.S. pork variety meats into Europe.

The NPPC urged immediate retaliation against imports of pork products from 12 nations of the European Community. The EC banned the U.S. products as of Thursday, claiming U.S. meatpacking plants do not meet its sanitation requirements.

With the loss of the variety market, U.S. pork producers can sell no products in Europe. The EC in August de-listed the last U.S. packing plant that sold products such as ham and loin in Europe, meaning its products were not allowed into EC countries.

An NPPC spokeswoman said U.S. retaliatory measures could include an embargo of certain products, an increase in tariffs for EC products when they reach the United States, or other actions.

The United States is a large market for European pork products. From 1987-1989 EC countries exported nearly $1 billion in fresh chilled meat, ham, bacon, and other products, excluding variety meats, to America. During the same period, U.S. pork producers exported $7.5 million in comparable products to Europe.

The pork producers also urged U.S. Agriculture Secretary Clayton Yeutter to use his authority under the Federal Meat Inspection Act to recommend that President Bush prohibit the import of certain meat imports from the EC.

The request is consistent with a decision earlier this week by members of the Meat Industry Trade Policy Council in response to the EC action on pork variety meats.

The NPPC and other segments of the U.S. meat industry say food safety is not an issue, but the EC's actions are a "brazen attempt by the EC to interfere with U.S. foreign trade."

The NPPC spokeswoman said Friday the EC's actions block fair trade and hamper efforts to increase exports of U.S. pork products in Europe. The $10 million variety products market in Europe is crucial for U.S. producers, she said.

"This is not a big market, but an important one. The variety meat market is very critical to our industry, particularly because of the demand for variety meats in European countries," she said. Variety meats are not as popular with U.S. consumers.

The NPPC said it has been a strong proponent of the Bush administration's objectives in the Uruguay Round of trade talks, including proposals by the U.S. for the elimination of agricultural subsidies and tariff and non-tariff trade barriers. The organization said it asked U.S. officials to take action against the EC for only one purpose: to keep U.S. meat export markets open.

#90306u1326 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - In a move to ease tensions between Israel and the United States, Secretary of State James Baker Friday ordered a technical team to go to Israel to begin discussions on how to apply a $400 million housing loan guarantee.

The decision, conveyed Friday morning to Israeli Ambassador Zalman Shoval, reduces tensions but still does not settle a central issue of disagreement between the United States and Israel: whether East Jerusalem and the

surrounding annexed territory is occupied territory.

Israel says it is not. The United States says it is, and that Israel cannot spend any U.S. funds for settling recent immigrants there.

Shoval, speaking to a news conference Friday, said, ''We have differing views.''

But he said the $400 million loan guarantee can be used to ensure money will be available for building housing units inside Israel, and he said nothing in the U.S. agreement to supply the guarantee prohibits Israel from spending its own money for building settlements in East Jerusalem.

One month ago, on Oct. 2, Foreign Minister David Levy signed a letter that said Israel would not encourage the settlement of recent immigrants ''beyond the green line,'' meaning territory that was not controlled by Israel on June 5, 1967.

U.S. officials understood that to mean East Jerusalem, as well as the West Bank and Gaza Strip. Once he returned to Israel, Levy said the language was not meant to include East Jerusalem. Annoyed State Department officials delayed the departure of the U.S. delegation, citing ''technical details.''

That dispute came on top of a larger, deeper disagreement, also involving East Jerusalem.

The United States joined the effort in the U.N. Security Council to condemn Israeli excessive use of force in putting down a riot in East Jerusalem on Oct. 8. In the clash, 21 Palestinians were killed.

The United States, in addition to voting for the condemnation, also voted for another resolution, which deplored Israel's refusal to permit a U.N. fact-finding team from going to Israel to investigate the incident.

The Israeli government refused to accept the U.N. team because, according to the Israeli government, it would call into question Israel's claimed sovereignty in East Jersualem.

Shoval, a former member of the Knesset in the conservative Likud coalition, said that the $400 million housing loan guarantee is important symbolically, but he said it would represent a minute portion of the housing that Israel will need to absorb the flood of new immigrants.

Last month, he said, 20,000 new immigrants arrived, mainly from the Soviet Union.

He estimated that the $400 million would provide for 5,000-7,000 housing units. But, he said, Israel will require 250,000 new housing units for future

immigrants in the next four to six years at a total cost of between $20 billion and $30 billion.

The encouragement of that immigration and the absorption of those new citizens he said, is Israel's most important task.

Shoval said that Israel rejected as ''outrageous'' a U.N. report on the treatment of Palestinians and would reject a Geneva conference on the subject.

The State Department, asked if the United States would support such a conference, said it had not read the report and was not ready to take a position on it.

#90306u1342 11/02/1990 ~United Press International

(NOV. 2) UPI - Two of the government's economic indicators were up in September, the other nine were down. And analysts say it's another warning of tough times ahead. The overall September reading dropped eight-tenths of one percent after being down by a revised one-point-two percent in August. The index is actually up by two-tenths of one percent when spread over the past six months. But it is down one-point-one percent when the measurement is taken over the past year.

Iraq now gives its ''word of honor'' that American relatives of hostages in Iraq and Kuwait will be allowed to come and go freely during the Christmas season. An Iraqi spokesman says the hostage meetings with their relatives will take place at what he termed ''comfortable places.'' The U-S commander in Operation Desert Shield, meanwhile, told interviewers that he wants everything possible to be done to avoid a war in the Persian Gulf. But General Normal Schwarzkopf added that if fighting erupts, he will use everything available.

The mother of a Marine lance corporal stationed six miles from Kuwait says he has written back with a warning that Iraqi terrorists may be collecting home addresses of U-S servicemen. The reason may be to mail letter bombs home to soldiers' families. Marie Skic of Merrill, Wisconsin, says the letter from her son also warns her to be careful about opening suspicious packages.

The Soviet news agency Tass says six people were killed and at least 30 others wounded today in Moldavia, where a state of emergency has been declared in a second region. Tass says the fighting involved clashes between militia units, Moldavian vigilantes and residents of the breakaway Russian-speaking eastern region. The new state of emergency was ordered by local authorities in ethnic Russian and Ukranian areas of Moldavia.

The White House has added Czechoslovakia to the list of stops for President Bush as he begins a 10-day foreign tour on November 15th. Germany is the first stop in a series that includes a European security conference in Paris

November 19th to the 21st. The one-day Czechoslovakia visit is set for November 17th. Bush ends the tour with a Thanksgiving Day visit to U-S troops in Saudi Arabia.

The executor of the estate of Jack Ruby says he offered to sell or ''lease'' the gun used to kill presumed presidential assassin Lee Harvey Oswald to T-V producers, Life magazine and a famous London wax museum. Jules Meyer said the gun had some value and could raise money to pay bills that he says total 55-thousand dollars. Ruby's heirs filed suit in Dallas to recover custody of the weapon... a snub-nosed Colt ''Cobra.''

MOSCOW (NOV. 2) UPI - Radical deputies said Friday they will ignore a Soviet Parliament ban and stage a religious march through Moscow on Revolution Day next week.

They said it would mark ''a symbolic path from the citidals of totalitarianism toward democracy.''

Other lawmakers announced plans to hold a separate protest demonstration ending at Red Square just after the official military parade, where they vowed to demand the resignation of the Soviet government.

The radical legislators announced their plans after Moscow city officials challenged the central government and authorized protest rallies in the Soviet capital on the Nov. 7 national holiday.

The executive committee of the Moscow City Council decided late Thursday to allow anti-Communist demonstrations in addition to the Red Square military parade that will celebrate the 73rd anniversary of the Bolshevik Revolution.

''Having evaluated the situation in the city and listened to representatives of the Communist Party and public organizations that wanted to hold protests, the executive committee decided to ensure all citizens equal rights to express their views,'' Tass said.

A decree earlier Thursday by the national legislature's presidium, or exectuve arm, banned such rallies in Moscow on Revolution Day to avoid possible clashes and embarrassment for the Soviet leadership.

But radical lawmakers said they would hold a ''procession of the cross,'' a Russian Orthodox cermony normally held on Easter, through the capital and ending at the home of Andrei Sakharov, the late physicist, human rights champion and legislator.

The procession will be led by Russian Orthodox priest Gleb Yakunin, a member of the Russian Federation Parliament. Also participating will be Yuri Afanasyev, Mikhail Bocharov and Arkadi Murashev, deputies in the Soviet or Russian legislatures.

''This will be a symbolic path from the citidals of totalitarianism toward democracy and humanism,'' said Lev Shemaev, a member of the Moscow Voters' Association. ''We shall declare on Nov. 7 that not everyone in our country is happy with his fate as a laboratory rabbit in the great experiment of 1917-1990.''

Yakunin said the procession would be in the name of ''the innocent victims through all the years of the party apparatus' reign.''

Other lawmakers, including ex-KGB official Oleg Kalugin, Tatyana Koryagina, Sergei Belozertsev and Bitali Urazhtsev, said their separate demonstration will join two columns from separate parts of Moscow for a final march on Red Square.

The second group of radical legislators said they would demand the resignation of the Soviet government, the release of all remaining political prisoners, full sovereignty for the Russian Federation and the creation of the giant republic's own armed forces.

The decision by Moscow officials to allow the protest rallies was the latest challenge to central authority by the local government, which has been

controlled by radicals since a stunning election victory in May. Mayor Gavriil Popov and key deputies have quit the party since the election.

The city officials authorized three demonstrations: the traditional military parade under the auspices of the Moscow Communist Party, a protest organized by the Moscow Voters' Association and a rally by deputies in the national parliament and the Russian Federation's legislature.

The Moscow Voters' Association, an umbrella group of radical clubs, offered to cancel its demonstration if the official military parade was also called off, but the city party insisted on holding the annual celebration of the 1917 Bolshevik Revolution, Tass said.

In a minor concession to the Soviet government, the local authorities asked the Moscow Voters' Association to limit its demonstration to 25,000 people and to choose a route that will not intersect the paths of the other rallies.

President Mikhail Gorbachev issued a decree in September requiring activists to get permission from the Soviet government for all rallies within Moscow's Garden Ring delimiting the central area, but that edict was subsequently overturned by the Soviet Parliament's new Constitutional Compliance Committee.

Anti-communist protests disrupted official Revolution Day festivities last year in four of the Soviet Union's 15 republics, and the celebrations this year have already been canceled in six republics.

The Moscow Voters' Association sponsored the May 1 protests that disrupted the International Labor Day celebration at Red Square when hecklers jeered at Gorbachev and other government leaders.

UNITED NATIONS (NOV. 2) UPI - An international treaty to combat drugs will take effect in 10 days, easing the extradition of traffickers and lifting the veil of secrecy that has hidden their profits from authorities, American and U.N. officials said Friday.

The drug enforcement treaty is aimed at creating an international network of laws that will allow the war on drugs to be fought without the restrictions of national borders.

Attorney General Dick Thornburgh called the U.N. Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances ''the single most important treaty in the area of drug law enforcement ever undertaken.''

The treaty will take effect Nov. 11, traditionally celebrated in the United States as Armistice Day, or Veterans Day.

''November 11th this year is anything but an Armistice Day,'' Thornburgh told reporters at the United Nations. ''It is a worldwide declaration of war on those engaged in drug trafficking around the globe.''

U.N. officials said 26 countries and the Soviet Byelorussian Republic have ratified the convention, while 62 others have signed it and are awaiting ratification.

But several key countries involved in drug trafficking and money laundering have not approved the treaty, including Colombia, Peru and Panama. Bolivia, one of the major coca producers in South America, ratified the treaty Aug. 20.

Margaret Anstee, coordinator of U.N. anti-drug activities, said she expects the nations who signed the treaty to ratify it, which will increase pressure on other countries to join the anti-drug network.

Nations that ratify the treaty are obligated to pass legislation that would criminalize each step in the drug process - from the production to the laundering of profits.

A crucial element in the treaty is the requirement that bank secrecy laws be strictly curtailed. Participating countries are required to establish methods for tracing and confiscating money and property obtained through drug trafficking. Thornburgh said such cooperation would overcome the biggest problem faced by drug authorities: finding and freezing the spoils of the drug war.

Among the other legal requirements included in the pact are: eliminating so-called safe havens for drug traffickers by allowing extradition; controlling access to chemicals needed to produce drugs, notably cocaine; and increasing cooperation between nations in investigations by sharing evidence.

Participating countries would require commercial ships and planes to take steps to ensure that their vessels are not being used without their knowledge for the transportof drugs.

The treaty also would introduce on an international level an investigative technique, known as ''controlled delivery,'' that permits illegal drugs and money to pass through a country so the shipment could be traced to its final destination.

Anstee said the treaty is a statement by the world community that it will no longer tolerate ''the misery, degradation and death being inflicted by drug traffickers on an international scale.''

Despite the optimism expressed in the treaty, Thornburgh acknowledged that the United States and other governments are losing ground to drug cartels, which he said are among ''the most highly sophisticated enterprises the world have ever seen.''

''Although the international community is scoring an increasing number of

successes in this war on drugs, our combined efforts have not kept pace with the international drug cartels,'' Thornburgh said.

The 26 nations that have ratified the treaty are: the Bahamas, China, Nigeria, Senegal, Bahrain, the United States, Germany, Chile, Ecuador, India, Ghana, Mexico, United Arab Emirates, Jordan, Nicaragua, Qatar, Cyprus, Canada, Togo, Spain, Bolivia, Uganda, Paraguay, Bhutan, Tunisia and Bangladesh.

UNITED NATIONS (NOV. 2) UPI - The United States has asked U.N. Secretary-General Javier Perez de Cuellar to try to stop Iraq's ''inhumane treatment'' of third-country nationals and foreign diplomats, a high- ranking American official said Friday.

The official told reporters after a meeting with Perez de Cuellar that foreigners detained in Iraq and Kuwait live under ''difficult and dramatic

conditions,'' suffering from a lack of food and basic services.

The official, who spoke on condition of anonymity, said Perez de Cuellar is carrying out quietly his efforts to convince the government of Iraqi President Saddam Hussein to improve living conditions of foreign hostages, some of whom are being used as shields in strategic areas against any attacks by the U.S.-led multinational forces in the Persian Gulf.

He said the discussions centered on a request contained in last week's Security Council resolution that holds Iraq responsible for war damage and human rights violations.

The 15-nation council asked Perez de Cuellar to seek guarantees from Iraq regarding the safety and well-being of the hostages, particularly the provision of food, water and other personal needs.

The official refused to divulge specifics of the talks. He said Saddam has rejected every request made by the U.N. leader to send a personal envoy to Baghdad to negotiate the release of hostages and to send food convoys to them.

''Iraq has persisted in stonewalling (the requests) and continues its inhumane treatment of third-country nationals and diplomatic personnel,'' the official said.

He also declined to say how long the diplomats remaining in the U.S., British and French embassies in Kuwait City can hold out.

''Conditions there are very inhumane,'' he said. ''They operate in very difficult situation in terms of food and basic services.''

For security reasons, the three governments have not revealed the number of diplomats still working there. A great number of foreigners have left Iraq and Kuwait since the Iraqi Aug. 2 invasion of Kuwait and it is estimated that about 2,000 Westerners and Japanese are still detained in the two countries.

#90306u1457 11/02/1990 ~United Press International

DETROIT (NOV. 2) UPI - Ford Motor Co. and General Motors Corp. said Friday they will lay off more than 50,000 workers at U.S. car and truck plants in a series of pre-Thanksgiving production cuts analysts blamed on auto dealers' cautious inventory policies.

All the layoffs will be temporary - except for 450 workers at GM's Tarrytown, N.Y., minivan plant, whose jobs are being eliminated. The plant will continue to operate with staffing at 2,850. In all, industry leader GM said, production cutbacks would idle 37,231 U.S. workers before Thanksgiving. Ford announced plans to idle 14,100.

Chrysler Corp., the No. 3 domestic automaker, said it had no production rollbacks or layoffs planned, but a spokesman noted such decisions were made on a week-to-week basis. The production cuts and layoffs announced by the nation's two biggest automakers caught auto industry analysts a bit off guard.

"Given the strong sales of the recent past that's (the layoffs) a little bit surprising," said Michael Bowyer, analyst at Duff & Phelps, a Chicago-based investment rating firm. "But apparently the dealers are being very cautious in their inventories, so you see these layoffs." Pointing to GM slating "relatively more layoffs than Ford," Bowyer said: "That's because GM still is relatively less lean than Ford."

Assessing the business outlook for automakers, Bowyer said that "we look at the next three quarters as being pretty soft. That's going to result in the continuation of severe price competition exemplified by the incentives you're seeing currently." He said he expected incentives to continue to be offered.

James Alexandre, industry analyst for Donaldson, Lufkin & Jenrette in New York said the incentives have been responsible for the comparatively strong sales. The slackening of dealer orders and the consequent production cutbacks indicate dealers are less than confident incentives can continue luring people to their showrooms, Alexandre said.

GM said it will reduce production from two shifts to one at its Arlington, Texas, car plant beginning next Monday. The 3,700 workers will alternate weeks of work - with the night shift working one week and the day shift the next.

Both shifts will work the week of Nov. 19, but the single shift operation will resume the following week and continue indefinitely, a GM spokeswoman said. Other GM layoffs will affect 1,080 workers at the company's Corvette plant in Bowling Green, Ky., which will close next week and reopen Nov. 12.

GM's Fairfax assembly plant in Kansas City, Kan., will be closed for two weeks beginning Monday, affecting about 3,000 workers. GM's Oklahoma City assembly plant also will be closed for two weeks beginning Monday, affecting about 5,000 workers.

The company's Tarrytown, N.Y., minivan plant will close for two weks begining Monday. The company said 450 of the plant's 3,300 employees will be laid off permanently. The remaining 2,850 will return to work after the two-week layoff.

GM also will close its Van Nuys, Calif., plant during the weeks of Nov. 5 and Nov. 12, temporarily idling 3,300 workers. Another 5,000 workers are affected by a two-week layoff at GM's Wentzville, Mo., plant, which began this week and continues next week. In addition, GM is closing its Allante assembly plant in Cadillac, Mich., idling 51 workers for two or three weeks.

GM's Flint, Mich., truck plant closed Monday and will remained closed until Nov. 26, keeping 4,000 workers off the job. Two other truck plants, in Fort Wayne, Ind., and the Pontiac East facility in Michigan, will close Monday and remain closed until Nov. 19, idling 5,800 workers. The company's Moraine, Ohio truck plant will shut down Monday for one week, idling 3,000 employees.

At Ford, 1,200 workers began a two-week layoff at the company's Norfolk, Va., F-series truck plant. Ford also said it will close the Wayne, Mich., truck plant for one week, beginning Monday, idling 1,400 hourly workers. Ford also will close three car plants next week - Atlanta, Chicago and Kansas City - idling 5,700 workers for one week.

Also shutting down will be Ford's Loraine, Ohio, car and truck plants, for two weeks beginning Monday, idling 4,200 workers, and the Louisville, Ky., truck plant, for one week beginning Nov. 12, temporarily idling 1,600 workers.

"The main reason is a shortage of what we call 'buildable dealer orders,"' said Ford spokesman Bill Carroll. Rising fuel prices resulting from Iraq's invasion of Kuwait were an "indirect factor," he added.

(NOV. 2) UPI - A couple of new economic reports today indicate that the weakness that has drained the nation of much of its financial strength has spread and lessened the economy's resistance to recession. The economists based their opinions on a report that showed deterioration of the employment market and another decline of eight-tenths of one percent in the index of leading economic indicators.

Striking union workers attacked strike-breakers at the New York Daily News early today, as the bitter walkout entered a second week. The striking unions say a purchase offer is still on the table as a possible solution, despite management's quick refusal to consider it yesterday.

British Prime Minister Thatcher today named Education Minister John MacGregor to replace Geoffrey Howe as her ruling party's floor leader in the lower house of Parliament. Conservative Party leaders are working to patch the damage from Howe's resignation. Thatcher is avoiding the controversy at a country retreat.

Police and news reports from India say at least 68 people were killed today in fighting over a disputed holy site. The violence came as about 10-thousand people stormed barricades and began trying to build a temple in north India. Those killed today include 18 Hindus shot by police.

An apparent thawing in relations between Zibabwe and South Africa. Zimbabwe has released a South African woman serving a 12- year prison sentence for spying on the African National Congress. Zimbabwe's president is one of the

more consistent foes of apartheid among the southern African leaders.

East Germany's fallen communist leader is NOT interested in repentance. Erich Honecker says in an interview published today in a London newspaper that he feels NO guilt for the hundreds of Germans shot trying to cross the Berlin Wall. But Honecker is bitter, blaming Soviet President Gorbachev for betraying Communism and anger at the speed in which Germans have embracing the West.

Nelson Mandela is accusing right-wing elements in South Africa's security forces of trying to halt negotiations to dismantle apartheid. The black nationalist leader told a crowd in Malaysia today that ''silent vigilantes'' have been trained to ambush and kill innocent men, women and children.

Jurors in Houston have begun deliberations in a seven-Million-dollar lawsuit filed against a priest and the Roman Catholic Church. Debbie McCorvey claims in her suit that a priest forced her into a sexual relationship and fathered her child. Church officials claim McCorvey consented to the relationship.

The Midwest is enjoying Indian summer today, with temperatures soaring and residents heading outdoors. Elsewhere, a winter storm is chilling the western mountains, with snow blanketing the Rocky Mountains in one of the first severe storms of the season. Freezing rain fell in northern Maine, icing roads.

#90306u1463 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - The Justice Department said Friday that an administrative law judge will review and application for a Joint Operating Agreement between two California newspapers.

The application was filed July 13, 1988 by Morris Newspapers, which publishes the daily, paid-circulation Manteca Bulletin, and by Raymus Development & Sales Inc., which distributes the Manteca News free on Wednesdays and publishes a paid-circulation edition Friday.

Attorney General Dick Thornburgh signed an order calling for the hearing, which he said was needed to resolve disputed issues over whether the Manteca News is a "failing newspaper" as defined by the Newspaper Preservation Act.

The act allows the attorney general to grant a limited exemption from the antitrust laws so that newspapers can enter into JOA's, but only when at least one of the newspapers involved is in danger of going out of business.

Under the proposed arrangement, an agency controlled by Morris would become responsible for advertising and circulation for both papers, but each publication would continue to have separate editorial staffs.

After a review of the documents provided by the applicants, the Justice

Department's Antitrust Division recommened on Aug. 13 that the application be denied without a hearing. Friday, Thornburgh ordered that a hearing be held in Manteca and that an assistant attorney general appoint the presiding administrative law judge.

KISKA ISLAND, AK (NOV. 2) UPI - Rescued by fisherman, a Seattle man was on his way to dry land Friday after crash-landing his seaplane in Alaska waters just short of accomplishing his around-the-world goal.

Tom Casey, 53, was uninjured when engine failure forced him down 22 miles west of Kiska Island, in the western Aleutian Islands, some 1,450 miles southwest of Anchorage, Coast Guard spokeswoman Pamela Foss said.

Casey was attempting to become the first floatplane pilot to circle the globe by landing only in water. It was unknown whether Casey would attempt to continue on.

He was nearing the end of his adventure when he went down Thursday. After the crash-landing, Casey flipped on an emergency locator signal and waited for help. His plane, though damaged, did not sink.

The fishing vessel Judy B reached Casey, cold but unhurt in his downed plane, Thursday night. The Coast Guard Sherman arrived Friday. Foss said Casey's plane was hoisted out of the water by the Judy B and he and the aircraft were being taken to an Air Force base on nearby Shemya Island.

The single-engine Cessna 206, equipped with floats that enabled it to land in water, had just flown the longest leg of its journey - from Japan to Attu, the westernmost island in the Aleutians - when Casey took off for Dutch Harbor at the eastern end of the Aleutians but made it only 145 miles.

Casey carried a raft and food, but no survival equipment of any kind, Foss said.

Casey left Seattle May 20, initially intending to fly west around the world, but his trip stopped in Alaska when Soviet officials denied him permission to include their territory in his trip. So he turned around and went the other way. He was due to return to complete his around-the- world floatplane trip Sunday in Seattle.

Foss said she didn't know what Casey planned to do or whether his plane could be flown.

#90306u1536 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - President Bush's announcement that he will visit U.S. troops in the Persian Gulf at Thanksgiving kicked a critical prop out from under the dollar Friday, prompting an unusual late flurry of selling. A couple of fairly negative economic indicators, pointing more clearly to the likelihood a U.S. recession, also pressured the currency.

Currency traders said the president's disclosure of his travel plans gave the market a green light to aggressively sell the dollar. Players had hesitated to do that earlier, especially before a weekend, fearing conflict might break out in the Gulf and give the dollar a safe-haven boost.

"The rationale was that Bush was going to the Middle East for Thanksgiving and that there would not be a war between now and then," said Charles Spence, a currency vice president for First Interstate Bank Corp. in Los Angeles.

Audrey McNiff, a vice president for corporate foreign exchange trading with the Hongkong & Shanghai Banking Corp., confirmed that and added that the week saw "pressure being taken out of the Gulf situation" in general.

Late in the New York trading session the dollar was quoted at 1.4935 German marks, off more than a pfennig from 1.5045 marks Thursday, and 127.80 Japanese yen, down nearly three yen from 130.55.

U.S. economic news continued negative, with 68,000 jobs lost last month even though the national unemployment rate stayed at 5.7 percent. The index of leading economic indicators fell 0.8 percent, boding recession.

But those numbers weren't quite as grim as some players had expected, and the dollar managed to bounce in early trading. Those gains, though, were wiped out by a rash of dollar-selling in a late, thin market.

Barclay's Bank trader David Jaques said he believed the dollar's abrupt fall was triggered by heavy speculative selling. McNiff could not confirm that, but noted that "the New York Friday afternoon market is notoriously thin and vulnerable to speculators."

Other New York dollar rates: 1.2600 Swiss francs, off from 1.2730; 5.0160 French francs, down from 5.0435; and 1,127 Italian lire, off from 1,127.75. The pound climbed to $1.9590 from $1.9450.

In Europe, the dollar closed lower against most major currencies in reaction to the poor U.S. economic reports and on the continuing effects in currency markets of the German central bank rate hike.

But analyst Mark Brett of Barclays de Zoete Wedd, an investment bank, said the dollar showed resilience because traders were reluctant to be short of the U.S. currency on the weekend given Gulf uncertainties.

In London, the pound gained against the dollar after the government minimized the political fallout from the resignation Thursday of Deputy Prime Minister Sir Geoffrey Howe from the British government. The pound closed at $1.9535 vs. $1.9525 Thursday.

The dollar closed lower in Frankfurt, at 1.5010 German marks against 1.5080. It was still feeling the impact of the Bundesbank's hike of the Lombard rate to 8.5 percent from 8 percent, which took effect Friday. The dollar also fell in Zurich, to 1.2740 Swiss francs vs. 1.2815.

Currency markets reopened Friday in Paris, Brussels and Milan after an All Saint's Day closing Thursday.

In Paris, the dollar closed lower at 5.0390 French francs against 5.0885 on Wednesday. In Brussels, it slipped to 30.99 Belgian francs vs. 31.2350. In Italy it declined to 1,128.50 Italian lire vs. 1,138.40.

Earlier, the dollar plunged against the yen in Tokyo after several economic figures confirmed a pessimistic U.S. economic outlook. It ended at 129.10 yen, down 1.60 yen from 130.70 yen Thursday. "Market sentiment grew negative toward the dollar," said Junpei Ishii, a vice president at Mitsui Taiyo Kobe Bank.

In Zurich, gold closed lower at $376 an ounce vs. $380.50. London gold also slipped, to $375.75 an ounce vs. $380.25.

Silver closed lower in Zurich at $4.15 an ounce vs. $4.20. In London silver was lower at $4.18 an ounce vs. $4.19.

Republic National Bank in New York closed cash gold at $376.50 an ounce, down from $381.25 Thursday. The New York Commodity Exchange settled contract gold

at $376.40 an ounce, also off from $381.50.

Republic closed cash silver at $4.18 an ounce, down from $4.245. Comex silver closed at $4.185 an ounce, a decline from $4.256.

#90306u1584 11/02/1990 ~United Press International

LOS ANGELES (NOV. 2) UPI - New Orleans Saints quarterback Bobby Hebert's request for a Superior Court order to allow him to negotiate a contract with the Los Angeles Raiders was denied Friday by a judge who ruled the issue should be settled by a federal court.

The holdout quarterback is challenging the NFL's free-agent system on entirely new grounds, contending it violates the California Business and Professional Code by preventing Hebert from earning a living with the Raiders.

Prior tests of NFL free agency - which provides for a right of first refusal as well as draft-pick compensation for a club losing a player - took on the league in federal court on the basis of antitrust principles.

But Superior Court Judge John Zebrowski denied Hebert's request for a preliminary injunction, ruling the NFL is governed by federal interstate law that cannot be superceded by state law.

''If I make a ruling that the Raiders can recruit Mr. Hebert, regardless of NFL law, then why can't the (Pittsburgh) Steelers do likewise?'' Zebrowski told Hebert's attorney, Louis Meisinger.

The judge said such a ruling would open up the league to being governed by the

laws of various states.

''There has never been a state court decision which has sought to enjoin the rules of a national sports enterprise involving player- management relationship,'' Zebrowski said.

But Meisinger argued that as a California resident - Hebert recently moved to Los Angeles from his native Louisiana - the quarterback's right under the state constitution to earn a living with the team of his choice superceded federal commerce law.

Despite Zebrowski's denial of an immediate injunction, Meisinger told reporters Hebert's case remains alive in state court and said he planned to meet with the quarterback to determine whether to appeal the judge's decision.

The attorney charged the Saints have a grudge against Hebert that has deprived him of earning a living.

Meisinger noted that Saints General Manager Jim Finks recently said the team was not interested in welcoming Hebert back this season, and claimed the Saints earlier turned down a Raider trade offer for the quarterback in exchange for star running back Marcus Allen, or a No. 1 draft choice in 1991 and unspecified draft choices in 1992.

Raider owner Al Davis admitted making a trade offer to the Saints during the summer, but declined to name the Raiders he was offering as trade bait.

It is not known whether the Raiders still want Hebert, especially since quarterback Jay Schroeder has gotten them off to a surprising 6-1 start. The Raiders are named along with the NFL in Hebert's suit.

Challenging the NFL's free-agent agency system - easily the most restrictive in pro sport - is nothing new.

A case involving halfback Freeman McNeil of the New York Jets and several others, including Hebert, is currently pending in federal court. To this point the NFL system has withstood all court tests.

#90306u1702 11/02/1990 ~United Press International

WASHINGTON (NOV. 2) UPI - Presidential adviser Cooper Evans, who devoted a large part of his time to encouraging farm trade with the Soviet Union, is leaving the White House to return to farming fulltime.

During an interview Friday, Evans said he expected his successor also would be immersed in trade matters, but with a different issue - the outcome of trade reform talks now nearing conclusion.

Negotiations repeatedly has snagged on the question of removal of trade-distorting subsidies and trade barriers.

''In the months ahead, that almost has to be the major issue,'' Evans said, either in seeking congressional approval of a pact or responding to failure.

''If negotiations fall apart ... what do you do to ensure the United States can compete in a world where use of import barriers and export subsidies are the norm, not the exception?''

Agriculture Secretary Clayton Yeutter has suggested the possibility of putting a more aggressive, export edge to farm policies if the talks founder. Congress included in its deficit-cutting bill some provisions to shelter agriculture if

there is no trade treaty.

Evans has a long-standing interest in trade development. During three terms in Congress in the mid-1980s, he experimented with ideas for improving U.S. sales such as taking advantage of barter.

During nearly two years as agriculture adviser to President Bush, Evans sought to expand the volume of trade and the items sold to the Soviet Union. He was viewed as playing an instrumental role in a sale of surplus butter to the Kremlin one year ago and a Soviet decision to buy a large quantity of chicken parts.

In addition, Evans has advocated extension of export credit guarantees to the Kremlin. The Bush administration has made such a step contingent on Soviet codification of emigration reforms, a requirement Evans supports.

Evans, 66, said he decided a few months ago to return to farming. He has 1,800 acres of land in Grundy County in east-central Iowa, and a 700-acre cattle operation in Sullivan County in north-central Missouri.

''I'm not one that holds that one should stay forever in jobs like this,'' he said. ''The whole idea was I want to get back to production agriculture.''

Speculation has arisen in recent days over three possible contenders to succeed Evans, who plans to leave Nov. 9. They include an agriculture lobbyist who worked for Vice President Dan Quayle when he was a senator.

Evans said other candidates might arise although he pooh-poohed the idea, raised by one observer, the slot might be held for a defeated Republican congressman.

(NOV. 3) UPI - SPORTS DIGEST

Boxing

Former heavyweight champ Joe Frazier won a $77,000 verdict against a Florida company that exploited his name without permission. The eight- member federal civil jury deliberated nine hours Wednesday and Thursday before finding South Florida Cruises Inc. of Fort Lauderdale used Frazier's name in ads without his permission.

College

Auditors cannot account for $100,000 in University of Pittsburgh athletic booster funds, the Pittsburgh Post-Gazette reports. The newspaper also said

the school discovered a previously unknown bank account at an unnamed Beaver County bank. Auditors are trying to determine why numerous checks made payable to the university or the booster club, known as the Golden Panthers, were deposited into the mystery account.

Cycling

The Tour of Mexico begins Saturday in Monterrey. Raul Alcala, winner of the Tour de Trump, is favored to win the 18-day race featuring cyclists from 15 nations.

Fencing

Tamir Bloom, a Penn sophomore from Millburn, N.J., became the second U.S. fencer to win a gold medal at the 1990 Junior Pan American Championships at Rosario, Argentina. He defeated Paris Inostrosa of Chile 5-1, 5-6, 6-5 in men's epee. Ben Millett of San Francisco finished fourth and Chris Swope of Minneapolis 10th.

Football

The NFL is prepared to move the 1993 Super Bowl from Phoenix if Arizona voters fail Tuesday to approve a Martin Luther King Jr. holiday, The Washington Post reports. Voters have two referendums from which to choose. If either passes, King's birthday becomes an observed holiday in Arizona. That would leave Montana and New Hampshire as the only states without the holiday.

Golf

Blaine McCallister shot a 6-under-par 66 for a one-stroke lead over fellow PGA Tour members David Edwards and Calvin Peete in the opening round of the Mexican Open. ... Nancy Brown fired a 6-under-par 66, recording a two-shot lead over three players after one round of the $550,000 Mazda Japan Classic.

Hockey

Chicago goaltender Ed Belfour was named NHL Rookie of the Month for October after compiling a 7-3 record with a 1.92 goals-against average. He edged Pittsburgh wing Jaromir Jagr, New York Rangers goalie Mike Richter and Los Angeles defenseman Rob Blake.

Soccer

Those fans responsible for the rampage following Wednesday's European Championship qualifier have been permanently banned from German stadiums. The German Football Association announced the move in the wake of the turmoil in downtown Luxembourg after a listless 3-2 victory by the World Cup champions over the host country.

Yachting

The Soviet Union's first entry in the America's Cup will be sponsored by the nation's most familiar export - Stolichnaya vodka. The company announced it will be the lead sponsor of the Red Star Syndicate in the 1992 regatta in San Diego.

#90306u1714 11/02/1990 ~United Press International

LOS ANGELES (NOV. 2) UPI - A jury was urged Friday to award $800 million in profits made by Lockheed Corp. on its C-5B cargo plane to three former employees of the defense giant who were allegedly fired for reporting flaws in the aircraft.

"This was one of the most profitable contracts in Lockheed's history," Herbert Hafif, an attorney who has represented a number of plaintiffs in other defense "whistle-blower" cases, told the jury in his closing arguments. "You have to speak with a voice that will ring out through the United States," he said as the six-week Superior Court trial wound down.

Hafif said the company did not recall the C-5B despite alleged problems with melt spots, cracking and inconsistencies in the mainframe of the plane, which was first delivered to military in 1986.

He said the $800 million damage figure represents the profit that Lockheed realized from the production of the first five C-5B's, which can carry up to 345 soldiers and is being widely used in the Persian Gulf. The case may go to the jury as early as Monday, following the conclusion of final arguments.

Hafif is representing Terry Shielke, an auditor at Lockheed for 15 years, and Clyde Jones, a senior quality-assurance worker who worked at the company for 35 years. The other plaintiff is Thomas Benecke.

The trio has alleged that, while the first planes were in production, they began receiving complaints from workers that drilling shavings from the plane's mainframe - the core of the aircraft's strength - had different consistencies.

In order to form the mainframe, which supports the aircraft's 222- foot wingspan, the metal is heated to near-melting temperatures. But problems in the process led to cracks and inconsistencies, the plaintiffs said.

Their attorneys have argued that since Lockheed was making the planes on a fixed-price contract, recalling the mainframes would have led to cost overruns similar to those on Lockheed's predecessorplane, the C-5A.

The trio have alleged they were fired in October 1985 after going to Lawrence Kitchen, then the company's chief executive officer, with their complaints about problems with the strength of the C-5B's mainframe. Lockheed officials denied the allegations during the trial.

(NOV. 2) UPI - After a quiet week in the Persian Gulf, oil fell more than $1 a barrel Friday on the market's perception that a Middle East war won't break out soon and that supplies are currently adequate.

On the New York Mercantile Exchange, the benchmark West Texas Intermediate crude for December delivery was down $1.17 from Thursday to $34 a barrel, which was, however, 99 cents higher than a week earlier.

Friday's decline helped fuel a rally on the New York Stock Exchange where the Dow Industrials index of blue chip stocks jumped 35.89 points to 2490.84.

Except for Monday when WTI rose $1.44 after a Soviet mission to Iraq failed to make any progress toward peace, prices drifted up and down during the uneventful week in response to technical limits laid down in previous sessions and varying perceptions of supply and demand.

''Nothing happened all week as far as military action in Kuwait is concerned and the general perception is that nothing is going to happen until after the (Nov. 6) election,'' said Joe Miller of Shearson Lehman Hutton's International Energy Desk in New York.

''Most people don't anticipate anything will happen this weekend and with that we saw some liquidation of buy positions in one of the most boring sessions in recent weeks,'' said Bob Jonke of Cargill Investor Services, New York.

''Even with prices falling more than $1, it was uneventful. There was no fresh news (from the Middle East) and there was nothing to justify prices moving higher,'' Jonke said.

Steve Platt, senior energy analyst with Dean Witter Reynolds Inc. in Chicago, noted that President Bush appeared to soften his warlike stance with statements this week, including one that he would be willing to meet Iraqi President Saddam Hussein.

The trader also noted that Gen. H. Norman Schwartzkopf, commander of U.S. forces in Saudi Arabia, told the New York Times in an interview that while war could erupt ''anytime,'' he did not expect military action soon.

Schwartzkopf added that Saudi oil fields were virtually immune to attack by Iraqi forces that have occupied neighboring Kuwait since the Aug. 2 invasion.

The Energy Department also reported Thursday that the four-week average of crude, gasoline and heating oil supplies rose last week over the prior week although the oil industry's American Petroleum Institute reported late Tuesday that crude stocks dropped last week for the seventh week in a row.

''Many times our figures differ,'' said Jonathan Cogan of the department's Energy Information Administration.

While there ''probably has been some technical selling'' based on the market's previous highs and lows, Platt said, ''I think the fundamentals are providing the basis for what the market has been doing - reflecting the underlying supply-demand situation drying up some of the panic buying.''

Home heating oil for December delivery ended the day on the Merc down 2.95 cents from Thursday to 87.42 cents a gallon, a drop of 2.55 cents on the week.

Perhaps influenced by the Energy Department's report of a rise in supplies, December unleaded gasoline fell 3.09 cents to 89.21 cents a gallon.

Gasoline was the week's strong performer, however, gaining 3.23 cents on the week even with Friday's loss.

The American Petroleum Institute reported Tuesday that the nation's gasoline stocks fell 2.2 million barrels last week to 220.4 million barrels.

In addition, there were reports Wednesday of refinery problems in Venezuela, which supplies gasoline to the United States.

Ashland Oil Inc. Chairman John Hall also told a meeting of Wall Street security analysts Wednesday night that the higher prices since Iraq's Aug. 2 invasion of Kuwait would lessen gasoline demand this winter and he expected stocks to remain at their current level even though imports would decline.

On the European spot market, where crude is bought and sold for cash, Britain's widely traded North Sea Brent was down $1 from Thursday to $34.65 a barrel, $1.65 higher than the previous Friday.

United Arab Emirates' Dubai Light - the key OPEC crude from the Middle East shipped mainly to the Far East - declined $1.10 to $29.40 a barrel, a 95 cent gain on the week.

Houston's Conoco Inc. subsidiary of Du Pont; Marathon Oil Co., the Findlay, Ohio, unit of USX Corp. and Sun Co., Radnor, Pa. - lowered the posted price they will pay for crude at the wellhead.

Conoco and Marathon dropped their prices $1 a barrel to $33 a barrel for WTI. Sun's reduction was 80 cents to $33.20 a WTI barrel.

HARTFORD, Conn. (NOV. 2) UPI - John F. Kennedy Jr., the only son of the assassinated president, has passed the Connecticut state bar examination, allowing him to practice law in the state, judicial officials said Friday.

The name John Fitzgerald Kennedy of New York, N.Y., was on the list released Friday of those passing the exam, said Lawrence Moore, a spokesman for the Connecticut Judicial Department.

Kennedy twice has failed the New York State bar examination and the results of his third try July 24 are expected next week.

Kennedy, 29, must pass the New York bar or give up his $30,000-a-year job as an assistant district attorney in New York City. If he passes, he will receive a $1,000 raise, officials said.

Connecticut officials did not know why Kennedy took the Connecticut bar exam, or if he planned to practice law in the state.

The 1989 graduate of the New York University School of Law took his first New York bar exam last November, but did not pass. He took the test again in February, when he again failed.

Kennedy can take the New York bar as many times as he wishes, but he cannot return to the district attorney's office until he passes.

He was sworn in to his job in August 1989 as an assistant prosecutor, working with a unit that focuses on white-collar crime, low-level political corruption and other felonies.

He was part of a three-member team of prosecutors who investigated illegal wiring of drug money from storefronts in the Washington Heights section of Manhattan to the Dominican Republic.

John Kennedy, only son of Jacqueline Kennedy Onassis, has been named the nation's ''sexiest hunk'' in several popularity polls.

A bachelor, he patronizes some of the city's trendiest restaurants and nightspots in the company of generally unidentified young women.

NEW YORK (NOV. 2) UPI - Mounting evidence that the U.S. economy was tumbling into recession, if it wasn't mired in one yet, gave the government bond market the strongest tone it has had since August, analysts said Friday.

U.S. Treasury bonds didn't lift much on the latest batch of bad tidings. The government said another 68,000 nonfarm jobs were lost in October and that its index of leading economic indicators slumped again last month. The September index was revised upwards, injecting some ambiguity.

But with economic headlines pointing to the ''cascading weakness'' that Federal Reserve Chairman Alan Greenspan some time ago said was what he would need to see to aggressively ease, bonds were starting to perk up.

Analysts said the recession cloud is obscuring other concerns - inflation, the Persian Gulf - which had pressured bond prices for months.

''Investor concerns are shifting toward very slow growth in the economy, and that's predominating now over inflation concerns and the weak dollar'' and the upcoming Treasury refunding, said Roger Craig, fixed-income portfolio director for Bank One Asset Management Corp. in Columbus, Ohio.

Market negatives are being powerfully offset by the fact that ''the economy is not only weak and probably already in a recession, but at least from where we sit is accelerating downward with the latest figures,'' added Scott Winningham vice president and chief money market analyst with Stone & McCarthy Research Associates Inc., a Princeton, N.J. advisory firm.

Salomon Brothers economist Richard Berner, in a newsletter, said ''multiplying signs that the U.S. economy was falling into recession were beginning to win the tug-of-war with lingering fears of inflation'' in the market.

Expectations of economic bad times boost bond prices because investors hit on Wall Street flee to the safety and fixed-income of government securities. Bond prices also can move up as the Fed lowers interest rates, because that process

makes their coupon interest rates more attractive.

The benchmark 30-year bond, the 8 3/4 of 2020, closed at 100 18/32 to yield 8.70 percent, vs. 99 24/32 and 8.77 percent a week earlier. That made for a gain of about 7/8 point, or $8.75 on a $1,000 Treasury bond.

Winningham said there were clear indications that professional investors have begun to think it is time to take bigger bond positions.

''What we are seeing very definitely in recent days is a growing fear on the part of institutional portfolio managers that they may get left behind'' in the flight to quality, Winningham said. Government bond dealers report ''much more interest than has been true in recent memory, '' he said.

''The theme underlying these last few days seems to be, do I buy here or do I wait - but there is very definitely a growing interest'' in establishing longer bond positions than money managers had been maintaining.

Winningham and other analysts were cautiously optimistic about the success of the Treasury's quarterly refunding operation next week, in which it will sell $34.25 billion in bonds and notes to finance the U.S. debt. There was concern earlier that the record refunding might create an oversupply.

''Just looking at the market, we're at the highest close we've been at since before the invasion of Kuwait, and that's despite the fact that this refunding is looming,'' Winningham said. ''That suggests the Treasury will be able to issue this new supply without more than a hiccup or two.''

Ten-year Treasury notes ended at 101 06/32 to yield 8.70, compared with 100 24/32 and 8.63 percent the week before. Five-year notes ended at 101 12/32 to yield 8.57 percent, vs. 101 2/32 and 8.22 percent.

#90306u1834 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - Stocks gained ground this week as further signs of just how much the economy was weakening fostered the perception that the Federal Reserve would have to step in soon with another interest rate cut.

The Dow Jones industrial average jumped 35.89 Friday to end the week at 2490.84, gaining 54.70, or 2.24 percent, for the week.

Among broader market indexes, Standard & Poor's 500-stock index rose 7.14 to end the week at 311.85 and the New York Stock Exchange composite index added 3.36 to end at 170.07.

Advances led declines 1,013-883 among the 2,170 NYSE issues traded this week. Weekly Big Board volume totaled 771,474,930 shares, up from 719,883,860 a week earlier and 740,965,720 a year ago.

Analysts called the outlook for lower interest rates - gaining credence after several grim economic reports were released - was the main factor behind the week's gains.

With the economy already teetering on the edge of recession, news Friday that the jobless rate was unchanged in October but that the number of non-farm jobs declined by more than had been expected made traders feel that a further rate cut could not be far off.

That news came on the heels of Thursday's purchasing managers' report, which showed that the overall economy declined last month for the first time in 8 years. And jobless claims for the latest week for which figures were reported rose a sharp 33,000.

All this bad economic news brought the market to one conclusion: despite its heretofore tight stance on interest rates, the Federal Reserve would have to rescue the economy with loosening credit - and soon. The Fed nudged down short-term rates by a quarter-point Monday, a move that had been wholly anticipated by the markets and one that failed to cheer investors much.

''The economy has been weakening, but assuredly it has got to lead to an easier monetary policy,'' said Don Hays, director of investment strategy at Wheat, First Securities Inc. in Richmond, Va.

Hays was critical of the Federal Reserve for waiting until this week to loosen the reins on credit even slightly. ''I think almost 90 percent of the reason for the market's recent decline has been tight money policy,'' he said.

Iraqi President Saddam Hussein ''magnified'' the stock market's bearishness, but ''if we had had a healthier monetary policy it wouldn't have been so bad '' Hays said. ''By holding rates up, they (the Fed) removed the shock absorbers from the system. That's okay if you don't hit any potholes. But if you do, it goes directly to the jawbone.''

Hugh Johnson, chief economist at First Albany Corp. in Albany. N.Y., agreed that Fed policy on rates has been restrictive, attributing this to the Fed's desire to be perceived as an inflation-fighter, and said the economy is now paying the price for that.

''The way we're paying is that money growth is still very sluggish and the economy has come quite close to recession, dangerously close,'' Johnson said. ''In part this is because of the tight policy, but in a way it's hard to blame the Fed because (controlling monetary) policy is an art, not a science. I'm not sure I would have done anything differently.''

In defense of the Fed, Johnson said it has done a reasonable job of keeping the core inflation rate under downward pressure.

''But they had the misfortune of the events in the Mideast. That made life more difficult,'' he said.

Nevertheless, the message of the market this week was the widespread expectation that the Fed will respond with a rate cut.

''The market is saying the Fed will be like all knights on white horses. It will come to the rescue just in the nick of time and the economy won't recede further,'' Johnson said.

Despite what Wall Street may think, Johnson said he saw reason for a degree of skepticism about a rate cut. ''The dollar has been weak, so import prices have been strong, and the Fed needs to preserve its credibility as an inflation fighter,'' he argued. ''I'm not sure they're willing to risk that by lowering short-term rates much further. Stay tuned.''

On the trading floor this week, Chase Manhattan was the most active issue, off 3/8 to 10 5/8.

But as the week ended, banks rebounded on the rosier rate outlook. Among them was Citicorp, up 1 1/2 to 12 5/8 in trading that made it the week's second most-active issue. The holding company for the largest U.S. bank ended last week at its lowest levels in more than eight years.

Philip Morris was third, up 1 3/4 to 48 3/8.

Unisys was also active, up 3/8 to 2 5/8 after plunging last week in the wake of a $357 million loss recorded in the third quarter.

Among the other blue chips, AT&T rose 1 3/8 to 34 3/4, General Electric jumped 2 1/2 to 53, IBM added 1 1/2 to 108 3/8 and American Express, recovering along with other financial issues, rose 1 1/8 to 19 3/4.

On the American Stock Exchange, the Amex Market Value index lost 1.41 to close Friday at 289.93. Declines led advances 461-320 among the 988 issues traded.

Amex volume totaled 47,233,625 shares, down from 52,916,215 traded a week earlier and 57,286,175 traded in the same week a year ago.

Continental Air led the Amex actives, plunging 1 1/8 on the week to 2 5/8. General Motors' Electronic Data Systems unit canceled a pact with Continental Friday that would have called for EDS to form a joint venture to take over the airline's System One reservation system.

The National Association of Securities Dealers composite index rose 2.09 to end the week at 336.45.

WASHINGTON (NOV. 2) UPI - The Nuclear Regulatory Commission must hold a public hearing before authorizing startup of a newly constructed nuclear power plant if it is presented with significant safety questions, a federal court ruled Friday.

In a modest victory for antinuclear groups, the court invalidated sections of the NRC's new ''one-step'' licensing rule that greatly limited the circumstances under which a pre-operation hearing would be required.

The streamlined licensing procedure, adopted by the NRC last year, was considered an important boost for the nuclear industry in reducing the time needed to get a federal operating license for a new plant.

Under the rule, utilities seeking to build a nuclear plant could receive a combined construction permit and conditional operating license before breaking ground, provided the project involved a standardized reactor design already certified as safe by the NRC.

Once the plant was built, the NRC would inspect it to see if it met the safety requirements outlined in the provisional license. If the plant was deemed in compliance with those requirements, the NRC could issue an operating license without any public hearing.

In its decision, the U.S. Circuit Court of Appeals for the District of Columbia ruled that the NRC rule was too restrictive in determining if a pre-operation hearing was needed.

The court said the rule provided for hearings if a plant did not meet safety requirements in the provisional license, but not if other information - for example, new data about earthquake risks - came to light after a plant was built.

It said federal law required the NRC to hold a pre-operation hearing if it was presented with any ''material issues'' concerning plant safety - not just those issues stemming from provisional license requirements.

''The plain language of (federal nuclear safety law) requires the commission to provide an opportunity for a hearing to consider significant new information that comes to light after initial licensing, '' the court said.

The one-step licensing rule was intended to settle most safety issues before utilities began building a plant, giving them greater assurance that no unexpected snags would arise once a plant was finished.

Under old NRC rules, an utility first had to get a construction permit to build a plant at a given site. It then had to undergo a second proceeding - including public hearings - to get an operating license.

NRC and industry officials said the two-step procedure was too prone to abuse by antinuclear activists who could raise new safety issues after a plant was built, often holding up operation for years.

The most celebrated examples were the Seabrook nuclear power plant in New Hampshire and the Shoreham facility on Long Island. In both cases, opponents raised concerns about emergency evacuation planning after the plants were built.

Shoreham's owner eventually decided to mothball the plant and the Seabrook plant went through a decade-long struggle to get an operating license.

(NOV 2) UPI -The White House said Friday President Bush will visit U.S. troops in the Persian Gulf region on Thanksgiving Day, while Baghdad gave its ''word of honor'' that the families of hostages would be allowed to come and go freely if they visit Iraq at Christmas.

And in an interview published Friday, the U.S. commander general in the Persian Gulf said there are alternatives to destroying Iraq in the quest for peace and Middle East stability.

Iraqi President Saddam Hussein made an offer Thursday to allow families to visit the thousands of foreign hostages in Iraq and Kuwait at Christmas.

Bush dismissed the invitation. ''I don't think he'll win any humanitarian rewards for this,'' the president said.

The State Department was discouraging visits.

''Iraq is cruelly dangling as the lure for these visits the possibility of obtaining the release of or having the chance to visit hostages held against international law,'' spokeswoman Margaret Tutweiler said.

''Saddam Hussein is using Americans and other nationals as pawns in a cruel game. He is heartlessly toying with the anguish of family members and the sympathies of all civilized people for the plight of the hostages.

''Iraq's cynical trafficking in human beings should be exposed for what it is, an attempt to exploit for propaganda purposes the illegal detention of Americans and other citizens,'' Tutweiler said.

It was not immediately clear how many families would take Iraq up on the offer or if the crisis would last until Christmas. A source from the Iraqi Embassy in London said two families had contacted diplomats to ask about the proposed trips.

A State Department official said if family members decide to accept Saddam's invitation to visit hostages in Iraq, they will require a Treasury Department license because they will be spending money on such things as plane tickets and hotel, which would normally be in violation of the U.N. economic embargo against Iraq.

The official said the licenses would be granted - despite Bush's less-than-enthusiastic view of the visit invitation - because it is for a humanitarian cause.

The official Iraqi News Agency, INA, quoted the country's minister of culture as expressing surprise at the international condemnation of the offer to allow families to visit the estimated 4,000 hostages, who are being held at key economic and military sites as a human shield against possible attack from the U.S.-led international force in the Persian Gulf.

''We emphasize that Iraq has a word of honor and (is) known for its morals and promises, therefore the families that will visit Iraq will ... possess their full freedom to travel again after meeting their relatives and their meetings will take place at comfortable places,'' said the minister, Latif Nesyef Jassim.

Tutweiler said the weather in the Middle East is growing cooler.

''Temperatures are now in the 80s during the daytime, and get down to the 50s or 60s at night. During the winter, temperatures sometimes get around freezing.

''We assume that the people that are being held as human shields do not have clothes and blankets because, as you know, most were taken from their homes during the heat of the summer,'' she said.

The White House said President Bush will spend Thanksgiving Day with U.S. forces in the Persian Gulf, where he also will consult with regional leaders about the standoff with Saddam.

Details of the trip were disclosed while Bush was on a final campaign swing to the Midwest and West Coast. First lady Barbara Bush was expected to accompany the president on the visit to the Middle East and Europe.

#90306u1883 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - The National Mortgage Bank of Greece, the country's second-largest bank, pleaded guilty Friday to accepting hundreds of millions of dollars in illegal deposits, laundering millions in cash and operating an illegal bank in the United States.

In addition, four of the Athens-based bank's employees in the United States pleaded guilty to conspiracy in the scheme. A fifth was expected to enter a guilty plea Monday.

In return for the guilty plea on 26 of 28 counts, the bank - represented by bank governor Apostolos Georgiakis - agreed to pay an $8 million fine, the largest ever collected for a non-drug related money- laundering scheme, said U.S. Attorney Andrew Maloney.

The bank could have been slapped with as much as a $10 million penalty.

Sentencing for the bank employees will be held in January and February in U.S. District Court in Brooklyn, when they face up to five years in jail.

But the defendants all told Judge Raymond Dearie they intended to cooperate with the government in its investigation of the scam.

The importance of their cooperation may determine lighter sentences, the government said.

The defendants were the last of 12 employees who entered guilty pleas since they were indicted last March. The bank, owned in part by the Greek government operates branches in Astoria, Queens; Brooklyn; Hicksville, N.Y.; Upper Darby Penn., Chicago, Oak Lawn, Ill., and Roslindale, Mass.

The indictment charged the bank helped customers to structure money transactions by accepting cashier's checks, money orders and foreign drafts in amounts under $10,000 to avoid certain filing reports with the Internal Revenue Service.

In this fashion, federal authorities said the bank illegally processed $700

million through its U.S. branches since 1983 from its Greek-American customers including doctors, lawyers, college professors and restaurant owners. The defendants were arrested in June 1989 after a nine-month undercover investigation.

Maloney had called the scam the ''boldest ... form of institutionalized money laundering we have ever encountered.''

Those pleading guilty Friday were George Kontos, of Astoria; Manolis Stefanakis, of Brooklyn; Alex Kotseroglou, of Chicago, and Nikos Stathopoulos, of Burbank, Ill.

Stellios Psarros, of Syosset, N.Y., was expected to enter his guilty plea before Dearie on Monday.

NEW YORK (NOV. 2) UPI - Blaming its long-term debt position, United Merchants and Manufacturers Inc. announced Friday that it and subsidiaries Jonathan Logan Inc. and United Merchants Trucking Inc. filed for Chapter 11 federal bankruptcy protection.

Petitions for reorganization relief were filed in U.S. Bankruptcy Court in Wilmington, Del.

Victoria Creations, in which United Merchants owns an 83 percent interest, is not involved in the reorganization and will continue to conduct business as usual, according to the parent.

Seeking Chapter 11 protection from creditors was necessitated by the company's inability to repay the principal amount of $11.6 million of an issue of 4 percent convertible subordinated debentures that matured Thursday.

''After a thorough review of all alternatives, the company was compelled to take this action to preserve its assets, provide for continuing operations and protect the interests of its shareholders, creditors, customers, employees and suppliers,'' said Uzi Ruskin, United Merchants president and chief executive officer.

After selling assets and cutting indebtedness by $115 million over the last five years, Ruskin said that ''the company's operations are all operating profitably at the operating income level at this time.''

United Merchants is ''developing a reorganization plan that will reduce long-term debt to a level that can be supported by continuing operations,'' he said.

The company is involved in manufacturing various textiles.

#90306u1939 11/02/1990 ~United Press International

WELLESLEY, Mass. (NOV. 2) UPI - Boston Celtics guard Dee Brown, who was held at gunpoint by Wellesley police after a bank clerk said he resembled a robbery suspect, has settled his differences with the town, his attorney said Friday.

Wellesley's governing Board of Selectmen agreed to review police procedures, to work to heighten the exclusive suburb's awareness of racial and cultural diversity, and to pay Brown an undisclosed sum for ''attorney's fees.''

Brown and his fiancee, Jill Edmondson, had planned to buy a home in Wellesley and the couple were sitting in a parked car outside a post office on Sept. 21 when police surrounded the vehicle. Brown said the officers forced him out of the ground at gunpoint.

Police said the speedy 6-foot-1 guard from Jacksonville University had been mistaken for a robbery suspect who had held up a nearby bank. Police Chief John Fitts issued a public apology. Although Fitts denied racism was a factor, some questioned whether police targeted Brown because he is black. Brown considered taking legal action against the town.

A statement released Friday by Brown's attorney, Alan Margolies, said selectmen and Fritts had ''fully and completely apologized'' to Brown and Edmondson ''for their having suffered through the incident as totally innocent victims of a misidentification.''

The statement said selectmen had thoroughly investigated the incident and determined ''overt acts'' of racism were not involved. However, the town agreed to hire a professional consultant to review police procedures and to examine the circumstances under which police should use firearms. The training of police dispatchers was also to come under scrutiny.

Selectmen also assured the couple they would take steps to ''reinvigorate the town of Wellesley's commitment to recognize, appreciate and respect individual group differences and cultural diversity.''

Brown said he was satisfied that the town was committed to promoting racial equality and said he and his fiancee still planned to move to the community.

''I look forward to becoming an active leader as one of Wellesley's newest residents in the furtherance of these social goals which are common to us all '' he said in a statement.

''While Jill and I were shocked, angered and humiliated by what happened, we

are most pleased that something very positive has resulted. Hopefully, the final outcome of this unfortunate episode will be beneficial to everyone.''

#90306u1999 11/02/1990 ~United Press International

NEW YORK (NOV. 2) UPI - A union invitation to the Rev. Jesse Jackson to address Friday's union rally outside the New York Daily News prompted the newspaper's publisher to issue an unheeded warning against such an endorsement.

''It isn't conceivable that the founder and driving force of the Rainbow Coalition would choose to endorse or align himself with six lily-white craft unions whose membership rolls are strictly closed to blacks and females,'' wrote James Hoge, publisher and president of the News.

''I also want you to know that management at the Daily News has been powerless - until now - to correct these injustices,'' he said. ''Acccording to past contract provisions, hiring for craft jobs has been solely from 'approved' lists which these unions compile and provide.''

Striking News columnist Jerry Capeci, acting as a spokesman for the Guild Strike Coordinating Committee, responded, ''The Daily News management is the only party in this dispute to be found guilty of racial discrimination in a federal court of law,'' referring to past legal actions against the newspaper. ''Hoge should get back in his glass house.''

Hoge's criticism of Jackson's invited support for the strikers, released as an ''Open Letter to Jesse Jackson,'' did not stop the former presidential candidate from speaking to a crowd of nearly 2,000 union backers outside the tabloid's Midtown headquarters Friday evening.

-30- 1623

#90306u2020 11/02/1990 ~United Press International

(NOV. 2) UPI - Federal officials put a ''for sale'' sign Friday on Lincoln Savings and Loan Association, a symbol of the nation's thrift scandal, and 17 other seized thrifts.

The Resolution Trust Corp., set up last year to dispose of failed S& Ls, said that it was soliciting bids for the thrifts, which have total assets of about $31.8 billion and deposits of $24.3 billion. The RTC has been operating all 18 of the institutions.

RTC spokeswoman Kate Spears said that the agency expects most of the 18 thrifts to be sold by the end of the year or early next year.

Federal regulators seized Lincoln, of Irvine, Calif. in April 1989, one day after its parent American Continental Corp. declared bankruptcy. Analysts have

estimated that Lincoln's failure will cost taxpayers more than $2 billion, making it the most expensive thrift failure ever.

Spears said the RTC has not yet estimated how expensive the Lincoln bailouit will be.

Former Lincoln owner Charles H. Keating Jr. and three associates face trial in Los Angeles on 42 criminal charges and are accused of scheming to defraud investors in the sale of $250 million of now-worthless junk bonds through the Lincoln branches in Southern California.

Keating, who spent a month in jail before his bail was cut from $5 million to $300,000 two weeks ago, also faces a myriad of civil charges. The Office of Thrift Supervision has filed administrative charges against him and five associates, seeking more than $40 million in restitution.

Current estimates of the total costs of the thrift bailout run from the federal government's current $330 billion figure to $1 trillion, a forecast issued two weeks ago by Edwin Gray, who headed the Federal Home Loan Bank Board between 1983 and 1987.

The RTC said Lincoln currently has assets of $2.7 billion and deposits of $2.4 billion.

Another thrift with an expensive bailout cost - City Savings Bank of Somerset, N.J. - also was put on the auction block. The RTC agreed in September to sell 27 City Savings branches in Florida to Great Western Bank of Beverly Hills, Calif., and nine New Jersey offices to First Fidelity Bank of New Jersey.

At the time, the RTC said that the ultimate cost of the City Savings bailout would be about $1.5 billion. City Savings assets were listed as $7.7 billion.

The largest of the 18 thrifts put up for sale was 78-branch Imperial Savings, of San Diego, with assets of $7.9 billion. Imperial, which had invested heavily in junk bonds, was hit hard when the junk bond market fell sharply last year.

The RTC also listed there 15 other seized thrifts as being for sale, with their assets:

-Pima Federal Savings, of Tucson, Ariz., $1.98 billion.

-Security Savings, of Scottsdale, Ariz., $557 million.

-Commonwealth Federal Savings, of Ft. Lauderdale, Fla., $1.2 billion.

-Pioneer Federal Savings, of Clearwater, Fla., $1.75 billion.

-American Federal Savings of Iowa, of Des Moines, Iowa, $670 million.

-Statesman Federal Savings, of Waterloo, Iowa, $552 million.

-Horizon Federal Savings, of Wilmette, Ill., $843 million.

-Mid Kansas Savings, of Wichita, Ka., $573 million.

-Security Homestead Federal Savings, of New Orleans, $445 million.

-First Federal Savings of Annapolis, of Annapolis, Md., $764 million.

-ABQ Federal Savings Bank, of Albuquerque, N.M., $1.4 billion.

-Sandia Federal Savings, of Albuquerque, N.M., $485 million.

-Alamo Federal Savings of Texas, of San Antonio, Texas, $425 million.

-Commonwealth Federal Savings, of Houston, $1.3 billion.

#90306u2114 11/02/1990 ~United Press International
(NOV. 2) UPI - Analysts are saying that the U-S economy is less able to resist a recession because of the weaknesses that have drained much of the nation's financial strength. They see that weakness continuing with two government reports today. In the first, joblessness was reported UNchanged at five-point-seven percent in October, though there were less jobs to fill. The other report showed that the index of leading indicators dipped eight-tenths of one percent in September.

The official Soviet news agency reports more bloodshed today in the rebellious republic of Moldavia. The report says at least six people were killed and at least 30 others were wounded in battles involving militia units, Moldavian vigilantes and residents of the Russian-speaking eastern region of the republic. Ethnic Russian and Ukrainian residents of the eastern region are trying to secede from the Moldavian-dominated western region.

Ford and General Motors say they are laying off more than 50-thousand workers at U-S car and truck plants in a series of pre-Thanksgiving production cuts. Analysts blame the lay-offs on the cautious inventory policies of auto dealers. All the lay-offs will be temporary- except for 450 workers at the G-M mini-van plant in Tarrytown, New York, whose jobs are being permanently eliminated. Chrysler did NOT announce any lay- offs, saying those decisions are made on a week-by-week basis.

The Newspaper Guild is organizing a boycott of advertisers for the weekend editions of the New York Daily News. And, rallies are planned tonight outside the Daily News building, with unionized firefighters among those planning to join the picket lines outside the newspaper. The violence-ridden strike entered its second week today with the paper's management refusing to consider a purchase offer.

The prosecution rested its case today in Houston in the so-called ''pottygate'' case featuring a woman dubbed the ''bathroom bandit'' by the media. A man in the bathroom at the time of the incident says Denise Wells overed her face and headed straight for the facility's stalls. David Keller says he was NOT offended by Wells' presence- in his words- ''I felt sorry for her.'' Wells was thrown out a concert and given a 200-dollar ticket for using a men's restroom at a George Strait concert in July.

53-year-old Tom Casey of Seattle, Washington, is on his way to dry land today after crash-landing his seaplane in Alaskan waters... just short of his around-the-world goal. Casey was seeking to become the first float-plane pilot to circle the globe by landing only on water. An engine failure forced him down 22 miles west of Kiska Island in the western Aleutians. Casey was NOT hurt... and the fishing boat ''Judy B'' picked up him and his plane.

A store owner in Malden, Massachusetts, says he is offering a 200- dollar

reward for information leading to the arrest of a suspect in a fatal beating Halloween night. John Strauss says he has grandchildren Timothy Doucette's age and- in his words- ''it just hit home.'' Doucette was fatally beaten by a motorist angry that eggs were tossed at his luxury car.

#90306u2135 11/02/1990 ~United Press International

LA JOLLA, CA (NOV. 3) UPI - On Nov. 6, a majority of Americans are expected to carry on a century-old political tradition - they will decline to vote in the general election.

A panel of national experts on voting patterns predicted Friday that voter turnout across the nation will be relatively light next week, just as it has been in years past.

The reasons for voter apathy, outlined during a UC San Diego conference entitled ''Why Americans Don't Vote,'' point out weaknesses in the election system itself.

Complex registration processes, the entrenchment of incumbents and the power of the 30-second soundbite have all created the impression that voting is too much work for too little impact, panelists said.

''The voting process is still too confusing to many people,'' said Sam Popkin, a UCSD political scientist and moderator of the forum.

''We have more propositions, more names on the ballot than ever before, and one of the problems is that authority is diluted at so many levels,'' Popkin said.

A sense of chaos has spawned a growing anti-incumbent or ''Re-elect No One'' attitude now sweeping the country, Popkin said. But, curiously, that resentment has not translated into a higher voter turnout, he added.

''One of the reasons we're getting this 'throw them all out' (attitude) is because so few people really know which ones they're mad at,'' Popkin said.

Low voter turnout in America can be traced to the adoption in the late 19th century of the so-called personal voter registration policy, requiring voters to be literate and active participants.

Americans who want to vote must seek out the appropriate government agency and fill out the necessary paperwork within a certain time frame, said Frances Fox Piven, co-author of the book, ''Why American's Don't Vote.''

Throughout Europe, where governments assume responsibility for registering its citizens, voter turnout runs as high as 96 percent.

By contrast, in 1988, during the last presidential race in the United States, turnout was 50 percent, the worst showing since a 51-percent turnout in 1948.

''In Europe, you can't help but be registered,'' UC Berkeley political science professor Raymond Wolfinger said.

Most panelists said radical electoral reforms are the only hope to bring out more American voters. Richard Cloward, Piven's co-author, recommended a so-called ''motor-voter'' program now being implemented in several states, in which voter registration is taken directly from automobile registration forms.

Similar programs could be established with welfare and public-housing agencies the U.S. Postal Service and unemployment offices, Cloward said.

The most radical approach to solving the problem was suggested by Walter Dean Burnham, a political scientist from the University of Texas at Austin. Burnham predicted that voter turnout would rise dramatically if non-voters were assessed a $5 poll fine.

Voter apathy poses a serious enough threat to the democratic process to justify such a penalty, Burnham said.

''The reason you hear moans when voter turnout falls below 50 percent is because that presents a significant problem with maintaining the fiction that you have something other than a functional oligarchy at work,'' he said.

Piven warned that no reforms were likely to take place as long as incumbents wield disproportionate power. Politicians now in office typically show no interest in taking steps to increase voter turnout, she said.

''That should tell you something,'' Piven said. ''They're afraid of something. They're afraid of political motion.''

(NOV. 2) UPI - Iraq is expressing surprise at the international condemnation of the offer to allow families to visit the estimated four-thousand hostages at Christmas. Iraq's news agency quoted an official saying Iraq gives its word of honor that families will have full freedom to leave after they visit their relatives. President Bush says Saddam Hussein WON'T win any humanitarian awards.

Iraq says a chartered Iraqi Boeing 707 arrived in Baghdad today with 15 tons of medicine from Switzerland. The Swiss sold the supplies to Iraq for an estimated 390-thousand dollars. Switzerland says the shipment does NOT violate the economic embargo imposed by the United Nations, which allows humanitarian shipments of medicine.

Calls to a national mental health hotline have increased between 30 and 40 percent since the Persian Gulf crisis began. The president of Managed Health Network in Los Angeles, Ronald Moreland, says American workers increasingly exhibit stress caused by outside events. He says most callers aren't even aware that personal anxiety is increased by world tension.

Protesters demonstrated against President Bush outside a high school in Rochester, Minnesota, today. About 200 people expressed their displeasure with

the president's veto of the Civil Rights Act and other issues. It's NOT clear whether Bush could see or hear the demonstrators. Bush is on a country-wide tour in behalf of Republican candidates on Tuesday's ballots.

A crusading Mohawk newspaper editor, Doug George, has been cleared of charges he killed another Indian during a gunfight over allowing casinos on reservations. The judicial ruling in Quebec may have led to a new burst of violence on the Canadian side of St. Regis Indian Reservation. Young people threw rocks at police and vandalized property last night.

A happy landing occurred today for 242 people on an American Airlines D-Cstop flight from London to Dallas-Fort Worth made a safe emergency landing at the Kennedy Airport in New York City. The jet had a blown tire and flap damage incurred when it took off in London. The landing occurred safely... and passengers finished their trip on another flight.

Detroit Mayor Coleman Young says the traditional Halloween arson rate was up considerably this year. Young said today 281 fires were reported during the three-day Halloween period, about 60 more than last year. It's the first increase since 1984 and came despite the efforts of more than 35-thousand volunteers to dampen Detroit's annual arson spree.

John F. Kennedy Junior, the only son of the assassinated president, has passed the Connecticut state bar exam. His name is on the list released today of those passing the exam. Kennedy has failed the New York State bar examination twice... and the results of his third try are expected next week. 29-year-old Kennedy must pass the New York bar or give up his job as an assistant district attorney in New York City.

(NOV. 2) UPI - A quiet week in the Persian Gulf resulted in oil falling more than one-dollar a barrel on the world's markets today. One analyst says traders generally think NO military action will occur in Kuwait until after Tuesday's U-S elections.

''For sale'' signs went up today at Lincoln Savings and Loan Association, one of the symbols of the nation's thrift scandal... and 17 other seized thrifts. The Resolution Trust Corporation wants offers for the 18 savings and loans.

A German diplomat in Mexico was set free today after being held hostage for four days. A group demanding release of its jailed leader freed the envoy... but did NOT win the release of its leader.

The Canadian government says it plans to eventually have Canada's entire fleet of oil tankers and tank barges outfitted with double bottoms or hulls. It's an effort to prevent a catastrophic oil spill in Canadian waters.

Yugoslavia's government says it will ask its highest court to rule on the legality of laws enacted by the republics of Serbia, Croatia and Slovenia. Nationalists in the republics are challenging the Yugoslav reform program.

12 Albanian dissidents who are ethnic Greeks crossed the border into Greece and sought political asylum in the last two days. One died of exhaustion shortly after racing across the border.

A new drug enforcement treaty aimed at allowing the war on drugs to be fought across borders will take effect in 10 days. The United Nations says 26 countries have ratified the treaty and 62 others have signed it.

Colombia's Medellin cocaine cartel demanded amnesty today. The cartel also demanded an end to extradition of suspects to other countries in return for freeing seven journalists it is holding hostage.

Police in Brazil report the largest cocaine bust in Brazilian history. Police say a Colombian man and three Italians with Mafia connections were arrested as more than 11-hundred pounds of cocaine was seized.

A union boycott of New York Daily News advertisers is being organized for the weekend. Today began the second week of a strike against the nation's largest tabloid newspaper.

Donald Trump's wife, Ivana, announced today that she is filing for divorce. The Trumps have been estranged for months. A statement issued through her attorneys said she is filing for divorce with deep regret.

Two animal-welfare groups say the Nordstrom retail chain will close its seven remaining fur salons by February. Nordstrom officials characterized the move as a business decision.

A G-I in Singapore will be subject to U-S military disciplinary procedings. He scaled the fence around Thailand's Embassy and broke into the ambassador's home. Police say he had been drinking.

(NOV. 2) UPI - President Bush is working his way west... along the way stumping for Republican candidates on Tuesday's ballots. Bush addressed a rally in Cincinnati, Ohio, this morning before moving on to Rochester, Minnesota. Demonstrators met Bush in both cities. But he received largely enthusiastic receptions as he plugged for G-O-P candidates. The president arranged to go to Sioux City, Iowa, later in the day and then head on to California and New Mexico.

In Iowa, Senator Tom Harkin asked Bush to shun political fund-raisers and instead meet with people to explain the new budget. Democrat Harkin says the budget cuts agricultural programs by 41 percent.

A national survey conducted by an Arab-American newspaper finds little support for the deployment of U-S troops to the Persian Gulf. 86 percent of those reponding to the survey oppose the deployment. 47 percent disagreed with Iraq's invasion of Kuwait. 41 percent supported it. The Arab American News, which is published in Dearborn, Michigan, has a circulation of 20-thousand.

Oil market analysts say traders expect a quiet weekend in the Persian Gulf and it showed in their activities at the oil markets today. Crude oil fell more than one-dollar a barrel. On the New York Mercantile Exchange, the benchmark West Texas Intermediate crude for December delivery was down one dollar and 17 cents to 34-dollars a barrel.

The Canadian government is taking steps to avert catastrophic marine oil and chemical spills. Officials say they plan to eventually have all of Canada's tankers and tank barges outfitted with double bottoms or hulls. Transport Minister Doug Lewis made the announcement after the release of a study that indicates Canadian government and industry are NOT equipped to handle a major spill.

The Nuclear Regulatory Commission is under orders to hold a public hearing before authorizing start-up of any newly constructed nuclear power plant if it receives significant questions about safety. The federal appeals court in Washington gave that modest victory to anti- nuclear groups today. The court invalidated sections of the N-R-C's new streamlined licensing procedure.

Seven former followers of a dead Indian guru who once operated a controversial commune in central Oregon have been indicted. They are charged with plotting to kill the U-S attorney in Portland... Charles Turner. The indictment was handed down by a federal grand jury May 25th, but was made public only after six of the defendants were arrested around the world.

Authorities in Papillion, Nebraska, accuse a woman of trying to pull a hoax to try to get a lighter sentence on a theft conviction. The woman called 911 to report she had been shot, beaten and raped. Police say she actually planned the attack with a male friend in hopes of getting leniency. She is to be sentenced next Friday for stealing jewelry from a house where she worked as a maid.

#90306x2086 11/02/1990 ~Comtex

NEW YORK (NOV. 3) UPI - United Press International said Friday it has been approached by six potential suitors, including several ''blue-chip companies '' and will impose deep pay cuts on non-union employees to foster a speedy

sale of the wire service.

In an effort to improve the company's financial condition, UPI said it will reduce the salaries of all non-union covered employees by 35 percent for 90 days beginning Nov. 4.

In addition, the news service said it had rescinded its policy granting severance and notice pay to all non-union employees.

The company also said it had opened discussions Friday with officers of the Wire Service Guild, which represents UPI's editorial employees. The nature of those discussions was not disclosed.

''All these drastic measures are necessary to bring UPI immediately to cash flow self-sufficiency and to stabilize the company during the next few months to be able to effect a sale of UPI in the shortest possible order,'' said Pieter VanBennekom, executive vice president of editorial operations for UPI, in a memorandum to staff members.

''To bring the process to a successful conclusion, we need the breathing space these measures will provide,'' VanBennekom added.

UPI is 97 percent owned by Infotechnology Inc.

Last week, Infotech and Financial News Network Inc. said they were considering the sale of ''some or all'' of their businesses because they were unable to meet operating expenses or cover payments of $70.2 million in bank debt.

Infotech has a 47 percent stake in FNN.

A new management team was appointed last week to restructure Infotech's and FNN's debt and to return the companies to financial health. The team replaced Dr. Earl Brian, who had been chief executive officer of both companies.

Infotech and FNN hired Coopers & Lybrand several weeks ago after their previous auditors, Deloitte & Touche, declined to endorse FNN's financial results.

In his memorandum to UPI staffers, VanBennekom said: ''Many of the expressions of interest have come from the blue-chip companies that have the greatest possible interest in preserving UPI's journalistic tradition of excellence.''

He said UPI expected to be contacted by additional parties.

Milt Capps, a UPI spokesman, declined to identify the potential bidders.

Capps also said he could not disclose how many workers would be affected by the wage cuts and the elimination of severance and notice pay or how much

money the company expected to save from the actions.

Capps declined to say whether management would seek the same concessions from Guild-covered workers as it had imposed on non-union personnel.

''We are not ruling out any options in our effort to sustain UPI,'' he said.

#90307b0366 11/03/1990 ~Business Wire

FREMONT, CA (NOV. 3) BUSINESS WIRE - Vitalink Communications Corp., a leading LAN internetworking company, announced Saturday that it has restructured its executive staff by adding three additional executives.

The new positions being added include vice president of manufacturing and service, assistant vice president of software engineering and assistant vice president of systems engineering.

Commenting on the expansion of the executive staff, Leslie G. Denend, chief executive officer and president, said, ''This modification of the staff will create a flatter management organization with all key corporate functions equally represented in Vitalink's decision making body.''

Denend went on to say, ''It also emphasizes Vitalink's renewed focus on product development.''

Previously, the executive staff was comprised of the chief executive officer and president, chief financial officer, vice president of marketing, vice president of sales, vice president of strategic relations and the vice president of operations.

Vitalink also announced, effective today, that Tony Banta has been appointed acting vice president of manufacturing and service. Formerly assistant vice president of manufacturing, Banta has been with Vitalink since 1984.

Vitalink also announced that it has accepted the resignation of Mike Yost, vice president of operations, responsible for manufacturing, service and engineering. Yost left the company to pursue other opportunities. In his absence, Rick Gilbert, assistant vice president of software engineering and Avner Ben-Dor, assistant vice president of systems engineering will report directly to Denend.

Founded in 1980, Vitalink Communications Corp. manufactures and markets a family of LAN interconnect processors including Ethernet and Token-Ring bridges and bridge/routers, and a comprehensive network management system. Over 16,000 units are installed worldwide, reflecting the company's position as a leading supplier of internetworking systems used to build large, multivendor computer networks.

#90307d0100 11/03/1990 ~French/German News Agency

BAGHDAD, (NOV 3) - Iraqi President Saddam Hussein vowed Saturday to fight what he termed ''the battle of honour, dignity and Islam'' against the U.S.-led multinational forces deployed in the Gulf region.

He stressed that there could be no peace in the Gulf as long as thousands of U.S., British and French troops remained in the oil-rich region.

Saddam made his remarks during his meeting in the Iraqi capital with a delegation from the Secretariat General of the International Federation of the Arab Labor Unions, Baghdad Radio said.

Saddam said his current conflict with the U.S.-led alliance over the Iraqi invasion of Kuwait was a battle for the defence of Moslem holy places.

''It is a social, nationalist, humanitarian and Islamic battle. We are ready for sacrifices,'' he declared.

#90307d0140 11/03/1990 ~French/German News Agency

BAGHDAD, (NOV 3) - President Saddam Hussein said Saturday that European workers would be allowed to leave Iraq, while in parliament the speaker said Iraq would release all foreign hostages if guaranteed it would not be attacked, the state news agency reported.

Mr. Hussein made his decision in response to a request from an Arab labor union delegation "to allow European workers in Iraq to leave the country," the state Iraqi News Agency (INA) said.

The agency did not specify the number of hostages to be affected by the decision or which countries were involved.

Iraqi parliamentary speaker Saadi Mehdi Saleh said that Iraq was prepared to liberate all of its foreign hostages "on condition that it receives assurances that it will not be attacked and that the five permanent members of the (U.N.) Security Council undertake to choose peaceful methods to settle all the region's problems," INA reported.

Mr. Saleh was speaking at the start of a special parliament session to discuss a two-point peace initiative.

Mr. Saleh said for all foreigners to be allowed to go home the five permanent members of the U.N. Security Council should also deploy efforts for a peace settlement to "all the problems of the region."

Iraq invaded Kuwait on August 2 and subsequently annexed the tiny emirate.

On August 12 Mr. Hussein proposed an overall settlement to the Middle East crisis, namely an unconditional end to Israel's 23-year occupation of Arab territories.

Earlier Saturday Mr. Saleh told reporters that parliament would be meeting to discuss a two-point peace initiative that calls on "two countries among France the Soviet Union, China, Japan and Germany to commit themselves to giving guarantees against a recourse to the military option."

He said the second point called on the five permanent members of the U.N. Security Council "to give guarantees ruling out a military option and to find a peaceful solution" to the Gulf crisis.

The United States and Britain are permanent Security Council members, alongside China, France and the Soviet Union.

About two million foreigners lived in Iraq and Kuwait before the Gulf crisis broke out but although tens of thousands have been able to leave the region many more remain.

Some 4,000 Westerners and Japanese are being held against their will, including about 400 "human shields" detained in Iraqi and Kuwaiti strategic sites to deter a much-feared Western-led attack.

A U.S.-led alliance has some 300,000 soldiers in Saudi Arabia and the Gulf.

In a related development, four ill and elderly U.S nationals were released Saturday by Baghdad and arrived in Amman on their way home.

"I will not feel well until I'm on American soil," said one of them looking weary as another former hostage was being helped by a member of the U.S. embassy.

The official Iraqi news agency INA said the four were released in response to a request by a U.S. delegation visiting Baghdad.

-30- 3203

#90307d0240 11/03/1990 ~French/German News Agency

NICOSIA, (NOV 3) - The Iraqi National Assembly (parliament) on Saturday unanimously approved a presidential proposal to authorise the release of some 690 Bulgarian nationals held in Iraq and Kuwait against their will, the Iraqi

news agency INA said.

On October 23, President Saddam Hussein urged parliament to consider the release of the "Bulgarian guests", following a visit to Baghdad by the Bulgarian Vice President Atanas Semerdjiev.

A similar suggestion by Mr. Hussein was approved by parliament last month authorising some 330 French nationals detained in the country to return home.

-30- 773

#90307d0560 11/03/1990 ~French/German News Agency

TAIF, (NOV 3) - Kuwait's exiled Emir Sheikh Jaber al-Ahmed al-Sabah Saturday appealed to peace-loving states in the world to force Iraq to pull out its troops from his Iraqi-annexed country.

He made the plea in a speech to the Kuwaiti people and the world marking the passing of three months on Iraq's invasion of the oil emirate, the Kuwaiti News Agency (Kuna) said.

The Emir delivered the speech from his temporary residence in the Saudi summer resort of Taif, where he and other members of the ruling Sabah family had sought refuge after Iraqi forces marched into Kuwait on August 2nd.

Sheikh Jaber reiterated that the only way to end the Iraqi occupation of Kuwait was through a strict and firm implementation of the resolutions of Arab and Islamic meetings and the United Nations Security Council.

These resolutions, which Baghdad has rejected, called for a total and unconditional withdrawal of Iraqi troops from Kuwait and the reinstatement of the legitimate government led by the exiled Emir.

''We affirm that there is no way to end this (Iraqi) occupation and establish security in the world except through a full and firm application of the resolutions of the U.N. Security Council, Arab summit and the Islamic foreign ministers in this respect,'' Jaber said.

''We hope that all peace-loving states will intensify their moves to uproot the evil tendency of the Iraqi regime, the aggressor, and force it to yield to the international will,'' he added.

Despite the failure of diplomatic efforts to make Iraqi President Saddam Hussein budge on the conquest of Kuwait, Jaber expressed confidence that his country would eventually be liberated.

''The sun of liberation will rise on the pure land of Kuwait soon, God willing. The invaders will be forced to withdraw,'' he said.

-30- 2006
#90307d0800 11/03/1990 ~French/German News Agency
THOUSAND OAKS, CALIFORNIA (NOV 3) - President George Bush announced Saturday he would sign a clear air bill passed last month by Congress which should reduce by 50 per cent the toxic emmissions responsible for acid rain.

Mr. Bush, campaigning here for Republican candidates in next Tuesday's elections, called the clean air act "a major domestic achievement .... the most significant air pollution legislation in the history of this country."

"We need a new environmentalism driven by the knowledge that a sound ecology and a strong economy can go forward together," Mr. Bush told a rally in this environment-conscious state.

-30- 794
#90307d1000 11/03/1990 ~French/German News Agency
JERUSALEM, (NOV 3) - A Palestinian was killed and more than 130 others hurt by Israeli gunfire in the occupied Gaza Strip Saturday during clashes sparked by the death in prison of a Palestinian, Palestinian sources said.

Two Palestinians suspected of collaborating with the Israeli occupation authorities were also killed over the last 24 hours in the Gaza Strip, the sources said.

The funeral of prisoner Atiya Abdel Ati al Zaanin, 32, who died in Gaza jail, turned into a violent demonstration in his home village of Beit Hanoun, after which the violence spread to the whole Gaza Strip.

According to the Israeli army, the prisoner hanged himself in his cell.

His family said he died under interrogation or was victim of some kind of maltreatment by the security services.

A demonstrator, Mohammed Eizat al Bassiouny, aged 19, was fatally wounded in the head by a bullet and 43 others were hurt at Beit Hanoun, Palestinian and Israeli military sources said.

More than 90 others were also wounded by Israeli gunfire in clashes which then ensued in other parts of the Gaza Strip, Palestinian sources said.

Atiya Abdel was arrested two weeks ago by the Israeli army. He had been imprisoned several times in the past for activities on behalf of Fatah, which is part of the Palestine Liberation Organisation (PLO).

In December 1989, a Palestinian prisoner was found dead in similar circumstances in the Gaza jail. The army said he, too, had hanged himself, his

family that he had been murdered or tortured to death under interrogation.

Two other prisoners died in the same prison in 1989 from ill-treatment during interrogation or for lack of proper care, according to investigations made by the Israeli police.

The death of Mohamed Eizat in Saturday's clashes brought to 742 the number of Palestinians shot dead by the Israeli military or settlers since the Palestinian uprising in the occupied territories began in December 1987, according to a count kept by Agence France-Presse on the basis of Palestinian sources.

#90307d1090 11/03/1990 ~French/German News Agency
MOSCOW, (NOV 3) - Soviet President Mikhail Gorbachev met at the Kremlin on Saturday with Moldavian President Mirchea Snegur and the president of the self-proclaimed Gagauz republic, Stepan Topal, to discuss the current crisis in Moldavia, the news agency Tass reported.

The participants called for dismantling volunteer militias on both sides and for a moratorium on measures taken by both sides since the beginning of the crisis, according to Tass.

The leaders also agreed that a return to calm depended on "the maintenance of the territorial integrity of Moldavia within the Soviet Union," Tass said.

The conflict broke out when the Moldavian region of Gagauz, inhabited by ethnic Turks observing Orthodox Christianity, held legislative elections in late October, causing Moldavian authorities to declare a state of emergency in the area.

Meanwhile, conservative Soviet deputies called on Saturday for the immediate sacking of Interior Minister Vadim Bakatine, whom they accused of having "allowed creation of units of armed Moldavian vigilantes," Tass reported.

The deputies, who belong to Soyuz, a group opposed to the breakup of the Soviet Union, also threatened to raise the question of confidence in Mr. Gorbachev if "energetic measures" were not taken "in defense of the constitutional rights of Soviet citizens."

Observers said that the statement was an allusion to complaints by ethnic Russian minorities in several republics that they are the victims of discrimination by local authorities.

On Friday, Tass reported that fighting between Moldavians and ethnic Russians left six people dead and at least 30 wounded in a Russian-speaking region of Moldavia which had proclaimed itself an independent republic.

Meanwhile, representatives of groups defending the rights of Russian-speaking minorities in outlying republics and opposing the breakup of the Soviet Union called for "physical elimination" of Mr. Gorbachev and Russian President Boris Yeltsin, Tass reported.

The groups also denounced the "negligence" of Mr. Gorbachev's policy towards nationalist movements within the country, according to Tass.

#90307d1100 11/03/1990 ~French/German News Agency

BUENOS AIRES, (NOV 3) - An Argentine Navy helicopter crashed into the Red Sea as it was trying to land on the guided-missile destroyer Admiral Brown, part of the international force arrayed against Iraq, officials said Saturday.

The two-man crew was rescued and the French-made Alouette helicopter was recovered after the crash, which occured Thursday just 30 meters (90 feet) from the Admiral Brown, a navy communique said.

The communique blamed the crash on unspecified engine trouble and said the helicopter, which was equipped with an emergency floatation device, was severely damaged in the accident and could not be repaired aboard the Admiral Brown.

The helicopter was one of two Alouettes operating from the destroyer, which was sent along with the missile-carrying corvette Spiro last month by Argentine President Carlos Menem to participate in the naval and air blockade of Iraq.

#90307d1190 11/03/1990 ~French/German News Agency

SHANNON, IRELAND, (NOV 3) - U.S. Secretary of State James Baker indicated on Saturday that he plans to sound out partners in the anti-Iraq coalition in the Gulf about possible use of force against Baghdad.

Speaking to correspondents in his airplane at the start of a week's tour of the Middle East and Europe, Mr. Baker said that "This will improve the prospects for a peaceful resolution, and at the same time, permit us to be prepared to consider all options if peaceful ones don't work" in putting an end to the Gulf crisis.

He recalled that the United States did not rule out the military option to dislodge Iraq from Kuwait, but refused to indicate the military questions he would discuss with U.S. partners in the Gulf force.

During the trip, he is to meet with the foreign ministers of the other four members of the United Nations Security Council: the Soviet Union, China,

Britain and France.

The secretary of state noted that the United States considers it is entitled to use force against Iraq under Article 51 of the U.N. Charter, recognizing the right of "individual and collective" legitimate defence.

But President George Bush "would like to maintain as much of the international consensus as he can", he added.

The Soviet Union has said it would accept a military operation against Iraq only if authorized by the Security Council.

Mr. Baker said the priority now was to "strengthen" political, economic and military sanctions on Iraq, but in talking to U.S. partners during his trip, "We want to know under what conditions and subject to what restraints they would be willing to consider certain types of actions".

He is to visit Bahrain, Saudi Arabia, Egypt (where he will meet with Chinese Foreign Minister Qian Quichen), the Soviet Union, Britain and France. He does not plan to go to Damascus, but said he might meet with a member of the Syrian government during his trip.

#90307d8930 11/03/1990 ~French/German News Agency

BRUSSELS, (NOV 3) - Amid increasing acrimony, farm and trade ministers of the European Economic Community (EEC) are to meet here Monday in their sixth attempt in less than a month to break a farm subsidy deadlock.

A decision is crucial for the success of a ministerial meeting of the Uruguay Round of the General Agreement on Tariffs and Trade (GATT) scheduled here December 3-7.

The GATT conference is supposed to finalise four years of negotiations to end expensive distortions in world trade by removing protectionist measures.

But the run-up has been characterised by brinkmanship and accusations of bad faith that some participants have warned could wreck the conference and worsen, instead of remove, barriers to world trade.

Denmark recently accused France and Germany of "sabotaging" an opportunity for European farmers to benefit from more free trade.

Argentina has charged the EEC and Japan of following protectionist policies that could lead to crisis. Canada has labelled the EEC position "reprehensible".

Australia said it would consider joining a trading bloc with Asian neighbours

if GATT failed and the United States has warned of the possibility of full-scale trade wars.

Monday's talks centre around the inability of the EEC Twelve to agree on a bargaining position in GATT. The EEC is the only trading bloc that failed to meet an October 15 deadline to make proposals.

The European Commission, the executive arm of the EEC, has tabled a proposal to cut internal subsidies paid to farmers by 30 per cent between 1986 and 1996. Taking in cuts already made, this would mean 15 per cent over the next decade.

The United States, backed by the Cairns Group of farm exporting countries,

wants much more: 75 per cent cuts in domestic supports for farmers and tariff barriers and a 90 per cent cut in export subsidies over the next 10 years.

European Commission President Jacques Delors, echoing a significant slice of French public opinion, recently called the U.S. position a "bluff".

The commision proposal has been dismissed as excessive by some EEC countries, notably Germany and France, which insist on "accompanying measures" for farmers who would be worst hit by subsidy cuts.

#90307d8950 11/03/1990 ~French/German News Agency

DHAKA, (NOV 3) - Authorities Saturday re-imposed a curfew here after two days of communal violence between militant Moslems and minority Hindus.

The curfew had been lifted for ten hours early Saturday to allow government offices and banks closed since Thursday to re-open.

The curfew was re-imposed Saturday afternoon to head off a procession by Moslem fundamentalists. Police fired on a mob of 50 people looting shops in the Rampura district while the curfew had been lifted, eyewitnesses said.

Businesses in riot-torn old quarter of Dhaka Saturday stayed shut and schools classes suspended . Moslems began rioting in the old city on Thursday,

tering down temples and looting Hindu-owned shops in a reaction to the Babri mosque crisis in India.

About 500 people, including 65 policemen, have been injured in the violence which erupted in the Lalbagh, Kotwali and Sutrapur districts of Dhaka, which have a large Hindu population.

A senior police official said the curfew had been re-imposed to thwart a planned procession by the militant Moslem Mujahid party. Army units deployed in

the city since Thursday patrolled the streets and guarded Hindu places of worship.

About 150 people were arrested Friday after some 1,000 Moslem fundamentalists tried to organise a protest march from the city's Baitul Mukarram mosque. Another 350 people were detained for violation of curfew orders.

Hindu worshippers have started repairing damaged temples in Dhaka and in the southern Chittagong city. The government has announced compensation for the victims of the communal violence.

NICOSIA, (NOV 3) - Iraq called Saturday for an urgent meeting in Tunis of Arab League foreign ministers to keep the 21-member organization from "serving the interests of the United States", the Iraqi News Agency reported.

A foreign ministry spokesman, quoted by the agency, called on Arab foreign ministers to "protect the institutions of the League and prevent them from becoming a tool to serve U.S. plans".

Iraq does not recognize the recent transfer of the League's headquarters from Tunis to Cairo, the spokesman said, charging that the decision was taken "through force and blackmail, in an illegal procedure".

He accused Egypt of failing to respect an Arab League ministerial decision endorsed on March 11 for a phased and gradual return of the body to its initial heaquarters in Cairo.

"Egypt, which has plotted to divide Arab ranks in a bid to promote American-Zionist plans in the region, has sabotaged a common Arab action (the March 11 decision) and imposed its hegemony on the League to place it at the service of plans that are hostile to the Arab nation," the spokesman said.

He urged Arab countries to "adopt a responsible position" on the issue by holding an "urgent meeting in Tunis."

The spokesman suggested that an Arab League headquarters be set up in Tunis for "Arabs" while another one be erected elsewhere for the "partisans of the American-Zionist camp."

The immediate return of Arab league headquarters to Cairo was decided at an emergency ministerial meeting that took place in the Egyptian capital on September 10 with the participation of only 12 of the League's 21 members.

Tunis has been hosting the Arab League since 1979, when the body pulled out of Cairo to punish Egypt for signing a peace treaty with Israel.

#90307d9050 11/03/1990 ~French/German News Agency
FRANKFURT, GERMANY (NOV 3) - Former German chancellor Willy Brandt said here Saturday he would "in principle" go to Baghdad by himself Monday following an invitation by Iraqi leader Saddam Hussein.

The German government has warned that there should be no "isolated actions" to free hostages held by Iraq. But Foreign Minister Hans-Dietrich Genscher said Saturday: ''One can only hope that such a trip will succeed in getting freedom for people.''

Chancellor Helmut Kohl suggested that Mr. Brandt, president of the Socialist International, be accompanied by Italian Emilio Colombo, a Christian Democrat, and Belgian Willy de Clercq, a Liberal, to give the trip a Europe-wide framework.

Italy has since said that it was opposed to Mr. Brandt's plan to visit Iraq unless he receives United Nations backing for his mission.

Mr. Brandt arrived here Saturday after seeking support for his plan in talks with U.N. Secretary-General Javier Perez de Cuellar in New York.

"The secretary-general Perez de Cuellar clearly stated that the United Nations cannot do anything," Mr. Brandt said.

In New York, Mr. Brandt said it was "important to listen to what the people in Baghdad think."

A spokesman for the opposition Social Democratic Party (SPD) said a Lufthansa jetliner that will take Mr. Brandt to Baghdad Monday will also carry medicine to Iraq. Mr. Brandt is honorary chairman of the SPD.

Lufthansa, the national German airline, said Friday it had been asked to prepare a 250-seat Airbus A300-600 for Mr. Brandt.

BAGHDAD, (NOV 3) - Medicine worth three million Swedish kronor (nearly 450,000 dollars) was expected here Saturday as a gift of peace to Iraqi children from Swedish medical groups, Al Jumhuriya newspaper reported.

The daily, citing Stek Bern, a member of a Swedish "peace delegation" currently visiting Iraq, failed to identify the Swedish medical associations that were sending the medicine.

Medicine is exempt from a U.N. trade embargo against Iraq.

The "peace delegation" is currently visiting Iraq to seek the release of Swedish nationals detained here and in Kuwait against their will since Iraq's August 2 invasion of the emirate.

Earlier, a Swedish doctor who worked at the Al Bitar Hospital in Baghdad was granted an exit visa with five Irish and one British citizen, a spokesman for Sweden's foreign ministry said in Stockholm.

On Wednesday five Swedish MPs, members of a Palestinian-Swedish association, obtained authorisation for the return home of six of the 80 Swedish nationals held here.

A few days earlier four other Swedes, including a doctor working for the Al Bitar Hospital in Baghdad, were sent home following a visit here by Swedish Foreign Ministry special envoy Peter Osvald.

BAGHDAD, (NOV 3) - Iraqi President Saddam Hussein on Saturday urged foreign troops to withdraw from holy sites in Saudi Arabia, and said "we must strike" at those plotting against the Arab nation, Baghdad Radio reported.

Speaking to "a delegation of Arab union officials," Mr. Hussein said it was "absolutely necessary for foreign forces to leave Islam's territories and holy sites," a reference to U.S. and foreign troop deployments in Saudi Arabia.

"We must strike the head of those who plot against the (Arab) nation instead of kowtowing to them or bargaining with them over the holy sites," he said.

Islam's holiest sites of Mecca and Medina are located in Saudi Arabia.

Foreign troops were dispatched to the kingdom and the Gulf region after Iraq's August 2 invasion of Kuwait to shore up Saudi defenses against any Iraqi attack.

#90307d9180 11/03/1990 ~French/German News Agency

BUDAPEST, (NOV 3) - Representatives of the six Warsaw Pact countries here Saturday signed an treaty to set the maximum permitted levels of conventional arms in the Soviet Union, Czechoslovakia, Hungary, Poland, Romania and Bulgaria.

Agreement on the internal document was delayed for several hours after last minute disagreements described by conference sources as ''technical

difficulties''.

Two of the six countries did not send their foreign ministers to sign the document which was prepeared last weekend in Prague.

Czech Foreign Minister Jiri Dienstbier was absent owing to illness while Soviet Foreign Minister Eduard Shevardnadze said ''other commitments'' prevented him from attending.

The agreement seals the outcome of protracted talks between the countries on separate limits for conventional arms in accordance with the results of talks in Vienna on conventional forces in Europe.

#90307d9450 11/03/1990 ~French/German News Agency

TOKYO, (NOV 3) - Japanese fishermen Saturday killed some 600 dolphins stranded in shallow water in southern Japan, the spokesman for a local fisheries cooperative said.

Fishermen of Fukue Island, in southern Japan's Nagasaki Prefecture, on their way back to port found 2,000 to 3,000 dolphins off the coast late Friday, the spokesman said.

They tried to chase away the dolphins, which damage coastal fishing, but 600 were trapped at low tide after they followed the fishermen into a shallow bay, he said.

The fishermen killed and dismembered some of the dolphins Saturday for eating, he said, and would bury the rest later.

Dolphins trapped in the bay eventually died, said the spokesman. "It's better that they don't come. They disrupt our work."

He said the people of the area still ate dolphins when they were caught, but

not as often as they used to. "We don't need this many dolphins," he added.

Animal protection groups overseas have criticized the Japanese tradition of eating dolphins.

#90307d9640 11/03/1990 ~French/German News Agency

GENEVA, (NOV 3) - Former Saudi oil minister Sheikh Ahmed Zaki Yamani predicted that oil would drop to 15 dollars a barrel "and even lower" after the Gulf crisis, in an interview published Saturday by a Swiss economic monthly Bilan.

"From a strictly economic point of view, the current price should not be more than 22 dollars," he said.

Sheikh Yamani was dismissed at the end of 1986 by King Fahd after heading Saudi Arabia's oil ministry for more than 20 years.

Oil experts said the price of oil just before Iraq's invasion of Kuwait, 21 dollars, corresponded in real terms to the price just before the first petrol shock in 1973-74.

Sheikh Yamani, who now has business interests in Switzerland and manages an energy studies and analysis foundation in London, said he did not think that "the main oil companies would push their prices higher. They know their own long-term interests. High prices would jeopardize their plans."

He also said the anti-trust law should be temporarily side-lined to allow oil companies to meet and disss prices.

#90307d9670 11/03/1990 ~French/German News Agency

SOFIA, (NOV 3) - Price increases ranging from 30 to 360 per cent for alcoholic beverages and vinegar are to take effect throughout Bulgaria on Monday, according to press reports.

The price of vodka will jump by 80 per cent, raki by 100 per cent, wine by 240 per cent and vinegar by 360 per cent.

Five private stores with meat and milk prices three times superior to those in state stores will open here Monday.

Many Sofia residents patronize private stores to avoid lines sometimes measuring several hundred meters long outside of state stores.

Prime Minister Andrei Lukanov said Thursday that state-controlled prices for

primary products would increase by 35 to 40 per cent before the end of the year.

#90307p3159 11/03/1990 ~PR Newswire

LOUISVILLE, KY (NOV. 3) PR NEWSWIRE - The United Auto Workers union early Saturday announced it initiated a strike against Navistar International Transportation Corp. after negotiators for the Company and union were unsuccessful in reaching agreement in marathon bargaining sessions on new

labor agreements before the deadline tonight imposed by the UAW.

The action by the UAW affects approximately 8,000 UAW-represented production, maintenance and clerical employees at Navistar plants and operations in Georgia, Illinois, Indiana, Maryland, Ohio and Texas. Despite the strike action by the UAW, Navistar said it expects negotiations to continue during the weekend in an on-going effort to achieve an agreement on new labor pacts.

Navistar said substantial progress had been made prior to the deadline, but acknowledged that a number of important issues have not been resolved.

The agreements that expired had been in effect since November, 1967 and were originally scheduled to end on October 1, 1990. However, these agreements had remained in effect until tonight under an extension agreement.

#90307u0087 11/03/1990 ~United Press International

CLYDE, OHIO (NOV. 3) UPI - Army food never tasted like this.

Residents of this small, but spirited community will spend the weekend shipping an estimated 12,000 homemade cookies for U.S. troops in Saudi Arabia.

Dubbed Operation Cookie - a takeoff on the code name for the real military deployment, Operation Desert Shield - has involved scores of the town's 5,500 residents, organizers said.

''We haven't had anything of this magnitude in a long time,'' said William Lawrence, director of the massive baking project and former military officer

who served 33 years in the Army, including a ''few months'' in the Sahara Desert during World War II.

Residents have been baking all week, following recipes for treats that will stand up to the searing desert heat. Recipies for ''heat- resistant'' cookies were published in the weekly newspaper, The Clyde Enterprise.

Newly baked cookies will be packaged and sent to the post office for shipping to the Middle East, expected to take about two weeks.

Some of the cookies are being sent to soldiers from Clyde and the rest will be packaged for distribution to American troops ''who need help with morale,'' Lawrence said.

Letters, pens and other items from ''home'' will accompany the baked goods. In addition to private bakers, cookies were also made by local schools and commercial bakeries.

#90307u0112 11/03/1990 ~United Press International
THOUSAND OAKS, CA (NOV. 3) UPI - President Bush will have his turkey dinner on Thanksgiving Day with American troops in the blistering sands of Saudi Arabia, where he will also consult with regional leaders about the 3-month-old standoff with Saddam Hussein.

The White House announced the long-anticipated trip Friday, but apparently for security reason did not disclose the exact location of the presidential visit.

The announcement came as Bush dug in against the Iraqi dictator, saying that ''no one wants a peaceful solution more than I do (but) no one is more determined to reverse'' Saddam's ''naked aggression'' against occupied Kuwait.

White House Press secretary Marlin Fitzwater said the Nov. 22 visit with the troops will cap an eight-day trip by the president with stops in Paris, Prague Czechoslovakia, and unidentified cities in Egypt and Saudi Arabia. Mrs. Bush was expected to accompany the president.

The president is on a six-day tour in the United States in support of Republican candidates in next Tuesday's election. He planned to make campaign stops in California and New Mexico Saturday and then go on to Texas, where he'll stay through election day.

Fitzwater said Bush will leave Washington Nov. 16 and will arrive the following day in Prague to commemorate the first anniversary of Czechoslovakia's ''Velvet Revolution'' from communist rule, and for meetings with President Vaclav Havel and leaders of the Czech and Slovak republics.

Fitzwater said Bush will visit Germany on Nov. 18 for a meeting with Chancellor Helmut Kohl and Kohl's vacation residence Ludwigshafen 40 miles south of Frankfurt.

He said the president will travel later that day to Paris, where he will participate in the Nov. 19-21 summit meeting of the 34-nation Conference on Security and Cooperation in Europe. During that meeting Bush is expected to sign with Soviet President Mikhail Gorbachev and the other foreign leaders a conventional arms reduction treaty.

Fitzwater said Bush will travel to Saudi Arabia and Egypt for consultations on the gulf crisis with Saudi's King Fahd and Egypt's President Hosni Mubarak. He also will meet with the Sheikh Jabir Al Sabah, the Emir of Kuwait, who has lived in exile in Taif, Saudi Arabia, since Iraq invaded and annexed his country last Aug. 2.

Bush will spend Thanksgiving Day with U.S. troops in the gulf and return to Washington the following day, Nov. 23.

The gulf crisis, along with Bush's repeated call for ''more Republicans in Congress,'' has been a chief topic of his campaign swing that began Thursday with stops in Massachusetts and Florida.

Bush addressed a rally in Cincinnati Friday before moving on to Rochester, Minn. He arranged to go to Sioux City, Iowa, later Frdiday and then head on to California and New Mexico.

Bush plans to vote in Houston on Election Day and then return to Washington.

At at the GOP rally in Cincinnati, Bush promised to do ''my level best'' to bring every American soldier back from the Persian Gulf ''without a shot being fired in anger.''

''But we will not stop short of our stated objective,'' that Iraq withdraw from Kuwait, Bush declared, drawing sustained applause. ''We are the United States of America and we are standing for principle and that principle must prevail.''

The president's impassioned remarks followed several days of tough rhetoric against Saddam, raising concerns that the United States was moving toward a military option.

Bush told a news conference in Orlando, Fla., Thursday, ''I am not trying to prepare our country for war,'' but aides said he was seeking to ready Americans for every possible eventuality.

He spoke Friday at Cincinnati's Westin Hotel where a few demonstrators outside carried signs reading: ''U.S. troops out of the gulf'' and ''no war for oil.''

Later in the day, he addressed an enthusiastic GOP rally at John Marshall High School in Rochester, Minn.

As he has done on earlier campaign stops, Bush made a plug for the GOP, and then, as the nation's commander in chief focused on a ''non- partisan issue,'' the ''crisis in the gulf.''

''There will be no compromise,'' Bush said. ''We can't allow one country to bully another.''

There are now 210,000 American troops in the gulf region and the Pentagon has indicated plans to raise the figure by another 100,000.

#90307u0170 11/03/1990 ~United Press International

(NOV. 3) UPI - The New York Islanders pushed back the years Friday night, playing like the Stanley Cup champions they used to be instead of the Patrick division patsies they've turned into lately.

Joe Reekie scored his first goal of the season at 5:40 of the third period, helping the Islanders snap the New York Rangers' record home season-opening winning streak at eight with a 3-2 victory.

Going into the game, the Rangers boasted the best record in the NHL and the Islanders were last in the Patrick division with one of the worst records in the league. But the Islanders took control from the outset, taking a 2-0 first-period lead then holding off the charging Rangers with superb goaltending from Glenn Healy.

Healy was making his first start since being sidelined with a leg injury.

''You never know how a player will come back from an injury,'' said Islanders Coach Al Arbour, ''but for a goalkeeper to do what Healy did is surprising. It was the little things that made the difference, like better communication with the defensemen.

''They stood up better because they had more confidence in him. That probably saved two or three goals and that was the difference.''

It was the first time the two teams faced each other in the regular season since their bloody confrontation in last season's playoffs. Friday's game was played at a frenzied level of physical intensity, with a game misconduct for slashing handed out to Rangers defenseman Randy Moller.

''They shut down our power play but we shut them down completely,'' Pat

LaFontaine said. ''Healy played a wonderful game. We knew they were hot and they scored a lot of goals. I think we still were thinking about last year's playoffs.''

Ray Sheppard pulled the Rangers into a 2-2 tie with his fourth goal of the season when he converted a Bernie Nicholls rebound at 1:28 of the third period.

''The key to the game was when they got the third goal so quickly after we had tied it,'' Vanbiesbrouck said. ''I thought we were going to win then but the third goal took a lot out of us. We sagged then.''

The victory was only the fourth of the season for the Islanders, while the Rangers suffered their fourth loss of the year.

Elsewhere in the NHL, Washington edged Los Angeles 4-3.

Capitals 4, Kings 3

At Landover, Md., Michal Pivonka scored the tie-breaking goal early in the third period and Washington killed off all four Los Angeles power-play chances.Pivonka scored on a 50-foot shot at 3:39 to lift the Capitals to their third-straight victory. Wayne Gretzky, the NHL's all- time scorer, collected a goal and an assist for 28 points this season, tops in the league.

#90307u0195 11/03/1990 ~United Press International

(NOV. 3) UPI - Denver Nuggets Coach Paul Westhead's run-at-all-costs system

has a lot of detractors, but it found an admirer in one of the most respected names in basketball - Golden State Warriors Coach Don Nelson.

''To be quite honest, with a couple more shots, (the Nuggets') system worked, so I'm not going to be the one to knock it,'' Nelson said after the Warriors outran Denver for a 162-158 victory over the Nuggets.

It didn't take long for Westhead's all-out style to make NBA history, either. The two teams set a league record for most points scored in a regulation game, breaking the old mark of 318 set by Denver and San Antonio in 1984.

Chris Mullin scored 38 points and Tim Hardaway added 32 and 18 assists, to help the Warriors broke a 14-game losing streak in Denver.

''This style of play is a lot of fun for me,'' Hardaway said. ''We ran extra in practice and scrimmaged eight hours to get ready for this game.''

Mullin's three-point play with 2:27 to go put the Warriors ahead for good, 155-152.

The Nuggets closed to 159-158 on T.R. Dunn's basket with 59 seconds to go, before Hardaway made one of two free throws to give the Warriors a two-point lead.

Denver had two chances to tie the game in the final minute, but Todd Lichti and Corey Gaines both missed jumpers, and Rod Higgins sank two free throws with nine seconds left to seal the victory.

Orlando Woolridge, playing his first game in a Denver uniform, scored 37 points and Walter Davis added 33 for the Nuggets, who took 130 shots from the floor. Lichti finished with 19 points, all in the second half.

''I thought our guys played very well,'' Westhead said. ''They played extremely hard. It's just too bad when your guys play that hard and you don't get a win.''

Golden State led 43-41 after one quarter behind 10 points each from Mullin and Tom Tolbert. The Warriors held an 87-83 edge at halftime, setting a franchise record for most points in the first half in the process.

''We thought we could run with them and attack them, and it was just like we thought,'' Nelson said. ''It was a great game to watch, but I couldn't enjoy it because I was too wrapped up in it.''

Elsewhere on the opening night of the NBA season, Boston stunned Cleveland 125-101, Indiana tripped New Jersey 100-81, Miami burned Washington 119-95, Philadelphia hobbled Chicago 124-116, New York outlasted Charlotte 134-130 in overtime, Detroit dropped Milwaukee 115- 104, Portland nipped Houston 90-89,

Phoenix shot down Utah 119-96, Minnesota held off Dallas 98-85, Atlanta edged Orlando 115-111, and the Los Angeles Clippers stunned Sacramento 90-80.

Celtics 125, Cavaliers 101

At Boston, Reggie Lewis scored 32 points and Robert Parish added 23 to lead the Celtics in the coaching debut of Chris Ford. Larry Bird chipped in 18 for Boston while the Cavs were paced by 19 points from Mark Price and 18 by Chucky Brown.

Pacers 100, Nets 81

At Indianapolis, Rik Smits scored 24 points and LaSalle Thompson added 11 points and 20 rebounds for the Pacers. Reggie Miller added 22 points and Vern Fleming chipped in 17 points and 9 assists for Indiana, which has beaten the Nets six straight times. Rookie Derrick Coleman had 11 points and 12 rebounds for the Nets in his NBA debut.

Heat 119, Bullets 95

At Miami, Rookie Willie Burton scored 25 points in his NBA debut to guide the Heat. Burton, a forward from Minnesota and the ninth player chosen in the June draft, scored seven of his points in a 41-second span of the third quarter to help the Heat build an 84-71 lead. Rony Seikaly added 22 points and Sherman Douglas had 21 for the Heat. Bernard King had 18 for the Bullets.

76ers 124, Bulls 116

At Chicago, Charles Barkley scored 37 points and the Philadelphia 76ers withstood a late Chicago rally. Philadelphia held several 20-point leads before the Bulls rallied. Michael Jordan, was held to six first- half points, but finished with 34 for Chicago. Jordan scored an off- balance 3-pointer with 29.7 seconds left to bring the Bulls within four. Barkley finished 15 of 21 from the floor and added 10 rebounds.

Knicks 134, Hornets 130, OT

At Charlotte, N.C., Patrick Ewing scored 38 points and Maurice Cheeks hit four free throws to lift the Knicks. Cheeks stole the ball from Dell Curry and hit two foul shots to give New York a 132-129 lead with 39 seconds left in OT. Ex-Knick Johnny Newman cut the lead to 132-130 with 8.1 seconds left but Cheeks hit two free throws to seal the win.

Pistons 115, Bucks 104

At Auburn Hills, Mich., Joe Dumars scored 19 points and James Edwards and Bill Laimbeer each added 18 to help the Pistons open defense of their NBA title. Edwards and Dennis Rodman opened the fourth quarter with a five-foot jumper

and a dunk, respectively, to give Detroit its biggest lead of the game, 92-77.

Blazers 90, Rockets 89

At Portland, Ore., Clyde Drexler scored 19 of his game-high 29 points in the second half to help the Trail Blazers erase a 16-point deficit. The Rockets had a chance to win at the buzzer but rookie David Wood's desperation 3-point shot fell short.

Suns 119, Jazz 96

At Tokyo, Tom Chambers scored 38 points and Kevin Johnson added 29 to power Phoenix in the first regular season game ever played outside North America. Chambers scored 25 points in the second half as the Suns broke open a close game with a 27-14 run in the third quarter.

Timberwolves 98, Mavericks 85

At Minneapolis, Sam Mitchell came off the bench to pump in 19 points and grab eight rebounds, fueling a fourth-period comeback that lifted the Timberwolves. Mitchell's dunk off a fast-break with 7:11 to play capped an 8-0 spurt that put the Timberwolves ahead for good. Dallas scored just eight points in the final 5:30.

Hawks 115, Orlando 111

At Atlanta, Dominique Wilkins hit two free throws to tie the score and Kevin Willis added another from the line for the go-ahead score with 50.6 seconds left. Wilkins paced the Hawks with 32 points. Orlando forward Dennis Scott missed a 3-pointer with a half-second left.

Clippers 90, Kings 80

At Los Angeles, Ken Norman scored 19 of his 24 points in the final 16 minutes to give Mike Schuler a victory in his debut as Clipper coach. Norman and Bo Kimble, Los Angeles' No. 1 draft pick from nearby Loyola Marymount, combined for 14 of their team's first 18 fourth-quarter points. Wayman Tisdale, one of only three Kings returning to the team from last season, had 24 points.

BANGKOK, THAILAND (NOV. 3) UPI - Vietnam has taken action against hundreds of corrupt officials in a major anti-corruption drive, including the firing of a Cabinet minister, official media said.

Investigations are continuing into Forestry Ministry operations under former Deputy Minister Than Trung Hieu who was fired this week for corruption,

according to a translation of an Oct. 28 Hanoi radio broadcast made available Saturday.

The radio quoted a Forestry Ministry report saying that Hieu was guilty of arbitrary decisions that led to losses of state property. He also signed and issued bogus export and import permits, it said.

The report called for further investigation and legal action against Hieu and associates within the ministry.

The radio cited the case of the Phu Lam timber processing and export operation under the Ministry which went bankrupt in Octobe.

''This is a typical case of corruption and bankruptcy of the forestry sector '' the report said.

(NOV. 3) UPI - Around the world... around the clock... the latest news from U-P-I.

Government and private economic analysts agree... tough times are ahead. The Commerce Department reports the chief measure of how the economy will do... the Index of Leading Economic Indicators... declined eight-tenths of one percent in September. The deputy chief economist for the U-S Chamber of Commerce... Lawrence Hunter... says ''The recession has begun.''

President Bush plans to campaign today in California and New Mexico for Republican candidates. It's the fourth day Bush has been on the road for Republican candidates who are on Tuesday's ballots. He's hoping voters will send more Republicans to Congress... as well as to state legislatures and executive mansions.

The Chinese government says a top official will try his hand at shuttle diplomacy in the Persian Gulf next week. Foreign Minister Qian Qichen will visit Iraq, Egypt, Saudi Arabia and Jordan. China is participating in the economic sanctions against Iraq, and estimates its own cost at two-BILLION dollars.

Federal authorities say employees spilled a radioactive powder in a Veterans Administration hospital in La Jolla, California... contaminating several floors. Officials say there's a health risk only for the four lab workers who apparently caused the spill.

The woman jogger who was gang-raped and beaten in New York's Central Park testified in the trial of two of her accused attackers yesterday. The jogger was still UNsteady on her feet... 18 months after she was attacked. She said

she had NO memory of what she went through.

A jury of four women and two men has acquitted a woman ticketed for using a men's restroom during a concert because the line outside the women's room was too long. Denise Wells of Houston was found innocent last night. Her lawyer says waiting in line is something that has touched everyone's lives.

''My Friend Flicka'' is the latest children's classic to face controversy. Parents and educators in a suburb of Jacksonville, Florida, are debating whether to ban ''My Friend Flicka'' from a list of recommended readings for elementary school pupils. Some object to two words in the book.

.

Also being debated are ''Abel's Island'' and ''Little Red Riding Hood,'' which some parents fear promoted drinking alcohol.

People in Clyde, Ohio, have been baking all week. The town of 55- hundred baked an estimated 12-thousand cookies. They will be shipped this weekend to G-I's deployed in Saudi Arabia. Clyde residents dubbed their effort Operation Cookie.

#90307u0203 11/03/1990 ~United Press International
ISLAMABAD, PAKISTAN (NOV. 3) UPI - Former Prime Minister Benazir Bhutto and her party's legislators Saturday staged a walkout from the inaugural session of the new National Assembly.

The members from Bhutto's Pakistan People's Party declined to take the oath of office and left the assembly because authorities had refused to allow Bhutto's husband, Asif Zardari, to attend the session. Zardari was elected to the house in the Oct. 24 elections but is in jail on kidnapping charges.

A court in Karachi Thursday ruled that Zardari should be released from jail in the southern city to take the oath of office.

''We had decided to take the oath today under protest, but when we came to know this morning that (Zardari) has not been brought we decided not to take the oath as a protest against this cheating,'' Bhutto told reporters following the walkout.

Caretaker Interior Minister Zahid Sarfraz assured Bhutto and the other PPP members that Zardari would be brought to the assembly on Sunday to be sworn in.

Members from the Islamic Democratic Alliance, a loose army-backed coalition of parties opposed to Bhutto, those of smaller parties and independents took the oath of office Saturday. IDA leader Nawaz Sharif, 42, a wealthy industrialist,

is expected to be sworn in as prime minister within the next three days.

The IDA scored a victory in the elections, winning 105 of the 217 National Assembly seats to the PPP's 45. Bhutto has charged the IDA resorted to ''gross rigging,'' although most international observer teams said they had found no evidence to support her allegations.

President Ghulam Ishaq Khan sacked Bhutto's 20-month-old government on Aug. 6, accusing it of corruption and nepotism and of failing to control law and order dissolved the National Assembly and declared a state of emergency. He appointed opposition leader Ghulam Mustafa Jatoi to head an interim government until the elections.

Bhutto demanded Saturday the president lift the state of emergency and that authorities release a number of her party workers who she said had been arrested during the elections.

Zardari was arrested Oct. 6 on charges of involvement in the kidnapping of a wealthy Pakistani businessman, Murtaza Bukahri. Bukahri paid about $800,000 to his kidnappers to obtain his release. Zardari has denied the charges.

#90307u0204 11/03/1990 ~United Press International

BEIJING (NOV. 3) UPI - Foreign Minister Qian Qichen will discuss the gulf crisis with Secretary of State James Baker in Cairo next week during a Mideast trip that includes a stop in Baghdad, officials said Saturday.

Qian's meeting Tuesday with Baker will include an ''exchange of views on the gulf situation and other international issues of common concern,'' the Chinese Foreign Ministry said.

Sino-U.S. relations also are on the agenda, the official Xinhua news agency quoted the ministry as saying.

The Baker-Qian meeting is scheduled for the first day of the Chinese foreign minister's second Mideast tour since China established relations with Saudi Arabia last summer.

The trip includes stops in Saudi Arabia and Jordan as well as Iraq and Egypt, the ministry said.

Officials did not announce how long Qian would stay in Baghdad but indicated he might meet with Iraqi President Saddam Hussein.

Qian is visiting the tense gulf region ''for an exchange of views with the leaders of Arab countries concerned on the current gulf situation and on issues of common concern,'' a Xinhua dispatch said.

A Foreign Ministry spokeswoman told reporters last week that China had ''suffered considerable economic losses'' through its ''earnest implementation'' of United Nations sanctions against Iraq, including dlrs 2 billion in business and undisclosed debts.

The spokeswoman declined to say how much China had suffered through loss of its lucrative arms sales to Iraq.

The disclosure of China's economic sacrifice and the scheduling of Qian's trip appeared aimed at enhancing the country's image as an active participant in the international effort to isolate Iraq over its military conquest of neighboring Kuwait.

#90307u0205 11/03/1990 ~United Press International

NEW DELHI, INDIA (NOV. 3) UPI - A radical Hindu group said Saturday it would make another attempt to begin construction of a temple in the north Indian holy city of Ayodhya, despite violence sparked by the campaign that has left more than 160 people dead.

The announcement came one day after about 10,000 Hindus tried to break through barricades surrounding the religious site but were stopped when police opened fire, killing at least 18 people and wounding more than 60 others.

Radicals want a 460-year-old Moslem mosque at the site relocated so they can begin construction of a temple to honor a Hindu god.

The campaign sparked violence between Hindus and Moslems in six states, and on Friday at least 68 people were killed, boosting to more than 160 the number of people who have died since radicals first tried to enter the religious site last Tuesday.

Despite the bloodshed, the Vishwa Hindu Parishad (VHP), a militant Hindu organization, said in a statement that volunteers wound again try to enter the disputed site on Sunday.

A VHP official said that more volunteers from several states have been asked to go to Ayodhya, in northern Uttar Pradesh state, about 345 miles southeast of New Delhi.

The group also called for a day of mourning for those killed in the temple dispute.

In Ayodhya, security forces patrolled the streets and maintained tight security around the mosque. On the outskirts of the holy city, about 50 people were injured when police used bamboo sticks to disperse a crowd of Hindu

protesters who tried to break through barricades and enter the town, police said.

In New Delhi, police used tear gas to disperse a crowd of about 1,200 Hindus who tried to march to the residence of Prime Minister V.P. Singh to protest Friday's killings. About 400 people were arrested following the incident. No injuries were reported.

Also Saturday, the right-wing Hindu Bharatiya Janata Party (BJP), which is spearheading the move to construct the temple, called for a general strike in New Delhi on Monday to protest the killings at Ayodhya.

India's temple dispute has sparked the worst political crisis Prime Minister V.P. Singh's five-party National Front government has encountered since it assumed power 11 months ago.

The BJP withdrew its support from the government after its president, L.K. Advani, was arrested when he failed to heed a government warning to call off the plan to begin construction of the temple.

The arrest prompted the BJP to withdraw its crucial support from Singh's coalition government.

#90307u0212 11/03/1990 ~United Press International

(NOV. 3) UPI - President George Bush will visit with U.S. troops in the Gulf over the Thanksgiving holiday, while officials said Saturday Secretary of State James Baker will meet with China's foreign minister during his tour of the region early next week.

Also Saturday, the British Broadcasting Corp. reported that three French soliders in Saudi Arabia ''lost their way'' and were captured by Iraqi forces Monday. The French soldiers, who were patrolling the Saudi- Iraqi border when they were taken into custody, have been turned over to French authorities in Baghdad, the radio said.

Officials in Beijing said Baker will meet with Foreign Minister Qian Qichen in Cairo Tuesday in what may be an effort to enhance China's image as an active participant in the crisis. Qian's Mideast trip includes a stop in Baghdad.

Baker is scheduled to arrive in Bahrain Sunday before heading to Saudi Arabia, where he is reportedly set to discuss the possibility of a military strike against Iraq with the kingdom's royal family.

In an interview published Friday, the U.S. commander general in the gulf said his forces could destroy Iraq but that he was not sure if that would be in the best interests of the region.

The White House said President Bush will spend Thanksgiving Day with U.S. forces in the Persian Gulf, where he also will consult with regional leaders about the standoff with Saddam. Details of the trip were disclosed while Bush was on a final campaign swing to the Midwest and West Coast.

First lady Barbara Bush was expected to accompany the president on the visit to the Middle East and Europe.

Press secretary Marlin Fitzwater said the Nov. 22 visit with the troops will cap an eight-day trip by the president with stops in Paris, Prague, Czechoslovakia, and unidentified cities in Egypt and Saudi Arabia.

Fitzwater said Bush will travel to Saudi Arabia and Egypt for consultations on the gulf crisis with Saudi's King Fahd and Egypt's President Hosni Mubarak. He also will meet with the Sheikh Jabir Al Sabah, the emir of Kuwait, who has lived in exile in Taif, Saudi Arabia, since Iraq invaded and annexed his country Aug. 2. Bush will return to Washington the following day, Nov. 23.

In remarks published in The New York Times, Gen. Norman Schwarzkopf said that ''if we have to fight, I am going to use everything that is available me to inflict the maximum number of casualties on the enemy as possible.''

15 He said the ''ultimate objective is to make sure that we have peace, stability and a correct balance of power in the Middle East.'' Schwarzkopf said one way to accomplish that ''would be the total destruction of Iraq, but I am not sure that is in the interest of the long-term balance of power in this region.''

Schwarzkopf, who commands an estimated 210,000 U.S. troops deployed to the gulf following Iraq's Aug. 2 invasion of Kuwait, indicated while a war could erupt at any time, he did not expect military action in the coming weeks.

In other developments:

-INA reported a chartered jet arrived in Baghdad with 15.5 tons of medicine from Switzerland, which sold the supplies to Iraq for an estimated $390,000.

-The British Broadcasting Corp. said Saudi Arabia had agreed to an international investigation of complaints that Yemeni workers in the kingdom had been mistreated and even tortured because of Yemen's pro- Iraqi stand in the Persian Gulf crisis. Saudi Arabia has expelled hundreds of thousands of Yemeni workers in recent weeks, leading to a rift between the two Arab nations that caused an Arab League meeting last month to dissolve in animosity.

-The Middle East News Agency quoted the ambassador to Saudi Arabia for the exiled Kuwaiti government as repeating charges that Iraqi troops were mistreating Kuwaitis, who he said were suffering from food shortages and

inadequate medical care.

-INA reported Baghdad had sponsored an art exhibition at the Saddam Arts Center of works protesting the U.S.-led response to the Iraqi invasion.

-Iranian President Akbar Hashemi-Rafsanjani said there was serious danger that war may be imminent in the gulf because Iraq ''has not yet come to its senses,'' Tehran radio reported.

#90307u0217 11/03/1990 ~United Press International

JERUSALEM (NOV. 3) UPI - Soldiers shot and killed one Palestinian and wounded at least 17 others in clashes that erupted after residents of a Gaza Strip village learned that an Arab prisoner committed suicide.

Officials from the army's civil administration Saturday informed the family of Ateya Alzaneen, 32, that he had hanged himself in an interrogation room at the Gaza central prison, Palestinian sources said.

Rumors quickly spread through Alzaneen's village of Beit Hanun that he had been killed. Villagers took to the streets and attacked a military post in the village, the sources said.

Soldiers opened fire, killing Mohammed Al Basyoni, 19, and wounding at least 17 others, the sources said. Basyoni was pronounced dead at Shifa Hospital in Gaza City, hospital staff reported.

The army spokesman said the reports of disturbances and injured were being checked.

Violence erupted elsewhere in the Gaza Strip but no injuries were reported, Palestinian sources said.

Alzaneen's family contacted the Association for Civil Rights in Israel to request an independent investigation in the death and for an unaffiliated doctor to attend the autopsy.

-30- 1374

#90307u0245 11/03/1990 ~United Press International

EAST RUTHERFORD, NJ (NOV. 3) UPI - Lawrence Taylor threatened to sue Howard Cosell over remarks the veteran broadcaster made hinting the New York Giants linebacker might still be using drugs.

Taylor, who is tested three times a week by the NFL as a two-time offender against its drug policy, would be banned from the league if he tests positive again. Cosell made his comments on a radio talk show Wednesday, and Taylor

fired back Thursday in front of his locker at Giants Stadium.

''I won't accept anything now except a public apology or I will take legal action,'' Taylor said.

When asked if he was using cocaine, Taylor replied: ''Of course not. If I was using cocaine I wouldn't be standing in front of you right now.

''Years ago, I was given a choice. You either do drugs or you play football. Howard Cosell was given a choice between being a well- respected person, which he was, or to be a senile, cynical person to the two sports that made him who he is today.

''Monday Night Football and boxing made him what he is today, and he chose to be a cynical person toward both. I'm happy with my choice; I hope he's happy with his.''

Cosell, who is best know for his role as part of the original Monday Night Football announcing team on ABC, said Wednesday on WFAN in New York: ''Lawrence Taylor has fresh vials of Bible-belt urine, and how he still is being allowed to play in a duly adjudicated illegal monopoly is beyond me.''

Cosell later said he was joking about a reference in Taylor's autobiography about cheating on NFL drug tests.

A year after the book came out in 1987, Taylor was suspended for four games by the NFL after testing positive. Taylor says he has been clean since that 1988 suspension.

Despite the drug problems, Taylor has been one of the sport's greatest stars. He has gone to the Pro Bowl in each of his nine NFL seasons and is considered the greatest defensive player of his day. He is the leader of a defense that has helped the Giants to a 7-0 start this season.

''I've worked pretty hard to clear my image and put it back to where I think it should be, and to have somebody make a statement like this,'' Taylor said. ''Two years ago, I probably would have kicked his butt. But I'm more mellow now. I try to take it in stride.''

WASHINGTON (NOV. 3) UPI - The politically volatile abortion issue, once expected to dominate the 1990 off-year elections, has receded in importance as more traditional economic questions come to the fore but will still play an important role in a number of states and campaigns.

And neither side of the bitterly contested moral and political battle over the Supreme Court's 1973 decision legalizing most abortions are easing their efforts to elect supporters at the state and federal levels.

''In many ways,'' says Dr. J. C. Willke, president of National Right to Life, the major anti-abortion group, ''the voter decisions made in local, state and and national campaigns will mark a watershed in this 17-year struggle (to outlaw abortion).''

And the group's newspaper echoes that theme, calling Tuesday's balloting perhaps ''the most important to the cause of unborn babies since 1980 when Ronald Reagan won the presidency and pro-life forces made a net gain of 10 seats in the U.S. Senate.''

At the other end of the political spectrum, Kate Michelman, executive director of the National Abortion Rights Action League, voices similar sentiments.

''The right to choose is a bigger issue in more elections than it ever has been before,'' she said. ''Pro-choice Americans were not voting on the issue

or running on the issue'' before the July 1989 Webster decision in which the Supreme Court gave states a much wider latitude in controlling legal abortion.

''Now, while it is not the only issue, it is one of the two or three issues on which people are voting.''

Much of the attention election night - and where the issue has been poised in its most stark form - will be on ballot initiatives in Oregon and Nevada.

In Oregon, voters will face two issues aimed at restricting access to legal abortion. One that would amend the state Constitution to prohibit abortion except in cases where mother's life is threatened and in cases of rape and incest. The second would require doctors to give notice to a parent or guardian at least two days before a minor's abortion.

In Nevada, the initiative would amend the state Constitution to establish the right to an abortion and spell out the conditions under which abortion is permitted.

Oregon voters are expected to defeat the more restrictive of the two initiatives there, but Michelman concedes it will be tougher to defeat the parental notification plan.

Nevada, she said, ''is important because it is a pro-choice initiative and it looks good for us.''

Early after the Webster decision, as both sides scrambled to bring the issue to the state level and a number of off-year races turned on candidates' stance on abortion, it was believed the issue would dominate the 1992 election.

Since then, however, other issues - notably the worsening economy and the Persian Gulf crisis - have moved to the fore, although abortion could still turn a number of races.

In Florida, for example, Democrat Lawton Chiles has strongly embraced abortion rights in the closing days of his campaign against GOP Gov. Bob Martinez, and a Miami Herald poll of voters in late October found a potential group of swing voters - Republican women - who could tip the race to Chiles.

In the North Carolina Senate race between incumbent Republican Jesse Helms and Democrat Harvey Gantt, abortion is an issue but not the only one. Robert Fertik, president of Democrats for Choice, predicted that women voters in North Carolina will provide Gantt with the margin he needs to oust Helms, one of the Senate's most adamant abortion opponents.

Abortion was an early issue in the Texas gubernatorial race between State Treasurer Ann Richards, a Democrat who favors current abortion law, and her GOP opponent Clayton Williams. But the campaign has turned more on Williams'

verbal gaffes than it has on the abortion issue.

The Iowa Senate race is between Sen. Tom Harkin, D-Iowa, and his Republican challenger, Rep. Tom Tauke. Harkin has sought to appease both sides on the issue and Tauke, a staunch abortion opponent, has sought to capitalize on Harkin's fuzziness.

In Pennsylavia, supporters of legal abortion have sought to make abortion a key issue in the governors race in an effort to oust incumbent Gov. Robert Casey, a Democrat who opposes abortion and has said he will sign a bill banning abortion in all instances except to save the life of the mother or in cases of rape and incest.

But the issue does not seemed to have moved the Pennsylvania populace and Casey held a commanding 65 percent to 35 percent lead over his Republican opponent, state Auditor General Barbara Hafer.

The issue has also surfaced in dozens of congressional races and could play a role in a number of contests. Fertik has predicted the issue will cost the GOP six House seats now held by incumbents but others think his figure is too high.

''In some races, abortion is going to the cutting edge,'' Michelman said. ''But,'' she said, ''it not a silver bullet. It cannot overcome every other obstacle in a race. At the same time, a bullet doesn't always have to be silver to get the job done.''

#90307u0338 11/03/1990 ~United Press International

NEW YORK (NOV. 3) UPI - John F. Kennedy Jr., on his third try, finally passed the New York State bar exam, saving his job as a Manhattan assistant district attorney, it was reported Saturday.

The only son of the assassinated president also passed the Connecticut state bar examination, allowing him to practice law in that state as well, judicial officials said Friday.

The New York Post quoted unnamed sources to report that the 29-year- old Kennedy passed New York's bar exam on his third try last July.

The son of the late president and of Jacqueline Kennedy Onassis failed in two earlier attempts since graduating in 1989 from New York University Law School. As a newly hired assistant district attorney, he had to pass on his third try or lose his $30,000-a-year prosecutor's job.

Once the state Appellate Division formally admits him to the bar, he will get a $1,000 raise, a spokesman for the Manhattan district attorney told the Post.

But the state Board of Law Examiners doesn't mail out test results for the 12-1/2 hour, two-day test until Monday, and officials have not publicly confirmed Kennedy's success.

The name John Fitzgerald Kennedy of New York, N.Y., was on a list released Friday of those passing Connecticut's exam, said Lawrence Moore, a spokesman for the Connecticut Judicial Department.

Connecticut officials did not know why Kennedy took the Connecticut exam or if he planned to practice law in the state.

Kennedy has been assigned to a unit that focuses on white-collar crime, low-level political corruption and other felonies and was part of a three-member team of prosecutors who investigated illegal wiring of drug money from storefronts in Manhattan to the Dominican Republic.

His cousin, Robert F. Kennedy Jr., failed the bar exam in 1982 and resigned as an assistant district attorney amid charges of drug abuse, but entered a drug treatment program, received a suspended sentence and probation, and was admitted to the bar in 1985.

Kennedy's sister, Caroline Kennedy Schlossberg, 32, passed the bar exam on her first try three years ago. She is the mother of two small children and is not currently practicing law.

#90307u0346 11/03/1990 ~United Press International

WASHINGTON (NOV. 3) UPI - Voters in the nation's capital decide Tuesday between a self-described ''street dude'' and a saavy corporate lawyer when they replace Marion Barry, the three-term mayor convicted of cocaine possession.

Democrat Sharon Pratt Dixon, 46, a classy, affluent lawyer and a former vice president of the Potomac Electric Power Co., is battling Republican Maurice Turner, 55, a rougher-edged, 32-year veteran cop who, before resigning last year, served eight years as police chief under Barry.

The Tuesday ballot lists 11 other candidates, including nine minor party or independent contenders.

But the contest is between Dixon and Turner. Dixon is the front- runner in a town of about 650,000 where Democrats hold a 9-1 voter registration advantage and where about two-thirds of the residents are black.

Neither Turner nor Dixon, both black, has previously held elective office.

Dixon, a former Democratic Party treasurer, emerged from a crowded primary

Sept. 11 in a stunning upset over better-known and better-funded opponents. She was helped by an endorsement from The Washington Post, which also endorsed her over Turner in Tuesday's balloting.

Her pledge to ''clean house'' after 12 years of the Barry administration and to slash the bloated, 48,000-employee D.C. bureaucracy by 2,000 was the cornerstone of her primary victory and remains her dominant campaign theme.

Turner, a lifelong Democrat who jumped to the GOP last year to run for mayor and avoid the jammed Democratic field, is the acknowledged underdog.

Voters appear to have responded to Dixon's themes, especially after Barry's highly publicized videotaped arrest and trial on cocaine and perjury charges earlier this year.

Barry, bowing out of a re-election bid but seeking an at-large City Council seat, was convicted on one misdemeanor cocaine possession count and acquitted on another. A jury deadlocked over a dozen other counts, including felonies.

A judge last month sentenced Barry to six months in prison and a $5, 000 fine, which the mayor is appealing.

In a city plagued with drug violence and heading for another record homicide rate - more than 400 murders so far this year - Turner hopes his background as a career crime fighter will win him votes.

He has portrayed himself as more sensitive to poorer people by painting Dixon as living a ''silver spoon'' existence even though both are third generation Washingtonians of initially modest means.

''I came up on the rough side. ... I had a tougher life than she did, '' Turner said during a televised debate Thursday night. ''That's what I am, a street dude.''

Dixon said she expects voters to respond to her pledge to ''move the city and clean house. The voters really want someone who can move the city in a different direction.''

Lon Walls, Turner's campaign spokesman, said the candidate is relying heavily on crossover voting by Democrats ''because of his popularity.''

''He's stressing his experience as a manager as well as being somebody who has been in the system and knows the system pretty well and her lack of experience along those lines,'' Walls said.

#90307u0353 11/03/1990 ~United Press International

(NOV. 3) UPI - South African police say two explosions this morning seriously damaged railway lines in the central city of Bloemfontein. A police spokeswoman reported NO casualties and said NObody had claimed responsibility. An official of the African National Congress says right- wing elements may have been trying to scare off delegates to an A-N-C conference. But the police said it is too early to blame any group.

The White House has confirmed President Bush will spend Thanksgiving Day in Saudi Arabia eating his turkey dinner with U-S troops. For security reasons, the exact location was NOT announced. News secretary Marlin Fitzwater says the Saudi Arabia stop will cap off an eight-day presidential trip with stops in Europe and the Middle East. Mrs. Bush is expected to accompany the president.

Oil prices fell more than a dollar a barrel yesterday because of dealers' expectations war will NOT break out soon. Analyst Joe Miller of Shearson Lehman Hutton said the belief is NOthing will happen until after the U-S elections Tuesday. The drop fueled a rally on the New York Stock Exchange. The Dow Jones industrial average jumped 36 points to close at 24-hundred 91.

Moscow may see counter-demonstrators Wednesday following the official military parade marking the anniversary of the Bolshevek revolution. Moscow's NON-communist government says anti-Communist demonstrations will be allowed. Some radical members of the Soviet Parliament say they will stage a religious march. The presidium, the Soviet executive branch, has banned such demonstrations.

Greece's second-largest bank, the National Mortgage Bank, pleaded guilty in U-S court in New York to accepting illegal deposits and laundering money. Four bank employees also pleaded guilty to conspiracy. Federal authorities say the bank illegally processed 700-Million dollars through U-S branches from Greek-American customers.

John Kennedy, the late president's son, apparently has passed the Connecticut state bar examination. Kennedy is employed as an assistant district attorney in New York City, but has twice failed the New York bar exam. If he does NOT pass the New York exam, he must give up his job. Kennedy's name is on a list of people passing the Connecticut exam.

City officials in Burrillville, Rhode Island, are embarrassed that a police officer on paid medical leave has won a national body-building title. Sergeant Walter Korkeniowski went on medical leave nearly two years ago, saying complaints by fellow officers caused work-related stress. He says while his job is stressful, weight-lifting and body-building are NOT.

#90307u0364 11/03/1990 ~United Press International

(NOV. 3) UPI - Iraq proposed Saturday to release all foreign hostages if the

U.N. Security Council or five major players in the Persian Gulf crisis promised to refrain from a military strike to end the standoff, the official Iraqi News Agency reported.

Iraq freed four ailing American hostages Saturday along with three French soldiers caught earlier at the Saudi border. The INA reported the seven men arrived in Amman on a flight from Baghdad.

The so-called peace initiative was announced by the president of the Iraqi National Council, Saadi Mehdi Saleh, who said the council would meet to consider the measure. The council, Iraq's parliament, is considered a rubber stamp controlled by Iraqi President Saddam Hussein.

The two-part proposal calls for the release of an estimated 4,000 foreign men held hostage at key military and economic sites in Iraq and Kuwait as a human shield against possible attack by the U.S.-led military force deployed in the Gulf following the Aug. 2 invasion of Kuwait.

The move by Iraq follows days of tough talk from President Bush, who has raised concerns he is preparing for a military strike to end the 3- month-old standoff.

INA quoted Saleh as saying ''Iraq was ready to allow foreign guests to leave or stay in Iraq if the five permanent member states of the Security Council would collectively, or two of its member states, or more than the five following countries - France, China, the Soviet Union, Germany and Japan - would demonstrate a desire in peace and declare a clear attitude opposing war and the use of, or threat to use, the military force.''

Of the five, the Soviet Union has already indicated it will not join the U.S.-led force in its efforts to oust Iraqi soldiers from Kuwait, and a plan by Tokyo to send non-combat troops to the gulf has been derailed by strong Japanese sentiment against the idea.

Germany has been non-committal, other than calling for the withdrawal of Iraq, and China has only recently emerged as an interested party in the proceedings. Beijing announced Saturday its foreign minister will meet with U.S. Secretary of State James Baker in Cairo Tuesday.

France has sent troops to the gulf region and stated it is part of the alliance against Iraq. But Saddam has consistently tried to woo the French to a more neutral stance, praising a French peace plan and releasing all French hostages last month.

Baker was expected to travel to the Middle East early next week, arriving in Bahrain Sunday before heading to Saudi Arabia, where he was reportedly planning to discuss the possibility of a military strike with the kingdom's royal family.

Officials in Beijing said Baker will meet with Foreign Minister Qian Qichen in Cairo Tuesday in what may be an effort to enhance China's image as an active participant in the crisis. Qian's Mideast trip will include a stop in Baghdad, but it was not known if he would meet with Saddam.

Also Saturday, France said it would punish three French soldiers who were captured by Iraqi forces while on patrol along the Saudi-Iraqi border and later released.

And Iraq urged the Arab world not to accept the transfer of the Arab League from Tunisia to Egypt, which has become a major foe of Baghdad's since the Aug. 2 Iraqi invasion of Kuwait.

In Paris, a top defense official said the three captured French soldiers would be punished because ''there was a fault in the execution of their mission.''

The three men reportedly got lost while patrolling the border Monday and were taken by Iraqi authorities to Baghdad, where they were handed over to French officials.

Iraq's foreign ministry was quoted by the official Iraqi news agency INA as urging the Arab world not to accept the transfer of the Arab League to Cairo because the move was ''illegal.''

The league decided in principle in March to move the league headquarters back to Cairo, where it had been based until Egypt signed a peace treaty with Israel in 1979 and, as a sign of protest, the League was transferred to Tunisia.

But the decision turned political after the invasion because Tunisia has been friendly toward Iraq while Egypt has been a strong supporter of the U.S. policy in the gulf.

#90307u0384 11/03/1990 ~United Press International
(NOV. 3) UPI - Economists are disturbed by economic reports the government issued yesterday. They show economic weakeness is spreading. Lawrence Hunter, an economist for the U-S Chamber of Commerce, says a recession is under way.

Federal officials say 18 savings and loans are for sale. They include Lincoln S-and-L of Irvine, California, which is considered the most expensive thrift failure.

Ford and General Motors say they will lay off more than 50-thousand workers. Analysts believe dealers are cutting back on purchases in the believe they buyer demand is falling off.

Two bomb explosions damaged railroad tracks today in the South African city of Bloemfontein. Police say NO casualties were reported and NO group has claimed responsibility.

Officials say a U-N treaty to combat drugs will take effect November 11th. Attorney General Dick Thornburgh calls it the most important drug enforcement treaty ever undertaken. The Reverend Jesse Jackson spoke to a rally of workers striking the New York Daily News last night. This followed a warning from publisher James Hoge to the civil rights leader that the unions do NOT allow blacks or women.

At least 18 people were killed yesterday in a confrontation outside a Hindu religious site in northern India. Police opened fire when about 10-thousand Hindus tried to break through barricades around the site.

Former Pakistani Prime Minister Benazir Bhutto and her followers walked out of the first session of the new National Assembly today. They refused to be sworn in because Bhutto's husband was NOT let out of jail to take his seat.

Chinese Foreign Minister Qian Qichen meets in Cairo Tuesday with Secretary of State James Baker to discuss the gulf crisis. Chinese officials also say Qian will visit Iraq and my meet President Saddam Hussein.

Vietnam has launched a major anti-corruption drive. Vietnamese news media say action has been taken against hundreds of officials. A deputy forestry minister was fired from the cabinet for corruption.

Former East German leader Erich Honecker says Soviet President Mikhail Gorbachev betrayed Communism. In an interview with a British newspaper, Honecker predicted the communist movement will recover.

Mexican officials say a German consular official was freed yesterday after being held hostage for four days. Wolfgang Wilczek was held by a group called Procup, which demanded release of political prisoners.

Authorities say a radioactive powder was spilled in a Veterans Administration hospital in La Jolla, California, yesterday and then spread through the building. But there's NO danger except to four laboratory workers.

Ivana Trump's lawyer announced yesterday she is filing for divorce from Donald Trump, the real estate tycoon whose fortunes are crumbling. The Trumps have been separated since February.

Authorities in Papillion, Nebraska, say a woman convicted of theft who was shot Monday and blamed an intruder actually shot herself with the help of a friend. They say the woman hoped for sympathy to get a light sentence.

#90307u0416 11/03/1990 ~United Press International
(NOV. 3) UPI - Irseali soldiers fired today at Palestinians angrily protesting the suicide of an Arab prisoner in a Gaza Strip prison. One Palestinian was killed and 17 others wounded. Palestinian sources say violent disturbances broke out elsewhere in the Gaza Strip, but NO injuries were reported.

The leader of Norway's Labor Party, Gro Harlem Brundtland, became prime minister for the third time today. Her 20-person cabinet includes nine women, giving it the highest proportion of women of any government in the world. A coalition led by Conservatives resigned last week because of differences over European Community policy.

The president of Rwanda, Juvenal Habayarimana, says the African nation is ready for democracy. He said he supports the legalization of opposition parties. Rwanda has gone through a month-long civil war. Habayarimana says hundreds of thousands of refugees who left 30 years ago are welcome to return home.

A defense lawyer in the Manhattan jogger trial grilled the woman jogger who said she was beat up and raped while running in Central Park last year. The lawyer suggested the woman's boyfriend used to beat her up. Repeated objections by the prosecution were sustained.

Police in the Boston area are hunting a muscular driver who beat an 18-year-old to death in anger because other youths threw eggs at his car on Halloween. The driver was described as over six feet and weighing 220 pounds. Police are circulating a drawing based on witnesses' descriptions.

The Soviet Communist Party newspaper Pravda says the spread of pornographic films is corrupting young Soviet citizens. Pravda said pornography is producing ''murderers, rapists, sexual maniacs and robbers.'' Some Soviet citizens are taking advantage of new freedom to make money by showing the bootlegged films.

Australia and New Zealand are combining forces to monitor driftnet fishing vessels in the South Pacific. Druftnets, up to 35 miles long, are designed to catch tuna and salmon, but they also kill dolphins and whales. Australian Prime Minister Bob Hawks says Australia is committed to ending driftnet fishing.

Middleweight boxing champion Sugar Ray Leonard and has wife agreed yesterday on a divorce settlement. Agreement was reached in Rockville, Maryland, just before their case was to be heard in court. Juanita Leonard had asked that she receive up to 50-thousand dollars a month. Details of the settlement were not revealed.

A Houston jury has refused to find the Roman Catholic Church was negligent because a priest had sexual relations with a woman for two years. The woman, Debbie McCorvey, claimed the church was negligent in allowing Father Fernando Noe Guzman to exploit her dependence on him. She sued for seven-Million dollars.

#90307u0461 11/03/1990 ~United Press International

EASTON, PA (NOV. 3) UPI - Bush administration officials ''are in for a surprise'' when new Supreme Court Justice David Souter casts his first vote on abortion, former Solicitor General Erwin Griswold said.

Griswold said Friday he thinks Souter will emerge as ''a liberal Republican - a true conservative who believes in change, but slowly, preserving the value of what we have.''

Griswold, who argued more cases before the Supreme Court than any living person as the top lawyer in the Johnson and Nixon administrations, spoke Friday at Lafayette College during inagural ceremonies for college President Robert Rotberg.

Griswold also predicted the high court will uphold Roe vs. Wade, the 1973 decision legalizing abortions, because it has shown respect for precedent.

''Roe v. Wade has been there for 20 years and we have survived,'' he said. ''I think they will be slow to overturn it.''

Pennsylvania's restrictive abortion law, overturned this year by a federal judge, is likely to be one of the first abortion cases to reach the court with its new makeup.

Griswold said Souter, unlike former Court of Appeals Judge Robert Bork, whose nomination to the high court was rejected in 1988, is ''not an idealogue.''

''Bork had an agenda and I don't think we need people with an agenda on the Supreme Court,'' Griswold said.

Souter refused to answer questions before the Senate Judiciary Committee on how he would vote on specific issues, including abortion.

''From the liberal point of view, which I share, Justice Souter is probably the best choice we could have gotten at this time,'' Griswold said.

#90307u0466 11/03/1990 ~United Press International

(NOV. 3) UPI - A Palestinian was killed and 17 others wounded today in clashes with Israeli soldiers in the Gaza Strip. Palestinian sources say the Palestinians took to the streets and attacked a military post after learning an Arab prisoner had committed suicide in the Gaza prison. The soldiers opened fire on the crowd and killed a 19-year-old man. The family of the man who committed suicide has asked for an independent investigation.

France says three French soldiers who were captured by Iraq will be punished. The three, an officer and two enlisted men, were captured Monday while on duty in northeastern Saudi Arabia, 90 miles from the Iraqi border. The French defense ministry says they moved too close to Iraq and may have crossed the border. Iraq turned them over to the French Embassy in Baghdad. A French defense official says they may be punished for making an ''error of judgment.''

President Bush is away from Washington until election day. He will vote in Houston and then return to the White House. Bush is campaigning for Republican candidates, but usually turns from politicking to a defense of his policy in the Persian Gulf crisis. At a rally in Cincinnati yesterday, he promised to do his ''level best'' to bring back every American soldier ''without a shot being fired in anger.''

A police artist has drawn a picture of an angry motorist who beat up and killed a teen-ager in Malden, Massachusetts, after youths tossed eggs at his luxury car. Witnesses said the victim, 18-year-old Timothy Doucette, did NOT throw eggs. The motorist stopped his car after it was hit, beat one youth and then banged Doucette's head against a sign post when he tried to help the other youth.

A jury in Austin, Texas, says Honda's all-terrain vehicles were not designed defectively and the company was NOT guilty of deceptive trade practices. It found in Honda's favor in all but one matter- that there should be been additional warnings to consumers. It awarded the plaintiff, Tammie Sue Mullins 800-thousand dollars... far from the 800- Million she sued for.

Customs officials in Poland say they have stopped the attempted smuggling of antiques worth hundreds of thousands of dollars out of Poland. Polish newspapers say icons, paintings and antiques were hidden in furniture that was loaded on a truck and was ready to leave. 26 paintings were confiscated, along with icons, silverware and clocks.

Houston's ''Pottygate'' trial has ended with the defendant found innocent. Denise Wells went into a men's room during a concert because the line at the women's room was too long. A man testified Wells and other women entered the room with their faces covered and went to the toilet stalls. The jury acquitted her of the charge of using a bathroom of the opposite sex in a disruptive manner.

#90307u0474 11/03/1990 ~United Press International

WASHINGTON (NOV. 3) UPI - The crisis in the Mideast, the federal deficit and the need to improve U.S. airports are all combining to produce the biggest jump in airline ticket prices in a decade.

Not surprisingly, the increases are taking their toll on the airline business as Americans cut back their travel plans because of the higher costs, industry officials say.

The biggest increases are caused by higher prices the airlines are paying for jet fuel. The Iraqi invasion of Kuwait sharply pushed up oil prices, which in turn raised the price of fuel and the airlines have raised ticket prices by about 15 percent since August to cover the higher costs. That adds about $60 to what was a $400 ticket.

More recently, Congress raised ticket prices in two ways.

As part of the deficit-reduction package, the lawmakers decided to raise the federal air passenger tax from the current 8 percent to 10 percent on every passenger ticket effective Dec. 1.

In a separate move, Congress agreed to let airports impose a new fee on every passenger who goes through their terminals. The fee can be as high as $3 per flight and can total $12 on a round-trip through two airports.

The new revenue from the passenger fee will be used for much needed improvements and expansion at airports around the country.

The increases in ticket prices, while substantial, are not the biggest ever. The oil crises of 1973 and 1979 both generated bigger fare increases than what has been experienced so far, says David Swierenga, of the Air Transport Association.

But the current increases are hurting. Swierenga, the association's assistant vice president for airline industry data, is projecting a decline of 3 percent to 4 percent in passenger traffic next year. And that would be ''very unusual for our industry, a growth industry,'' that has seen passenger traffic up by an average of about 7 percent annually over the last several years, he says.

''The situation is really grim looking,'' Swierenga says. ''Industry losses for this quarter ... will top $1 billion, which would be the worst quarter in airline history. And, assuming fuel prices hold, it looks like the first quarter (of 1991) could be a repeat of that. ... So we're looking at two back-to-back quarters of enormous losses for the industry.''

On a more positive note, government and industry officials say that while the new passenger airport fee will add to ticket costs, it will have important

long-term benefits for the traveling public.

The bill authorizing the fee also included a noise reduction program, prompting Transportation Secretary Samuel Skinner to call it ''the most important aviation legislation since Congress enacted airline deregulation in 1978.''

Skinner said the fees, expected to raise as much as $1 billion each year, will dramatically increase the ability of airports to expand capacity, which would promote airline competition and result in lower fares, better service, and fewer delays.

The $3 fee could produce as much as $95 million annually for Chicago's two airports, $69 million for Atlanta's airport, $116 for New York City's three airports, $67 million for Dallas-Fort Worth, and $65 million for Los Angeles.

#90307u0543 11/03/1990 ~United Press International
(NOV. 3) UPI - A top French defense minister says the officer and two soldiers captured by Iraqi troops while on a reconnaissance mission near the Iraqi border will be punished- quoting now- ''because there was a fault in the execution'' of their mission. French defense officials say the three may have unknowingly crossed the border into Iraq. French forces in Operation Desert Shield are responsible for patrolling the border in the area where the three were captured.

Philippine officials say the head of the nation's largest left-wing trade union, a Protestant minister and eight communist rebels have been charged with arson in a violent strike last month. The charges stem from the burning of a passenger bus at the height of the strike, which was called to push demands for wage hikes. Authorities say the eight communist rebels are still at large.

An economist says there will be a major shake-out in the retail sales business in the 1990's and one-half of American retailers will be out of business by the turn of the century. Economist Ira Kalish makes the forecast in a report issued by a division of accounting giant Price Waterhouse. He says the retailing industry has too many stores, too much sameness and too much debt.

A Los Angeles Superior Court jury could begin deliberations as early as Monday in a so-called ''whistle-blower'' case against Lockheed Corporation. Three former Lockheed employees were dismissed after reporting defects in CB planes. An attorney for two of the former employees told the jury in his closing argument yesterday that they should award the men at least 80-Million dollars... 10 percent of the 800-Million dollars Lockheed was paid for the first five planes. Lockheed denied allegations of defects in the planes.

A single-sentence statement yesterday disclosed that Ivana Trump is filing for

divorce from embattled real estate tycoon Donald Trump. The 13-year marriage ruptured in a media storm last February, and attorneys have been negotiating over property agreements the couple signed. The agreements reportedly entitle Ivana Trump to 25- Million dollars.

#90307u0610 11/03/1990 ~United Press International

THOUSAND OAKS, CA (NOV. 3) UPI - President Bush told an enthusiastic GOP rally Saturday that the first lady will accompany him on his Thanksgiving Day visit to American troops in the Persian Gulf region.

''Barbara and I are looking forward to visiting with those fine young people halfway around the world,'' Bush said, receiving a roar of approval.

Anti-war protesters greeted the president as he arrived at the rally at California Lutheran University, many of them holding signs reading ''no more wars,'' or ''U.S. forces out of the gulf.'' The protesters were outside the university rally.

But Bush received thunderous applause from the predominantly young crowd at the political event for GOP gubernatorial candidate Pete Wilson when he declared ''I will not allow'' Iraqi President Saddam Hussein's Aug. 2 takeover of oil-rich Kuwait to stand.

The president is on an eight-state cross-country campaign swing for Republicans in next Tuesday's election.

And he has used much of his time at the events in the past week trying to drum up support to build still strong yet slipping public backing for his policies in the Persian Gulf.

Bush told the university audience, ''We hold no quarrel with the people of Iraq. ... Our quarrel is with Saddam Hussein and his determination to be the neighborhood bully.''

Bush's campaign trip, which began Thursday, ends Tuesday in Texas. He returns to Washington later Tuesday.

At campaign stop after campaign stop - from a small school in Mashpee, Mass., to a big hotel in Orlando, Fla. - Bush said, ''No one wants a peaceful solution more than I do,'' yet ''no one is more determined than I am'' to reverse Iraq's aggression.

He has also taken time to answer a small rag-tag army of anti-war demonstrators, such as a group of young people in Cincinnati Friday who held placards that read ''no war for oil.''

''The people outside with the signs, I share their concerns,'' Bush told a GOP fund-raiser at Cincinnati's Westin Hotel. ''But we're not talking about simply oil or the world economy,'' he said. ''We're talking about one country bullying a neighbor. And that's why we're there - to say that will not stand.''

Although the president said last week ''I am not trying to prepare our nation for war,'' aides said he does want to ready Americans for every possibile eventuality.

The White House announced Friday, as Bush addressed a GOP rally in Rochester, Minn., that the president will spend Thanksgiving with American troops in the Persian Gulf region.

The high-profile visit will put an American president in a zone of potential conflict for the first time since Lyndon B. Johnson made a quick trip to Vietnam on Oct. 26, 1966, during the height of the war in Southeast Asia.

A recent Gallup Poll found 61 percent of Americans backing Bush's handling of the gulf crisis, down from 77 percent in August. The percentage who disapprove more than doubled, from 13 to 29 percent.

Nearly 70 percent also said they believe Bush should place a greater emphasis on seeking a diplomatic solution, yet 60 percent agreed with Bush that there should be no compromise on the demand for unconditional withdrawal of Iraqi troops from Kuwait.

Just 23 percent favored prompt U.S. military action. More than seven in 10 said U.N.-backed sanctions against Iraq should be given more time to force a peaceful withdrawal.

The president said he is still willing to give 3-month-old economic sanctions more time to work, but won't rule out further options and that the status quo cannot continue indefinitely.

#90307u0637 11/03/1990 ~United Press International

The Los Angeles Raiders and Kansas City Chiefs, and Chuck Noll and Jerry Glanville renew old feuds Sunday.

At Kansas City, Mo., the most meaningful game in years for the Raiders and Chiefs could be a throwback to the days when they annually battled for AFL and NFL division titles. The Raiders are 6-1 and first in the AFC West, while the Chiefs are 4-3 and trying to stay in contention.

''If you love football, you've got to love Sunday's game. I'm telling you, these are the kinds of games you want to play in,'' said Los Angeles Coach Art Shell, who played in a bunch of Raiders-Chiefs games as a Raiders tackle.

''Anybody can play in a game that doesn't have any significance to it but this game - the rivalry going back into the past and what has happened between these two organizations, the tough games that've been (played). You've just got to want to play in a game like this.''

Raiders-Chiefs games never lost their significance for the two teams involved. Now Sunday's game is important because of the division race.

The Chiefs are 1-3 in the conference and need a victory to keep alive any hopes of winning the AFC West.

''(A loss) would make it very difficult to win the division,'' Kansas City Coach Marty Schottenheimer admitted. ''Beyond that I make no concessions. To be three down with eight to go is a tough hill to climb against a team that's playing very well.

''I got caught up in this thing a year ago. I don't know if I sense it so much from the players as I just do from the community. There is no doubt that there is something special about Kansas City and the Raiders.''

Glanville comes to a familiar hornets' nest in Pittsburgh with a new team. His Atlanta Falcons are off to a 3-4 start but they are 2-0 against foes from the AFC Central, in which Glanville spent the past four years as Houston's coach.

With the Oilers, Glanville developed a bad-blood feud with Steelers Coach Noll. It was the home playoff loss to Pittsburgh that ended Glanville's career with the Oilers last season.

Glanville already settled a score with the Oilers for firing him with a season-opening victory over Houston. Last week, he took care of Cincinnati Coach Sam Wyche, who ran up a 61-7 beating on Glanville's team last year. Now he can get even with Noll.

''All we want to do is get ready to play a game,'' Noll said. ''We don't want to talk about personalities, fictions or anything else.''

Glanville also tried not to ignite any old fires this week.

''It's not important what other coaches or other fans think of me. It's not important what other teams' players think of me,'' he said.

The Falcons think the world of Glanville, who has them in the NFC wild-card playoff race.

''Coach Glanville has ignited the whole city, not just the football team,'' Falcons kicker Greg Davis said. ''I grew up here, and I followed the Falcons all my life. Last year had to be the absolute low point. The fans didn't care,

and to be honest, the players didn't either. Jerry changed all that.''

The San Francisco 49ers and New York Giants can become the first pair of NFL teams to go unbeaten halfway through a season in 56 years if they win this weekend. They are each 7-0 a month away from their Dec. 3 Monday night game at Candlestick Park.

Other NFC teams trying to sneak up on wild-card berths face their judgment day Sunday. Tampa Bay, Detroit, and Green Bay can prove themselves legitimate contenders or frauds when they take on some of the league's best teams.

The Packers are home against San Francisco, Detroit is home against Washington and Tampa Bay is home against Chicago.

At Green Bay, Wis., the 7-0 49ers face the last team to beat them. Since their 21-17 home loss to the Packers last Nov. 19, the 49ers have won 15 straight counting postseason. The 49ers have won an NFL record 14 straight road games and are within three victories of tying the league mark for consecutive triumphs. The Packers, 3-4, are struggling to match last season's 10-6 record.

At Pontiac, Mich., the Lions, 3-4, are still looking to spring Barry Sanders, who has just 462 rushing yards after leading the NFC with 1,470 as a rookie last year. Washington, 4-3, has not allowed a back to rush for 100 yards all season.

At Tampa, Fla., the Buccaneers, 4-4, have lost three of their last four and are in danger of tumbling from the playoff picture unless they turn things around quickly. Their next three games after Sunday are on the road against New Orleans, San Francisco and Green Bay. Chicago, 6-1, leads the NFC Central.

In other Sunday games, Buffalo is at Cleveland, Phoenix at Miami, New Orleans at Cincinnati, San Diego at Seattle, Dallas at the New York Jets, New England at Philadelphia, Houston at the Los Angeles Rams. Denver plays at Minnesota Sunday night and the Giants play at Indianapolis Monday night.

#90307u0665 11/03/1990 ~United Press International

(NOV. 3) UPI - There's a new so-called ''peace initiative'' from Iraq today. The president of the Iraqi parliament- considered a rubber stamp for Saddam Hussein- says Iraq will release all foreign hostages if five major nations in the Gulf crisis promise to refrain from military activity.

The Iraqi parliament leader said the body would meet later today to consider the proposal, which also calls for a U-N Security Council promise to work for a peaceful solution to the Persian Gulf stand-off. Official radio reports of the proposal say the nations that must guarantee they will NOT take part in any military action against Iraq are the Soviet Union... France... China...

Japan, and Germany.

Secretary of State Baker will be traveling in the Gulf region next week, arriving in Bahrain tomorrow and then going on to Saudi Arabia for talks with leaders there.

Also visiting the region... Chinese Foreign Minister Qian Qichen . Chinese officials say he will meet with Baker in Cairo on Tuesday.

The Press Trust of India reports that another 13 people were killed today in fresh fighting over the controversial campaign by a radical Hindu group to built a temple on the site of a 460-year-old Moslem mosque. The controversial campaign has triggered Hindu-Moslem fighting across India.

Former Pakistani Prime Minister Benazir Bhutto and her party's legislators walked out of the inaugural session of the nation's new National Assembly today. Bhutto and the other members of her party declined to take the oath of office because authorities refused to allow her husband to attend the swearing-in ceremony.

German officials announced yesterday that Germany and Czechoslovakia will hold talks on the property claims by three-Million Germans who were expelled from the Sudetenland after World War Two. The province was annexed by Nazi Germany in 1938.

The 37-year-old actor who portrayed the werewolf-like boy Eddie in the 1960's sitcom ''The Munsters'' faces charges in Chicago in the robbery of 130 dollars from a limousine driver. Patrick Allan Lilley was arrested yesterday. He had been in Chicago for Halloween appearances.

Authorities are using tracking dogs, an airplane and a helicopter in a search today for a 26-year-old man accused of stabbing to death four children ranging in age from two to five. Police in Greenwood, Mississippi, say Henry Curtis Jackson Junior apparently stabbed the children- his nieces and nephews- after his sister refused to give him money for crack cocaine.

(NOV. 4) UPI - DIGEST:

Auto Racing

Newly crowned world champion Ayrton Senna of Brazil claimed the 52nd pole position of his Formula One career in final qualifying for Sunday's Australian Grand Prix. Senna was one of 12 drivers who failed to improve on their times set in the first qualifying session but his overnight lap time of 1:15.671 over the 2.347-mile street circuit was not challenged Saturday.

Bowling

Roger Bowker captured his second Professional Bowlers Association title with a 235-192 victory over Dave Husted in the nationally televised finals of the $150,000 Chevy Truck Classic at Rochester, N.Y.

Boxing

South Korea's Kim Bong-jun defended his World Boxing Association 105- pound title with a 12-round majority decision over Silverio Barcenas of Panama. Kim, 26, made his fifth successful defense in the bout in his home country. He improved to 23-5-3. Barcenas fell to 11-3-1.

Football

Washington Redskins tight end Jimmy Johnson faces a court hearing this month on charges stemming from a late-night target shooting incident, police said. Johnson was arrested near his home in Sterling, Va., late Wednesday on charges of firing a handgun with 100 yards of a state highway and carrying a concealed weapon, police said. ... The Southland Conference Compliance Committee placed sanctions against Stephen F. Austin State University for NCAA rules violations committed by its football program. The penalties include forfeiting all 1989 games and restrictions on the number of recruiters, players, scholarships and expense-paid visits for recruits.

Golf

The PGA U.S. tour team tied with the PGA tour of Australia 6-6 to share the lead in the $1.15 billion Four Tours World Championship of Golf Team Competition at Tokyo. The teams will battle in the Sunday final to decide the winner of $480,000 first-place money. American Fred Couples maintained the individual lead at 133 despite losing by two strokes to Rodger Davis of Australia, who shot a 5-under-67. ... American Debbie Massey rolled in three birdies for an 8-under-64, taking a three-stroke lead at 133 through two rounds of the $550,000 Mazda Japan Classic women's tournament. Caroline Keggi and Danielle Ammaccapane were tied for second at 136.

Olympics

South African sports administrators began talks with the Association of National Olympic Committees of Africa on a resumption of South Africa's international sporting links after a 30-year freeze. At the opening of the special two-day session, the ANOCA president, Jean-Claude Ganga, affirmed the long-standing demand that apartheid must be abolished in South Africa and sport fully desegregated first but he noted a new sense of optimism.

Rowing

The United States team of Robert Dreher and Steve Peterson battled from fifth place at the 300-meter mark to win the men's lightweight double scull at the World Rowing Championships on Tasmania's Lake Barrington. The U.S. duo won the 2,000-meter race in 7:46.00.

Soccer

Heavy fighting between fans of local Sachsen Leipzig and visiting FC Berlin was eventually ended by a massive police force after delaying start of the German First division game at Bonn for 30 minutes. Earlier this season, Leipzig's match against FC Jena was called off after 10 minutes because of riots. Berlin won Saturday's game 4-1.

#90307u0782 11/03/1990 ~United Press International

(NOV. 3) UPI - Amid another hostage release, Iraq launched another so-called ''peace initiative'' today. Iraq release four ailing Americans, and the official Iraqi news agency says they flew to Amman, Jordan, with three French soldiers who were captured along the Saudi Arabian border on Monday. The release of the four Americans had been announced earlier in the week as coming about on a request from an American-Arab friendship committee whose representatives were visiting Baghdad.

The president of the Iraqi National Council announced today that Iraq will free all its foreign hostages provided two conditions are met. He said five nations involved in the Persian Gulf crisis must promise NOT to take military action against Iraq and the U-N Security Council must work to find a peaceful solution to the crisis. The five nations he named were the Soviet Union, France, China, Germany and Japan.

The latest Iraqi proposal on the hostages comes as diplomatic activity begins spinning around the region again. Secretary of State Baker will be in Bahrain tomorrow and will fly to Saudi Arabia for talks with leaders there to discuss military action against Iraq. Baker also will meet with the Chinese foreign minister on Tuesday in Cairo. The Chinese official is on a trip through the region.

Officials of the six Warsaw Pact nations today signed an agreement on apportioning cuts in conventional arms. The agreement clears the way for the signing of a historic arms reduction treaty with the NATO alliance on November 19th. The agreement spells out how the six nations will share the cuts that were agreed to in principle during the so-called ''Convention Forces in Europe'' talks. The signing later this month will mark the first cuts in conventional forces in Europe since World War Two.

Thousands of Moldavians rallied in their capital city today, and their local

parliament met to discuss the violence that is tearing the Soviet republic of Moldavia into separate states. The official Soviet news agency Tass reported that at least six people were killed and at least 30 wounded in fighting yesterday at two bridges leading from the Ukrainian- and Russian-dominated section of Moldavia to the Moldavian-dominated region.

A New York report says John F. Kennedy Junior passed his New York state bar examination on the third try and will NOT lose his job as a Manhattan assistant district attorney. Judicial officials in Connecticut reported earlier that Kennedy had passed the bar in that state. The son of the late President Kennedy and Jacqueline Kennedy Onassis failed on two earlier attempts.

#90307u0863 11/03/1990 ~United Press International

(NOV. 3) UPI - Iraq says it will release all its foreign hostages... IF certain conditions are met. The so-called ''peace initiative'' was announced today by the president of the Iraqi National Council... considered to be a rubber-stamp parliament for President Saddam Hussein. The proposal says the hostages will be freed if the U-N Security Council or five major nations involved in the Persian Gulf crisis promise to refrain from military action to end the stand-off. The five nations mentioned by name are the Soviet Union, France, Germany, China and Japan.

The hostage-release proposal comes as four ailing American hostages flew out of Baghdad to Amman, Jordan, today with three French soldiers who were captured by Iraqi forces along the border with Saudi Arabia. The French troops were captured on Monday... apparently after they unknowingly strayed across the Iraqi line. A French Defense Ministry official says the three will be punished because of the flawed execution of their mission. French troops in the area are responsible for patrolling the border.

Some three-thousand 500 people marched in Pretoria, South Africa, today to back the Conservative Party and the bastion of Afrikanerdom. Conservative Party leader Andries Treurnicht was cheered by the crowd when he rejected a government invitation to join talks on ending apartheid.

The six Warsaw Pact countries today signed an agreement that apportions their conventional force reductions, clearing the way for the signing of an unprecedented agreement with the NATO alliance on November 19th. The treaty will be the first conventional force reduction in Europe since World War Two.

Israeli soldiers shot and killed one Palestinian and wounded dozens of others today in a series of battles that erupted throughout the occupied Gaza Strip. The battles erupted after word spread through the region that an Arab had died during interrogation by Israeli security forces. Israeli officials said the Arab hanged himself in an interrogation room.

A spokesman for Democrat Ann Richards says another gaffe by her Republican opponent in the Texas governor's race may have been the final blow to the campaign once considered unbeatable. Republican gubernatorial nominee Clayton Williams- a multi-millionaire oilman and rancher- said during a campaign stop yesterday that he paid NO income taxes in 1986.

Actress Darlanne Fluegel says she is leaving the T-V series ''Hunter'' in January, at the end of her contractual obligation as co- star with former pro football player Fred Dryer. Fluegel says she will move on to other roles in television and feature films.

#90307u0870 11/03/1990 ~United Press International

BERLIN (NOV. 4) UPI - Four major European banks Saturday announced an initiative to encourage investment in economically troubled former communist East Germany.

The banks - Germany's Commerzbank, France's Credit Lyonnais, Spain's Banco Hispano Americano and Italy's Banco di Roma - will lead a major publicity campaign over the next 12 months to attract investment in eastern Germany.

The banks said in a statement that beginning in 1981 the initiative will sponsor West European trade promotion tours by corporate and regional representatives from the five new eastern states that joined the 11 West German states on Oct. 3 unification.

The inefficient state industries of former East Germany have lurched into crisis since the country was opened to the full blast of capitalism with the July 1 economic and monetary union and the unification of both Germanys.

Unemployment continues to grow in eastern Germany. Current figures show 800,000 people without work and 1.2 million forced into short-term work for less money. Eastern Germany has a work force of just more than 8 million.

A joint report released two weeks ago by Germany's five leading economic research institutes predicted 1.7 million unemployed and 2 million short-term workers in eastern Germany during 1991.

The flow of exports from former West Germany to eastern Germany soared by 135 percent to the equivalent of $7.6 billion in the first eight months of this year compared with 1989.

But exports from East Germany to West Germany rose only by 8 percent to the equivalent of $3.36 billion in the same period.

In order to help boost industry, the European banks' initiative plans to

promote eastern Germany as a key link between the West and the 100 million consumers in Eastern Europe as well as the 280 million consumers in the Soviet Union.

#90307u0881 11/03/1990 ~United Press International

BERLIN (NOV. 4) UPI - Police opened fire on rioters during a massive free-for-all Saturday outside a soccer stadium in downtown Leipzig, killing one person and injuring three, authorities said.

A spokesman for the Leipzig police, in an interview on a Berlin radio station, said officers were justified in firing on the rioters because they came under intense attack by stone-throwing mobs.

The police said they made more than 80 arrests during the fighting, which broke out near the stadium and in the center of Leipzig just before the start of the soccer game and which lasted for several hours.

Police said the fighting, which also took place in the stands inside the stadium, was between fans of the local Sachsen Leipzig and the visiting FC Berlin.

The game was played after a 30-minute delay, and the Berlin team won 4-1.

German soccer fans also rioted Thursday in the center of Luxembourg, causing more than $150,000 in damage. Police there made 40 arrests.

Earlier this season, the Leipzig team was forced to forfeit a game because of rioting in its stands. The club was penalized by having to play one home game at a neutral site, and it likely will suffer a similar penalty due to Saturday's rioting.

Despite reunification of their countries and the unification of their national soccer teams, the East German and West German soccer leagues will remain separate until the end of this season.

#90307u1131 11/03/1990 ~United Press International

(NOV. 3) UPI - Iraq says it will release all its foreign hostages in Iraq and Kuwait if the U-N Security Council and major players in the Persian Gulf region guarantee they will NOT use military action to end the stand-off. The official Iraqi news agency carried word of the new so-called ''peace initiative'' today out of Baghdad.

Four more ailing American hostages were released by Iraq today, as ordered last week by President Saddam Hussein. The four flew to Amman, Jordan, with

three French soldiers who were captured by Iraqi troops when they apparently got lost in the Saudi desert and crossed the border into Iraq.

President Bush told cheering Republicans in Thousand Oaks, California, that he will NOT allow Iraq to get away with its annexation of Kuwait. Bush is campaigning for G-O-P gubernatorial candidate Pete Wilson on his cross-country campaign trip that will end in Houston, where Bush will vote on Tuesday.

Former Solicitor General Erwin Griswold says he believes Bush administration officials- as he put it- ''are in for a surprise'' when new Supreme Court Justice David Souter casts his first vote on an abortion case. Griswold said yesterday that he thinks Souter will be a true conservative... one who believes in slow change.

Israeli troops killed one Palestinian and wounded dozens of others today in violent new clashes in the occupied Gaza Strip. The trouble started when rumors spread through the region that an Arab died while being questioned by Israeli troops. Israel says the man hanged himself.

South African Foreign Minister R-F ''Pik'' Botha says the nation's next ambassador to the United States will be liberal opposition parliamentarian Harry Schwarz. The 60-year-old is to assume the post early next year and has been a firm critic of white-minority rule in South Africa.

Homeless advocates in New York City charged today that the Daily News is exploiting the city's homeless people by giving them free copies of the strike-bound daily to sell. A coalition of 14 homeless advocacy groups called the action a ''cynical maneuver'' to use the homeless as strike-breakers.

-30- 2298

#90307u1197 11/03/1990 ~United Press International

(NOV. 3) UPI - Iraq says that if the U-N Security Council and major players in the Persian Gulf crisis guarantee that they will NOT use military force to resolve the stand-off, it will release its foreign hostages. The new so-called ''peace initiative'' was announced today.

Four ill Americans were released from Iraq today... their freedom coming in a flight from Baghdad to Amman, Jordan. The Americans were joined on the flight by three French soldiers who were captured by Iraqi troops on Monday when they apparently got lost in the desert and strayed into Iraqi territory.

Secretary of State Baker will be in Bahrain tomorrow to open a diplomatic trip that is expected to include talks in Saudi Arabia about military action to drive Iraq out of Kuwait. Chinese officials announced today that Baker will meet with the Chinese foreign minister- on his own tour of the region- in Cairo on Tuesday.

Japanese diplomats say their government negotiators failed in more than three hours of high-level talks today to move toward establishing diplomatic ties with North Korea. The talks were held in Beijing, China.

The official Damascus Radio reported in the Syrian capital that the vice president of Iran met with his Syrian counterpart today for talks on late developments in the region and what are termed ''issues of mutual concern.''

Police in Greenwood, Mississippi, said they launched a search for a 26-year-old man wanted in the stabbing deaths of four children between the ages of two and five. Authorities say the man stabbed the children after their mother- his sister- refused to give him money for drugs.

A New York report says John Kennedy Junior succeeded in passing the New York state bar exam on his third try and thus will be able to keep his job as an assistant district attorney in Manhattan.

#90307u1317 11/03/1990 ~United Press International

(NOV. 3) UPI - Former Japanese prime minister Yasuhiro Nakasone arrived in Baghdad today to talk to Iraqi leaders about the Japanese hostages in Iraq and Kuwait. Nakasone arrived as four ailing American hostages were released,

flying from the Iraqi capital to Amman, Jordan. The Americans were on a flight with three French soldiers who were captured by Iraqi troops on Monday. The three apparently got lost in the desert on a border patrol and unknowingly strayed into Iraqi territory.

Secretary of State Baker will be in Bahrain tomorrow. Then he will go on to Saudi Arabia. Baker's talks are expected to deal with permission for a U-S military attack to drive Iraq out of Kuwait. Baker is on a tour of the Persian Gulf region and Europe for talks with allied leaders. In Cairo, he will meet with his Chinese counterpart, who is on his own trip through the region. The Chinese foreign minister also is scheduled to visit Baghdad.

Four major European banks announced an initiative today to encourage investment in economically troubled East Germany. The German, Spanish, French and Italian banks say they will lead a publicity campaign over the next 12 months to attract investment in East Germany. An economic crisis has gripped the East since unification with West Germany. Unemployment is growing in the East, with 800-thousand people out of work and another one-point-two-Million in short-term jobs.

Analysts report that the Persian Gulf crisis, the federal deficit- reduction plan and the need to improve American airports are combining to produce the biggest jump in airline ticket prices in a decade. Airlines already have increased ticket prices by about 15 percent since August in order to cover the higher oil prices caused by the gulf crisis. Now, Congress is forcing prices higher in order to reduce the budget deficit... by increasing the federal air passenger tax, and by allowing airports to impose a new fee on every passenger who goes through the terminal.

Poland's prime minister, Tadeusz Mazowiecki, says he expects the winning margin in the coming Polish presidential election to be ''small.'' Mazowiecki is running against Solidarity union founder Lech Walesa in the November 25th balloting... the first such free election in Poland. In an interview, Mazowiecki came out in favor of a strong president to guide Poland through a difficult period.

-30- 2556

#90307u1323 11/03/1990 ~United Press International

SALEM, OR (NOV. 4) UPI - Democratic National Committee Chairman Ron Brown predicted Saturday his party will gain eight to 10 House seats in Tuesday's election and at least hold the current margin in the Senate.

''Things are moving in our direction,'' Brown told a rain-soaked crowd of about 100 at a rally on the steps of the Oregon Capitol.

Later, the Democratic leader told reporters that ''at worst'' the party would hold its current 10-seat advantage in the Senate, and perhaps pick up a seat

or two. He also predicted a gain of eight to 10 seats in the House, which he called a strong showing.

Brown stopped in Oregon to campaign for three Democrats: gubernatorial candidate Barbara Roberts, Senate nominee Harry Lonsdale and congressional challenger Mike Kopetski. All three spoke at the rally, held in a steady rain.

With just two full days to go before the 1990 general election, Brown reflected the optimism felt by Democrats in many parts of the country. He said the battle over tax increases needed to reduce the federal deficit had worked to the advantage of Democrats.

In the negotiations over a deficit-reduction package, Republican President George Bush pushed for a cut in the tax on capital gains, which Democrats said would benefit the rich. Democrats repeatedly said their deficit-reduction package helped the working class.

''It is crystal clear where Democrats stand and where Republicans stand,'' Brown told the crowd. ''George Bush and the Republicans stand only with the wealthiest Americans. Democrats stand with everyday working people.''

Brown dismissed as ''nonsense'' Republican claims that GOP losses in the House should be expected because the party holding the presidency usually loses congressional seats at mid-term elections.

He said Republicans are nearing a ''floor'' of about 165 House seats, below which the party cannot realistically be forced. However, Republicans fell well below that level in the late 1970s.

Brown also charged that any Democratic gain is a strong showing because a few months ago Republicans were saying they might pick up House seats.

''We find a complete and total reversal of those predictions,'' Brown said.

Democrats are most likely to pick up Senate seats by defeating GOP incumbents in Oregon, North Carolina and Kentucky, Brown said.

-30- 2545

#90307u1385 11/03/1990 ~United Press International

(NOV. 3) UPI - Iraq sent home four Americans today and promised to release all the other foreign hostages if it gets a promise it WON'T be attacked. The four Americans freed today are men who are ailing. Three French soldiers captured Monday along the Saudi Arabian border also were freed. Iraq says it will release the other hostages if the United Nations Security Council or the five major players in the Persian Gulf crisis promise to refrain from attacking.

President Bush received thunderous applause in Thousand Oaks, California today when he declared he will NOT allow Iraq to keep its stranglehold on Kuwait. The mainly young crowd at California Lutheran University did contain some anti-war protesters. Bush was at the school to stump for the Republican candidate for California governor, Pete Wilson.

A soccer riot occurred in Germany today. Police opened fire on the rioters outside a soccer stadium in Leipzig... killing one person and wounding three others. Police say the mob threw stones at them. More than 80 people were arrested. Police say the fighting began between fans of the Leipzig team and a visiting team from Berlin.

Religious strife in India today left 13 people dead. The killings increased to more than 170 the number who have died since Tuesday... when a radical Hindu group tried to enter a Moslem mosque they want moved so they can build a Hindu temple.

Israeli solders shot and killed one Palestinian and wounded 43 others today in fierce clashes in the Gaza Strip. The fighting began as word spread that an Arab died in prison during interrogation. Israeli officials say the Arab hanged himself.

Japan and North Korea held high-level talks today in their bid to open diplomatic relations. But Japanese diplomats say the talks did NOT produce a breakthrough. Further negotiations are scheduled tomorrow.

Two satellite television companies in Britain are becoming one. Rupert Murdoch's Sky Television agreed to merge with its rival, British Satellite Broadcasting. The merger will relieve Murdoch of some financial problems.

#90307x0240 11/03/1990 ~Comtex

NEW YORK (NOV. 3) UPI - A Scandanavian man has been charged with the bold midday heist of a valuable Impressionist painting plucked from the window of a Manhattan gallery, police said Saturday.

Balazs Gabor, 46, of 382A Sixth Ave., was arrested at 9:30 p.m. Friday at his home by members of the police Safe, Loft and Truck Squad. The capture came just about eight hours after the heist of the Maurice Utrillo work, ''Rue A Montmartre.''

The Utrillo work, valued at $320,000, was recovered, said Sgt. Tina Mohrmann, a police spokeswoman.

The painting of the famous Paris street scene, done by the Impressionist artist in 1926, had been acquired by the Soufer Gallery about a year ago from the Malingue Gallery in Paris.

It had been on display - and in the gallery window - for some three weeks as part of the Madison Avenue gallery's ''European Modern Painting'' exhibition.

About 1:15 p.m. Friday, a well-dressed man rang the gallery buzzer, and was admitted, although he did not have an appointment, owner Mahboubeh Soufer told New York Newsday.

As soon as he entered, however, the man shoved his foot in the door and reached over to pick up the painting from the front window.

''He struggled with the weight of the painting, then lugged it out the door and into a maroon car waiting with the door open,'' and someone in the driver's seat, Soufer said.

Gabor was charged with criminal possession of stolen property and burglary.

#90308b0415 11/04/1990 ~Business Wire

SYDNEY, Australia (NOV. 4) BUSINESS WIRE - From Monday, Nov. 5, 1990, Westpac Banking Corp. (NYSE:WBK) financial markets dealers in Sydney will trade from a new dealing room, occupying one of four floors taken up by the Bank's Australian Financial Markets Group.

The dealing room, designed to meet Westpac's financial markets needs for the next 10 years, will house 170 dealers immediately, with a capacity for 200 and further expansion later on.

Westpac's Managing Director, Stuart Fowler said, ''Since 1984, prior to deregulation, we have more than tripled the size of our Australian dealing operations.

''We expect to see further growth in our financial markets activities, and consider our investment in the new premises and the technology as essential if we are to maintain our strong position and competitiveness in this vaulable area of the Bank's operations,''Fowler said.

Westpac recently scooped the pool in the Australian ''Business Review Weekly'' 1990 Foreign Exchange Poll, winning six categories - a more comprehensive success than any previous winner.

Westpac is also perceived to be a major global player in foreign exchange, swaps and options markets as measured by the ''Euromoney'' 1990 polls.

Westpac Banking Corp. is an international financial services Group headquartered in Australia with operations extending offshore to 29 countries. In its home markets of Australia, New Zealand, Papua New Guinea, and the South West Pacific, Westpac offers a full range of banking and financial services. Specialized services are provided through the Westpac offices in Asia, Europe, and the United States.

ISLAMABAD (NOV. 4) - Asif Ali Zardari, jailed husband of former premier Benazir Bhutto, took his oath in parliament Sunday, ending a boycott of the proceedings by her People's Democratic Alliance (PDA).

Mr. Zardari, arrested last month and held on charges of kidnapping and extortion, was sworn in as a deputy along with Ms. Bhutto and other PDA members.

His absence from the house Saturday provoked a walkout by all PDA members and their refusal to be sworn in until Mr. Zardari was brought here from his prison cell in Karachi.

Mr. Zardari, 38, was elected to the lower house in the national elections 10 days ago in which the Islamic Democratic Alliance (IJI) won an overwhelming mandate to form the future government. He was jailed at the time.

Ms. Bhutto's party decided to sit in the opposition under protest. It alleged the polls were rigged, a charge denied by the caretaker government.

Her husband was flown here in police custody early Sunday after an assurance by the caretaker government that a special court order for his presence in the house would be implemented.

Mr. Zardari was arrested on the charge of abetting the abduction of a businessman and extortion of money from him, during the rule of Ms. Bhutto who was fired by President Ghulam Ishaq Khan in August on charges of corruption and misrule.

The former premier, now the sole woman in the 217-member parliament, faces trial in seven corruption cases filed against her by the president before the elections.

If convicted, the couple could lose their parliamentary seats in addition to being barred from politics for long periods.

Mr. Zardari also faces the threat of imprisonment for up to seven years if convicted in the abduction case.

The new government will take over when IJI chief, Nawaz Sharif, a wealthy Punjabi industrialist, is sworn in Tuesday as Pakistan's 11th prime minister, succceeding caretaker premier Ghulam Mustafa Jatoi.

HAMBURG (NOV. 4) - The Iraqi government Sunday released 15 Germans who were being held in the Gulf, the German Press Agency dpa learned from reliable sources.

The 15, technicians from German companies, were first flown to Amman, Jordan. They are to arrive in Frankfurt on Monday.

Their release was apparently linked to Monday's trip to Baghdad by the Social Democrats' Honorary Chairman Willy Brandt, observers said.

-30- 575
#90308d3420 11/04/1990 ~French/German News Agency
BONN (NOV. 4) - The German government hopes that "many German hostages and nationals of other countries" will be freed by Iraq during former chancellor Willy Brandt's upcoming visit to the Gulf, an official communique said here Sunday.

The government said it was still its goal that all nationals held in Iraq against their will be released in accordance with a European Economic Community (EEC) statement issued at last month's summit meeting in Rome.

Mr. Brandt will go to Baghdad on a solitary mission Monday.

Chancellor Helmut Kohl earlier suggested that Mr. Brandt, president of the Socialist International, be accompanied by Italian Emilio Colombo, a Christian Democrat, and Belgian Willy de Clercq, a Liberal, to give the trip a Europe-wide framework.

Italy has since said that it was opposed to Mr. Brandt's plan to visit Iraq unless he receives United Nations backing for his mission.

But U.N. Secretary-General Perez de Cuellar stated during Mr. Brandt's visit to New York last week that the United Nations cannot do anything, the former chancellor said.

The government communique said Iraqi President Saddam Hussein's invitation to Mr. Brandt did not comprise visits by other western party leaders.

A spokesman for the opposition Social Democratic Party (SPD) earlier said a Lufthansa jetliner that will take Mr. Brandt to Baghdad will also carry medicine to Iraq. Mr. Brandt is honorary chairman of the SPD.

Lufthansa, the national German airline, said Friday it had been asked to prepare a 250-seat Airbus A300-600 for the mission.

PRAGUE (NOV. 4) - Offices of Czechoslovakia's communist party here were gutted in an arson attack, Czech party leader Jiri Svoboda said Sunday.

Arsonists broke into the offices in the ninth city district after smashing courtyard windows and set fire to three different places. Damage was estimated at more than one million kroners (65,000 dollars), party spokesman Josef Hora said.

The same office was damaged by a fire after the country's first free elections last June, in which the communists won 14 per cent of the votes in the country's Czech republic.

Mr. Svoboda was speaking on the second and last day of the communists' 18th party congress.

Delegates Saturday sacked party chief Vasil Mohorita, 38, the last top survivor from the party's hardline years.

A new party leader was to be elected later Sunday, with Slovak reformist historian Pavol Kanis, 42, and Czech Miroslav Grebenicek, 43, the only candidates.

#90308d3550 11/04/1990 ~French/German News Agency
KABUL (NOV. 4) - Afghan troops backed by heavy artillery and fighter aircraft continued operations Sunday against mujahedeen positions near the capital.

Government spokesman Humayun Mukammel said the troops had inflicted heavy losses on the resistance fighters, destroying 23 strongholds in the northern and northeastern parts of Kabul province in the last few days.

He said in a single operation about 20 kilometers (12 miles) northeast of the city center, some 50 mujahedeen were killed by government forces who counted four dead and 10 wounded.

Stocks of arms, ammunition and rockets were seized by troops from the Kabul garrison, Mr. Mukammel said.

He said 10 bodies left behind by the mujahedeen had been buried by the army, and added that the captured weapons had been intended for a failed plan to capture the city.

The mujahedeen launched a two-pronged attack on the outskirts of the capital

on October 9, but were stopped 40 kilometers (25 miles) outside the city by heavy air and artillery strikes.

Mr. Mukammel said sporadic fighting, most of it exchanges of shell fire, continued in several Afghan provinces but described the situation as under control.

Continuous heavy artillery fire heard by residents of the capital in the last few days was apparently aimed at mujahedeen positions just north of the city.

KARACHI, Pakistan (NOV. 4) - Heavy police contingents guarded Hindu temples here after attacks by Moslems protesting the Hindu violence against a 16th-century mosque in India left at least one Hindu dead, witnesses said.

One temple was damaged Saturday by an explosive device lobbed by some unidentified men and a Hindu cobbler was shot dead in Hyderabad, 150 kilometeres (90 miles) north of here, they said.

Security forces in Hyderabad foiled several attempts by angry groups to damage Hindu temples in the city, they said.

In Islamabad, a Hindu deputy expressed concern in the lower house of the Pakistani parliament over the "threat" to the minority Hindu community.

Bhagwan Das demanded immediate debate on the situation in Sindh province,

home of most of the Hindus who constitute roughly two per cent of the country's 110 million population.

He said Hindus had not encountered such a situation in the last 42 years.

The speaker responded that the issue could be discussed by the house after it was formally brought on the agenda.

The Sindh caretaker chief minister, Jam Sadiq Ali, condmened the attacks and urged Moslems to protect the minorities.

KATHMANDU (NOV. 4) - At least two persons were killed and five injured in a clash between Hindus and Moslems in southern Nepal Saturday, it was announced here Sunday.

A nepalese interior ministry statement broadcast by Radio Nepal said that the

clash took place when a shrine being cleaned by one community was ''dirtied'' by a person of another community.

The incident occurred at Hari Onn in the Sarlahi district, about 200 kilometres south east of here, and bordering India. The ministry not identify the communities.

#90308d3620 11/04/1990 ~French/German News Agency

MULTAN, Pakistan (NOV. 4) - At least seven people had their throats slashed when a tractor-driven trolley in which they were travelling drove under a low-hanging power cable, police here said Sunday.

About 40 men were in the trolley Saturday night on their way to Uch Sharif, a township about 120 kilometres (75 miles) south of here, to congratulate a winning candidate in last month's national elections.

They were dancing and singing to the beat of drums, as the tractor drove under the cable partly covered by leafy tree branches and hanging across a dusty pathway.

Police said seven people were killed and another 10 were injured, two of them seriously.

DAR ES SALAAM (NOV. 4) - Tanzania's new parliament is to hold its first session here Tuesday, the same day as the swearing-in ceremony of re-elected President Ali Hassan Mwinyi.

General elections last Sunday were the seventh since independence in 1961.

National Aseembly clerk Mahmoud Mwidadi said here Sunday that the first task for the legislators would be to elect a new speaker to succeed retiring Chief Adam Sapi Mkwawa, 70, who held the post for 26 years.

Mr. Mwidadi said that parliament would also designate for nomination to special seats an additional 30 MPs to respresent pressure groups such as women,

youths, parents associations, cooperatives and the trade union movement. This will come before President Mwinyi will be invited to address the opening session.

The general elections saw the defeat by newcomers of 33 sitting MPs, including two ministers -- senior minister in the president's office Paul Bomani, 65, and deputy lands and tourism minister Hassan Dyamwale.

Sources here said President Mwinyi would name a prime minister to help him appoint a new cabinet, which is likely to have several new faces.

Mr. Joseph Warioba, 49, was Mwinyi's premier in the outgoing cabinet.

#90308d3750 11/04/1990 ~French/German News Agency

DHAKA (NOV. 4) - After five days of unprecedented Hindu-Moslem clashes across Bangladesh, many frightened Hindus are thinking of migrating to India if the violence continues.

"We do not want to stay if our life and property is not secured and think it's better to migrate to Calcutta, India," said A.K. Nandi, a shopowner in the Hindu dominated Shakari Bazaar.

The recent clashes have claimed at least four lives, all Moslems, and several million dollars worth of property has been damaged, leaving Bangladesh's minority Hindus fearful of further attack and protesting a lack of adequate security.

"We feel insecure and threatened because when Moslems attacked us police acted very suspiciously," a Hindu community leader said.

Deputy Prime Minister Shah Moazzem Hossain in an interview Sunday rejected the allegations, saying that after such massive security measures if the Hindus were not happy then "they are complaining for the sake of complaining."

Shah Moazzem said the government had taken all possible security measures to protect the minority community and the situation was under control, but added "it would take some time to restore complete normalcy."

Bharat Singha, a 55-year-old businessman said: "Our hearts are broken, we grew up here and our children were born here, but we have seen nothing like this."

His feelings were echoed throughout the Hindu community which accounts for 12 per cent of Bangladesh's 110 million people.

The Hindu-Moslem violence started in Bangladesh's southeastern city of Chittagong Tuesday and slowly spread to Dhaka and other districts, where Hindu temples, homes and businesses were attacked by Moslems.

"We want to live here with dignity and security as our roots are here, but if the two were absent it is best to go," another community leader, Biddut K. Nag said.

"We also worry that we may become refugees in India," he added.

Bangladesh's main opposition parties, who have been campaigning for eight years for the resignation of President Hussain Mohammad Ershad, have accused members of the president's ruling Jatiya Party (JP) of inciting the attacks on Hindus.

One opposition leader said Mr. Ershad had been very shrewd and was using the communal violence to distract attention from the recent successes scored by the opposition campaign.

Deputy Premier Shah Moazzem laughed off the allegations, saying: "They never like what we do and go on accusing us aimlessly ... if a storm that is brewing in the Bay of Bengal hits Bangladesh, they may even say President Ershad has managed things with Allah to thwart their campaign."

Moulana Mannan had nothing to do with the recent communal unrest and he is just like any other JP member of parliament, he said.

President Ershad imposed a curfew in Dhaka Wednesday and called in troops to quell the Hindu-Moslem violence.

Meanwhile, all roads leading to the Shakhari Bazaar area in the old walled parts of the capital city have been blocked by Hindus with old drums and furniture.

As police guarded all local temples, the sound of drums and cymbals brought life to the area as worshippers prayed for peace to the most powerful Hindu goddess, Kali, in the only temple still open.

Residents said other temples were either partially functioning or closed because of the curfew.

The recent Hindu-Moslem violence spread from the northern Indian town of Ayodhya, where at least 44 people have died in renewed fighting over a disputed shrine.

Hindus have vowed to destroy a mosque there which they claim was built after the demolition in the 16th century of a Hindu temple dedicated to the god Rama.

DJIBOUTI (NOV. 4) - Some 160 people fleeing civil war and famine in northern Somalia have been given shelter by the authorities in Djibouti, state radio and television reported Sunday.

Two of them, one a child, had been wounded by a mine explosion and were hospitalised. Most of them are women and children.

The people, who came from the locality of Lukhaya, had arrived at the Loyada border post Thursday in two trucks escorted by the Somali army.

There is fighting in the north of the country between forces of the armed opposition Somali National Movement and troops loyal to President Mohamed Siad Barre.

One of the refugees said he had left Lukhaya of his own volition because of a lack of food. He said that he and his neighbours had been stripped of their possessions by "armed men".

Other people from the region were also expected to leave, he added.

Three Somali army officers based at Toqoshi near the border with Djibouti last week defected at Loyada and asked for political asylum.

PARIS (NOV. 4) - King Hussein of Jordan arrived here Sunday afternoon for a 24-hour visit, during which he will meet (on Monday) with French President Francois Mitterrand for the second time since the Gulf crisis started on August 2.

The Jordanian ruler was welcomed at the airport by French Research and Technology Minister Hubert Curien.

After his brief stay in France, during which he will also meet with French Defence Minister Jean-Pierre Chevenement, the king will go to Geneva to attend the world climate conference, during which he is to talk with British Prime Minister Margaret Thatcher.

VINA DEL MAR, Chile (NOV. 4) - A bomb exploded in a restaurant here, injuring two U.S. sailors from the nuclear aircraft carrier "Abraham Lincoln," three British tourists and two Chileans, police said Sunday.

The dynamite exposion Saturday night caused extensive damage to the restaurant two nearby homes, four stores and three cars parked outside the restaurant.

An official at a local hospital said those injured were not hurt seriously.

The 91,000-ton aircraft carrier with 5,500 sailors aboard was anchored at the nearby port in Valparaiso about 100 kilometers (62 miles) north of Santiago. The ship was headed to the U.S. Pacific coast.

#90308d4250 11/04/1990 ~French/German News Agency
BAGHDAD (NOV. 4) - Former Japanese Prime Minister Yasuhiro Nakasone met for four hours here Sunday with Iraqi President Saddam Hussein to discuss ways of easing tension in the Gulf, official sources reported.

"Japan is an advocate of peace," Mr. Nakasone said in statements carried by Baghdad Radio.

"The Japanese people reject war and do not support the deployment of Japanese troops in the Gulf," he was quoted as saying.

"The Japanese people and their representatives will not accept the deployment of Japanese troops nor an amendment to the constiution to make it possible," he added.

Japanese Prime Minister Toshiki Kaifu in mid-October introduced a bill in parliament that would allow Tokyo to send non-combatant troops to the Gulf to support a multinational force that assembled there after the Iraqi invasion of Kuwait August 2.

But the measure has drawn sharp criticism from politicians -- including some from the ruling Liberal Democratic Party (LDP) -- the Japanese public and Asian countries.

Mr. Nakasone has come to Baghdad to press for the release of 350 Japanese nationals held in Iraq and Kuwait, including 140 kept as "human shields" at strategic sites to deter a feared attack by U.S.-led forces.

He does not have an official mandate from the Japanese government but is leading a delegation grouping members of the LDP and Japanese MP's.

Mr. Nakasone spent an hour in private talks with Mr. Hussein Sunday and was later joined by members of the Japanese delegation.

Iraq on Saturday offered to release foreign nationals if Baghdad obtained a pledge of non-aggression from either the five permanent members of the United Nations Security Council or from two countries from among China, France, Japan Germany and the Soviet Union.

#90308d4270 11/04/1990 ~French/German News Agency
BUCHAREST (NOV. 4) - There were demonstrations for the fourth day running in the streets of Bucharest Sunday against the lifting of price controls and for the resignation of President Ion Iliescu.

A procession of somee 200 people marched through the Romanian capital to the central government building and the television headquarters shouting "Down with Iliescu", and "Try Iliescu for all the blood that was shed".

Demonstrators also called on passers-by to join the rally "like on December 22", the day a massive protest here led to the ouster of communist dictator Nicolae Ceausescu.

The demonstrators said they did not belong to any political organisation.

Price controls were lifted by the government on Thursday.

Prime Minister Petre Roman on Saturday appealed to trade unions for understanding, two days after the government decision took effect.

In a television debate with representatives of five major unions, Mr. Roman said an end to price controls was the only way out of Romania's economic crisis.

"Winter is coming and we need 200 million dollars to pay for fuel for industry and homes," he said. Loans to purchase energy would not be forthcoming "unless we can prove our economy is viable," he added.

He said that the International Monetary Fund and the World Bank would not have confidence in Romania if basic economic reforms such as removing price controls were not undertaken.

Unions have called the lifting of price controls premature and the issue has brought several thousands protestors onto the streets since Thursday.

AMRITSAR, India (NOV. 4) - Sikh militants fighting for an independent homeland massacred 17 people on Sunday in a remote village in the northern Indian state of Punjab, police said.

Sikh gunmen armed with AK-47 assault rifles lined up the 17, including a police constable, and mowed them down after having waylaid them on a dusty road at Pandori Mahantan village, about 80 kilometers (50 miles) from here.

A police spokesman said the victims were mostly "innocent villagers" who were passing by the road on cycles and horsecarts when the militants pounced on them shortly after 8:00 p.m.

The killers were reportedly part of a big gang, but no further details were available in this Sikh holy city.

It was not immediately clear what led to the massacre, but police sources said it might have been to avenge the death of a top Sikh militant and his four associates.

Security forces gunned down Sukhwinder Singh, chief of the Bhindranwale Tigers Force of Khalistan (BTKF), and four others during a seven-hour gunbattle in this border district here Saturday when they were holding a meeting.

The BTKF is one of a half dozen groups campaigning violently for a homeland called Khalistan (land of the pure) in Punjab. The campaign has left some 2,220 people dead this year.

#90308d4660 11/04/1990 ~French/German News Agency

PRAGUE (NOV. 4) - Reform-minded Communist Pavol Kanis, a 42-year-old Slovak historian, was elected by acclamation on Sunday as president of the Czechoslovak Communist Party at its 18th party congress, an AFP correspondent observed.

His competitor, 43-year-old Moravian historian Miroslav Grebenicek, who has been party vice-president since October 14, proposed that the presidency should be given to a Slovak.

He told the congress that this seemed the best solution, since the previous two presidents - Ladislav Adamec and Vasil Mohorita - had been Czechs.

Mr. Grebenicek, will take over the party leadership next year, on the basis of the principle of a rotating presidency adopted by the 833 delegates representing 450,000 Communist Party members. The party had about 1.7 million members a year ago, but lost many at the time of and following the fall of the Communist regime.

The party congress has ruled that the party is based on the principle of democratic socialism and has approved a statement ruling out violence as a solution to social crises or winning power. It has also discarded the notion of the dictatorship of the proletariat.

The new party leader said that "The party wants to base its policy on the principles of political pluralism and the market economy".

#90308d4710 11/04/1990 ~French/German News Agency

RANCHO MIRAGE, CA (NOV. 4) - American actress Mary Martin, who captivated audiences around the world in her role as Peter Pan, has died. She was 76.

A publicist for her son, actor Larry Hagman, confirmed Sunday that Ms. Martin had died, but he refused to say when, nor would he give a cause of death.

Ms. Martin, one of the New York theaters' leading ladies for more than 30 years, performed in scores of musicals including "The Sound of Music, "One Touch of Venus" and "South Pacific."

But she was best-known for her bubbly portrayal of Peter Pan, the boy who never wanted to grow up.

Although the musical had a relatively short run on Broadway, it was immortalized on television and Ms. Martin won an Emmy for her role.

"All my life, I wanted to be Peter Pan," she once said.

"My poor mother never knew what I was going to do next. I don't think anything ever surpised my parents. I was always doing something strange -- like at five jumping off the garage. I wanted to fly, and all I did was break my collarbone."

Ms. Martin made her first stage appearance singing at a fireman's ball in her hometown of Weatherford, Texas.

HARARE (NOV. 4) - Canada has written off Zimbabwe's debts to the country, amounting to some 31 million Canadian dollars (about 27 million U.S.), it was officially announced here at the weekend.

It is the first time a donor country has written off debts owed by Zimbabwe.

The decision was announced to Economy Minister Bernard Chidzero by the Canadian ambassador in Harare, Charles Basset, in the course of regular annual consultations between the two countries.

Mr. Chidzero said the Canadian government's move demonstrated its desire to see poverty reduced in developing countries by easing their debt burden.

#90308d4900 11/04/1990 ~French/German News Agency

LISBON (NOV. 4) - The Angolan government would like to be officially recognised by the United States, it said Sunday in a declaration to the Angolan people quoted by the Angolan news agency Angop, received here.

The declaration comes a week before the 15th anniversary of Angola's independence from Portugal, on November 11 1975.

In it, the government said there were new prospects for peace in the country, and appealed to Washington to view relations with "the realism called for in this new world era which opened with the end of the Cold War".

It suggested that the U.S. government should cease it military support for the UNITA rebels, and also complained of Zairean support for them.

"The Angolan government issues a new appeal to the White House and the Pentagon to adopt a constructive and reasonable position with regard to the Angolan peace process," the declaration said.

"The de jure recognition by the United States of the sovereignty of Angola would not be out of order, especially considering that Angola is currently undergoing deep changes which will soon bring the country to the institutionalisation of multipartism and a market economy," it added.

Festivities for the 15th anniversary of independence will take place "at a particular time in our history marked by the announcement of deep political and economic changes", the declaration said.

The ceremonies should constitute "a veritable day of national reconciliation and united struggle", it went on, at the same time exhorting people to celebrate the occasion "while maintaining an attitude of vigilance toward the enemies of peace and democracy".

The Angolan government is currently engaged in a series of talks with the U.S.-backed rebels of UNITA (National Union for the Total Independence of Angola), led by Jonas Savimbi, with which it has been at war since 1975.

The government declaration complained that the UNITA rebels were using the territory of neighbouring Zaire for their supplies and to launch military action.

It also implicitly criticised the United States for its arms supplies to Mr. Savimbi's movement.

It said that countries which had until now supplied UNITA with arms "must adopt an attitude more in keeping with the new era of international relations with a view to facilitating the peace process under way in Angola".

#90308d4970 11/04/1990 ~French/German News Agency

NEW DELHI (NOV. 4) - The Indian government was Sunday hit by two more resignations, as escalating factional fighting took the dominant ruling party closer to an inevitable split.

A fourth minister quit the beleaguered 11-month-old National Front government, while another said she will resign Monday, increasing the isolation of Prime Minister Vishwanath Pratap Singh, 59.

Minister of State for Home Affairs Subodh Kant Sahay said he had sent his resignation letter to Mr. V.P. Singh, holding him responsible for the caste and communal violence sweeping the country.

Mr. Sahay is the fourth minister to quit the government since October 23, when it lost the vital legislative backing of the the rightist Bharatiya Janata Party (BJP) needed to remain in power.

Earlier, Deputy Minister for Women and Child Development Usha Singh told reporters she felt "suffocated" in the government and would resign from office Monday.

Mr. Sahay and Mrs. Usha Singh, like the three other ministers who have resigned, belong to Mr. V.P. Singh's centrist Janata Dal (People's Party), the core partner in the five-party National Front.

The protest resignations came hours after two senior Janata Dal leaders demanded that the premier step down and pave the way for the election of a new leader of the ruling coalition.

But a larger group of MPs in the National Front rejected the demand, and after a two-hour meeting here expressed "full faith" in Mr. V.P. Singh, India's seventh prime minister.

Both groups said they would not budge from their respective stands, indicating that the Janata Dal might formally split when it holds a meeting of its 138 MPs on Monday.

The National Front itself has to seek a vote of confidence in federal parliament Wednesday following the BJP's withdrawal of support after its chief L.K. Advani was arrested on October 23 over a temple-mosque row.

The tug of war in the Janata Dal added to the existing political confusion in New Delhi, where speculation is centred on whether the country would have to go to the polls for the second time in a year.

Former premier Rajiv Gandhi's opposition Congress (I) party, which is the single largest grouping in parliament, has said it would keep a Janata Dal government going if it dropped Mr. V.P. Singh.

Senior Janata Dal leaders Devi Lal and Chandra Shekhar reiterated Sunday that they were willing to take the Congress (I)'s support to keep the party in power by ousting Mr. V.P. Singh and his supporters.

"The present political crisis can only be overcome under an alternate (party) leadership," said former deputy premier Mr. Lal, who was dismissed from the cabinet August 1 by Mr. V.P. Singh.

Federal Labour Minister Ram Vilas Paswan challenged the statement.

"We have one leader," he said, referring to Mr. V.P. Singh. "Those who agree can remain (in the party). Those who don't, can go."

Both the V.P. Singh and the Lal-Shekhar camps in the Janata Dal claimed majority support, and one dissident leader, Jagdeep Dhankar, said it indicated that the barely two-year-old party was heading for a split.

"When two sides in a party with matching strength take firm but opposite views on an issue, it is natural that there will be a split," he told reporters at Mr. Lal's residence.

But Mr. Advani, who was released Sunday after a 12-day detention, demanded fresh elections to parliament, saying "ad hoc arrangements" were no solution to end a political uncertainty.

"The government should seek a fresh mandate from the people as it has forfeited its moral and political right to continue even for a single day," he told a crowded press conference here.

Mr. Advani's pro-Hindu BJP, which has 88 MPs, wants the construction of a Hindu temple at a site in northern Ayodhya town claimed by Moslems. The dispute has left some 250 people dead since Mr. Advani's arrest.

MANAMA (NOV. 4) - U.S. Secretary of State James Baker met here Sunday with the emir of Bahrain, Sheikh Issa bin Salman al-Khalifa, to discuss efforts to secure an Iraqi withdrawal from Kuwait, official sources said here.

The meeting, also attended by Prime Minister Sheikh Khalifa bin Salman al-Khalifa and Crown Prince Sheikh Hamad bin Issa al-Khalifa, focused on "the latest developments in the Gulf region and international efforts under way to

bring about a withdrawal from Iraqi forces from Kuwait and the return of the legitimate authority there," the sources reported.

Mr. Baker earlier Sunday paid a brief visit to eastern Saudi Arabia to inspect the U.S. 1st Cavalry Division deployed along the frontlines with Iraqi forces.

The secretary of state is at the start of an eight-day tour of Bahrain, Saudi Arabia, Egypt, the Soviet Union, Britain and France to shore up an anti-Iraqi coalition and to discuss the possibility of military action against Iraq.

BRASILIA (NOV. 4) - The Brazilian Government has endorsed all contracts reached between private Brazilian companies and Iraq to secure the release of 256 Brazilians being held there, O Globo newspaper reported Sunday.

Brazil has signed an accord "in part" with Iraq which conditions release of the hostages on the pledge that they would return to work in Iraq once the Gulf crisis was over, the newspaper said.

The 256 Brazilians included employees who had been working for Mendes Junior to construct a railroad track from Baghdad to Barsa.

O Globo said if the Brazilian companies did not respect the agreement, Iraq could fine the companies millions of dollars in fines and Brazil would cover those penalties.

General Secretary Marcos Coimbra confirmed the agreement but denied that the government would have to pay the fines.

LIMA (NOV. 4) - Rescue workers Sunday spotted a twin-engine plane with 12 people aboard that was reported missing Saturday during a storm over the Amazon jungle, police said.

The pilot of the rescue plane said he had spotted the twin-engine Aereotaxis Bellavista aircraft in the Upper Huallaga region but he could not determine whether there were any survivors among the 10 passengers and two crew members.

Eight minutes into the one-hour route through the Amazon Saturday morning, the pilot radioed the control tower in Tarapoto about 800 kilometers (500 miles) northeast of Lima to say he was turning back because of bad weather.

Shortly thereafter, communication stopped.

#90308d5250 11/04/1990 ~French/German News Agency
JOHANNESBURG (NOV. 4) - The South African Police (SAP) Sunday admitted it had found several double-agents of the black nationalist African National Congress (ANC) in its ranks, state-run television said.

Counter espionage investigations by the police had exposed several such policemen as ANC double-agents but their infiltration into South Africa's security and intelligence organisations were "on a fairly low level", according to a statement from the Law and Order Ministry.

The highest ranking spy was a warrant officer, the statement added.

Some of the spies have already been convicted while other alleged agents would be tried soon, television said.

Law and Order spokesman Craig Kotze, who was until recently a journalist for a Johannesburg daily, said police had taken note of Sunday newspaper allegations that seven members of the SAP's security and intelligence organisations had been recruited as ANC agents.

This was done as part of an alleged ANCSouth African Communist Party plot called "Operation Vula", designed to overthrow the government should negotiations fail.

KARACHI (NOV. 4) - Former premier Benazir Bhutto pledged Sunday to play a constructive role as opposition leader in Pakistan's newly elected national assembly, despite repeating charges that elections last month were rigged.

Ms. Bhutto's People's Democratic Alliance (PDA) was trounced in the general elections by the conservative Islamic Democratic Alliance (IJI) led by Punjab industrialist Nawaz Sharif.

"We have accepted to play a constructive role of opposition in the assembly in the best interest of democracy," Ms. Bhutto told reporters here Sunday after arriving in her home province of Sindh from Islamabad.

"It is not a pleasant job in the house which has been largely created through massive rigging," she said.

"I believe that we have to take a stand now against such injustices to the people of Pakistan who have been cheated in their right of franchise through rigging," the former premier added.

Ms. Bhutto demanded investigations into what she called "false allegations" against her and her party and underlined that she required relief.

"If we are not provided relief then we would consider it a constitutional dictatorship," she said.

Ms. Bhutto said "we have not resorted to agitational politics in the best interest of the country and democracy although people were enraged over the massive rigging and subversion of their will."

"The people have only the right to franchise and if that is also subverted then no one will have faith in democracy and the country would suffer," she said.

Ms. Bhutto will return to Islamabad on Monday to participate in Tuesday's proceedings of the national assembly, which is to elect the new prime minister. The IJI has nominated Mr. Sharif for the post.

HOUSTON, TX (NOV. 4) - President George Bush and British Prime Minister Margaret Thatcher discussed the Gulf crisis by telephone Sunday, the White House said.

It did not provide details of the conversation, which came as Secretary of State James Baker visited the Middle East on a trip aimed at reinforcing the international coalition against Iraq and discussing the possible use of force against Baghdad.

Mr. Bush was in Houston Sunday on a Republican campaign swing to garner support for Tuesday's legislative and gubernatorial elections. He is to cast his ballot that day in Houston, where he is registered to vote, before returning to Washington.

MANAGUA (NOV. 4) - Nicaragua Sunday devalued its currency for the 43rd time since President Violeta Chamorro took office in April, with the cordoba dropping to 1.61 million to the dollar.

That compared to the previous level of 1.54 million cordobas per dollar, the Nicaraguan Central Bank said.

The move, part of efforts to heal an economy battered by a decade-long civil war that ended this year, was aimed at boosting exports by making them cheaper.

#90308d6060 11/04/1990 ~French/German News Agency
MANILA (NOV. 5) - Asian Development Bank (ADB) President Kimimasa Tarumizu warned Monday the world economy was on the brink of a recession and promised special measures to protect developing countries in the region.

Speaking at the opening of a conference on the Asian economic outlook at the ADB headquarters in Manila, Mr. Tarumizu said this situation was partly caused by a slowdown in Western countries and the Gulf crisis.

"After a long period of sustained economic growth, the world economy appears to be teetering on the edge of a recession," he said.

He noted that the rate of economic progress in Asia was imperiled because it had become "an active participant in the world trading system."

Many Asian countries were heavy oil importers and major exporters of labor to the Middle East, relying on remittances from these workers.

Such countries "have been directly hit by the Middle East crisis," which affected both oil imports and labor exports, Mr. Tarumizu said.

Higher oil prices would raise the import bills of these countries, leading to higher domestic production costs, slower growth and higher inflation.

Mr. Tarumizu said the ADB was concerned about these developments and was "exploring ways and means of responding to the needs" of its developing member countries to adjust their economies and maintain growth.

Asia-Pacific economies, led by the "four dragons" Taiwan, South Korea, Singapore and Hong Kong, had collectively been the fastest-growing of any region in the world in recent years.

Mr. Tarumizu hailed the political developments in Eastern Europe, adding "we see in Eastern Europe and the (Soviet Union), immense opportunity for collaboration with developing member countries."

But the ADB was also concerned about the impact of changes in Eastern Europe on the flow of resources to developing Asian countries, he added.

Some developing Asian countries had expressed concern over the possible shift of Western aid priorities to Eastern Europe.

SYDNEY (NOV. 5) - Adelaide Steamship Co. Ltd. (Adsteam) announced Monday it

would slash debt by three billion Australian dollars (2.3 billion U.S.) and focus on retailing.

Shares in the diversified investment company plunged 46 cents to 60 cents on Friday compared to a 1990 high of 6.60 dollars due to fears about debt estimated at seven billion dollars (5.4 billion U.S.).

"The program aims to reduce group debt by at least three billion dollars over an 18-month period and to rationalise the current complex group structure by eliminating cross equity holdings between companies," Adsteam said in a statement.

During the 1980s, Chief Executive John Spalvins built up Adsteam into Australia's third largest employer by capturing interests in retailer David Jones, the diversified Petersville Sleigh, brewer Tooths and manufacturer National Consolidated.

The group's complex cross-shareholdings have also sparked falls in the share prices of Adsteam associates.

The debt reduction program would "include sales of non-core assets ... and the raising of new equity," Adsteam said. "The intention is that the group will focus on retailing."

Mr. Spalvins and Adsteam's Finance Director Michael Kent would resign from the boards of Petersville Sleigh and National Consolidated, the company said.

Howard Smith directors had called for the resignation of the pair after Petersville Sleigh's decided to sell its 162 million dollar shareholding (125 million U.S.) in their company.

"Despite adverse publicity in respect of the group in recent weeks, Adsteam and its associates advise that operations continue to trade satisfactorily.

"There has been no breach either within Adsteam or any of its associates of any borrowing arrangements," Adsteam said.

Following the announcement, Adsteam shares jumped 27 cents to 87 cents, Petersville surged 18 cents to 98 cents, Tooth gained 20 to 2.60 dollars, David Jones added five to 2.55 dollars while Howard Smith increased 10 cents to 3.95 dollars.

In September, Adsteam announced an annual net profit rise of 9.7 percent to 200.3 million dollars (155 million U.S.) for the year to June 30.

TOKYO (NOV. 5) - Suzuki Motor Corp. is to begin within this week making mini passenger cars jointly at a Chinese plant in Chongqing, Sichuan Province, officials said monday.

The officials said Beijing approved the start of the joint project when Suzuki Motor's President Osamu Suzuki visited China Sunday for talks on the plan.

Japan's leading minicar producer plans to make 0.8-litre cars based on the Alto hatchback model with five doors on a knockdown basis.

Suzuki aims to increase production to 10,000 units a year, beginning with 400 units by the end of this year and 1,000 units next year, according to the officials.

BONN (NOV. 4) EFE - The Soviet Union is strategic stockpiles -- of cigarettes.

Hit by violent strikes and demonstrations earlier this year by workers who found state shops empty of tobacco the government is looking to buy some 40 billion cigarettes to build up reserves, the Soviet trade office in Bonn said Saturday.

The Soviets have already made deals with German companies to import 2.6 billion cigarettes and 500 tonnes of tobacco.

But with one billion cigarettes representing no more than an average days' smoking in the USSR, they have also had to turn to U.S. giants Philip Morris and R.J. Reynolds for further supplies.

Soviet orders for 20 billion from the German subsidiaries of Reynolds and Philip Morris are said to be the biggest they have ever received.

Poland is also tipped as a supplier, having agreed the export of three billion cigarettes in exchange for natural gas.

The problems caused in the Soviet Union by lack of cigarettes also reached the ears of the Spanish government.

Among the gifts presented to President Mikhail Gorbachev on his visit to Madrid last month was a promised shipment of a further 40 billion smokes.

#90308p3177 11/04/1990 ~PR Newswire

LARGO, FL (NOV. 4) PR NEWSWIRE - Nokia Mobile Phones and QUALCOMM Inc. of San Diego announced today that they have signed an agreement that will enable

Nokia to develop and market mobile phones using Code Division Multiple Access (CDMA) technology.

A digital transmission technology, CDMA has the potential to dramatically increase the capacity of existing cellular networks and could enable cellular carriers to greatly broaden the levels and types of services now available on cellular frequencies.

Nokia Mobile Phones, the largest manufacturer of mobile telephone terminals in Europe, is also currently involved in the development of phones based on Time Division Multiple Access (TDMA) technology. TDMA is expected to increase a system's capacity three times above that of the current analog Advanced Mobile Phone Standard (AMPS) network, whereas CDMA has the potential for a 20-fold improvement.

In addition to increased capacity, benefits of CDMA technology according to QUALCOMM include: enhanced voice quality, robust cell handoff, data communication and position location, better multipath resistance, fewer cell sites, inherent privacy, longer talk time for portables, and a flexible limit to the number of calls a cell can handle.

Nokia, which has operations worldwide, is also involved in developing equipment for the Pan-European digital network (GSM) due to be operational next year. It is also active in Personal Communications Network (PCN) activity.

QUALCOMM, which was founded in 1985 by Drs. Jacobs and Andrew Viterbi, is recognized worldwide for its contributions to cost-effective and workable products in digital communications. The company's telecommunications and teleprocessing research department has broken new ground in several key areas including mobile satellite communications, and interference-controlled signal processing for the cellular telephone industry using CDMA technology. The results of their work have provided for the development and manufacture of a wide range of communications components, equipment, services and systems for the U.S. government and commercial users worldwide.

Nokia-Mobira Inc., headquartered in Largo, Fla., is the U.S. arm of Nokia Mobile Phones. The Nokia Corporation's radio telephone experience and research and development date back to 1925. It was one of the pioneers in developing cellular telephony with its work in the Scandinavian market in the early 1980s. The Nokia Corp. is headquartered in Helsinki, Finland, and last year had revenues of more than $5.6 billion.

CONTACT: David N. Scott, 404-552-0074, or Dr. Mike Farese, 813-536-5553, both of Nokia US; K.P. Wilska of Nokia Europe, 358-24-3061 in Finland; or Pertti Kause of Nokia Europe, 358-24-3061 in Finland or 44-344-867-888 in the U.K.; or Karen Bowman of QUALCOMM, 619-587-1121, ext. 321.

#90308u0017 11/04/1990 ~United Press International

(NOV. 4) UPI - So now who's No. 1? Then again, who would want to be?

The top spot in the UPI Board of Coaches poll has been a curse of sorts this year as three different teams have held the highest ranking only to be knocked off.

Make that four.

Virginia, which held the No. 1 ranking for three weeks, had its 13- game regular season unbeaten streak end Saturday when Georgia Tech's Scott Sisson kicked a 37-yard field goal with seven seconds left, giving No. 14 Georgia Tech a thrilling 41-38 victory over the top-ranked Cavaliers.

Things weren't any easier for the nation's No. 2 team.

Fans in Lincoln's Memorial Stadium barely had time to proclaim the second-rated Cornhuskers as the country's best when Colorado's Eric Bieniemy rushed for four TDs in the fourth quarter, rallying the No. 7 Buffaloes to a 27-12 triumph.

--- AROUND THE COLLEGE SCENE ---

Wyoming fell to Colorado State 17-8, No. 17 Clemson smashed co-No. 24 North Carolina 20-3, No. 18 Michigan defeated Purdue 38-13, No. 20 Oregon outlasted UCLA 28-24, No. 21 Penn State busted West Virginia 31- 19, No. 22 Louisville cruised by Cincinnati 41-16, No. 23 Southern California was tied by California 31-31, and co.-No. 24 Texas A&M whipped SMU 38-17.

At East Rutherford, N.J. Rodney Culver, Ricky Watters and Rick Mirer scored third-quarter touchdowns and the Fighting Irish scored 42 second- half points to break open a tight game. Raghib ''Rocket'' Ismail caught six passes for 173 yards and accounted for 219 yards in total offense for Notre Dame, 7-1. Navy sunk to 3-5.

At Gainesville, Fla., Terence Barber's returned a punt return 73 yards for a TD and the Gators scored 27 points in the second quarter to rout the Tigers. Auburn fell to 6-1-1 overall and 3-1-1 in the SEC. Florida, 7-1 overall and 4-1 in the league, is ineligible for the SEC championship or a bowl appearance due to NCAA sanctions.

At Seattle, Mark Brunell threw a pair of touchdowns and ran for another to help the fifth-ranked Huskies earn the Pac-10 championship and a Rose Bowl berth. Huskie running back Greg Lewis ran for 103 yards - his 10th straight game over 100 yards. The Huskies, 8-1 overall and 6- 0 in Pac-10 will be going to their first Rose Bowl since 1982. Arizona is 6-3 and 4-3 in league play.

At Champaign, Ill., Nick Bell carried 22 times for 168 yards and two touchdowns to give the Hawkeyes the inside track to the Rose Bowl. Bell scored on runs of 1 and 26 yards, and running back Tony Stewart rushed for another 101 yards and a TD against the conference's top-ranked defense. Iowa improved to 7-1 overall and 5-0 in the Big Ten, while the Fighting Illini had a six-game winning streak snapped.

At Miami, Craig Erickson passed for 355 yards and two touchdowns and Leonard Conley ran for two scores as the Hurricanes blew out the Panthers. The Hurricanes, 6-2, stayed in the New Year's Day bowl hunt by rolling up a 31-0 halftime lead and coasting. Erickson finished 22 of 35 for 355 yards. Pittsburgh is 3-5-1.

At Colorado Springs, Colo., Ty Detmer passed for 397 yards and three touchdowns in the snow to help the Cougars improve to 6-1 and 5-0 in the WAC. Detmer completed 30 of 43 in temperatures that hovered in the mid- 20's. Air Force is 4-5, 2-4.

At Knoxville, Tenn., Roland Poles ran for three scores and leading rusher Tony Thompson added two TDs to carry the Volunteers. Tennessee, 5-1-2, racked up 487 yards of offense against the Owls, 4-4. Thompson ran for 120 yards on 19 carries.

At Columbia, S.C., Amp Lee ran for 93 yards and three touchdowns on runs of 5, 11 and 13 yards for the Seminoles, 5-2, who played before scouts from the Citrus, Hall of Fame, Independence, Gator and Blockbuster bowls.

At Lubbock, Texas, Boone Powell and Lance Gunn returned fourth- quarter interceptions for touchdowns to ruin a Texas Tech upset bid and bring the Longhorns victory. Texas stayed unbeaten in four Southwest Conference games and set up next week's matchup with the Houston Cougars.

At Baton Rouge, La., Randy Baldwin scored three first-half touchdowns and the Rebels held on to down the Tigers. The Rebels 8-1 and 4-1 in the SEC, spoiled LSU's homecoming and dropped the Tigers to 4-4 and 2-3. The Rebels are in the driver's seat for the SEC's Sugar Bowl berth.

At Fort Collins, Colo., linebacker Eric Tippeconnic returned an interception 33 yards for a touchdown with 1:29 to play and Colorado State's defense turned back several Wyoming comeback attempts in the second half as the Cowboys dropped to 9-1. Colorado State improved to 6- 3 overall and 5-1 in the WAC.

At Clemson, S.C., Ronald Williams ran 19 yards for one touchdown and Dexter Davis returned an interception 30 yards for another score. Clemson improved to 8-2 overall and 5-2 in the ACC while the Tar Heels are 5-3-1 overall and 2-2-1 in the ACC.

At West Lafayette, Ind., Allen Jefferson ran for three touchdowns and the Wolverines converted three Purdue turnovers into touchdowns. Jefferson scored on runs of 1, 2 and 3 yards for Michigan, which rose to 5-3 overall and 3-2 in the Big Ten.

At Eugene, Ore., Bill Musgrave threw for 224 yards and the 16-yard winning touchdown pass to Vince Ferry with 2:01 remaining in the game to help the Ducks in a Pac-10 game. Musgrave, playing in his final home game, finished his four-year career at 19-1 at home in games he started and finished. Oregon is 7-2 overall and 3-2 in the Pac-10. UCLA falls to 4-5 and 3-3.

At Morgantown, W.Va., Tom Bill passed for a touchdown and rushed for another to lead the Nittany Lions to their sixth straight win. Bill replaced starting quarterback Tony Sacca on Penn State's third possession after an ineffective first quarter. The Nittany Lions, 6-2, played before scouts from the Sunkist Fiesta, Florida Citrus, Gator, Cotton, Hall of Fame, John Hancock and Blockbuster bowls. West Virginia fell to 3-5.

At Cincinnati, Anthony Cummings set a school record with five touchdown catches to pace the Cardinals over the Bearcats. Louisville, 8-1-1, which closes the regular season next week against Boston College, is shooting for its best record since a 9-1 mark in 1972. The Cardinals last went to a bowl in 1977.

At Los Angeles, Mike Pawlawski threw a 10-yard touchdown pass to Brian Treggs with 82 seconds left and Robbie Keen kicked the extra point to give the Golden Bears a tie with the Trojans. The tie left the Trojans 6-2-1 overall and 3-2-1 in the Pac-10. Cal, with two ties but no victories against USC in Los Angeles since 1970, is 5-3-1 and 3-2-1 in the conference.

At Dallas, Darren Lewis gained 207 yards and scored four times to become Texas A&M's career touchdown leader. Lewis became the Southwest Conference's all-time leading rusher last week and boosted his career total to 4,660 yards - 12th best in NCAA history. The Aggies are 6-2-1 overall and 3-1-1 in the SWC. SMU has lost seven straight.

(NOV. 4) UPI - President Bush told a college crowd to ''give me more Republicans.'' Bush made the appeal Saturday as he campaigned for the Republican candidate for California governor, Pete Wilson. Former President Reagan and comedian Bob Hope also appeared with Wilson. The Democratic candidate for governor of California... Dianne Feinstein... made a whistle-stop campaign swing with actors Chevy Chase, Jill Eickenberry and Michael Tucker.

Democratic National Chairman Ron Brown predicts his party will gain eight to 10 House seats in Tuesday's election and at least hold onto the current margin in the Senate. At the worst, Brown predicts the Democratic Party will hold its current 10-seat advantage in the Senate. Brown made the predictions Saturday in Salem, Oregon, where he campaigned for Democratic candidates.

Brown dismissed as ''nonsense'' Republican claims that G-O-P losses in the House should be expected because the party holding the presidency usually loses congressional seats in mid-term elections.

Grand jury testimony in former thrift owner Charles Keating's case has been made public in Los Angeles. A federal regulator testified that Keating told him two years ago that Lincoln Savings and Loan faced a two-BILLION-dollar loss- even though the parent firm said it was fiscally sound. The government took over Lincoln and Keating was indicted earlier this year.

The federal government conducted an undercover audit... and determined the vehicle exhaust testing program in the Detroit metropolitan area is the worst in the nation. The Environmental Protection Agency concluded that procedures are consistently violated at Detroit-area testing sites, the Michigan Secretary of State's Office inadequately polices the program and exemptions are too broad.

A tougher drunken driving law went into effect in Massachusetts this weekend. The law is named for a 10-year-old girl killed by a man with four convictions in New Hampshire. Governor Michael Dukakis signed the Lacey Packer bill Friday. Dukakis says the bill will make it almost impossible for people with out-of-state drunken driving records to get or keep Massachusetts licenses.

A storm dropped snow on the central and northern Plains Saturday while the East Coast had record-high temperatures. Up to 15 inches of snow fell in the Colorado Rockies by daybreak. Nebraska got up to eight inches of snow. The thermometer hit 76 in Boston, 77 in Concord, New Hampshire, and 78 in New York City. The National Weather Service says the cold will reach the East Monday.

ALEXANDRIA, Egypt (NOV. 4) UPI - French President Francois Mitterrand, in Egypt to inaugurate a French-speaking African university in the Mediterranean city of Alexandria, discussed developments in the gulf Sunday over breakfast with his Egyptian counterpart, Hosni Mubarak.

Mitterrand arrived in Alexandria Saturday evening to take part in Sunday's inauguration ceremony of the international university, the first of its kind on the continent, and was also expected to offer Egypt partial relief on its $50 billion foreign debt.

President Abdou Diouf of Senegal, President Moboto Sese Seko of Zaire and Mubarak were also expected to take part in the ceremony.

''Mitterrand and Mubarak held two hours of talks over breakfast on the Gulf crisis and other issues of mutual interest,'' a diplomatic source said.

The source said Mubarak expressed his concern to Mitterrand that countries such as Iraq were still using force to achieve their aims, and told the French leader that the international community should shoulder its collective responsibility in rejecting aggression and making sure it doesn't pay.

Iraq has picked out France as a country it describes as adopting a less hostile stance to Baghdad in the gulf crisis, and last week unilaterally freed some 300 French hostages.

The diplomatic source said Mitterrand would be explaining France's view on the gulf crisis and a settlement of Middle East issues such as the Palestinian problem, once Iraqi troops have withdrawn from Kuwait.

Iraq has tried to exploit what it perceives to be a weakening in the alliance confronting it.

The United States, Britain and Egypt have all insisted that there is no link between Saddam Hussein's occupation of Kuwait and Israel's occupation of Arab lands. But all three states have conceded that priority should be given to the Arab-Israeli conflict but only after Iraqi withdraws its troops from Kuwait.

After the Alexandria ceremony, the four presidents were expected to take the opportunity to discuss a wide range of issues, including developments in the Gulf crisis.

The new university, called Senghor University after the former Senegalese President Leopold Senghor, was created with funds from African states, international organizations and French-speaking countries.

Although Arabic is the language of Egypt, many people in Alexandria speak French and the city was once a center of learning on the African continent.

Officials said the university will have 81 students in its first year, all of whom will study environment-related subjects taught by professors from Canada, Switzerland, Belgium, France and Egypt.

#90308u0182 11/04/1990 ~United Press International

MANILA, Philippines (NOV. 4) UPI - President Corazon Aquino warned Sunday she will not allow violence to break out in a planned general strike this week and ''blackmail'' her government into granting labor demands for higher wages.

In her taped weekly radio talk show, Aquino refused to meet with leaders of labor groups who staged a violent general strike last week to press demands for an increase of $1.48 on top of the daily minimum wage of $3.46.

''I wish to warn any group trying to scare our government with a new bloody general strike,'' Aquino said. ''I will not allow this kind of blackmail.''

The leftist May First Movement, which led the three-day strike, was blamed by government for instigating the burning of 24 vehicles, mostly passenger buses, and bombing of facilities last week. Police have filed sedition charges against leaders of the leftwing union.

The strike also left four people killed.

For the violence, Aquino had blamed the 19,000-member communist New Peoples Army rebels, who openly vowed support for the strike for the first time.

''Another violent strike will not in any way advance the valid cause of labor '' Aquino said. ''It will only present another fertile opportunity for the NPA to sow terror in the streets of our cities.''

#90308u0184 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State James Baker arrived in Bahrain Sunday on an 8-day Mideast-European tour to sound out the allies on the use of force against Iraq and boarded a helicopter to inspect U.S. troops in Saudi Arabia, U.S. officials said.

Baker arrived in the Persian Gulf island state from Washington and was later expected to visit Saudi Arabia for key talks with Saudi leaders. More than 300,000 U.S.-led multinational troops are stationed in Saudi Arabia, which insists on the final word on any military strike against Iraq from its territory.

Baker's tour began a day after Iraq offered to free all the estimated 4,000 foreigners in Iraqi custody if at least two U.N. Security Council members promised not to use military force against Baghdad.

In other developments Sunday, three French soldiers captured by Iraq near the border with Saudi Arabia arrived in Paris. A French officer and two non-commissioned troops may face punishment for straying into Iraqi territory and allowing themselves to be captured.

The French troops returned to Paris via the Jordanian capital Amman, the same route used by four ailing American hostages after their release Saturday.

Also on the hostages front, former Japanese Premier Yasuhiro Nakasone held talks in Baghdad with Iraqi Deputy Premier Taha Yassin Ramadan and was to meet with Foreign Minister Tariq Aziz later Sunday in efforts to free Japanese hostages in Iraq.

Nakasone said he was pleading for all hostages, not just Japanese. Former German Chancellor Willy Brandt was a similar visit to plead for Germans held hostage.

In Tunis, Palestine Liberation Organization leader Yasser Arafat said the gulf crisis forced the PLO to slash expenses by a third but that aid for the Palestinian uprising in the Israeli-occupied territories would stay the same.

In Cairo, Arab diplomatic sources said Egypt requested postponement of an Arab League summit to be held in the Egyptian capital later this month. The sources said despite Soviet leader Mikhail Gorbachev's call for an inter-Arab solution to the gulf standoff, Cairo feels there has been no positive developments since the last summit Aug. 12 to justify a new meeting.

Egypt fears pro-Iraqi members of the Arab League would turn a summit without an agenda into a battle of insults.

In Damascus, local radio quoted Syrian newspapers as saying the military option against Iraq for its Aug. 2 invasion of Kuwait is ''a must'' after Iraq's rejection of all diplomatic efforts to settle the standoff over the past three months.

''Iraq will have to bear full responsibility for the outcome of war,'' the state-owned Syrian radio said. The radio quoted Syrian leader Hafez Assad, who with Egypt and Morocco has sent troops to the gulf, as saying Iraq's aggression against Kuwait had distracted attention from the Arab- Israeli conflict.

Also in Damascus, Iranian Vice President Hassan Habibi and his Syrian counterpart, Abdel Halim Khaddam, met for a second day Sunday on the gulf crisis, Damascus Radio reported. Iran opposes Iraq's annexation of Kuwait but has also criticized the preesence of U.S. troops in the volatile region.

Egyptian President Hosni Mubarak told visiting French President Francois Mitterrand, in Alexandria, Egypt, for the opening of Africa's first French-speaking university, that the international community must make sure Iraq's aggression against Kuwait pays no dividends.

One U.S. diplomat in the region told United Press International that Baker mission is intended to establish ground rules should the military option become necessary.

''Baker's mission on this tour is not to get a green light from Arab and European allies to launch a military strike against Iraq,'' the diplomat said. ''Rather, it is to listen to their opinions on the use of such an option s a last resort and to establish some kind of ground rules for the use of the military option as a last resort.''

#90308u0223 11/04/1990 ~United Press International
(NOV. 4) UPI - Around the world... around the clock... the latest news from U-P-I.

President Bush has NOT replied directly to the latest word from Iraq... that Iraq is willing to trade all its foreign hostages for a guarantee it WON'T be attacked. But Bush did say Saturday he wants to stop Saddam Hussein from being ''the neighborhood bully'' in the Persian Gulf. None of the other countries Iraq named have replied, either.

Iraq released four American hostages Saturday. All four are men who are ill. They flew out of Baghdad after their release was negotiated by private groups. Iraq also released three French soldiers who were captured Monday. An estimated four-thousand foreign men are still being held hostage in Iraq and Kuwait.

President Bush and former President Reagan lined up behind the Republican candidate for California during the final weekend of the close campaign. Bush and Reagan made appearances with Pete Wilson, who is in a tight race with Democrat Dianne Feinstein, former San Francisco mayor.

At a campaign rally on the campus of California Lutheran University in Thousand Oaks... Bush praised Wilson's leadership in the Senate on the issues of environmentalism and criminal law reform. Bush said the Democrats are choking progress in those areas.

Democratic National Chairman Ron Brown believes Democratic congressional candidates will do all right Tuesday. Brown predicts the Democrats will gain eight to 10 House seats and at least keep their current edge in the Senate. Brown said the Democrats are most likely to pick up Senate seats in Oregon, North Carolina and Kentucky.

The Motor City... Detroit... is being criticized for its program to test vehicle exhausts. The Environmental Protection Agency conducted an undercover audit. And the E-P-A found the Detroit area's program the worst in the nation. The E-P-A says Detroit is at least 50 percent short of meeting minimum pollution reduction goals.

A radical Hindu group in India says it will call a one-day general strike in New Delhi tomorrow. The strike will be to protest the deaths of Hindus who have been killed in violence that erupted because of Hindu plans to build a temple on the site of a Moslem mosque. More than 170 people have been killed.

Japanese police say hundreds of dolphins beached themselves on a small island in what appears to be a suicide attempt. Many of the dolphins died... despite the attempts by Japanese fishermen to drive the dolphins back into the East China Sea.

#90308u0230 11/04/1990 ~United Press International

MANILA, Philippines (NOV. 4) UPI - Former Philippine First Lady Imelda Marcos who was reported to have reached a deal with government repatriating part of her family's wealth, has offered to return all her late husband's riches, a newspaper said Sunday.

The independent Manila Standard said Mrs. Marcos made the offer in exchange for Manila's permission to allow her to return. The Standard said it interviewed Mrs. Marcos by telephone from her Beverly Hills hotel in Los Angeles Saturday.

Mrs. Marcos and her late husband Ferdinand, who was overthrown in a civilian backed military uprising in February 1986 and forced into Hawaiian exile, were alleged to have stolen upwards of $10 billion during the late dictator's 20-year rule.

President Corazon Aquino's government has banned the return of the Marcoses for security reasons.

David Castro, chairman of the presidential commission on good government which was tasked with recovering the Marcos's wealth, announced last week the government of President Corazon Aquino was concluding a deal with Mrs. Marcos repatriating 60 percent of the cash and gold in five Hong Kong banks.

Aquino said Friday in a statement to reporters the deal ''concerns sums of money held under names of nominees.''

''All the wealth of President Marcos, and my life as well, I dedicate for the betterment of all Filipinos,'' Marcos was quoted to have said by the Standard in the local Tagalog dialect.

''I am coming home to dedicate my life and my husband's legacy to rebuild the country and provide a better life for all Filipinos.''

Aquino also said ''the projected settlement does not entail dropping civil

cases (against the Marcoses) in the Philippines, but possibly civil cases in the United States only, if the amounts are significant.''

Aquino declined to say if the deal allowed Mrs. Marcos to return but said criminal cases are not part of the settlement.

The government has lodged some 47 civil suits in the Philippines against the Marcoses and their ''cronies'' in an effort to recover the alleged ill-gotten wealth stashed in local and foreign banks, but have avoided filing criminal suits against Imelda and her children.

Philippine law calls for presence of the accused in criminal suits.

Castro said the Philippines, saddled with a $27 billion foreign debt, has realized it would take a long time for the courts to settle government claims against the Marcoses.

In July, a New York federal district court acquitted Mrs. Marcos of charges she stole more than $200 million during her husband's9jured by stones dropped from an army helicopter, Palestinian sources said. The army spokesman had no information on the reports that a helicopter had dropped stones.

Military sources reported that 27 Gaza residents had been wounded Sunday and 88 Saturday.

The entire Gaza Strip was declared a closed military zone, preventing journalists from entering. In addition, curfews were imposed on two villages and three refugess camp, confining about 150,000 Palestinians to their homes.

Alzaneen's family refused to accept the prisoner's body from the army for burial until an independent autopsy was performed to determine the cause of death.

In a separate development, the Israeli Cabinet decided to reject a report by U.N. Secretary-General Javier Perez de Cuellar suggesting that the signatories of the Geneva Convention meet to discuss Israel's occupation of the West Bank and Gaza Strip. Perez de Cuellar submitted the report to the Security Council after Israel refused to accept a U.N. delegation to investigate at the Al Aqsa Mosque on the Temple Mount riots.

#90308u0329 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State James Baker arrived in the Gulf state of Bahrain today to begin a tour of the Middle East and Europe. U-S officials say Baker will try to get support from the allies for the use of military force against Iraq. One diplomat said force would be a last resort and Baker also will discuss the use of more economic and political pressure. From Bahrain,

Baker made a quick helicopter trip to Saudi Arabia, inspected U-S troops and returned to Bahrain.

Voters in Oregon and Nevada Tuesday will have to face abortion issues. Voters will decide whether to amend the Oregon constitution to prohibit abortion except in cases of rape or incest or where the mother's life is threatened. Oregon voters also will be asked if doctors should notify parents before a minor can have an abortion. Nevada voters will be asked to establish the right to an abortion in the state constitution.

Higher air travel prices will keep people on the ground. David Swierenga of the Air Transport Association says passenger traffic will fall three to four percent next year because of fare increases. The industry had been growing seven percent a year. Swierenga said- ''The situation is really grim looking.'' Ticket prices have increased about 15 percent since August because fuel costs were pushed up by the Iraqi invasion of Kuwait.

Snow whitened the central and northern Plains yesterday. A storm dumped heavy snow in the central Rockies of Colorado. Heavy snow also fell in parts of Kansas, Nebraska and South Dakota. Rain fell in the southern Plains and was expected to change to snow in parts of Kansas, Oklahoma and Texas. The East enjoyed record high temperatures.

South Africa has appointed Harry Schwarz as the new ambassador to the United States. Schwarz is a liberal Democratic Party member of parliament and a critic of apartheid. Foreign Minister R.F. Botha announced his appointment, to begin early next year. Schwarz says the nine months of President Frederik de Klerk's reforms indicate that South Africa's racial segregation is on the way out.

Police in Leipzig, Germany, opened fire during a riot outside a soccer stadium yesterday and killed one person. Three people were injured. A police spokesman said the police were under intense attack by mobs throwing stones. The police say they made more than 80 arrests. The riot began before the start of a soccer game and lasted for several hours.

The New York Daily News denies charges that it is giving free copies to homeless people to sell so it can hold onto circulation during a strike. 14 groups advocating rights for the homeless called the News action ''the lowest form of exploitation imaginable.'' A News spokeswoman denied the charges. Nine unions are on strike against the News.

#90308u0336 11/04/1990 ~United Press International

ALBANY, NY (NOV. 4) UPI - In light of a recent report that one out of every five attorneys suffers drug and alcohol dependency, professional groups are implementing a number of programs to deal with the problem.

There are about 60 major organizations nationwide with programs to help attorneys and judges impaired by drug and alcohol abuse, said Ray Lopez, director of the New York State Bar's Lawyers Assistance Program.

A recent survey by the American Bar Association found nearly one in every five attorneys struggles with some form of addiction, about twice the national average for other professionals.

The survey also found one in five female lawyers, growing increasingly dissatisfied with their careers, consumes six or more drinks a day.

Lopez said the profession itself makes attorneys vulnerable to substance abuse.

''It's a pressure cooker. There's a lot of stress involved in being a lawyer. If you win a case you're a hero; if you lose a case you're a goat,'' he said. The main thing people need to understand is the abuser ''abuser

Job dissatisfaction is another factor, said Lopez.

''The reality with being a lawyer in the field is at odds with what they learn in law school. There's a tremendous amount of competition,'' he said. ''You don't get into the financial bracket you thought you could get. It's also not the same intellectual process that you had in law school.''

The New York program began in July and is already making inroads, Lopez said. A toll-free number averages 150 calls a month in a state that has 92,000 attorneys - 18,000 who may be drug- or alcohol-impaired.

David Pfalzgraf, chairman of the state Bar's Committee of Lawyer Alcoholism and Drug Abuse, said alcoholic lawyers will not stop until they reach bottom, but there is hope.

''That bottom can be raised before the lawyer loses his partnership or his family, or has been indicted for failure to file his income tax,'' he said.

He said one method is to hold a meeting, known in the medical profession as an intervention, with a partner, spouse, the lawyer's best client and a judge.

''After a bit of rehearsal, the lawyer is brought into the room where the people are sitting and he listens to what they have to say. They don't talk about his drinking. They talk about how his actions have affected them,'' he said.

''He'll listen to a partner complain that he's sick of covering court for him for an entire afternoon. Or his wife may say she's embarrased to phone the office and lie about her husband going to ... court when in fact he's in bed

'' said Pfalzgraf.

Then comes phase two, he said.

''The lawyer says he'll dissolve the partnership, the client says he's going to another lawyer, the wife calls for a separation. Typically, his wife already has his bags packed and he's taken to a rehabilitation center,'' Pfalzgraf said.

''All the excuses are taken away. The bottom is raised. He still has his job, his client, his family and his credit.''

Donald Muccigrosso, an Oregon attorney, established one of the first lawyer substance abuse programs in 1982.

''We started it as part of a malpractice fund for the Oregon Bar,'' he said. ''Malpractice claims are caused in large part by lawyer alcoholism or drug addiction. So we started the program as a way of keeping down claims.

''We try to catch them before they're in the discipline process, before they create the malpractice.''

The Other Bar, based in Oakland, Calif., is a statewide group of recovering attorneys helping others. Ronald Mulhall, who helps run the program, said he only learned his life was out of control when he lost his license to practice.

''We are highly educated people, which is our biggest problem. We think we are better than everyone else,'' he said.

In Washington, D.C., the Lawyer Counseling Program is tied into disciplinary boards for attorneys and judges. Director Susann Makepeace advises a group of 40 peer counselors made up of recovering attorneys.

#90308u0362 11/04/1990 ~United Press International

NEW YORK (NOV. 4) UPI - Saudi Arabia's oil production surpassed 8.2 million barrels a day this week and is expected to rise to 8.5 million barrels by early next year, the highest in nine years, The New York Times reported Sunday.

Saudi Oil Minister Hisham Nazer also told The Times production levels since the Iraqi invasion of Kuwait on Aug. 2 has been higher than previous official estimates.

The rise in Saudi oil production, along with increases by other members of the Organization of Petroleum Exporting Countries, such as the United Arab Emirates, Libya, Nigeria and Iran, means the loss of 4 million barrels a day from Kuwait and Iraq as a result of the United Nations economic embargo has

already been made up, the newspaper said.

The Times said the significance of the Saudi increase was underlined by the fact that virtually all other major producers within OPEC and outside it, including the Soviet Union, Norway and Britain, have in the views of oil experts reached the limits of their capacity.

The increase in Saudi production and a drop in consumption of about 1 million barrels a day because of higher prices means that despite the embargo on Kuwaiti and Iraqi oil, the world supply may be a little more than it was before the Persian Gulf crisis began in August.

Oil experts told the Times that unless war broke out in the gulf, the additional flow of Saudi oil would send prices significantly below their present level of $34 a barrel by February, which should lead to a drop in retail prices of gasoline and home heating oil.

The newspaper said fears of a shortgage, rather than actual shortages, have driven prices up, creating what experts called ''a psychological premium.''

The Times said Saudi and American officials also expressed confidence that Iraq would not be able to stop Saudi oil exports if a war broke out, especially in view of the fact it was unable to halt Iranian exports in eight years of war despite the daily bombardment of Iran's oil installations.

The increase in Saudi production came much faster than expected, the newspaper said, and if production reaches 8.5 million barrels a day by February the country would be producing 57 percent more oil than before the Iraqi invasion.

#90308u0367 11/04/1990 ~United Press International

(NOV. 4) UPI - At least five people have been killed in a bus accident in South Korea. The bus collided with a truck and crashed into a reservoir. 22 other people are missing and feared dead. Police say most of them probably were trapped in the submerged bus.

Secretary of State James Baker has begun an eight-day tour of the Mideast and Europe to seek support from allies for use of military force against Iraq. His first stop is the Persian Gulf state of Bahrain.

Three French soldiers who were captured near the Saudi-Iraq border returned to Paris today. Iraq turned them over to the French Embassy in Baghdad. Iraq says they strayed into Iraqi territory.

Nearly 100 nations are expected to send representatives to a conference opening in Geneva, Switzerland, tomorrow on global warming. They will discuss reducing industrial pollution linked to the greenhouse effect.

Abortion issues will be on the ballots in Oregon and Nevada Tuesday. In Oregon voters will be asked to prohibit most abortions. Nevada voters are asked whether the right to an abortion should be in the state constitution.

-30- 1263

#90308u0372 11/04/1990 ~United Press International

WEST PALM BEACH, FL (NOV. 4) UPI - Lenders are forcing Donald Trump to auction more than 100 unsold condominium units at the Trump Plaza of the Palm Beaches in order to pay down his debt, a published report said Sunday.

Forty-five condos ranging in price from $229,200 to $1.8 million will be auctioned at discount prices Dec. 16 at The Breakers in Palm Beach, The Miami Herald said. Bids will start at $150,000.

The auction will be broadcast via satellite to bidders in New York.

Real estate agents said Trump may also be on the verge of selling Mar-a-Lago, the 118-room oceanfront estate he bought in Palm Beach for $10 million five years ago.

The mansion, which has 53 bedrooms, 33 bathrooms and three bomb shelters, is not officially on the market. It would be expected to fetch $30 million to $40 million.

The condo auctions are expected to net about $15 million, still more than $10 million short of what Trump owes on them.

Trump bought the Trump Plaza of the Palm Beaches out of foreclosure in 1986 for $40 million. Marine Midland Bank holds a $27.1 million mortage on the 221-unit complex, located on the Intracoastal Waterway.

The auction provision is part of a reprieve the bank granted Trump. His loan was due Oct. 22 and he had to deposit $1 million with Marine Midland to get it extended.

Trump has until Sept. 30, 1991 to get rid of the rest of the unsold units.

Fewer than half have been sold and there had not been a sale at the building in 10 months when a Boynton Beach gynecologist bought a condo for $400,000 on Oct. 1.

''The real estate climate is soft nationwide, indicating a need for more aggressive and innovative marketing approaches,'' Trump said in announcing the auctions.

William Lange, president of LFC Real Estate Marketing Services, the California

company hired to run the aucton, said ''No doubt the properties will be sold for less than the previous asking prices.''

Trump's recent financial woes center around his highly leveraged New Jersey casinos and New York real estate.

Two months ago, Trump negotiated a $65 million bank bailout to give him breathing room to repay his loans. He was forced to restructure $100 million in bank loans to the Taj Mahal and Trump's Castle, another of his Atlantic City casinos, because they aren't generating enough cash to repay the debt.

He is currently negotiating with bondholders to restructure $675 million in Taj Mahal debt.

#90308u0402 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State James Baker paid a brief visit to American troops in Saudi Arabia today. Baker flew to the gulf island state of Bahrain to begin an eight-day tour of the Mideast and Europe. Then he went by helicopter to visit troops in Saudi Arabia. A diplomat says he chatted with troops about the standoff in the gulf and then returned to Bahrain.

At least five people were killed today in South Korea when a tourist bus collided with a truck and crashed into a reservoir. Police say 22 others are reported missing and feared trapped in the submerged bus. 15 others were injured. The accident happened about 75 miles northeast of Seoul. Police and soldiers launched a rescue operation.

Nearly 100 nations will be represented at a conference in Geneva, Switzerland, tomorrow on the threats of global warming caused by the greenhouse effect. Some nations will send their heads of state. The United States, a nation causing rising atmosphereic levels of carbon dioxide, is reluctant to embrace emission control.

Polish Prime Minister Tadeusz Mazowiecki says his presidential race with Solidarity founder Lech Walesa will be close. The election is November 25th. Mazowiecki is NOT predicting a winner. He told a newspaper the next Polish president should have strong powers and not be a mere figurehead. Mazowiecki said the president will have to shape foreign and defense policies.

Mozambique's parliament has approved a new constitution that will bring democracy to the southern African nation. The constitution allows opposition parties. Real changes are NOT expected until the ruling Frelimo party can negotiate an end to the civil war with the right-wing Renamo movement. They have been fighting for 15 years.

Texas Democrats say Republican Clayton Williams' admission that he paid no

income taxes in 1986 may mean doom for his gubernatorial campaign. Williams, a multi-millionaire, made the admission Friday. Democratic candidate Ann Richards' spokesman says Texans will find it difficult to understand why someone so rich paid NO taxes.

John Kennedy Junior has passed his New York State bar exam, which allows him to keep his job as an assistant district attorney in Manhattan. A New York newspaper says Kennedy passed the exam on his third try in July. He also has passed the Connecticut bar exam. Kennedy, the late president's son, had to pass the New York test or lose his prosecutor's job.

(NOV. 4) UPI - Secretary of State James Baker paid a brief visit to American troops in Saudi Arabia today. Baker flew to the gulf island state of Bahrain to begin an eight-day tour of the Mideast and Europe. Then he went by helicopter to visit troops in Saudi Arabia. A diplomat says he chatted with troops about the standoff in the gulf and then returned to Bahrain.

At least five people were killed today in South Korea when a tourist bus collided with a truck and crashed into a reservoir. Police say 22 others are reported missing and feared trapped in the submerged bus. 15 others were injured. The accident happened about 75 miles northeast of Seoul. Police and soldiers launched a rescue operation.

Nearly 100 nations will be represented at a conference in Geneva, Switzerland, tomorrow on the threats of global warming caused by the greenhouse effect. Some nations will send their heads of state. The United States, a nation causing rising atmosphereic levels of carbon dioxide, is reluctant to embrace emission control.

Polish Prime Minister Tadeusz Mazowiecki says his presidential race with Solidarity founder Lech Walesa will be close. The election is November 25th. Mazowiecki is NOT predicting a winner. He told a newspaper the next Polish president should have strong powers and not be a mere figurehead. Mazowiecki said the president will have to shape foreign and defense policies.

Mozambique's parliament has approved a new constitution that will bring democracy to the southern African nation. The constitution allows opposition parties. ROME (NOV. 4) UPI - A stone-throwing riot between hundreds of North Africans and Asians housed at a refugee center was finally broken up Sunday after five hours and 50 arrests, police said.

Officers called to the scene, an abandoned pasta factory where up to 2,000

immigrants sleep on mattresses in the sprawling complex, reported at least 20 injured people were taken to the hospital. Five police also were hurt, officials said.

Although they are unsure how the violence began, police said they brought in reinforcements after officers on duty around the fenced site reported that the immigrants had barricaded themselves in by locking the main gate.

Police said that several small fires were started during the disturbance. The rioters were finally dispersed with water hoses, officers said.

Police said that during a later search of the factory, they found certain rooms controlled by various religious or ethnic groups. Officials believe the violence began when opposing groups entered territory ''claimed'' by others.

Among the arrested were citizens of Morocco, Pakistan, Bengal, Tunisia and Algeria, police said.

BEIJING (NOV. 4) UPI - Government negotiators from Japan and North Korea reported little substantive progress Sunday at the end of two days of talks on ways to establish diplomatic relations, agreeing only to meet again later this month, Japanese officials said.

''There was nothing surprising,'' a Japanese official said after the second day of discussions concluded. ''But both sides showed an eagerness to continue talking.''

The talks, which began Saturday, were the first such meetings since the reclusive, hard-line communist government of North Korea agreed to begin negotiations toward an eventual normalization of diplomatic ties.

The Pyongyang government, which has also tried to ease tension with South Korea, is known to be interested in foreign economic aid and investment. Japan which has relations with Seoul, has had some trade and informal ties with North Korea for years.

The Japanese officials repeated North Korean negotiators had asked them not to disclose specifics of the talks, but said there were no firm agreements other than to meet again later this month.

The talks were held at the North Korean Embassy in Beijing Saturday and the Japanese Embassy Sunday. The Sunday talks lasted two hours, an hour more than planned, forcing Japanese officials to reschedule their flight home for later in the day.

The Japanese Foreign Ministry's six-member team was led by Sakutaro Tanino, director general of the ministry's Asian Affairs department. Chu Jin Guk, director of the first department of North Korea's Foreign Ministry, headed Pyongyang's delegation.

''We are not sure if the next round of talks will be the same group,'' a Japanese official said.

The weekend talks had aimed to agree on a time, place and agenda for full-scale bilateral talks, but officials said the next round would also be at the preliminary stage.

Informal ties between Japan and North Korea have been growing over the years and accelerated in September with the visit to Pyongyang of influential Japanese politician Shin Kanemaru.

North Korean President Kim Il-Sung promised Kanemaru during the trip he would accept talks aimed at normalizing bilateral ties.

In October, North Korea freed two Japanese seamen imprisoned for seven years on charges of espionage. Their fate had been a key obstacle to expansion of diplomatic ties.

ATHENS, Greece (NOV. 4) UPI - Demonstrators chanting ''Death to America'' marched through the streets of Tehran to the former U.S. embassy Sunday to mark the 11th enniversary of the embassy's capture by young radicals, the Islamic Republic News Agency said.

The marchers, who converged on the former U.S. embassy compound from several directions, chanted ''Death to America'' and set fire to the American flag at the embassy gates, an IRNA dispatch monitored in Athens said.

The demonstration, which was officially sponsored, marked the Nov. 4, 1979 seizure of the U.S. embassy compound by young radicals who stormed the gates and took the American staff hostage. The incident marked the beginning of the 444-day hostage crisis.

Nov. 4 also marked the anniversary of the exile to Turkey of the late Ayatollah Ruhollah Khomeini in 1963. The exile was ordered by the late Shah Mohammad Reza Pahlavi, who was himself forced into exile when Khomeini seized power in the 1979 revolution.

Iranian President Akbar Hashemi-Rafsanjani, in a speech broadcast on Tehran radio, said though Khomeini's 1963 exile was ordered by the late Shah, it was engineered by the United States.

Rafsanjani said before the embassy was captured in 1979, the United States was engaged in a conspiracy to restore its influence in Iran through the provisional government of former Prime Minister Mehdi Bazargan.

Bazargan resigned when the embassy was seized, but remained loyal to Khomeini until the ayatollah died last year.

The Iranian state radio said a message from Khomeini's successor, spiritual leader Ayatollah Ali Khamenei, was read at the former U.S. Embassy gates at the end of Sunday's march.

The message, heavily anti-American in tone, was read by Hojatoleslam Mohammed Khoeyniha, the cleric who acted as mentor to the young fundamentalists who seized the embassy in 1979.

Another hard-line cleric, Hojatoleslam Mehdi Karubi, used the occasion to make an anit-American speech in the Majlis or Parliament.

#90308u0530 11/04/1990 ~United Press International

OREGON, IL (NOV. 4) UPI - Two slow-moving Burlington Northern freight trains collided in northern Illinois early Sunday, derailing three locomotives and 11 cars and injuring three crew members, officials said.

At least one of the engines caught fire but Oregon firefighters doused the blaze from the 6:30 a.m. accident, authorities said.

Burlington Northern officials said no toxic materials were involved. Police spokesman Al Winstead said six people from two homes south of the crash were evacuated ''due to all the smoke.''

''An eastbound freight collided with a westbound freight that had cleared the main line at the train depot,'' Winstead said. ''The engine of the eastbound train struck the rear car of the westbound train.''

''Train No. 40, an intermodal train out of Minneapolis enroute to Chicago, was to meet train No. 47, an intermodal train out of Chicago destined for Minneapolis, with train No. 47, the westbound, taking the siding at Oregon,'' said Burlington Northern spokesman Wayne Gonyea, speaking from Galesburg. ''While westbound No. 47 was heading into the siding, eastbound 40 failed to stop and ran into the side of No. 47.''

He said the trains were to meet in the area and both were traveling at about 10 mph when they collided, derailing three locomotives of the eastbound train plus six cars, and five cars of the westbound freight.

''The eastbound 40's crew - realizing they would not stop in time - jumped from their train clear of the accident site,'' Gonyea said.

The three men - the engineer, conductor and brakeman - were treated for cuts and bruises at Rockford Memorial Hospital, about 20 miles to the northeast, a hospital spokeswoman said. Railroad officials identified by the men as conductor Lester R. Rochester of LaCrosse, Wis.; brakeman Gregory J. Fritsch of LaCrosse, Wis.; and engineer Howard. E. Jude of the Aurora area.

''It's true that train No. 40 should have stopped. Why it did not is under investigation,'' Gonyea said. Signal conditions and the crews' orders were being investigated. Routine drug tests of the crew of each train also had been ordered, he said.

Other crews were sent to the site to re-rail the cars and locomotives, he said.

#90308u0546 11/04/1990 ~United Press International

VATICAN CITY (NOV. 4) UPI - Pope John Paul II Sunday beatified four 19th century Roman Catholic nuns from upper-class families who dedicated themselves to helping the poor and suffering in Italy and France.

The four, Italians Elisabetta Vendramini (1790-1860) and Maria Schinina (1844-1910) and Frenchwomen Louise-Therese de Montaignac de Chauvance (1820-1885) and Marthe le Bouteiller (1816-1883), were honored during a ceremony in St. Peter's Basilica.

Beatification is a step on the road to sainthood in the church. Each member of the quartet founded an order of helping nuns.

''These women are the incarnation of the first and greatest commandment of the Gospel,'' John Paul said. ''The love in these four assumed a feminine and maternal form.''

The Polish pope added: ''The nuns discovered, day after day, the presence of God in all of the people with whom they came in contact.''

PORTLAND, OR (NOV. 4) UPI - Sinsemilla Tips, an international magazine for marijuana growers, is going out of business after 10 controversial years because of what its publisher calls a government-induced circulation slump.

Publisher Tim Alexander of Corvallis said Friday the magazine, which publishes its final issue this month, fell victim to shrinking circulation he blamed on ''drug hysteria and paranoia'' in this country.

''Ten months ago, our circulation was 20,000,'' he said of the quarterly printed in Portland. ''Now it's 4,000.''

Alexander tied the magazine's death to government anti-drug efforts such as last year's ''Operation Green Merchant,'' a nationwide series of raids on stores believed to be selling marijuana cultivation equipment. Alexander's Corvallis store, Full Moon, was among those raided.

He also criticized the media's coverage of drug issues, saying it amounted to ''one-sided government propaganda.''

Sinsemilla is the name of a potent strain of marijuana plant. The magazine included articles on topics such as recipes for marijuana brownies, the productivity of various marijuana seeds and the best growing techniques.

Most of the magazine's readers lived in the Western United States, Alexander said, although it was mailed throughout the country, as well as to Canada and Europe.

#90308u0566 11/04/1990 ~United Press International

MANAMA, Bahrain (NOV. 4) UPI - Secretary of State James Baker met with U.S. troops somewhere in Saudi Arabia Sunday and after answering questions on the future of the Persian Gulf standoff, praised the sacrifices U.S. troops and their families were making.

Asked how he felt being in Saudi Arabia, Baker said he was pleased U.S. troop morale was so good.

''They all seem upbeat, you saw the thumbs go up,'' Baker said in the meeting broadcast on Bahraini television. ''I think ... the main question is knowing what the future holds.

''That's the one thing that our people are asking more than anything else ... and of course that's something that right now can't be answered with a great deal of specificity. But I was impressed with the morale of these troops and their willingness to do what's requested to uphold the principles that we talked about.''

Asked what he thought about army rations after receiving a gift from the troops of an ''MRE,'' or ''Meal Ready to Eat,'' Baker said he had eaten a fair share in his time.

''It may come as somewhat of a surprise to know that I used to live on this stuff when I was in the Marine Corps, even though it was a little bit different then,'' Baker said.

''(Meals) were in cans then ... it wasn't a lot different, but I used to carry around with me - and it's a habit I acquired at that time and never lost - I used to carry a big bottle of hot sauce around with me.''

In a speech to 1st Team in Saudi Arabia, Baker said the administration appreciated their sacrifices and was proud of them.

''Men and Women of 1st Team, let me say that we appreciate your willingness to have us stop by to say hello today at the beginning of our trip to eight countries in seven days,'' he said.

''This is a long, long way from home, but I think that Americans are at home wherever our principles are. And that really is what this crisis is all about.

''All nations in the world have a right to be free, free from aggression, small nations as well as large nations ... it's an important principle, I think, that unprovoked aggression should not be rewarded,'' Baker said.

''The world made a terrible mistake in the 1930s when we were unable or refused to stand up to unprovoked aggression ... today we're facing the first real crisis of the post-Cold War era.

''We have an opportunity to establish - to participate in and establish - a whole new international order ... and we don't want to make the same mistake that we made in the 1930s.''

''Let me say we appreciate as well the sacrifice that your families are making in order for you to be here ... I want you to know that you are constantly on the mind of the leadership of the U.S. government as you do your part here to uphold principles in which we believe so very, very strongly.

''We're extraordinarily proud of you,'' Baker said.

#90308u0659 11/04/1990 ~United Press International

NEW YORK (NOV. 4) UPI - Striking Daily News workers handed out leaflets Sunday to spectators of the New York City Marathon, urging people to boycott the newspaper and its advertisers as the bitter strike against the nation's largest tabloid dragged on.

And despite calls from management and some union members to end the violence, police in the city and Long Island reported additional arrests Sunday.

A delivery truck driver with The New York Times delivery driver was arrested for causing an accident with a truck driven by a News replacement driver and then attacking him with a tire iron Saturday, and two men were picked up early

Sunday for vandalizing a News building on Long Island, police said.

Joseph Martin, 29, of 68 Crest Circle, Matawan, N.J., was arrested shortly after 8:30 p.m. Saturday and charged with criminal mischief, third-degree assault and criminal possession of a weapon, said a police spokesman.

Police charged that Martin rear-ended a truck being driven by replacement driver Joseph McGee, 43, of the Bronx, at West 65th Street between Amsterdam and Columbus avenues, said a spokesman for police, officer Scott Bloch.

Martin allegedly then attacked McGee with a tire iron during an ensuing scuffle. McGee was taken to Roosevelt Hospital with an ankle injury.

Hours later, Nassau County police said they arrested two men for ripping radio transmission wires off the side of a News building at 813 Jericho Turnpike in New Hyde Park at 2:45 a.m.

John Brucato, 46, of 158 Ocrendo Blvd., Valley Stream, and Joseph Orlando, 43, of 151 Arthur St., Massapequa Park, were charged with criminal mischief and criminal tampering, police said.

It was not immediately known if the two were members of the unions striking the News.

The strike, which entered its 11th day Sunday, has been marked from the start with violence, from delivery trucks being set afire on the night before the strike began to the firebombing of a Queens newsstand Friday. No arrests were made in the firebombing incident.

The News announced Saturday it would offer rewards ranging from $500 to $5,000 for help leading to the arrests or convictions in documented cases of ''events perpetrated by union members.''

Newspaper Guild members passed out leaflets along the marathon route urging people not to buy the News, and striking reporter Tom Robbins said the boycott was picking up steam after a week of boisterous rallies in front of the newspaper's Midtown headquarters.

''The mood swing (among Guild members) has been remarkable,'' Robbins said. ''People truly feel the momentum, and are ceasing to be paralyzed and petrified by management's threats. We've evolved strategies that are effective and you don't see the paper for sale. They're being forced to give it away.

On Saturday, homeless advocates charged that the News was exploiting the homeless by giving them free copies of the tabloid to sell.

A News spokeswoman, Lisa Robinson, said, ''It's absolutely untrue. We are not giving newspapers to the homeless and asking them to sell them.''

The News, unable to distribute many of the 875,000 to 1.6 million papers it prints daily, resorted to giving away 200,000 copies of the newspapers a day. One company official told the New York Times that only ''50 to 65 percent'' of the press run was reaching readers.

Robinson insisted Saturday that management was ''ready and willing'' to resume negotiations, while a Newspaper Guild spokesman said the newspaper has refused to schedule meetings. She was unavailable for comment Sunday.

Many Guild members, meanwhile, were attending the funeral of Joel Burton, a striking News copy editor who dropped dead of a heart attack Friday in the Guild headquarters.

Burton had just posted a notice asking strikers to make contributions in his mother's memory to a fund for striking Greyhound drivers when he collapsed. His mother had died on Wednesday.

#90308u0692 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State Baker told U-S troops in the multi-national peace- keeping force in Saudi Arabia that the future is uncertain. Baker is on an eight-nation, seven-day Mideast-European tour that opened in Bahrain. Baker rode a helicopter to meet troops of the First Cavalry Division near the Iraq-Saudi border.

Baker also told the American soldiers that the world made a mistake in NOT standing up to Adolf Hitler's aggression in the 1930's and would NOT make the same mistake with Saddam Hussein in the 1990's.

King Hussein of Jordan flew from Amman to Paris today for talks with French President Francois Mitterrand, who is to return to the French capital from Egypt tomorrow. A radio report in Jordan says Hussein talked with the Iraqi foreign minister by telephone before flying to Paris.

Palestinian sources report that Israeli soldiers shot and wounded about 100 Arabs in new fighting today in the occupied Gaza Strip. The new round of violence erupted yesterday in Gaza, where one Palestinian was killed and another 123 people were wounded.

Philippines President Corazon Aquino is warning that she will NOT allow violence to break out around a planned general strike called this week to back demands for higher pay.

A Manila newspaper says former Philippine first lady Imelda Marcos has offered to return all her late husband's riches to the nation in exchange for permission to return herself.

A radical Hindu group in India says it will launch a one-day general strike to protest the deaths of devotees in violence that surrounds the group's campaign to tear down a Moslem mosque to build a Hindu temple.

Distance runner Stan Cottrell and disabled Vietnam veteran Patrick McClary have completed what they billed as a ''friendship run'' from Phnom Penh in Cambodia to Ho Chi Minh City in Vietnam. An organizer says the 200-mile run was completed without incident yesterday.

A New York report says John Kennedy Junior has passed the state bar examination on his third try and thus will keep his job as an assistant district attorney in Manhattan.

-30- 2269

#90308u0761 11/04/1990 ~United Press International

GUATEMALA CITY, Guatemala (NOV. 4) UPI - Guatemalan presidential candidates planned major rallies Sunday to wind up an election campaign marked by violence and a legal battle over a former military ruler's unsuccessful bid to run for office.

Newspaper publisher Jorge Carpio Nicolle, 58, and former Guatemala City Mayor Alvaro Arzu Irigoyen, 44, had scheduled gatherings in the capital, where the majority of the country's 3.2 million registered voters are expected to cast ballots in next Sunday's general elections.

Efrain Rios Montt, a retired general who was leading in opinion polls when the courts rejected his candidacy last month, planned an appearance after several weeks absence, with advisers saying he will appeal to voters to cast unmarked ballots.

Rios Montt, who ruled Guatemala for 16 months following a military coup in March, 1982, was banned from running under a 1985 constitutional article that bars former coup leaders from taking office.

In a Newsweek interview, Rios Montt said he is ''fighting to install a state that respects individual rights. Before, I was all-powerful. Now the people would be all-powerful.''

After much legal wrangling, the Supreme Court upheld a decision by electoral uthorities to reject his candidacy.

Carpio stuck to campaign themes late Saturday when he told an estimated 5,000 cheering supporters that his government would clamp down on violence and corruption, curb inflation and improve living standards.

Rally organizers asked for a minute of silence to honor activists from

Carpio's National Center Union Party slain during the bloody election campaign.

Party spokesman Jorge Canale said at least six activists were killed, including a congressional deputy and a mayoral candidate.

Arzu ends his campaign with a rally in the central plaza late Sunday.

The former mayor, who founded the center-right National Advancement Party, has campaigned on the theme of administrative competence, refraining from harsh and frequent criticism of outgoing President Vinicio Cerezo's government.

Alfonso Cabrera Hidalgo, candidate for the ruling Guatemalan Christian Democratic Party, remains under medical care for an inflamed pancreas at the Methodist Hospital in Houston. It is not known when the former foreign minister will return to Guatemala.

Voters will elect a president and vice-president for a five-year term, 116 congressional deputies, representatives to a Central American parliament and 300 mayors.

If no presidential candidate wins a majority of the votes, the top two contenders will enter a runoff election Jan. 6. Most political observers predict Carpio and Arzu will carry the race to a second round.

#90308u0778 11/04/1990 ~United Press International

KUALA LUMPUR, Malaysia (NOV. 4) UPI - Fifty-two Vietnamese boat people who fled their homeland seeking a better economic life returned voluntarily Sunday after receiving financial incentives under a U.N. repatriation program, officials said.

The departures brought to 236 the number of refugees who have voluntarily returned to Vietnam from Malaysia since March 1989, said Marion Hoffman, a U.N. High Commissioner for Refugees officer.

She added the group of 37 males and 15 females were mainly farmers, fishermen, retailers, drivers and workers of odd jobs.

Another batch of 39 Vietnamese boatpeople are to return to Vietnam this Wednesday, Hoffman said.

The oldest man in the group, Nguyen Van Tam, 51, said he felt homesick after leaving his wife and five children behind in Kien Giang in the Southern province of Vietnam.

He added he left Vietnam about six months ago with his 17-year-old son, Quoc Cuong, in hope of finding a better life.

Under terms of the repatriation program, the UNHCR has agreed to pay Vietnam a monthly cash allowance of $30 per returnee for one year, and also help find housing, employment and other material items to facilitate their reintegration.

UNHCR officials said about 120 people are awaiting approval by the Vietnamese government for their return.

Malaysia still shelters about 20,000 refugees in holding camps.

Malaysia has been criticized by the United States for allegedly not doing enough to aid Vietnamese fleeing the ongoing war in their homeland.

Kuala Lumpur has countered Western nations are not doing their share to become third-country hosts to the refugees, and that many of the Vietnamese have come to Malaysia in search of better economic conditions rather than seeking political asylum.

#90308u0789 11/04/1990 ~United Press International

(NOV. 4) UPI - Stage and screen actress Mary Martin is dead at age 76. The diminutive star whose Broadway roles in ''South Pacific'' and ''Peter Pan'' highlighted a 30-year career on stage and screen died at her home in Rancho Mirage, California. A family spokesman said the actress died of cancer.

Mary Martin was born on December 1st, 1913, in Weatherford, Texas, and attended private schools before enrolling at the University of Texas. She made her stage debut at age five and became a Broadway star in 1938, when she created a sensation with a sexy song in a Cole Porter musical called ''My Heart Belongs to Daddy.'' The show ''Leave It to Me'' marked the beginning of an illustrious stage career that included such long-running Broadway musicals as ''South Pacific,'' ''Peter Pan'' and ''The Sound of Music.''

Martin also won raves for her national road show version of ''Annie Get Your Gun,'' which starred Ethel Merman on Broadway. In 1982, Martin and actress Janet Gaynor were severely injured in traffic accident in San Francisco with a drunken driver who ran a red light. Her publicist, Ben Washer, was killed in the crash.

President Bush attended church services in Houston in his adopted home state of Texas this morning. Bush attended services with Republican gubernatorial candidate Clayton Williams, whose campaign against Democrat Ann Richards has been flagging as Election Day nears. Bush is in Texas to wind up a six-day cross-country campaign trip for G-O-P candidates. Later today, Bush will make get-out-the-vote telephone calls to Republican rallies in Alaska, Utah, Nebraska and Maryland. Bush will vote in Houston on Tuesday before flying back to Washington, D-C.

Secretary of State Baker visited American troops in Saudi Arabia today, admitting to them that the future is uncertain in the Persian Gulf. Baker spoke with troops of the First Cavalry Division near the Iraqi-Saudi Arabian border. As he spoke, King Hussein of Jordan flew from Amman to Paris for talks tomorrow with French President Francois Mitterrand. The French leader is in Egypt but will return to Paris tomorrow.

One U-S diplomat in the Middle East told United Press International that Baker is NOT in the Persian Gulf region to get permission for an attack on Iraqi forces in Kuwait. The diplomat says Baker is trying to establish the ground rules should the military option become necessary. Earlier reports had said Baker would ask Saudi permission to launch a military strike to drive the Iraqis out of Kuwait.

A diplomatic source in Alexandria, Egypt, says French President Mitterrand and Egyptian President Hosni Mubarak discuss the Persian Gulf crisis and other matters over breakfast today. Mitterand was in Alexandria to inaugurate a French-speaking university in the Mediterranean city. The source said the two leaders spent two hours together at the breakfast table.

#90308u0871 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State Baker is in the Persian Gulf region, where he spoke today with American troops in the multi-national peace-keeping force in Saudi Arabia. Baker told the troops that the future is uncertain in the region but that Iraqi aggression canNOT be allowed to succeed the way Adolf Hitler's was in the 1930's.

Iraq released 15 German nationals today, and they flew to Amman, Jordan, the day before former Chancellor Willy Brandt is to arrive in Baghdad for talks with Iraqi officials. The Brandt mission is aimed at freeing the 400 German nationals still held in Iraq and Kuwait.

A leading adviser to the late Egyptian leader Gamal Abdel Nasser says he believes the Persian Gulf war has already started... without a shot being fired. He says he believes the United States has NOT attacked Iraq because it is still learning how to operate its sophisticated military equipment in the deserts of Saudi Arabia.

A New York report today says Saudi Arabian oil production passed eight-point-two-Million barrels a day this week, making up part of the loss from the embargo against Iraqi and Kuwaiti oil. The report says Saudi production is expected to rise to eight and one-half-Million barrels a day by early next year.

Stage and screen actress Mary Martin is dead... a victim of cancer at the age

of 76. A family spokesman says Martin died yesterday at her home in Rancho Mirage, California. She will, perhaps, be best remembered for her starring performance in ''Peter Pan.''

The official Islamic Republic News Agency reported from Tehran today that thousands of demonstrators chanting ''Death to America'' marched through the Iranian capital to the former U-S Embassy today. The demonstration marked the 11th anniversary of the take-over at the Embassy by young radicals who held the American staff hostage for 444 days.

State-run radio in Mozambique reports that right-wing guerrillas raided a southern village today, killing at least 25 people in response to constitutional reforms announced by the nation's parliament. The legislators approved a new constitution that clears the way for multi- party elections next year.

Japanese officials say government negotiators from Japan and North Korea made little substantive progress in two days of talks in Beijing on ways to establish diplomatic relations.

#90308u1120 11/04/1990 ~United Press International

(NOV. 4) UPI - The Israeli government today rejected a proposal from U-N Secretary- General Javier Perez de Cuellar that the signers of the Geneva Convention meet to discuss the Palestinian situation.

In the occupied Gaza Strip, Israeli soldiers shot and wounded about 100 Arabs in a second day of violence that claimed one Palestinian's life and more than 100 people wounded yesterday.

A former deputy prime minister and dissident member of the ruling party in India called today for the resignation of Prime Minister V-P Singh. The party is to hold a meeting tomorrow to discuss the future of its leadership.

Secretary of State Baker took his Persian Gulf tour to the Saudi Arabian desert today to visit with American troops stationed somewhere near the Iraqi-Saudi border.

At a Saudi Red Sea port, several hundred Syrian troops disembarked to join the three-thousand-member Syrian force in the Operation Desert Shield army.

Prime Minister Tadeusz Mazowiecki called on the Soviet Union to withdraw its forces from Poland by the end of next year. Mazowiecki issued the call in a presidential campaign address in Warsaw.

Italian police in Rome say it took officers five hours and 50 arrests to squelch a stone-throwing riot between hundreds of North Africans and Asians housed in a refugee center. At least 25 people were injured, including five police officers.

NASA officials at Cape Canaveral reported that a small amount of cocaine has been found under a desk in a facility used to prepare space shuttles for flight. They say an investigation is under way.

A Miami report says lenders are forcing Donald Trump to auction more than 100 unsold condominium units in the Trump Plaza of the Palm Beaches in order to pay down his debt.

Alaska state election reports indicate that the campaign to keep marijuana legal in the state has raised 10 times more money than the campaign to outlaw the drug. Late polls on the issue, however, still show a majority favoring an end to 15 years of legalized marijuana in Alaska.

An international magazine for marijuana growers is going out of business after 10 controversial years. Publisher Tim Alexander of Corvallis, Oregon, says the magazine fell victim to shrinking circulation that he blames on- quoting now- ''drug hysteria and paranoia.''

#90308u1134 11/04/1990 ~United Press International

NEW YORK (NOV. 4) UPI - Douglas Wakiihuri of Kenya, the silver medalist at the Seoul Olympics, broke free from a pack of four with six miles to go Sunday to win the New York City Marathon on an uncomfortably hot day.

Making his first marathon appearance in North America, Wakiihuri took off on his own after 20 miles, when he gained a lead of 34 seconds over Salvador Garcia of Mexico.

Wakiihuri, who trains in Japan, never was threatened thereafter as he completed the 26-mile, 385-yard course through New York's five boroughs in 2 hours, 19 minutes, 39 seconds.

With the race ending in a temperature of 72 degrees, Wakiihuri's time was the slowest winning time for the marathon since 1984.

''I was feeling very good and was very relaxed, and I saw nobody was coming,'' the 27-year-old Kenyan said. ''I saw their reaction and saw they couldn't come with me, so I decided to go.

''The performance I did today under the conditions was the best I could do. I did my best today, and that's all I can do.

''It was really hard. We knew from the start we wouldn't make a good time; everybody was sweating before the race. I was even having problems with my legs.''

Garcia, a sergeant in the Mexican army, was second in 2:13:19 and Briton Steve Brace was third in 2:13:32. Garcia was bleeding from blisters on both feet, and feels he would have won if this had not happened.

Brace finished the race with a headache from the humidity and the noise made by the huge throng - including numerous bands - that lined the course.

Juma Ikangaa of Tanzania, the defending champion, was fourth in 2:14:32 and John Campbell, a 41-year-old New Zealander, was fifth, setting a Masters record for the New York race of 2:14.34 in what he called the greatest achievement of his life.

For the first time, no American was able to break into the top 20. The first American man was Gerry O'Hara of New York, 29th in 2:26:15.

Bill Rodgers, a four-time winner of the New York Marathon, withdrew in the morning because of illness and Ken Martin of Dallas, the 1989 runner-up, had to withdraw after 18 miles because of weakness. It was the first time he ever has pulled out of a marathon.

Martin has been troubled by a mysterious ailment the last two months and the lack of training took away his endurance.

''Mentally I was in the race but physically I just wasn't ready,'' he said.

Wanda Panfil, a Polish-born resident of Mexico, won the women's division in 2:30:45, the slowest time since Grete Waitz earned the first of her nine New York marathons in 1978.

''Because of the weather I couldn't run faster,'' the 31-year-old Panfil said with her husband, Mexican Olympican Msuricio Gonzalez, serving as interpreter. ''I've never run before in such hot weather, and it's the first time I drank water during a race and I felt a little pain in my stomach.''

Kim Jones of Spokane, Wash., making up a lot of time in the final mile through Central Park, finished second in 2:30:50, continuing her string of never placing worse than fifth in a marathon she finishes.

Katrin Dorre of Germany, running her first marathon in two years after having a baby, was third in 2:33:21 and Waitz, a nine-time New York champion, never was a factor, placing fourth in 2:34:34. This was her first marathon since she won New York in 1988, and she was pleased with her performance following a series of injuries.

''I came into this race with open eyes, and I knew it was a hard competition '' said the 37-year-old Norwegian. ''Like everybody else I was hoping to win the race, but I knew it was going to be hard. It was very important just to finish, and I know I can compete again.''

Both Wakiihuri and Panfil registered their third consecutive victories in marathons, and each won $26,385, plus a Mercedes-Benz valued at $34,000.

After 20 miles, Wakiihuri, Garcia and Ikangaa were tied for the lead, with Brace four seconds behind. Wakiihuri then broke the race open with a 4:56 mile at which point he built a 16-second lead.

Another mile further on he was in front of Garcia by 25 seconds, and he ran alone the rest of the way.

Panfil led the women from the 10th mile, and with four miles to go she enjoyed an advantage of 41 seconds over Jones. The American narrowed this deficit to five seconds at the end, but ran out of space.

''The race took shape the opposite of what I expected,'' Jones, 32, said. ''I expected someone to take it out, and I'd run my own race and catch up. Everyone went out slow and sluggish. I knew it would be very warm, so I decided to run easy, not to run for time. I didn't think anyone would run a spectacular time.

''When I was passed at 9 miles by Wanda I didn't want to go with her, I didn't want to risk my leg tightening up. She got up to a minute ahead of me, I closed it slowly but surely but I didn't make it. I'm happy to be second, and I'm pleased with the time, considering the conditions.''

#90308u1210 11/04/1990 ~United Press International

(NOV. 4) UPI - President Bush is campaigning for Republicans in Texas, his adopted home state. Bush and Texas G-O-P gubernatorial candidate Clayton Williams spent part of the day making telephone calls to urge support for the Republican ticket in the state, where the Williams campaign has fallen from virtually unbeatable to a few-percentage-point lead over Democrat Ann Richards. Bush also used the telephone to address get-out- the-vote G-O-P rallies in Nebraska, Utah, Maryland and Alaska.

Iraq released more hostages today... 15 Germans who flew from Baghdad to Amman Jordan, just one day before former Chancellor Willy Brandt is to open a four-day visit to the Iraqi capital city. Brandt is starting a mission to gain the release of about 400 German nationals being held in Iraq and Kuwait. It has been noted that Brandt will fly to Iraq aboard a 260-seat jetliner... indicating the possibility that a large group of Germans may be freed.

Secretary of State Baker is in Bahrain at the beginning of an eight- nation, seven-day trip to the Persian Gulf and Europe. Baker took a helicopter ride today to somewhere along the Saudi Arabian border with Iraqi, where he told American troops in Operation Desert Shield that the future in the region is uncertain. Baker said after arriving back in Bahrain that he is pleased to see that morale remains high among the American soldiers.

A member of the Israeli parliament is urging the removal of Palestinians from the occupied Gaza Strip and West Bank. Former General Rehavam Zeevi says in a magazine interview that- quoting now- ''the only solution for the Palestinian people is separation from Jews.'' He said each people should return to the

land of their forefathers and Israelis already have done so. He said the Palestinian forefathers came from Saudi Arabia, Libya, Sudan and other Mideast states.

In the occupied Gaza Strip today, Israeli soldiers reportedly shot and wounded about 100 Arabs in a second consecutive day of battles. The trouble began yesterday when rumors spread that an Arab was killed during questioning by Israeli troops. Israel says the man hanged himself, and his family is calling for an independent observer to attend an autopsy.

A U-N Human Rights Commission expert arrived in Burma today to begin an investigation into charges that the nation's military violated human rights. NO members of the ruling military junta greeted Professor Sadako Ogata when she arrived in Rangoon, only senior civil servants. At the same time, the military ruler in Burma invited anyone who wants foreign-style human rights to leave the country.

A group of former Contra rebels today occupied a major Catholic church in Managua and said they were beginning a hunger strike. Witnesses reported the occupation and said the former rebels are demanding that the government deliver land, housing, tools, food and medicines promised when they laid down their arms after more than eight years of civil war in the nation.

The Justice Department says a record two and one-half-Million convicted criminals were on probation or parole last year... a five- point-six percent increase from the year before. The report says the number of people on probation grew by 126 percent in the 1980's, while the paroled population grew by 107 percent. The jail and prison population was up by 114 percent.

-30- 3552
#90308u1311 11/04/1990 ~United Press International
(NOV. 4) UPI - Palestinian sources say at least 25 Arabs living in the Gaza Strip were injured today by stones dropped from an Israeli Army helicopter. An Army spokesman confirms a helicopter equipped with a gravel-throwing machine to disperse crowds was used. Israeli soldiers also used bullets in putting down riots in the occupied terrorities. Hospital officials say at least 89 Palestinians were wounded by army gunfire today.

President Bush is in Texas, where he'll stay until he can vote in Tuesday's election before heading back to Washington. Bush worked a G-O- P telephone bank in Houston, urging registered Republicans to vote the straight ticket in the upcoming election. Bush plans to appear tomorrow at rallies in Tyler and Waco for G-O-P gubernatorial nominee Clayton Williams, who holds a slim lead over Democrat Ann Richards.

The strike against the New York Daily News will enter a 12th day tomorrow, with NO negotiations scheduled to end the bitter walkout against the nation's

largest tabloid. Striking newspaper workers today handed out leaflets urging people to boycott the newspaper and its advertisers. And, police reported additional strike-related arrests today. Police arrested a New York Times delivery driver for allegedly causing an accident with a truck driven by a Daily News replacement driver, then attacking him with a tire iron.

The Justice Department says a record number of convicted criminals were on probation or parole last year. The department's Bureau of Justice Statistics says two-point-five-Million convicted criminals were out on probation or parole in 1989... a five-point-six percent increase over the year before.

Lawyers specializing in matrimonial law say the nation's economic troubles will likely translate into additional divorces. More than 80 percent of the attorneys surveyed at a meeting today in Chicago predicted that marital stability will worsen as the economy sours. Another 75 percent expected an increase in separations... and nearly 66 percent predicted more divorces.

#90308u1474 11/04/1990 ~United Press International

(NOV. 4) UPI - Secretary of State Baker is looking for a unified stance against Iraq as he travels to eight nations. Baker visited U-S troops in Saudia Arabia today as he began the seven-day diplomatic mission to the Middle East and Europe.

NASA says the Hubble Space Telescope has made its first observation of the chemical makeup of a faint object. The space agency says the quasar about 12 BILLION light years from Earth may provide clues about the early universe.

But the space agency is investigating an earthly problem at Cape Canaveral. NASA says a small amount of cocaine was found in a hangar at the Kennedy Space Center where space shuttles are readied for launch.

President Bush is spending the night in his adopted home state of Texas. Bush- who campaigned with G-O-P gubernatorial nominee Clayton Williams- will stay in the lone star state long enough to vote in elections Tuesday.

South Africa's racially divided sporting federations today agreed to unite in support of NON-racial sport. The move would allow South African athletics to compete in the Olympics for the first time in three decades.

A report today says a New York city medical investigator asked to put down a deposit on an apartment of a person he'd just declared dead. Jules Lisner says he used ''bad judgement'' in trying to get the low-cost, rent stablized apartment in midtown Manhattan.

-30- 1544

#90308u1565 11/04/1990 ~United Press International
(NOV. 4) UPI - Secretary of State Baker is trying to unite U-S allies in the standoff with Iraq as he travels in the Middle East and Europe. But Baghdad is making some diplomatic moves of its own. Iraq's foreign minister spoke with Jordan's King Hussein today before the monarch headed to Paris. Diplomats say Iraq is trying to divide nations confronting Saddam Hussein... and has targeted France and the Soviet Union in particular.

Blood continues to spill in the Israeli-occupied territories. Palestinians angry about the death of an Arab prisoner held by Israel rioted for a second day, clashing with soldiers in the Gaza Strip. Israeli soldiers shot and wounded about 100 Arabs. And, Palestinian sources say at least 25 other Arabs were injured today by stones dropped from an army helicopter.

President Bush is wrapping up a six-day cross-country campaign swing on behalf of fellow Republicans in Tuesday's congressional and gubernatorial elections. Bush will campaign in Tyler and Waco, Texas, tomorrow for gubernatorial nominee Clayton Williams. The president and Barbara Bush will cast their ballots in Houston early Tuesday before heading back to Washington.

The publisher of an international magazine for marijuana growers calls it a government-induced circulation slump. Whatever the reason, the Portland, Oregon-based Sinsemilla Tips is going out of business after 10 controversial years... with the quarterly magazine publishing its final issue this month. Publisher Tim Alexander blames ''drug hysteria'' for the magazine's reduced circulation.

A report published today in Florida says Donald Trump will auction more than 100 unsold condominium units at the Trump Plaza of the Palm Beaches. 45 condos reportedly will be sold at discount prices next month due to lenders pushing Trump to pay down his debt. Bids for the condos that range in price from 229-thousand point-eight-Million dollars will start at 150-thousand.

#90309b0034 11/05/1990 ~Business Wire
SUNNYVALE, CA (NOV. 5) BUSINESS WIRE - Monoclonal Antibodies Inc. (NASDAQ:MABS) and QUIDEL announced Monday they have entered into an agreement with a subsidiary of J.P. Morgan & Co. for a $3 million equity investment.

With this investment by Morgan, the two companies will move forward to complete their merger as previously announced.

Stockholders of the companies will be asked to approve the merger at meetings which are expected to be held in mid-December.

QUIDEL is a producer of non-instrument diagnostic tests for the physician's office and home market. Its products are assays for the diagnosis of

pregnancy, the prediction of ovulation and the detection and monitoring of infectious diseases, allergies and autoimmune disorders.

Monoclonal is a biotechnology company focusing on the application of monoclonal and polyclonal antibodies for the development and marketing of non-instrument diagnostic test kits. The markets Monoclonal has targeted include fertility and infectious diseases.

SAN CARLOS, CA (NOV. 5) BUSINESS WIRE - Acumos Inc. Monday announced the immediate availability of the AVGA1 Analog/Digital Video Controller, the most highly integrated and cost effective single-chip Video Graphics Array controller available today for IBM PCs.

Acumos is the latest venture of former Paradise Systems founders, design engineers and marketing and sales management.

Using the AVGA1, original equipment manufacturers can now build a complete VGA video circuit for XT, AT- or Micro Channel-bus systems, with the addition of only two dynamic random access memory chips, plus passive components.

The AVGA1 incorporates all other functions, including video digital to analog converters, clock synthesizers, built-in monitor detection, and all system bus and feature connector interface logic.

Lushtak added that just as Paradise Systems was the first company to supply single-chip Hercules, EGA and then VGA controllers, Acumos is the first company to integrate all of the non-memory chips into a single controller.

The AVGA1 is a 128-pin Plastic Quad Flat Pack which provides optimal access to video memory through the use of waitless write cycles and zero wait state bus requests. The AVGA1 supports 16-bit bus cycles for all video memory, BIOS and I/O.

Display resolutions include all standard VGA modes, 800 x 600 x 16-color graphics mode, and 132-column text mode. The AVGA1 supports all PS/2 compatible and multisynchronous monitors. In addition, the AVGA1 comes with a host of software drivers including AutoCAD, GEM, Lotus 1-2-3, Microsoft Windows 3.0, and WordPerfect.

The AVGA1 is available with manufacturing packages and design support. Complete technical documentation is also available for OEMs. The AVGA1 is priced at $22.50 in OEM quantities of 10,000 units.

The design, marketing and sales teams of Acumos are veterans of a previous PC video success story: Paradise Systems, a company that grew from $22 million to $240 million in sales between 1986 and 1989, selling IBM PC video controllers.

The company was sold in 1986 to Western Digital Corp., based in Irvine, Calif. for approximately $40 million.

Acumos Inc. is the first company to develop a fully integrated analog/digital video display controller for desktop and portable personal computers. Since its founding in 1983, Acumos has provided application specific integrated circuit designs for companies including Conner Peripherals, Rockwell International, Paradise Systems and Western Digital Corp.

AUSTIN, TX (NOV. 5) BUSINESS WIRE - Healthcare International Inc. (ASE:HII) and HealthVest (ASE:HVT) Monday announced that their standstill agreement ended on Oct. 31, 1990, without the companies having entered into the interim restructuring contemplated by the previously announced term sheet between such parties.

Although the companies continued discussions through today, they reached an impasse in negotiations. Both companies announced that they are currently evaluating their respective options.

Healthcare International provides a wide range of health care products and services to both local and national markets through 21 facilities in 4 states. The company's class A common stock is listed for trading on the American and Pacific Stock Exchanges under the symbol HII.

HealthVest is a self-administered Real Estate Investment Trust (REIT) that invests in income-producing health care-related properties including psychiatric, general health and rehabilitation hospitals, skilled nursing facilities, retirement centers, medical office buildings, medically oriented fitness centers, and facilities offering other related health care products and services. HealthVest is listed on the American Stock Exchange under the

symbol HVT.

SANTA CLARA, CA (NOV. 5) BUSINESS WIRE - TriGem Corp., the U.S. subsidiary of Korea's largest microcomputer manufacturer, Monday announced a long-term strategic alliance with CMS Enhancements Inc. (NYSE:CME), a $187 million marketer of PC enhancement products and accessories.

No terms were disclosed.

TriGem Computer Inc. of Seoul, South Korea, the country's only dedicated computer company, expects worldwide revenues of $300 million in calendar year 1990.

TriGem Corp. of Santa Clara was established in 1989 to develop advanced microcomputer products for the U.S. market; expand TriGem's OEM and private label relationships in the United States; and establish a marketing alliance with a U.S.-based company with demonstrated marketing, distribution and sales strength.

TriGem has invested more than $15 million in a new U.S. product line, to debut at Fall Comdex in Las Vegas (Booth 3008, South Hall, LVCC), including i486, 386, 386SX and 286 servers and PCs; 386SX and 286 laptop and notebook PCs; SPARC-based UNIX laptop computers and workstations; and telecom products including fax machines, fax cards, modems and ISDN phones.

CMS Enhancements Inc. was launched in 1983 on a $12,000 investment and has grown to become a $187 million leader in the manufacturing, distribution and sales of PC enhancement products, including hard and floppy disk drives, memory and graphics boards, and accessories, through more than 1,500 distributors and resellers worldwide.

The two companies plan to announce their product development, marketing and sales strategy for the U.S. marketplace after COMDEX, following an in-depth assessment of strategic opportunities.

#90309b0040 11/05/1990 ~Business Wire

FREMONT, CA (NOV. 5) BUSINESS WIRE - Mylex Corporation (NASDAQ:MYLX) Monday announced record third quarter sales and net income for its third quarter ended September 30, 1990.

Net sales increased to over $12.9 million which represents an increase of over 18% from $10.9 million in the third quarter of 1989. Net income increased 209% to $1,048,900 in the third quarter of 1990 compared to $339,200 for the third quarter ended September 30, 1989. Primary earnings per share for the third quarter of 1990 were $.10 compared to $.03 for the third quarter of 1989.

For the nine months ended September 30, 1990 sales reached a record $35,603,900, an increase of 13% from $31,512,800 reported for a comparable nine month period in 1989. Net income for the first nine months of 1990 was $2,609,900 or $.24 primary earnings per share compared to $1,410,900 or $.13 earnings per share in the nine months ended September 30, 1989, which represents an increase of 85% over the period last year.

Dr. Akram Chowdry, President, commented, ''In the third quarter of 1990, we continued on the record pace established last quarter. The increase in sales and profits is attributable significantly to the addition of sales of our new EISA products.''

Dr. Chowdry added, ''We entered the closing quarter of the year with more than fifteen major international computer companies evaluating our existing products. At the same time, we are continuing research and development on several new products which are expected to be introduced in 1991.

''These include multiprocessing systems, additional high-performance peripherals, and a RISC-based system with EISA Bus, developed to allow Mylex to expand into the minicomputer and software markets. We believe we are well-positioned to meet our anticipated market demand during 1991.''

Mylex Corporation is engaged in the design, development, manufacture and marketing of high-end technology electronic products, including a 386 and EISA 486 microprocessor board product line of system boards and peripheral controller devices as well as graphics boards.

These products are used to enhance the performance of personal computers, microsystems and workstations. Mylex products are recognized in the marketplace for both their high performance and high quality standards.

#90309b0042 11/05/1990 ~Business Wire

PORTLAND, OR (NOV. 5) BUSINESS WIRE - Vidicraft Inc. has developed a wireless TV relay device for general home or office use.

Called Vidi-View, the device can capture a signal and send it to any receiving location within a radius of 120 feet. Designed for flexibility, Vidi-View provides multiple cable access without additional cable jacks or installation fees.

Vidi-View transmits picture and sound, including cable programming, pay-per-view, TV, VCR or camcorder signals from a TV in the principal viewing room to a TV in any other room. Completely wireless, Vidi-View is comprised of a small transmitter and a receiver. The transmitter attaches to the video and audio of the source TV, VCR or camcorder. The receiver attaches to the antenna or video inputs of the receiving TV. Installation takes about 5 minutes.

Transmitted signals can pass through walls, metal beams and other structural materials. Vidi-View will transmit a picture and sound signal up to a 120 foot radius. ''With Vidi-View users can view cable or VCR anywhere in their home without adding extra wiring,'' said Steve Johnson, president of Vidicraft. ''For example, dad can watch a ball game on cable in the den while the kids watch a video in the living room. Users can also connect Vidi-View's transmitter to a camcorder for remote recording or for security surveillance. A mother for example, who wants to watch her children while she works in another part of the house, can attach the transmitter to a camcorder in the play room and hook a receiver to a TV set where she is working.''

Vidi-View uses ultra-high frequencies in the 900 megahertz UHF band range to transmit pictures and sound. This band range, traditionally reserved for the military, has only recently been approved by the FCC for in-home use. Vidi-View represents the first in a line of wireless, general consumer products Vidicraft plans to introduce over the next year.

Vidicraft Inc. is a subsidiary of Hong Kong based Video Technology, a publicly held electronics manufacturer. Founded in 1974, Vidicraft has specialized in providing professional-quality video and audio accessories to the home hobbyist and camcorder user.

Available now, Vidi-View retails for $149.95 and includes a transmitter and receiver unit, hook-up adapters and a one-year warranty. Additional receivers are available for $69.95. CARMEL, IN (NOV. 5) BUSINESS WIRE - Conseco Inc. (NYSE:CNC), a financial services company headquartered in Carmel, Monday reported record earnings from operations in the third quarter and nine months ended Sept 30.

Earnings from operations for the third quarter of 1990, excluding realized investment gains, were $9.1 million, or $1.20 per share fully diluted, up 30 percent on a per share basis from operating earnings of $8.5 million, or 92 cents per share, in the third quarter of 1989. Nine-month 1990 operating earnings were $26.4 million, or $3.26 per share fully diluted, up 35 percent on a per share basis from $21.9 million, or $2.42 per share, in 1989.

Because there were no realized investment gains in the third quarter of 1990, net income for the quarter also was $9.1 million, or $1.20 per share fully diluted. In comparison, third quarter 1989 net income of $21.1 million, or $2.55 per share, included unusually large realized investment gains of $12.6 million, or $1.63 per share.

Realized investment gains often fluctuate from quarter to quarter. Nine-month 1990 net income of $26.4 million, or $3.26 per share, included no realized investment gains. This compares to nine-month 1989 net income of $37.0 million, or $4.32 per share, including investment gains of $15.1 million, or $1.90 per share.

Premiums and Other Revenues: The total of premiums collected and other revenues in the third quarter of 1990 was $472.6 million, an increase of 16 percent over third quarter 1989. Premiums from annuities marketed through financial institutions were approximately $198.4 million for the quarter--up 61 percent. Under accounting rules governing the insurance industry, premiums received for most annuity products are treated as deposits to liability accounts, rather than as revenue.

Assets: Total assets grew to $7.1 billion at Sept. 30, 1990, up 42 percent over Sept. 30, 1989, based on the results of new product marketing and the acquisition of Great American Reserve Insurance Co. Asset quality -- already high-- continued to improve during the third quarter. The percentage of investments in high-yield bonds was 5.6 percent at Sept. 30, 1990, down from 7.0 percent at the end of 1990's second quarter and 8.2 percent at year-end 1989. Conseco expects the percentage of investments in high-yield bonds to

decline to approximately 5 percent by year-end 1990. Less than 6 percent of investments at Sept. 30, 1990, were in mortgages, with no significant non-performing loans.

Earnings Per Share: Fully diluted earnings per share for the quarter and nine months benefited from sizable net decreases (compared to 1989) in average fully diluted shares outstanding, caused principally by the company's common stock repurchases and by the 1989 redemption of Conseco's Series A convertible preferred stock and convertible subordinated debentures.

LOS ANGELES (NOV. 5) BUSINESS WIRE - Gemstar Development Corp., manufacturer of the VCR Plus+ instant programmer, completes its move to Pasadena this week.

The move will accommodate the growth of Gemstar's staff and operations.

The new headquarters, which are three times the size of Gemstar's former facilities, are located at 135 North Los Robles, Suite 870, Pasadena, Calif. 91101. Gemstar's new phone number is 818/792-5700; new facsimile number is 818/792-0257.

Gemstar introduces VCR+ -- a simple and unique device which makes programming a VCR as easy as using a push button telephone -- this month in select markets across the country. National distribution is expected in mid-1991. With VCR Plus+, viewers enter a special code number (PlusCode) printed in local TV listings next to each program to automatically record their favorite shows. VCR Plus+ works with virtually all wireless VCRs and even changes cable box

channels for viewers who use a cable box. It can store up to 14 program choices and requires no installation. Manufacturer's suggested retail price is $59.95.

The system is made possible by a proprietary coding scheme invented by Gemstar founders Henry Yuen and Daniel Kwoh, each of whom holds a Ph.D. from The California Institute of Technology. Gemstar was founded in 1986 to develop, manufacture and market consumer products which simplify everyday living.

SANTA CLARA, CA (NOV. 5) BUSINESS WIRE - TeLeVell Inc. has expanded the potential of its sales software, TeleSell, to include powerful, reseller management capabilities.

The new Reseller Management module is designed to allow the user to define reseller territories and product lines, distribute leads to resellers, and track reseller performance.

Leads are automatically assigned to resellers, with the ability to generate letters to leads advising them of the resellers available in their area. Listings of all leads are automatically prepared for all resellers. The assignment process allows for complete manual control if desired. Leads can be assigned to one reseller or multiple resellers per lead. Both round-robin and performance-based lead assignment are supported.

Reseller performance is based on percentages of closed, active and dead leads. It's easy to track performance of leads and then make adjustments to the lead assignment process, territory or product line mix.

The single user price for the Reseller Management Module is $695. The four-user network version is available for $1,995 with additional users available at $895 per each additional four users.

FRANKTOWN, CO (NOV. 5) BUSINESS WIRE - DCX Inc. Monday announced that it has begun the discovery phase of the formal appeal process to the ''Armed Services Board of Contract Appeals'' on the third of three government contracts for which total claims of $6.7 million have been filed.

DCX Inc. elected to move forward on this third contract, for which reimbursement of $2.2 million is sought, due to the strong presentation during recent formal hearings on the two previous contracts, according to John G. Anderson, president.

''The company fully expects to prevail in all three cases,'' he indicated, ''and we look forward to reimbursement of the cost of material, labor, and administrative expenses incurred during performance on these contracts.''

In other company news, DCX Inc. reports the receipt of over $500,000 in contract awards during the fourth quarter from several of its major defense and private industry customers. The work includes design and development of a prototype connector assembly for application in ground support test equipment used in the maintenance of fighter aircraft as well as production runs of sophisticated cable assemblies.

Aggressive bidding and continued manufacturing excellence which resulted in these contract awards is attributable in part to Jeanne M. Anderson, who was appointed vice president/general manager, and chief operating officer in March of 1990.

These recent contracts bring the DCX Inc. contract backlog to $3.6 million with production now scheduled into the summer of 1992.

The company, a designer and manufacturer of sophisticated wire harnesses and cable assemblies for defense and commercial applications, expects to be increasingly competitive in the defense sector as its low overhead and excellent quality allow prime defense contractors to better cope with the newly constrained funding programs of the Department of Defense, according to Anderson.

#90309b0098 11/05/1990 ~Business Wire

PRINCETON, NJ (NOV. 5) BUSINESS WIRE - Intel Corp. introduced Monday two silicon chips that allow personal computers to produce and interact with digital, full-motion video and stereo sound.

The chip set, referred to at the i750-video processor, costs under $100 in volume quantities.

''Multimedia technology allows people to easily manipulate pictures, words, music, video, sounds and print on a computer,'' explained Dave House, president of Intel's Microcomputer Components Group.

Computer users have long sought to combine television's picture and sound quantity, (along with video special effects, high resolution photographs, text and graphics) with the interactivity and reprogrammability of personal computers.

''By doing what Intel does best -- integrating higher performance and functionality onto silicon chips -- we are able to provide the computer user with full multimedia capability on two silicon chips, at less than one-percent of its original costs,'' noted House.

This is the first time full multimedia capability has been available using just two computer chips.

This new technology makes a variety of applications affordable from common, everyday use.

For example, in an industrial education environment, employees can use a computer for training. Instead of reading how to properly prepare a hamburger or calibrate a machine, they can watch and interact with the process, vastly improving retention.

In a local travel agent's office, travelers can ''walk through'' rooms at various hotels to choose the right one for their tastes. They can also review sites and activities to finalize their schedule of events.

Even recreational activities will undergo significant change. Imagine watching a movie like ''Top Gun'' and then interacting with a computer to fly the plane.

Samples of the i750-video processor are available today. Production quantities will be available in the first quarter of 1991. The cost of the i750-video

processor is $105 in 1,000 unit orders, $85 in 10,000 unit orders.

Intel is an international manufacturer of microcomputer components, modules and systems.

SANTA CLARA, CA (NOV. 5) BUSINESS WIRE - National Semiconductor Corp.'s Computer Enhancement Group announced a major expansion of its EtherNODE family of Ethernet-adapter cards for PCs and Apple Macintosh computers.

New products introduced include the industry's first Ethernet cards with an on-board security option, an Ethernet board for 10Base-T networks and a twisted-pair adapter that allows Ethernet coax boards to be used on 10Base-T networks.

Targeted at the IBM PC/XT/AT family of computers, the EtherNODE 16ATX for coaxial Ethernet LANs, and the EtherNODE 16AT-T for twisted-pair Ethernet networks, are the first LAN boards to incorporate CheckPoint, an advanced security option.

The combined hardware/software system guards PCs against unauthorized access, notifies users of virus attacks, and cannot be defeated during the system boot process.

The EtherNODE 16ATX and EtherNODE 16AT-T support popular network software, including Netware 286, Netware 386, LAN Manager, 3+Open, LAN Server, PC LAN, LANtastic and PC/TCP. Both cards are fully compatible with the Novell NE-2000 a leading Ethernet adapter card. The boards use National Semiconductor's industry standard Ethernet controller architecture.

The Ethernet adapter cards are designed for a 16-bit AT data bus, but can also operate in an 8-bit card slot when they are used with most network drivers. Additional features of the boards include software configuration, an AUI (Attachment Unit Interface) port, a remote reset ROM socket for diskless workstations and diagnostic LEDs.

National Semiconductor also introduced EtherNODE 08PC, a half-sized 8-bit Ethernet adapter card that is fully compatible with Novell's NE-1000 and supports Netware. The card is offered as an economical Ethernet solution for

any PC/XT/AT or compatible machine, including laptops.

For Apple Macintosh computers, National has introduced EtherNODE 16SE, a 16-bit board for the Macintosh SE expansion slot. It features National's standard Ethernet LAN chip set. The board incorporates connectors for both standard and thin Ethernet cable, and will support 10Base-T Ethernet through the Ethernode Twisted Pair adapter introduced today by National.

SAN JOSE, CA (NOV. 5) BUSINESS WIRE - DSP Group Inc. Monday announced the appointment of Matthew S. Robison as director of marketing for analog communications.

In this new position he is responsible for product definition, market development and merchandising of the company's digital signal processing (DSP) chip sets designed for analog communications applications, such as cellular and cordless telephones. He reports to William Nicholson, vice president of marketing and sales worldwide.

Prior to joining DSP Group, Robison worked for Philips Components-Signetics, initially as a sales engineer, and most recently in product marketing for telecommunication components. Prior to joining Signetics, he was a sales engineer and product specialist for Wyle Laboratories. Robison holds a bachelor of science degree in physics from the University of Denver.

Founded in 1984, DSP Group Inc. is a leading worldwide supplier of digital signal processing (DSP) based chip sets. The company combines DSP integrated circuits with proprietary DSP software to create complete application-specific system solutions that improve performance, add features, and reduce the cost of high-volume consumer and commercial electronic products.

The company has considerable expertise in the areas of speech recognition, enhancement and compression; video/image enhancement and compression; noise reduction and suppression; echo cancellation and suppression; and digital communications.

SAN JOSE, CA (NOV. 5) BUSINESS WIRE - DSP Group Inc. Monday announced the appointment of David B. Barnes as director of corporate communications.

He reports to William Nicholson, vice president of marketing and sales worldwide.

''Because of recent advances in DSP technology and dramatic reductions in the cost of implementation, we anticipate a virtual explosion of DSP-based consumer and commercial products in the 1990s. With the increased market activity, however, comes the communications challenge to be heard above the noise,'' said Nicholson.

''David Barnes' considerable experience in public relations, collateral, advertising and technical articles will be a valuable asset in clearly communicating our company and the benefits of our DSP technology to the industry and to major OEMs.''

Before joining DSP Group, Barnes spent three years as manager of marketing communications for Intergraph Corp.'s Advanced Processor Division. Barnes also served as marketing communications manager for Pyramid Technology and Fairchild Corp., and as account manager for Paul Purdom Public Relations. Barnes holds bachelor of arts and master of arts degrees from Stanford University.

Founded in 1984, DSP Group Inc. is a leading worldwide supplier of digital signal processing (DSP) based chip sets. BLUE BELL, PA (NOV. 5) BUSINESS WIRE - Unisys Corp. Monday announced that its Commercial Systems Division has signed a three-year cooperative information

systems services agreement with Ford Motor Co.

According to the terms of the agreement, Unisys will establish a data center in the Detroit, Michigan area to provide remote data processing support to several Ford divisions. The contract is designed to reduce data processing costs by consolidating existing Unisys data center personnel and facilities resources.

It allows Ford to concentrate on the development of core information technology systems by contracting for tailored services at a fixed price.

Hal Fischer, president of Unisys Commercial Systems Division, said that Unisys will consolidate its systems operations presently supporting Ford Motor Co.'s Troy Center and the Technical Systems and Operations Data Center in Dearborn, Mich.

The Unisys processing at these data centers, which support Ford New Holland Inc., the Plastics and Trim Products Division, the Climate Control Division, and the Purchasing and Supply Staff Operations group, will be moved to a Unisys data center in southeast Michigan.

The contract calls for Unisys to provide comprehensive computer facilities management for Ford. Unisys will manage and operate its hardware and systems software and provide maintenance, operations, communications network support, systems integration, and subcontractor management for a 24-hour, 365-day-per-year facility.

Ford will continue to directly manage and control its applications systems maintenance.

Reto Braun, executive vice president of the Unisys United States Information Systems (USIS) sales and marketing, said that the Ford contract was an example of team selling by the Unisys Commercial Systems Division Line-of-Business and Unisys Systems Management Group (SMG).

SMG is the corporation's new commercial systems integration, professional services, and facilities management organization based in McLean, Va.

KANSAS CITY, MO (NOV. 5) BUSINESS WIRE - US Sprint Monday announced its first TV advertising campaign for Hispanic Americans, touting the long-distance company's residential calling plans.

The advertisements, produced in Spanish by Mendoza Dillon, the leading Hispanic advertising agency in the United States, will emphasize Sprint's Spanish-speaking customer service personnel, the long-distance company's connection to the Spanish-speaking world, its clear fiber-optic sound quality and better overall savings.

''Sprint currently provides many telecommunications services to the Hispanic American population and our first Spanish-language TV campaign will help us emphasize those services,'' said Jorge Rodriguez, vice president of marketing and advertising for US Sprint.

''This campaign allows us to directly reach the Spanish-speaking audience to inform them about the advantages of Sprint's calling plans and services. It continues to position Sprint as an international telecommunications leader.''

In the ads, Sprint will offer free switching from the customer's previous long-distance carrier, plus 90 minutes of free long distance. At the end of the 30-second spots, a toll-free number, 1-800-877-2200, for Spanish-speaking customer service representatives will be displayed. The ads will appear on the Spanish-language cable-TV networks, Univision and Telemundo.

US Sprint also will sponsor Univision's No. 1 rated show, ''Sabado Gigante'' (Giant Saturday), featuring Don Francisco, the popular host of the prime-time show. In addition to the display of Sprint's logo during broadcast, Sprint's products and services will be promoted live by Francisco one time per show.

US Sprint is a unit of United Telecommunications Inc., a diversified international telecommunications company with $7.5 billion in revenues. US Sprint provides a comprehensive array of voice, data and video communications products and services over the nation's only all-digital, fiber-optic network.

REDMOND, WA (NOV. 5) BUSINESS WIRE - Microsoft Corp. Monday announced the immediate availability of Microsoft Word version 5.5 for DOS systems.

The new version features a visual user interface that provides easier access to all features and greater interface consistency and compatibility with other members of the Microsoft Word family.

The visual interface design of Microsoft Word version 5.5 is based on recent research which found that visual interfaces are easy to learn and use, provide better access to features, and give users expanded flexibility and power. Microsoft has taken many of the interface innovations from its graphical word processing products (Word for Windows, Word for OS/2, and Word for Apple Macintosh systems) and is making them available in the character-based DOS environment. For example, features such as pull-down menus, dialog boxes and other visual aids used for formatting all look and work similar to each other.

Microsoft Corp. (NASDAQ: MSFT) develops, markets and supports a wide range of software for business and professional use, including operating systems, network products, languages and application programs, as well as books, hardware and CD-ROM products for the microcomputer marketplace.

#90309b0133 11/05/1990 ~Business Wire

ANAHEIM, CALIF (NOV. 5) BUSINESS WIRE - Datum Inc. (NASDAQ:DATM) Monday announced its sales for the quarter ended Sept. 30, 1990, were $6,663,000 compared with sales of $9,462,000 for the corresponding quarter of 1989.

For the nine months ended Sept. 30, 1990, sales were $22,148,000, a decline of 18.5 percent when compared with the prior period's sales of $27,166,000.

On these lowered sales, the company incurred a loss of $500,000, or 20 cents per share, as compared with the prior year's net income of $440,000, or 16 cents per share. For the nine months ended Sept. 30, 1990, Datum incurred a loss of $664,000, or 26 cents per share, as compared with the prior period's net income of $980,000, or 36 cents per share.

In a letter to the company's stockholders, Louis B. Horwitz, the president of Datum, commented:

''For Datum, 1990 is proving to be a very troublesome year.

''A major contributing factor is that the company has not booked enough new business to achieve revenues at the point to which we break even.

''A further profit drain has been the relocation of Spectrum Technology Inc. to a newer facility. Both the cost of the move and the disruption to their production schedules were greater than had been anticipated, in spite of careful planning to minimize the effect. This is, however, a one-time set of costs which is now behind us.''

Datum designs and manufactures precision frequency products and timing instrumentation for military, industrial, space and commercial applications. Timing manufacturing operations are located in Anaheim. Frequency products are produced in Beverly, Mass. and Santa Barbara. Austron maintains its headquarters and manufacturing facilities in Austin, Texas.

Datum's corporate offices are located at 1363 S. State College Blvd. in Anaheim.

NASHUA, N.H. (NOV. 5) BUSINESS WIRE - Ferrofluidics Corp. (OTC-FERO) Monday announced sales of $7,766,000 for the first quarter ended Sept. 30, 1990, compared to $3,870,00 for the first quarter last year.

Income from continuing operations was $1,032,000 vs. $272,000 for the comparable period of the preceding year. Net income for the quarter was $915,000 or 34 cents per share, vs. $10,000 or 0 cents per share for the same period of the previous year.

First quarter bookings were $7,947,000 compared to $4,624,000 from continuing operations for the comparable period last year. Backlog as of Sept. 30, 1990 was $7,345,000 vs. $6,981,000 at the end of the first quarter last year.

Commenting on the first quarter results, Dr. Ronald Moskowitz, chief executive officer, said. ''The first quarter results reflect the positive impact of our recent restructuring program, under which we significantly reduced operating costs in each of our business sectors.''

Moskowitz also stated, ''Revenue in the first quarter increased 100 percent compared to the same period last year including $3,114,000 in revenue contribution from our German subsidiary, Advanced Products & Technologies, GmbH. In addition, each our business sectors recorded increased shipments for

the quarter.''

Ferrofluidics Corp. is the pioneer and world leader in ferrofluid (magnetic fluid) technology. The company manufactures proprietary products for high growth market applications including rotary seals for semiconductor manufacturing and a variety of controlled evironment processes; exclusion seals for computer memory disk drives; ferrofluid film bearing spindles for high performance rotational applications; fully automated crystal growing furnaces; and ferrofluids for audio loudspeakers.

TACOMA, WA (NOV. 5) BUSINESS WIRE - Weyerhaeuser Co. has announced it will open a recycling center in Denver by the end of this year.

It will be the 18th in the company's rapidly expanding nationwide network of recycling facilities.

The company said the move into Denver is part of a plan to increase the growth rate of its recycling business. Weyerhaeuser is already one of America's largest recycling companies, handling more than 1.2 million tons of wastepaper this year. Weyerhaeuser pioneered office waste recycling with its ''We-cycle Office Wastepaper'' or ''W.O.W.'' program which began in the mid-1970s.

Jay Phillips, Weyerhaeuser's vice president for recycling said: ''The Denver facility will handle a wide variety of wastepaper as well as other recycled materials. It will be an important source of old newspapers for our new newsprint de-inking facility at Longview, Wash.'' De-inking is scheduled to begin at Longview in April 1991.

In October, Weyerhaeuser announced plans to supply Longview through another new recycling center in Portland, Ore., which will be the largest in the United States, devoted entirely to handling wastepaper. The Portland facility will open early next year.

The Denver site will occupy 75,000 square feet in a refurbished building near downtown, making it one of Weyerhaeuser's three largest recycling centers. It will employ 40 people.

SAN BRUNO, CA (NOV. 5) BUSINESS WIRE - National Insurance Group (NASDAQ/NMS:NAIG), a leading provider of computer delivered forced order insurance and flood hazard area identification, Monday announced that revenues for the third quarter ended Sept. 30, 1990, were $4,737,000, an increase of 32 percent from revenues of $3,572,000 for the like quarter of the previous year.

Net income for the quarter decreased 8 percent to $420,000, or 10 cents per share from $456,000, or 11 cents per share for the like quarter of 1989. The weighted average shares for the third quarter increased to 4,281,712 compared with 4,272,847 for the previous year.

Revenues for the nine months ended Sept. 30, 1990, were $13,816,000, an increase of 12 percent from revenues of $12,291,000 for the nine months ended Sept. 30, 1989. Net income for the nine-month period decreased 50 percent to $1,156,000, or 27 cents per share from $2,312,000, or 54 cents per share for the like period in 1989.

The weighted average shares for the nine months ended Sept. 30, 1990, decreased to 4,273,465 from 4,273,584 for the previous period in 1989.

During the third quarter, revenues from the company's computerized flood hazard area identification system increased to $304,000 from $40,000 in the third quarter of the previous year. The $304,000 was a 58 percent increase over the $192,000 in revenues in the second quarter of 1990.

The company's board of directors has declared its quarterly dividend of 5 cents per share of common stock outstanding which will be payable to the holders of record on Nov. 7, 1990. Such dividend will be paid on Nov. 21,

1990.

SAN JOSE, CALIF. (NOV. 5) BUSINESS WIRE - Sun Microsystems Monday announced their next-generation SPARCstation and SPARCserver products based on Cypress Semiconductor's 40 MHz CY7C601 32-bit SPARC microprocessor and the CY7C157 16K x 16 Cache Storage Unit (CSU).

The Cypress CPU and CSUs will be integrated into Sun's SPARCstation 2 and SPARCserver 2 offerings, positioning them as the highest performance products available in their class.

In addition, Sun has made field upgrades to the new systems available to their existing SPARC customers to enable them to take advantage of the higher speeds offered by the faster CY7C601 Cypress chip.

The SPARCstation 2 and SPARCserver 2 mark Sun's commitment to improve and expand upon their SPARCstation 1 and SPARCserver 1 product lines, the industry's most successful RISC workstations and servers. These products, based on the SPARC architecture, deliver performance of 21 SPECmarks, 28.5 MIPS, and 4.2 MFLOPS (double-precision Linpack).

In addition, the SPARCserver 2 machines provide exceptional I/O performance with very high database transaction throughput of 51 transactions per second.

Cypress, through its ROSS Technology subsidiary, provides a complete SPARC RISC chipset, including the CY7C601 Integer Unit, the CY7C604 Cache Controller & Memory Mangement Unit, the CY7C157 Cache Storage Unit, and the CY7C602 Floating Point Unit.

Cypress Semiconductor Corp. is a leader in the design, development and manufacture of a broad line of high-performance digital integrated circuits, fabricated using its proprietary 0.8 micron CMOS technologies.

Cypress offers a range of products, including RISC microprocessors and peripherals (from its ROSS Technology subsidiary), CMOS PLDs (programmable logic devices), static RAMs (random-access memories), PROMs (programmable read-only memories), logic devices, high-speed BiCMOS and bipolar ECL (emitter-coupled logic) devices, and high-speed multichip modules.

ROSS Technology Inc., is a subsidiary of Cypress Semiconductor Corp. ROSS is a leader in the design, development and manufacture of high-performance SPARC RISC microprocessor products.

     #90309b0160 11/05/1990 ~Business Wire

SAN FRANCISCO (NOV. 5) BUSINESS WIRE - Sun Microsystems Monday unveiled the fastest workstation the company has ever developed: the SPARCstation 2.

This new system makes up the high end of Sun's best-selling desktop product line, which already includes the entry-level SPARCstation SLC and low-cost color SPARCstation IPC. When combined with Sun's broad selection of servers, wealth of third-party software and ease-of-use features, these systems offer a complete solution for ''workgroup'' computing.

This solution increases and organization's productivity by using computers -- Sun workstations and servers -- to network people, or groups of people.

Racing along at 21 SPECmarks and utilizing Sun's rich UNIX operating environment, the SPARCstation 2 is geared for the most demanding applications. It is available in a variety of models, ranging from a powerful, full-featured base system to a pair of high-performance 3-D graphics workstations and a new, low-cost server version.

Another advantage of Sun's SPARC line is SPARCware: 2,100 products that include the industry's largest selection of RISC software. SPARCstation 2: Power In A Pizza Box

The SPARCstation 2 line was designed for prudent spenders who still demand very high performance and versatility. All systems in the line achieve 21 SPECmarks, or 28.5 MIPS (million instructions per second) and 4.2 MFLOPS (million floating point operations per second).

The entire processor board fits into a space no larger than a sheet of paper (8.5 by 11 inches). All configurations come standard with 16 megabytes of memory, double the built-in memory on most high-end workstations.

In the base monochrome configuration, the SPARCstation 2 has ample display space in its large 19-inch monitor and the kind of processing power needed for very complex tasks. Thus users can simulate software designs, perform schematic circuit design capture, manage large databases or use the system in research labs.

With its power and low price, this system -- combined with high-performance Sun servers -- is a thrifty replacement for terminals and costly mainframes or minicomputers. An entry-level monochrome SPARCstation 2, including both

floppy and hard disk drives, is priced at $14,995 (U.S. list).

Sun Microsystems Inc., with headquarters in Mountain View, is a leading worldwide supplier of network-based distributed computing systems, including professional workstations, servers and UNIX operating system and productivity software.

#90309b0177 11/05/1990 ~Business Wire

LOS ANGELES (NOV. 5) BUSINESS WIRE - Teradata Corp. (NASDAQ:TDAT) Monday announced the availability of the Optical Call Level Interface (OCLI).

With OCLI, Teradata extends the capability of its relational Data Base Computer (DBC/1012) through optical storage technology.

Relational databases can now be stored on Teradata's Optical Storage Processor (OSP) and accessed via the industry standard Structured Query Language (SQL).

A typical use for OCLI would be applications that need to access vast amounts of data that has decreasing utilization over time. Because of the decrease in utilization, this data cannot be cost-effectively kept on expensive magnetic media so, as it ages, it is migrated to magnetic tape or microfiche.

Once migrated, data access is much more difficult and time consuming, and therefore the data falls into obscurity despite the fact that it may still retain significant value. Users can extend the life and value of this data by migrating it to the OSP and accessing it via SQL.

This unique integration of the database computer with optical storage allows DBC/1012 relational capabilities to be applied to the very large amounts of data capable of being stored on an optical device. The OSP provides a storage capacity of hundreds of billions of bytes of data at a lower cost than magnetic storage.

OCLI permits user applications to migrate data to and access data from relational databases on both the OSP and DBC/1012 and access is totally transparent to the user.

OCLI is priced at $50,000 (U.S.) and available immediately. For more information, contact your local Teradata sales representative, or Ben Barnes at 213/524-5000.

SANTA CLARA, CALIF. (NOV. 5) BUSINESS WIRE - 3Com Corp. Monday announced it has entered into an exclusive agreement with Palindrome Corp. of Naperville, Ill., to jointly develop LAN Manager-based data network backup products based on Palindrome's System Storage Management Technology.

The new products will be marketed to network administrators and MIS departments, who need to simplify the complex tasks associated with network data restoration, archiving and storage management.

''As data networks grow in complexity and strategic importance, protecting mission-critical data is becoming both more difficult and more important,'' said Alan Kessler, vice president of 3Com's distributed systems business. ''3Com is the only vendor of server-based backup systems integrated with LAN Manager. In joining forces with Palindrome, 3Com will expand its data storage product offering to include products that ensure network-wide data protection and security while simplifying the data management process.''

Ron Birchall, president of Palindrome, said: ''Until now, network data backup technology has lagged behind network communications technology, yet data storage and maintenance are critical areas for network administrators. Working with 3Com provides Palindrome with an excellent opportunity to bring our expert system and data archiving experience to the LAN Manager server market, providing network administrators with a truly valuable tool.''

3Com Corp. is a leading independent global data networking company, providing multivendor connectivity that spans organizations and businesses worldwide. The company designs, manufactures, markets and supports a wide range of

networking systems based on industry standards and open systems architecture.

MILPITAS, CALIF. (NOV. 5) BUSINESS WIRE - Quantum Corp. (NASDAQ:QNTM), a leading supplier of high-performance hard disk drives for the computer industry, announced Monday the addition of five prominent regional distributors to its North American sales network.

Wyle Laboratories, Pioneer Standard, Pioneer Technology, Bell Microproducts and Computer Brokers of Canada will join forces with Quantum's existing distributors in supplying Quantum's broad line of high-performance, high-quality, small-form factor hard disk drives to the markets served by distribution channels.

Under the new agreements, Wyle Laboratories will distribute Quantum products throughout the Western United States, Pioneer Standard within the Midwest and Northeast, Pioneer Technology in the Southeast, and Bell Microproducts in California.

Computer Brokers of Canada, the largest computer products distributor in Canada, will distribute Quantum's products in Canada.

These new agreements permit the five new distributors to sell Quantum's entire product line: the ProDrive Series of 3-1/2-inch, 42-426 megabyte drives; the 1-inch high, ProDrive LPS products; the recently announced ProDrive Gem Series quarter-height, low-power drives for portable and low-end personal computers; and the Go-Drive Series of 42 and 84 megabyte 2-1/2-inch drives designed for use in laptop and notebook systems.

According to Steve Berkley, chairman and chief executive officer of Quantum, this expansion of Quantum's distribution network follows several major product and OEM customer announcements made by the company over the past few months and is part of the company's strategic plan to increase sales and broaden its customer base.

Since its founding in 1980, Quantum has emerged as a leading independent manufacturer of reliable, high-performance, mass storage systems for business, engineering, and scientific computing. The publicly held company offers products designed for desktop workstation and personal computer applications. Quantum markets its drives to OEMs and distributors worldwide.

Plus Development Corp., a Quantum subsidiary established in 1983, designs and markets personal computer storage enhancement products for end users through

2,500 dealers worldwide.

CARROLLTON, TX (NOV. 5) BUSINESS WIRE - Westcott Communications Inc., (NASDAQ:WCTV) operator of the Law Enforcement Television Network (LETN) and the Automotive Satellite Television Network (ASTN), Monday reported net income of $550,000, or 7 cents per share, for the three months ended Sept. 30, as compared to a net loss of $571,000, or 8 cents per share, for the like quarter of 1989.

Revenues for the third quarter of 1990 were $5,670,000, as compared to $4,018,000 for the like quarter of 1989. For the nine months ended Sept. 30, Westcott Communications had net income of $1,023,000, or 13 cents per share, on revenues of $16,376,000, as compared to net loss of $447,000, or 7 cents per share, on revenues of $11,341,000 for the nine months ended Sept. 30, 1989.

As of Sept. 30, there were approximately 4,400 and 1,900 revenue sites for ASTN and LETN, respectively.

The company attributes the higher third quarter earnings as compared to third quarter 1989 to the increased number of revenue producing LETN subscribers. LETN was formed in December 1988, on July 3, 1989 began transmission on its regular 24-hour per weekday schedule.

As of Sept. 30, approximately 2,050 law enforcement agencies were subscribers to LETN. Subscription fees, which range from $288 to $588 per month, depending on the size of the agency, commence from the date subscribers begin receiving the programming.

The company announced the launch of the Professional Security Television Network (PSTN) on Sept. 6. Broadcasting of PSTN programming is planned to begin in the first quarter of 1991.

As of Sept. 30, approximately 4,700 dealerships were subscribers to ASTN.

#90309b0222 11/05/1990 ~Business Wire

LOS ANGELES (NOV. 5) BUSINESS WIRE - Mercury General Corp., a major California automobile insurer, reported Monday that net income for the nine months ended Sept. 30, 1990, was $32.6 million, or $2.42 per share, compared with $11.6 million, or 86 cents per share, reported a year ago.

Year-to-date results include a provision for potential rate refunds under Proposition 103, the California insurance initiative enacted in November 1988, of $7.4 million before taxes.

This includes $565,000 of interest recorded in the third quarter. The Proposition 103 provision reduced earnings for the full nine months by 36 cents per share after taxes. The after-tax earnings impact of the Proposition 103 provisions in the first nine months of 1989 was $1.42 per share. Per-share results in both periods are based on 13.5 million outstanding shares.

Net income in the third quarter was $12.4 million, or 92 cents per share. In the 1989 third quarter, earnings of 14 cents per share were reported after a $17.7 million provision for potential rate refunds which reduced earnings for that period by 86 cents per share.

The company's reserve for potential Proposition 103 rate refunds totaled $22.4 million at Sept. 30, 1990. Except for accrual of interest of $565,000 in the third quarter, equal to 3 cents per share after taxes, the reserve was unchanged from the level recorded at June 30, 1990.

Proposition 103 substantially revised the California insurance code and mandated a 20 percent rate rollback for policies issued or renewed during the period Nov. 9, 1988, to Nov. 8, 1989. The Proposition was upheld in part by the California Supreme Court in May 1989. The court held that premium refunds could not be imposed if they produced less than a ''fair return'' to the insurance company.

As reported earlier, the June 1990 decision of the California Insurance Commissioner culminated some six months of ''generic'' hearings addressing the ''fair return'' issue as it applies both to prior approval and the rate rollback period.

Regulations have been issued implementing that decision, and the company has responded to the Insurance Department's request for detailed financial information for the rollback period. The company has not received any rate

refund order but such orders have been issued to two other California insurers and hearings on those orders are underway.

#90309b0229 11/05/1990 ~Business Wire

REDWOOD SHORES, CA (NOV. 5) BUSINESS WIRE - Oracle Corporation today announced that its suite of Computer-Aided Software Engineering (CASE) tools are now available on the OS/2, MS-DOS and VAX/VMS operating systems as well as a variety of UNIX computers ranging from workstations to mainframes.

With this announcement, Oracle's CASE tools bring advanced software development capabilities to the industry's most popular development environments.

''Oracle is the only vendor with a multi-user, portable, integrated and distributed CASE offering,'' said Richard Barker, Oracle's senior vice president of CASE. ''The breadth of platforms supported in this introduction is representative of the strength of Oracle's commitment to this market.''

Oracle CASE tools address the entire life cycle of a development project from strategic analysis through production. The Oracle CASE tools are:

-- CASE Dictionary -- a shared repository of enterprise and application information.

-- CASE Designer -- a graphical workbench linked directly to the dictionary for modeling and cross checking systems analysis and design.

-- CASE Generator for SQL Forms -- an automatic application generator driven directly from the dictionary.

-- CASE Method -- a set of practical, rigorous techniques that guide developers through a system's entire life cycle.

Oracle CASE tools assist the activities of every member of a development team, including analysts, designers, programmers, and data administrators, and support a variety of software development methods. Development activity can occur in a variety of client-server configurations, and applications developed by Oracle CASE can run without change on over 80 hardware platforms.

Unlike other CASE products, Oracle's CASE tools allow teams of users to jointly develop applications in a real-time environment. The ability to instantaneously access and update systems-related information in the underlying repository (CASE Dictionary) provides consistency and integrity of

that information.

Oracle Corporation, headquartered in Redwood Shores, is the largest supplier of RDBMS software and the third largest software and services company in the world.

#90309b0230 11/05/1990 ~Business Wire

TORONTO (NOV. 5) BUSINESS WIRE - Lawson Mardon Group Ltd. (ASE:LMG)(LSE:LMG) Monday announced that earnings for the third quarter increased by 66.0 percent to $8.3 million, or 28 cents per share, from $5.0 million, or 17 cents per share, in the third quarter of 1989.

The 1989 results included a $1.6 million (6 cents per share) one time charge for the reorganization of North American operations. There were no significant one-time charges in the first three quarters of 1990.

Sales in the third quarter increased by 17.0 percent to $293.5 million from $250.8 million in the third quarter of 1989. Of this percentage increase, 3.4 percent was as a result of acquisitions and 8.5 percent resulted from increases in the average rate of exhange in the countries in which the company operates.

The residual $10 million increase pertains to ongoing operations which were owned during both periods.

Two divisions, Packaging, North America, and Graphics, North America, recorded lower sales.

Packaging, North America's third quarter sales of $35.2 million were slightly lower than in the like period of 1989 largely because of production interruptions brought about by equipment moves.

During the quarter, Graphics, North America, acquired the label producing assets of U.S.-based H.S. Crocker Co. Inc., and now is comprised of five label facilities, two commercial printing and four trade finishing operations.

While sales and operating earnings of the label operations increased during the third quarter, over capacity and weakened demand in both the commercial

printing and trade finishing operations reduced overall sales for the division.

Tapp said sales for the nine months increased to $815.5 million from $756.0 million in the like period of 1989. Earnings from operations for the nine months were $58.2 million compared with $54.5 million for the like period of 1989.

Earnings per share increased by 25.4 percent for the nine months to 79 cents from 63 cents in 1989.

The Lawson Mardon Group produces flexible, rigid plastic, metal and folding carton packaging, and is engaged in commercial printing, label making and print trade finishing, with operations in Canada, the United States, the United Kingdom, Ireland, Germany and France.

SAN JOSE, CA (NOV. 5) BUSINESS WIRE - Hyundai Electronics is entering 1991 with a new corporate identity that symbolizes the company's stature as a major global manufacturer and supplier of electronics products and personal computers, according to Y. H. Kim, president and chief executive officer of Hyundai Electronics America.

The new logo, which incorporates three spheres with the Hyundai name, represents Hyundai's strength and commitment in the worldwide electronics industry. Hyundai's growth and influence are reflected in the many corporations around the world that are seeking Hyundai as an electronics business partner.

Hyundai Electronics Industries (HEI), based in Seoul, Korea, will use the new look for all of its entities, which include Industrial Electronics, Telecommunications, Components, Information Systems and Semiconductor.

The Information Systems, Semiconductor, and Assembly/Test divisions of Hyundai Electronics America, based in San Jose, will be phasing in the new corporate identity over the next few months.

HEI belongs to the $32 billion Hyundai Group, the largest industrial group of companies in Korea and among the top Fortune 30-size companies internationally.

HEI is one of the largest manufacturers of personal computers and various memory chips in Korea, and a major provider of Hyundai-brand personal computers and memory chips in the United States, with a wide range of product known for quality, reliability, and value.

Hyundai was recently ranked number one in total satisfaction among major PC manufacturers in a survey of independent dealers and franchisees conducted by the market research firm, StoreBoard. Hyundai is located at 166 Baypointe Parkway, San Jose, CA 95134; phone (408) 473-9200.

NEW YORK (NOV. 5) BUSINESS WIRE - INVG Mortgage Securities Corp. (NASDAQ: INVG), a holding company of issuers of collaterized mortgage obligations, reported that the board of directors declared a distribution of 20 cents per share payable on Nov. 29, to shareholders of record on Nov. 15.

This dividend represents a decrease from last quarter's dividend as a result of the board of directors' decision to maintain a healthy cash reserve following the recent successful repurchase for $1,158,375 of one-half of the company's outstanding Series A Preferred Stock with an approximate redemption value of $4,045,200.

As previously reported, because of the effect of the company's net operating loss carryforwards, this distribution will be treated as a return of capital to the shareholders.

#90309b0270 11/05/1990 ~Business Wire

SAN DIEGO (NOV. 5) BUSINESS WIRE - Sym-Tek Systems Inc. (NASDAQ:SYMK) has been signed by Texas Instruments (NYSE:TXN) as the authorized distributor of die bonders, cure systems, wire bonders and linked assembly modules.

Under this agreement, Sym-Tek will serve as distributor for these systems, developed by TI's Process Automation Center (PAC) in Dallas, which has provided much of the manufacturing technology used in TI's manufacturing sites for over 25 years.

In addition to meeting TI's internal requirements, PAC has recently begun to market selected manufacturing equipment outside TI to support TI's customers.

Under the terms of the agreement, Sym-Tek will concentrate on sales, service and applications support for TI's ABACUS die bonders, cure systems, ABACUS wire bonders and an assembly module that links these three systems. Driven by a Manufacturing Area Controller (MAC), this linked module contains a die bonder, quick-cure oven and one or more dual-headed wire bonders.

This combination significantly reduces space and labor requirements while generating productivity and quality levels that exceed what the components can achieve independently.

The die bonder system performs high-speed, fully automatic bonding of dies to leadframes used in plastic integrated circuit packages. Its flexible transport system allows the system to quickly accommodate PDIP, PLCC, SIP, SO, SOJ, QFP and ZIP packages through operator commands entered at the control keyboard.

The quick-cure oven contains programmable heating zones above and below the die-bonded leadframe. Four heaters above the leadframe provide heated, clean air, which flows over the bonded dies while the four heaters below provide the actual cure temperature.

The fully automated, dual-headed, gold wire bonder is capable of bonding at virtually twice the speed of leading single-head systems. Using TI's advanced vision technology, leads are located dynamically from device to device, enabling the machine to accommodate a broad range of leadframes through the keyboard-adjustable transport system.

Texas Instruments Inc., with headquarters in Dallas, is a high-technology company with sales and operations in more than 30 countries. TI develops, manufactures and markets semiconductors, defense electronic systems, software productivity tools, computer systems, industrial automation and control systems, electrical controls, metallurgical materials and consumer electronic products.

Sym-Tek Systems Inc., with headquarters in San Diego, develops, manufactures and sells automated electromechanical handlers that heat or cool integrated circuits to precise temperatures, place them into position for testing and sort them based on test results.

VANCOUVER, B.C. (NOV. 6) BUSINESS WIRE - Wayne K. Hansen, president of Stelway Food Services Inc. (V.S.E.:SWF.) wishes to announce that Stelway has entered into a Letter of Intent to consider the merger of the company with European Middle Industry Venture Capital Inc. (EMI), a U.S. public corporation.

The resulting entity would then change its name to Confucius Inc. Upon completion of the merger the present executive officers and directors of Stelway would become the executive officers and directors of Confucius Inc. While details have not yet been settled pending receipt of final legal and tax advice, it is anticipated that EMI will make a registered offer of its shares on a one for one basis to all Stelway shareholders.

In addition, one warrant for each five shares of Stelway would be issued to purchase an additional share of EMI common stock. Warrants would be exercisable for three years at an exercise price of $3 U.S. per share. The merger agreement will be subject to approval by the boards of directors for the respective corporations, and their shareholders if necessary, and of the applicable regulatory authorities.

The proposed merger, if it proceeds, will not result in a reverse take-over of Stelway.

The Vancouver Stock Exchange has not reviewed and does not accept responsibility for the adequacy or accuracy of this release.

#90309b0282 11/05/1990 ~Business Wire

SAN JOSE, CALIF. (NOV. 5) BUSINESS WIRE - Businessland Inc. (NYSE:BLI) Monday reported financial results for the first quarter of its 1991 fiscal year which ended Spet. 30, 1990.

In the first quarter of fiscal 1991, the company reported revenues of $308,898,000, down 2.2 percent from the first quarter of fiscal 1990. The company posted a net loss for the first quarter of fiscal 1991 of $19,886,000, inclusive of a restructuring charge of $4.5 million resulting in a net loss per share of 67 cents.

This compares with revenue of $315,857,000 and net income of $4,263,000, or 14 cents earnings per share, for the period ended Sept. 30, 1989.

The first quarter loss reflected losses in both domestic and foreign operations, due to disappointing sales and lower margins on some products. Additionally, the company provided a restructuring charge of approximately

$4.5 million for severance pay for staff reductions, as well as the closing of addtional facilities.

''We've made the hard decisions and are making progress toward major reductions in our operating expense and increasing productivity in all areas of our business,'' said David A. Norman, chairman, president and chief executive officer.

''The four-point plan we announced last month is beginning to have an impact '' Norman continued. ''Our target for worldwide staff reductions was 10 percent and we have increased this target to 20 percent. By Nov. 1st, we had exceeded our goal of reducing inventories by $50 million, achieving reductions of $67 million worldwide.

Founded in 1982, Businessland Inc. is an international leader in the distribution, integration and support of microcomputer and workstation systems for business. The company integrates microcomputer products from selected manufacturers to create systems tailored to specific customer needs and provides the high-level service and support to maximize their productivity.

AKRON, OH (NOV. 6) BUSINESS WIRE - General Tire announced Monday its intention to restructure the company's replacement sales distribution system.

This action will better allow General Tire to focus on its core manufacturing business and distribution system through its strong independent dealer network.

This restructuring may involve the sale of some or all of its 90 company-operated Retail Stores, located throughout the U.S. and Puerto Rico, to existing or new dealers.

''This action,'' according to Tom Reese, executive vice president of sales and marketing, ''positions General Tire to place a greater focus on its dealer network which is the backbone of the General Tire brand replacement business. We want to confirm the sum and substance of our business -- a world-class manufacturer and supplier of quality tire products, serving both the original equipment and replacement markets.''

While the details behind this decision have not yet been finalized, General Tire clearly intends to maintain a strong ongoing presence at all locations involved in the restructuring. General Tire believes this realignment will build on an already successful business relationship with dealers as well as improve the efficiency in which General Tire distributes its products.

General Tire is the largest unit of Continental AG of West Germany, the fourth largest tire manufacturer in the world.

TORONTO (NOV. 5) BUSINESS WIRE - Four Seasons Hotels Inc. (TSE,ME:FSH.) announced Monday that net earnings for the quarter ended Sept. 30, 1990, increased 19.2 percent to $4 million, from $3.4 million for the same period in 1989.

This improvement is attributed to the deconsolidation of the Santa Barbara hotel and solid operating results from our management activities.

In particular, a strong quarter at the Four Seasons Hotel, Chicago, which opened March 1989; additional fee revenues from the Four Seasons Resort, Wailea, Maui, which opened March 20, 1990; and the fees generated from our hotels and resorts under development helped increase management earnings.

On a normalized basis, earnings for the first nine months of 1990 increased in line with our long-term 10 to 15 percent growth target over the first nine months of 1989, after removing the effect of the sale of the Four Seasons Hotel, Ottawa which occurred March 7, 1990 and the effect of the deconsolidation of the Four Seasons Biltmore Hotel, which took place in the second quarter of 1990.

Including the effect of these two items, net earnings for the nine months ended Sept. 30, 1990 increased 37.3 percent to $12.7 million, from $9.2 million for the nine months ended Sept. 30, 1989.

Revenues under management for the three months ended Sept. 30, 1990 were $164.8 million, an increase of 4.3 percent over the same period in 1989. For the first three quarters, revenues under management increased 5.3 percent to $486.9 million, from $462.3 million for the first three quarters of 1989.

Four Seasons Hotels is the world's largest operator of hotels and resorts exclusively in the luxury class, and currently owns and/or operates 23 properties in Canada, the U.S. and England, and has 10 hotels and resorts under development.

Four Seasons resorts under development are located in Kona, Hawaii; Nevis, West Indies; Carlsbad, California; Scottsdale, Arizona; Costa Isabela, Puerto Rico; and Ko Olina, Oahu, Hawaii.

International urban hotels under development are located in Mexico City, Tokyo Paris and Singapore.

SANTA ANA, CA (NOV. 5) BUSINESS WIRE - California Commercial Bankshares Monday announced that it issued to its shareholders a total of 309,861 transferable rights to subscribe for shares of the company's common stock, on the basis of one right for each six shares of common stock held of record as of Oct. 22.

Each right entitles the holder thereof to purchase one share of common stock at the price of $13 per share. The rights will expire if not exercised prior to 5 p.m. Pacific time on Nov. 30, unless extended for up to 30 days in the company's discretion.

California Commercial Bankshares intends to contribute the net proceeds of the offering to its banking subsidiary, National Bank of Southern California to use in the ongoing operations of its banking business. National Bank of Southern California maintains offices in Santa Ana, El Toro and Orange.

A written prospectus can be obtained from: William H. Jacoby, California Commercial Bankshares, 3951 S. Plaza Drive, P.O. Box 26170, Santa Ana, Calif. 92799-6170; 714/641-8500.

HAYWARD, CA (NOV. 5) BUSINESS WIRE - Kenneth E. Anderson, president of Monitek Technologies Inc. (NASDAQ:MTEK), Monday announced operating results for the second quarter and first half of fiscal 1991.

Net income for the second quarter ended Sept. 30, 1990, was $7,718, compared with $33,897, reported in the like period a year ago. Net sales for the quarter were $2,065,158, compared with $2,137,860, in fiscal 1990.

First half net income was $12,129, compared with $35,851, last year. Net sales for the period were $3,900,108, compared with $3,986,348, in the same period last year.

In reviewing operations, Anderson indicated that the company's sales and earnings were somewhat impacted during the first half of fiscal 1991 as a

result of a downturn in domestic and export orders which was partially offset by increased sales to Continental Europe and price increases which averaged approximately 4 percent for all product lines.

During the first half of fiscal 1991 domestic sales declined by 11 percent, compared to fiscal 1990, whereas sales made by Monitek GmbH to Continental Europe increased by 24 percent. Even though there was a decline in bookings, the inquiry and quotation levels are significantly higher than normal, which is expected to result in higher bookings in the second half, as new products gain more acceptance, he said.

Monitek Technologies is a rapidly growing, technologically advanced instrument manufacturer at the forefront of the liquid monitoring industry. Utilizing optical, magnetic, ultrasonic and acoustical technologies, the company can analyze and measure liquids used in industrial and waste water environment.

#90309b0337 11/05/1990 ~Business Wire

PLYMOUTH, MA (NOV. 5) BUSINESS WIRE - Plymouth Five Cents Savings Bank (NASDAQ:THFI) Monday reported a net loss of $8,798,000, or $3.83 per share, for the three months ended Sept. 30, 1990, as compared to net income of $206,000, or 9 cents per share, for the same quarter last year.

For the nine month period ended Sept. 30, 1990, the bank reported a net loss of $14,249,000, or $6.20 per share, as compared to net income of $349,000, or 15 cents per share, for the nine months ended Sept. 30, 1989. The loss for the quarter and the nine month period was primarily attributable to an increased provision for possible loan losses.

The bank added $7,525,000 to its provision for possible loan losses during the third quarter of 1990, as compared to $657,000 for the same period in 1989. For the nine month period ended Sept. 30, 1990, the provision for possible loan losses was $12,985,000 as compared to $771,000 for the nine month period ended Sept. 30, 1989.

During the third quarter the bank charged off $10.5 million in loans and wrote down the value of its real estate acquired through foreclosure and other real estate owned by $884,000. Total non-performing assets were $21.4 million at Sept. 30, 1990, as compared to $19.7 million at June 30, 1990. The bank's allowance for loan losses at Sept. 30, 1990, was $4,711,000 which represents 1.9 percent of its total loan portfolio and 35.2 percent of its non-accrual

loans at that time.

Elliot Chassey, president, chief executive officer and chairman of the board, said, ''third quarter financial results reflect economic conditions in the bank's market and the continued deterioration of real estate values.'' Chassey further noted that management's decision to charge off additional loans and increase the provision for possible loan losses beyond levels previously anticipated was in response to preliminary results of a recently completed FDIC examination.

Total assets at Sept. 30, 1990, were $307,933,000 and deposits were $223,032,000. Total stockholders equity equaled $14,378,000, or 4.7 percent of assets. The bank's capital ratio for FDIC purposes was 5.83 percent. Book value per share was $6.25.

The Plymouth Five Cents Savings Bank is a Massachusetts chartered savings bank organized in 1855 which conducts business from offices in Plymouth, Manomet, West Plymouth, Kingston, Duxbury, Marshfield, Middleboro and Bridgewater. Deposits are insured in full by the Federal Deposit Insurance Corp. and the Mutual Savings Central Fund Inc.

SOUTH SAN FRANCISCO, CA (NOV. 5) BUSINESS WIRE - Imatron (NASDAQ:IMAT) announced Monday that it has extended the expiration date of its publicly traded 1990 warrants for 90 days to Feb. 10, 1991.

The 1990 warrants are exercisable at a price of 75 cents per share. The warrants were scheduled to expire on Nov. 12.

Imatron Inc. designs, manufactures, and markets CT products for medical diagnostic imaging and industrial applications. Imatron products include the electron-beam Ultrafast CT scanner, which captures high speed images of the heart as well as radiological chest and body scans free of motion-induced artifacts.

The company also produces compact CT products that provide high throughput and continuous scanning capability in medical imaging.

ALBANY, N.Y. (NOV. 5) BUSINESS WIRE - Home & City Savings Bank announced Monday that its board of directors had authorized the bank's legal and financial advisors to enter into discussions with representatives of Rose Associates I, L.P. for the purpose of determining whether certain concerns of the bank relating to the feasibility of Rose Associates' recently announced acquisition proposal could be alleviated.

The bank also said that it would explore with Rose a mutually agreeable procedure for determining whether any other Home & City shareholder would be willing to join Rose's acquisition group.

As previously disclosed, Rose's proposal contemplates that the holders of 40 percent of Home & City's common stock, including Rose, would become shareholders in the entity which is proposed to be organized to purchase the bank rather than receiving $24 in cash and a $4 principal amount of unsecured subordinated debentures for each share of Home & City stock.

John J. Brunner, chairman, president and chief executive officer of Home & City, stated: ''Before the board of directors can adequately consider the merits of Rose Associates' offer, it must determine whether the proposal is viable. Therefore, the board has concluded that the commencement of a dialogue with the Rose group is appropriate.''

Home & City also announced that Rose Associates informed the bank that the $4 in principal amount of unsecured subordinated debentures which Rose proposes to pay per share would have an interest rate of 9 percent, which is more than 3 percent below the interest rate which Rose has proposed to pay on the senior secured debt to be borrowed from the senior lender.

Accordingly, the unsecured subordinated debentures are expected to have a value far below face value.

In a related development, Home & City announced that Rose Associates has submitted a resolution to amend the Bank's By-laws to increase the size of its Board of Directors to 17 members. In response to this development, Brunner stated: ''Since receipt of the Rose offer, the bank has cooperated with Rose Associates in an effort to assess their offer's merits, including its feasibility.

''Rose's latest actions lead us to question whether Rose is sincere in its stated desire to complete the proposed acquisition. Nevertheless, the bank intends to continue its efforts to resolve its concerns regarding the Rose offer.''

#90309b0360 11/05/1990 ~Business Wire
LAS VEGAS, NEV (NOV. 5) BUSINESS WIRE - A new VAR program that gives value added resellers exclusive rights to selling the popular InBox Plus E-mail product was introduced by Sitka Corp. Monday.

Aimed at Novell Platinum VARs, 3COM and Sun Microsystems VARs and other high volume local area network integrators, the program is an opportunity for VARs interested in broadening the scope of the integration services they provide, and increasing revenues generated from training and support.

''E-Mail is the next big area of revenue potential for the LAN resellers who focus on providing integration services,'' said Ed McGinnis, Sitka's director of corporate sales. ''We want to partner with these VARs, and work together selling E-mail into large accounts where the network is already installed.''

InBox Plus is a complete electronic mail solution for networks of any size. It provides consistent and full-featured mail services to users on both Macintosh and DOS personal computers, and operates on most popular networks including LocalTalk, AppleShare, TOPS, NetWare, 3+ and LAN Manager.

InBox Plus is the only E-Mail system capable of supporting fully functional message centers on both DOS-based and Macintosh computers. This capability allows users to seamlessly exchange messages across networks made up of many different kinds of computers.

Qualified VARs are required to maintain a minimum of one InBox Plus E-mail system at their facility for demonstration purposes. And, resellers must obtain certification through Sitka's ''Train the Trainer'' course.

Sitka Corp. (formerly TOPS) is a leading supplier of networking software for IBM personal computers and compatibles, Apple Macintosh computers and Sun Workstations. Sitka's networking and electronic mail software provides the best solution for business needing to connect disparate platforms and environments.

With more than 750,000 users worldwide, the Sitka Corp. has the world's second largest installed base of LAN software.

#90309b0602 11/05/1990 ~Business Wire

CAMARILLO, CA (NOV. 5) BUSINESS WIRE - Vitesse Semiconductor Corp. Monday announced the availability of the FX Series of VLSI high-performance gallium arsenide gate arrays.

With the first products in the FX Series offering over 100,000 usable gates on a single chip, Vitesse now provides the same level of integration as biCMOS gate arrays while still offering the high speed of lower-integration bipolar ECL gate arrays.

The FX Series represents over a three-fold increase in integration compared with Vitesse's existing FURY Series gate array family. Aimed at the computer and communications markets, the FX arrays are ideally suited to high-performance processors and advanced switching network applications.

The FX Series consists of three arrays implemented in a channelless architecture. The first two devices, the VGFX100K and VGFX200K, are available for designs immediately and offer 102,000 and 195,000 raw gates, respectively. Designs for the VGFX350K, sized at 353,000 raw gates and the largest member of the FX Series, will be accepted in the second quarter of 1991.

Utilization for the FX Series ranges from 50 percent to 70 percent of the total available internal cells. The VGFX100K will support up to 196 signal I/O and comes in either a 211-pin ceramic PGA or a 256-pin ceramic LDCC. The VGFX200K offers up to 256 signal I/O and is available in a 344-pin ceramic LDCC.

The VGFX350K will support from 360 to over 400 signal I/O depending on the mix between input and output signals. All I/O on the FX arrays are configurable to ECL, TTL or native GaAs levels.

The FX Series is manufactured using Vitesse's proprietary 0.6-micron H-GaAs III process. An unbuffered 2-input NOR gate implemented in an FX array has a worst-case delay of 50 ps (unloaded) and consumes only 0.14 mW of power. The FX Series' speed-power product of 7 fJ is unmatched by either ECL (at approximately 50 fJ) or biCMOS (at approximately 25 fJ at 100 MHz).

Typical power dissipation assuming a 50 percent gate utilization is 8 watts

for the VGFX100K and 14 watts for the VGFX200K.

Embedded SRAM blocks of up to 100K bits and multiport register files can also be designed into the FX Series arrays. Typical RAM access times range from 3 ns to 3.5 ns depending on the RAM size and configuration.

The FX Series gate arrays are price/performance comparable with biCMOS arrays and lower in price than competitive ECL devices. Designs are supported on Mentor and Valid design platforms. Certified libraries for Verilog behavioral simulation and Synopsys logic synthesis tools are also available. Design inputs are being accepted now, and production volumes will ship the first quarter of 1991.

Vitesse Semiconductor Corp. is the world's leading supplier of digital GaAs integrated circuits. The company was founded in 1984 to develop, manufacture and market cost-effective VLSI GaAs ICs.

Using a proprietary GaAs process incorporating proven silicon manufacturing technology, Vitesse supplies a broad family of ASIC, standard logic and RAM products to the computer, telecommunications, equipment and defense electronics markets. The company has its headquarters in Camarillo, 40 miles north of Los Angeles.

#90309b0610 11/05/1990 ~Business Wire

BOSTON (NOV. 5) BUSINESS WIRE - Borland International (NASDAQ:BORL) Monday announced and started shipping the newest version of Turbo Pascal, its popular object-oriented programming language.

Since its introduction in 1983, Turbo Pascal has become the world standard, used by more than 2 million Pascal programmers worldwide.

''Turbo Pasal 6.0 offers computer programmers the latest in object-oriented technology, giving them the ability to create software applications faster than ever before,'' said Philippe Kahn, Borland's chairman, president and chief executive officer.

Turbo Pascal 6.0 will be supported by third-party library and tool vendors as well as trade, professional and educational publishers. More than 25 new Pascal books will be published for users at all experience levels.

Among these is ''Turbo Pascal 6: The Complete Reference,'' part of the Borland Osborne/McGraw-Hill Programming Series.

The new features in Turbo Pascal 6.0 include:

Turbo Vision, which puts the ability to write professional-quality applications within the reach of every programmer. This application framework allows programmers to start from a generic, inheritable application with complete built-in support for overlapping windows, pull-down menus, handling of mouse and keyboard events. Turbo Vision's data management capabilities include extensible collection types and the ability to save and load persistent objects.

A new Integrated Development Environment, which offers high programmer productivity by offering overlapping windows and mouse support, a new multi-file editor, dialog boxes, cut-and-paste clipboard and integrated debugging with a new register window and conditional breakpoints.

Turbo Pascal 6.0 also features an online tutorial and Turbo Help, a comprehensive hypertext help system.

Turbo Pascal 6.0's new built-in assembler gives programmers complete access to Pascal symbols and allows the easy addition of assembly language routines to boost the performance of Pascal code.

Turbo Pascal Professional 6.0 includes all the features in Turbo Pascal 6.0 plus:

The command-line Turbo Drive compiler, which runs in extended memory and allows compilation of very large DOS applications.

The award-winning Turbo Debugger, which supports object-oriented debugging and features reverse execution. Turbo Drive allows Turbo Debugger to debug programs of any size on 286 or 386 PCs with extended memory.

Turbo Profiler, the first interactive profiler for DOS, measures program performance and helps programmers spot execution bottlenecks.

The MASM-compatible Turbo Assembler generates highly optimized code, supports 486 instructions and offers a high level language interface for easy integration with Pascal and C.

''First introduced in November 1983, Turbo Pascal has emerged as the preferred language for learning good structured programming style,'' said Gene Wang, general manager of Borland's Languages Business Unit. ''And now on its seventh anniversary, Turbo Pascal 6.0 offers programmers the ideal gateway into the new world of object-oriented programming.''

Turbo Pascal 6.0 is available now for IBM PC/XT/AT and PS/2 computers and 100 percent compatible systems with 512K RAM (256 for command-line compiler), DOS

2.0 or later versions that are 100 percent compatible. A hard disk is recommended. Turbo Pascal Professional 6.0 will be available in German, French and Italian in the first quarter of 1991.

The U.S. and Canadian version of Turbo Pascal has a suggested retail price of $149.95; Turbo Pascal Professional 6.0 is $299.95. Both products are available immediately through major resellers or direct from Borland. Registered Turbo Pascal customers in the United States and Canada can upgrade to Turbo Pascal 6.0 for $69.95, or to Turbo Pascal Professional 6.0 for $99.95.

Borland International Inc. (Scotts Valley) is a leading developer of business software and of object-oriented programming languages and tools. Borland offers some of the world's most widely used PC software, including Paradox, Quattro Pro, Sidekick, Turbo C++, and Turbo Pascal with Objects.

#90309b0613 11/05/1990 ~Business Wire

SUNNYVALE, CA (NOV. 5) BUSINESS WIRE - VISX Inc. (NASDAQ: VISX) (Boston Stock Exchange: VSX) Monday announced results for the third quarter and nine months ended Sept. 30.

The company reported revenues for the third quarter of $1,160,439 compared to revenues of $68,000 recorded in the year ago quarter. The company reported a net loss for the quarter of $644,100, or $0.19 per share, compared to a net loss of $537,616, or $0.20 per share, reported in the quarter ended Sept. 30, 1989.

For the nine months ended Sept. 30, revenues were $3,279,439 compared to revenues of $68,000 reported in the comparable nine month period last year. The company reported a net loss of $1,876,880, or $0.56 per share, as compared to a net loss of $1,140,023, or $0.50 per share, reported for the nine months ended Sept. 30, 1989.

On Oct. 26, the shareholders of VISX approved the merger with Taunton Technologies, Inc. Both Taunton and VISX are now clinically testing systems developed by each Company which utilize excimer lasers to alter the focusing power of the eye by reshaping the cornea. These systems are also intended to treat other eye disorders. The merger will result in the cessation of patent litigation between the two companies and permit each to devote their full energies and resources to the development of this technology. The merger is expected to be finalized about November 26, pending satisfaction of a dissenters' rights provision under California law.

VISX, INCORPORATED designs, manufactures and markets advanced technology systems for ophthalmic applications.

#90309b0614 11/05/1990 ~Business Wire

MILPITAS, CA (NOV. 5) BUSINESS WIRE - LSI Logic (NYSE:LSI) Monday announced a plan for a conversion path that will enable customers to convert an existing Actel field programmable gate array (FPGA) into an LSI Logic mask programmable gate array.

This new design tool will be formally unveiled by LSI Logic in the first quarter of 1991.

Many customers use FPGAs for protyping and initial production, and then later convert the design into a gate array for volume production. This approach requires separate tools for the FPGAs and gate arrays which are not compatible. With the new conversion path, customers can take an Actel FPGA design and convert it to an LSI Logic gate array.

The new conversion environment will provide for a functional translation of Actel designs into a format that is readily accepted by MDE, LSI Logic's Modular Design Environment software. This procedure takes less than 10 minutes and supports the conversion of both single and multiple Actel FPGAs. The new LSI Logic gate array may then be verified in the standard format to provide the mask version for volume production.

''Time to market and time to volume is everything and we are addressing both with this new conversion environment,'' said Robert Blair, senior vice president of LSI Logic's ASIC division. ''LSI Logic's and Actel's silicon products are similar in structure and design environment, so creating a new design environment to translate these components makes sense to us and our customers.

Actel Corp. is a manufacturer of ACT1 and ACT2 field programmable gate arrays. These gate arrays offer a channeled gate array architecture and allow for desktop configurable devices to be configured in minutes without non-recurring engineering costs. Actel has headquarters at 955 East Arques Ave., Sunnyvale.

LSI Logic Corp. is a leading supplier of high-performance semiconductors. The company is the premier manufacturer and marketer of HCMOS application-specific integrated circuits (ASICs), with over 10,000 designs completed worldwide. In addition, the company manufactures and markets MIPS and SPARC architecture RISC microprocessors as well as a growing line of digital signal-processing circuits. The company also develops and sells chipsets and graphic boards

used in IBM-compatible computers.

LSI Logic employs more than 4,000 people in the United States, Europe, Japan and Canada. The company has headquarters in Milpitas, CA (95035) at 1551 McCarthy Blvd.

#90309b0617 11/05/1990 ~Business Wire

MURRYSVILLE, PA (NOV. 5) BUSINESS WIRE - Respironics Inc. (NASDAQ/NMS symbol:RESP) Monday announced record results for the first quarter ended Sept. 30, 1990.

The company reported net sales for the first quarter of $7,846,855, an increase of 77 percent over net sales of $4,423,896 reported for the comparable quarter last year. Net income for the quarter increased 131 percent to $835,287, or 24 cents per share, compared to $361,091, or 11 cents per share, reported in the quarter ended Sept. 30, 1989.

Commenting on the results for the first quarter of fiscal 1991, Dennis S. Meteny, vice president and general manager of Respironics Inc. stated, ''In many respects, this quarter was one of transition for Respironics. During the quarter, we successfully completed our relocation to our new office, warehouse and manufacturing facility. In addition, full scale production of REMstar, our fourth generation of the SleepEasy product line, was completely implemented.''

''We are extremely pleased to report that while effecting these measures, the company achieved record sales and net income. Furthermore, our efforts to improve product quality and lower production costs resulted in 50 percent gross margins as compared to 45 percent in the quarter ended September 30, 1989. We are encouraged by the improvement in margins and we continue to explore methods of strengthening our design and manufacturing process in an effort to further enhance efficiency and product quality.''

Robert D. Crouch, vice president - sales and marketing, stated, ''Our record sales for the quarter were principally due to an overall increase in demand for our entire product line. National distribution for REMstar began during the quarter and market acceptance of this technologically advanced product remains favorable. During fiscal 1991, we anticipate continued market penetration of REMstar as well as additional growth in our other product

areas.''

Respironics Inc. designs, develops, manufactures and markets respiratory medical products for use in the home, hospitals and emergency medical situations. The company was recently ranked No. 35 in Forbes' list of ''The 200 Best Small Companies in America'' (November 12, 1990).

#90309b0618 11/05/1990 ~Business Wire

RANCHO CUCAMONGA, CA (NOV. 5) BUSINESS WIRE - Data-Design Laboratories Inc. (NYSE:DDL) Monday announced its results for the first quarter ended Sept. 30, 1990.

In the first quarter of fiscal 1991, DDL incurred a net loss of $1,061,000, compared with $2,488,000 in the fourth quarter of fiscal 1990 and $780,000 in the first quarter of 1990. Sales of DDL's continuing businesses were $25,247,000, compared with fourth-quarter sales of $23,528,000. Sales for 1990's first quarter were $21,838,000.

DDL stated that the restructuring at its Aeroscientific Anaheim facility is continuing. In September the workforce was reduced by approximately 25 percent and the plant was converted from two-shift production to a single shift to improve yields and efficiency. These changes are not expected to reduce output. Improvements in operating results are expected over the next several quarters.

DDL's Irlandus and A.J. Electronics subsidiaries operated at profitable levels in the first quarter. A.J. had its highest sales month ever in September. Aeroscientific Oregon incurred a small loss for the quarter as a result of process control issues for which corrective action is being taken.

DDL Electronics (DDL-E), the company's new assembly unit in Northern Ireland, is operating at a slight loss after grant income. DDL-E continues to concentrate on its marketing efforts and customer qualifications.

During the first quarter, the company purchased $500,000 of its 8 1/2 percent debentures at a gain of $236,000. As a consequence of this gain and the effects of the previously announced termination of DDL's defined benefit pension plan which were recorded in the first quarter, DDL's tangible net worth (TNW) was above $28 million at the end of the quarter.

If TNW falls below that level for two consecutive quarters, the company will be required to purchase 10 percent of the then outstanding 8 1/2 percent debentures.

To bolster its working capital position, in October DDL borrowed approximately $13 million under its existing U.S. revolving line of credit and exercised its option to convert the borrowing to a five-year term loan bearing interest at the prime rate.

In summary, the company indicated that some progress has been made toward its turnaround. As a result of actions taken, DDL anticipates better results in the second half of fiscal 1991.

DDL is primarily engaged in the manufacture and assembly of printed circuit boards for computer, communications and instrumentation industries. It also manufactures broadband communications equipment at its Catel Telecommunications subsidiary for the CATV and telephone markets.

SAN FRANCISCO (NOV. 5) BUSINESS WIRE - The board of directors of California Energy Company Inc. (ASE, PSE:CE) has declared a 4 percent stock dividend which will be distributed on Jan. 17, 1991, to shareholders of record on Dec. 17, 1990.

''The board's decision reflects both the company's continued earnings growth and our efforts to enhance shareholder value,'' said Charles T. Condy, chairman and chief executive officer.

The company recently announced record revenues and earnings for the third quarter ended Sept. 30. Net income was $8.8 million, or 35 cents per share, some 85 percent higher than earnings for all of fiscal 1989.

California Energy Company is the leading independent developer of geothermal resources in the United States. An operator and owner of the 240 megawatt Coso Geothermal Project, the company is also a major wholesaler of electricity. In addition, California Energy controls more than 470,000 acres of geothermal prospect lands in Northern California, Oregon, Washington, Utah and Nevada.

WESTLAKE VILLAGE, CA (NOV. 5) BUSINESS WIRE - ALWAYS Technology, a leading supplier of Small Computer Systems Interface (SCSI) adapters, Monday announced the availability of a half card, 16-bit SCSI host adapter.

Called IN-2000, the ALWAYS adapter targets the high end of the 286, 386 and 486 PC/AT. It features the latest in chip technology and an innovative, proprietary architecture which enables ''programmed I/O'' via a fast dual port RAM buffer, This unique approach does not use the Direct Memory Access (DMA) channel.

The new ALWAYS adapters bridges the performance gap typically associated with the PC/AT's Direct Memory Access channel. Long recognized as a chronic source of I/O bottleneck problems, DMA restricts the rate of data flow, which causes severe performance compromises in the new high-speed PC systems available today.

By avoiding the DMA transfer approach, the ALWAYS SCSI adapter offers dramatic I/O improvement, particularly for programs requiring extended and expanded memory such as Windows 3.0 and DESQview. These improvements have been independently benchmarked as superior in performance to any other SCSI adapters on the market.

Both IBM and Microsoft have recently announced support for SCSI, endorsing the interface standard as mandatory for the maximum performance benefit of the new micro channel and EISA computers, especially those operating in file server environments.

The ALWAYS IN-2000 adapter, designed as a half card to accommodate shrinking PC enclosures, is only 6-2/3 inches in length and 4-1/3 inches high, and dissipates only 3W of power.

The product's use of programmed I/O instead of DMA transfer eradicates the frequent problem associated with DMA conflicts: since there are only 8 DMA channels in the PC/AT architecture, DMA devices such as disk controllers, video cards, scanners and others can often conflict in assignment with disastrous results.

Because of the company's use of programmed I/O over DMA, the IN-2000 obsoletes the installation headaches associated with DMA-transfer SCSI adapters, whose myriad of jumpers are usually difficult to install and frequently end up in the wrong location.

ALWAYS Technology, with headquarters in Westlake Village, was incorporated in July 1989 to develop and market the highest-performace SCSI host adapters available. The company employs both direct sales and independent representatives worldwide to target distributors of disk and tape-storage

products, and OEMs of high-performance PC architectures.

LOS ANGELES (NOV. 5) BUSINESS WIRE - ERLY Industries Inc. (NASDAQ:ERLY) announced Monday second-quarter results for the three and six months ended Sept. 30, 1990.

ERLY reported net income of $1.1 million, or 36 cents per share, of common stock on sales of $88 million for the second quarter, which compares favorably with net income of $987,000, or 33 cents per share, on sales of $99 million for the second quarter of last year after adjustment for a 10 percent dividend.

For the six months ended Sept. 30, 1990, the company reported net income of $2.4 million, or 76 cents per share, on sales of $196 million, a substantial improvement over net income of $999,000, or 33 cents per share, on sales of $217 million for the same period of the prior year.

Gerald D. Murphy, chairman of the board, commented: ''The results for the second quarter demonstrate the company's strength and diversity of businesses. Comet Rice, the company's rice milling subsidiary, improved operating margins even as it adjusted to rapidly changing international market conditions.

''The United Nations trade embargo on Iraq prevented Comet in the second quarter from selling any rice to Iraq, which was one of Comet's major markets in FY 1990. Improved sales and profitability in Comet's other markets made up the resulting shortfall in earnings.

''In addition, Chemonics Firetrol, the company's fire retardant subsidiary, had an excellent fire season this summer, increasing sales by 20 percent over the prior year.

''Looking forward, our ERLY Juice subsidiary is expected to benefit from an estimated 50 percent increase in the Florida citrus crop over last year. Both lower raw product prices and greater plant utilization should improve operating results for ERLY Juice's Treesweet and Kraft brands.''

#90309b0632 11/05/1990 ~Business Wire
ALBANY, NY (NOV. 5) BUSINESS WIRE - National Savings Bank of Albany (NASDAQ:NSBA) announced Monday that net income for the fourth fiscal quarter ended Sept. 30, 1990 totaled $915,000, or 77 cents per share which matched the like period of 1989.

For the fiscal year, net income was $3,502,000, or $2.94 per share as compared to $3,379,000, or $2.86 per share for fiscal 1989.

Pre-tax income increased 60.2 percent during the quarter from the prior year level, but the particularly favorable tax treatment during the like period of 1989 was not available in 1990 so that this increase is not reflected in net income.

For the year, earnings were reduced by $357,000, or 30 cents per share related to the aborted Home and City Savings Bank merger effort. Even with this charge net income increased 3.63 percent.

For the quarter, net interest income increased by $391,000 as a result of growth of $42,074,000 in average earning assets from the prior year period, including non-performing assets that were returned to performing status.

Net interest income increased an additional $571,000 due to improvement in margin which came from declining interest rates on deposits and borrowings.

While other expenses were up in the quarter over the prior year period by $333,000, the two largest factors were write-down of REO properties of $252,000 and an agreed upon settlement of an employment contract of $165,000.

Other increases in expenses related to increased salaries and inceased deposit insurance costs were offset by eliminating expenses in fiscal 1989 for real estate owned of $232,000.

Non-performing assets remained low at 0.7 percent of assets and only 52 percent of the prior year level. Delinquencies at year-end as a percent of loans outstanding were running at levels 26 percent lower than a year ago.

The geographic area in which the vast majority of the bank's loan portfolio has been originated seems to be less affected than other areas

in light of the uncertainties related to the overall economy, management has deemed it prudent to increase the fourth quarter provision for laon loss to $400,000, thereby strengthening the bank's allowance for loan loss.

During 1990, net interest income ran at record levels, loan delinquencies were low, and operating expenses were under control. Management looks forward to further positive financial results during 1991.

NASHVILLE, TN (NOV. 5) BUSINESS WIRE - Dollar General Corp. (NASDAQ/NMS:DOLR) Monday reported increased sales for October and the third quarter.

Chairman and Chief Executive Officer Cal Turner Jr. said retail sales for the period ended Oct. 31, 1990, totaled $54.9 million compared with $48.8 million in 1989, an increase of 12.4 percent. Same store sales for the period increased 7.7 percent.

''We are pleased with sales in October and the third quarter,'' Turner said. ''We look forward to a good Christmas selling season. Inventory levels in the stores are higher than last year and the distribution centers continue to operate as expected.''

For the quarter ended Oct. 31, 1990, retail sales totaled $163.3 million compared with $144.5 million for the same period last year, an increase of 13 percent. Same store sales for the quarter increased 8.8 percent.

For the first nine months of the year, Dollar General's retail sales totaled $447.4 million compared with $420 million for the same period last year, an increase of 6.5 percent. Same store sales for the year have increased 1.9 percent.

Dollar General is a chain of 1,432 neighborhood stores operating in 23 states with distribution centers in Georgia and Kentucky. The company's stock is traded on the NASDAQ National Market.

#90309b0635 11/05/1990 ~Business Wire

MIAMI (NOV. 5) BUSINESS WIRE - Biscayne Holdings Inc. (AMEX:BHA) Monday reported record sales of $21,737,000 and net income of $1,787,000 (20 cents per share) for the third quarter ended Sept. 30.

This compares with net sales of $15,849,000 and net income of $1,203,000 (16 cents per share) for the third quarter of 1989.

For the nine months ended Sept. 30, 1990, record sales were $35,775,000, which represents a 21 percent increase over the $29,526,000 generated in 1989. Nine month net income was $688,000 (8 cents per share) compared with net income of $211,000 (3 cents per share) in 1989.

Operating income also reached record levels with the 1990 third quarter at $3,473,000, which represents a 73 percent increase over the $2,010,000 1989 third quarter operating income. For the 1990 nine months operating income was $2,306,000, which represents a 182 percent increase over the 1989 operating income of $818,000.

Interest and other expense were $1,578,000 and $757,000 for the nine months ended Sept. 30, 1990 and 1989, respectively. Interest and other income were $694,000 and $1,389,000 for the nine months ended Sept. 30, 1990 and 1989, respectively.

Interest expense has increased and interest income has decreased as a result of the issuance of a $26.5 million dividend to stockholders in December 1989.

The 1990 and 1989 nine month results included net charges of $131,000 and $971,000, respectively, related to non-cash losses from Biscayne's 30 percent investment in SPI Partners L.P. (''SPI''). The losses generated by SPI primarily relate to the amortization of intangible assets which reduce the taxability of the partnership's earnings.

As the amortization of assets declines, the impact on net income of non-cash charges from Biscayne's investment in SPI will be nominal after 1990.

Commenting on the results, Chairman Earl W. Powell stated: ''We are extremely pleased that Andy Johns and Varon, have continued to attain record levels of sales and operating income, especially in light of the recent instabilities in the retail apparel markets.

A registration statement has been filed with the Securities and Exchange Commission and has become effective registering, among other things, the distribution of the Partnership's Biscayne Stock to its partners, and the resale of such stock. As a result, recipients of such stock are now free to sell their shares in open market transactions.

Biscayne Holdings is a Miami-based manufacturing company with opeations in the apparel industry. Biscayne's Andy Johns Fashions division designs and distributes women and children's outerwear, and its Varon division manufactures toddlers and girls' underwear.

#90309b0636 11/05/1990 ~Business Wire

BOSTON (NOV. 5) BUSINESS WIRE - Genzyme Corp. (NASDAQ:GENZ) Monday reported that revenues in the third quarter ended Sept. 30, 1990, increased by 102 percent to $13,909,000 from $6,887,000 in the third quarter of 1989.

The increase in the current period was produced by higher product sales across all product lines, including revenues from Genzyme's IG Laboratories subsidiary.

The company's operating loss for the quarter narrowed to $950,000, or 6 cents per share, as compared to a loss of $7,589,000, or 74 cents per share for the third quarter in 1989 because of improved product gross margin and the purchase of in-process research and development during the third quarter of 1989.

Included in the current quarter were increased marketing and manufacturing expenses associated with the aniticipated approval and launch of the Ceredase product for the treatment of Type I Gaucher's disease. For the nine-month period ended September 30, revenues totaled $36,281,000, compared with revenues of $23,123,000 in the first nine months of 1989.

Genzyme Corp. is a diversified health care products company which has a distinctive industry position based on its development of novel therapeutic

proteins and biomaterials and its operation of a growing diagnostic products, pharmaceuticals and fine chemicals business.

The company is headquartered in Cambridge, Mass., with production and research facilities in Cambridge and Framingham, Mass., and in Maidstone and Haverhill, England, and a sales office in Tokyo, Japan. IG Laboratories, Genzyme's majority owned subsidiary, headquartered in Framingham, Mass., provides a broad range of genetic testing services to hospitals, clinical laboratories, physicians and health maintenance organizations located throughout the United States.

SOUTHAMPTON, NY (NOV. 5) BUSINESS WIRE - John F. Kidd, president and chief executive officer of Hamptons Bancshares Inc., a one bank holding company, announced Monday that two of the company's subsidiaries will be consolidated at year end.

Bancshares will incorporate the staff and operations of its mortgage banking company, Hamptons Mortgage Corp., into The Bank of The Hamptons, N.A. as a newly formed Residential Mortgage Department.

Kidd added that the strategy will enable the company to consolidate and conserve capital and reduce marketing expenses while expanding its mortgage business throughout the area served by the bank's branches. Arlene Geertsema will become a senior vice president of the bank and continue to supervise the department as officer in charge while Vice President Margaret M. Winters will retain the responsibility for sales and business development.

The new department will continue to operate from its present location at 3880 Veterans Memorial Highway., Bohemia. In addition to The Bank of The Hamptons, Bancshares owns Leasehampton Corp. and The Appraisal Center Inc. The nine branches of the Bank are located in Montauk, Montauk Dock, East Hampton, East Hampton Village, Sag Harbor, Water Mill, Southampton, Westhampton Beach and Bohemia. The company's common stock is traded on the NASDAQ National Market under the symbol ''HBSI.''

#90309b0644 11/05/1990 ~Business Wire

MILPITAS, CA (NOV. 5) BUSINESS WIRE - Octel Communications (NASDAQ/NMS:OCTL)

Monday announced that Sierra, the company's multiple-application voice processing platform designed specifically to meet the high reliability and maintenance standards for Voice Information Services (VIS) and Central Office (CO) equipment, completed a battery of stringent tests validating its compliance to Bellcore's Network Equipment-Building Systems (NEBS) guidelines.

NEBS guidelines state the operational, safety, environmental, spatial and serviceability specifications for equipment that operates in the CO. The specifications ensure that equipment operating in the CO meets the requirements for sturdiness and ease of maintenance demanded by telephone companies and other VIS providers.

Sierra is designed to provide telephone answering, voice mail, call routing, automated attendant, voice bulletin boards, voice forms, touch tone forms, and other voice processing applications for up to 500,000 residential, business and cellular subscribers. Sierra will be expandable from 48 ports to 2,304 ports with a maximum of 10,752 hours of message storage.

In the first full quarter of Sierra product shipments ended Sept. 30, 1990, 22 Sierra systems were shipped to regional Bell operating companies and cellular providers both in the United States and Canada.

During this same period the company also shipped the first dual-cabinet configuration of Sierra to a Voice Information Services customer. The dual-cabinet configuration has capacity for up to 144 ports.

Chance also stressed that Sierra's NEBS conformance allows voice processing services to be tightly integrated with CO and other network equipment when located in a CO. If a platform meets NEBS guidelines, a telephone company is not required to make special provisions for housing that equipment.

The tests were conducted and monitored by the staff of AT&T's Quality Management and Engineering Laboratory at Union, N.J., during a 12-week period.

During the test period, several Sierra platforms were subjected to a number of tests, including simulated earthquake shock and vibration tests, temperature and humidity extremes, drop tests to duplicate what could happen to the system during transportation, and fire safety tests.

NEBS guidelines also address various spatial and serviceability standards. Sierra's compliance with the service and wiring aisle conventions allow service personnel easy access to critical components from the front and to all wiring connections from the rear of each 144-port platform.

Such design features make system installation and maintenance quicker, more efficient and safer, which in turn decrease overall maintenance costs and system downtime.

Octel Communications Corp. designs, manufactures and markets high-performance voice processing systems. Octel's Aspen product line is sold in the United States, Canada and overseas to small companies and large multisite corporations.

Octel Communications was founded in 1982 and is headquartered in Milpitas.

#90309b0646 11/05/1990 ~Business Wire

TUCSON, AZ (NOV. 5) BUSINESS WIRE - American Southwest Mortgage Investments Corp. (AMEX:ASR) announced earnings for the third quarter ended Sept. 30, 1990 of $3,412,000, 23 cents per share, compared to $1,318,000, 9 cents per share, for the same period in 1989.

Earnings for the nine months ended Sept. 30, 1990, were $8,707,000, 60 cents per share, versus $3,951,000, 28 cents per share, for the comparable period in 1989, representing a 120 percent increase in earnings over last year.

Jon Grove, chairman and chief executive officer, said:''LIBOR rates have continued to decline. With the Fed's lastest easing of interest rates, the one-month LIBOR has declined further to 8 percent; therefore, earnings for the fourth quarter should continue to increase.''

The higher 1990 earnings reflect lower short-term interest rates. The average one-month LIBOR incurred by the company during the third quarter of 1990 was 8.2 percent compared with 9.2 percent during the third quarter of 1989.

The company also announced that based on the first nine months, its estimated taxable income for the year ending Dec. 31, 1990, is $1 per share.

The company has declared and paid dividends totalling 54 cents per share for the nine months ended Sept. 30, 1990. As a real estate investment trust, the company must distribute at least 95 percent of its annual taxable income as dividends to its stockholders; therefore, the company has established a substantial reserve for future dividends.

CORAL GABLES, FLA (NOV. 2) BUSINESS WIRE - Ramsay-HMO Inc. (OTC:RHMO) Monday announced results for the first quarter ended Sept. 30.

Net revenues reached a record $31,154,349, an increase of 35 percent over net revenues of $23,749,781 for the like period a year ago. Net income for the first quarter accelerated to $1,061,441, up 152 percent from $421,254 in the prior year.

Earnings per share were 24 cents for the quarter on 4.4 million shares outstanding, vs. 32 cents in the prior year on 1.3 million shares outstanding. Included in the results were the first month's operation of the third-party administrator acquired in early September.

Greg Browne, chief executive officer, stated, ''We are continuing to build on our commitment to the staff model. Currently, we are engaged in an expansion of our medical centers, with two additional full-service centers expected to be operational by the end of the year. This is in addition to our ongoing modernization program of existing centers.

''Up to five additional company pharmacies should be in operation by early 1991 to enhance the cost efficiency of our staff model system.''

Ramsay-HMO Inc., reported membership at September 1990 grew to 67,251, representing a 25 percent year-on-year increase, and the company is expecting continued strong membership growth as it continues to penetrate the Florida market.

Ramsay-HMO Inc., owns and operates a South Florida-based health maintenance organization (''HMO'') serving the Miami Hispanic community and others in the Miami and Fort Lauderdale area. Approximately 75 percent of the company's HMO members receive primary medical care through the company's staff model ambulatory health care centers.

Approximately 25 percent of the company's membership is enrolled in its Medicare Plus plan. The company's HMO is the oldest HMO in Florida and is one of the largest HMO's in the Miami area.

BURLINGTON, MA (NOV. 5) BUSINESS WIRE - Symbolics Inc. (NASDAQ:SMBX), Monday announced a net profit for the first quarter of its fiscal year 1991 ending Sept. 30, 1990 of $168,000, or $.01 per share, compared with a profit of $151,000, or $.01 per share, for the first quarter of fiscal 1990.

Revenues for the quarter were $11,124,000, compared with revenues of $16,273,000 for the comparable quarter a year earlier.

The company reported other income, not included in revenues, of $2,146,000 for the quarter, resulting from the company's recent $3.9 million technology licensing transaction with a Japanese consortium. Excluding this other income the company would have reported a net loss for the quarter of $1,978,000. As a result of this transaction, the company's cash balance increased to over $5.3 million as of Sept. 30, 1990.

Symbolics Inc., headquartered in Burlington, Mass., is the leading provider of symbolics processing hardware and software used in sophisticated applications including interactive scheduling and planning, computer-aided mathematical computing and HDTV-based graphics imaging and processing.

FAIRMONT, WV (NOV. 5) BUSINESS WIRE - CB&T Financial Corp. (NASDAQ:CBTF) has announced that its wholly-owned banking subsidiary, Community Bank & Trust, National Association, has assumed the deposits and purchased certain loans of the First Standard Federal Savings Association, Fairmont.

The transaction was finalized on Friday, Nov. 2.

First Standard has been operated under conservatorship procedures by the Resolution Trust Corp. (''RTC'') since February of this year and CB&T's acquisition of the Fairmont savings association was a result of a winning bid proposal to RTC of a premium on deposits of $3,015,000.

The $64 million of deposit accounts assumed and the $49 million of loan accounts purchased together with a cash settlement from RTC of approximately $12 million will be transferred by direct merger, subject to regulatory procedures, to CB&TNA, the company's lead bank.

For varying periods up to 180 days, CB&T will have the option to sell back to RTC, with certain restrictions, those loans that have been deemed at the discretion of CB&T to be of less than bank quality.

All former First Standard customers affected by the merger will receive a letter from CB&T explaining in detail the change as it applies to them. In addition, receptions/meetings for our new customers will be held at the East Side/Merchant Street office and at CB&T's main office welcoming them to CB&T

and providing a forum for questions relating to the change.

The First Standard acquisition together with three other bank merger transactions currently in process, will increase CB&T's assets to approximately $650 million making the Company West Virginia's 5th largest commercial banking company.

When all merger negotiations are finalized CB&T will operate 25 commercial banking offices in 17 north-central West Virginia communities.

WHITE PLAINS, NY (NOV. 5) BUSINESS WIRE - Nov. 2, NYNEX Corporation responded to the announcement late today by Moody's Investors Service concerning Moody's review of the corporation's credit rating for possible downgrade with the following statement:

Moody's has put its finger on the three key challenges for our company: the weakness in the Northeast economy, the highly competitive market in which we do business and the uncertainty about the final outcome of New York Telephone's pending rate case.

We look forward to a final decision by the New York Public Service Commission based on the record established in the case. And we will continue working with the commission to develop and implement regulatory reforms needed to keep the Northeast competitive.

We also will continue to discuss with Moody's our plans for managing our business profitably in light of the commission's decisions and the economic trends in our region.

#90309b0665 11/05/1990 ~Business Wire
SCOTTS VALLEY, CA (NOV. 5) BUSINESS WIRE - The world's fastest disc drive that eliminates high-volume data processing bottlenecks by transferring information at rates of up to 27 million bytes-per-second was announced Monday by Seagate Technology (NASDAQ/NMS:SGAT).

Seagate's new Sabre PTD Parallel Transfer Disc, which has a storage capacity of 2,368 million bytes of data, uses nine read/write heads simultaneously to

achieve its fast 218MHz data transfer rate.

The Sabre PTD was jointly developed by Seagate Technology and Cray Research Inc. In a separate announcement, Cray Research today introduced its DD-60 mass storage device which is a proprietary implementation of the Sabre PTD.

Alan Shugart, chief executive officer of Seagate Technology, said the joint effort between Seagate and Cray Research is a testimony to the company's strong presence in the mainframe and supercomputer market.

Seagate's new Sabre PTD disc drive extends the performance features of previous multi-head devices and achieves data transfer rates of up to 27MB per second by reading and writing to the disc using eight or nine heads in parallel. It is the only disc drive currently available that can deliver this data transfer rate and offer storage capacity in excess of 2.3 gigabytes.

The Sabre PTD builds on the success of Seagate's Sabre series of eight-inch disc drives that have been proven in numerous high-performance applications. Standard features include an average seek time of 12 milliseconds and spindle synchronization that allows multiple Sabre PTD drives to run in parallel.

In addition, the Sabre PTD incorporates the industry standard IPI-2 interface, which conforms to the ANSI Enhanced Intelligent Peripheral Interface specification. This interface utilizes a single cable to greatly simplify system integration. Many competitive high-performance disc drives use the SMD interface which requires multiple cables to maintain true parallel data transfer.

Seagate Technology is the world's leading supplier of disc storage products to original equipment manufacturers and remarketers.

BOULDER, CO (NOV. 5) BUSINESS WIRE - Former PrairieTek executives Steven B. Volk and Dr. James H. Morehouse have formed a new company, Integral Peripherals Inc.

The company will design, manufacture and market subminiature disk drives for the palmtop and pocket computer, and data collection markets.

Integral Peripherals Inc. has moved into new corporate headquarters at 5775

Flatiron Parkway, Boulder, CO. The phone number is 303/449-8009. Occupying over 16,000 square feet of space, the company will conduct research and development, sales and marketing, and operations and administrative functions from the Boulder facility.

In addition, headquarters will house a pilot production manufacturing facility capable of producing a few thousand drives per month. High-volume manufacturing will be transferred to the company's Pacific Rim manufacturing facility.

CHESTNUT HILL, MA (NOV. 5) BUSINESS WIRE - General Cinema Corp. (NYSE:GCN) announced Monday that it has terminated the merger agreement between it and The Neiman Marcus Group Inc. (NYSE:NMG) and will not commence its previously announced tender offer for The Neiman Marcus Group common stock.

General Cinema exercised its termination right solely because it was advised by the special review committee of the board of directors of The Neiman Marcus Group that the special review committee had determined to withdraw its recommendation of the tender offer.

The Neiman Marcus Group currently has approximately 33.2 million shares of common stock outstanding, of which approximately 16.8 million are held by General Cinema and 16.4 million are publicly held. General Cinema also holds an issue of convertible preferred stock of The Neiman Marcus Group, which, if converted, would increase General Cinema's total common equity interest in The Neiman Marcus Group to approximately 60 percent.

In addition to its involvement in specialty retailing, General Cinema operates one of the nation's largest theatre circuits and also holds in excess of $1.5 billion in cash.

SCOTTS VALLEY, CA (NOV. 5) BUSINESS WIRE - Seagate Technology (NASDAQ/NMS:SGAT) and NCR Corp. Monday announced a strategic alliance to jointly develop high-performance storage solutions that set a new standard for data availability, data transfer rates and storage capacity.

The strategic alliance has already announced its first new products: -- An integrated disc array in the NCR System 3445 and 3450 that is capable of transferring data at up to 6.25 megabytes per second. The integrated array uses Seagate's high-performance 5.25-inch form factor disc drives. -- A disc array subsystem with an enhanced Small Computer System Interface (SCSI) that is capable of transferring data at up to 20 megabytes per second. The subsystem uses Seagate's high-performance 3.5-inch form factor disc drives.

As applications become more complex and sophisticated, continuous data availability, fast data transfer rates and shorter access times have become critical factors in the decision to purchase or to use any computer system. The new NCR/Seagate disc array subsystem helps to answer that need with data transfer rates of up to 20 megabytes per second and virtually unlimited storage capacity. Further Evolution of SCSI Interface

Based on market acceptance, Shugart said Seagate believes that the new wider, faster SCSI-2 interface will become the most widely accepted standard in the industry. He said the new SCSI-2 interface of the subsystem incorporates several enhancements to the current SCSI-1 interface. The enhancements that are realized with SCSI-2 include: -- Tag command queuing -- Wide SCSI -- Fast SCSI -- Common command set -- Asynchronous event notification

The original SCSI-1 was developed in 1981 from an alliance between NCR and Shugart Associates, headed by Alan Shugart, to satisfy the need for a standard intelligent interface offering fast data access and transfer rates when using computer systems with peripherals. NCR's Peripherals Products Division, located in Wichita, Kansas, developed the first SCSI protocol chip. Since then, the SCSI interface has evolved into one of the most popular interface standards in the computer industry. NCR and Seagate continue to play a leadership role in the ANSI working groups that define this evolving standard. NCR Establishing Major Strategic Alliances

Seagate Technology is the world's leading supplier of disc storage products to original equipment manufacturers and remarketers.

NCR Corp., based in Dayton, Ohio, develops, manufactures, markets and supports business information processing systems for worldwide markets. Worldwide service and maintenance support for NCR products are provided by NCR's 16,000 field and software engineers, at 1,300 locations in 120 countries.

#90309b0680 11/05/1990 ~Business Wire

EL SEGUNDO, CA (NOV. 5) BUSINESS WIRE - Xerox Corp. (NYSE:XRX) announced Monday new software and hardware for the Xerox 4050, 4650 and 4090 series of electronic printing systems which expands the scope of applications in mid- and high-volume customer environments.

Version 3.5 software provides users with greater document management capabilities for the 4050 series electronic printing systems, including advanced feeding and finishing options and higher quality graphics production.

In addition, the introduction of V3.5 marks the first time that all three printing systems in the 4050 series will share common operating software. As a result, customers will be able to process documents on a combination of systems for greater operational versatility.

With the implementation of V3.5, the 4050 and 4650 systems now can be directly connected with the Xerox High-Capacity Feeder (HFC). Previously, only the 4090 supported this option. The HFC adds two extra input trays, for a total of four trays. This increases input capacity from 1,500 sheets of paper to 3,500 sheets, and minimizes operator paper loading. FINISHING OPTIONS

The software upgrade also makes Xerox the first manufacturer to provide data centers with an on-line stitching or stapling capability that doesn't require third-party connecting devices. The Xerox High-Capacity Stitcher/Stacker option (HCSS), supported directly by series 4050 systems running V3.5, streamlines finishing applications such as collating and stitching.

Instead of separate manual steps, documents can now be printed, collated and stitched in one continuous process. COMPLEX GRAPHICS

The V3.5 release supports the Interpress Publication Set offering significant flexibility in applications requiring the printing of complex graphics. In addition, the 4650's 600-dots-per-inch capability produces crisp, clean graphics for highly professional-looking documents.

Xerox customers who currently use either the 4050, 4650 or 4090 and are on a Xerox maintenance or lease agreement will be upgraded free of charge to V3.5.

Xerox Printing Systems Customer Marketing has its headquarters in El Segundo, Calif. Xerox markets a broad line of electronic printers, from the tabletop Xerox 4045 to the high-volume, 120-page-per-minute Xerox 9790 electronic printing system.

NEW YORK (NOV. 5) BUSINESS WIRE - Northern Telecom, IBM and NYNEX Monday announced a trial of a direct connection between public telephone company central office switching systems and private computers.

This will be the first time that data processing can be provided by a private business computer to help organizations handle calls synchronized with central office switched services offered by telephone companies such as those operated by NYNEX.

Syracuse University will be the first institution to participate in a trial of the new capability, which links a Northern Telecom DMS SuperNode switching system to an IBM Application System/400 computer with IBM's CallPath Services Architecture, using the network facilities of New York Telephone's Intellipath II system at the university.

IBM and Northern Telecom said this announcement was part of an agreement to develop coordinated voice and data solutions for the businesses or institutions using the public network provided by NYNEX to automatically associate calls with information stored in private business computers.

Businesses and other organizations will be able to use this capability to offer faster, more accurate service to clients.

In this trial, a call to Syracuse University's 711 emergency number from any point on campus will provide simultaneous voice and data transmission of such crucial information as the building and room number from which the call was placed and the location of the nearest fire exits.

Syracuse will thus become the first college or university to test this type of instantaneous emergency response service for the benefit of its students, faculty and staff.

In addition to announcing the Syracuse University trial with IBM and NYNEX, Northern Telecom announced CompuCALL, a new central office-to-host computer applications link.

CompuCALL software is an open interface, written to meet emerging Switch to Computer Applications Interface (SCAI) standards. Northern Telecom will release its CompuCALL interface specification within 30 days. This will make it possible for any vendor or individual to develop the switching system link to their computer.

Northern Telecom is the leading global supplier of fully digital telecommunications switching systems, providing products and services to telehone operating companies, corporations, governments, universities and other institutions. Northern Telecom, with 1989 revenues of $6.1 billion employs more than 49,000 people around the world.

DALLAS (NOV. 5) BUSINESS WIRE - Darwin E. Smith, chairman and chief executive officer of Kimberly-Clark Corp. (NYSE:KMB) Monday announced that the company's board of directors has elected Wayne R. Sanders as president and chief operating officer, effective Dec. 1.

Smith said that Sanders' election represents the next step in the company's continuing plan for management succession. The office of president of Kimberly-Clark had been unfilled since 1985; chief operating officer is a newly created position.

Smith also announced that three new executive vice presidents have been named. They are:

--James D. Bernd, who, as the senior corporate officer in Neenah, Wis., will be responsible for the Household Products and Service and Industrial Sectors, U.S. and Canadian Consumer Sales, and U.S. Consumer Services;

--James G. Grosklaus, who, as the senior corporate officer in Roswell, Ga., will be responsible for the Pulp and Paper Sector, Environmental and Energy Affairs, and Fiber Research; and

--James T. McCauley, also based in Roswell, who will be responsible for the Nonwovens and Professional Health Care Sector, Far East Operations and the World Support Group.

Kimberly-Clark is a manufacturer of household, personal care and health care

products, as well as newsprint and premium business, correspondence and specialty papers.

The company's consumer products include Huggies disposable diapers, Huggies Pull-Ups training pants, Huggies baby wipes, Kleenex facial tissue, Kleenex premium bathroom tissue, Kotex and New Freedom feminine products, Hi-Dri household towels and Depend incontinence products.

VANCOUVER, BRITISH COLUMBIA (NOV. 5) BUSINESS WIRE - Dr. Peter J. Guest, president and chief executive officer of Galactic Resources Ltd. (TSE/ME/VSE/AMEX:GLC), announced Monday that the company has structured an accord with Ivanhoe Capital Corp. (ICC) and with Robert Friedland.

ICC is a mining venture capital company wholly owned by Robert Friedland, founder and former chairman and CEO of Galactic Resources Ltd. ICC is engaged in mineral exploration and development with particular emphasis in developing nations.

The agreement grants to Galactic the right to acquire, in certain circumstances, up to 50 percent of North American mineral property interests acquired in the future by Friedland or by ICC. In addition, Galactic will have the first right to participate with ICC or Friedland if they decide to joint venture or sell a working interest in any worldwide mineral properties acquired in the future.

Robert Friedland has resigned as vice chairman and as a director of Galactic in order to devote his efforts to ICC. Friedland remains a major shareholder of Galactic, committed to continuing support of the company. He has agreed to serve as a consultant to the company with respect to specific assignments upon the request of Galactic's board of directors.

Galactic will benefit from this newly structured relationship through exposure to a broad variety of worldwide exploration and development opportunities.

Galactic produces gold at the Ridgeway Gold Mine in South Carolina with joint venture partner Kennecott Ridgeway Mining Co. (an indirect subsidiary of The RTZ Corp. PLC) and its Ivanhoe Gold Mine in Nevada as well as its wholly-owned Summitville Mine in Colorado. Galactic also has precious metal development projects in California, Canada and the Philippines.

OTTAWA, ONTARIO (NOV. 5) BUSINESS WIRE - Gandalf Technologies Inc. (NASDAQ: GANDF) has made several new worldwide appointments to further strengthen its business operations.

In particular, the company appointed two experienced industry executives to key positions in its U.S. subsidiary to continue building its presence in that essential marketplace.

Kenneth L. Paape, 41, has been named to the new post of vice president and general manager of Gandalf Data Inc., the company's U.S. subsidiary, with headquarters in suburban Chicago.

Paape joins Gandalf from AT&T, where his 18-year career included senior sales and marketing positions. While at AT&T, he established Communication Americas an AT&T subsidiary, managing the Canadian-U.S. cross-border network services business.

Paape reports to John Wandell, senior vice president, marketing, Gandalf Technologies Inc.

Gandalf also recently appointed Vladimir Pawlukowsky, 33, as director of marketing for its U.S. subsidiary. Prior to joining Gandalf, Pawlukowsky was a regional marketing director for personal computer manufacturer Northgate Computer Systems.

His prior experience also includes sales and marketing positions with Dell Computer Corp. and IBM. Pawlukowsky reports to Paape. In addition, Alexander Brisbourne, 39, has been promoted to the new position of director, international marketing, reporting to Wandell. Brisbourne has been with Gandalf since 1987 and most recently served as director of marketing for the company's U.K. subsidiary, Gandalf Digital Communications Ltd.

In his new position, Brisbourne will orchestrate the company's technology and product groups with worldwide market requirements such that Gandalf can successfully fulfill the needs of its customers. He will be based at the company's headquarters in Nepean.

The company also recently appointed David Tulloh, 37, as its new general manager for Gandalf Pacific Pty., based in Sydney, Australia. Tulloh has 20 years' experience in the Australian data communications market. Most recently he was a sales manager for Datacraft, a prominent Australian data communications supplier.

HOUSTON (NOV. 5) BUSINESS WIRE - Enron Corp. (NYSE:ENE) announced Monday that Teesside Power Co. Ltd., a partnership operated by Enron, has received the final permission required to construct and operate a 1,725 megawatt combined heat and power combined cycle gas turbine power station at Wilton, on Teesside in the United Kingdom.

The consent to construct and operate the power project was granted Monday by John Wakeham, Secretary of State of Energy in the United Kingdom.

The project is the first power station, and also the largest, proposed by an independent generator to be given the energy secretary's consent under the 1989 Electricity Act.

''We are delighted to receive this permission to construct the plant at Teesside under the government's privatization effort,'' said John B. Wing, chairman of Enron Power Corp. and Enron Europe Ltd.

''This marks the beginning of the construction of the plant, which Wimpey Construction Co. actually started today, on receipt of this permission. The completed plant will deliver its first electricity to the national grid in April 1993.''

In addition to its employment impact in the region, including the impact of the associated gas terminal and pipeline projects, the Teesside project will improve the environment and deliver electricity at a very competitive price, Wing said.

Enron also announced that the final negotiations are proceeding on the financing for the Teesside project. A consortium of international banks has been selected to underwrite the financing which will be non-recourse and off-balance sheet to the project owners.

Enron Corp., America's leading natural gas company with approximately $11 billion in revenues and $9 billion in assets, operates the largest natural gas transmission system in the United States; markets natural gas liquids, crude oil and refined products worldwide; owns 84 percent of Enron Oil & Gas Co., one of the largest independent (non-integrated) natural gas exploration and production companies in the United States; and also is one of the largest independent producers of electricity in the United States, with extensive experience in combined heat and power installations.

#90309b0710 11/05/1990 ~Business Wire

HOBOKEN, N.J. (NOV. 5) BUSINESS WIRE - Washington Bancorp Inc. (NASDAQ:''WBNC'') Monday reported a consolidated net loss of $429,000, or 19 cents per share, for the quarter ended Sept. 30, 1990 as compared with net income of $244,000, or 11 cents per share, for the third quarter of 1989.

For the nine months ended Sept. 30, 1990, the consolidated net loss was $916,000, or 40 cents per share, as compared with net income of $618,000, or 27 cents per share, for the same period in 1989.

In recognition of a continued soft real estate market and a slowed general economic climate in northern New Jersey, the company recorded a provision for losses on loans and real estate of approximately $1.2 million during the third quarter of 1990, as compared with a provision of $600,000 during the third quarter of 1989.

For the nine months ended Sept, 30, 1990, the company's provision for losses on loans and real estate totalled $2.6 million, a $900,000 increase over the same period in 1989. Of the $1.2 million third quarter 1990 provision, approximately $400,000 represented unrealized declines in the market value of other real estate owned (REO) and $800,000 was an increase in the allowance for loan losses.

Loan charge-offs, net of recoveries, totalled approximately $1.6 million during the recently ended quarter. At Sept. 30, 1990, the allowance for loan losses amounted to $2.3 million. Nonperforming assets consisted of nonperforming loans of $16.7 million and REO of $10.7 million, at Sept. 30, 1990.

The level of nonperforming assets continues to be a drain on the company's operations. At Dec. 31, 1989, REO totalled $7.7 million. During the nine months ended Sept. 30, 1990, $9.5 million of properties were added to the REO category, while $5.4 million were sold, and writedowns to market value totalled $1.1 million.

Washington Bancorp Inc. is the parent holding company of Washington Savings Bank, Hoboken. The company had consolidated total assets, deposits, and stockholders' equity of $341.7 million, $277.4 million, and $30.1 million, respectively, and a consolidated primary cpaital to assets ratio of approximately 9.1 percent at Sept. 30, 1990.

#90309b0711 11/05/1990 ~Business Wire

HOUSTON (NOV. 5) BUSINESS WIRE - Cabot Oil & Gas Corporation (NYSE:COG) Monday reported net income applicable to common shareholders of $11.7 million, or $0.57 per common share, for the fiscal year ended September 30, 1990.

Net income for fiscal 1989 was $25.6 million, but reflected several non-recurring items, including a gain on sale of producing properties and the revenues attributable to such properties prior to sale. After adjusting for non-recurring items, earnings for fiscal 1989 were $2.3 million. There were no shares outstanding for the comparable 1989 period as Cabot became a publicly traded company in February 1990. Revenues for fiscal 1990 were $128.6 million, versus $149.4 million for 1989 (or $115.8 million after adjustments).

For the fourth quarter, ended September 30, 1990, Cabot Oil & Gas recorded a net loss of $534,000 or $0.08 per share. For the same quarter of 1989, earnings were $2.3 million. Excluding non-recurring items, the Company would have reported a net loss of $7.6 million for the 1989 fourth quarter.

The 1989 loss included significant charges for impairment of producing properties and unproved acreage, and plug and abandonments. Revenues for the final quarter of fiscal 1990 were $22.3 million, versus $22.4 million reported for the same quarter of fiscal 1989 (or $21.6 million as adjusted).

During 1990, the Company's average production per day was 111.5 MMcfe, representing an increase of 10.9 percent over the fiscal 1989 average daily production from retained properties. For the recent fiscal year, Cabot Oil & Gas had total production of 40.7 Bcfe.

Total natural gas sales for 1990 were 54.6 Bcf, an increase of 11.7% over the sales volume from retained properties and purchased gas for the prior fiscal year. Prices for the Company's Appalachian Basin gas averaged $2.57 per Mcf in fiscal 1990, $0.05 more than during the fiscal 1989 period. Anadarko Basin prices averaged $1.40 for 1990, representing a decline of $0.11 from last year. Overall, Cabot Oil & Gas obtained a weighted average price of $2.24 per Mcf, or $0.04 below the prices in effect in fiscal 1989.

Cabot Oil & Gas completed 132 wells in fiscal 1990, of which 129 were successful, representing a success ratio of 98%. A net of 28 Bcfe was added in 1990, bringing total proved reserves at September 30, 1990 to 744 Bcfe. Additions of proved reserves, excluding revisions, replaced production by 207% at a finding cost of $0.41 per Mcfe.

Cabot Oil & Gas recently filed a registration statement with the SEC relating to an exchange offer whereby the remaining shares of its stock currently owned by Cabot Corporation (NYSE:CBT) would be offered to Cabot Corporation shareholders. Cabot Corporation currently holds approximately 81% of the Class A common stock and all of the Class B common stock of Cabot Oil & Gas. After the transaction, Cabot Corporation will hold no Cabot Oil & Gas stock.

Cabot Oil & Gas Corporation is a leading domestic natural gas company headquartered in Houston, Texas. The company operates in the Appalachian and Anadarko Basins, where it has a total of 3,388 net productive wells and approximately 853,000 net developed acres and 931,000 undeveloped acres. Total proved reserves are 744 Bcfe, approximately 99% of which is natural gas.

#90309b0721 11/05/1990 ~Business Wire

MORRISTOWN, NJ (NOV. 5) BUSINESS WIRE - AT&T Computer Systems Monday expanded its networked computing capabilities with the introduction of the StarServer(TM) S and enhancements to its line of SNA host connectivity software.

The StarServer S is a powerful uniprocessor server based on the Intel(a) i486 microprocessor and Extended Industry Standard Architecture (EISA) bus. It will be exhibited at COMDEX/Fall '90 in Las Vegas.

''Today's announcements dramatize AT&T Computer Systems' commitment to offer the broadest range of servers, from 386 to the industry-leading symmetric multi-processor StarServer E, and into the RISC-based System 7000 and StarServer FT,'' said Scott Perry, vice president of marketing and strategy.

''Our servers, supported by UNIX(R) System V and StarGROUP(R) LAN Manager Server, offer customers an unmatched range of choices and provide an interoperability platform for a variety of desktop operating systems, including MS(a)-DOS, OS/2(a), UNIX and Macintosh(a), and traditional computing environments such as SNA.''

The StarServer S offers significant price/performance benefits over other machines in its class, Perry said. Running at 33 MHz and rated at 26.5 MIPS, it provides two to three times the raw computing power of a 386/33 MHz processor.

The company said the StarServer S can function as a server, a multi-user

processor or both simultaneously, a capability unique to AT&T's server product line. This enables customers to achieve maximum cost-effectiveness as they migrate from multi-user computing environments to client/server environments.

AT&T also enhanced its SNA host connectivity products, which enable users to access critical mainframe applications and information using the networked computers on their desktops. The StarGROUP SNA Gateway enables MS-DOS workstations to emulate IBM 3270 terminals and printers. It provides connectivity to SNA mainframe environments from AT&T StarGROUP LAN Manager Server networks. The release of StarGROUP SNA Gateway announced today offers enhanced security, support for diskless PCs, and options that optimize client PC memory. AT&T's Host Connectivity Software also now supports UNIX System V Release 4.0, the latest release of the system.

#90309b0725 11/05/1990 ~Business Wire

HOUSTON (NOV. 5) BUSINESS WIRE - A. Earl Swift, chairman and president of Swift Energy Co. (ASE/PSE:SFY) Monday announced results for the third quarter and nine months ended Sept. 30.

Consolidated earnings for the three months ended Sept. 30, 1990, of $1,530,132 or 32 cents per share, increased 46 percent over earnings of $1,051,478, or 26 cents per share, for the corresponding 1989 period. Revenues for the quarter increased 50 percent to $4,778,039, from $3,181,509 recorded for the same period last year.

In the first nine months of 1990, consolidated earnings of $5,652,491, or $1.18 per share, increased 41 percent as compared to $4,021,261, or 99 cents per share, in the first nine months of 1989. Revenues for the nine month period were up 37 percent in 1990 to $15,263,511 from $11,156,544 for 1989.

Commenting on these results, Swift said, ''The company was able to achieve these results by posting increases in our three major lines of business which are strategic to continued growth and profitability. When compared to the first nine months of 1989, revenues from oil and gas sales increased 64 percent, earned interest and fees from partnerships and joint ventures increased 20 percent and well supervision fees increased 33 percent.

''Approximately 47 percent of the total revenues for the first nine months of 1990 were attributable to earned interest from the acquisition of producing

property interests by Swift Energy on behalf of its limited partnerships and a third party investor. The company continues to be an industry leader in the formation of limited partnerships organized for the purpose of acquiring and operating producing oil and gas properties.

''During the first nine months of 1990, nine partnerships were formed under the company's serialized public offerings with subscriptions totaling approximately $30 million. By comparison, subscriptions for the first nine months of 1989 were $34 million. The company continues to offer limited partner interests in partnerships to be formed in the future under three public programs.''

Swift Energy Co. is an independent oil and gas company primarily engaged in the acquisition, exploration, development and operation of oil and gas properties through partnerships and joint ventures. The company also offers directly, and through a majority owned subsidiary, geological consultation and prospect generation services.

VALENCIA, CA (NOV. 5) BUSINESS WIRE - 3-D Systems Inc. (NASDAQ: TDSSF and VSE:TDS.V) announced sales of $7,208,019 (all figures are in U.S. dollars) vs. $5,526,143 for the corresponding period a year earlier.

The company recorded a profit for the quarter of $14,722 (or $.00 per share) vs. a profit of $358,108 (or $0.04 per share) in 1989.

For the first nine months, the company reported a profit of $544,506 (or $0.04 per share), as compared to a loss of $2,377,717 (or $0.24 per share) the previous year. Sales for the first nine months of 1990 were $21,463,059 vs. $10,835,238 the previous year. Backlog at the end of the third quarter was approximately $5,600,000.

Raymond S. Freed, CEO of 3-D said: ''While the profit of $14,722 was somewhat less than anticipated, there was an increase in sales, which we view as a positive development in view of general business conditions. One of the reasons for this was a drop in gross margins attributable to the start up and on-site testing costs of starting production of the SLA-500, our newest and most advanced machine. Gross margins should improve to plan as we begin production deliveries of the SLA-500.

''Having said that, we must also point out that present economic conditions and general uncertainty have caused many companies to postpone buying decisions, thus lengthening the sales cycle. Although we are optimistic in the long run and are presently seeing more companies than ever before considering our technology, we do not anticipate any significant change in the market or in the psychology of potential customers for some time.''

3-D Systems Inc. is the Canadian parent company of 3D Systems Inc., a California company formed in March, 1986 to develop, manufacture and market equipment which produces plastic models from solid modeling CAD data. The company's StereoLithography process currently utilizes an ultra-violet laser beam which passes over a vat of liquid polymer, hardening the liquid wherever the beam impinges on the liquid, so that it creates a solid, three-dimensional object which conforms exactly to the stored computer design.

STURBRIDGE, MASS (NOV. 5) BUSINESS WIRE - Galileo Electro-Optics Corp. announced that revenues for both the fourth quarter of FY 1990 and the entire year were up compared to the same periods in 1989.

Operating profit and net income were up for the quarter vs. the fourth quarter of 1989 but declined on a year to year basis.

Sales for the fourth quarter and FY 1990 were $10,894,000 and $41,343,000, an increase from the previous year of 14.6 percent and 9.8 percent, respectively. Operating profit for the fourth quarter 1990 was $921,000 while an operating loss of $538,000 was incurred for the entire year. This compares to operating profits of $396,000 and $1,758,000 for the prior fourth quarter and fiscal year 1989, respectively.

Net income for the fourth quarter and FY 1990 were $1,014,000 and $293,000 vs. $615,000 and $2,056,000 in the same respective periods of FY 1989. Earnings per share for the fourth quarter and FY 1990 were $.16 and $.05 vs. $.10 and $.33 in the same respective periods in FY 1989. The weighted average outstanding shares increased from 6,269,361 in 1989 to 6,290,481 in 1990.

Sales, which set a new record, improved in FY 1990 in both of the company's major product lines with Fiberoptic Products sales up 6.6 percent and Channel Electron Multiplier sales up 14.6 percent. Sales of Fused Fiberoptic Products, which are primarily used in military night vision systems, were down. However sales of Reprographic Products continued to be strong and more than offset the sales decline of Fused Fiberoptic Products.

Galileo develops, manufactures and markets fiberoptic and electro-optic components which transmit, sense or intensify light or images. Galileo's products are sold primarily to original equipment manufacturers for use in military night vision devices, scientific and analytical instruments and a variety of commercial applications, such as photocopying equipment, radiological diagnostic equipment and industrial endoscopes.

The company's stock is traded on the over-the-counter market with the symbol GAEO.

MACON, GA (NOV. 5) BUSINESS WIRE - In one of the largest single land transactions in recent years, Southeast Timberlands Inc. has acquired 185,000

acres of land in northwest Florida.

This tract, known as Pine Coast Plantation, is the largest single tract of land east of the Mississippi to be owned by one company. The land is valued in excess of $100 million.

''In this uncertain time of real estate, we're confident that this acquisition is a positive move for us,'' said Jewett Tucker, president of Southeast Timberlands. ''Its location and proximity to the coast present many unique possibilities for development.''

After nearly a year of research and negotiations with the tract's former owners -- Procter & Gamble -- the land purchase was consummated on Thursday, Nov. 1.

''Plans call for resale of certain parcels for timberland management,'' Tucker said. ''Additionally, we will be working to divide the property for a number of uses, including a hunting preserve and exclusive 'plantation' areas such as those in Tallahassee, Fla.; Thomasville, Ga.; and along the South Carolina coast.''

The property is bounded on the north by the Apalachicola National Forest, on the south by the Gulf of Mexico and several north Florida rivers, including the Ochlockonee, the New and the Apalachicola. It is located in the coastal plains area of Florida.

Initial plans call for 20,000 acres for a private hunting preserve and 80,000 acres for timberland management. Located 35 miles southwest of Tallahassee, the capital of Florida, the tract is across the bay from the St. George Island resort area and Apalachicola Bay.

''Southeast Timberlands will develop a conceptual master plan for Pine Coast Plantation,'' Tucker said. ''With a tract this large we'll have plenty of room for a number of possibilities.''

Macon-based Southeast Timberlands currently owns a number ofland parcels in the Southeast, concentrated in South Carolina, Georgia and Florida. The firm, founded in 1978, specializes in timberland management and handles all aspects of pre-development in real estate.

The company is also involved in the development of a retail/commercial venture in Middle Georgia and owns the planned residential and golf community Grove Pointe in Macon.

BOSTON (NOV. 5) BUSINESS WIRE - State Street Bank and Trust Co. announced Monday that George A. Russell Jr. will rejoin State Street as senior vice president and head of Community Affairs on Nov. 26.

For the past two years, Russell has been president of Freedom National Bank, in New York City, the nation's third largest African-American-owned bank. From 1984-1988, he served as treasurer of the City of Boston. Prior to that, Russell was a vice president at State Street, where he worked in the Commercial Lending area from 1974-1984.

As head of State Street's Community Affairs Division, Russell will coordinate the Bank's community development activities, including the Boston Housing Partnership. In addition, he will manage press communications and direct the activities of the State Street Foundation, which makes contributions to programs that respond to a range of issues and needs in Greater Boston.

''State Street is a leader, not only in its businesses but in its efforts to make the Boston community a better place to live and work,'' said Russell. ''Bill Edgerly and State Street were pioneers in the formation of public/private partnerships in Boston, and I'm happy that I'll be a part of those important efforts.''

Russell graduated from Boston Technical High School in 1967. He earned an AB degree from Clark University in 1972 and an MBA from New York University in 1974. He is married and has one child.

State Street Bank and Trust Co. is a wholly-owned subsidiary of State Street Boston Corp. With more than $800 billion in assets under custody and $59 billion in assets under management, State Street is a leading servicer of financial assets worldwide.

#90309b0751 11/05/1990 ~Business Wire
NEW YORK (NOV. 5) BUSINESS WIRE - Bear, Stearns & Co. Inc. and Gruntal & Co. Incorporated announced the offering of the Mortgage Securities Trust, CMO Series I.

Mortgage Securities Trust is the first of a series of unit investment trusts

by the sponsors which were created to obtain safety of capital while achieving a high level of current distributions of interest income. In addition to a continuing stream of a return of principal, the trust should feature a higher yield than fixed income investments with a comparable AAA rating by investing in the shorter end of the collateralized mortgage obligations (CMOs) market. The offering is made by prospectus only.

The trust contains an underlying portfolio by CMOs which offer attractive yields and spreads to Treasuries relative to alternative, AAA rated fixed income investments. CMO spreads to Treasuries, depending on the type of tranche, should compare very favorably to CDs and corporate bonds. These spreads are currently in the 60-150 basis point range to compensate the investor for prepayment risk.

Units of the trust are rated AAA by Standard & Poor's. This is the highest rating assigned to securities issued by a unit investment trust. In addition, FHMA, FHLMC, or GNMA guarantee the payment of principal and interest on the underlying MBS collateralizing each of the CMOs in the portfolio. The units of the trust, however, are not themselves guaranteed by these institutions. Unlike Treasuries, these unit trusts are subject to state and local taxes which will reduce the benefit of the spread relative to Treasuries, to individuals with state and local taxes.

This is a new investment opportunity for individual investors. The CMO Portfolio intends to purchase high-yielding CMOs of types generally available to the institutional market, for convenient access to individual investors. In the sponsors' opinion, this investment product will bridge that gap for individual investors.

Bear Stearns and Gruntal offer unit trusts under the name of Municipal Securities Trust, MST, a family of funds which includes insured discounts, insured full coupons, discount nationals, full coupon nationals, New York Muni Trusts and Multi State Series trusts, and the Navigator Special State Series. The Mortgate Securities Trust, CMO Series is the firm's first unit trust to offer mortgage securities.

Bear, Stearns & Co. Inc., a wholly-owned subsidiary of The Bear Stearns Companies Inc. (NYSE:BSC), is a leading investment banking and brokerage firm headquartered in New York City. The company is engaged in corporate finance, mergers and acquisitions, institutional equities, fixed income sales and trading, individual investor services, asset management and correspondent clearing. With total capital, including long-term and subordinated debt, of over $1.4 billion, the company has approximately 5550 employees located in 13 offices worldwide.

Gruntal & Co. Inc., a full service national investment firm established in 1880, is proud of its 110 year history of service to the individual investor.

Gruntal offers a full line of financial products and services and has over thirty offices nationwide. Investors & Broker Dealers are reminded that this Trust is registered under the Securities Act of 1933 and the Investment Company Act of 1940 and that a formal offering can only be made by a prospectus.

COHASSET, MA (NOV. 5) BUSINESS WIRE - Cohasset Savings Bank (NASDAQ:CHTB) Monday reported a loss of $393,000, or 39 cents per share, for the third quarter ended Sept. 30, 1990, after significant write-offs of questionable loans and a $500,000 provision for possible loan losses.

For the 1989 third quarter, the bank had reported net income of $98,000, or 10 cents per share.

For the nine months ended Sept. 30, 1990, the bank showed a loss of $416,000, or 41 cents per share, compared with net income of $305,000, or 31 cents per share, for the 1989 period.

The bank wrote off $507,000 in questionable loans and provided an amount sufficient to increase the allowance for possible loan losses to $524,000.

Deposits again increased during the quarter, reaching a record of $52,920,000, compared with $49,210,000 at the end of 1989. At Sept. 30, 1990, total assets were $65,749,000 and stockholders' equity was $11,825,000.

Damage to the bank's Bound Brook Office in North Scituate, due to a fire on Oct. 4, 1990, was covered by insurance and will have no material effect on financial results. During the reconstruction period, branch operations are continuing in the office of a former bank in North Scituate.

CONCORD, MA and CHERTSEY, SURREY, ENGLAND (NOV. 5) BUSINESS WIRE - GenRad Inc. announced Monday the signing of a sales and marketing distribution agreement with Amtest Associates Ltd., the largest and most experienced Automatic Test Equipment (ATE) sales representative organization operating in Eastern Europe.

Under the terms of the pact, GenRad granted Amtest exclusive rights to market, distribute and support GenRad's Automatic Test Equipment and Electronic Design Automation products in the Soviet Union, Poland, Bulgaria, Romania, Hungary, Yugoslavia and Czechoslovakia. Together, GenRad and Amtest will market products in Yugoslavia.

Amtest, established in 1973, maintains local representative offices in all of those countries, with the exception of Romania. These include an executive service center in Moscow. Distinct from other firms acting only as agents of opportunity in the East, Amtest has a demonstrated record of sales, distribution, product promotion, including trade show sponsorship and technical product support on-site. Also Amtest will install GenRad's products for its customers and provide warranty service and post-warranty support.

Robert E. Anderson, GenRad's president and chief executive officer, said, ''This agreement represents a renewal of the relationship between GenRad and Amtest that was terminated when regulations promulgated by the Coordination Committee for Multilateral Export Control (COCOM) went into effect a decade ago. Amtest has an excellent reputation for serving its customers in the East.

''We resume a partnership that was mutually beneficial to GenRad, to Amtest, and to our customers. We have chosen to approach this significant market via this sales representative route rather than by establishing a direct sales network because it gives us a fast, effective means to penetrate this important market.''

Roy A. Kennedy, Amtest's managing director, said, ''We look for partnerships with companies in the areas of ATE, instrumentation, production equipment and surface mount technology that demonstrate either market share leadership or best-in-class technology. GenRad qualifies on both counts as a value-added supplier to our accounts in Eastern Europe.

Earlier this year GenRad announced that it was the first ATE company to receive COCOM license approval to sell semiconductor test equipment in Eastern Europe since the invasion of Afghanistan in 1980.

GenRad Inc. is a leading worldwide supplier of integrated software systems and automatic test equipment, to manufacturers and users of electronic and mechanical equipment, for design verification, product testing, and process quality management. The company's stock is traded on the New York Stock Exchange; its trading symbol is GEN.

FORT LAUDERDALE, FL (NOV. 5) BUSINESS WIRE - Encore Computer Corp. announced Monday the industry's most complete real-time UNIX environment, UMAX V.

This offering is a component of Encore's total software architecture that encompasses the entire spectrum of real-time requirements.

UMAX V is an absolutely standard real-time UNIX implementation of AT&T's System V.3.2 and outperforms today's proprietary ''Real-Time UNIX'' operating systems.

Bill Avery, vice president and general manager, Product Operations for Encore stated, ''We are expanding our commitment to our current customer base by providing real-time UNIX and Guest Operating systems. These systems provide industry firsts such as asynchronous pre-emptive kernels, multiprocessing and POSIX compliant threads.

Encore Computer Corp., an international company headquartered in Fort Lauderdale, Fla., provides cost-effective computer systems solutions for time-critical applications. Encore manufactures three families of parallel and distributed computer systems: the Encore 90, CONCEPT/32, and Multimax, and has a $1 billion installed base of over 8,000 systems worldwide.

BALTIMORE (NOV.5) BUSINESS WIRE - The board of directors of Worldwide Value Fund Inc. (NYSE:VLU) Monday announced a new dividend policy under which the fund would make annual, instead of quarterly, distributions of its net investment income and net capital gains, if any, to the extent necessary for the fund to avoid tax on such amounts.

This replaces the previous policy of distributing amounts equal to an annual rate of 10 percent of the closed-end fund's average net assets.

The change reflects the board's desire to reduce the administrative costs associated with paying quarterly dividends and to eliminate the potential of a return of capital distribution to the shareholders.

Worldwide Value Fund Inc. was formed in 1986. It is advised and administered by Lombard Odier International Portfolio Management Ltd. of London and Legg Mason Fund Advisor Inc. of Baltimore. The value-oriented fund's investment strategy is now focused on Europe, where currently 59 percent of its portfolio is invested, including 15 percent in Italy, 12 percent in Spain and 11 percent in the United Kingdom.

CORAL GABLES, FL (NOV. 5) BUSINESS WIRE - U.S. Hovercraft Inc., the Miami-based transportation company proposing intrastate hovercraft service, has requested a position on the Dec. 6 agenda of the Miami City Commission to seek approval on the construction of a $2 million terminal facility at the FEC site in downtown Miami.

The Waterfront Advisory Board has recommended both the project and site to the Commission. No alternative use of the property has yet been determined. The proposed terminal facility will provide for normal passenger requirements and space has been projected for use of Customs should foreign routes necessitate such service. Private funding has been budgeted for construction of the terminal site with City ownership provided for with reversionary clauses.

U.S. Hovercraft has endeavored to work with the Office of the City Manager throughout the development of this project, and plans to present the findings of their five-year research and development project on Dec. 6 to demonstrate the tremendous impact the service will have on tourism in South Florida.

"Mass transit using Surface Effect Vehicles is long overdue for introduction to U.S. markets," stated W.R. Rinz, U.S. Hovercraft president and chief

executive officer.

"Application of this technology will allow us to provide fast, first-class, comfortable and affordable water transportation between Miami and Tampa/St. Pete to Key West by 1992."

#90309b0801 11/05/1990 ~Business Wire

MADISON, GA. (NOV. 5) BUSINESS WIRE - Wellington Leisure Products Inc. (NASDAQ/NMS:WLPI) Monday announced results for its first quarter ended Sept. 30, 1990.

Net sales were $16,709,000, compared with net sales of $17,210,000 in the first quarter last year.

The company reported a net loss of $18,000, or 0 cent per share, compared with income of $982,000, or 22 cents per share, last year.

Commenting on the results, William R. O'Dell, chairman of the board and president, said: ''Unabsorbed manufacturing overhead in our seasonal product lines, including the Casad and America's Cup acquisitions made in mid-year last year, were the primary reasons for the decrease in earnings for the quarter.

''Sales in our primary market, the water recreational area, continue to reflect the soft water recreational boating market. Until we see improvement in this market, results for fiscal 1991 will likely be below those of a year ago.''

The board of directors has declared a quarterly cash dividend of 5 cents per share payable Jan. 3, 1991, to shareholders of record on Dec. 20, 1990.

Wellington Leisure Products Inc. is a leading U.S. manufacturer of leisure activity products, water recreational products and cordage. The company's products include Maxwell handicrafts; Plantation Works hammocks, lawn, garden and patio accessories; Tink's Safariland Hunting Scents, York Sports and Ol' Timer's hunting and fishing equipment; Taperflex, Cut 'N Jump, Ski-Master and America's Cup water ski, floatation jackets and related accessories; boating and swimming pool accessories; Wellington Puritan rope and twine for retail consumers; and Rhino Ropes cordage products for industrial and commercial users.

#90309b0802 11/05/1990 ~Business Wire

METHUEN, Mass. (NOV. 5) BUSINESS WIRE - Parlex Corp. Monday reported the results of its first quarter ended Sept. 30, 1990.

Sales for the period were $8,098,504 compared to $7,214,452 last year, an increase of 12 percent, while the loss before taxes this quarter were $151,462 versus $311,902 in the comparable period last year, an improvement of over 50 percent, and a 72 percent improvement over the loss of $543,266 reported in the immediately preceding quarter. The net loss in this quarter, with a provision for taxes of $2,980, was $154,442, or 7 cents per share, while last year, after tax credits of $121,650, the net loss was $190,252, or 8 cents per share.

The backlog at the end of the quarter was $17.5 million compared to $14 million a year ago and $17.0 million at the end of the last fiscal year.

Herbert W. Pollack, president, stated, ''The Methuen Division returned to profitability in the quarter and the loss was solely attributable to the Nevada subsidiary. Further costs reductions have been made in Nevada during the second quarter to account for a lower level of expected annual sales than initially anticipated for that division.''

Parlex is a leader in the design and manufacture of interconnection and packaging products for semiconductors and electronic components. Its custom product line of flexible printed circuits and flexible-rigid multilayers (Flexilayers) can include the assembly of surface mount components. Parlex also manufactures custom laminated cable and complex rigid multilayer circuits. Its facilities are located in Methuen, Mass.; Salem, N.H. and Carson City, Nev.

Parlex is unique in the industry for its ability to provide a complete range of services for its entire product line, including CAD design, manufacturing, assembly and computerized testing. These cost-effective, versatile, reliable and innovative products are sold to original equipment manufacturers in the computer, communications, military-aerospace, medical, automotive and other industrial electronics industries.

MARLBORO, MASS. (NOV. 5) BUSINESS WIRE - Data Translation announces availability of new, high performance PC AT bus and VME bus compatible processor boards from mulitple vendors, all utilizing the Data Translation

DT-Connect interface specification.

These vendors are: Ariel Corp. (Highland Park, N.J.); CSP Inc. (Billerica, Mass.); Alacron Inc. (Nashua, N.H.); Scientific Applications International Corp. (San Diego, Calif.); Mercury Computer Systems Inc. (Lowell, Mass.) Atlanta Signal Processors Inc. (Atlanta, Ga.); Valley Enterprises Inc. (Tamaqua, Penn.); Sky Computers (Chemlsford, Mass.), and SKALAR Computer, GmbH (Gottingen, Germany). Additionally, Data Translation designs data acquisition and image processing boards incorporating DT-Connect, and has recently introduced a new DSP-based advanced processor, the DT2878, a DT-Connect compatible PC
AT board.

DT-Connect is Data Translation's open bus interface which performs data transfers at real-time rates, thus eliminating the need to transfer data across the PC AT bus for processing. This speeds data transfer from data acquisition boards and frame grabbers to a processor board while freeing the PC to perform other host operations (graphics, for example) concurrently.
DT-Connect Breaks the Bottleneck for Data Transfers

The DT-Connect Interface Specification completely eliminates the need to use both the host bus and the host processor for data transfers.

DT-Connect is an open, public interface specification, introduced in July, 1987. The DT-Connect Overview Manual, available free of charge to anyone, contains the comprehensive technical discription. Delivery is immediate.

Data Translation is a world leader in the design, manufacture and marketing of high performance image processing, data acquisition, and array processing computer boards and software.

#90309b0805 11/05/1990 ~Business Wire
ALAMEDA, CA (OCT. 5) BUSINESS WIRE - Hana Biologics Inc. (NASDAQ:HANA) Monday reported first quarter revenues for the period ending Sept. 30 of $824,000, down 39 percent from revenues of $1,350,000 in the comparable quarter of last year.

This expected reduction in revenues reflects the company's transition form marketing and selling its own products to contract manufacturing.

After divesting its cell biology and diagnostic product lines in September

1989, Hana contracted with the purchaser as exclusive manufacturer of the products until March 1991. There, contract manufacturing accounted for all revenues in the quarter ending Sept. 30.

The company posted a net loss of $1,566,000, or 23 cents per share, for the recently-completed quarter, vs. net income of $9,474,000, or 85 cents per share, in the same period of the prior fiscal year. Net income in fiscal 1990 reflects a gain on the sale of the cell biology and diagnostic product lines.

Absent the gain, the income tax incurred on the gain, and an expenditure of $1,640,000 as a result of a restructuring which also occurred during the first quarter of fiscal 1990, the company would have had a net loss $1,478,000, or 22 cents per share.

Total costs and expenses, net of restructuring costs, decreased 15 percent from $3,132,000 in the first quarter of fiscal 1990 to $2,675,000 in fiscal 1991.

The change is due to the company's transition as the exclusive contract manufacturer of the divested cell biology and diagnostic product lines, the absence of marketing expenses after the sale of the product lines, and lower research and development costs due to a reorganization during the first quarter of fiscal 1990.

Hana Biologics Inc. is a biotechnology company focusing on cell based drug delivery systems utilizing mammalian cells. Research and development programs center primarily on the isolation, characterization and differentiation of specific cells for the treatment of chronic diseases such as diabetes, Parkinson's disease and hemophilia.

#90309b0809 11/05/1990 ~Business Wire

CAMBRIDGE, MASS. (NOV. 5) BUSINESS WIRE - Cayman Systems Inc., the leading provider of Macintosh networking solutions, Monday announced the immediate availability of its GatorBox AppleTalk-Ethernet gateway with version 1.6 software, and GatorPrint, an application that provides UNIX-to-AppleTalk printing.

Both products increase the functionality of Macintosh and Ethernet networks. The new 1.6 software improves performance substantially, with typical routing speeds that are 90 percent faster than earlier versions.

''Beta users of GatorBox 1.6 have been impressed with its increased speed and reliability,'' said Ted Stabler, cofounder and president of Cayman Systems.

''With this new release, comparative speed is no longer an issue since the GatorBox 1.6 is now the top performance AppleTalk-Ethernet gateway,''he added.

Cayman Systems develops products that enable Macintosh UNIX, DEC, PC, and Sun users in small and large organizations on entire Macintosh networks to communicate easily with each other. GatorBox 1.6 is a gateway which connects LocalTalk to Ethernet. It is unique in its ability to act as an application gateway. With Cayman Systems' optional network, software, GatorShare and GatorPrint, the GatorBox translates the standard network protocols that let Macintosh and UNIX users transparently share files and printers.

Instead of requiring new training, the GatorBox with GatorShare or GatorPrint eliminates the need for learning new commands or installing coplex network protocols. Macintosh and UNIX users can exchange information using native protocols.

Network managers and users benefit from GatorBox 1.6 because it is fast and easy to install and use. Increased Productivity

GatorBox 1.6 routes files 90 percent faster than earlier versions. As an AppleTalk router, the GatorBox now allows Macintosh and other users to share files, peripherals and printers more quickly.

GatorBox connects different physical media, facilitating communication between nodes on AppleTalk and Ethernet on dissimilar networks. It fully supports Phase I and Phase II AppleTalk on LocalTalk and Ethertalk and provides an upgrade configuration between the two.

Cayman Systems Inc., founded in 1987 and based in Cambridge, Mass., is a leading developer of reliable, high performance network gateways. Its products include GatorBox, Cayman Systems' AppleTalk-Ethernet gateway; GatorShare, software that runs on the GatorBox and provides NFS file sharing to Macintosh users; GatorPrint, which allows UNIX users access to AppleTalk network printers; GatorMail, a software mail gateway; and GatorCard E/II, the fastest Ethernet card for the Macintosh II family of computers.

NORWALK, CT (NOV. 5) BUSINESS WIRE - First National Realty Associates Inc., headquartered in Norwalk, announced Monday that it has reached an agreement in principle to purchase Gribin Von Dyl Realtors of Sherman Oaks, Calif., according to Jay N. Torok, chairman and chief executive officer.

''We are looking forward to adding a quality firm like Gribin Von Dyl to the First National Realty family of companies,'' stated Torok, chairman and chief executive officer of First National Realty Associates Inc., ''and feel the fine Gribin Von Dyl reputation and First National Realty's resources will enable us to provide outstanding real estate services for our clients in and around San Fernando Valley.

Gribin Von Dyl Realtors, which was founded in 1950, maintains five branch offices and 300 sales associates, serving the San Fernando Valley area of Southern California.

The acquisition brings First National Realty to a total of 58 branch offices and 1,500 sales associates in the company.

In addition to Gribin Von Dyl, First National Realty is also the parent company of Los Angeles-based Ramsey-Shilling Inc., and Dipple Realty.

First National Realty is a national residential real estate brokerage company founded in 1988, with operations in Northern and Southern California; Fairfield County, Conn.; Houston; Atlanta; and Boca Raton and Ft. Lauderdale, Fla.

JACKSONVILLE, FLA. (NOV. 5) BUSINESS WIRE - The board of directors of Corporate Data Sciences Inc. (Pacific Stock Exchange symbol ''CDS'') announced Monday that effective Oct. 31, 1990 it has extended the expiration date of its Class A Common Stock Purchase Warrants from Nov. 14, 1990 to Nov. 14, 1992.

CDS had previously reduced the exercise price of the Warrants from $6.00 per

share to $4.90 per share.

The Warrants were issued in connection with the Issuer's initial public offering in March 1984, and were originally to have expired on March 21, 1986. The company had previously extended the expiration date of the Warrants to Nov. 14, 1990.

#90309b0822 11/05/1990 ~Business Wire

FORT WAYNE, Ind. (NOV. 5) BUSINESS WIRE - Lincoln National Corp. reported Monday that third-quarter income from operations was $54.8 million, a 17 percent increase over the third quarter of 1989.

The increase was primarily a result of increased earnings from the employee benefits segment. Earnings from the investment products segment were also up, while property-casualty earnings were down.

The 1990 third quarter also included net realized investment losses of $16.7 million, so that total net income was $38.1 million. Total net income in the third quarter of 1989 was $64.8 million which included $17.9 million of net realized investment gains. On a per share basis, net income for the quarter was $.86, versus $1.46 a year ago.

Lincoln National also reported that as a result of capital transactions during the year, significant reductions have been made in corporate debt. According to Ian M. Rolland, president and chief executive officer, the ratio of debt and debt equivalents to total capital was reduced from 32.5 percent at Dec. 31 1989, to 25.7 percent as of Sept. 30, 1990.

HMO/Indemnity Earnings Increase

Employee Life-Health Benefits earnings featured a strong performance in the managed care employee benefits market. Indemnity earnings increased to $17.8 million, as compared with $7.5 million for the like period a year ago. Earnings from health maintenance organizations increased to $1.3 million from $1.0 million in 1989.

''This is a very competitive business and we are showing a steady improvement in our results,'' Rolland said. ''Our managed health care strategy is proving to be a more cost-effective way to deliver quality health care.'' P/C Earnings Decline

In the property-casualty area, consolidated earnings for the quarter were $16.6 million. This compares with $19.1 million in 1989, after excluding $8

million in earnings from a property-casualty reinsurance affiliate sold in April 1990. Rolland said the primary reason for the decline was the continuing deterioration in the property-casualty business cycle.

Investment Products Continue Growth

Earnings from investment products for the quarter totaled $15.4 million, up from $12.6 million last year. Annuity and pension assets under management grew to $12.6 billion, up 24 percent from $10.2 billion the previous year.

Earnings for Lincoln National's individual life segment were $11.2 million, compared with $12.3 million a year ago while life-health reinsurance reported continued strong earnings of $11.6 million, up from $10.9 million in 1989.

Lincoln National Corp. (NYSE:LNC), with headquarters in Fort Wayne, is the nation's seventh largest multiline insurance holding company with assets totaling more than $26 billion and annual revenues exceeding $8 billion.

#90309b0826 11/05/1990 ~Business Wire

JACKSONVILLE, FLA (NOV. 5) BUSINESS WIRE - Koger Properties Inc. (NYSE:KOG) reported funds from real estate operations, excluding property sales, of $10,226,000 for the second quarter ended Sept. 30.

This is down slightly from the $10,523,000 reported for the like quarter last year.

For the six-month period, funds from real estate operations, excluding gains from sales, were $21 million, compared to $23 million a year ago.

Sales of buildings to Koger Equity amounted to $30.2 million in this quarter, compared to $86.1 million in the like quarter a year ago. Due primarily to the reduced sales, total funds from operations declined this year from last.

Since April 1, the beginning of the fiscal year, the average occupancy of the

buildings owned or managed by the company has increased from 90 percent to 93 percent, with the addition of new leases totalling approximately 600,000 square feet.

The average occupancy of the buildings owned by Koger Properties, including those in initial lease-up, increased from 84 percent to 88 percent in the last six months.

Commenting on the results, Chairman and Chief Executive Officer Ira M. Koger said: ''The company is meeting the challenges of the new economic environment for real estate in a comprehensive and professional way.

''We expect to preserve our historically high occupancy levels and to increase our rent stream, while continuing to provide outstanding service to our tenants. The company is reducing its overhead and operating costs and debt.''

Koger Properties owns and manages 36 office parks in 23 cities in the Southeast and Southwest.

HOUSTON (NOV. 6) BUSINESS WIRE - Serv-Tech Inc. (NASDAQ:STEC) announced that it has been awarded a contract by Star Enterprise for a major revamp of its fluid catalytic cracker No. 3 unit at the Port Arthur, Texas, refinery.

Preliminary work will begin immediately, with a scheduled completion date of April 1991. The contract, which exceeds $7 million, involves the removal of the existing regenerator head, along with 39 cyclones, and the installation of the new head.

Richard W. Krajicek, president, stated that award of this contract confirms Serv-Tech's position as a major provider of specialized maintenance services to the hydrocarbon processing industry. With this contract, Serv-Tech backlog is higher than at any time in its history.

Serv-Tech provides specialty maintenance services to the refining, petrochemical and gas processing industries throughout the United States.

JACKSONVILLE, FLA (NOV. 5) BUSINESS WIRE - Enviroq Corp. (NASDAQ:EROQ)

announced record revenues of $10.27 million for the six-month period ended Sept. 30 as compared with revenues of $9.51 million for the like period last year, an increase of 8 percent.

Net income for the six-month period ended Sept. 30, 1990, was $533,000 (14 cents/share) as compared with $627,000 (16 cents/share) for the like period last year, a decrease of 15 percent.

For the quarter ended Sept. 30, 1990, revenues were $5.06 million and net income was $298,000 (8 cents/share) as compared with revenues of $5.78 million and net income of $522,000 (13 cents/share) for the like period last year, decreases of 12 percent and 43 percent, respectively.

Enviroq Corp. is engaged primarily in the business of protecting the environment by solving infrastructure problems in water and wastewater systems for industry and government.

Through its wholly owned subsidiary Insituform Southeast Inc., the company is the exclusive licensee of the Insituform Process in Alabama, Florida, Georgia, North Carolina and South Carolina and is the leading supplier of non-disruptive pipeline reconstruction and repair in those states.

In addition, the company owns 42.5 percent of Insituform Midsouth, a general partnership that is the exclusive licensee of the Insituform Process in Tennessee, most of Kentucky, and northern Mississippi.

MONTGOMERY, AL (NOV. 5) BUSINESS WIRE - The Enstar Group Inc. (NASDAQ Symbol: ENST) announced that on Friday, Nov. 2nd, it filed suit in the state court in Montgomery, against Richard J. Grassgreen and Perry Mendel, both former officers and directors of the company.

The suit seeks an accounting and damages for asserted breaches of their duties to the company and recovery of trebled damages for fraud against the company. The company seeks to impose a constructive trust over benefits received by Messrs. Grassgreen and Mendel from the company subsequent to their misconduct.

On Oct. 23, 1990, Grassgreen agreed to plead guilty to two criminal counts of fraud involving certain of the transactions that are the subject of the suit and agreed to disgorge profits on these transactions to the company. Because these matters are now before the Court, the company will not comment further on the litigation.

WALTHAM, MASS (NOV. 5) BUSINESS WIRE - Bitstream Inc. of Cambridge, Mass. and Edsun Laboratories of Waltham, Mass. have announced a strategic development agreement to integrate Bitstream Speedo scaling technology and outline fonts with Edsun's Continuous Edge Graphics (CEG) technology for VGA screen displays.

This combination of technology promises to dramatically improve the rendering of outline fonts on inexpensive VGA computer displays, particularly those running Windows 3.0 or applications with other graphical user interfaces.

These two technologies--CEG and Speedo-can be jointly implemented by OEMs. Manufacturers of VGA-based PCs and VGA controllers will be among the first OEMs to implement this strategy. Edsun has built CEG technology into a family of video integrated circuits called CEG/DACs. These chips, first announced in August 1990, are used in VGA graphics boards and IBM-compatible personal computers to improve overall screen resolution and color display capabilities. Bitstream Speedo is a compact and very fast program for scaling outline fonts and creating high-quality fonts for screen displays and printers.

Edsun will demonstrate Bitstream Speedo font scaling code embedded within a Windows 3.0 VGA screen driver used in conjunction with a CEG/DAC-equipped PC at the upcoming Fall COMDEX show in Las Vegas (booth no.W804) The Speedo-generated bitmaps will be processed by Edsun's CEG technolgy, resulting in antialiased (grayscale) VGA output of exceptional quality.

Edsun Laboratories Inc. is a privately-held company headquartered in Waltham, Mass, that specializes in the development of Visual Performance semiconductor products for IBM-compatible personal computers. Edsun products are used by OEMs and system manufacturers worldwide.

An industry leader in typographic quality and innovative technology, Bitstream licenses fonts and related software to more than 370 hardware manufacturers and software developers worldwide. Its line of end-user font products of the IBM and Macintosh environments are distributed by an extensive network of dealers in the United States and in 18 foreign countries.

WASHINGTON (NOV. 5) COMTEX - The 8-K report filed at the SEC shows on July 30

1990, Peter Kiewit Sons' Inc. entered an agreement with Ball Corp. (TICKER: BLL), pursuant to which Ball agreed to acquire Kiewit's European packaging operations for $625.0 million and a certain number of shares of Ball's outstanding common and preferred stock (then valued at about $400.0 million).

Under terms of the agreement, Kiewit had the option to terminate the Ball agreement if Ball failed to obtain certain financing commitments by Sept. 15, 1990. On Oct. 26, 1990, the Ball agreement was terminated.

Kiewit and American International Group Inc. (AIG) signed a non-binding letter of intent on June 6, 1990, with respect to the proposed acquisition by Kiewit of a 51% interest in a new corporation which would own certain portions of the electrical and mechanical subcontracting businesses of AIG's indirect subsidiaries, Fischbach & Moore Inc. and Natkin Group Inc.

In October, 1990, the negotiations regarding a definitive agreement on the proposed transaction were ended.

The company's executive offices are located at 1000 Kiewit Plaza, Omaha, NB 68131, and its telephone number is (402) 342-2052.

By MICHAEL STRAUSS - Comtex Washington Correspondent

WASHINGTON (NOV. 5) COMTEX - The latest home resale figures show a continued slowdown nationwide in the housing market but regional pockets continue to show signs of strength, the National Association of Realtors reported today.

On a breakdown by region, the South posted a third quarter gain of 1.4 percent in existing home sales from a year ago, the Midwest showed a drop of 1 percent from the same period in 1989, the West was off 8.8 percent and the Northeast dipped 8.5 percent.

Since the South accounts for approximately 40 percent of total domestic resales, the overall quarterly decline stood at 2.5 percent nationally.

California, by far the largest western market, experienced a sharp drop in its coastal markets, resulting in third-quarter resales of 409,300 units, off 18.9 percent from 1989. Banking and real estate problems in the Northeast caused home resales to remain sluggish while certain areas of the South and Midwest posted gains.

"We continue to see affordably priced homes and improving economic conditions in the less populated regions of the Midwest and South, said NAR chief economist John A. Tuccillo.

The real weaknesses in the housing sector are occuring in the Northeast and West, particularly California," said Rob Rosenblatt, economist for the Mortgage Bankers Association (MBA). "The Midwest is holding its own as is parts of the South."

South Dakota, North Dakota, Missouri and Iowa reported increases in home resales for the period while Nebraska, Illinois, Minnesota, Michigan and Kansas experienced declines.

"The Midwest is holding up because a lot of their industries are geared to exports and industrial countries of Europe are spending a lot on U.S. products " Rosenblatt said.

Both the NAR and MBA believe the U.S. economy has entered into a mild recession and Rosenblatt says the outlook for the housing market is expected to remain weak.

"The economic slump, consumer confidence down, the Mideast crisis, and (30-year fixed mortgage) interest rates hovering at 10 to 10.5 percent add up to a weak housing market for the rest of this year and well into mid-1991," Rosenblatt said.

JERUSALEM (NOV. 5) - Violent clashes between Palestinians and the Israeli army in the occupied Gaza Strip abated on Monday.

During the past three days, several Palestinians had been killed and more than 500 injured, some of them seriously.

Only sporadic clashes were reported on Monday. According to Arab sources, several Palestinians were hurt.

A curfew remained in effect for three refugee camps as well as other parts of the Gaza Strip, and the entire region was still off-limits to journalists.

On Sunday, the government of Prime Minister Itzhak Shamir had rejected the final report by United Nations Secretary-General Javier Perez de Cuellar on the October 8 bloody clash on Jerusalem's Temple Mount, saying it was ''one-sided''.

It said it would continue to refuse to cooperate with a U.N. commission since that would ''undermine Israel's sovereignty''.

Perez had proposed convening a conference of the signatory states of the Fourth Geneva Convention to discuss ways to protect Palestinians in the Israeli-occupied territories.

The number of Palestinians who died on Temple Mount has been put at between 16 and 21.

#90309d0130 11/05/1990 ~French/German News Agency

PARIS (NOV. 5) - Egyptian President Hosni Mubarak said in an interview aired here Monday that a ''very strict'' embargo could force Iraq to withdraw from Kuwait.

''We hope that the embargo will work. The embargo needs time and patience,'' he told French television.

''If there is a very strict embargo, we will avoid spilling blood and will force (Iraqi President) Saddam Hussein to withdraw to his territory and to leave Kuwait independent,'' Mr. Mubarak added, about the occupation continuing after Iraq's invasion of Kuwait August 2.

He said however that ''negotiations (with Iraq) without a total pull-out would never work.''

''It is not acceptable. It is what he (Mr. Hussein) would like but if he wants to negotiate he must withdraw totally from Kuwait,'' Mr. Mubarak said.

He said that at that point it would be necessary ''to place an Arab force'' between Iraq and Kuwait.

#90309d0140 11/05/1990 ~French/German News Agency
JERUSALEM (NOV. 5) - The Israeli parliament, the Knesset, rejected Monday a censure motion presented by five opposition parties against the government for its policy on the integration of Soviet Jewish immigrants.

The motion presented by the Labor, Ratz, Shinuwi, Mapam and Khadash parties was voted down by 57-50 with two abstentions, Knesset sources said.

The opposition was protesting the policy of the right-wing government of Yitzhak Shamir, which it said had failed to deliver on pledges of accommodation and jobs for Soviet Jewish immigrants.

Some 134,000 immigrants, mostly Soviet Jews, have arrived in Israel so far this year, and another 75,000 are expected before January.

-30- 883
#90309d0200 11/05/1990 ~French/German News Agency
BERLIN (NOV. 5) - The German Communist Party (KPD), which was absorbed by the Socialist Unity Party (SED) when the Communists came to power in East Germany in 1946, announced Monday that it was demanding the return of all its confiscated money and assets.

The KPD, which reconstituted in East Germany earlier this year, said it was seeking the compensation from the SED's successor, the Party of Democratic Socialism (PDS).

The demand includes the return of Karl Liebknecht House, a Berlin building named after the Spartakist leader who was killed in a leftwing attempt on power in 1919, and of a former KPD school near the city.

The Social Democratic Party (SPD), which was also taken over in East Germany by the SED and reconstituted there in October 1989, is also claiming the return of a number of assets from the PDS.

Leaders of the PDS say the party has assets ranging from two billion to four billion Deutsche marks (1.33 billion to 2.66 billion dollars).

#90309d0270 11/05/1990 ~French/German News Agency
HELSINKI (NOV. 5) - Finnish firm Nokia has concluded a major deal with the French TDF Radio Service to deliver tens of thousands more pagers to France, it was announced here Monday.

The value of the deal was not revealed.

"This agreement further reinforces Nokia's already strong position as the principal equipment supplier to France's countrywide paging equipment network", Nokia said.

Nokia delivers pagers to the United States, France, Sweden Hungary, Norway and Yugoslavia, and the company said that paging service using radio networks is growing throughout the world, especially in Europe.

Nokia also said it has signed an deal with Qualcomm Inc. of San Diego, California, that will enable Nokia to develop and market mobile phones using Code Division Multiple Access (CDMA), a digital transmission technology.

"This will reinforce Nokia's strong position in the U.S. market", the company said.

NEW DELHI (NOV. 5) - At least 17 people were killed and 60 injured when an explosion occurred at a petrochemical complex near the Indian city of Bombay late Monday evening, the United News of India (Uni) news agency reported.

Police reports said that at least 20 of the injured were in critical condition.

The cause of the explosion was unclear.

BRUSSELS (NOV 5) - Farm and trade ministers of the European Economic

Community (EEC) took a break after nearly three hours of talks here aimed at finding a compromise on farm price subsidies, with no solution in sight.

The EEC is the last major trade bloc not yet to have reached firm proposals on subsidy cuts for a trade conference early next month to complete the Uruguay Round of the General Agreement on Tariffs and Trade (GATT).

In their sixth round of talks to reach a compromise on which all 12 EEC countries could agree, France and Germany remained firm that their farmers needed more help than the other 10 members would accept, diplomats said.

British Agricultural Minister John Gummer told journalists that France and Germany "were being thoroughly nationalistic".

"Everyone thought we were near to a solution, but everyone found good reason why they should not agree (on a compromise)," he said.

BANGKOK (NOV 5) - The United Nations Human Rights Commission special envoy, Sadako Ogata, met Monday in Rangoon with Burma's general election commission, official Rangoon Radio said.

The radio, monitored here, did not elaborate on the content of the talks.

The meeting included six members of the central Burmese election commission, led by chairman U Ba Htay.

Mrs. Ogata, who arrived in the Burmese capital Saturday for week-long visit, is expected to prepare a report on human rights in Burma.

She also met Monday with Burmese Foreign Ministry Director-General Ohn Gyaw at the ministry, the radio said without elaborating.

Mr. Ohn Gyaw hosted a dinner in Mrs. Ogata's honor at the Krawait hotel in Rangoon late Monday, it said.

BELGRADE (NOV 5) - Yugoslavian Foreign Minister Budimir Loncar is to travel ''soon'' to Baghdad to ''contribute'' to peace efforts in the crisis caused by Iraq's occupation of Kuwait, vice foreign minister Milivoje Maksic said here Monday.

Mr. Maksic said Yugoslavia was mandated to do this as acting president of the non-aligned movement, the official Tanjug news agency reported.

Yugoslavia considers the situation in the Gulf ''more and more dramatic,'' Mr. Maksic said.

Mr. Loncar may also visit other countries in the Gulf, he added.

A U.S.-led military alliance is based in Saudi Arabia and the Gulf to enforce a United-Nations-embargo of Iraq.

#90309d1070 11/05/1990 ~French/German News Agency

JERUSALEM (NOV. 5) - Israeli Defense Minister Moshe Arens said Monday in Tel Aviv that Iraq was ''still far from having military nuclear capabilities.''

''According to our estimates, Iraq has not yet obtained military nuclear capabilities,''' Mr. Arens told a meeting of U.S. and Israeli businessmen.

''If the world stops the transfer of technologies and parts, it will take the Iraqis a long time to develop a nuclear weapon,'' he said.

But he warned that if it got transfers and parts, Iraq would succeed in developing such a weapon.

"Maybe Iraq does have uranium mines, but the the road from this to produce the enriched uranium needed to make arms is very long,'' Mr. Arens said.

(The U.S. television network CBS said Monday that Iraq has a secret uranium mine near the Turkish border.

(A documentary aired October 13 on a private British television station made much the same claim.)

Mr. Arens said the crisis caused by Iraq's occupation of Kuwait was costing Israel about one billion dollars.

''We have had to increase our vigilance, buy material, call up several units of reserves, deploy forces to reach the necessary level of preparation,'' the defense minister said.

''This has cost us almost one billion dollars,'' he said.

Mr. Arens said these expenses and the Middle East arms race provoked by the Gulf crisis justified an increase in U.S. military aid to Israel from the current level of 1.8 billion dollars to 2.5 billion dollars.

#90309d1090 11/05/1990 ~French/German News Agency

JEDDAH (NOV. 5) - U.S. Secretary of State James Baker met with Saudi Arabia's King Fahd in the Red Sea port city of Jeddah Monday to discuss the Gulf crisis the Saudi Press Agency reported.

Also present at the meeting at King Fahd's office were Crown Prince Abdullah, Defence Minister Prince Sultan, Foreign Minister Prince Saud al-Faisal, Prince Bandar bin Sultan, the Saudi ambassador in Washington, and the U.S. Ambassador in Riyadh, Charles Freeman. Spa gave no details of discussions.

Gulf-based western diplomats said the outcome of Baker's talks with Saudi leaders would be crucial for any political or military move that might be planned by the United States to force Iraqi President Saddam Hussein to withdraw his troops from Iraqi-annexed Kuwait.

Earlier, Baker discussed the Gulf conflict with Kuwait's exiled ruler, Sheikh Jaber al-Ahmed al-Sabah, at the latter's temporary residence in the Saudi summer resort of Taif.

The U.S. Secretary, who was believed to be seeking a mandate to use military force against Iraq, said Monday the Gulf crisis was ''entering a new phase.''

In a statement to journalists after meeting with Jaber, Baker said the United States had to be ready ''to exercise any options'' to solve the Gulf crisis.

#90309d1110 11/05/1990 ~French/German News Agency

BRASILIA (NOV. 5) - A famous love song has hit a sour note for another high-profile Brazilian, the local press reported Monday.

The leader of Brazil's presidential band has been placed under house arrest

for commanding the ensemble to play "Besame Mucho" ("Kiss Me a Lot") instead of a march during a recent military ceremony honoring the economy minister who had been embroiled in a sex scandal with the former justice minister.

Lieutenant Geraldo Mendonca de Lima, band leader of "The Dragons of Independence," was to be held for three days for ordering the band to play the bolero to Economy Minister Melle Zelia Cardoso de Mello.

Ms. Cardoso de Mello was familiar with the song. She had danced 20 minutes cheek-to-cheek to the famous bolero with then-justice minister Bernardo Cabral during her 37th birthday party in October.

A few days later, Mr. Cabral, a 58-year-old husband and father of three, resigned when it was revealed the two ministers were having an affair.

Lt. Mendonca de Lima has become the song's second victim, the press said.

BONN (NOV. 5) - Germany wants to sign major cooperation treaties with Poland and Czechoslovakia similar to the one it is to conclude with the Soviet Union, Foreign Minister Hans-Dietrich Genscher said here.

In an interview to be published Tuesday in the German daily Westdeutsche Zeitung, Mr. Genscher stressed ''the desire of the German government to strengthen its ties with its neighbors to the East.''

''We do not want Europe divided by levels of lifestyle and different economies '' he added.

Soviet President Mihail Gorbachev is to visit Germany from November 9-11 to sign with German Chancellor Helmut Kohl a German-Soviet treaty of good neighborliness, partnership and cooperation.

The treaty, given a preliminary signing September 13 in Moscow, ''aims to support the political reforms (in the Soviet Union), the success of which we are all interested in,'' Mr. Genscher said.

#90309d1790 11/05/1990 ~French/German News Agency

WASHINGTON (NOV 5) - Almost 70 percent of Americans think the United States will become involved in a war with Iraq and most favor attacking Iraq if hostages are harmed, a poll released Monday said.

The ABC News poll also said two-thirds of those polled approve of the stationing of U.S. troops in Saudi Arabia, while 31 percent believe U.S. forces should have stayed out of the Gulf.

The survey, conducted November 2-4 among a random sampling of 1,093 voters, said 56 percent favored attacking Iraq if it mistreated U.S. hostages and 51 percent wanted such action if the U.N.-mandated economic embargo failed to force Iraq out of Kuwait.

Almost seven in 10 of those polled expected the United States and Iraq would go to war. Nethertheless, an equal number want U.S. President George Bush to gain permission from Congress before going to battle.

The poll also said the approval rating for U.S. President George Bush had jumped from 51 percent last week to 59 percent. This is the second best mid-term approval rating of a U.S. president since modern opinion polls began. The best mid-term rading was enjoyed by John F. Kennedy, with a 61 percent approval rate in October 1962.

Meanwhile Monday, the Reverend Jesse Jackson, who visited Iraq in August, urged Baghdad's ambassador to the United States to pursuade his government to provide food, water and electricity to the U.S. Embassy in Kuwait.

Mr. Jackson, a former Democratic presidential hopeful, also asked Ambassador Mohamed al-Mashat for Iraq to arrange an airlift so American hostages could be home by Christmas.

#90309d1860 11/05/1990 ~French/German News Agency

NEW DELHI (NOV 6) - The leader of India's ruling Janata Dal Chandra Shekhar firmly believes that the country ''will be reduced to a banana republic'' if the Indian economy is opened to multinational companies.

He is also against the concept of free market economy, saying it would only lead to more foreign debts.

Chandra Shekhar, 63, is from central Uttar Pradesh state and believes in the virtues of socialism. Unfazed by criticism that his economic philosophy is out of touch with reality, he takes pride in his dogmatism.

''I have not changed my views and beliefs for 20 years. I will rather suffer poverty, hunt ger and degradation than face economic subjugation by foreign powers,'' he maintains.

Eldest of three brothers of an influential land-owning family in Ballia district of Uttar Pradesh, Shekhar had his initiation into politics in 1958 when he joined the now-defunct Prajatantra Socialist Party of India.

He holds a masters degree in political science from Allahabad University. The curious fact about his political career is that he has never held any public office before in his life, although many offers came his way.

He made it as a topline political leader solely by holding party posts. He was the president of the Janata Party when the opposition was in power between 1977 to 1979.

When the seven-party National Front coalition swept to power in the November 1989 elections, he behaved as if he was ordained to be the prime minister of India.

But a twist of fate robbed him of his chance when Vishwanath Pratap Singh beat him to the post. Shekhar never forgave him for this ''treachery and for being cheated'' and at every opportunity sniped at Singh's crisis-ridden government.

#90309d6240 11/05/1990 ~French/German News Agency

TOKYO (NOV. 5) - Japanese textile giant Toray Industries Inc. said Monday its net profit rose 4.7 percent from a year earlier to 14 billion yen (102 million U.S. dollars) in the six months to March.

The company, Japan's biggest manufacturer of synthetic fibres, said sales grew 6.5 percent to 290 billion yen (2.1 billion dollars) in the same period.

Sales of fibres and textiles climbed 6.3 percent to 162 billion yen (1.2 billion dollars), reflecting increased sales of high-quality polyester and nylon woven fabrics for sportswear, the company said.

But sales of plastics were unchanged at 79 billion yen (571 million dollars) with stronger sales of resin for office equipment offset by severe pricing competition for polyester film.

Chemical sales advanced 8.9 percent to 19 billion yen (139 million dollars) while sales of new products -- including carbon fibres, pharmaceuticals and electronics -- leapt 24.8 percent to 30 billion yen (217 million dollars).

Toray forecast its net profit for the full year to reach 28 billion yen (203 million dollars) on sales of 585 billion yen (4.2 billion dollars).

#90309d6310 11/05/1990 ~French/German News Agency

MANILA (NOV. 5) - A Taiwan-based regional anti-communist group opened a four-day conference here Monday hailing the fall of hard-line regimes in Eastern Europe but warning that the red menace remains.

Delegates from about a dozen countries including Sri Lanka, Saudi Arabia,

Lebanon, Australia and New Zealand attended the opening of the Asia-Pacific League for Freedom and Democracy (APLFD), formerly known as the Asia-Pacific Anti-Communist League.

Philippine Vice President Salvador Laurel, head of the Philippines' right-wing opposition, told the conference that although communist regimes had fallen before "the tidal wave of freedom and democracy" in Eastern Europe, they had "yet to generate comparable movements in the communist countries of Asia."

He cited Beijing's quashing of the pro-democracy movement in China and the

continuing communist insurgency in the Philippines.

David Chang, chief delegate of the APLFD chapter in Taiwan, warned that the Gulf crisis was threatening the stability of the whole region because of higher oil prices and depressed labor exports to Middle East countries.

"We must particularly beware of what may happen if one or more of those declining communist regimes turn dangerously ambitious and start trying to fish in the troubled waters of the Persian Gulf," he said in an opening statement, without naming any country.

"We have to critically examine the current world situation, paying special attention to the moves of the Marxist-Leninist forces in relation to the Persian Gulf developments," he added.

#90309d6340 11/05/1990 ~French/German News Agency

SYDNEY (NOV. 5) - John Elliott, who transformed Elders-IXL from a jam factory into a brewing, agricultural and financial giant, was demoted to deputy chairman Monday.

Elders said in a statement from Melbourne that Nobby Clark, former managing director of the National Australia Bank, the country's second largest, had been appointed chairman.

Two representatives from Japan's Asahi Breweries Ltd., which has bought a 20 per cent stake in Elders, will be appointed to the board by November 29 at the latest.

"The changes are part of the transformation of Elders IXL into Foster's Brewing Group Ltd. as a pure international brewing company," the statement said.

Mr. Elliott stepped down as chief executive of the group in May but remained chairman.

His demotion to deputy chairman and consultant to the chairman of the board follows the company's announcement in September of a loss of 1.3 billion dollars (one billion U.S.), Australia's largest at the time, for the year to June 30.

Elders' shares plunged to 99 cents in October compared with 2.44 dollars earlier this year, due to fears about the massive debt problems of Elders' largest shareholder, Harlin Holdings Ltd.

Harlin was the management buyout vehicle used by Mr. Elliott and other company executives to gain control of more than 50 per cent of Elders.

Harlin recently sold a 17 per cent stake in Elders to Asahi Breweries.

The statement said that the board changes "reflect the intended introduction of Asahi Breweries Ltd. as a substantial shareholder holding 20 per cent of capital in the company and the consequent reduction in Harlin Holding's shareholding to 39 per cent."

Elders shares closed up 14 cents at 1.34 dollars Monday.

-30- 1941

#90309d6450 11/05/1990 ~French/German News Agency

TOKYO (NOV. 5) - Japan's Asahi Breweries Ltd. said it agreed Monday to buy 17 percent of Australia's Elders-IXL Ltd. at a sharply reduced price, boosting its stake in the brewing and agricultural company to 19.9 percent.

A spokesman said Asahi agreed to buy 380 million Elders shares from Harlin Holdings Pty. Ltd., a debt-ridden management buy-out vehicle controlled by Elders executives, for around 760 million Australian dollars (590 million U.S).

That compares with Asahi's initial offer of 960 million dollars (745 million U.S.) for the full stake of 19.9 percent, announced on September 14 before a slump in Elders' share price forced the deal to be renegotiated.

Harlin announced last month that it had renegotiated the deal, saying that

Asahi would buy fewer shares from Harlin and buy the rest on the market, but did not disclose the revised purchase price.

The new price values the company at two dollars (1.56 U.S.) per share compared with the initial offer of 2.15 dollars per share (1.68 U.S.).

Elders shares were trading at 1.57 dollars (1.23 U.S.) when the original plan was announced. But they plunged to as low as 99 cents (78 cents) last month following the announcement of a record loss and rumours that British authorities would restrict a separate transaction.

Asahi, Japan's second-biggest brewer, has said it plans to produce Elders' Fosters Lager under licence in Japan and has similar ideas for its highly-successful "Super Dry" beer in Australia. The company already produces Coors beer from the United States under licence in Japan.

The deal was seen as crucial to reduce Harlin's debt, estimated at around 2.9 billion dollars (2.3 billion U.S.).

Harlin, controlled by Elders chief executive John Elliot, acquired just over half of Elders' shares at three dollars each (2.34 U.S.).

#90309d6460 11/05/1990 ~French/German News Agency

KUALA LUMPUR (NOV. 5) - A top government official Monday urged the Kuala Lumpur Commodity Exchange (KLCE) to introduce trading in timber, palm kernel oil and financial futures.

"The development of a multi-commodity futures market in Malaysia will play a key role in facilitating trade in commodities and in tying up with capital and financial markets," Minister of Primary Industries Lim Keng Yaik said.

He said financial futures like currency exchange rates would make the 10-year-old KLCE a more attractive market.

The exchange offers seven futures contracts in palm oil, natural rubber, tin and cocoa but only the crude palm oil contract is successful with trading volume growing by 59 percent annually in the past four years.

In a lull, speculators desert the market because they have no alternative counters to trade in, dealers said.

Dr. Lim said the rubber contracts were dormant because rubber was now treated as a manufactured good and not as a commodity while the tin and cocoa contracts faced competition from establised markets in London and Chicago.

He said, however, that the KLCE should not be disheartened by the failure of some of its products to take off immediately but should introduce new contracts that would bring in a new set of players and members to the exchange.

"The government has adopted a pragmatic approach and has been very supportive of the efforts of the exchange to make its market viable," Dr. Lim said.

"It will continue to consider favourably requests by the exchange for appropriate incentives because it would like to see Kuala Lumpur emerge as an active and viable futures market in the Asia-Pacific region," he said.

The International Monetary Fund, in a recent study on the KLCE, said that if government policy was to make Kuala Lumpur a leading financial centres it had to look into introducing financial futures on the KLCE.

Analysts said it was unlikely that financial futures could be introduced in Malaysia in the next few years because the governing authorities feel that banking institutions in the country are not ready.

#90309d6490 11/05/1990 ~French/German News Agency

TOKYO (NOV. 5) - Japanese pharmaceutical company Shionogi and Co. Ltd. said Monday its net profit dropped 27.6 percent from a year earlier to 4.1 billion yen (30 million dollars) in the six months to September.

Sales rose 1.9 percent to 109 billion yen (790 million dollars) in the same period. The company said the profit decline reflected lower drug prices and increased costs arising from a weaker yen along with research and development.

Shionogi forecast a net profit of 11.4 billion yen (83 million dollars) for the year to March with sales reaching 225 billion yen (1.6 billion dollars).

-30- 795

#90309d6600 11/05/1990 ~French/German News Agency

TOKYO (NOV. 5) - Japan's Nissan Motor Co. Ltd. said Monday its net profit rose 16.5 percent from a year earlier to 46.8 billion yen (339 million dollars) in the six months to September, spurred by record sales at home.

The company, the country's second-biggest automaker, said sales grew seven percent to 2.05 trillion yen (15 billion dollars).

Sales of motor vehicles edged up 0.2 percent to 1.18 million units with domestic sales climbing 8.4 percent to a record 717,915 units, while exports sagged 10.4 percent to 462,979 units, the company said.

Car sales fell 0.1 percent overall to 979,129 while sales of commercial vehicles rose 1.5 percent to 20,176 units.

"Nissan's strong performace," said vice president Atsushi Muramatsu, "directly reflects robust conditions in the domestic market." He warned, however, that the Gulf crisis, higher interest rates and a stronger yen "will contribute to a more difficult operating environment in the second half."

By value, vehicle sales rose 8.6 percent to 1.69 trillion yen (12 billion dollars) while sales of parts for overseas production fell 3.5 percent to 123 billion yen (891 million dollars). Sales of other parts climbed 1.6 percent to 191 billion yen (1.4 billion dollars), the company said.

Sales of industrial machinery and marine products declined 3.9 percent to 25 billion yen (181 million dollars) and sales of textile machinery leapt 23.2 percent to 10 billion yen (73 million dollars). Sales of aerospeace equipment rose 7.9 percent to 12 billion yen (87 million dollars).

Nissan said its net profit for the year to March was expected to rise 5.4 percent to 90 billion yen (652 million dollars) with sales expanding 2.4 per cent to 4.1 trillion yen (30 billion dollars).

#90309d6640 11/05/1990 ~French/German News Agency

Bangkok (NOV. 5) - Some 51,000 Vietnamese were allowed to leave their country in the first nine months of this year under the official Orderly Departure Programme (Odp), according to an official news report received here Monday.

The Saigon Giai Phong newspaper said a total of 70,000 Vietnamese would be allowed to leave under the programme this year. Some 100,000 ''will be granted exit permits in 1991'', the paper added.

Vietnam, in its efforts to improve relations with the West, introduced the Odp as an an humanitarian alternative to dangerous escape routes by refugees aboard boats or across war-torn Cambodia.

Estimates put the total of Vietnamese potentially eligible for resettlement abroad at well over 600,000. Odp participants go mostly to the United States, Canada and Australia, with smaller numbers to France, Germany and other European countries.

#90309d6650 11/05/1990 ~French/German News Agency

MANILA (NOV. 5) - The Philippines' largest labor group Monday accepted a wage compromise, signalling an open break with left-wing unions threatening to stage another general strike to press for much higher pay.

The conservative Trade Unions Congress of the Philippines (TUCP), which claims more than a million members, said the 17 peso (61 cent) daily wage increase offered by employers and the government would do until the year end.

But there must be no oil price increases until then, and wage levels must be adjusted early next year, TUCP spokesman Homer Punzalan said.

The compromise increase is a 19 percent improvement over previous wage levels. The TUCP earlier supported the left-wing May First Movement (KMU) demand for a 38 peso (1.36 dollar) daily wage increase.

The KMU led a violent general strike in October which led to four deaths and the burning of 24 buses and other vehicles by strikers and communist urban guerrillas.

The government hardened its position after the strike and arrested KMU head Crispin Beltran on sedition charges last week, but allowed him to post bail.

President Corazon Aquino on Sunday stood firm against demands that the government order an increase in wages and warned in a radio broadcast, "I will not allow a repetition of the violence that marred the previous strike."

The government has said it will try to maintain oil prices at their current level for the rest of the year, but oil companies have been petitioning for higher prices, saying the continuing rise in crude prices and the depreciation of the Philippine peso had made imports more expensive.

Mrs. Aquino hiked pump prices by 29 per cent in September and allowed the peso to fall by 8.7 per cent last week to 28 to the U.S. dollar.

Analysts predict another oil price increase and further depreciation of the peso in a few months because of the debt-ridden country's dwindling reserves and domestic financial shortages.

#90309d6850 11/05/1990 ~French/German News Agency

KUALA LUMPUR, Nov 5 (AFP) - Malaysia, the world's fourth largest cocoa producer, has put back its entry into the troubled International Cocoa Agreement to December, a senior government official said Monday.

"There is no backtracking on what we have announced. We have timed it for December now," Minister of Primary Industries Lim Keng Yaik said.

Dr. Lim had earlier said October was a good time for Malaysia to join the cocoa agreement but the decision was sidetracked by general elections last month.

The minister said he would meet officials of the Malaysian Cocoa Board Thursday to finalise details of a paper to be submitted to the cabinet on Malaysia's participation in the agreement.

"The paper will be put before cabinet within one or two weeks," he said, adding: "We will be a member before the end of the year."

The cocoa pact effectively collapsed in early 1988 in the face of chronic oversupply but was extended until the end of September 1992 albeit without its powers to intervene in the market.

Dealers at the Kuala Lumpur Commodity Exchange said they doubted if Malaysia's participation in the pact would give currently depressed cocoa prices a lift.

"The International Cocoa Organisation (which administers the pact) itself is a failure. It is unable to implement the policies of the agreement because of the economic conditions of its members," one dealer said.

Malaysia has in the past objected to joining the pact saying it failed to address the root problem of overproduction and placed the burden of financing the buffer stock operation on producing members alone.

#90309d6860 11/05/1990 ~French/German News Agency
MANILA (NOV. 5) - Asia's four "dragons" can join the ranks of fully industrialized countries by the year 2000 if they continue their liberalization programs, a World Bank expert said here Monday.

Taiwan, South Korea, Hong Kong and Singapore should "further open their economies, both politically and economically," Robert Lynn told a conference on regional economic prospects hosted by the Asian Development Bank (ADB).

Mr. Lynn said these four fastest-growing Asian countries, also known as the newly industrializing economies (NIEs), should also "address domestic issues such as reversing the decay in their environment."

"The possibility to join the ranks of the industrialized countries is within reach by the end of the decade," he said.

Mr. Lynn estimated that East Asian countries as a whole will continue to lead the developing world in economic growth, with their gross domestic product expanding by an average five percent in 1990 and 5.8 percent in 1991.

This relatively slower growth from the average 10.5 percent in the last four years stems from a slowdown in China due to a 1988 austerity program to control inflation and slower export growth for the four dragons as their currencies rose.

Mr. Lynn, who works for the World Bank's analysis and prospects division, said the growth projections were made before the Gulf crisis.

SYDNEY (NOV. 5) - Shares in Rupert Murdoch's News Corp. surged Monday following the announcement that the company's Sky Television would merge with rival British Satellite Broadcasting.

The share jump -- by 1.71 Australian dollars to 6.10 dollars -- was also helped by the recent announcement that the media giant would postpone work on new colour printing plants in Australia.

Analysts said the moves would cut the group's expenditure program and ease its cash flow deficiency.

"Murdoch has now got himself into a position to survive the recession no matter how long it lasts," according to George Sutton, of Barclays de Zoete Wedd Australia.

"With the Sky deal and the deferral of other capital expenditure, most of its problems over the next six months can be solved without the need for asset sales," he said.

But other analysts warned that News Corp. still had large debts, especially in the short-term.

Jolanta Masojada from Macquarie Equities said: "It is perhaps surprising the market should react so positively to the latest development with Sky when the underlying problems with the group are still to be resolved."

News Corp. shares have fallen from 10.45 dollars since late September due to investor concern at debts estimated at over 10.5 billion dollars (8.1 billion U.S.) especially at short term debt estimated at about 2.95 billion dollars (2.3 billion U.S.).

The company's net profit fell 43 percent to 282 million dollars (218 million U.S.) in the year to June 30.

TOKYO (NOV. 5) - Japanese textile firm Toho Rayon Co. Ltd. said Monday its net profit rose 12.7 per cent from a year earlier to 351 million yen (2.5 million dollars) in the six months to September.

The company, a medium-sized spinner of acrylic, rayon and cotton with the world's largest production capacity for polyacrylonitrile (PAN) carbon fibres, said sales grew 6.6 per cent to 39 billion yen (283 million dollars). Sales of acrylic, rayon, cotton and chemicals rose but raw silk sales fell, it said.

Toho said it boosted its output capacity for PAN carbon fibres, used by a wide range of industries from aerospace to sports equipment, from 1,420 tonnes a year to 2,020 tonnes during the period. But it also said it would have to cut prices due to severe price competition from rivals in South Korea and Taiwan.

The company forecast a net profit of 650 million yen (five million dollars) for the full year with sales reaching 76 billion yen (551 million dollars).

#90309d6920 11/05/1990 ~French/German News Agency

MOSCOW (NOV. 5) - Leading Soviet economists have bitterly attacked current plans for transition to a market economy, saying the compromise reached by parliament last month is leading the country to economic chaos.

Their scathing criticism follows the federal parliament's decision to merge their own proposals for a radical "500-day programme" with the more cautious

plan put forward by the government of Prime Minister Nikolai Ryzhkov.

The economists, who were members of President Mikhail Gorbachev's economic advisory council, said in an open letter in the reformist Komsomolskaya Pravda newspaper that failure to implement in time their own "500-day programme" now meant that even harsher measures were needed to prevent hyper-inflation.

The article, published this weekend, was co-signed by 13 economists, including Stanislav Shatalin, who headed Mr. Gorbachev's advisory team and Grigori Yavlinsky, who offered to resign his post of Russian Federation deputy premier after the federal Supreme Soviet voted for the compromise plan.

"The waste of time is obvious. The situation is getting worse. The population is losing confidence in the reforms and in the organs of power," the economists said.

The two economic programmes are "incompatible", the economists said.

Failure to agree on a single plan meant that some Soviet republics, such as the Russian Federation, had adopted the "500-day programme" for themselves, with others going along with the government programme or with their own version of reforms.

"Today we are witnessing the worsening of (economic) relations between the republics," the economists said, adding that chances of keeping the country together within an economic union were fast disappearing.

Estonia, for example, has gone ahead with unilateral price increases, the Ukraine has introduced ration coupons to prevent outsiders buying up their goods, and the Russian Federation has moved to increase meat procurement prices ahead of the time set by the federal government, they said.

Measures for "stabilizing the economy", including reduction of the budget deficit to 25-30 billion rubles, were now "totally unworkable", and the deficit would increase in the first quarter of next year, the economists warned.

In addition, if the government proceeded immediately with measures scheduled for next May to compensate low-wage earners for higher prices this would produce hyper-inlation, they added.

Other, much harsher measures, were now needed as the situation had grown worse over time and even the "500-day programme", which the Russian Federation started to implement this month, was now out of date, they said.

"This will be the price we have to pay for our procrastination in September of 1990," the economists said.

The Soviet parliament last month voted to postpone the liberalization of

prices and for a slower timetable in moving away from central controls over the economy.

The plan also delayed abolition of subsidies to money-losing companies and allowed for a much slower denationalization process than that envisaged by the radical plan for passage to a market economy within 500 days.

Colombo (NOV. 5) - Security forces killed 14 suspected members of the separatist Liberation Tigers of Tamil Eelam in the northeast of Sri Lanka, military sources said Monday.

The suspects were killed in three separate incidents late Sunday and early Monday near the island of Analaitivu and the eastern Trincomalee district, the sources said.

Officials said the security forces seized arms, rebel literature and communications equipment. Eight soldiers were injured.

In the northwest, troops captured a fuel distribution unit and two makeshift hospitals used by the rebels, who are fighting for a separate homeland for minority Tamils.

TAIPEI (NOV. 5) - Taiwan, faced with possible shortages, may force private factories to cut energy use by 10 percent, fining and cutting off supplies to those that do not, officials said here Monday.

In a conservation plan to be submitted to Economy Minister Vincent Siew for approval this week, officials from the government's energy committee said they had proposed the mandatory 10 percent cut for private factories using more than 500 kilowatts, or 3,000 metric tons of coal, 1,500 kiloliters of oil, and 15 million cubic meters of natural gas.

Proprietors ignoring the plan would face fines of up to 5,500 U.S. dollars and power supplies to repeat violators would be suspended for seven to 30 days, they said.

Government offices, state-run enterprises, and the army have already started energy conservation measures following an energy crisis triggered by Iraq's August 2 invasion of Kuwait.

#90309d7020 11/05/1990 ~French/German News Agency
MANILA (NOV. 5) - President Corazon Aquino announced here Monday that negotiations between the United States and the Philippines on the future of U.S. bases in this country will resume on Thursday.

Mrs. Aquino also reiterated that "we are looking for a new relationship tht is not only confined to security but also on matters of trade, aid, the (foreign) debt, environment, health."

This will be the third round of talks on the future of Subic Naval Station and Clark Air Force Base, both located north of Manila, after their lease expires in September, 1991.

Manila has said it wants to recover the "full sovereignty" of Clark as well as concessions on trade, reduction of the country's 27 billion dollar foreign debt and U.S. action on the possible spread of AIDS and environmental damage allegedly caused by the U.S. presence.

Washington has expressed its willingness to start a "phase down" process of its present military set-up which involves the permanent presence of 16,000 U.S. military in the country.

But while it appears understood that the U.S. Navy would continue to control Subic Bay, Washington has requested "continued access" to Clark.

KAMPALA (NOV. 5) - Uganda has protested Kenya's expulsion of Ugandans in the past two weeks, accusing Kenyan authorities of forcing Ugandans to leave their families and property behind, an immigration official said here Monday.

An estimated 11,000 Ugandans have left Kenya, according to Kenyan press reports, since President Daniel arap Moi ordered the deportation of foreigners living illegally in Kenya on October 20.

Tanzania has lodged similar complaints about the expulsion of about 100 Tanzanians. Kenya has also deported several hundred Rwandans.

The expulsions followed a visit to Nairobi last month by Juvenal Habyarimana, president of Rwanda which was invaded on October 1 by a group of Rwandan exiles based in Uganda.

The Ugandan government has sent a protest note to the Kenyan High Commission here, saying that "while it is the sovereign right of Kenya to expel aliens, this must be done in such a way that families are not separated."

The immigration official told Agence France-Presse on Monday that "Ugandans

who had been living and working legally in Kenya for many years were deported without even being given time to collect their children from school. They were not allowed to take their property with them."

Neither Kenyan nor Ugandan officials were able say how many Ugandans were living in Kenya. The Ugandan official denied Kenyan press reports that Uganda has expelled at least 500 Kenyans in retaliation for the expulsions from Kenya.

#90309d7160 11/05/1990 ~French/German News Agency

Dubai (NOV. 5) - King Hussein of Jordan hinted in an interview published Monday that Kuwait should make territorial concessions to Iraq as a way out of the crisis in the Gulf.

He told the newspaper Gulf News that if diplomacy had been given a chance, the Gulf crisis could have been resolved three days after Iraq invaded its neighbour Kuwait on August 2.

''Lamentably, the counsels of peace and negotiations did not prevail and now we are in a situation which can be of no conceivable benefit to anyone,'' the Jordanian monarch said.

Asked if the most immediate course should be an Iraqi withdrawal from Kuwait followed by talks between the two sides on their borders, Hussein replied ''And return to the situation we had before the invasion? To go back, in effect, to square one?''

''The essential problem has always been the lack of a defined border. It is essential that there is common agreement on what we all want to achieve, an agreement on a common destination at the end of the crisis,'' the king said.

#90309d7200 11/05/1990 ~French/German News Agency

BELGRADE (NOV. 5) - Private television stations have started mushrooming in Yugoslavia, though they are facing opposition from the local political powers who are also resisting any trend towards nationwide broadcasts.

The latest station to open is in the southern republic of Macedonia. It broadcasts 12 hours of programming daily - mostly films, commercials and video clips -- to the 50,000 residents in and around the southeastern city of Stip.

It joins a series of small, local television stations that have sprung up recently, mostly in Croatia and Slovenia in the northwest.

The largest new independent station is the YUTEL station, which was opened October 23 by a private firm in which the federal government of Ante Markovic

holds the majority shares.

YUTEL hopes to fill the void of television news programs covering all of Yugoslavia's territory but has met with sharp protest in Serbia, the most populous republic where the capital Belgrade is located.

Currently, the television stations in the country's six republics and two autonomous provinces are tightly controlled by the local political authorities, be they communist or non-communist, who have done little to broaden the spectator's choice of news programs.

YUTEL so far can only be seen in the central republic of Bosnia and Herzegovina. It is building its own studio in Belgade, but in the meantime is broadcast from the station in Sarajevo, the capital of Bosnia.

The plans for YUTEL, however, have angered the chairman of Serbian television, Dusan Mitevic. He has blasted YUTEL as a "pirate station" and ordered that mobile transmission relays lent by the army be dismantled.

Under current regulations, in Belgrade only the daily Politika, the organ for Serbian leader Slobodan Milosevic, has the right to access to a television station.

Another station called TV Studio B, which has no party affiliation, has been waiting for months for the allocation of a broadcasting frequency in Belgrade.

TOKYO (NOV. 5) - Japan's Mitsui Petrochemical Industries Ltd. said Monday its net profit fell 29.2 percent from a year earlier to 7.2 billion yen (52 million dollars) in the six months to September due to rising material costs.

Sales rose 3.5 percent to 154 billion yen (1.1 billion dollars) with increased turnover of synthetic resins and special purpose chemicals offset by declining sales of other chemical products and basic materials.

Mitsui forecast a net profit 31 billion yen (225 million dollars) in the year to March on sales of 421 billion (3.1 billion dollars).

TAIPEI (NOV. 5) - The government plans to invest 1.94 trillion Taiwan dollars (71 billion U.S.) in industrial, energy and other projects that would make Taiwan rank with the developed world in six years, officials said Monday.

Under the proposed six-year national plan beginning next July, Taiwan's economic ministry is to earmark 1.1 trillion Taiwan dollars (40.29 billion U.S.) for 135 development projects.

Those projects on behalf of 10 state enterprises involve energy exploration, improvement in pollution control facilities and development of the steel, chemicals and heavy machinery industries, the officials said.

The energy plan, designed to ease the island's heavy reliance on energy imports, will take up 94 percent of the 1.1 trillion dollar budget.

The ministry would also allocate an additional 840 billion Taiwan dollars (30.77 billion U.S.) to build more industrial parks and develop water resources, they said.

Annual economic growth for Taiwan for the six years has been set at seven percent and the planned government investment would contribute about two per cent to such growth, they said.

The 1991-1996 economic package is designed to increase national income, stimulate industrial development, upgrade living stardards, balance development in different areas, and promote recreational and cultural activities.

The overall budget for the six-year plan, under final discussion at the Council for Economic Planning and Development, is around five trillion Taiwan dollars (183 billion U.S.).

The Taiwan Finance Ministry had said that it would float government bonds to raise funds for the wideranging projects.

Last year, 51.5 percent of the energy consumed in Taiwan came from oil, 26 percent from coal and 13 percent from nuclear power. About 99 percent of the oil was imported by the state-run Chinese Petroleum Corporation at a daily average of 430,000 barrels.

The officials added that the ministry would have a separate budget to set up a 10 billion Taiwan dollar (366.3 million U.S.) fund to help the country's 773,000 small- and medium-size firms upgrade their operations and boost competitiveness in overseas markets.

#90309d7500 11/05/1990 ~French/German News Agency

WIESBADEN (NOV. 5) - Germany produced a 7.7 billion mark (5.13 billion dollar) foreign trade surplus in September, down sharply from 12.5 billion marks in September 1989, the Federal Office of Statistics reported here Monday.

The office said exports in September fell seven per cent to 52.7 billion marks while imports increased two per cent to 45 billion.

The figures represent Germany as a whole, whereby the basis for comparison to a year ago, when there was still the separate East Germany, is comprised of Deutschmark-denominated transactions, the office said.

In the first nine months of 1990, the total German trade surplus came to 91.8 billion marks, down from 104.4 billion in the same period last year.

The office noted that while western Germany exported 479.5 billion marks and imported 395.6 billion marks worth of goods in the first nine months, eastern Germany's foreign trade was much more modest, with exports totalling 28.1 billion and imports 20.1 billion marks.

Combined, the export total of 507.6 billion marks was virtually unchanged from the corresponding year-ago period, while imports of 415.8 billion marks were 3.5 per cent higher, the office said.

#90309d7750 11/05/1990 ~French/German News Agency

PRETORIA (NOV. 5) - The South African firm Select Equipment Services of Germiston, east of Johannesburg, announced it was planning to make Polish equipment under licence next year, on the first day of a groundbreaking South African-Polish trade fair here Monday.

Willie Randall, Select's sales manager, told Agence France-Presse his firm hoped to build Huta Stalowa Wola earth movers and front-end loaders in Germiston, making the framework locally and importing the power train from Poland to be assembled at the plant.

Select was selling wholly imported Huta Stalowa Wola machines at the trade fair, and had already sold a front-end loader worth 380,000 rand (152,000 dollars) to a diamond-mining firm in Wolmaransstad in the western Transvaal, Mr. Randall said.

The fair, seen as an indication of the extent to which anti-apartheid sanctions have crumbled, was otherwise quiet Monday.

Andrzej Zawislak, chairman of Poland's Special Parliamentary Committee for Privatisation, and Edward Wojtulewicz, general director of Poland's biggest steelmaker Impexmetal, are among the top officials in town.

Mr. Zawislak told AFP the visitors had not consulted the black nationalist African National Congress, the prime proponent of sanctions, before coming and had no intention of talking to them.

BRUSSELS (NOV. 5) - The European Economic Community (EEC) is studying an allegation of dumping against Soviet producers of potassium chloride, the European Commission said here Monday.

Potassium chloride, known as potash, is used in fertilisers.

The complaint came from the Association of European Potash Producers, which claimed that Soviet producers, not being subject to free market conditions, were selling potash at prices far below production costs of EEC producers.

The association said in its complaint to the commission that Soviet sales of potash in EEC countries had jumped from 306,000 tons in 1986 to 545,000 tons in 1989, taking its market share from 6.5 to 11.3 percent.

#90309d8050 11/05/1990 ~French/German News Agency

Bonn (NOV. 5) - German investment abroad rose 13 billion marks (8.7 billion dollars) in the first half of 1990, up sharply from the 7.6 billion marks in the same period last year, Bonn said Monday.

The Economics Ministry said the figure represented the balance of new investments of 18.6 billion marks abroad, at the same time that 5.6 billion marks worth of foreign investment was repatriated.

The chief area for new German investments was the European Community, reaching 10.8 billion marks, or nearly three times as high as the 3.75 billion marks invested in the E.C. in the first half of 1989, the ministry said.

Investments in the United States however fell sharply, from 2.2 billion marks in the first half of 1989 to just 874 million marks in the same period this year.

Direct foreign investment in western Germany in the first half of 1990 meanwhile increased by 2.5 billion marks, up slightly from the 1.7 billion mark rise a year earlier, the ministry said.

#90309d8060 11/05/1990 ~French/German News Agency

GENEVA (NOV. 5) - The Cairns group of farm exporting countries were set to

step up pressure on the European Economic Community (EEC) to engage in "serious" bargaining on agricultural trade to avert a collapse of world trade negotiations now in their final phase.

Ministers of the group, which includes four major Asian food exporters, held crisis talks in a Geneva hotel as EEC trade and agriculture ministers were convening in Brussels Monday afternoon for a crucial eleventh-hour attempt to draw up a negotiation mandate for EEC negotiators on agriculture.

Bringing farm trade into the rulebook of the General Agreement on Tariffs and Trade (GATT) is considered as vital by the United States, the Cairns Group and the majority of developing nations taking part in the four-year old Uruguay Round of trade negotiations.

A feeling of gloom among the cohorts of diplomats working almost round the clock at GATT headquarters deepened Monday when press reports from Washington suggested that the United States administration was now considering the possibility of walking out from the talks.

Insiders said the reports, believed to be based on deliberate leaks from quarters close to the White House, must be seen in the context of the U.S. elections, and largely reflected "tactical concerns".

Argentina, one of the most vocal critics of the EEC's common agricultural policy, suggested last week that the Cairns group should withdraw from the Round, launched in September, 1986, at Punta del Este, Uruguay.

Monday's meeting of the group, chaired by Australian Minister for Trade Negotiations Neal Blewett, was expected to issue a serious warning to the EEC that the most ambitious effort to date to liberalize world trade could founder unless the 12-nation community gets its act together.

#90309d8120 11/05/1990 ~French/German News Agency
COPENHAGEN (NOV. 5) - Fifty-two per cent of Denmark's citizens oppose sending emissaries to Baghdad to negotiate the release of hostages, a survey published here revealed.

Danes were against such initiatives because they did not want to see the international front ranged against Iraq broken, according to a Gallup poll which appeared in Sunday's Berlinske Tidende newspaper.

The survey was carried out last week after former prime minister Anker Joergensen announced he would go to Iraq in an attempt to arrange the release of 43 Danish hostages.

Mr. Joergensen arrived in Amman on Sunday and was waiting for a visa to enter Iraq.

Prime Minister Poul Schlueter has criticised private initiatives to Iraq, even if undertaken for humanitarian reasons.

He told his conservative party's annual convention Sunday that "Denmark must show its unswerving solidarity with the rest of the world". Even if this meant "economic and human sacrifices", he said, Denmark was "ready to pay the price".

-30- 1205
#90309d8140 11/05/1990 ~French/German News Agency
BERLIN (NOV. 5) - German investigators on Monday said they had uncovered a new scam to swindle tens of millions of Deutsche marks under German monetary union.

Seven East German businessmen are helping with inquiries, after Berlin police last Friday raided 25 homes, banks and offices, probing a fraud worth 30 million marks (20 million dollars), the city's interior minister, Erich Paetzold, said in a communique.

German monetary union, launched on July 1, was the first stage in German unification. Under it, East German businesses swapped two non-convertible Ostmarks for every Deutsche mark.

Police last month launched an investigation into a fraud that is believed to have reaped 500 million marks (333 million dollars) for a ring of East German exporters and their associates.

They illegally claimed reimbursements in Deutsche marks for holdings of "convertible rubles," the theoretical currency that East Germany used in its transactions with other members of the Comecon.

Mr. Paetzold said detectives were also probing an eight-million-mark (5.3-million-dollar) case in which fraudsters succeeded in converting rubles into Deutsche marks for fake contracts between East German and Soviet firms.

He said that "organised economic crime" had spread like wildfire in the dying weeks of the German Democratic Republic.

This was because of disorder arising from the fall of the ruling Communist Party and "the absence of state control" over currency exchanges.

In addition to fraud, "millions" were being made by cronies who worked in the former planned economy and found they were able to "act like gold diggers, pillaging the bank accounts" of former state firms, Mr. Paetzold said.

"This is just the tip of the iceberg," he said. The new crime "is of unprecedented extent and structure," he said.

-30- 2055

#90309d8150 11/05/1990 ~French/German News Agency

BEIJING (NOV. 5) - China on Monday published official guidelines encouraging collectively-owned enterprises to pay more money to their most skilled and productive employees.

"If individual workers accomplish a lot, they should get a lot of money. Egalitarianism should not be allowed," said the guidelines, as published in the official labor newspaper Worker's Daily.

They also endorse the principle of after-tax profit-sharing, subsidies and dividend payments to workers, stating that such bonuses should be seen as an integral part of their total income.

The New China News Agency said the guidelines, drawn up by the labor ministry and other government departments, were "recently" adopted by the State Council (cabinet), which is headed by Premier Li Peng.

They apply to half-a-million collectively-owned enterprises, whose 30 million employees earn a quarter of the total wage bill paid to all workers in China, NCNA said.

Though state-run industry dominate's China's economy, collectively-owned enterprises - which are not under the control of the central government - have been at the forefront of industrial growth in recent years.

Often established in rural areas, they frequently pay better wages, as well as productivity bonuses, to their employees.

The State Council guidelines, short on specifics, appeared to approve the notion of different pay for different work - all the while stressing the need for everyone to pay their taxes according to the law.

"Those workers who make big contributions should be paid more than those who do simple work," they state at one point.

They also suggest that managers be paid "perhaps one-third more" than their regular staff, on the basis of their responsibilities and profits, while under-productive workers should have their paychecks slashed.

The guidelines follow a bleak two years for collectively-owned industries, when Mr. Li's tight-credit policies to combat rampant inflation put thousands of small factories out of business.

They also contrast with appeals made last year by Communist Party general secretary Jiang Zemin for a narrowing, rather than widening, of pay differentials.

Workers' salaries vary widely from region to region. In Beijing, a worker in a state-run enterprise can earn 200 yuan (42 dollars) a month while enjoying a range of subsidized benefits.

#90309d8170 11/05/1990 ~French/German News Agency

NEW DELHI (NOV. 5) - The main party in India's ruling coalition split Monday, dealing what was seen here as a death blow to Premier Vishwanath Pratap Singh's 11-month-old, crisis-ridden government.

More than 60 MPs of the Janata Dal (People's Party) Monday "expelled" Mr. V.P. Singh, 59, from the party he helped found two years ago and chose veteran politician Chandra Shekhar, 63, as their new leader.

"Yes, the party has split," a senior Janata Dal official said.

The move put Mr. Shekhar firmly in the running for the post of India's next prime minister.

But 108 of the Janata Dal's 178 MPs gathered for a scheduled meeting expressed their solidarity with Mr. V.P. Singh, who faces a vote of confidence in parliament Wednesday which he is unlikely to win.

"Ours is the real Janata Dal and we will vote against Mr. V.P. Singh (in parliament) on Wednesday," dissident leader and former deputy premier Devi Lal told reporters at his residence here.

Har Mohan Dhawan, acting as their spokesman, said the dissident MPs would ask

President Ramaswamy Venkataraman to invite Mr. Shekhar to try to form a new government with the support of "secular and democratic forces".

He did not elaborate, but former prime minister Rajiv Gandhi's opposition Congress (I) party has said it would keep a Janata Dal government going if the party dropped Mr. V.P. Singh.

Predictably, the Congress (I) welcomed Mr. Shekhar's "election" as the Janata Dal leader, and said he would get "constructive cooperation" if he tried to form a government.

Within hours, the Janata Dal struck back, expelling 30 of the dissidents, including Mr. Shekhar, Mr. Dhawan and four of seven ministers who have quit Mr. V.P. Singh's government since October 26.

Two of the resignations, by ministers of state Janeshwar Mishra and Manobhai Kotadia, came Monday.

Also expelled was Sanjay Singh, a relative by marriage of the premier who unexpectedly threw his weight behind Mr. Shekhar, the most ardent critic of Mr. V.P. Singh in India's fractious politics.

#90309d8260 11/05/1990 ~French/German News Agency

WARSAW (NOV. 5) - Polish coal miners in nearly all of Silesia's 70 pits struck for two hours Monday to press demands for higher wages and a reform of the mining industry.

The token strike came after talks between the government and the national mining commission broke down.

Miners want "unfair" pay differentials of up to one million zlotys (95 dollars) between pits that were imposed by the former communist government, often on political grounds, to be abolished and pay to be levelled upwards.

The average salary of miners who are among the best paid in Polish industry stood at 1.8 million zlotys (180 dollars) after a rises of nearly 125 percent

between July and September.

Coal production dropped 25 percent between January and September, according to official figures.

The Solidarity trade union's mining commission said it will consider further action after presidential elections due November 25.

#90309d8300 11/05/1990 ~French/German News Agency

BEIJING (NOV. 5) - Argentine President Carlos Menem will make an official visit to China next week, the official press reported Monday.

Mr. Menem, due November 14-16, was responding to an invitation from his Chinese counterpart Yang Shangkun, the New China News Agency (NCNA) said.

The agency did not give Mr. Menem's schedule.

The visit follows one by Mr. Yang to Buenos Aires in May during a Latin American tour that took him also to Mexico, Brazil, Uruguay and Chile.

The two countries signed a series of agreements to simplify visa applications, increase cultural exchanges and cooperate in the area of cattle breeding.

China also discussed increasing sales of coal to Argentina and importing Argentine wool.

Bilateral trade amounted to more than 500 million dollars last year, largely in rgentina's favor. The two countries have had diplomatic relations since 1972.

BEIJING (NOV. 5) - The Cambodian peace process will remain bogged down until Prince Norodom Sihanouk is elected chairman of a Supreme National Council, Chinese Premier Li Peng said Monday.

Mr. Li, quoted by the official New China News Agency, made the comment in a meeting with Thai Foreign minister Subin Pinkayan, who left later in the day to return to Bangkok via Hong Kong.

"On the Cambodian issue, the most urgent thing to do now is to elect Samdech Norodom Sihanouk as chairman of the Supreme National Council of the country, in order to make the organization start its work," the premier said.

"Otherwise," he added, "all other problems on the Cambodian issue will be hard

to solve."

Efforts to end the 12-year civil war in Cambodia are in a stalemate, as Phnom Penh and the Cambodian resistance bicker over the make-up of the Supreme National Council that would represent sovereignty pending elections.

Both sides agree to have Prince Sihanouk as chairman but Phnom Penh is insisting that its prime minister Hun Sen be named co-chairman.

The resistance balks at the idea while China says the question of adding Mr. Hun Sen as a co-chairman should be put off until after Prince Sihanouk is elected.

Mr. Subin arrived Saturday on his first visit to China since he became foreign minister in August.

Mr. Subin also discussed bilateral issues during his trip, putting a special accent on improving commercial ties.

He won an assurance from Mr. Li that China would take an "active attitude" to Thai plans to develop the Mekong River, which originates in China, NCNA said.

Mr. Li added that China was prepared to co-operate in developing the Mekong with "all countries on the lower reaches of the river" -- a group that would include Vietnam, Cambodia, Laos and Burma.

JOHANNESBURG (NOV. 5) - Renewed violence flared in at least four black South African townships at the weekend between rival black political groups, leaving 28 people dead, police said Monday.

The worst-hit township was Bekkersdal black township, near the mining town of Westonaria west of here, where police had found 18 bodies by late Sunday, police spokeswoman Captain Henriette Bester said.

The fighting broke out between supporters of the socialist African National Congress (ANC) and the hardline black nationalist Azanian People's Organisation (AZAPO), the Sowetan newspaper reported Monday.

Nine houses were gutted, including the home of Bekkersdal mayor, John Mokome, and that of an AZAPO official, the newspaper said.

Capt. Bester said the clashes were sparked when one group of students tried to prevent the other from writing examinations. She said the situation was calm on Monday but unconfirmed reports said police were shooting teargas in the township on Monday.

The renewed internecine violence erupted only weeks after South Africa's worst wave of black-on-black violence, which saw some 800 people killed in townships around here in clashes between ANC supporters and supporters of the conservative Zulu Inkatha Freedom Party in August and September.

Unlike the ANC, AZAPO shuns negotiations with South Africa's white-minority government.

Meanwhile the president of the AZAPO-aligned Azanian Students' Convention (AZASCO), Thami Mcerwa, was fighting for his life in hospital after ANC-supporting students attacked AZASCO members at a university residence in Soweto black township, adjoining Johannesburg, on Saturday.

AZASCO spokesman Sipho Maseko said AZASCO members were attacked in their rooms by ANC-supporting students, armed with pangas (machettes), knives and guns. Mr. Mcerwa was critically injured in the attack.

In another attack, eight people were killed and several injured in Kutloanang black township, near the Orange Free State town of Odendaalsrus, after a gang of men launched a series of attacks on houses early Sunday morning, police said.

Police spokesman Major Johan Fouche said police were investigating a link between the killings and earlier clashes between rival black minibus taxi organisations.

Police also found the body of a man who was gunned down in Alexandra, Johannesburg's oldest township, where three people also suffered serious bullet wounds.

And in Natal province, a man was stabbed to death by a gang of men in Mganga Baboyi township, the official police "unrest" report said on Monday.

LONDON (NOV. 5) - Ten million Britons, or one in five of the population, are living on the breadline, the Child Poverty Action Group said Monday.

About one third of those living in poverty were children, the group said in a report based on data from 1987, the last year for which figures are available.

The report said the number of children in families who earned less than half of the average wage had risen from 1.6 million in 1979 to three million in 1987.

A typical family with two children under 11, which lives on the subsistence

level, had a weekly income of 90 pounds (177 dollars) after rent, it said.

The report said poverty had risen faster in Britain than in any other Western European country between 1975 and 1985.

About five million poor people in Britain saw no rise in their real incomes between 1979 and 1987.

WELLINGTON (NOV. 5) - New Zealand's budget deficit will hit one billion dollars (610 U.S.) while the Bank of New Zealand (BNZ), majority owned by the government, needs a 620 million dollar (381 million U.S) bailout, Finance Minister Ruth Richardson said Monday.

Speaking at a press conference after the National government's first cabinet since winning elections October 27, Ms. Richardson said 1.2 billion dollars (738 million U.S.) would also have to be borrowed to meet debt repayments.

"There are clearly three shocks in a financial market sense today," Ms. Richardson said, pointing to the BNZ bailout, the "true" budget figures as promised during the election campaign and the debt funding programme.

"Markets will determine the reaction, not politicians, but it is clear that there is going to be an unavoidable impact on wholesale interest rates," she said.

The benchmark five-year government bond fell Monday to close yielding 13.53 per cent, up from 13.08 percent. On the currency markets the New Zealand dollar rose half a U.S. cent to 61.52 U.S. cents.

Ms. Richardson said the Labour government's July budget had projected a surplus of 89 million dollars (54 million U.S.) which had turned out to be a deficit of 1.02 billion (626 million U.S.).

The minister attributed the budget turnaround to several factors, including the BNZ capital restructuring, which she said the previous government knew would have to be made as it had been under negotiation for months.

She said the Labour government had approved expenditure which had not been included in the budget or had been given the go-ahead between July and the elections.

A weaker economic outlook and lower overall expectations for the sale of state-owned assets had also contributed, she added.

Ms. Richardson said it would be necessary to initiate a borrowing programme to

cover maturing domestic and foreign debt consisting of bonds worth up to 900 million dollars (553 million U.S.) with 300 million dollars (185 million U.S.) being raised through regular Treasury Bill sales.

TOKYO (NOV. 5) - A series of plunges on the Tokyo Stock Exchange sent the combined pre-tax profits of its 114 member securities firms dropping 65.5 percent in the six months to September, exchange officials said Monday.

The profits totaled 371.8 billion yen (2.9 billion dollars) in the first half of fiscal 1990 while the companies saw their stock-brokerage commissions fall 22 per cent from a year earlier, the officials said.

The firms also suffered combined losses of 96.1 billion yen (739 million dollars) in stock and bond trading for their own accounts, the officials said.

Japan's big-four securities companies, Nomura, Daiwa, Nikko and Yamaichi, suffered drops in their pre-tax profits - ranging from 55.1 percent to 74.2 percent.

#90309d8410 11/05/1990 ~French/German News Agency

JOHANNESBURG (NOV. 5) - A white police sergeant was sentenced to seven years imprisonment by the Supreme Court here Monday for his part in the 1989 killing of black man, who died after being assaulted while in police custody.

The court was told that the defendant, Johannes Marthinus Olivier, arrested the late George Ndaba in Johannesburg's Alexandra black township on July 19 last year.

Later in the day, Mr. Ndaba was taken out of his cell for "further investigation" by Olivier and three other policemen.

Mr. Ndaba was then assaulted by Olivier and his body was later thrown onto a freeway near Johannesburg, according to the charges.

Olivier had earlier been found guilty of culpable homicide.

The presiding judge, G. Gordon, found that Olivier had influenced the other three policemen and that what he had done was "not only against the law, it was evil".

In sentencing Olivier, Judge Gordon said "one must also think of the widow who went from police station to police station trying to find out what had happened. She is left with three small children and no husband".

Of the three other policemen, two received suspended two-year sentences while one was acquited.

LAHORE, PAKISTAN (NOV. 5) - A special court here on Monday ordered opposition leader and former premier Benazir Bhutto to appear on Sunday to answer charges of misconduct.

Ms. Bhutto has been charged with misusing a Pakistan air force aircraft to transport deputies at the time of an oppsition bid to dislodge her from the premiership in November 1989.

The case is one of seven filed against her by President Ghulam Ishaq Khan before the Islamic Democratic Alliance (IJI) routed her People's Democratic Alliance (PDA) in last month's elections.

Ms. Bhutto, 37, can be disqualified from politics for up to seven years in the event of conviction in any of the cases.

LAGOS (NOV. 5) - Nigeria's General Ibrahim Babangida on Monday appointed a new minister of special duties, an official statement from the president's office said.

Before his appointment, Tunji Olagunju had since 1985 been a special adviser to Gen. Babangida on political affairs. He held a similar post in the military regime of General Olusegun Obasanjo (1976-79).

He takes over from retired Air Vice Marshal Hamza Abdullahi, who was dropped in a cabinet reshuffle on August 30.

#90309d8540 11/05/1990 ~French/German News Agency

GENEVA (NOV. 5) - The International Air Transport Association (IATA) on Monday recommended its member companies to increase passengers fares by between four percent and eight percent, and goods tariffs by between three percent and seven percent.

The increase, which would take effect in December, is the second to be recommended since the beginning of the Gulf crisis. The first took effect at the beginning of October.

IATA said that the increases would compensate partially for an increase in costs, and particularly of fuel, owing to the invasion of Kuwait by Iraq and subsequent increases in the price of oil and fuel.

Fuel accounts for about 15 percent of an airline's operating costs.

Observers said that the recommended increase was for a lesser amount than had been expected. During the IATA annual meeting here recently, the chairman of British Airways said that he favoured increases of eight percent to 10 percent.

The governments of member countries must now approve the increases.

#90309d8650 11/05/1990 ~French/German News Agency

Brussels (NOV. 5) - European Community development aid ministers remained divided here Monday over a strategy mapping the E.C.'s future assistance to Asia and Latin America.

The ministers failed to approve plans presented by the E.C. Commission to raise development aid outlays by 50 percent to some 4 billin dollars between 1991 and 1995.

France and Britain rejected the proposal for being too high, while Germany said the Commission had left many questions unanswered, in particular how the aid would be apportioned between Asia and Latin America.

#90309d8790 11/05/1990 ~French/German News Agency

BEIRUT (NOV. 5) - President Elias Hrawi has rejected a call from the PLO for negotiations on the status of the 350,000 Palestinians living in Lebanon, including 10,000 fighters based in the south.

The president said late Sunday that he rejected the proposal for a new agreement between the Palestine Liberation Organisation and Lebanon to replace a 1969 Cairo accord, which was abrogated by the Lebanese state in 1987.

"We support the Palestinian cause and revolution in Palestine, but as an independent and free state we cannot tolerate the presence of any armed party on our territory," he said.

"The Palestinian people in Lebanon will be treated like the Lebanese people, or the way they are treated in other Arab countries."

A senior PLO official, Abu Iyad, called last Friday for an official dialogue with the Lebanese government to work out new arrangements on the Palestinian presence in south Lebanon.

"If the Palestinians were excluded from all dialogue, this would lead to a drama in which everybody would pay the price," the official warned.

Under an Arab peace plan, named after the Saudi resort of Taif, the Syrian-backed government aims to extend its authority over the entire country, starting with Beirut and its suburbs after the withdrawal of militias.

The Taif accord of October 1989 calls for all Lebanese and non-Lebanese militias to be disbanded and the regular army to take control, but it does not refer directly to the Palestinian guerrillas in Lebanon.

Political circles in Beirut said the government could not enter an official dialogue with the PLO because the organisation has not formally recognized the Taif accord.

CAIRO (NOV. 5) - Belgian Defense Minister Guy Coeme said here Monday the United Nations-imposed embargo against Iraq needs time to make itself felt, the Egyptian news agency Mena reported.

Coeme said at the end of a three-day visit that his country supported a peaceful solution to the Gulf crisis as long as the Iraqis followed a similar policy, Mena added.

He also conferred with Egyptian foreign ministry officials about the refugee problem in Rwanda and said both sides would meet again to discuss this problem.

Egyptian President Hosny Mubarak is currently chairman of the Organisation of African Unity. Rwanda was once a Belgian colony.

During his stay, Coeme discussed with his Egyptian counterpart Yusef Sabri Abu-Taleb military cooperation between the two states, Mena added.

#90309d8850 11/05/1990 ~French/German News Agency
NAIROBI (NOV. 5) - A Scotland Yard report on the murder of British tourist Julie Ward which was handed to Kenyan authorities Monday incriminates two Kenyan game rangers, a source close to the investigation said.

Francois Gordon, first secretary at the British High Commission here, handed the report to Kenyan Attorney-General Matthew Muli on Monday.

Kenyan authorities called in British police to help investigate the case after an inquest held here in October last year at the insistence of Miss Ward's

father John Ward found that the British woman was murdered and not killed by wild animals as Kenyan police had first said.

Miss Ward's scattered and burnt remains were found in the Masai Mara game park two years ago. She was 28 when she died.

The source, speaking on condition of anonymity, said the report, which completes another British police report on the case submitted in May, contained "incontrovertible forensic evidence which incriminates two rangers from the Masai Mara."

The two were arrested in March but released after a week "pending results of inquiries." The source said the report contained evidence that showed that Miss Ward had spent the last week of her life after she went missing in September 1988 in the rangers' compound in the game park.

They had previously denied having seen her, but had said they had been in their compound during the week that preceded the discovery of her remains.

The source said others were also suspected of involvement in the murder.

NEW YORK (NOV. 5) - The United States will call up combat reserve units to reinforce U.S. forces in the Gulf, the New York Times Monday quoted Defense Department sources as saying.

The troops assigned to these units would be among as many as 100,000 additional reserve forces the Pentagon has said it would activate in coming weeks.

The Times said the actual deployment of the combat reserve units in the Gulf region could be achieved early next year.

Before it adjourned, Congress doubled the allowable active duty periods for reservists, to 360 days, a measure aimed at providing adequate training periods for reserve units.

The Times report said the call-up represented the first test of the so-called Total Force Policy, in effect since 1973 after the elimination of the draft, which relies upon the integration of combat reservists to active duty units.

More than 34,000 non-combat reservists already have been mobilized in connection with the Gulf buildup, including medical personnel, cargo handlers and technicians.

#90309d9360 11/05/1990 ~French/German News Agency
WASHINGTON (NOV. 5) - Former President Ronald Reagan said the Iran-contra affair hurt his presidency and that he is "still ignorant" about all the facts in the scheme to sell arms and divert profits to Nicaraguan rebels.

"The cloud that descended over my credibility during Iran-Contra undoubtedly affected my last two years in office," he said in his book, "An American Life " excerpts of which were published in this week's Time magazine.

He said if he could relive the past, he would ask the two key architects to explain to him exactly how the scheme worked.

Former national security adviser John Poindexter and his aide Oliver North arranged the plan under which weapons were sold to Iran and the profits were diverted to the Nicaraguan rebels, known as contras.

"O.K. John and Ollie, level with me," Mr. Reagan wrote about what he would say if he could go back to that point in time. "Tell me what really happened and what it is that you have been hiding from me. Tell me everything."

"If I had done that, at least I wouldn't be sitting here, writing this book, still ignorant of some of the things that went on during the Irancontra affair " he wrote.

Mr. Reagan also insisted the U.S. sale of weapons to Iran was not intended to be a swap of weapons for American hostages held in Lebanon, though he acknowledged, "it may not look that way to some people."

#90309d9390 11/05/1990 ~French/German News Agency
COLOGNE, GERMANY (NOV. 5) - A court here Monday ordered that a woman who tried to kill German Social Democratic Party standard-bearer Oskar Lafontaine be committed to a psychiatric institution.

It said Adelheid Streidel, a 43-year-old nursing aide, was a ''paranoid-hallucinatory schizophrenic'' who posed a threat to society.

The court said she had tried to murder Lafontaine with a knife in an ''insidious'' way during a campaign rally in suburban Cologne last April, but Streidel could not be jailed because she was mentally ill and not responsable for her action.

Streidel was a public threat due to her hallucinations, the court ruling said in line with a psychiatric report. Streidel had said she believed people in Europe were being psychologically remoulded in secret underground sites. This was why she wanted to punish a politician.

After hearing the court ruling, Streidel said she was ''totally healthy'' and refused to accept the fact that she had to take medication. ''It is sad that Lafontaine did not die,'' she added.

The defendent's lawyer said he would appeal because Streidel had not tried to ''murder'' Lafontaine but rather to commit ''manslaughter'', a less grave act under the law. He said the court had made a mistake when it rejected Streidel's demand to exclude the public from the trial.

Lafontaine, the Social Democratic Party's hope for toppling the centre-right coalition government of Chancellor Helmut Kohl in next December's general elections, has now fully recovered from the knife wound to the neck and has resumed his election campaign.

KATHMANDU (NOV. 5) - Nepalese King Birendra will promulgate the country's new constitution that paves the way for a multi-party democracy and greater later this week, it was announced Monday.

The announcement came in a royal palace communique, broadcast over Radio Nepal after Nepalese Premier Krishna Prasad Bhattarai Monday submitted the final constitution as approved by the interim coalition government to the king.

Friday, the day of the promulgation of the new constitution, will be observed as a national holiday to mark, the government said.

The new constitution, which will replace the old Panchayat constitution under which political parties were banned for the past 30 years, was drafted by a panel headed by the Supreme Court judge Biswanath Upadhyay and then modified by the government.

The promulgation, originally slated for October 11, was postponed at the request of the king who insisted on some changes. The government had approved some of the requested changes but had rejected others, government sources said.

The delay has sparked protests by leftist groups charging that the king was ''hatching a plot to retain all powers to himself''.

#90309d9440 11/05/1990 ~French/German News Agency

WASHINGTON (NOV. 5) - A leading Soviet analyst acknowledged Monday it was difficult to engage in a prolonged search for a peaceful resolution to the Gulf crisis but warned that easy solutions, though tempting, usually were "very dangerous."

Georgi Arbatov, director of Soviet studies at Moscow's Institute of Canadian and U.S. Affairs, in an interview with NBC television, denied that there were "conflicts or rifts" between the Soviet and U.S. positions in the confrontation with Iraq.

Soviet President Mikhail Gorbachev and his special Gulf envoy Yevgeny Primakov have both expressed optimism about the prospects for a negotiated solution while the United States has taken a harder line toward Iraq.

"I think our position is very clear, and we are here completely, fully acting in accordance with United Nations resolution," Mr. Arbatov said in the interview from Moscow.

"If it comes to use of force, we are ready to accept it only in case it is done under directive of the resolution of United Nations," he said. "And this has to be discussed, and there has to be a 'yes' said also by the Soviet Union."

Moscow believed it had to do everything possible to find a peaceful solution to the crisis, Mr. Arbatov said.

"But of course," he added, "It is not an easy thing to have for a prolonged time, this peaceful effort. Sometimes one becomes short on temper. But one shouldn't be tempted by easy solution. They are usually not easy, and very dangerous."

Mr. Arbatov minimized the talk of war coming out of Iraq in recent days, saying that as always in such situations, "there is a blah, blah, blah being said on both sides."

-30- 1862

#90309d9450 11/05/1990 ~French/German News Agency

MANAMA (NOV. 5) - Over 350,000 soldiers of a multi-national force deployed in the Gulf to fend off a possible attack by Iraq against Saudi Arabia might well spend Christmas in the desert waiting for a decision on war or peace.

Three months after the start of the Gulf crisis, military experts and Western diplomats say an outbreak of war in the next weeks is unlikely despite warnings by U.S. President George Bush that he is beginning to lose patience with Iraqi President Saddam Hussein.

Military commanders of the U.S.-led force say they do not expect a war in the next few weeks unless Saddam forces them into it.

U.S. troops are already poised to counter a possible Iraqi attack, although such a move appears increasingly unlikely. However, U.S. troops will be

prepared to launch an offensive that would keep their own losses within limits at the earliest in mid-December.

In addition, Washington so far has no backing from its anti-Iraqi allies for such ''a military option'', Western diplomats and military experts point out.

U.S. Secretary of State James Baker, currently on a tour of the Middle East and Europe, is unlikely to obtain a unanimous okay for an offensive against Iraq in case of a failure of United Nations efforts to roll back Baghdad's August 2 invasion of Kuwait.

France especially is expected to resist a military option should Iraq fail to bow to the United Nations Security Council resolutions demanding the withdrawal of Iraqi troops and the restoration of Kuwait's legitimate government.

The Soviet Union, too, has repeatedly said that it opposes a military solution of the Gulf crisis.

As permanent Security Council members, both countries have the right to veto any decisions taken by the world body.

Another question is whether Bush would want to put the newly American-Soviet detente at risk by ignoring Moscow's stance.

The prospect of having to fly home ''body bags'' with killed U.S. male or even female soldiers in the run-up to Christmas is cited by U.S. military experts as a reason that Washigton would considerably boost its ground troops in Saudi Arabia before it striking.

However, it would take weeks to increase the strength of the ground troops deployed in Saudi Arabia. At present, Iraqi soldiers clearly outnumber the multinational forces there.

#90309d9480 11/05/1990 ~French/German News Agency

EASTERN SAUDI ARABIA (NOV. 5) - U.S. Navy Secretary H. Lawrence Garrett III said Monday he was hopeful a peaceful solution to the Gulf crisis could be worked out but that U.S. forces were well prepared to fight if called upon.

Speaking during a visit to a Marine Corps support detachment, Mr. Garrett said American forces are prepared to remain in the region for as long as President George Bush wants.

"These people are ready to do exactly what they are trained to do," he told reporters. "They are not impatient as has been reported ... they know why they're here."

Asked if he was still hopeful a peaceful solution could be worked out to the crisis sparked by Iraq's invasion of Kuwait, the U.S. Navy secretary said: "I am still hopeful. Certainly it's not my nature to be otherwise."

He said commanders did not appear to be "eager" to fight but "should they be called upon to fight, do I see the ability to fight? You bet."

"I've never seen them better prepared. I haven't seen the morale as high as this since the early sixties," he said.

Mr. Garrett also said he saw a continued U.S. presence in the area. "We've been in this region since 1947, just not in these numbers. So I anticipate we will stay in this area in some number.

"Certainly the Navy has been here for a long time and I anticipate it will be for the forseeable future," he said.

The United States currently has more than 50 warships patrolling the waters around the Arabian Penisula.

Mr. Garrett said the investigation into an October 30 steam leak aboard the USS Iwo Jima which killed 10 U.S. sailors was still going on. He said he may visit the amphibious assault ship in Manama.

Mr. Garrett, who held talks Monday with Vice Admiral Talal Salem Mafadi, head of the Royal Saudi Navy, was to go to Bahrain later Monday before leaving for Europe on Thursday.

Earlier officials at the U.S. Naval command center in Manama said that the aircraft carrier USS Midway and its battle group on Monday entered the Gulf to begin routine exercises.

The Midway, accompanied by two cruisers, two destroyers, a frigate and two other vessels, is to replace the USS Independence in the region.

There was no indication as to how long the Midway, the oldest aircraft carrier operated by the U.S. Navy, would remain in the Gulf.

NAIROBI (NOV. 5) - The first convoy under the United Nations' Special Relief Program for Angola has successfully delivered food to people affected by drought and war.

In a statement issued here Monday, the World Food Program (WFP) said its 20-truck convoy carrying 415 tons of rice and oil, which left the Angolan port

of Lobito on Nov. 2 delivered its consignment to the rebel-held town of Huambo on Nov. 4.

The Angolan government and the rebel Union for Total Independence of Angola (UNITA) had agreed to permit relief activities in areas of Angola hitherto inaccessible because of the civil war.

The special programme for Angola calls for 110,000 tons of emergency food aid worth 65 million U.S. dollars to be delivered and distributed between Nov. 1 and April next year to some 1.9 million people affected by drought or war in nine provinces of central and southern Angola.

#90309d9760 11/05/1990 ~French/German News Agency

BRUSSELS (NOV. 5) - Ministers of the European Economic Community (EEC) recommended here Monday wiping out debts of 66 third-world countries totalling nearly two billion dollars, a source close to the European Commission said.

The recommendation came at a meeting of EEC ministers of cooperation and development. It must still be approved by foreign ministers of the community's 12 member countries in December,

The debts, contracted by African, Caribbean and Pacific (ACP) countries, represent a repayment obligation of 1.5 billion European Currency Units (ECU -- 1.95 billion dollars).

But their cancellation now will cost only 650 million dollars, the source said. The 66 countries are linked to the EEC by the Lome Convention, a north-south trade and cooperation accord signed in 1975.

The debt cancellations will apply only to debts contracted with the EEC itself and not with individual member countries.

A source close to the European Commission, the executive arm of the EEC, said the debt burden of the ACP countries totalled 195 billion dollars.

WASHINGTON (NOV. 5) - Congressional budgetary constraints may force deep cuts in the size and scope of the orbiting space station Freedom, the trade newspaper, Space News, said in this week's edition.

Officials of the National Aeronautics and Space Administration (NASA) were to meet with partners in the space station project Tuesday on design changes.

Space News quoted NASA officials as saying the changes might include

shortening the original 130-meter (400 foot) length of the station and elimination of exterior scientific payloads.

NASA is reportedly seeking to minimize the effect of any such cutbacks on programs of its project partners, Japan and European Economic Community nations, the paper said.

The U.S. Congress cut 550 million dollars from the space station's 1991 budget decreasing it to 1.9 billion dollars, and ordered NASA to make substantial cuts in the project's overall cost.

NASA is also proposing to decrease from six to four the number of space shuttle flights needed to assemble the space station in orbit.

The first of these flights is tentatively scheduled for March 1995.

MBABANE (NOV. 5) - Thousands of Swazis from South Africa's Kangwane tribal homeland in the eastern Transvaal Sunday pleaded with Swazi King Mswati to restart negotiations with South Africa to reunite them with Swaziland.

Swaziland has laid claim to Kangwane and Ingwavuma in northern Natal Province, a South African area between Mozambique and Swaziland currently under the control of Zulu leader Mangosuthu Buthelezi, for over 100 years.

The Swazis say these areas were ceded to South Africa during the British colonial era.

The South African news agency SAPA said Monday that one of several prominent Swazi chiefs from Kangwane, Prince Solly Dlamini, told the king that in view of the wind of change in South Africa, Swazis living in the annexed territory would soon have no place to go.

The prince was one of thousands who on Sunday converged on the Lozitha Palace here on Sunday to plead with the king.

Prince Solly told the king that Swazis living outside their artificial present boundary of Swaziland, their mother country, still considered themselves Swazis.

He said Swazis in the so-called homeland would never be willing to be absorbed into the new South Africa or to serve under a South African government because they regarded the king of Swaziland as their leader.

Chief Themba Dlamini told the king that Swazis in Kangwane had numerous problems which he said were caused by intimidation from "the puppets of other forces".

Swazi Prime Minister Obed Dlamini, present at the meeting, also urged the king to look into the border adjustment issue.

GENEVA (NOV 5) - Representatives of the 12-member European Community (E.C.) and the 19-member European Free Trade Association (Efta) adopted Monday a joint position for the current World Climate Conference in Geneva.

The two economic blocs agreed that in the next 10 years emissions of carbon dioxide (Co2) into the atmosphere should not be allowed to increase beyond the levels of 1990, Swiss Economics Minister Flavio Cotti told newsmen after the meeting.

Italian Environment Minister Giorgio Ruffolo explained that to keep carbon dioxide emissions at the present level was only a first step but a decisive one.

He pointed out that the E.C. and the Efta were in agreement that once the Co2 emissions had been stabilised the total amount of gases leading to the ''greenhouse effect'' (global warming) should be reduced. Co2 is the chief cause of global warming.

The E.C. and the Efta asked all industrialised countries to adopt similar decisions against the greenhouse effect.

Italy's Carlo Ripa di Meana, E.C. commission member in charge of the environment, said that various countries such as the United States and the Soviet Union were reluctant to act in that direction.

The U.S., the Soviet Union and Saudi Arabia also came in for criticism by Greenpeace environmentalists here for the same reason.

Seoul (NOV. 5) EFE - South Korea and the Soviet Union established direct telephone links Monday, reflecting the growth in bilateral contacts this year, the South Korean Communications Ministry said.

Four telephone circuits were set up, linking the two countries between which telephone conversations had previously been routed through Britain, Italy and Greece.

In 1987 there were only four telephone calls between the Soviet Union and South Korea, while this year there have been 5,000 calls per month.

The Soviet Union and South Korea agreed on September 30 to establish full diplomatic relations, following an increase in commercial links.

Bilateral trade amounted to some dlrs 600 million in 1989 and is targetted to rise to dlrs one billion in 1990.

MADRID (NOV. 5) EFE - The Soviet Union will need dlrs 30 billion in foreign credits in the next two years to convert to a market economy, Soviet economist Nicolai Shemeliov said Monday.

Speaking at a news conference in the Spanish capital, Shemeliov said the transition to a market economy, initiated by President Mikhail Gorbachev, could not be completed without a massive infusion of outside credit.

Shemeliov is a member of the Soviet Academy of Sciences and a former member of the Communist Party Central Committee.

RIO DE JANEIRO (NOV. 5) EFE - Fifty people were murdered in the Brazilian city of Rio de Janeiro during the Day of the Dead holiday weekend, city officials said Monday.

Police registered 21 murders just on Friday, the Day of the Dead which is a holiday in many Roman Catholic countries.

The Brazilian daily Jornal do Brasil attributed increased violence during holiday weekends to relaxed police vigilance.

Last February, 68 murders were registered during a holiday weekend, the highest number this year.

The sprawling slums of Rio de Janeiro are the most violent areas. Murder victims tend to be unemployed people, delinquents or children often shot dead by death squads intent on stamping out youth street crime.

Last week local police said they had located a mass grave where the remains of more than 100 children were dumped after they had been killed by the death squads.

The Civil Police Secretary said that 1,824 murders were committed in Rio over the first six months of this year and statistics show that the vast majority of the killings remain unsolved.

SANTIAGO (NOV. 5) EFE - Chilean police continue torturing political detainees eight months after a 17-year military dictatorship ended with the inauguration of civilian President Patricio Aylwin, a human rights group has charged.

The group, the Committee for Defense of the People's Rights, alleged that police continue using torture methods such as beatings, strangling and electric shocks.

The leftist Santiago daily Fortin Mapocho published the accusations in its Monday edition.

The rights group documented 12 cases of torture allegedly inflicted on people arrested for political crimes since Aylwin took office in March.

The paramilitary Carabineros police, controlled by the Interior Ministry, were responsible for most cases of torture, the report said.

It describes the case of Alvaro Rodriguez Escobar, detained on August 9 for alleged links with the Lautaro Youth Movement (MJL) guerrilla group which surfaced during the dictatorship of Gen. Augusto Pinochet and has killed several Carabineros in the past year.

While in detention, Rodriguez was beaten up, hit with a steel instrument, shocked with electric current, and prevented from sleeping for three days, the rights group said.

He was also forced to eat human excrement and was hung by the wrists, according to the report.

The MJL and the communist Manuel Rodriguez Patriotic Front have continued armed attacks against government targets and businesses since Aylwin's inauguration, on the grounds that his government is maintaining the dictatorship's policies.

Several human rights groups have accused the police of excesses since Aylwin took office, but the government has said the human rights situation has improved dramatically.

During Pinochet's rule, international organizations repeatedly condemned the government for human rights violations.

PARIS (NOV. 5) EFE - The three French soldiers captured by Iraqi troops last week after allegedly straying across the border from Saudi Arabia were on a special intelligence mission, Defense Minister Jean Pierre Chevenement acknowledged Monday.

Chevenement confirmed French newspaper reports that the soldiers formed part of an elite unit of reconnaissance specialists.

He said their mission was to go near the Saudi-Iraqi border "but not too close".

French military officials have refused to reveal the identity of the men or give details on their arrest last week by Iraqi troops, although the Army has announced an investigation will be carried out into the incident.

Chevenement did not rule out the possibility that the soldiers strayed into Iraqi territory as the border area near where they were captured is "difficult to localize".

He said the system which helps troops find their way in the desert, "especially the Navstar satellite, is precise within 500 meters".

Chevenement added that the "unfortunate incident could have been much more serious".

The men returned to Paris Sunday after their release was ordered by Iraqi President Saddam Hussein. Saddam said he was allowing them to return to France in order to "improve relations between the two countries".

France has condemned the Iraqi invasion of Kuwait and sent troops to join the multinational force deployed in the Gulf.

#90309e0043 11/05/1990 ~Latin America New Agency

MOSCOW (NOV. 5) EFE - The Soviet Union expects to be able to meet its foreign debt payments next year thanks to a decree by President Mikhail Gorbachev aimed at gathering hard currency, a central bank official said Monday.

The Gosbank official, Oleg Mozhaiskovo, said the government expects to collect between dlrs 12 billion and dlrs 16 billion in hard currency, depending on oil prices, during 1991.

Interest and principal payments due in 1991 amount to dlrs 11 billion, he said.

The decree, announced last week, will require all companies, except those with foreign ownership, to sell 40 per cent of their hard currency earnings to the state foreign trading bank.

The measure is to go into effect January 1.

International financial experts have said the Soviet Union might not be able to meet the payments on its dlrs 60 billion debt next year because of economic troubles and the scarcity of hard currency.

#90309e0046 11/05/1990 ~Latin America New Agency

NICOSIA (NOV. 5) EFE - The Iraqi Foreign Ministry Monday denounced the second violation of its airspace in as many days by warplanes from Saudi Arabia, where a massive U.S.-spearheaded multinational force is stationed.

Iraqi radar Sunday picked up an F-15 and an F-14, both fighter planes, flying seven km above southwestern Kuwait, the spokesman said.

The two planes travelled three km into Iraqi-occupied Kuwait before returning

to their bases in the northwestern Saudi provinces of Hijaz and Nejd.

Iraqi air defense controls Saturday detected two planes from Hijaz and Nejd which flew over Iraq's southern frontier, an Iraqi Foreign Ministry spokesman said Sunday.

The spokesman added that a TR-1 combat plane had also flown over Iraqi territory on an unspecified date.

The multinational forces have been deployed in the Gulf area following Iraq's August invasion and subsequent annexation of Kuwait.

PARIS (NOV. 5) EFE - Jordan's King Hussein said Monday after a brief meeting with French President Francois Mitterrand that he was satisfied with both country's efforts to find a peaceful solution to the three-month-old Gulf crisis.

Following a 45-minute meeting with Mitterrand, Hussein said in a press conference that they agreed to "continue doing whatever possible" to not only find a peaceful solution to the Gulf crisis, but "to all present and future problems in the region".

France has sent troops, planes and warships to join U.S.-spearheaded multinational forces in the Gulf, but has pledged since the outbreak of the crisis to press for a peaceful solution.

Hussein met Saturday with Iraqi Foreign Minister Tareq Aziz, who was rumored to have given Hussein a message for Mitterrand from President Saddam Hussein outlining ways to achieve peace in the region.

But Hussein Monday said he carried no such message and added that he was unaware of any change in Baghdad's policy on the crisis over Iraq's August invasion of Kuwait.

"I have been hoping and praying that war does not come," Hussein said, and declined to comment on rumors that Saddam might be willing to withdraw from Kuwait.

French government officials said Hussein and Mitterrand discussed the possibility of seeking an Arab solution to the crisis, as was mentioned by Soviet President Mikhail Gorbachev during his visit to Paris last week.

Also high on the agenda was future economic aid to Jordan, which has been badly hurt by the international embargo imposed on Iraq, previously its foremost trading partner.

Jordan's losses as a result of the embargo are estimated at dlrs two billion for 1990.

Jordan has condemned the invasion, but the government's perceived ambiguity toward Iraq coupled with wide-spread popular support for Saddam prompted Saudi Arabia to cut off oil supplies.

The one-day visit to France was Hussein's second since the crisis began. He is to leave later Monday for Geneva where he is to have breakfast Tuesday with British Prime Minister Margaret Thatcher.

Hussein is then scheduled for talks with French Prime Minister Michel Rocard.

The two European leaders are in Geneva attending the Second World Climate Conference on how to curb global warming.

#90309e0050 11/05/1990 ~Latin America New Agency

BRASILIA (NOV. 5) EFE - Brazilian Foreign Minister Francisco Rezek Monday denied that his government made secret deals with Iraq in order to secure the release last month of some 300 Brazilian hostages.

He said the Brazilian daily O Globo confused the issue in its report Sunday which claimed the government agreed to pay any fines resulting from the failure of Brazilian companies to complete work in Iraq which was interrupted at the outbreak of the Gulf crisis.

Rezek said the government made no additional deals with Iraq, which only asked for guarantees that Brazilian firms would complete the contracts once the crisis was over. He added that there was nothing extraordinary about giving that guarantee.

Last month, most of the 500 Brazilian hostages held in Iraq were released after intense diplomatic efforts by the government of President Fernando Collor de Mello.

Their release was sealed after a high-level Brazilian team, headed by ambassador to London Paulo Tarso Flecha de Lima, met Iraqi officials.

In its report Sunday, O Globo quoted the secretary of the presidency, Marcos Coimbra, as saying that the release of the hostages did involve an agreement over fines for broken contracts, but he denied that government had undertaken to pay those fines.

BUENOS AIRES (NOV 5) EFE - The inflation rate in Argentina was 7.7 percent in October, the first time in 11 months that the cost of living rose by less than 10 percent, Planning Minister Moises Ikonicoff said Monday.

Inflation was running at 196 percent when President Carlos Menem took office in July 1989 but a rigorous program of economic reforms has managed to slash the figure.

His austerity measures are based on reducing the public debt and privatizing state-run companies.

The Economy Ministry had recently told the International Monetary Fund that Argentina would continue the battle against inflation and lower it to under 10 percent for the rest of the year.

The government has also pledged to keep inflation at about two percent monthly for 1991 and analysts said the rate for November should even be lower than the October figure.

WELLINGTON (NOV. 5) XINHUA - NEW ZEALAND GOVERNMENT'S CASH POSITION OF 2.556 BILLION N.Z. DOLLARS (1.534 BILLION U.S. DOLLARS) FOR 1990/91 FINANCIAL YEAR WILL BE USED TO REPAY DOMESTIC AND OVERSEAS DEBTS, FINANCE MINISTER RUTH RICHARDSON ANNOUNCED TODAY.

WHEN RELEASING THE COUNTRY'S DOMESTIC BORROWING PROGRAM TO COVER THE REMAINDER OF 1990/91 AT A PRESS CONFERENCE HERE THIS AFTERNOON, SHE SAID THAT THE 2.556 BILLION N.Z. DOLLARS SURPLUS IS INSUFFICIENT TO COVER ALL MATURING DOMESTIC AND OFFSHORE DEBTS AND A BORROWING PROGRAM IS NECESSARY.

"THE NECESSITY FOR A BORROWING PROGRAM IS THE RESULT OF THE PROJECTED GOVERNMENT SURPLUS (GOVERNMENT CASH POSITION) FOR THE YEAR BEING REDUCED FROM 4.989 BILLION N.Z. DOLLARS (2.993 BILLION U.S. DOLLARS) IN PREVIOUS BUDGET TO 2.556 BILLION (1.534 BILLION U.S. DOLLARS) UNDER THE REVISED FISCAL OUTLOOK FOR 1990/91.

THE REVISED FISCAL OUTLOOK FOR 1990/91 FINANCIAL YEAR, ALSO RELEASED TODAY, FORECASTS AN INCOME OF 4,555 MILLION N.Z. DOLLARS (2,733 MILLION U.S. DOLLARS) FROM EQUITY SALES BY THE GOVERNMENT, WHICH IS 1,145 MILLION N.Z. DOLLARS (687 MILLION U.S. DOLLARS) LESS COMPARED WITH THE BUDGET PROJECTED BY THE LABOR GOVERNMENT IN JULY.

APPROXIMATELY 1.2 BILLION N.Z. DOLLARS (0.72 BILLION U.S. DOLLARS) HAVE NOW BEEN AVAILABLE TO REPAY HALF OF THE MATURING DOMESTIC DEBT OF 2.4 BILLION (1.44 BILLION U.S. DOLLARS). THE REMAINING WOULD NEED TO BE REFINANCED THROUGH DOMESTIC BORROWING, THE MINISTER SAID.

SHE ADDED THAT THE BORROWING WOULD CONSIST OF A BOND TENDER PROGRAM OF UP TO 900 MILLION (540 MILLION U.S. DOLLARS) WITH THE REMAINDER RAISED THROUGH REGULAR TREASURY BILL SALES.

ABOUT 1.3 BILLION (0.78 BILLION U.S. DOLLARS) WOULD BE USED FOR REPAYING OVERSEAS DEBT, SHE NOTED. NEW ZEALAND NOW HAS A TOTAL FOREIGN DEBT OF ABOUT 50 BILLION N.Z. DOLLARS (30 BILLION U.S. DOLLARS).

GLASGOW, SCOTLAND (NOV. 5) XINHUA - BRITISH BUSINESS LEADERS TODAY CALLED FOR INCREASED TRADE AND ECONOMIC LINKS BETWEEN BRITAIN AND EASTERN EUROPE.

A RESOLUTION PASSED WITH A LARGE MAJORITY ON THE FIRST DAY OF THE TWO-DAY ANNUAL CONFERENCE OF THE CONFEDERATION OF BRITISH INDUSTRY (CBI) WARNED THAT "BRITISH BUSINESS IS MISSING OUT ON IMPORTANT OPPORTUNITIES IN CENTRAL AND

EASTERN EUROPE." IT URGED CBI MEMBERS TO "LOSE NO TIME IN DEVELOPING STRATEGIES FOR INVESTING IN THE NEW EUROPE."

MOVING THE MOTION IN A DEBATE ON THE CHALLENGE OF THE NEW EUROPE, LORD JELLICOE, PRESIDENT OF CBI'S EAST EUROPEAN TRADE COUNCIL, WARNED THAT BRITAIN HAS LAGGED BEHIND THE OTHER MAJOR WEST EUROPEAN COUNTRIES IN BUSINESS WITH EASTERN EUROPE.

HE SAID BRITAIN WAS IN EIGHTH PLACE LAST YEAR, BEHIND AUSTRIA. BRITISH EXPORTS TO EASTERN EUROPE AS A WHOLE WERE ONE NINTH OF GERMANY'S AND TWO FIFTHS OF ITALY'S, HE ADDED.

BRITAIN WAS AGAIN EIGHTH IN TRADE WITH THE SOVIET UNION WITH ITALY AND FRANCE BOTH EXPORTING TWICE AS MUCH TO MOSCOW, HE ADDED.

BRITISH BUSINESS LEADERS BELIEVE THAT RECENT DEVELOPMENTS IN EASTERN EUROPE OFFER "UNPRECEDENTED" BUSINESS OPPORTUNITIES IN ONE OF THE WORLD'S LAST UNDERDEVELOPED MARKETS - A MAKRET OF 400 MILLION PEOPLE.

IN HIS SPEECH, ALAN LEWIS, CHAIRMAN OF THE CBI INITIATIVE EASTERN EUROPE, SAID THE CBI HAS DECIDED TO LAUNCH THE INITIATIVE IN JANUARY NEXT YEAR.

"THIS IS AN INITIATIVE CHARGED WITH THE TASK OF ACTING AS AN INVESTMENT BRIDGE AND BUSINESS CATALYST BETWEEN BRITAIN AND THE COUNTRIES OF EASTERN EUROPE," HE SAID.

"WE WILL EXPLORE, STUDY AND ASSESS THE WEALTH OF OPPORTUNITIES AVAILABLE TO BRITISH INDUSTRY."

HE ADDED THAT THE INITIATIVE WILL "ASSIST BRITISH BUSINESS AND INDUSTRY TO PREPARE THEIR ORGANIZATIONS FOR ENTERING INTO TRADE WITH THE EASTERN BLOC COUNTRIES."

STEPHEN HAYKLAN, CHAIRMAN OF THE CBI LONDON REGION, ANNOUNCED AT THE CONFERENCE THE CREATION OF A EURO TRADE CENTER IN THE BRITISH CAPITAL, WHICH IS TO BE A MAJOR FACILITY AVAILABLE TO MORE THAN 30,000 ENTERPRISES FROM EASTERN EUROPE.

#90309h0136 11/05/1990 ~Chinese News Agency

NICOSIA (NOV. 5) XINHUA - CYPRUS EXPORTS INCREASED BY 17.6 PERCENT TO 231.5 MILLION CYPRUS POUNDS (ONE POUND EQUALS TO TWO U.S. DOLLARS) DURING THE FIRST HALF OF 1990 AS AGAINST 196.9 MILLION POUNDS IN THE SAME PERIOD OF 1989, THE FINANCE MINISTRY'S DEPARTMENT OF STATISTICS REPORTED TODAY.

NEARLY 70 MILLION POUNDS OF THE TOTAL WAS IN THE FORM OF RE-EXPORTS, THE REPORT SAID.

EUROPEAN COMMUNITY COUNTRIES ABSORBED 61 PERCENT OR 92.3 MILLION POUNDS OF CYPRUS EXPORTS, FOLLOWED BY THE ARAB COUNTRIES WITH A SHARE OF 18.8 PERCENT.

MEANWHILE, TOTAL IMPORTS FELL BY 0.9 PERCENT TO 598.4 MILLION POUNDS IN THE SAME PERIOD.

EC COUNTRIES SUPPLIED CYPRUS WITH GOODS VALUED AT 330 MILLION POUNDS OR 55.1 PERCENT OF ITS TOTAL IMPORTS COMPARED WITH 59.2 PERCENT IN THE SAME PERIOD OF 1989.

#90309h0196 11/05/1990 ~Chinese News Agency

LOME (NOV. 6) XINHUA - SOME 120 MILLION PEOPLE IN SUB SAHARAN AFRICAN COUNTRIES HAVE BEEN EXPOSED TO AN IMMOBILIZING PARASITIC DISEASE WHICH IS SPREAD THROUGH LARVA-CONTAMINATED WATER, THE LOCAL NEWSPAPER "LA NOUVELLE MARCHE" REPORTED TODAY.

THE DISEASE, CALLED "VER DU GUINEE," INFECTS ANYONE WHO DRINKS WATER CONTAMINATED BY THE LARVA OF THE "DRACUNCULUS MEDINENSIS" PARASITE, MAKING THE VICTIM EXTREMELY TIRED AND DEPRESSED FOR WEEKS OR EVEN MONTHS.

TO DATE NO VACCINE HAS PROVED EFFECTIVE IN COMBATING THE DISEASE, AND THE ONLY WAY TO AVOID THE PROBLEM IS TO CLEAN UP THE WATER SUPPLY, THE REPORT SAID, ADDING THAT THE U.S. CHEMICAL COMPANY CYANAMID IS INTRODUCING A CHEMICAL SUBSTANCE CALLED "TEMEPHOS" WHICH HAS PROVED SUCCESSFUL IN KILLING THE LARVA.

#90309h0202 11/05/1990 ~Chinese News Agency

BUENOS AIRES (NOV. 6) XINHUA - MAN WILL REACH MARS BY THE 2015, SAID COSTA RICAN ASTRONAUT FRANKLIN CHANG DIAZ, A NATURALIZED U.S. CITIZEN AND AN ACTIVE PARTICIPANT IN THE U.S. SPACE SHUTTLE FLIGHTS.

CHANG DIAZ SAID SUNDAY THAT 25 YEARS FROM TODAY MAN WILL LAND ON MARS AND THEN RETURN TO THE MOON IN ORDER TO ESTABLISH A PERMANENT BASE THERE.

CHANG DIAZ, WHO IS CURRENTLY VISITING PLATA CITY, THE CAPITAL OF BUENOS AIRES PROVINCE, IS THE ONLY ASTRONAUT OF LATIN AMERICAN ORIGIN TO BE TAKING PART IN NASA PROJECTS. IN 1986 HE JOINED MISSION COLUMBIA, WHICH PLACED THE SAT-COM KU SATELLITE IN ORBIT. IN 1989 HE WAS A CREW MEMBER ABOARD THE MISSION ATLANTIS, WHICH LAUNCHED THE GALILEO SPACESHIP PROGRAMMED TO EXPLORE JUPITER.

ACCORDING TO ARGENTINA'S OFFICIAL NEWS AGENCY, TELAM, THE 40-YEAR-OLD CHANG DIAZ TOLD REPORTERS AT A PRESS CONFERENCE, "ALL OF THE SPACE EXPLORATION PROJECTS MAKE SENSE BECAUSE OF THE NEED TO ASSURE OURSELVES OF OUR OWN SURVIVAL," CHANG DIAZ SAID. "THE WORLD, AFTERALL, IS A FINITE ENTITY THAT HAS

LIMITED RESOURCES, EVEN IF THEY ARE CARED FOR AND PROTECTED."

SAYING THAT A MARS LANDING WOULD FIRST BE ATTEMPTED WITH ROBOTS, CHANG DIAZ SAID THAT THE TRIP, CALCULATED TO LAST ABOUT 10 MONTHS, IS "PSYCHOLOGICALLY SOMEWHAT DIFFICULT FOR THE CREW."

(NOV. 5) JOURNAL GRAPHCS - Summarizing the previous day's television programs transcribed by Journal Graphics, Inc.

Full transcripts available by fax or mail.

For more information, or to order transcripts, call (800) TALK- SHO. In New York City call: (212) 732-8552.

America's Black Forum November 3, 1990 (Transcript #5)

A look at the causes of the increased incidence of AIDS in the black community and its staggering social and economic effects on black families and its littlest victims, black children.

Adam Smith's Money World November 2, 1990 (Transcript #705)

Free Lunch Politics -- Will Voters Keep Eating It Up?: A look at campaigning and speaking up on important issues -- budget, banking and taxation.

Crossfire (CNN) November 2, 1990 (Transcript #175)

Bush's Muddled Message: Political analyst William Schneider and former National Security Adviser Richard Allen discuss President Bush's apparently confusing statements about whether or not the U.S. should be preparing for war in the Persian Gulf.

Donahue November 2, 1990 (Transcript #3069)

Did Her Breasts Get in the Way of Her Career?: Three women tell how their unusually large breasts have made life difficult for them, causing them to be harassed and trivialized by both men and women, and ultimately losing them their jobs.

Geraldo November 2, 1990 (Transcript #817)

Test Tube Babies: Couples and doctors discuss the pros and cons of artificial insemination, including sperm bank mix-ups and children who may never know

their biological fathers.

Health Week (CNN) November 3, 1990 (Transcript #39)

Federal studies tracking treatment of heart disease; lower back pain; cataracts and prostate problems; cancer insurance for breast cancer treatment; gallstone treatments.

Inside Albany November 4, 1990 (Transcript #209) ''Cuomo vs. Rinfret''; ''Regan vs. Bellamy''; ''Abrans vs. Smith'' (last look at major parties' statewide candidates); ''Environmental Bond Act'' (major issue to be decided in November 6 election).

Larry King Live (CNN) November 2, 1990 (Transcript #163)

Adultery in America: Cheaters, their spouses, a therapist and two private investigators discuss how adultery affects marriages and how one can tell if one's spouse is having an affair.

Nightline (ABC) November 2, 1990 (Transcript #2465)

''New Iraqi Hostage Footage'' (the living conditions of Western hostages); ''Two Mid-Term Election Races'' (the Senate race of Jesse Helms and Harvey Gantt in North Carolina and the Congressional race of James Inhofe and Bert Glassco in Oklahoma).

Oprah Winfrey Show November 2, 1990 (Transcript #1080)

The Computer Dating Game: Single men and women are matched for compatibility by computer at Dave Gorman's ''Calculated Couples''.

Sally Jessy Raphael November 2, 1990 (Transcript #565)

Should You Dump Him?: Three couples who can't decide whether to stay together or break up tell their stories. Audience members give the couples their advice as do Sue and Steve Simring, authors of The Compatability Quotient.

Science & Technology Week (CNN) November 3, 1990 (Transcript #39)

A new way to monitor blood oxygen levels; the Chunnel project; NASA shuttles; computerized voting machines; excavation of dinosaur bones; new heat sensors; robotics in the workplace.

60 Minutes (CBS) November 4, 1990 (Transcript #2308)

''The Secret of the Gara Mountains'' (Saddam Hussein is mining uranium in the remote hills of northern Iraq for his atom bomb project); ''Bad Cops'' (Oakland Housing Authority police terrorize citizens to meet arrest quotas);

''Beyond Malpractice'' (how did a former Nazi and mental patient get a license to practice in Hawaii?); ''A Few Minutes With Andy Rooney'' (searching in vain for a barrel of oil).

20/20 (ABC) November 2, 1990 (Transcript #1044)

''Personal and Private'' (two-part interview with former President Ronald Reagan about his perspective on his two terms in office, his childhood and acting career, his marriages and children, the Iran-Contra affair and his views on the U.S. economy and history); ''Those Who Serve'' (a report on members of the Tennessee National Guard who have been called up for active duty in Saudi Arabia. Tom Jarriel talks to three Guard members and their families about their feelings just before departure).

This Week with David Brinkley (ABC) November 4, 1990 (Transcript #471)

The Messy Mid-Term Election Campaign: What may be one of the messiest elections ever, with voters angry over the deficit and taxes, the S&L scandal, broken promises of ''no new taxes,'' and dirty political campaigns. Now there are movements to limit politicians' terms in office.

Wall Street Journal Report November 4, 1990 (Transcript #423)

''Death of a Salesman'' (the coming white collar layoffs and what workers can do); ''Timely Exit'' (legislation to limit political terms in office); ''Di-Vine Savior'' (biotech help for U.S. wine industry).

Washington Week in Review (WETA) November 2, 1990 (Transcript #136)

Why is President Bush escalating rhetoric on Hussein?; prediction and discussion of upcoming elections; little noticed accomplishments of this year's Congress.

The West November 3, 1990 (Transcript #197)

''The Politics of Polygamy'' (polygamists are enlisting the aid of civil libertarians to press their case in the courts); ''Beverly Hills'' (perfuming your garbage and not being able to use power tools -- life amongst the stars); ''Environmental Indiana Jones'' (Hollywood filmmakers are bidding for the rights to an environmentalist's story).

Monday's Line-Up: (To be summarized in tomorrow's Daily Report) Donahue: Angela Lansbury Sally Jessy Raphael: Con Artists Geraldo: What Black Men Really Want From Black Women Oprah Winfrey: Regaining Weight The American Experience: The Satellite Sky

Fax Volume Discount Available Individual transcripts cost $15-20 by fax, but if you open a fax account for $100 or more, you pay only $10 per faxed transcript up to one hour in length. You also get unlimited free research queries on our toll-free telephone number.

OSAKA (NOV. 5) KYODO - KANSAI INTERNATIONAL AIRPORT CO. ON THURSDAY WILL INAUGURATE A NEW FIRM TO PROVIDE COMPREHENSIVE COMMUNICATION SERVICES FOR THE NEW AIRPORT, CURRENTLY UNDER CONSTRUCTION ON A MAN-MADE ISLAND IN OSAKA BAY, COMPANY OFFICIALS SAID MONDAY.

THE NEW FIRM, NAMED KIA INFORMATION AND TELECOMMUNICATIONS NETWORK CO., WILL OFFICIALLY START OPERATIONS ON THURSDAY AFTER REGISTRATION PROCEDURES ARE COMPLETED, OFFICIALS OF KANSAI INTERNATIONAL AIRPORT CO. SAID.

THE NEW FIRM WILL BE CAPITALIZED AT 1 BILLION YEN. KANSAI INTERNATIONAL AIRPORT WILL INVEST 51 PERCENT OF THE CAPITAL AND A GROUP OF 22 COMPANIES THE REMAINDER. AMONG THE COMPANIES ARE NIPPON TELEGRAPH AND TELEPHONE CORP. (NTT) JAPAN AIRLINES CO., KANSAI ELECTRIC POWER CO., AND SANWA BANK LTD.

HIROSHI YAMADA, A MANAGING DIRECTOR OF THE PARENT COMPANY, WAS NAMED AS THE NEW FIRM'S PRESIDENT ON MONDAY.

THE COMPANY WAS SET UP TO PROVIDE COMPREHENSIVE TELECOMMUNICATION SERVICES FOR THE AIRPORT, SCHEDULED TO OPEN IN 1993 AS THE NATION'S FIRST 24-HOUR AIRPORT.

ACCORDING TO THE OFFICIALS, THE COMMUNICATION FIRM WILL ALSO RECEIVE INFORMATION MANAGEMENT WORK FROM THE AIRPORT AND CONSTRUCT A HIGHLY DEVELOPED INFORMATION NETWORK WITHIN THE AIRPORT.

SUCH WORK WILL INCLUDE INSTALLATION AND CONTROL OF NTT'S PUBLIC PHONE NETWORK AND MANAGEMENT OF COMMUNICATION LINES BETWEEN AIRLINE COMPANIES AND THE AIRPORT MANAGEMENT.

IT WILL ALSO BE RESPONSIBLE FOR VARIOUS MODES OF COMMUNICATION IN THE AIRPORT, SUCH AS RADIO, VISUAL AUDIO EQUIPMENT, AND COMPUTER TERMINALS.

THE OFFICIALS SAID CONSTRUCTION OF THE COMMUNICATION NETWORK, ESTIMATED TO COST 6 BILLION YEN, IS NOW BEING CONSIDERED BASED ON A PLAN SUBMITTED BY AMERICAN TELEPHONE AND TELEGRAPH CO. AND NTT, AND IS EXPECTED TO BEGIN IN THE NEAR FUTURE.

COMPLETION OF THE INTERNATIONAL AIRPORT WAS ORIGINALLY SCHEDULED FOR MARCH 1993, BUT THE AIRPORT COMPANY RECENTLY SAID IT IS LIKELY TO BE DELAYED BY SIX MONTHS TO A YEAR.

TOKYO (NOV. 5) KYODO - TOSHIBA CORP. SAID MONDAY IT WILL MARKET AN 8-MILLIMETER CAMCORDER, OR COMBINATION VIDEO CAMERA AND RECORDER, FOR PROFESSIONAL USE FROM JANUARY 18, 1991.

THE ANNOUNCEMENT IS A MAJOR POLICY CHANGE FOR TOSHIBA IN THE FAST GROWING CAMCORDER MARKET WHERE TWO GROUPS LED BY SONY CORP. AND MATSUSHITA ELECTRIC INDUSTRIAL CO. ARE COMPETING WITH EACH OTHER FOR MARKET SHARE.

TOSHIBA HAD PREVIOUSLY NOT SUPPLIED 8-MILLIMETER FORMAT CAMCORDERS, WHICH ARE MADE BY THE SONY-LED GROUP, BUT SALES GROWTH FOR ITS VHS FORMAT CAMCORDERS REPORTEDLY HAS BEEN SLUGGISH.

THE NEW PRODUCT, WHICH WEIGHS 5.7 KILOGRAMS, CAN RECORD UP TO 2 HOURS WITHOUT INTERRUPTION. IT WILL RETAIL FOR 1.2 MILLION YEN A UNIT.

TOSHIBA SAID THE NEW PRODUCT IS INTENDED LARGELY FOR EDUCATIONAL USE AT SCHOOLS AND PRODUCTION OF CORPORATE VIDEOS.

ANALYSTS SAID TOSHIBA MAY INTRODUCE AN 8-MILLIMETER CAMCORDER FOR CONSUMER USE IN THE FUTURE FOLLOWING THE PROFESSIONAL-USE MODEL.

HITACHI LTD., ANOTHER COMPANY MAKING VHS FORMAT CAMCORDERS, HAS ALREADY ANNOUNCED IT WILL STEP INTO THE 8-MILLIMETER CAMCORDER MARKET.

TOKYO (NOV. 5) KYODO - CBS SONY GROUP PLANS TO DEVELOP SOFTWARE WITH SONY CORP. FOR THE NEW ADVANCED MEDIA OF THE FUTURE, SUCH AS BROADCASTING SATELLITES AND COMPUTERS CONNECTED TO AUDIO-VISUAL EQUIPMENT, AN INDUSTRY SOURCE SAID MONDAY.

THESE SO-CALLED ''NEXT GENERATION MEDIA'' ARE IN THE PROCESS OF RAPID DEVELOPMENT, WITH HIGH-DEFINITION TELEVISION SYSTEMS, FOR INSTANCE, EXPECTED TO BECOME POPULAR IN FIVE TO 10 YEARS' TIME.

ACCORDING TO THE SOURCE, CBS SONY'S MAIN PROJECT AT THIS POINT IS TO DEVELOP SOFTWARE FOR ADVANCED DIGITAL RECORDING EQUIPMENT FOR COMPACT DISKS (CDS). SONY IS EXPECTED TO BE THE FIRST COMPANY TO MARKET THE EQUIPMENT IN JAPAN NEXT YEAR.

THE SOURCE ADDED THE PROJECT ALSO MEANS CBS SONY CAN BOOST AND DIVERSIFY ITS OPERATIONS AFTER APRIL NEXT YEAR WHEN IT CHANGES ITS NAME TO SONY MUSIC ENTERTAINMENT INC.

SONY ANNOUNCED LAST MONTH THAT IT HAD AGREED WITH U.S. BROADCASTING NETWORK CBS INC. TO CHANGE ITS NAME WHEN IT ACQUIRED CBS RECORDS INC. IN AMERICA IN 1988 FROM ITS PARENT BROADCASTING COMPANY.

CBS SONY'S ANNUAL SALES IN FISCAL 1989 TOTALED 78.9 BILLION YEN, OF WHICH 70 PERCENT WAS FROM SOFTWARE SALES OF CDS AND CASSETTE RECORDERS.

TOKYO (NOV. 5) KYODO - AN INTERNATIONAL AGREEMENT COVERING THE TECHNOLOGICAL FRAMEWORK FOR THE NEXT-GENERATION DIGITAL TELECOMMUNICATIONS SYSTEM IS EXPECTED TO BE REACHED AT A CONFERENCE SET FOR JAPAN LATER THIS MONTH, OFFICIALS OF THE POSTS AND TELECOMMUNICATIONS MINISTRY SAID MONDAY.

THE PARIS-BASED COMITE CONSULTATIF INTERNATIONAL TELEGRAPHIQUE ET TELEPHONIQUE (CCITT) WILL LIKELY PROPOSE TECHNOLOGICAL STANDARDS PERTAINING TO BROAD-BAND INTEGRATED SERVICES DIGITAL NETWORKS (ISDN) WHEN IT CONVENES NOVEMBER 26 THROUGH DECEMBER 7 IN MATSUYAMA CITY, THE OFFICIALS SAID.

ISDN CAN MOVE 100 MILLION OR MORE BITS OF DATA PER SECOND, 70 TIMES FASTER THAN CURRENT ISDN CIRCUITS.

THE NETWORK CAN TRANSMIT DIGITIZED VOICE, DATA, AND VIDEO TRAFFIC THROUGH A SINGLE OPTICAL FIBER LINE. THE LESSER 64-KILOBIT ISDN CAN SEND 4,000 KANJI PER SECOND, 30 TIMES FASTER THAN CURRENT ANALOGUE SYSTEM.

HIGHER-CAPACITY ISDN NETWORKS CAN TRANSMIT MOVING IMAGES FOR FULL-MOTION VIDEO

CONFERENCING AND HIGH-DEFINITION TELEVISION. NIPPON TELEGRAPH AND TELEPHONE CORP. PLANS TO LAUNCH SUCH NETWORKS BY 1995.

CCITT, WHICH IS EXPECTED TO COME UP WITH THE DETAILED INTERNATIONAL TECHNOLOGICAL STANDARDS FOR BROAD-BAND ISDN BY 1992, WILL MAKE ITS RECOMMENDATIONS REGARDING THE METHOD FOR CHANGING THE MODE AND THE SPEED OF TRANSMISSION.

IT WILL ALSO MAKE SIMILAR PROPOSALS FOR THE INTERFACE BETWEEN USER TERMINALS THAT REGULATE THE SPEED AND ELECTRIC FEATURES OF DIGITAL SIGNALS AND THE NETWORK LINES, THE OFFICIALS SAID.

#90309k0060 11/05/1990 ~Japanese News Agency

OSAKA (NOV. 5) KYODO - MATSUSHITA ELECTRIC INDUSTRIAL CO. SAID MONDAY IT WILL OPEN AN EXHIBITION OF IMPORTED SEMICONDUCTORS ON THURSDAY AND FRIDAY JOINTLY WITH AFFILIATED COMPANIES.

IT IS THE SECOND EXHIBITION FOLLOWING ONE LAST YEAR AND IS AIMED AT SATISFYING THE U.S. REQUEST FOR MORE JAPANESE PURCHASES OF FOREIGN-MADE SEMICONDUCTORS, MATSUSHITA OFFICIALS SAID.

AS MANY AS 100 FOREIGN COMPANIES, INCLUDING INTEL CORP. AND MOTOROLA INC., WILL PARTICIPATE IN THE EXHIBITON, WITH OVER 1,000 BUYERS AND ENGINEERS EXPECTED FROM THE MATSUSHITA GROUP.

AT THE TWO-DAY EXHIBITION, MATSUSHITA WILL HOLD A SEMINAR TO EXPLAIN THE TECHNICAL APPLICATIONS OF THE SEMICONDUCTORS IN ITS PRODUCTS, WHILE THE FOREIGN COMPANIES WILL EXPLAIN THE USES OF THEIR PRODUCTS.

IN OCTOBER, MATSUSHITA ELECTRIC SENT A SEMICONDUCTOR BUYING MISSION TO THE U.S. FOR NEGOTIATIONS THAT GENERATED A POTENTIAL 12 BILLION YEN IN BUSINESS.

THE MATSUSHITA GROUP BOUGHT 27.4 BILLION YEN IN FOREIGN SEMICONDUCTORS IN FISCAL 1989, ALMOST 13 PERCENT OF ITS PURCHASES. IT PLANS TO ENLARGE ITS PURCHASES TO 38.0 BILLION YEN IN THE CURRENT FISCAL YEAR ENDING MARCH 31, 1991.

#90309k0061 11/05/1990 ~Japanese News Agency

TOKYO (NOV. 5) KYODO - THE EMPLOYMENT RATE FOR FEMALE UNIVERSITY GRADUATES EQUALED THAT FOR MEN THIS YEAR FOR THE FIRST TIME, WITH BOTH GROUPS REGISTERING 81 PERCENT, THE EDUCATION MINISTRY SAID MONDAY.

THE MINISTRY SAID A RECORD 88,879 FEMALE STUDENTS, UP 9,900 FROM 1989, TOOK UP JOBS AFTER GRADUATION FROM UNIVERSITIES IN JAPAN THIS PAST SPRING. THE FIGURE FOR MEN WAS 235,285, UP 14,300.

IT SAID UNIVERSITY GRADUATES HIT A RECORD 400,103, UP 23,000 FROM 1989, OF WHOM WOMEN NUMBERED 109,750, UP 9,100.

THE EMPLOYMENT RATE FOR WOMEN GRADUATES JUMPED 2.5 PERCENT TO EQUAL THAT OF MALE GRADUATES AT 81 PERCENT FOR THE FIRST TIME IN HISTORY, FOUR YEARS AFTER THE MALE-FEMALE EQUAL EMPLOYMENT OPPORTUNITY LAW WAS ENFORCED, A MINISTRY SURVEY FOUND.

BUT THERE IS STILL A GAP IN PAY. ACCORDING TO A 1989 CROSS-INDUSTRY SURVEY, THE LATEST DATA AVAILABLE, NEW FEMALE UNIVERSITY GRADUATES RECEIVED AN AVERAGE STARTING SALARY OF 155,600 YEN A MONTH, COMPARED TO 160,900 YEN FOR NEW MALE GRADUATES, A LABOR MINISTRY OFFICIAL IN CHARGE OF STATISTICS SAID.

THE OFFICIAL SAID THERE IS NO ENFORCING POWER AT PRESENT TO REQUIRE FIRMS TO PROVIDE EQUAL PAY FOR BOTH SEXES, ALTHOUGH LOCAL LABOR OFFICES ARE RECOMMENDING EQUAL PAYMENT.

THE MINISTRY SAID THE LARGEST GROUP OF WOMEN GRADUATES, 44.2 PERCENT, WENT INTO SERVICE INDUSTRIES, FOLLOWED BY 19.1 PERCENT IN MANUFACTURING INDUSTRIES AND 12.6 PERCENT IN DISTRIBUTION, RETAIL FIRMS, AND RESTAURANTS.

OF MEN, 31.2 PERCENT WENT INTO MANUFACTURING INDUSTRIES AND 19.4 PERCENT TO SERVICE INDUSTRIES, WHILE 15 PERCENT JOINED FIRMS IN THE THIRD CATEGORY ABOVE.

MINISTRY SOURCES SAID THE RISE IN WOMEN'S EMPLOYMENT HAS BEEN BACKED BY THEIR WILLINGNESS TO WORK, AND THE NEED FOR FEMALE WORKERS UNDER THE CURRENT ECONOMIC EXPANSION.

IN MONDAY'S SURVEY, IF JUNIOR COLLEGES ARE INCLUDED, MORE WOMEN THAN MEN NOW GO ON FOR HIGHER EDUCATION, AND THIS IS REFLECTED IN THE EMPLOYMENT PICTURE.

INCLUDING GRADUATES OF JUNIOR COLLEGES, ATTENDED MOSTLY BY WOMEN, USUALLY FOR TWO YEARS, 259,000 WOMEN WENT TO WORK AFTER GRADUATION THIS YEAR, COMPARED WITH 246,000 MEN. IN THIS CATEGORY, WOMEN OVERTOOK MEN LAST YEAR, THE MINISTRY SAID.

ABOUT 88 PERCENT OF THE 193,382 FEMALE JUNIOR COLLEGE GRADUATES WERE EMPLOYED THIS SPRING, ALSO A RECORD, IT SAID.

MASTER'S COURSE GRADUATES THIS YEAR TOTALED 25,804, WHILE 5,812 PEOPLE FINISHED DOCTORAL COURSES, THE MINISTRY SAID.

#90309k0070 11/05/1990 ~Japanese News Agency

TOKYO (NOV. 5) KYODO - MORE THAN 20 PERCENT OF THE 114 SECURITIES FIRMS BELONGING TO THE TOKYO STOCK EXCHANGE (TSE) POSTED PRETAX LOSSES FOR THE FIRST

HALF OF FISCAL 1990, WHICH ENDED SEPTEMBER 30, REFLECTING A SERIES OF PLUNGES ON THE MARKET, TSE OFFICIALS SAID MONDAY.

AMONG THE 27 COMPANIES IN THE RED WERE YAMATANE SECURITIES CO. DAI-ICHI SECURITIES CO., AND 12 OTHER MEDIUM-SCALE JAPANESE BROKERAGE HOUSES, AS WELL AS 13 OF THE 22 FOREIGN SECURITIES FIRMS WHICH HAVE TSE MEMBERSHIP.

THE COMBINED PRETAX PROFITS OF THE 114 BROKERAGE FIRMS DROPPED 65.5 PERCENT, COMPARED WITH THE SAME SIX MONTHS A YEAR EARLIER.

THEIR STOCK-BROKERAGING COMMISSIONS, A MAJOR SOURCE OF PROFITS, FELL 22 PERCENT FROM THE YEAR-EARLIER PERIOD.

ANOTHER MAJOR FACTOR WAS COMBINED LOSSES TOTALING 96.1 BILLION YEN IN STOCK AND BOND TRADING FOR THEIR OWN ACCOUNTS, THE OFFICIALS SAID.

JAPAN'S BIG FOUR SECURITIES FIRMS, WHILE STILL IN THE BLACK, EARLIER REPORTED A PLUNGE IN THEIR EARNINGS IN THE APRIL-SEPTEMBER PERIOD, HIT HARD BY HIGHER INTEREST RATES AND CONTINUED SLUGGISHNESS IN STOCK TRANSACTIONS.

DURING THE LATEST REPORTING PERIOD, NOMURA SECURITIES CO., DAIWA SECURITIES CO., NIKKO SECURITIES CO., AND YAMAICHI SECURITIES CO. REPORTED DECLINES OF BETWEEN 55.1 PERCENT AND 74.2 PERCENT IN THEIR PRETAX PROFITS COMPARED WITH THE SIX-MONTH PERIOD THE PREVIOUS YEAR.

-30- 1562

#90309k0073 11/05/1990 ~Japanese News Agency

TOKYO (NOV. 5) KYODO - THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY (MITI) IS PLANNING TO ELIMINATE MERCURY, AN ENVIRONMENTAL HAZARD, FROM DRY CELL BATTERIES, A MITI SOURCE SAID MONDAY.

THE MINISTRY IS AIMING TO ABOLISH THE USE OF MERCURY IN MANGANESE BATTERIES SOMETIME IN FISCAL 1991, BEGINNING APRIL 1, 1991, AND IN ALKALINE BATTERIES SOON AFTER FISCAL 1992, HE SAID.

SOME 2.1 BILLION BATTERIES OF 4 BILLION ONES, BEING PRODUCED ANNUALLY IN JAPAN ARE DESTINED FOR THE HOME MARKET. ABOUT 72 PERCENT OF THE DOMESTIC SHIPMENTS ARE OF THE MANGANESE VARIETY, WHILE ALKALINE BATTERIES MAKE UP 16 PERCENT.

UNDER GUIDELINES TO BE COMPILED BY A MITI ADVISORY PANEL LATER THIS MONTH, JAPANESE MANUFACTURERS WILL BE FORBIDDEN IN FISCAL 1991 TO USE MERCURY IN MANGANESE DRY CELL BATTERIES. THE MERCURY CONTENT OF MANGANESE DRY CELL BATTERIES IS CURRENTLY 0.002 PERCENT.

MANUFACTURERS WILL BE FORCED TO REDUCE THE AMOUNT OF MERCURY IN THEIR ALKALINE DRY CELL BATTERIES TO 0.025 PERCENT IN FISCAL 1991 FROM THE CURRENT 0.1 PERCENT.

THE NEW GUIDELINES WILL BE STRICTER THAN THOSE OF THE EUROPEAN COMMUNITY (EC), CURRENTLY THE WORLD'S MOST STRINGENT. THE MERCURY CONTENT OF BATTERIES PRODUCED IN THE EC IS NOT ALLOWED TO SURPASS 0.1 PERCENT, AND THIS WILL BE LOWERED TO 0.025 PERCENT IN 1992.

MERCURY IS USED TO PREVENT CORROSION. DOMESTIC AND OVERSEAS MANUFACTURERS HAVE BEEN WORKING TO DEVELOP ANTICORROSIVE ALTERNATIVES.

THE MOVE BY MITI WAS PROMPTED BY THE LAUNCH LAST YEAR BY A FEW FIRMS OF PRODUCTION OF DRY CELL BATTERIES THAT DO NOT CONTAIN MERCURY.

-30- 1760

#90309k0074 11/05/1990 ~Japanese News Agency

TOKYO (NOV. 5) KYODO - WORLD CRUDE OIL DEMAND IN THE OCTOBER-DECEMBER QUARTER WILL AMOUNT TO 54.1 MILLION BARRELS A DAY (B/D), SLIGHTLY DOWN FROM 54.4 MILLION B/D IN THE FOURTH QUARTER OF 1989, THE INTERNATIONAL ENERGY AGENCY (IEA) PREDICTED IN A REPORT RELEASED IN TOKYO ON MONDAY.

THIRD QUARTER DEMAND WAS 53.1 MILLION B/D, UP FROM 51.2 MILLION B/D IN THE SAME PERIOD LAST YEAR, IEA SAID.

THE FOURTH QUARTER YEAR-ON-YEAR SLOWDOWN IN CRUDE OIL CONSUMPTION IS ''A RESULT OF LOWER ECONOMIC GROWTH AND HIGHER OIL PRICES,'' SAID THE 21-NATION ENERGY MONITORING AGENCY.

FOR ALL OF 1990, THE AGENCY PREDICTS AN AVERAGE CONSUMPTION OF 53.1 MILLION B/D, UP FROM 52.3 MILLION B/D IN 1989.

OIL DEMAND WILL CONTINUE TO BE SOFT IN 1991, POSTING YEAR-ON-YEAR DECLINES IN THE FIRST THREE QUARTERS, IT SAID.

THE WORLD'S CRUDE OIL SUPPLY IN OCTOBER AMOUNTED TO 53.4 MILLION B/D, UP 600,000 MILLION B/D FROM SEPTEMBER.

THE INCREASE WAS DUE PRIMARILY TO PRODUCTION BOOSTS BY NON-OPEC COUNTRIES.

PRODUCTION IN THE NORTH SEA, FOR EXAMPLE, HIT 4 MILLION B/D FOR THE FIRST TIME SINCE APRIL 1988.

OCTOBER OIL PRODUCTION BY OPEC COUNTRIES TOTALED 22.6 MILLION B/D, WITH SAUDI ARABIA PUMPING OUT 7.6 MILLION B/D, ITS HIGHEST LEVEL IN EIGHT YEARS.

CRUDE OIL PRICES AT THE END OF OCTOBER WERE DOWN SHARPLY FROM A MONTH EARLIER.

THE PRICE OF BENCHMARK WEST TEXAS INTERMEDIATE AT THE END OF OCTOBER WAS 3.4 DOLLARS LOWER THAN THAT AT THE END OF SEPTEMBER, THE REPORT SAID.

HONG KONG (NOV. 5) KYODO - CHINA'S TRADE WITH THE SOVIET UNION AND EASTERN EUROPE MAY PLUNGE ONCE IT IS FORCED TO BEGIN SETTLING TRADE ACCOUNTS IN HARD CURRENCY NEXT YEAR RATHER THAN IN BARTER ARRANGEMENTS, A HONG KONG DAILY SAID MONDAY.

MOSCOW'S SHIFT TO HARD CURRENCY IN TRADE IS PART OF A SWEEPING ECONOMIC REFORM PLAN DESIGNED TO INTEGRATE THE SOVIET UNION WITH THE GLOBAL MARKET ECONOMY.

THE DAILY WEN WEI PO, QUOTING A REPORT FROM GUANGZHOU, SAID THE END OF BARTER TRADE IS LIKELY TO BRING ABOUT CLOSED FACTORIES AND HIGH UNEMPLOYMENT IN CHINA.

ACCORDING TO ONE ESTIMATE, 1,000 TO 2,000 CHINESE LIGHT MANUFACTURING FIRMS WITH SOME 200,000 WORKERS ARE NOW INVOLVED IN BARTER TRADE WITH THE SOVIETS AND EASTERN EUROPE.

CHINA'S TRADE WITH THE SOVIET UNION AND EAST EUROPE HIT A RECORD 7.4 BILLION U.S. DOLLARS LAST YEAR. THIS INCLUDED 3.6 BILLION DOLLARS IN TRADE WITH THE SOVIET UNION.

-30- 1085
#90309k0080 11/05/1990 ~Japanese News Agency
SINGAPORE (NOV. 5) KYODO - SINGAPORE, WHICH ESTABLISHED FORMAL DIPLOMATIC TIES WITH BEIJING IN OCTOBER, WANTS TO BOOST TRADE AND INVESTMENT WITH CHINA, BUT MANY LOCAL BUSINESS EXECUTIVES ARE HESITANT.

ASIDE FROM WORRIES ABOUT INFLATION, CORRUPTION, AND THE LACK OF FOREIGN EXCHANGE IN CHINA, MANY SINGAPORE BUSINESS PEOPLE HAVE YET TO REGAIN THE CONFIDENCE IN THE CHINESE GOVERNMENT THEY LOST WHEN TANKS ROLLED OVER PRO-DEMOCRACY DEMONSTRATORS IN TIANANMEN SQUARE IN JUNE LAST YEAR.

A 32-COMPANY MISSION TO CHINA RETURNED IN OCTOBER IN A MOOD OF "CAUTIOUS OPTIMISM," TRADE DEVELOPMENT BOARD CHAIRMAN ALAN YEO SAID.

THE 10-DAY MISSION TO SHANGHAI AND FUJIAN WAS THE BIGGEST THE BOARD HAD EVER ORGANIZED TO CHINA.

DETERMINED TO EXPLORE CHINA'S VAST MARKET, THE BOARD WILL SEND ANOTHER TRADE MISSION IN MARCH -- THIS TIME TO HAINAN PROVINCE.

THE OCTOBER MISSION RESULTED IN FIVE COMPANIES SIGNING LETTERS OF INTENT TO INVEST MORE THAN 90 MILLION SINGAPORE DOLLARS (53 MILLION U.S. DOLLARS) IN JOINT-VENTURE PROJECTS IN CHINA, THE BOARD SAID.

MEANWHILE, ANOTHER 12 COMPANIES ARE ENTERING SERIOUS NEGOTIATIONS TO TRADE COMMODITIES, MACHINERY, ELECTRONIC COMPONENTS, AND CONSUMER PRODUCTS WITH THEIR CHINESE COUNTERPARTS.

BUT THE MISSION WAS NOT PLEASED WITH EVERYTHING IT SAW. THE BOARD SAID IT FOUND THAT SHANGHAI'S ECONOMY, FOR EXAMPLE, "HAS YET TO REACH THE VIBRANCE IT DISPLAYED PRIOR TO JUNE LAST YEAR."

SINGAPORE WAS CHINA'S IMPORTANT TRADING PARTNER EVEN BEFORE THEY ESTABLISHED TIES OCTOBER 3, AND HAS BEEN SENDING ONE OR TWO MISSIONS THERE EVERY YEAR SINCE 1985.

THE BUSINESS TIMES RECENTLY QUOTED LI LANQING, VICE MINISTER OF CHINA'S MINISTRY OF FOREIGN ECONOMIC RELATIONS AND TRADE, AS SAYING THAT THE CHINESE ARE PREPARED TO SET UP A JOINT COMMITTEE WITH THE SINGAPORE GOVERNMENT TO PROMOTE TRADE AND INVESTMENT.

CHINA IS ALSO KEEN TO TEAM UP WITH SINGAPORE FOR THIRD COUNTRY INVESTMENTS, THE REPORT SAID.

IN A SIGN THAT THE IMPACT OF THE TIANANMEN INCIDENT MAY BE STARTING TO WEAR OFF, EIGHT OUT OF 10 MAJOR SINGAPORE COMPANIES RATED CHINA'S BUSINESS CLIMATE FOR THE NEXT TWO YEARS AS "MODERATE TO GOOD" IN AN AUGUST SURVEY BY THE TRADE DEVELOPMENT BOARD.

AND ONLY 40 PERCENT OF THE RESPONDENTS TOLD THE BOARD IN ANOTHER AUGUST SURVEY THAT THEY WOULD NOT MAKE NEW INVESTMENTS IN CHINA, COMPARED WITH 64 PERCENT LAST YEAR.

THE BOARD SINGLED OUT SHANGHAI'S PUDONG NEW AREA AS THE REGION WHICH APPEALED MOST TO DELEGATES ON THE OCTOBER MISSION.

BUT THEIR ENTHUSIASM WAS TEMPERED BY THE INABILITY OF CHINESE AUTHORITIES TO ANSWER THEIR QUESTIONS ON LAND LEASES, WAGES, RELOCATION OF CURRENT PUDONG RESIDENTS, AND RESTRICTIONS ON THE PERCENTAGE OF PRODUCTION THAT CAN BE SOLD IN CHINA.

THE DELEGATES ALSO COMPLAINED THAT THE REGULATIONS ON PUDONG PUBLISHED IN SEPTEMBER LACK SPECIFICS, THE BOARD SAID.

SINGAPORE IS CHINA'S SIXTH LARGEST TRADING PARTNER, WITH BILATERAL TRADE AMOUNTING TO 5.6 BILLION SINGAPORE DOLLARS (3.3 BILLION U.S. DOLLARS) LAST YEAR.

IT WAS THE FOURTH BIGGEST INVESTOR IN CHINA LAST YEAR, WITH A CONTRACTUAL VALUE OF 893 MILLION SINGAPORE DOLLARS, COMPRISED MOSTLY OF SMALL- AND MEDIUM-SIZED PROJECTS. BUT TAIWAN OVERTOOK SINGAPORE IN THE FIRST SIX MONTHS OF THIS YEAR FOR THE NO. 4 SPOT.

IT'S HARD TO SAY WHETHER THE BLOODY TIANANMEN CRACKDOWN OR THE AUSTERITY POLICY CHINA HAS ADOPTED SINCE THEN IS MORE TO BLAME, BUT THERE IS NO QUESTION THAT TRADE IS CONTINUING TO DROP.

BILATERAL TRADE PLUNGED 60 PERCENT ON A YEAR-TO-YEAR BASIS IN AUGUST, THE LATEST MONTH FOR WHICH FIGURES ARE AVAILABLE, TO 69 MILLION SINGAPORE DOLLARS.

DHAKA (NOV. 5) KYODO - SEVERAL HUNDRED PEOPLE RALLIED MONDAY TO DEMAND THE RESIGNATION OF PRESIDENT HOSSAIN MOHAMMAD ERSHAD AND FRESH ELECTIONS UNDER A CARETAKER GOVERNMENT.

THE RALLY, HELD IN FRONT OF THE STATE-RUN TELEVISION AND RADIO STATIONS IN THIS CITY OF SIX MILLION PEOPLE, WAS PART OF A CAMPAIGN OF PROTEST DEMONSTRATIONS AGAINST ERSHAD AND HIS POLICIES.

THE GOVERNMENT HAS CONDUCTED A ONE-SIDED PROPAGANDA CAMPAIGN IN FAVOR OF ERSHAD IN AN ATTEMPT TO HIDE THE TRUTH AND THE ACTIVITIES OF OPPOSITION PARTIES FROM THE BANGLADESHI PEOPLE, THE DEMONSTRATORS SAID.

OPPOSITION PARTIES ARE SCHEDULED TO STAGE A SIT-IN DEMONSTRATION NOVEMBER 10 TO DEMAND ERSHAD RESIGN, PARTY OFFICIALS SAID.

MEANWHILE, THE STATE-RUN RADIO SAID THE GOVERNMENT HAS RELAXED THE CURFEW IT IMPOSED IN DHAKA ON NOVEMBER 1 AFTER MOSLEMS, ANGERED BY ATTEMPTS TO DEMOLISH A MOSQUE IN AYODHYA IN NORTHERN INDIA, ATTACKED HINDU TEMPLES ACROSS THE COUNTRY.

AT LEAST FOUR PEOPLE WERE KILLED AND SEVERAL DOZENS OF PEOPLE INJURED IN THE DISTURBANCES. HINDU TEMPLES AND HOUSES WERE ALSO DAMAGED.

#90309k0086 11/05/1990 ~Japanese News Agency

TOKYO (NOV. 5) KYODO - MITSUI MINING AND SMELTING CO. HAS DEVELOPED AN EXPERIMENTAL SUPERCONDUCTOR POWER LEAD THAT IS CAPABLE OF CARRYING 1,000 AMPHERES OF ELECTRICITY, THE FIRM ANNOUNCED MONDAY.

THIS TECHNOLOGICAL BREAKTHROUGH WOULD RESULT IN PUTTING POWER LEADS OF HIGH-TEMPERATURE OXIDE SUPERCONDUCTING ROD INTO PRACTICAL USE MUCH EARLIER THAN EXPECTED, IT SAID.

THE COMPANY SAID IT USED AN OXIDE SUPERCONDUCTING ROD INCORPORATING BISMUTH TO TRANSMIT THE ELECTRICITY AT A TEMPERATURE OF 269 C BELOW ZERO.

A POWER LEAD IS A CONDUCTOR TO SUPPLY ELECTRICITY TO A SUPERCONDUCTING COIL WHICH COMES IN TWO TYPES -- NIOBIUM OR TITANIUM.

UNTIL NOW, COPPER WIRE HAS BEEN USED AS THE POWER LEAD. HOWEVER, SINCE COPPER IS HIGHLY HEAT-CONDUCTIVE, A CONSIDERABLE AMOUNT OF EXPENSIVE LIQUID HELIUM HAS BEEN USED AS A COOLING AGENT TO KEEP THE SUPERCONDUCTING COIL OPERATING.

KAZUTOMO HOSHINO, WHO HEADS THE RESEARCH TEAM, SAID THE PROBLEM HAS BEEN SOLVED BY REPLACING COPPER WIRE WITH AN OXIDE SUPERCONDUCTING ROD AS THE POWER LEAD AND WINDING SILVER FOIL ROUND THE ROD.

HE SAID HIS TEAM EARLIER SUCCEEDED IN PASSING 500 AMPERES OF ELECTRICITY THROUGH THE POWER LEAD OF AN OXIDE SUPERCONDUCTING ROD AT A TEMPERATURE OF 196 DEGREES C BELOW ZERO.

THE RESEARCHER SAID THE TEAM WOULD NOW WORK TO PASS AT LEAST 1,000 AMPERES OF ELECTRICITY THROUGH THE POWER LEAD AT THE TEMPERATURE OF 196 C BELOW ZERO.

WHEN THE NEW POWER LEAD COMES INTO USE, IT IS EXPECTED TO CUT DOWN ON THE USE OF EXPENSIVE HELIUM AND REDUCE THE POWER TO OPERATE REFRIGERATORS, HOSHINO SAID.

THE ACHIEVEMENT WILL BE REPORTED AT THE THIRD INTERNATIONAL SYMPOSIUM ON SUPERCONDUCTIVITY WHICH BEGINS TUESDAY IN SENDAI, A MAJOR CITY IN NORTHEASTERN JAPAN.

WASHINGTON (NOV. 5) KYODO - COMMERCE SECRETARY ROBERT MOSBACHER CALLED ON AMERICA'S SMALL- AND MEDIUM-SIZED COMPANIES MONDAY TO STEP UP EXPORTS TO AVERT A RECESSION IN THE UNITED STATES.

''SMALL- AND MIDDLE-SIZED COMPANIES IN THIS COUNTRY HAVE TO EXPORT MORE,'' HE SAID IN AN INTERVIEW WITH CBS NEWS. ''COMPARED TO ALL OUR TRADING PARTNERS, WE EXPORT LESS THAN HALF OF WHAT THEY DO AS A PERCENTAGE OF THEIR GROSS NATIONAL PRODUCT.''

BY BUILDING EXPORTS, MOSBACHER PREDICTED, ''WE'RE GOING TO SEE THE LENDING RATES COMING DOWN.''

DESPITE GROWING SIGNS OF AN APPROACHING RECESSION, THE COMMERCE SECRETARY INSISTED THAT THE U.S. IS NOT IN A RECESSION.

''BUT THE MORE DOOM-AND-GLOOM WE TALK, THE MORE WE'RE LIABLE TO HAVE IT HAPPEN '' MOSBACHER SAID, ADDING THE END OF THE PERSIAN GULF CRISIS WILL SPARK ''A LOT OF PENT-UP DEMAND.''

HE DID NOT SAY WHEN THE CRISIS WILL END.

#90309m0001 11/05/1990 ~Market Consensus Surveys
FALLS CHURCH, VA (NOV. 5) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

flat this morning. ... The long bond is yielding 8.68% and the dollar is mixed. ... Crude oil is lower, with Brent North Sea off $1.63 to $31.92. ... CHRYSLER and FIAT say they have broken off talks about a possible alliance. ... ELECTRONIC DATA SYSTEMS will not buy CONTINENTAL AIRLINES' computer reservation system after all, the two companies say. ... "USA Today" says it has learned that CARL ICHAN is seriously weighing a bid of between $2 billion and $2.5 billion for USX CORP.'s steel unit.

WHAT'S AHEAD:

Automakers report October sales today and the NATIONAL ASSOCIATION OF REALTORS issues existing home sales figures for the third quarter. ... The LABOR DEPARTMENT issues preliminary third-quarter production and cost figures on Tuesday. ... On Wednesday, the COMMERCE DEPARTMENT issues the September wholesale trade report and the FEDERAL RESERVE reports on September consumer credit. ... On Thursday, large companies announce October retail sales results and the LABOR DEPARTMENT issues initial unemployment claims figures for the week. LABOR.

FROM THE BULLS:

"The stock market has started to react better to bad news," says RAJIV SHARMA, a money manager at SERCO INVESTMENTS in Larkspur, Calif. "I'm looking for a rebound [on the Dow] to about 2650." His $22 million fund is about 7% ahead for the year and he moved from 50% cash to 85% stocks last week. (WSJ, 11/5)

"There's a very high probability that we've already made our bottom and are making our way back up again," says DAVID ELIAS, president of ELIAS ASSET MANAGEMENT. He says the only "wild-card" is the Middle East, but he also says that if there is a shooting war, and it is "relatively short-lived, the market will go up two or three hundred points on that news." He predicts the Dow will hit 3000 before November 1992.("Nightly Business Report", 11/2)

"I'm fairly optimistic here," says FRANK GRETZ at SHIELDS & CO. "I think the market has made a bottom and we're heading higher." (CNBC "Market Wrap-Up", 11/2)

"I think the market is making a very important bottom here," says RICHARD EAKLE, president of EAKLE & ASSOCIATES. He bases that assessment on looking at

utility stocks, which he notes have been holding their own since August. He says that, historically, utility bottoms usually precede a broader market bottom by two or three months. (CNBC "Market Wrap-Up", 11/2)

FROM THE BEARS:

"I think we're in a rally in a bear market," says ROBERT STOVALL, president of STOVALL/TWENTY-FIRST ADVISERS. "I think it might take several months before we start to see a really definite change in direction." ("Wall Street Week", 11/2)

STOCK MARKET:

"The fact that the financial stocks are doing so well is very important for the rest of the market," says EUGENE PERONI at JANNEY MONTGOMERY SCOTT. "We may be seeing a cyclical bottom for the market as well. The market strength here is encouraging. We're getting a glimpse of renewed interest and bottom-fishing in the financials. Some battered bank stocks are attracting significant buying interest." Peroni says interest rates will be an increasingly important factor in fairly valuing stocks. In his "Peroni Report" this morning on "CNBC" he sees formidable trendline resistance at 2510 near-term, and says it is important technically that the Dow hold above 2365. Peroni says the Dow is apt to produce "expansive swings" within its trading range. ("Investor's Daily" and CNBC "World Business", 11/5)

"For the first time in many weeks, we've been hearing fund managers complain that they can't buy the stocks they want - the shares just haven't been for sale," says JIM CREBER at MILLER TABAK & HIRSH. Noting the surge in banks stocks Friday, PHILIP ROTH at DEAN WITTER observes that "after a general market decline, improvement in the interest-rate-sensitive areas is usually very important as a precursor to a rebuilding process." ("The Washington Post", 11/3)

"It's a delicate rally [we're in now]," says PHILIP RETTEW at MERRILL LYNCH. "It's possible to chase it and get some results, but I'd try not to make a habit out of that. Basically, if you didn't buy in the August- September low areas, I think you are chasing a little bit." (CNBC "Market Wrap-Up", 11/2)

"If we can get past 2500, and we're so close right now, it probably stands to reason that we're going to have a rally through the end of the year that could take us up 5 to 7 percent," says MITCHELL MEISLER of LEHMAN BROTHERS. Meisler is looking for a "choppy, volatile market" but says "volatile markets at these levels could give you buying opportunities." (FNN "Marketwrap", 11/2)

ARTHUR MICHELETTI, director of U.S. research at BAILARD BIEHL & KAISER, expects stock prices to rise for awhile, but does not think the gains will hold. "Stock investors get impatient," he says. "It takes months before you see improvement and when investors don't see the economy recovering and

profits rising right away, you get capitulation, with people saying, 'Oh my God, it's worse than I thought.'" He thinks the resulting sell-off probably will send the Dow down to around 2100. (WSJ, 11/5)

"Considering that we are in an economy now that had below average GNP growth for six consecutive quarters, companies have done a good job of keeping their bottom lines intact," says RICHARD PUCCI of IBES. But DAVID BLITZER of STANDARD & POOR'S says "Overall, we're going to see further decline" in earnings. He says problems in the auto industry will "drive the most of the overall statistics." (FNN "Marketwrap", 11/2)

The Nikkei is in a real bear market and will continue lower, regardless of what happens to Japanese interest rates, says ROBERT ZIELINSKI, senior analyst for JARDINE SECURITIES. He looks for the Japanese stock market to decline an additional 25%-30% before the bottom, probably sometime next summer. Zielinski thinks Japanese stocks would have to decline a full 50% before the action would have a negative spillover effect on the U.S. market. (CNN "Business Morning", 11/5)

STOCK TIPS:

Buy ORION, suggest the editors at "BI Research." They like the company's distribution rights for "Dances With Wolves," calling it a big picture which should move the stock. They say TYCO's price decline is "ludicrous" and creates a great buying opportunity. Another recommendation is PHOTRONICS. They say the stock price has bottomed there and order rates are holding up fine. (CNBC "World Business", 11/5)

ART SAMBERG has managed a 2% gain for his DAWSON-SAMBERG money management firm so far this year after a resounding 75% gain in last year's market. The stock picker's current favorites are STRATUS COMPUTER, BORLAND INTERNATIONAL, COREL SYSTEMS, EMC CORP. and HUNTER ENVIRONMENTAL SERVICES. His top "shorts" are LANDMARK GRAPHICS and MICROGRAFX. ("Barron's", 11/5)

"I'm recommending stocks like BANK AMERICA, which has a pretty clean balance sheet," says RICHARD EAKLE, president of EAKLE & ASSOCIATES. "They don't have much real estate exposure." He also likes J.P. MORGAN, although it might have a little setback in price. "Another I find intriguing is NDB" of Detroit. "My favorite interest-sensitive play here is FANNIE MAE," he says. He says the most attractive stocks that would play off a revival of consumer spending in the retail are would be BLOCKBUSTER, LIMITED, WAL-MART, WALGREEN, WOOLWORTH and MERRY-GO-ROUND. (CNBC "Market Wrap-Up", 11/2)

EDDIE BROWN says it is time to start shopping for what he calls "a salvage and recovery portfolio - some stocks that have just been beaten unmercifully, companies that will still be on business and that you can put on the side of a year or a year and a half." He mentions battered S&L and bank stocks. GOLDEN WEST and GREAT WESTERN FINANCIAL are two he mentions. ("Wall Street Week",

11/2)

#90309m0002 11/05/1990 ~Market Consensus Surveys
FALLS CHURCH, VA (NOV. 5) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

The United States risks a widespread credit crunch unless Congress modernizes the banking system soon, says CHASE MANHATTAN CHAIRMAN THOMAS LABRECQUE in an interview with "USA Today." "If the pressure against allowing banks to earn a fair return and increase their capital continues, then we'll have a [lending] contraction - and that will mean less financing for the economy," he says. ("USA Today", 11/5)

"I thought the [employment] number was extremely weak and should in fact cause the FED to ease in here," says STEVEN SILFER at LEHMAN BROTHERS. "The Fed is still holding back on account of the weak dollar and the massive Treasury borrowings that are going to come to market in the next few weeks," says DENISE PETSIS at ARGUS RESEARCH. "I think once the Treasury refinancings are met, the Fed may come through with some easing, but most of the easing moves will be incremental." (CNBC "Market Wrap-Up", 11/2)

"There comes a point where economic weakness becomes broad enough and financial difficulties distressing enough where monetary policy has to become more stimulative," says RICHARD KELLY, president of AUBREY G. LANSTON & CO. "In my view, we are at that point." EDWARD YARDENI, chief economist at PRUDENTIAL-BACHE says that "if the Fed wants to make this a short recession, then they will have to lower interest rates dramatically." (NYT, 11/5)

"The FED is not going to be fooled by the unemployment rate," says LYLE GRAMLEY, a former Fed governor who is not chief economist at the MORTGAGE BANKERS ASSOCIATION. Noting "spreading weakness" in the underlying numbers in Friday's report, Gramley says, "I don't think there's any doubt anymore that we're sliding into a recession." DAVID BOSTIAN, chief economist at JESUP, JOSEPHTHAL, says, "It still has the potential to be a mild recession if the Fed keeps easing. I hope the Fed looks beyond the [unemployment] rate and isn't stubborn." ROBERT McGEE, chief U.S. economist at TOKAI BANK LTD. says the jobs report "hides the degree of spreading weakness in the economy" and thus "minimizes the political pressure for the FEDERAL RESERVE to ease right away." ("Investor's Daily", 11/5)

Friday's weak economic numbers mean that "the Fed will be concerned about the economy, and will pump further liquidity into the economy, which will ease rates," according to MITCHELL MEISLER of LEHMAN BROTHERS. He is looking for a

Fed funds rate of 7 1/2%. (FNN 5 "Marketwrap", 11/2)

"I think we'll see a year from now interest rates 100 basis points lower, certainly at least 50 basis points," says RICHARD JENRETTE, chairman and CEO of THE EQUITABLE LIFE ASSURANCE CO. ("Wall Street Week", 11/2)

"I'm very bullish on bonds," says CARTER RANDALL. "Interest rates are going to go down a lot more than anybody thinks, the Fed is easing, inflation is going to be coming down and so, too, can interest rates and that could really restimulate the economy. There's a half- trillion dollars in money market funds which will flee to the longer markets when the rate of return on those short-term goes down. I'm talking about government, corporate of tax-exempt bonds for most investors." ("Wall Street Week", 11/2)

"A setback that would take yields higher than 9% seems increasingly unlikely, absent a Mideast war," says RICHARD BERNER, economist at SALOMON BROTHERS. "We may see yields [on the 30-year bond] rise to 8.75% or maybe even 8.875%, but no higher," says JAMES CAPRA at LEHMAN BROTHERS. (WSJ, 11/5)

"The Treasury has indicated there is plenty of interest" in this week's bond auction, says RAO CHALASANI at PRESCOTT BALL & TURBEN. ("USA Today", 11/5)

THE ECONOMY:

"Even though this [Friday] unemployment number is better than I thought it would be, we are on the verge of a very sharp rise in unemployment and a very sharp decline in the number of people working," says BILL WOLMAN, chief economist at "BusinessWeek" and "CNBC." "In the private sector these are the worst numbers we've had since 1983." He notes that the Friday numbers were moderated by a rise in government employment, a development he finds "a little bit irritating." He says the past three weeks has shown a "very sharp decline" toward recession. "We are dropping now. The negative numbers are really going to start coming in big." (CNBC "Market Wrap-Up", 11/2)

"This [employment report] is strong evidence that the economy really has lost its footing now and slipped into recession," says ROBERT DEDERICK at NORTHERN TRUST CO. in Chicago. ("USA Today", 11/5)

"We've now had two sharp declines [in the leading economic indicators index] in a row, and the third number back was a flat number," says ALAN LERNER of BANKERS TRUST. "If you believe in the leading indicator series, you would think that that is giving us a fairly clear indication of a weakening economy and a recession." (FNN "Marketwrap", 11/2)

"I think it's about time to start thinking about the unthinkable: That is the possibility that we may not have a recession," says EDDIE BROWN. "After the crash in 1987 almost everybody predicted a recession was on its way and it never happened. I think perhaps this time we might end up with a mild

recession, but if we get a few things breaking right, we might get this economy back on track." Declining world interest rates would be one key to that, he says. ("Wall Street Week", 11/2)

The economy is starting to turn up, but only very slowly, says MONTE GORDON, director of research for DREYFUS. "It's like watching an oceanliner five miles from shore," says Gordon. His optimism is tempered. He says the failure of Fed efforts to push the funds rate from 7 15/16 to 7 3/4 shows there still a great deal of nervousness around: "The Fed tries to make the money available, people don't want to borrow it ... that is a discouraging sign." Weakness in the banking industry will keep the economy sluggish into the second quarter of 1991. "[Banks] are probably not in as bad shape as some of the reports in the media but ... it's a negative of some dimension." (CNBC "World Business", 11/5)

"We've got a few businesses that are having real problems, but we also have a lot of businesses, from whom you don't hear, that are doing fine," says SECRETARY OF COMMERCE ROBERT MOSBACHER. He says the economy, while slow in some spots, is not in a recession. Mosbacher is looking for three factors to help rev up economic performance: the budget agreement and the accompanying spending cuts; a trend towards lower interest rates; and the increase in exports. "No one ever talks about [the sectors of the economy] that are going up ... we keep repeating the ones that are going down." (CNN "Moneyline", 11/2)

"Business firms are approaching new hirings in a very, very cautious fashion," says WILLIAM SULLIVAN of DEAN WITTER REYNOLDS. He sees that as a sign of weakness in the economy. (FNN "Marketwrap", 11/2)

"The United States economy is headed for a recession, if it's not already begun," says ROBERT MARKS at SIFF, OAKLEY & MARKS. "That prospect is inevitable." (NYT, 11/3)

"The economy is not falling over a cliff, it's just sliding down the slope," says ROBERT DEDRICK, chief economist at NORTHERN TRUST CO. in Chicago. "The economy is already so sluggish that growth will turn negative soon," says WILLIAM MacREYNOLDS, director of forecasting for the U.S. CHAMBER OF COMMERCE. He says there is no evidence to support the contention of some forecasters "that there will be a fairly nice rebound in the last part of the [1991] year." He says there will be even less chance of a 1991 recovery "with taxes going higher." ("Investor's Daily", 11/5)

JAMES BENHAM, chairman of BENHAM CAPITAL MANAGEMENT, is pessimistic about the world economy. He says huge private and public debt will make a recession now being entered unlike any preceding it. He gives 4-to-1 odds that there will be a worldwide depression. "After every long party, there's always a hangover " he says. (NYT, 11/4)

#90309p3184 11/05/1990 ~PR Newswire

OREM, UTAH (NOV. 5) PR NEWSWIRE - Wicat Systems Inc. (NASDAQ: WCAT), announced today that its wholly owned subsidiary, Wicat Systems Ltd., based in the United Kingdom, has been selected by Iberia Airlines to provide a major upgrade and expansion of their existing computer-based training (CBT) system.

The agreement, valued at $400,000, includes 10 WITS 4000 workstations, a substantial spare parts inventory, and a Wicat System 2255 file server. In addition, Iberia signed a facilities management contract which provides a full-time Wicat employee on-site at Iberia's Flight Crew Training Center in Madrid, Spain.

Iberia officials stated that computer-based training has been successfully integrated into the Iberia Flight Crew Training Center. The center currently provides computer-based training for the McDonnell-Douglas MD-80, the Boeing 747-200, and the Airbus A320 aircraft. In the near future, Iberia plans to add Boeing 757 courseware to support their recently ordered B757 aircraft.

Iberia officials also noted that Wicat's ability to provide a powerful training environment and high-quality courseware has enabled Iberia to manage the transition from traditional classroom, tape, and slide training to their current highly interactive, individualized training.

Wicat Systems, is a world leader in technology-based training and education solutions, providing products and services to help clients achieve 30 to 50 percent learning improvement in schools, industry, and government. Wicat's stock is traded in the NASDAQ market under the symbol WCAT.

#90309p3186 11/05/1990 ~PR Newswire

PISCATAWAY, N.J. (NOV. 5) PR NEWSWIRE - AT&T will sponsor a nationwide interactive video teleconference, "Enhancing Software Quality and Productivity: An Industry Perspective" on Wednesday, Nov. 28.

"Software is the solution," said Lawrence Bernstein, vice president, operations systems, AT&T Network Systems and executive director, AT&T Bell Laboratories. "Unfortunately, it's also often the problem.

"This conference contains 'best current practices' in software quality, products, measurement and technology. It is part of a continuing AT&T effort to improve its own software by moving its development from art to engineering. We also wish to provide a framework for software quality-improvement efforts throughout the world."

The teleconference, which is open to the public, is designed for system or software development professionals, who will have the opportunity to phone in or fax questions to speakers in New Jersey.

Featured speakers will be three internationally recognized authorities on quality: Capers Jones, Tom DeMarco and John Musa.

Jones is chairman and co-founder of Software Productivity Research, Inc. in Burlington, Mass. He is an international private consultant, speaker, seminar leader, and author of "Programming and Productivity: Issues for the Eighties."

DeMarco is a principal of the Atlantic Systems Guild, a New York and London-based consulting firm. He is co-author with Tim Lister of a new book, "Peopleware: Productive Products and Teams." DeMarco won the 1986 Jean-Dominique Warnier for lifetime contribution to the field of information science.

Musa is supervisor of software quality at AT&T Bell Laboratories in Whippany, N.J. He is co-author with Anthony Iannino and Kazuhira Okumoto of "Software Reliability." Involved in the field of software reliability since 1973, he has published more than 40 papers.

Registration may be done electronically by calling 1-800-TRAINER, selecting 2, and asking for extension 54. The registration fee is $250 per attendee.

#90309p3187 11/05/1990 ~PR Newswire

SUNNYVALE, CALIF. (NOV. 5) PR NEWSWIRE - MASS Microsystems Inc. (NASDAQ: MMIC) today announced that it has adopted a plan to repurchase up to 240,000 shares of its common stock. The repurchase plan would be made through open market purchases and, if completed, will reduce the number of outstanding shares of the company's common stock by 5 percent. The repurchased shares will be held as treasury stock.

Carl Pompei, chairman of MASS Microsystems, commented, "The board of directors is highly confident about the company's long-term growth prospects. In the current marketplace, we believe that our stock is undervalued, therefore, we have authorized this repurchase plan."

Through the first nine months of 1990, MASS Microsystems reported record revenues totaling $16,346,000, on net income of $462,000, or 9 cents per share.

MASS Microsystems is a multimedia driven, peripheral enhancement company operating worldwide. The company manufactures the award-winning ColorSpace

line of videographic products and the DataPak line of 45mb removable cartridge storage systems for the Apple Macintosh family of personal computers.

#90309p3193 11/05/1990 ~PR Newswire

SAN DIEGO (NOV. 5) PR NEWSWIRE - Wahlco Environmental Systems Inc. (NYSE: WAL) today reported results for the third quarter ended Sept. 30, 1990.

Revenues for the quarter were $13.7 million compared to $10.9 million for the third quarter of 1989. Net income was $2.6 million, or 15 cents per share versus $3 million, or 21 cents per share, for the comparable 1989 quarter. Average common shares outstanding increased by 3.4 million to 17.6 million.

For the nine months ended Sept. 30, 1990, revenue was $40 million as compared with $24.9 million for the initial nine months of 1989. Net income was $7.2 million, or 45 cents per share, versus $6.5 million, or 46 cents per share for the comparable 1989 period. Average common shares outstanding increased by 1.9 million shares to 16.1 million.

Third quarter and nine month net income in 1990 benefited from reductions in taxes of approximately $640,000 and $880,000, respectively, reflecting adjustments in Puerto Rican tollgate and federal tax liabilities.

"Our core business, flue gas conditioning (FGC), is driven by Clean Air legislation and has experienced a decline in revenue and orders from the second quarter 1990 and the comparable third quarter of 1989 due primarily to the delay in passage of the amendments to the clean Air Act," stated Henry Huta, president and chief executive officer. "Now that the amendments have been approved by the House and Senate and are expected to be signed by the president, we expect to see increased FGC bookings numbers beginning in 1991."

Huta noted that the company is particularly encouraged by Bachmann's improvement in gross margin and backlog position. Bachmann's backlog has increased over 70 percent since its acquisition in March 1990. As a result of this growth, the company undertook a significant plant expansion at the Bachmann facility in Lewiston, Maine. Consequently, shipments were disrupted during the third quarter, keeping shipments flat with the second quarter.

Wahlco Environmental Systems Inc. is a manufacturer of equipment used primarily by electric utilities to assist in the reduction and control of air pollution. In addition, the company designs, manufactures and installs products that enhance the efficiency of industrial and utility boilers, and also manufactures water pollution and control devices.

#90309p3194 11/05/1990 ~PR Newswire

ANAHEIM, CA (NOV. 5) PR NEWSWIRE - Comarco, Inc. (NASDAQ: CMRO) today reported that net income rose 53 percent during the third quarter of fiscal 1991, compared to 1990. For the period ended Oct. 21, 1990, Comarco generated net income of $458,000, or $0.10 per share on revenues of $16,447,000. During the same period one year ago, the company reported net income of $299,000, or $0.06 per share on revenues of $18,527,000.

For the first three quarters ended Oct. 21, 1990, net income increased 16 percent to $1,189,000, or $0.26 per share versus net income of $1,026,000, or $0.22 per share for the prior year. Revenues for the period were $53,497,000. Cash flow from operations for the first three quarters was $1.07 per share.

"Our strong cash flow and improved operating margins were major contributors to our significant profit gains for the period. Our bank debt has been reduced to zero. Our only remaining debt is $4.8 million of subordinated convertible debentures due in April 2001. As a result, our financial position has been substantially strengthened," stated Don Bailey, president of Comarco. He added that revenues are down on a year-to-year comparison basis because of decreases in subcontracting and reductions in the purchase of materials by several of Comarco's customers. However, revenues have stabilized recently.

Looking forward, Bailey stated that the company's strong backlog position, excellent new business opportunities and focus on cost containment should result in continued strong earnings for the remainder of the year and beyond.

The company's expertise lies in analytic, engineering, logistics services, testing and field support of software and communications systems, as well as program, project and facilities management support. In addition, the company specializes in manufacturing and designing special purpose computer-based products.

NEW YORK (NOV. 5) PR NEWSWIRE - Andover Togs, Inc. (NASDAQ: ATOG) announced today that it was currently in the process of implementing both temporary and permanent layoffs at its three manufacturing facilities in Alabama and its manufacturing facility in North Carolina.

The company announced that although it customarily implemented short-term temporary layoffs of operators at this time of year due to the seasonability of its manufacturing, the number of layoffs required this year was substantially higher than in previous years due to the dramatic slow down in the apparel industry generally and the company's reduction in business due to the tightening of its credit lines to customers.

The company announced that it would also implement moderate permanent staff reductions at these facilities in order to reduce overhead expenses. The company expects the layoffs to be only for a short period and intends to commence rehiring the majority of the workers in the near future.

Andover regrets the action it must take at this time but believes it is necessary in view of business conditions generally.

Andover Togs is one of the country's five largest suppliers of non- branded clothing, producing sportswear for infants, toddlers, children and ladies.

LIBERTY CORNER, N.J. (NOV. 5) PR NEWSWIRE - Blessings Corporation (AMEX: BCO) reported today that net sales for the 12 weeks ended Oct. 6, 1990 amounted to $26,433,200 compared with $25,797,300 for the comparable 12 weeks ended Oct. 7 1989. Year-to-date net sales for the 40 weeks totaled $84,371,400 compared with $77,770,100 in 1989. The revenue figures for both the quarter and the 40 weeks year-to-date represent new sales records for the company.

Net earnings during the quarter rose to $1,676,100 or 51 cents per share on 3,257,631 shares, vs. $1,189,500 or 36 cents per share on 3,258,712 shares during the third quarter in 1989. For the 40 weeks ended Oct. 6, 1990, net earnings reached $6,092,300 or $1.87 per share compared with $3,392,700 or $1.04 per share for the 40 weeks ended Oct. 7, 1989. Both earnings figures also represent records for the company with the year-to-date results some 80 percent ahead of the comparable results for the fiscal year 1989.

Ivan E. Becker, president and chief executive officer of Blessings, stated, "The Edison Plastics Division remains in a generally sold-out position in virtually all of the products which it produces. While sales and profitability for the Edison Plastics Division have achieved historically high levels this year, the division began to evidence the effects of a return to an environment of increasing raw material prices due to the uncertainties in petrochemical supplies resulting from the Persian Gulf crisis. Further raw material price instability, compounded by general market volatility, is likely to persist pending resolution of the Middle East situation."

Becker noted that, "The Geri-Care Products Division and the Advanced Compounding Division each experienced an improved sales picture during the third quarter in comparison to the generally slow summer months." Becker added that "We are delighted with the extremely strong performance of the company during the third quarter and throughout 1990. We look forward to a continuation of this trend during the fourth quarter subject to the uncertainties represented by the crisis in the Middle East."

The company reported that at its meeting on Oct. 9, 1990 the board of directors of the company declared a dividend of $.165 per share on outstanding stock payable on Dec. 1, 1990 to shareholders of record Nov. 1.

SALT LAKE CITY (NOV. 5) PR NEWSWIRE - JB's Restaurants Inc. (NASDAQ: JBBB), which operates 133 JB's family-style restaurants and franchises one JB's family-style restaurant in ten western states, today announced an agreement in

principle to become a franchisee of Sbarro Inc. Under the terms of the agreement, JB's will acquire two operating Sbarro restaurants in Phoenix and exclusive development rights to Phoenix and Portland, Ore. over the next three years. Plans are to open a minimum of 19 additional Sbarro restaurants in these two ADIs as well as units in contiguous markets when and where appropriate.

Commenting on the agreement, Fred P. Gonzales, president and chief operating officer, stated, "The Sbarro concept, which fills a unique niche in the growing Italian segment, is one of the most profitable and consistent performers in the restaurant industry. The franchise agreement provides JB's with a high margin growth concept which improves JB's overall shareholder returns."

Clark D. Jones, the company's chairman and chief executive officer added, "The opening of the Sbarro restaurants complements the company's previously announced growth plans for the JB's restaurant concept. Because most Sbarro units are located in regional shopping malls, they do not directly compete with existing JB's restaurants. Therefore, the company can take advantage of our knowledge of the ten state market where we already operate to maximize the potential of the Sbarro concept."

SANTA MONICA, CALIF. (NOV. 5) PR NEWSWIRE - Two respected forums for leading-edge contamination control information, the Microcontamination Conference and Expositon, sponsored by Canon Communications, Inc., and The Institute of Environmental Sciences (IES), today announced their new strategic alliance.

The new relationship between the groups stems from a mutual goal to produce industry leading sessions for their respective events by combining the applied elements of contamination control with the theoretical ones. The application-oriented Microcontamination conference is produced annually by Canon, which also publishes the corresponding "Micrcontamination" magazine. IES is a technical society of engineers, scientists and educators, which sponsors theoretical and application-driven contamination control symposiums.

The alliance allows both organizations to share professional knowledge and resources, enhancing conference offerings in the process. "We are looking forward to tapping into IES's impressive, multi- disciplinary expertise," said Canon's tradeshow director, Diane O'Connor. "In return, IES will be incorporating the strengths of the Microcontamination Conference into its own symposiums and meetings, thus providing its members with the latest, ground-breaking information about contamination control applications. We both

come out ahead in this alliance, but our conference attendees are the ultimate winners."

Each organization has strengths that the other does not, said, Anne Marie Dixon, 1991 president of IES. She explained: "The IES is seen to be dynamic in areas related to cleanroom design and engineering of support systems. The Microcontamination Conference and Exposition is perceived to be adept in process defectivity issues and semiconductor- related processing." The new relationship promises to bolster attendance and enthusiasm for future Microcontamination and IES events through technically-stronger programs, which will include new, exciting speakers and a wider selection of conference topics added O'Connor. The 1991 co-sponsored events will include IES's Annual Technical Meeting, May 6-10, and Microcontamination '91, Oct. 16-18.

The Institute of Environmental Sciences is a professional society of engineers scientists and educators from industry, government and academic institutions. Founded as a not-for-profit association in 1953, its aim is to understand the effects of environmental factors as they relate to the quality, producibility and safe operation of products, components and systems. In addition to the Annual Technical Meeting, IES also sponsors several annual technical conferences, including: the International Symposium of Contamination Control Societies, the Aerospace Testing Seminar, the Environmental Stress Screening of Electronic Hardware Conference, and the Reliability and Maintainability Symposium.

AUSTIN, TEXAS (NOV. 5) PR NEWSWIRE - Motorola's Digital Signal Processor Operation today announced a new 56100 family of 16-bit digital signal processors (DSPs). Based on Motorola's 56000 architecture, the 56100 family is optimized for voice and data applications, including digital cellular telephones, ISDN, networking and high-speed modems.

"We're bringing to market the most powerful family of 16-bit digital signal processors available," said Bryant Wilder, Motorola's DSP operations manager. "The 56100 family opens the door for a new industry of voice-based applications." Digital Cellular Mobile Applications

The 56100 family provides the high performance and integration necessary for the next generation of digital cellular telephones and base stations. With its high speed, the 56100 family can easily handle the variety of tasks needed for digital voice communications such as echo cancellation, equalization, error detection and correction, and noise filtering.

The 56100 family supports digital cellular standards chosen by Europe, the United States, and Japan. Europe is currently implementing pan-European digital cellular standards organized through the Groupe Speciale Mobile (GSM). GSM standards are designed to enhance compatibility, capacity and security for European inter-country cellular communication. The GSM specification also addresses speech transmission, videotext, transmission encryption and additional methods of secure communication.

The DSP56116 (116), the first member of the 56100 family, combines a high-speed core processing engine, many intelligent peripherals, and more than 8 Kbytes of on-chip memory for digital voice-based applications such as ISDN, digital cellular telephony, and speech compression.

The second member of the family, the DSP56156 (156), is the industry's first single-chip DSP designed to handle voice conversation and mangement functions required in the next generation of digital cellular telephones. Combining the high-speed core processor (DSP5616) with on-chip sigma-delta analog-to-digital (A/D) and digital-to-analog (D/A) conversion technology, the 156 is the industry's first DSP to provide a complete voice processing system on one chip.

#90309p3223 11/05/1990 ~PR Newswire

PITTSFORD, NY (NOV. 5) PR NEWSWIRE - SelecTronics Inc. (NASDAQ: SELE) reported a net profit of $48,000 or $0.001 per share on a 13 percent increase in revenues to $10.6 million for the second fiscal quarter ended Sept. 30, 1990. The return to profitability was driven by a $1.1 million increase in operating income compared to the year-ago quarter when the company had a net loss of ($603,000) or ($0.017) per share.

Michael Weiner, chairman and CEO, said sales of SelecTronics handheld electronic reference products increased 10 percent due to expanded domestic and international distribution of new products, such as the Berlitz Interpreter and Eurotraveller; French and U.K. versions of the WordFinder 220; the updated WordFinder HH220; and the Electronic Bible. Total SelecTronics brand shipments exceeded 250,000 units, more than twice year-ago volume. The year-ago quarter included a large, one-time shipment of handheld units made under contract, private label, for another company.

Sales of Microlytics retail software products increased 85 percent due to the introduction of the InfoDesk series of programs for the PC and Macintosh, starting with Inside Information and The Random House Encyclopedia. Microlytics software licensing revenue increased 25 percent due to expanded licensing activities.

Gross margin increased to 32 percent of sales from 22 percent due to higher margins on new handheld products which have lower manufacturing costs. Operating expenses were nearly the same as the year-ago quarter, but as a percentage of sales, dropped to 27 percent from 29 percent due to increased productivity.

Weiner commented: "We are pleased and encouraged by our return to profitability. Our goal is to achieve steadily rising quarter-to- quarter profitability in order to maximize shareholder value. Our plan is to continue efforts to introduce new products, improve gross margins and control costs."

In the second half of the year, Weiner said the company plans to begin delivering the Pocket PDR (Physicians Desk Reference) to Medical Economics Inc. and plans to begin shipping the handheld version of The Random House Electronic Encyclopedia, and the German, Italian and Spanish versions of the WordFinder 220. On the Microlytics software side of the business, the company plans to begin a program to market its software properties to the PC industry for use in the new memory card standard recently adopted by more than 40 laptop manufacturers and major software publishers, and plans to begin shipping Strunk & White's The Elements of Style as the third title in the InfoDesk software series.

SelecTronics Inc., which is 30 percent owned by Xerox, manufactures and markets handheld electronic reference products including the Electronic Bible licensed from Harper & Row; the Electronic Encyclopedia licensed from Random House; multi-language translators licensed from Berlitz; and WordFinder dictionaries, thesauruses, and spelling checkers. Its wholly-owned subsidiary, Microlytics, Inc., develops and markets software through traditional distribution channels and OEM licenses, including Microsoft, WordStar, Lotus, Tandy, Citizen, Hewlett-Packard, Claris, Symantec, XyQuest, Caere, DEC, and others.

LOUISVILLE, KY. (NOV. 5) PR NEWSWIRE - Navistar International Transportation Corp. and the United Auto Workers union have reached tentative agreement on new three-year labor contracts covering 8,000 production, maintenance and clerical employees. The settlement, which is subject to ratification, ends a brief strike that began at the end of second shift operations on Friday, Nov. 2, 1990.

The company said UAW-represented employees at Navistar manufacturing plants and parts distribution centers should report for work on their regularly scheduled shift today, Monday, Nov. 5, 1990.

No details of the tentative agreements will be released pending completion of the ratification process.

The company said it has been informed by the UAW that ratification meetings at the 12 UAW local unions covered by the agreements at Navistar plants and operations in Georgia, Illinois, Indiana, Maryland, Ohio and Texas will be scheduled for later this week.

The previous UAW-Navistar contracts, which had been in effect since Nov. 1987, were scheduled to expire on Oct. 1, 1990, but had been extended by mutual agreement.

Navistar International Transportation Corp., the principal operating subsidiary of Navistar International Corporation (NYSE: NAV), is the leading manufacturer in North America of medium and heavy trucks and the worldwide leader in the production of mid-range diesel engines.

#90309p3228 11/05/1990 ~PR Newswire

HOUSTON (NOV. 5) PR NEWSWIRE - Zapata Corporation (NYSE: ZOS) announced today that it has commenced tender offers for all its outstanding 10-1/4 percent subordinated debentures due 1997 and 10-7/8 percent subordinated debentures due 2001.

The company is offering $480 for each $1,000 principal amount. Accrued interest will not be paid on the debentures tendered. The offers are conditioned upon the tender of 80 percent of the combined outstanding principal amount of both series of debentures.

The tender offers are part of a comprehensive restructuring by Zapata to reduce its debt obligations. The restructuring is necessary because Zapata will not be able to make payments beginning Dec. 31, 1990 under its existing bank agreement out of its current level of cash flow. The company's new restructuring agreement with its lenders is conditioned upon the completion of the tender offers.

If Zapata's restructuring plan is unsuccessful for any reason, including failure of the tender offers for the debentures, then the company believes it would likely have to seek protection under federal bankruptcy laws.

"Although the value that debenture holders could obtain in a bankruptcy proceeding is uncertain, Zapata believes that such value would be significantly less than the $480 per $1,000 of principal now being offered," Zapata Chairman and Chief Executive Officer R. C. Lassiter said. "The debentures are unsecured and effectively junior in right of payment to all bank debt and all obligations of the company's subsidiaries."

Zapata has not had an operating profit since the first quarter of 1985. The company had a loss of $42.2 million for the nine months ended June 30, 1990.

Zapata Corporation is a Houston-based company that produces oil and natural gas, conducts commercial menhaden fishing operations that produce fish meal

and edible oil, and manages a fleet of offshore drilling rigs. Zapata is also the largest shareholder in Zapata Gulf Marine Corporation, the world's leading operator of marine service vessels.

LAS VEGAS (NOV. 5) PR NEWSWIRE - Fred D. Gibson, Jr., chairman, president and chief executive officer of American Pacific Corp. (NASDAQ: APFC), today stated that under present market conditions, the company does not intend to proceed with its planned equity offering unless the currently depressed price of the company's shares improves substantially. He also announced that based on preliminary results for the fiscal year and quarter ended Sept. 30, 1990, American Pacific registered sharp gains in revenues, net income and net income per share for both periods.

The company previously announced that on Sept. 4, 1990, it filed a registration statement with the Securities and Exchange Commission relating to the proposed offer and sale of 2,062,000 shares of its common stock, 1,900,000 to be sold by it and 162,000 shares to be sold by certain selling stockholders.

For the year ended Sept. 30, 1990, net income climbed to $7,363,000, equal to $1.42 per share on revenues of $59,509,000. results for the prior year are not directly comparable since the company was operating in a start-up mode for the first 10 months of fiscal 1989. For that year, the company reported net income of $1,366,000, equal to 25 cents per share on revenues of $13,962,000. Weighted average common shares outstanding were 5,147,000 in fiscal 1990 and 4,860,000 in fiscal 1989.

Net income for the fourth quarter totaled $1,819,000, equal to 37 cents per share, up 36 percent from $1,353,000 or 27 cents per share one year earlier. Fourth quarter revenues increased 40 per cent to $15,317,000 from $10,988,000 in the fiscal 1989 quarter.

American Pacific's principal business activities consist of the prooduction of ammonium perchlorate, the oxidizer utilized in composite solid rocket propellants employed by a large number of space and military systems. Through direct and indirect subsidiaries, the company is engaged in the manufacture of chlorate and perchlorate chemicals, the design and manufacture of electrolytic systems and electrodes, the design and manufacture of pollution control systems, and industrial real estate development.

This communication shall not be deemed a prospectus and shall not constitute an offer to sell or the solicitation of an order to buy and securities of the company.

SAN JOSE, CALIF. (NOV. 5) PR NEWSWIRE - Samsung Information Systems America today announced the NoteMaster(TM) 386S/16, the company's first notebook computer. AT $4,499, the NoteMaster is one of the most affordable entries into the fast-growing notebook market.

The 7-pound NoteMaster measures 11 inches by two inches by 8.5 inches (W x H x D) and utilizes Intel's 32-bit 16-megahertz 80386SX microprocessor. Standard features include a 20-megabyte hard-disk drive and LapLink(R) III software from Traveling Software(R) Inc. of Bothell, Wash. In addition, a new chip set from CHIPS and Technologies Inc., of San Jose, offers users a near-photographic quality VGA graphics display.

Scalable Smart Sleep is a proprietary Samsung feature in which the CPU monitors screen activity as well as keyboard activity. This allows the CPU to complete processing tasks that do not involve the keyboard before going into the sleep mode, eliminating the need to constantly touch the keys in order to prevent the sleep mode from activating. Other sleep mode schemes only monitor the keyboard so users have to constantly touch a key to prevent the computer from going into the sleep mode. Scalable Smart Sleep is completely scalable by the user, so it can be adjusted to match the requirements of an application or the skill level of a user. Users who manipulate large amounts of data or graphics will find the Smart Sleep feature particularly beneficial.

With the advances of the CHIPS and Technologies, Inc. chip set, the display has been enhanced to make graphical programs easier to use. For example, the cursor stays visible when a mouse is used, so the user can easily track its movements across the screen.

Samsung Information Systems America, Headquartered in San Jose, Calif., markets personal computers, local-area network (LAN) hardware systems, portable computers and monochrome and color monitors. Samsung markets its

products through reseller and distribution channels in North America. The company has regional offices in Saddlebrook, N.J.; Fullerton, Calif.; and Atlanta. The Samsung customer support number is 800-446-0262. Product literature is available by calling 800-624-8999, ext. 851.

Samsung Electronics Company (SEC) Ltd., the Seoul Korea parent company of Samsung Information Systems America, is a "sands to systems" manufacturer of electronic products ranging from telecommunications devices to computer systems and peripherals. Since 1981, SEC has sold nine million computer products, including eight million monitors. Both Samsung Information Systems America and SEC are part of Samsung Group, based in Seoul, Korea, a $35 billion international company focusing on the electronics, chemical, food processing, textiles, information, service and trade industries. In 1990, Fortune magazine ranked Samsung Group the 20th-largest company in the world.

#90309p3233 11/05/1990 ~PR Newswire

SAN JOSE, CA (NOV. 5) PR NEWSWIRE - Samsung Information Systems America today introduced three computer products for business and technical users who require high performance at affordable prices.

The SystemMaster 486/25TE and SystemMaster 386/33T are tower systems designed for use as high-performance workstations or file servers. The PowerMaster 386/25 is a desktop computer designed to function as a stand-alone system, networked workstation, or low-cost file server.

SystemMaster 486/25TE The SystemMaster 486/25TE is Samsung's first high-end 80486-based EISA system. The speed and processing power of the SystemMaster 486 make it ideal for use with applications such as imaging, computer-aided design and computer-aided software engineering. The system has also been designed to function as a high-performance file server, capable of supporting Novell NetWare and Xenix.

Standard features include 4-megabytes of RAM, second-level cache, a 5.25-inch 1.2-megabyte floppy-disk drive, a 3.5-inch 1.44-megabyte floppy-disk drive, eight EISA-compatible 32-bit expansion slots, two serial ports, one parallel port and a mouse port. The floor-standing tower-type SystemMaster 486/25TE will run under MS-DOS 3.3 and subsequent versions of MS-DOS, OS/2, Novell NetWare, UNIX and Xenix. There are five half-height drive bays for storage expansion.

SystemMaster 386/33T The SystemMaster 386/33T, like the SystemMaster 486/25TE, is suited for use as a file server on a network or for other high-end

applications. The 33-megahertz 80386-based system includes the following standard features: 4-megabytes of RAM, 64-kilobyte cache, a 5.25-inch 1.2-megabyte floppy-disk drive, a 3.5-inch 1.44-megabyte floppy-disk drive, a 275-watt power supply and 101-key keyboard. The system also has five half-height drive bays for storage expansion.

PowerMaster 386/25 The PowerMaster 386/25 is the second generation of Samsung's 80386- based workstation line. Its features include 2-megabytes of RAM, 64- kilobyte cache, eight expansion slots, two serial ports, one parallel port and three additional drive bays for additional data storage. The PowerMaster 386/25 will run under MS-DOS 3.3 and subsequent versions of MS-DOS.

Samsung Information Systems America, headquartered in San Jose, markets personal computers, local-area network (LAN) hardware systems, portable computers, and monochrome and color monitors. Samsung markets its products through reseller and distribution channels in North America. The company has regional offices in Saddlebrook, N.J.; Fullerton, Calif.; and Atlanta. The Samsung customer support number is 800-446-0262. Product literature is available by calling 800-624-8999, ext. 851.

#90309p3234 11/05/1990 ~PR Newswire

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - The NWNL Companies, Inc. (NASDAQ: NWNL) today reported third quarter net income of $12.1 million, or 97 cents per share, a decline of 12 percent from $1.10 per share in the third quarter of 1989, when net income was $14.2 million.

Year-to-date net income for the first nine months of 1990 was $37.0 million compared with $38.9 million the previous year. On a per share basis, nine-month earnings were $2.95, a decline of 2 percent from $3.01 per share in 1989.

NWNL Chairman and Chief Executive Officer John E. Pearson said, "Although third quarter operating earnings are somewhat lower than they were at this time last year, we feel that they are quite strong, given our operating environment, and within the range of analysts' expectations. Problem commercial mortgages, which have received some scrutiny recently, are unchanged from year end as measured by the industry definition. Additions to commercial mortgage reserves in the third quarter were significantly lower than in the second quarter and moderately higher than 1989 levels."

"Indeed," he continued, "These results demonstrate that our business mix is sufficiently diversified that when economic conditions become difficult for

one aspect of our business, favorable results from other areas provide stable operating results."

John G. Turner, president and chief operating officer, noted, "Of our two broad categories of businesses -- those that manage insurance risk and those that manage interest rate spreads -- the operations that base their profitability on managing insurance risk demonstrated the better performance during the quarter."

Of these businesses, group insurance earnings through the end of the third quarter were more than 50 percent higher than in 1989, based mainly on the strength of the group health insurance operations. The company's two reinsurance operations also contributed significantly to results.

Earnings year-to-date in individual life insurance and annuities were down compared with the previous year, largely due to narrowing spreads and investment losses. However, noted Turner, "During the third quarter there were several indicators of strength in NWNL's individual insurance operations." These included:

-- Increased sales of individual life insurance and annuities; -- Improved persistency of policies sold; and -- Successful recruiting and retention of agents. "That these are difficult times in the financial services industry is obvious enough," concluded Pearson. "But we are confident that we are well prepared and well structured to manage successfully within such an environment."

The book value of NWNL common stock has risen to $40.78 per share as of the end of the third quarter. At the end of 1989, it was $38.70.

NWNL's common stock, which currently trades on the national over-the-counter market, has been approved for trading on the New York Stock Exchange under the symbol NWN, effective Nov. 12, 1990.

The NWNL Companies, Inc. is a Minneapolis-based diversified holding company specializing in insurance and financial services.

SAN JOSE, CA (NOV. 5) PR NEWSWIRE - Samsung Information Systems America announced today it will provide a six-month on-site warranty for both its file server products and the third-party hardware used with them. The company will also offer users a 50 percent discount on a comprehensive NetWare service and support program.

The new hardware warranty, offered in conjunction with Intelogic Trace (NYSE: IT), one of the nation's largest service and support companies, is provided in addition to Samsung's standard one-year product warranty. Valued at $350, it

covers additional hardware, such as network interface cards, added to Samsung file servers at the time of purchase.

In addition to the new warranty, Samsung and IT have launched a special promotion of IT's LAN Support Program, a NetWare service and support program that covers numerous hardware and software products from major third-party NetWare vendors. Users that purchase a Samsung file server will receive a discount coupon worth $1,250 toward the purchase of one year of LAN Support Program service. The service has a suggested list price of $2,495.

Samsung's new six-month warranty covers various hardware products added to a newly purchased Samsung 386AE or 386A3 file server. For example, a network interface card or a video display card from manufacturers such as Novell, Seagate, Paradise and Western Digital would be covered under the warranty. New and existing workstations, printers, monitors and other devices can be added to the warranty for a nominal charge. IT provides a list of pre-approved manufacturers and products that qualify for the warranty.

Samsung's 16-megahertz 386AE file server has a suggested retail price of $3,699. The 33-megahertz 386A3 file server has a suggested retail price of $5,999. Both products are sold through key North American distributors.

The LAN Support Program, IT's comprehensive NetWare service and support program, is offered within a 50-mile radius of most U.S. metropolitan areas. The service includes:

-- Four-hour on-site response -- Certified NetWare engineers and technicians -- NetWare software support -- Day and night toll-free hotline (7 a.m. to 7 p.m. Central Standard Time)

Under the LAN Support Program promotion, Samsung file server users will receive a coupon entitling them to a 50 percent discount on one year of LAN Support Program service. The coupon is redeemable up to 30 days after the purchase of a Samsung file server. The promotion will run through June 1991.

Intelogic Trace, headquartered in San Antonio, Texas, has provided a service and support program for Samsung's products since July 1989. Through more than 200 nationwide field service locations, IT can quickly respond to inquiries from customers. The company's Customer Support Center handles calls for service 24 hours a day, 365 days a year.

IT is one of the nation's largest independent organizations for end users, manufacturers and resellers of computer and telecommunications equipment. The company specializes in equipment maintenance, sales leasing and technical support.

Samsung Information Systems America, headquartered in San Jose, markets local-area network (LAN) hardware systems, personal computers, portable

computers and monochrome and color monitors. Samsung markets its products through reseller and distribution channels in North America. Samsung has regional sales offices in Atlanta; Morris Plains, N.J.; and Fullerton, Calif. The Samsung customer support number is 800-446-0262. Product literature is available by calling 800-624-8999, ext. 851.

WHITE PLAINS, NY (NOV. 5) PR WIRE - A&W Brands, Inc. (NASDAQ: SODA) announced that it has commenced today a tender offer for any and all of its outstanding 12-3/4 percent subordinated notes due 1996 (the "notes"). The company is offering to repurchase any and all of the notes at a price of $105.50 for each $100 principal amount of each tendered note. The company will also pay accrued, but unpaid, interest on the notes up to, but not including, the date of payment to each tendering noteholder. In connection with this offer, each tendering noteholder is required to deliver a consent to the deletion of certain restrictive covenants and other provisions from the indenture governing the issuance of the notes. The terms of this offer are described in the offer to purchase and solicitation of consent and the procedure for tendering notes is described in the letter of transmittal and consent, each of which are being distributed today to registered noteholders.

M.L. Lowenkron, president and chief executive officer of the company, believes the repurchase of the company's long-term subordinated debt will enhance the company's financial condition and will better position it to pursue future investment opportunities which may arise. Lowenkron also concluded that the offer provided noteholders with an attractive opportunity to realize a premium on their investment in the company.

The agent for the company on this tender offer is The First National Bank of Boston, contact: Davis Young or Tracy Meyer, 617-575-2166. This offer will expire at 4 p.m., New York time, on Dec. 5, 1990, unless extended by the company in its sole discretion.

A&W Brands, Inc., headquartered in White Plains, markets nine soft drinks in five flavor categories. The brands include A&W Root Beer, diet A&W Root Beer, A&W Cream Soda, A&W diet Cream Soda, Squirt, Diet Squirt, Vernors, diet Vernors and Country Time Lemonade in ready-to- drink form.

DENVER (NOV. 5) PR NEWSWIRE - Stone & Webster Engineering Corporation has been awarded a $12.5 million contract by the City and County of Denver for quality assurance construction inspection services at the new Denver International Airport. The contract is one of the largest issued to date as part of the new airport project.

Stone & Webster will be responsible for the development and implementation of a comprehensive inspection and monitoring program for the terminal complex area, which includes the terminal buildings, concourses, Automated Ground Transportation System (AGTS), AGTS/baggage tunnel structure, central heating plant and parking and road structures. The company's contract is part of the city's Quality Assurance (QA) Program, which assures that construction contractors are fulfilling the requirements set out in plans and specifications.

Construction of the $2.3 billion Denver International Airport will entail approximately 70 construction contracts, which will be awarded and completed over the next three to four years. Initial foundation and substructure construction work will commence in December.

Stone & Webster has committed to use Disadvantaged Business Enterprises (DBE) to accomplish 35 percent of the work. Stone & Webster's team includes several local DBE firms.

Stone & Webster Engineering Corporation, a subsidiary of Stone & Webster, Incorporated (NYSE: SW), provides engineering and construction services for civil works, electric power and industrial facilities around the world. Headquartered in Boston, the company has full-service offices in Denver, New York, Houston, Cherry Hill, N.J., and Fort Lauderdale, with affiliates in Canada and Milton Keynes in the United Kingdom. Stone & Webster's Denver office is staffed by nearly 1,000 engineers and other professionals. From Denver, the company provides engineering and construction services for clients throughout the West and Midwest.

PHILADELPHIA (NOV. 5) PR NEWSWIRE - Scott Paper Co. (NYSE: SPP) today announced that it and Feldmuhle AG formed a joint venture to own and operate Feldmuhle's sanitary tissue business.

Scott acquired a 51 percent interest in the venture and is entitled to obtain ownership of the remaining 49 percent in three years. Scott paid Feldmuhle approximately $130 million and is obligated to pay Feldmuhle an approximately

equal amount, plus interest, in three years. Scott is responsible for operating the new company and will fully consolidate its financial results.

The joint venture will market consumer and commercial sanitary tissue products in the Federal Republic of Germany, the Netherlands, Belgium and France. The company manufactures its sanitary tissue products at two mills in Germany and one in the Netherlands and had 1989 sales of around $300 million.

Scott is Europe's largest tissue paper producer and marketer with 1989 sales of approximately $1.2 billion in the United Kingdom, France, Italy, Spain, Portugal and Belgium.

#90309p3247 11/05/1990 ~PR Newswire

ST. PAUL, MINN. (NOV. 5) PR NEWSWIRE - 3M (NYSE: MMM) is well- positioned to win in the competitive marketplace of the '90s, company executives today told investors in London, England.

M.J. Monteiro, executive vice president, International Operations, said 3M's strengths include a steady stream of new products, a strong presence in international markets, and a "relentless drive" to improve quality and productivity.

Monteiro noted that, in each of the past three years, 3M has generated more than 30 percent of its sales from new products -- products introduced within the previous five years. "And we intend do even better," he said.

"During the past five years, we've invested nearly $3.3 billion in research and development," Monteiro said. "Much of that investment was not for immediate product development, but for building technologies for our future. In the '90s, we'll be harvesting the fruits of that investment."

One of 3M's big pushes is to get products to market faster. "We want to cut by 50 percent the time it takes us to commercialize a technology," Monteiro told investors.

In international markets, which now account for 48 percent of worldwide 3M sales, the company expects to sustain double-digit unit- volume growth over the next three to five years.

Monteiro noted that 3M has a lot of room to grow overseas because its market penetration there is considerably lower than in the United States. He said the company also has a lot of strengths overseas. These include 19 companies in Europe and 13 in the fast-growing Asia-Pacific region. To capitalize on

overseas growth opportunities, 3M has significantly expanded its technical, manufacturing and marketing activities.

On the quality front, 3M is adopting the criteria for the Malcolm Baldrige quality awards "to focus everything we do on satisfying our customers," Monteiro said.

Roger W. Roberts, senior vice president, Finance, discussed a new set of 3M productivity goals, which are aimed at sustaining the company's record of solid profitability. These goals include a 10 percent real reduction in unit manufacturing costs, a 35 percent reduction in waste and a 20 percent reduction in energy consumption by 1995.

#90309p3250 11/05/1990 ~PR Newswire

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - Country Lake Foods Inc. (NASDAQ:CLFI) today reported record net sales of $52,871,000 for the three months ended Sept. 30, 1990, an increase of 35 percent over last year's $39,060,000. After a charge of $750,000 for costs in connection with the previously announced restructuring of the company's ice cream business, net earnings were $462,000, equal to 10 cents per share, compared with $1,221,000, or 28 cents per share, in last year's third quarter.

Sales gains resulted mainly from the acquisition of Superior-Dairy Fresh Milk Co., which became part of Country Lake on June 1, 1990, and higher selling prices for products.

Thomas N. Packard, president of Country Lake Foods, said that while raw milk prices remain at historically high levels, the company's margins have recovered from the effects of last year's steep price increases. He said milk prices began to decline in the fourth quarter and should continue to decline during the first half of 1991.

"The consolidation of our two Twin Cities dairies at our Woodbury, Minn., facility is proceeding as planned and will result in significant savings over the long term," Packard said. "But, as expected, the cost of this consolidation has had a negative impact on our earnings."

For the nine months, net sales were $138,548,000, a gain of 21.5 percent from last year's $114,050,000. Net earnings were $1,872,000, equal to 42 cents per share, compared with $2,655,000, or 60 cents per share, in 1989.

Headquartered in Minneapolis, Country Lake produces and distributes fresh packaged milk, ice cream, other dairy products and fruit juices in a six-state Midwest region.

WOODLAND HILLS, CALIF. (NOV. 5) PR NEWSWIRE - Perceptronics Inc. (NASDAQ: PERC) reported higher than anticipated operating results for its second fiscal quarter, although income and revenues were below the comparable prior year period.

For the three months ended Sept. 30, 1990, net income amounted to $104,099, equal to $.03 per share, on revenues of $4,731,479. The company earned $378,110, or $.11 per share, on revenues of $7,404,435 in the second quarter a year ago. Net income for the current quarter includes an extraordinary credit of $42,800, equal to $.01 per share, compared with $164,900, or $.05 per share last year, reflecting utilization of net operating loss carryforwards.

For the six months ended Sept. 30, 1990, Perceptronics' net income totalled $253,638, equal to $.07 per share, on revenues of $10,903,988. In the prior year's first half, net income amounted to $491,706, or $.14 per share, on revenues of $14,135,907. Of the current first half net income, $104,300, equal to $.03 per share, represents utilization of a net operating loss carryforward, compared with $205,400, or $.06 per share, a year ago.

"Results for the second quarter reflect the winding down of activities on the company's SIMNET contract," said Gershon Weltman, Perceptronics' chairman and chief executive officer. "We are pleased that despite this period of decreased revenues, Perceptronics was able to achieve profitable operations for the quarter while at the same time making a sizeable increase in new product development efforts."

Weltman noted that the company's firm contract backlog at Sept. 30, 1990, increased to $18.3 million from $15.2 million at March 31, 1990, the close of the prior fiscal year. A current options backlog of $24.5 million brings total backlog to $42.8 million at Sept. 30, 1990, compared with total backlog at fiscal year end of $44.8 million.

Perceptronics is engaged in research and system development -- primarily for the Department of Defense -- and in the manufacture and marketing of low-cost, intelligent computer-based systems for training, simulation and decision support.

ANAHEIM, CALIF. (NOV. 5) PR NEWSWIRE - Thomas R. Anderson, formerly vice president of finance and chief financial officer for Cipher Data Products, has joined Distributed Logic Corp. (DILOG) (NASDAQ: DLOG) here as senior vice president and chief financial officer.

In his new post, Anderson is responsible for the company's global financial operations, including all activities in the United States, Canada, the United Kingdom and Switzerland. He reports directly to Glenn C. Salley, chairman and chief executive officer.

"We are extremely pleased to have someone of Ted Anderson's caliber become an integral part of our management team," Salley said. "He brings with him the financial experience and business judgment needed for this important position, as well as a demonstrated ability to work effectively in a team environment."

Before joining DILOG, Anderson held major financial management positions with both technology and financial companies. He was vice president and chief financial officer as well as corporate treasurer and assistant secretary for Cipher Data Products in San Diego for eight years. Prior to that, he worked for Dataproducts Corporation for five years, as divisional controller in San Jose, Calif., and internal audit manager in Woodland Hills, Calif. He earlier worked for Rockwell International for four years, as a senior internal auditor in Dallas and as assistant business segment controller for the Power Tool Division, in Memphis, Tenn. He began his career with Arthur Anderson & Company in Chicago as a senior auditor.

Anderson holds both a bachelor of arts degree in accounting and a masters of business administration degree from Michigan State University. He presently resides with his wife and daughter in Del Mar, Calif.

DILOG, headquartered in Anaheim, is a leading supplier of mass data storage, communications and other peripherals systems for use with computers made by Digital Equipment Corp., Sun Microsystems Inc., and IBM.

#90309p3258 11/05/1990 ~PR Newswire

NEW YORK (NOV. 5) PR NEWSWIRE - American diamond merchants exporting loose cut diamonds are headed for another banner year, according to data from their American Diamond Industry Association. But caution continues to prevail among American importers of cut-but- not-set diamonds, reflecting both an overall slowdown in the American economy and a general "hold" on inventories relative to sales, the ADIA reports.

"Foreign demand for loose American-cut diamonds has continued at a high level this year. Japan reports an increase of some 15.2 percent in yen in imports of polished diamonds from the United States," ADIA Chairman Lloyd Jaffe said.

Through August 1990, the first eight months of the year and a period for which the most recent aggregate export data is available, U.S. diamond merchants shipped some 647,000 carats of loose, cut diamonds valued at $947.4 million, overseas.

By value, the eight-month 1990 exports are 28.4 percent ahead of exports in the same 1989 period. "At the present pace," Jaffe explained, "we will hit the $1 billion level for the second year in a row. This will set a new record of back-to-back billion dollar years for the industry," Jaffe added.

Though the number of carats exported is indeed up, the number imported has declined. The average price for these imported loose, cut diamonds, however, has been rising, the ADIA notes, in part reflecting the desire for larger, better stones.

ADIA data for the first eight months of 1990 show that American diamond merchants imported loose polished diamonds totalling 4.1 million carats valued at $2.2 billion as compared to 6.2 million carats valued at nearly $2.57 billion during the same eight month period last year. "Though American merchants have cut back on their aggregate imports of cut-but-not-set diamonds " said Jaffe, "they are paying higher average per carat prices for them."

LOS ANGELES (NOV. 5) PR NEWSWIRE - Western Waste Industries (NASDAQ: WWIN) today announced that net income increased to $2,857,000 for the first quarter ended Sept. 30, 1990, up 39 percent from $2,058,000 in the prior year's first quarter. Earnings per share were $.21 compared with $.19 in the corresponding year-earlier period. Revenue advanced 24 percent to $51,071,000 from $41,333,000 in the same period a year ago.

"We are certainly pleased with the gains achieved in the first quarter, although we believe improvement can be made in operating margins over subsequent periods," said Kosti Shirvanian, president and chief executive officer. "Recent world events have affected many companies, including ours, and resulted in escalating fuel and other costs. We are working to offset these cost increases through cost control measures and price increases.

"Our recent addition of 15 new franchise agreements will generate immediate benefits. Our 82 total franchise agreements provide a stable and long term revenue stream," Shirvanian further stated.

"We should continue to see increased revenue from our landfills operations in

the future, as we did in the first quarter. This area of our business will expand with the opening later this fiscal year of new landfills recently acquired in Baton Rogue, La. and New Boston, Texas. These landfills will be augmented by additional sites as we continue our aggressive development program," he added.

Western Waste is a leading integrated waste management company, providing collection services, landfill, transfer station and recycling operations for commercial, industrial and residential customers. The company has operations in California, Texas, Arkansas, Louisiana, Florida, Colorado and Arizona. The company reported revenue of $172 million and net income of $9.7 million for its fiscal year ended June 30, 1990.

#90309p3268 11/05/1990 ~PR Newswire

HAUPPAUGE, N.Y. (NOV. 5) PR NEWSWIRE - The board of directors of Knogo Corporation (NYSE: KNO), a multi-national company now celebrating its 25th anniversary as the standard in loss prevention industry, today announced several promotions.

Arthur J. Minasy, founder of the company (and of the global Electronic Article

Surveillance industry), and holder of many patents in Loss Prevention technologies, has been named chairman of the board. He will retain his responsibilities as chief executive officer.

Succeeding Minasy as president and chief operating officer of Knogo Corporation, is Thomas A. Nicolette, who had been president of Knogo North America.

Willard C. (Bill) Nix Jr. has been appointed president of Knogo North America. Nix joined the company in May as senior vice president.

According to Minasy, "These changes have been designed to capitalize on growth Knogo has already experienced, and to help us reach our strategic long range plan. The board has given us both a vote of confidence, and a mandate to be even more responsive to customers and shareholders."

Knogo's latest financial statement, issued Oct. 10, reported a 29 percent increase in revenues for the second quarter of fiscal 1991. For the six months ended Aug. 31, 1990, revenues increased to $35,917,000, up from $32,329,000 in the comparable period of the previous year. Backlog, at an all-time high, is expected to be translated into revenues during the balance of this fiscal year.

Since 1966, Knogo has been the world's technological leader in the design and manufacture of anti-theft systems for retailers. Increasing white collar crime is expanding Knogo's potential marketplace. Its recent thrust is applying its 25 years of experience to protecting business assets.

Knogo Corporation has subsidiaries in more than 20 countries, plus manufacturing facilities in New York, Puerto Rico, Belgium and Brazil.

Knogo's Radio Frequency and Micro-Magnetic technologies, its Surveillor Closed Circuit Video Systems and its new KnoGlo Dye-Release systems, offer end-users loss prevention products for many new applications. The company's value-added philosophy allows it to solve any problem as it is presented, without being limited to supplying only mass-produced systems.

TROY, MICH. (NOV. 5) PR NEWSWIRE - Kmart Corporation (NYSE: KM) today announced the appointment of George R. Mrkonic Jr. to executive vice president specialty retailing.

Kmart's specialty retail divisions include Builders Square, Inc., PACE Membership Warehouse, Inc., Pay Less Drug Stores Northwest, Inc., The Sports Authority and Walden Book Company, Inc. They consist of approximately 1,800

stores and generate sales of approximately $7 billion.

In this new position, Mrkonic, 38, will initially be responsible for Pay Less Drug Stores and Waldenbooks. He will report directly to Joseph E. Antonini, Kmart chairman of the board and chief executive officer. These subsidiaries previously reported directly to Antonini.

Upon the retirement of Larry M. Parkin, Kmart's executive vice president, warehouse and grocery operations, at year-end (January 1991), Mrkonic will also assume the responsibility for Builders Square, PACE Membership Warehouse and The Sports Authority.

"George Mrkonic's past experience in strategic and financial planning, as well as in retail operations, plus his demonstrated leadership skills as a results-oriented senior retailing executive, will make him a great asset to our growing specialty businesses," said Antonini.

Mrkonic has most recently been president of Eyelab, Inc., a subsidiary of Cole National Corporation. Mrkonic was part of a management shareholder group at Cole National which recently sold Eyelab to Pearle, Inc. Prior to his Eyelab employment, he was president and chief executive officer of Herman's Sporting Goods, Inc. after having served in various executive capacities in the W.R. Grace Company.

Mrkonic has B.A. and M.A. degrees in economics from Stanford University and an M.B.A. from the Harvard Graduate School of Business Administration. He is a native of Shawnee Mission, Kan., and currently lives in Chatham, N.J.

Kmart Corporation serves America with over 4,000 retail outlets in all 50 states in the United States and in Puerto Rico and Canada. Kmart currently operates 2,330 Kmart stores in addition to its specialty operations.

PHILADELPHIA (NOV. 5) PR NEWSWIRE - ATOCHEM North America today announced it has completed the sale of its Thorofare, N.J., polyvinylidene fluoride (PVDF) plant to Ausimont U.S.A. Inc., for an undisclosed sum, effective Oct. 31, 1990.

At the same time, ATOCHEM North America announced the purchase of an organic peroxides facility in Spinetta, Italy, belonging to Ausimont. This purchase will complement ATOCHEM's existing organic peroxides businesses, which operate facilities in Germany, France and England, as well as Crosby, Texas, and Geneseo, N.Y. ATOCHEM will also continue to produce PVDF at its two plants in Calvert City, Ky., and Pierre-Benite, France.

ATOCHEM North America Inc. a $1.5 billion diversified chemicals manufacturer headquartered in Philadelphia, was formed Dec. 31, 1989, as the result of the merger of ATOCHEM Inc., M&T Chemicals Inc. and Pennwalt Corp. ATOCHEM North America is an affiliate of ATOCHEM S.A., a $10 billion chemicals manufacturer, which is part of the ELF Group headquartered in Paris.

ATLANTA (NOV. 5) PR NEWSWIRE - Delta Air Lines (NYSE: DAL) today announced plans to expand service to Japan with flights to Tokyo through its new Los Angeles gateway beginning Feb. 6, and on Feb. 7, the airline introduces new Portland, Ore., to Nagoya, Japan, flights.

Delta has selected the Tokyo-Los Angeles flight which originates and ends in Orlando, Fla., to introduce its new MD-11 aircraft. This aircraft, the world's newest international airplane, features advances in aerodynamics, propulsion, aircraft systems, cockpit avionics and interior design.

Delta's new Tokyo service will depart Orlando at 8 a.m. departing Los Angeles at 12 noon, local time, and will arrive in Tokyo at 4:35 p.m. the following day. The return flight, effective Feb. 7, 1991, will leave Tokyo at 6:35 p.m. arriving Los Angeles at 11:10 a.m. the same day and arriving in Orlando at 8:31 p.m. The Los Angeles-Tokyo segment does not operate on Tuesdays and the Tokyo-Los Angeles segment does not operate on Wednesdays.

Delta's Nagoya service will leave Los Angeles on Feb. 7, 1991, at 9:05 a.m., departing Portland at 1 p.m. and arriving in Nagoya at 4:40 p.m. the next day. The return schedule will depart Nagoya at 6:35 p.m., arriving Portland at 10:05 a.m. the same day and arriving in Los Angeles at 2:40 p.m. These schedules will be operated with L-1011-500 aircraft with economy and business class as well as sleeper seats in first class.

The flight schedules are subject to government approval and may change slightly prior to the inauguration dates.

Nagoya joins Tokyo, Seoul, Taipei and Bangkok as the fifth Asian destination served by Delta. Los Angeles becomes Delta's second Pacific gateway. The airline now serves 27 international cities throughout the world. Delta currently serves nine cities in Europe, as well as cities in Canada, Mexico, the Bahamas and Bermuda.

CINCINNATI (NOV. 5) PR NEWSWIRE - Eagle-Picher Industries (NYSE: EPI) today announced that negotiations between the company and attorneys appointed by Federal Judge Jack B. Weinstein of the Eastern and Southern Districts of New York to represent present and future claimants who allege injury from exposure to an asbestos-containing Eagle-Picher insulation product have reached a stage where it is expected that a settlement could be reached within the next 30

days.

Pending further negotiations toward that end, in a order issued on Nov. 3, 1990, Eagle-Picher was ordered by the court:

1) Except as noted in paragraph (3) below, to make no payments for asbestos personal injury or wrongful death claims heretofore settled and unpaid and to make no payments for such claims settled hereafter.

2) To make no payments for judgments heretofore entered in asbestos cases.

Other terms of the order provide that: 1) Eagle-Picher is permitted to make payments for asbestos claims involving extreme hardship and exigent health conditions previously settled and to pay such claims settled between the date of this order and Dec. 2, 1990.

2) Eagle-Picher is permitted to pay its expenses, disbursements, legal fees of attorneys, the fees of the Special Settlement Master, operating expenses including staff salaries and all other expenses and disbursements related to the operation of its business.

3) Execution or other enforcement of judgments against Eagle- Picher and/or its assets and any other effort to collect upon such judgments for asbestos claims for injury or death by whatever means or remedies, including judicial process or nonjudicial means, and the obtaining or enforcement of provisional remedies against Eagle-Picher or its assets is hereby stayed.

4) No court or person is stayed from proceeding with trial or any other proceedings or from negotiating settlements or, except as provided herein, from taking any action in connection with cases or claims pending or hereafter commenced.

Thomas E. Petry, Eagle-Picher chairman, said, "The company is pleased that a settlement appears to be imminent and we anticipate that once a settlement is reached, Judge Weinstein will certify the class that we requested pursuant to Rule 23(b) (1) (B) of the Federal Rules of Civil Procedure. If the class is certified, it will consolidate all personal injury litigation against Eagle-Picher in the class action proceeding. Following certification the company expects that the judge would hold a hearing or hearings to receive comments on the settlement from all interested parties."

Weinstein's order will expire on Dec. 2, 1990 unless earlier terminated.

WASHINGTON (NOV. 5) PR NEWSWIRE - British Telecom (NYSE: BTY) and MCI Communications Corporation (NASDAQ-NMS: MCIC) have agreed to plan to build a new transatlantic, high-capacity fiber optic cable to go into service during 1993 to help relieve current telecommunications capacity shortages.

The cable, presently called TAT-X, is expected to be the largest undersea cable ever constructed. It will link North America with Europe and could operate at a transmission rate as high as 2.4 gigabits per second with the capability of handling the equivalent of 150,000 simultaneous phone calls per fiber pair.

MCI and British Telecom are planning to utilize synchronous optical transmission equipment which is designed to provide sophisticated management capabilities including centralized control of circuit provisioning, maintenance testing and cable restoration.

The two companies are inviting other international telecommunications carriers to participate in the planning, construction and operation of the new cable.

"This is the first time that MCI initiated the planning of a transatlantic cable that will be built, operated and owned by a consortium of common carriers," Bert C. Roberts Jr., MCI's president and chief executive officer, said in announcing the new cable plan. "It is a step towards providing an integrated network of mutually supportive cables across the North Atlantic. We foresee cooperation and participation from all of the foreign telecommunications administrations in Europe and also carriers in the United States."

TAT-X will meet the growing demand for high quality international communications and also will provide restoration for other cables in case of service interruptions. TAT-9, the next Atlantic cable, is not expected to be operational until 1991.

British Telecommunications plc, generally known as British Telecom, is a leading world player in telecommunications. It operates one of the largest networks in the world and offers a wide range of international services. British Telcom has annual revenues of over $20 billion and employs 240,000 staff in 30 countries.

MCI Communications Corporation, with 1989 revenue of $6.5 billion, is one of the world's largest telecom companies with offices in 50 countries worldwide. Headquartered in Washington, MCI offers a full range of domestic and international communications services for residential, government and business users. International services include worldwide direct dialing, telex, facsimile, electronic mail, private voice and data networks and television transmission.

DURHAM, NC (NOV. 5) PR NEWSWIRE - Home Savings and Loan Association, Inc. (NASDAQ-NMS: HSLD), Durham, North Carolina, today reported that net income for the quarter ended September 30, 1990 was $715,353, or $.42 per share compared with $735,938 or $.43 per share for the fourth fiscal quarter in 1989. For the fiscal year ended September 30, 1990, net income was $2,440,402, or $1.44 per share as compared to $3,074,719 or $1.81 per share.

The decline in net income for the quarter was attributable to an increase in expenses associated wtih the pending merger with BB&T Financial Corporation (NASDAQ-NMS: BBTF). The drop in net income for the fiscal year was attributable mostly to an increase in reserves for possible loan losses and a $570,000 increase in the loss reserve on bonds owned by the Association that are secured by pools of mobile home loans issued by a Conner Corporation subsidiary. Return on average assets for the year was 1.01 percent and the return on average equity was 7.82 percent. Total assets at September 30, 1990 were $240.4 million and total shareholders' equity was $31.8 million.

C. Darrell DeLoatche, President and CEO of Home Savings, commented, "Excluding the loss provision on the Conner bonds and merger-related expenses, net income for the year would have been approximately 6.3 percent below last year. Considering the sluggishness of the real estate market and the environment under which we have been operating, we are pleased with the operating results of the Association. Home Savings' level of profitability continues to far exceed the majority of its peers and it is one of the best capitalized thrifts in the nation."

Home Savings and Loan Association, Inc. is headquartered in Durham, N.C., with offices in Roxboro and Chapel Hill. The approximately 1.66 million shares of common stock outstanding are traded in the NASDAQ National Market System under the symbol HSLD. On April 30, 1990, Home Savings announced that it had entered into an Agreement and Plan of Reorganization to be acquired by BB&T Financial Corporation.

#90309p3284 11/05/1990 ~PR Newswire

NEW YORK (NOV. 5) PR NEWSWIRE - GTE Corp. (NYSE: GTE) and Contel Corp. (NYSE: CTC) today announced that they have set special shareholders' meetings of both companies for Tuesday, Dec. 11, at 10 a.m. EST to vote on the merger of the two companies. Proxy materials will be mailed to shareholders beginning today.

GTE will convene its meeting at the Italian Center in Stamford, Conn., and Contel shareholders will meet at the Manufacturer's Hanover Trust Company Building here.

At the meetings, GTE shareholders of record on Oct. 25, 1990, and Contel shareholders of record on Oct. 16, 1990, will be asked to consider and vote upon the proposed merger of the two companies whereby each holder of Contel common stock will receive 1.27 shares of GTE common stock in a tax-free exchange for each share held at the time of the merger. It will result in the largest U.S.-based telephone company and the second-largest mobile-cellular company.

In a letter to GTE shareholders included in the proxy statement, GTE Chairman and Chief Executive Officer James L. "Rocky" Johnson said, "GTE's board of directors and management believe that the proposed merger with Contel represents the perfect combination of two great companies.

"This combination offers GTE and its shareholders the opportunity to create a combined organization that will be a leader in the telecommunications industry particularly in the local-exchange and mobile-cellular businesses."

In a similar letter to Contel shareholders, Contel Chairman Charles Wohlstetter said the merger offers Contel and its shareholders many significant benefits among which is, "a tax-free exchange for shares in a company that will be financially stronger and more competitive and have greatly enhanced marketing and technological resources."

As previously announced, the merger is also subject to approvals by the Department of Justice, the Federal Communications Commission, as well as various state public utilities commissions. Both companies have made all the applications they deem are necessary to obtain these approvals and are confident that they will receive all necessary approvals.

Because of participation by third parties in California, the regulatory process will take longer than the companies originally anticipated. As a result, the companies expect that completion of the merger could occur as late as the second quarter of 1991.

CONTACT: Tony Hamilton, (203) 965-2853, or after 5 p.m., (203) 327-2162, or in Washington, Julia Spicer, (202) 463-526, or after 5 p.m., (202) 797-0715, both of GTE; or Brian Farley, (404) 391-8217, or after 5 p.m., (404) 872-3321, or Benjamin Parrish, (404) 391-8016, or after 5 p.m., (404) 458-8574, both of Contel.

NORMAL, ILL. (NOV. 5) PR NEWSWIRE - Lino J. Piedra, chairman of the board of directors of Diamond-Star Motors, has been appointed to the National Advisory Commission on Work-Based Learning, it was announced today. The appointment was made by Secretary of Labor Elizabeth Dole.

The 13-member commission, made up of business, education and labor leaders, will explore methods to improve and expand training and apprenticeship programs addressing the country's shrinking work force. A part of this study will include consideration of a voluntary system to accredit industrywide training programs.

In forming the commission, Dole explained, "America faces a work force crisis. Our workforce is growing at its slowest rate in 40 years and many of the skills of our current workers are obsolete, or soon will be obsolete, due to increased technology. If American business is to succeed in our complex global market, then we must find better ways of providing our working men and women with the skills needed for a lifetime of productive work."

"Training is a primary focus at Diamond-Star," noted Piedra. "We recognize that the quality of our products ultimately is a reflection of the superior skills and commitment of our employees. I look forward to the opportunity to participate with this distinguished group on a topic which is critical to the

future of business and the well-being of our country."

Prior to joining Diamond-Star Motors in 1989, Piedra had been with Chrysler for 21 years, serving in various international positions. Assignments took him to Argentina, Mexico, Spain, the United Kingdom, Venezuela, France and Japan where he was appointed to the board of directors of Mitsubishi Motors Corporation. Piedra is a frequent speaker to international business groups and students. In November, he will address a Washington symposium, "Work Force Quality: Perspectives from United States and Japan," co-sponsored by the U.S. Department of Labor and the Japanese Ministry of Labor. Diamond-Star Motors, located in Normal, Ill. is a 50-50 joint venture formed by Chrysler Corp. and Mitsubishi Motors Corp. The state-of-the- art facility produces the Plymouth Laser, Mitsubishi Eclipse and Mirage, and Eagle Talon and Summit.

RALEIGH, N.C. (NOV. 5) PR NEWSWIRE - Texfi Industries, Inc. (NYSE: TXF) announced today that as of Oct. 29, 1990 its board of directors authorized the repurchase of up to an additional 200,000 shares of its common stock.

Since first announcing its stock repurchase program on May 23, 1988, Texfi has repurchased 790,167 shares of its common stock, or 9.8 percent based upon the total issued and outstanding shares immediately prior to the commencement of this program.

L. Terrell Sovey, Jr., chairman and CEO of Texfi, said, "We believe Texfi's common shares continue to remain undervalued and constitute an excellent investment for the company. We consider the price of the stock to have been at depressed levels for some time and do not believe it properly reflects the true value of this company."

Texfi Industries, Inc. is the business of manufacturing and marketing various textiles and apparel products. Texfi's common stock, preferred stock, and debentures are traded on the New York Stock Exchange.

DEARBORN, MICH. (NOV. 5) PR NEWSWIRE - National TechTeam, Inc. (NASDAQ: TEAM)

today announced the renewal of its computer training contract with Ford Motor Company (NYSE: F) for one year.

This contract provides for automatic renewal for successive one-year periods unless Ford or TechTeam provides notice of non-renewal at least 30 days prior to the expiration of the contract. The new contract became effective Nov. 1, 1990, and will cover Ford's operations in the United States, Canada and Mexico. The contract also covers computer training at Ford subsidiaries throughout North America. The subsidiaries include United States Leasing International, Inc., Ford of Canada, Associates Bancorp, and First Nationwide Bank.

Prior to 1988, National TechTeam concentrated its activities in the Detroit area, providing computer training and computer manpower to large companies and institutions. With the commencement of the Ford contract in 1988, TechTeam embarked on a program to offer these services on a national basis and now has begun to operate in 15 cities. TechTeam has recently established training and support centers in Cleveland; Newport Beach, Calif; and Northern California in order to service the Ford account and other major national corporations. Management foresees ever-increasing needs for computer training and computer manpower as more and more companies contract for these outside services.

NEW YORK (NOV. 5) PR NEWSWIRE - At a time when many United States stock brokerage and financial services firms are downsizing their operations in New York City, Probursa, one of Mexico's leading firms, has opened an office in Manhattan, the result of the growing interest in the economy south of the border by U.S. investors.

According to Jose Madariaga, the chairman of Probursa who is also the chairman of the Mexican Stock Exchange, the improved Mexican economy, the proposed U.S.-Mexican free trade agreement, privatization of banks and other government owned entities and the surge in the manufacturing sector of the economy has resulted in more U.S.-based and worldwide institutional investment in Mexico.

"As Wall Street is feeling the effects of the sluggish United States economy, leading investors are looking elsewhere to place their investment dollars. Increasingly, they are turning to the Mexican market which is no longer depending on oil exports," said Madariaga. "We anticipate that as the Mexican government takes additional steps to boost our economy, the trend of foreign investment in our country will continue."

For Probursa, which was founded in 1973, the New York City office represents the company's first foray outside Mexico where it operates 25 retail stock

brokerage offices.

"Despite the growing money centers of London and Tokyo, Manhattan remains the world financial center and was our planned first stop in our goal of becoming a truly global firm," said Edgardo Mendoza, executive vice president and head of the international area for Probursa. Mendoza said his firm will focus on institutional investment opportunities in New York City.

"Our Manhattan-based staff will rely on the fine research and back-office capabilities of our Mexico City operations," he said. "However, we are making a sizable investment in New York City because we see unlimited potential in this market. We anticipate business opportunities to increase for both Mexico and the United States with the opening of the financial system in Mexico."

Probursa has named Jose Avalos managing director and head of operations of the New York City office. Before joining the firm, Avalos was a senior executive with Citibank in Mexico City for 11 years. He most recently was head of a world corporate banking group for Mexico, responsible for credit banking services for multinational companies based in that country.

"The U.S. investor has a tremendous interest in the Mexican market. Through our new office, we hope to provide them with the necessary research and recommendations to assure profitable decisions in Mexican or U.S. instruments. In addition, we plan to structure corporate finance deals such as private placements mainly for Mexican companies to tap the foreign capital markets or multinational companies to have access to Mexico either through direct investment or the Mexican Stock Exchange," said Avalos.

SLATE HILL, NY (NOV. 5) PR NEWSWIRE - Balchem Corporation (NASDAQ: BLCC) President Herb Weiss today issued the following statement:

We had a very good third quarter, fortunately without the sharp drop in sales we had in July a year ago. Our progress is shown in the following tables:

BALCHEM CORPORATION

(Unaudited, in thousands except per share)

Three months ended Sept. 30	1990	1989	Percent difference
Sales	$2,728	$2,282	20
Pre-tax profit	206	24	--
Taxes	78	8	--
Net income	128	16	+100
Earnings/share	$0.11	$0.013	+100

Nine months ended Sept. 30	1990	1989	Percent difference
Sales	$7,826	$6,901	13
Pre-tax profit	544	214	--
Taxes	211	87	--
Net income	333	127	+100
Earnings/share	$0.28	$0.11	+100

As noted in the previous report, the substantial increase in earnings on a much smaller increase in sales is not the result of a decrease in operating expenses. On the contrary, we are increasing personnel to handle both the increased sales and the increased opportunities.

To repeat, there are three reasons for these results: 1. Increased utilization of the Green Pond facility, which had been largely unused.

2. Most of the billing at Green Pond is on a "toll" basis, that is, the customer is billed only for a production fee since they provide the raw materials. If the billing were on the usual product basis, our sales would be higher.

3. The percentage of earnings increases rapidly as we exceed the breakeven point.

This is one of those rare times when everything seems to be progressing as planned. We continue to add accounts in all areas of our business. Good employment candidates are more readily available; we added two professionals this quarter. We are making progress with several prospects that represent significant volume at our present size. Advance orders for the fourth quarter are good and we do no expect any significant negative effect on earnings due to the international situation.

In addition, the following information was sent to the wire services on Oct. 31, 1990:

Balchem Corporation announced today that its board of directors on Friday, Oct. 19, 1990, had authorized a five for four split of common shares which provides for the issuance of one share of common stock for each four shares of stock held by a holder of record on Dec. 5, 1990, the additional shares to be delivered to the stockholders of Balchem Corporation on or about Dec. 28, 1990.

No fractional shares will be issued but in lieu thereof a cash payment will be made for the estimated value of the fractional interest. No gain or loss for federal income tax purposes will be realized with respect to the issuance of such additional shares except in respect of any fractional share interests for which cash payment is made.

Balchem Corporation's board of directors on that same date also declared a

cash dividend of $.04 per share on the pre-split shares, payable on Dec. 28, 1990 to holders of record as of Dec. 3, 1990.

RICHMOND, VA. (NOV. 5) PR NEWSWIRE - Heilig-Meyers Company (NYSE: HMY), the Richmond-based home furnishings retailer, today reported sales results for the month of October 1990. Net sales for the month rose approximately 7.5 percent to $25.8 million as compared to $24.0 million for October 1989. Sales in stores which were open for the comparable month in the prior year decreased approximately 2.3 percent.

Net sales for the eight-month period ended October 1990 increased approximately 16.6 percent to $241.6 million compared to $207.2 million for the same period last year. Sales in stores which were open for the comparable period in the prior year increased approximately 7.5 percent.

The Company also announced that on October 23 it completed the acquisition of certain assets of six furniture stores from Holthouse Furniture Corporation of Richmond, Indiana.

Heilig-Meyers Company, a Virginia corporation, presently operates 318 stores in 12 states.

MAHWAH, N.J. (NOV. 5) PR NEWSWIRE - Jaguar Cars Inc. today reported that total unit sales for October 1990 were 1,089 compared with 1,507 during October 1989, a 27.7 percent decrease.

Sedan retail sales for the month of October 1990 were 789 units versus 1,252 in the prior year's period. XJ-S sports coupe and convertible retail sales for the month were 300 compared with 255 units in the same period last year.

Total year-to-date sales stand at 15,180, a decrease of 1.4 percent over the 15,389 units sold in the same period in 1989.

Michael H. Dale, president of Jaguar Cars Inc. said: "We feel the drop in October sales was due in large part to public uncertainty over the tax proposals for 1991 plus the continuing volatile situation in the Middle East. We are still forecasting 1990 sales equal to 1989."

Jaguar Cars Inc. is the U.S. subsidiary of Jaguar Ltd.

LOWELL, MA (NOV. 5) PR NEWSWIRE - WLT Systems, Inc. today introduced the WLT AT333C-6, the most powerful member of its PC Express product line.

Built on a 33MHz Intel i386 microprocessor, the AT333C-6 is an ideal platform for single-user power applications, including CAD/CAM, scientific databases, and computing-intensive engineering applications. As a member of the PC Express product line, the AT333C-6 also features WLT Systems' industry-leading three-year free on-site warranty service.

"With the addition of this new system, we've expanded our product line to meet the needs of a wide range of customers, from the most sophisticated power user to the first-time PC buyer," said Robert C. Lerner, general manager of WLT Systems.

"Our objective is to offer the best PC product value in the industry," Lerner said. "To meet this goal, we provide quality products that are aggressively priced and backed up with our 30-day, money-back guarantee and three years of free on-site warranty service. Plus, we ship each PC preconfigured, so all the user has to do is to unpack it, plug it in, and switch it on."

The WLT AT333C-6 standard configuration includes a 33MHz, Intel i386 microprocessor in a 6-slot chassis, 4MB of memory, 64KB of cache memory, one parallel and two serial ports, a 1.2MB or 1.44MB diskette drive, a keyboard, and MS-DOS 4.01 or 3.30.10. Priced at $2,640 for the basic system and three years of free on-site warranty service, the AT333C-6 is available immediately.

Positioned at the high end of WLT Systems' PC Express line, the AT333C-6 supports up to 16MB of 32-bit dynamic RAM. The system achieves optimal performance with its true 32-bit architecture, 64KB of cache memory, and floating point capability. The 33MHz Intel 80387 or Weitek 3167 math coprocessor can be added for extra processing power. The AT333C-6 is fully compatible with MS-DOS, OS/2, SCO(tm), XENIX and UNIX(R).

The system can be configured with a variety of high-performance IDE (Integrated Drive Electronics) hard disk drives, giving users a choice of storage volume and speed depending on the application.

WLT Systems, Inc., a wholly owned direct-response subsidiary of Wang Laboratories Inc. (AMEX: WAN), sells, services and supports WLT PC Express products in the United States. The company is headquartered in Lowell, Mass.,

with assembly and distribution facilities in Torrance, Calif. SCO is a trademark of The Santa Cruz Operation, Inc. UNIX is a registered trademark of AT&T.

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - North Star Universal, Inc. (NASDAQ: NSRU) today announced results for the third-quarter and nine-month periods ended Sept. 30, 1990. The company also said it has completed the sale of Universal/Dura-Mark Companies, Inc., and Graphics Unlimited, Inc. As a result of the sales transactions, the company has reduced its outstanding borrowings on its revolving line of credit to approximately $11.5 million as of Nov. 2, 1990.

For the third-quarter, income from continuing operations was $2.2 million, or 22 cents per share, compared with a loss of $64,000, or 1 cent per share, in 1989. Net income increased 441 percent to $2.0 million, or 20 cents per share versus $458,000, or 4 cents per share, reported last year. Third-quarter revenue grew 67 percent to $138.5 million from $82.9 million in 1989.

For the nine-month period, net income totaled $4.4 million, or 43 cents per share, compared with a loss of $833,000, or 11 cents per share, last year. Nine-month and third-quarter results for 1990 include investment income of $2.1 million, or 21 cents per share, from the sale of 315,000 shares of Michael Foods, the company's majority owned food processing and distribution company. Revenues for the first nine months of the year increased 85 percent to $418.5 million from $226.5 million in 1989.

In commenting on the results, President and CEO Miles E. Efron indicated that results for the quarter benefited from record earnings at Michael Foods, which experienced strong sales and earnings in all divisions. Efron went on to say, "Overall, North Star's non-food businesses continued their strong performance during the third quarter; revenues increased 50 percent while operating profits were relatively stable between years."

North Star Universal, Inc. owns and supervises the management of businesses engaged in computer cabling and related services, health care services, and other industries. As a parent company, North Star Universal provides resources for the companies' development and growth. North Star Universal also owns a 50.9 percent majority interest in Michael Foods, Inc. (NASDAQ: MIKL).

WILMINGTON, CALIF. (NOV. 5) PR NEWSWIRE - Vector Aeromotive Corporation (NASDAQ: VCAR) announced today that the company had successfully completed all National Highway Traffic Safety Administration (NHTSA) mandated tests for full

safety certification of their VECTOR W8 TwinTurbo supercar.

The U.S. government requires new passenger cars to meet, or exceed, a series of 36 safety standards. Eighteen of these standards require tests of which many are destructive in nature, such as the 30 MPH barrier crash, the roof crush, and the door impact tests.

"The VECTOR passed every test on the first try, and most of the tests were passed by a significant margin of safety," commented David Kostka, Vector Aeromotive Corporation VP of Engineering.

The company is currently entering the final stages of federal EPA emissions testing. Base price of the VECTOR W8 is currently $283,750. Order backlog exceeds 25 units.

The all-American-made aerospace engineered VECTOR W8 TwinTurbo supercar competes in the same price category with the Ferrari F40 and the Lamborghini Diablo. The powerplant is a Vector designed TwinTurbo 6 litre V-8 engine that generates over 600 horsepower, based on confirmed dynamometer tests.

Vector Aeromotive Corporation is headquartered in Wilmington, Calif., near the Port of Los Angeles.

FAIRFIELD, N.J. (NOV. 5) PR NEWSWIRE - R. Richard Ablon, chief executive officer and president of Ogden Corporation (NYSE: OG) and chairman and chief executive officer of Ogden Projects, Inc. (NYSE: OPI), has named Scott G. Mackin and Bruce W. Stone as co- presidents and chief operating officers of OPI and its subsidiaries. Both currently are members of OPI's board of directors. Ogden Corporation owns 85.6 percent of the common stock of OPI.

Mackin joined OPI in 1986 from the Philadelphia-based law firm of Schnader, Harrison, Segal & Lewis and served as vice president and general counsel before being named managing director and general counsel in 1988. Stone joined OPI in 1983 from Ogden Corporation where he had been since 1976 to become vice president and general counsel, and served as senior vice president of project implementation before being named as managing director of project implementation in 1988. Both have been extensively involved in managing project development and implementation, and acquisitions of OPI, particularly by its waste-to-energy subsidiary, Ogden Martin Systems, Inc.

Mackin and Stone will closely coordinate the management of company activities, with Mackin primarily responsible for the construction, operations, legal and

financial aspects of OPI, including its hazardous waste management subsidiary, Ogden Environmental Services. Stone will be primarily responsible for marketing, project implementation, environmental and engineering activities of the company.

"Scott and Bruce have in the past skillfully and expertly implemented the complex and precedent-setting business activities of OPI's fast growing environmental management services," said Ablon. "I have the highest confidence in their ability to continue the tradition of efficient team management which, in my view, has been the key to OPI's industry leadership in providing communities with creative solutions to address their pressing waste management problems," he added.

Ogden Projects, Inc. is the industry leader in the design, engineering, construction and operation of solid waste-to-energy facilities serving communities and counties across the country. The company currently operates 15 waste-to-energy facilities, is constructing four more and has been awarded an additional seven.

Headquartered in New York City, Ogden Corporation is a diversified services company which also has major subsidiaries engaged in energy and environmental consulting and provision of a wide range of services to the federal government.

WAYNE, PA. (NOV. 5) PR NEWSWIRE - Orthopedic Services, Inc. (NASDAQ: OSII) today announced that it has acquired two orthotic and prosthetic businesses, Ortho-Care, Inc. in Arcadia and Lancaster, Calif., and Allied Limb & Brace Company, in Tulsa, Okla.

Ortho-Care is a 13-year-old company operating two patient care centers in Southern California. Allied Limb & Brace, a 20-year-old company, is the fourth largest orthotic and prosthetic practice in Tulsa. John Stonecipher, CP, and Tim Bulgarelli, CPO, principals of Ortho-Care, as well as Lloyd Beery, CP, principal of Allied, will stay on with OSI.

OSI President Jeffrey S. Levitt, commented, "The acquisitions of Ortho-Care and Allied will improve our ability to meet an increasing demand for health care services in the Southwest. The company has made 13 acquisitions in 1990, including five since the July initial public offering. With our strong balance sheet and cash position, we will continue to make strategic acquisitions to open up new markets, as well as densify and expand our coverage in existing markets."

Orthopedic rehabilitation is the fitting, design and fabrication of custom-made braces and support devices for the treatment of musculoskeletal conditions resulting from illness, injury or congenital abnormalities. Prosthetic rehabilitation is the fitting and fabrication of custom-made artificial limbs required by people who have suffered the loss of limb from vascular disease, diabetes, cancer or traumatic injuries.

OSI is the largest provider of patient care services in the orthotic and prosthetic rehabilitation industry. OSI currently provides services through 60 patient care center in 13 states.

#90309p3317 11/05/1990 ~PR Newswire

SOMERS, N.Y. (NOV. 5) PR NEWSWIRE - Pepsi-Cola Company today introduces the Winter Cool Collection, a limited-edition collector's series of package designs. The special holiday-themed graphics will be featured on Pepsi, Diet Pepsi and Caffeine Free Diet Pepsi brands and will be advertised through a special commercial to debut in mid- November.

Last summer, Pepsi revolutionized soft-drink packaging with Cool Cans, a series of four bold pop art designs for brand Pepsi. Increased can sales and overwhelmingly positive consumer feedback encouraged Pepsi to create exciting new designs for cans -- and bottles, too -- this winter season.

"Response to Cool Cans showed that consumers wanted fun, collectable package designs," said David Novak, executive vice president, marketing, Pepsi-Cola Company. "The Winter Cool Collection is Pepsi's gift to them to celebrate the season."

The Winter Cool Collection was expanded from four to seven festive designs, which include Diet Pepsi and Caffeine Free Diet Pepsi. In addition to 12-ounce cans, the designs will be featured on 16-oz. glass and 2-liter plastic bottles.

Every two weeks, beginning in early November, a new Pepsi and a new Diet Pepsi seasonal design will be introduced. A single Caffeine Free Diet Pepsi package design will be sold throughout the promotion, which will end Dec. 31. Approximately 5 billion Winter Cool Collection cans and bottles will be distributed throughout the entire U.S. and in seven countries around the world.

The Winter Cool Collection debuts November 5 in most U.S. markets with Pepsi "Tropical Santa," which features a Pepsi-toasting Santa floating on a green inflatable reindeer, and Diet and Caffeine Free Pepsi "Snowboarding Snowman," starring winter's funkiest snowman. The remaining designs to appear are Pepsi

"House" and "Winter Wonderland" and Diet Pepsi "Diet Santa" and "Penguins." The new designs feature contemporary graphics in the fun spirit of winter activities while maintaining the integrity of Pepsi's and Diet Pepsi's logos.

CALGARY, ALBERTA (NOV. 5) PR NEWSWIRE - North Canadian Oils Ltd. (AMEX: NCD; Toronto, Montreal: NCO) reports steady gains in asset growth, revenue, cash flow and earnings for the nine months ending Sept. 30, 1990.

Oil and gas revenue, net of royalties, for the first nine months of 1990, increased 20 percent to $90.7 million due to higher production volumes and product prices. The average price received for natural gas was $1.43 per thousand cubic feet, up three percent from the 1989 average. The average price for crude oil and natural gas liquids was $21.41 per barrel, up 16 percent from the 1989 price. Investment and other income increased 23 percent to $24.6 million in the first nine months of 1990 due to higher interest rates and an increase in the average portfolio investment balance.

Cash flow from operations increased 21 percent to $66.2 million from $54.6 million, while net earnings at $20.8 million were up seven percent from the $19.3 million in 1989. Net earnings attributable to common shares increased during the nine months of 1990 by 35 percent to $13.6 million from $10.1 million after deducting preferred share dividends of $7.1 million and $9.2 million for 1990 and 1989 respectively. Net earnings per common share were $0.38 to Sept. 30, 1990, up nine percent over 1989 nine month earnings per share of $0.35.

Natural gas production increased 14 percent to average 198 million cubic feet per day in the nine month period compared to the corresponding 1989 production figure of 173 mmcfd. Crude oil and NGLs production averaged 4,906 barrels per day in 1990 versus 3,967 bpd in 1989, an increase of 24 percent.

During the first nine months of 1990, NCO added 93 billion cubic feet of natural gas and 217 thousand barrels of crude oil and NGLs, before revisions, to its proven reserves, replacing production by 141 percent on the basis of 10 mcf equaling one barrel.

NCO's capital expenditures to Sept. 30, 1990, totaled $153.6 mllion compared with $82.3 million for the same period of 1989. The 1990 capital expenditures include $48.7 million spent on exploration and development compared to $56 million in 1989. The lower amount resulted from fewer new facilities being required in 1990. The acquisition of the minority shareholder interest in Bankeno Resources Limited and Trigen Resources Corporation cost $39.9 million and $6.9 million respectively while $26.3 million was spent on the Ada,

Michigan, cogeneration facility. NCO is currently negotiating for equity partners and non-recourse financing for the Ada project. These sources are expected to provide 70 to 80 percent of the total project cost.

Norm Gish, president of NCO, commented that the company's strong performance in all areas during the first nine months of 1990, will provide a solid basis for growth in the balance of 1990 and into 1991.

North Canadian Oils Limited is a financially and technically strong, Canadian oil and gas exploration, production and marketing company. The Company's common shares are traded on the Toronto and Montreal Stock Exchanges in Canada and the American Stock Exchange in the United States.

LIVINGSTON, NJ (NOV. 5) PR NEWSWIRE - Joel A. Brotman has joined the Howard Savings Bank (NASDAQ: HWRD) as senior vice president in charge of the bank's recently consolidated residential mortgage operation, William P. Tuggle, III, chairman and chief executive officer, announced today.

In June, the Howard combined its residential mortgage department and its Mortgage Services of America (MSA) subsidiary, Tuggle said, as a cost control measure and to enhance the marketing of mortgage products.

"We are fortunate to have a seasoned professional like Joel Brotman on our management team," Tuggle commented. "He brings to the Howard more than 20 years experience in this important area of our business."

Brotman was previously senior vice president with the mortgage banking firm, Margaretten and Company, Inc. in Perth Amboy, N.J., where he started in 1984. At Margaretten he was responsible for product management, appraisal, loan delivery operations, underwriting and post closing functions. He also managed marketing of whole loans and product development.

Brotman began his career in 1967 as an associate with Greenbaum, Greenbaum, Rowe and Smith in Newark, N.J., moving to J.I.Kislak Organization, Newark, in 1969 as vice president and secondary marketing executive.

In 1976, he joined Kennedy Mortgage Co., Cherry Hill, N.J., where as vice president, he established, organized and managed the secondary marketing functions of the company. He went to Mortgage Guaranty Insurance Corporation (MGIC), Philadelphia, in 1981 as vice president and manager of the East Atlantic sales region, which includes New Jersey and New York.

Brotman is a governor and past chairman of the education committee of the Mortgage Bankers Association of America and a past president of the Mortgage Bankers Association of New Jersey. He earned his B.S. in economics from the Wharton School, University of Pennsylvania, and his J.D. degree from Rutgers University Law School.

NEW YORK (NOV. 5) PR NEWSWIRE - Corroon & Black Corporation today announced the promotion of Diane Askwyth, CPCU, to vice president.

Askwyth, formerly assistant vice president and director of professional standards and risk management, is responsible for the corporation's risk management and insurance programs, as well as its professional standards programs and policies. Her promotion was announced by Richard A. Maxwell, senior vice president, marketing and professional standards.

Askwyth has more than 20 years of insurance brokerage and risk management experience. She joined Corroon & Black Corporation two years ago after spending more than 10 years with Corroon & Black Company of New York, most recently as vice president and unit manager specializing in large commercial accounts.

A graduate of Seton Hall University, she is a Chartered Property and Casualty Underwriter, has taught at the College of Insurance and serves on the board of directors of the New York chapter of the Risk and Insurance Management Society.

Corroon & Black Corporation, now an operating division of Willis Corroon plc, is headquartered in New York City. Corroon & Black is one of the world's largest full-service insurance intermediaries, providing insurance brokerage, risk management services, reinsurance brokerage, and employee benefits, compensation, and actuarial consulting to individuals, local governments, professions, business, and industry. It has offices across the United States and affiliated offices throughout the world. Willis Corroon (ADRs traded on NYSE: WCG) traces its origins to 1828, with the establishment in London of Henry Willis & Company. Its Corroon & Black division was founded in 1905 in New York City.

CONTACT: C. Jackson Blair, first vice president of Corroon & Black, 212-363-4100; or Maripat Sexton of Hill and Knowlton, 212-697-5600, for Corroon & Black

PITTSBURGH (NOV. 5) PR NEWSWIRE - WPXI-TV/Channel 11 will expand its morning news coverage, it was announced today.

Monday, Nov. 12, "Starting Today" will start one hour earlier with local news, beginning at 5 a.m. "NBC News at Sunrise" will continue at 5:30 a.m. on Channel 11.

WPXI-TV general manager John Howell made the announcement, noting, "We are bringing the community the most up-to-date information possible with this, the latest addition to our news programming."

The expansion of "Starting Today" follows a series of additions to Channel 11 News programming. WPXI-TV currently produces 25 hours of locally produced news each week, the most of any local television station in the Pittsburgh market. With the expansion of "Starting Today," Channel 11 will add an additional 2-1/2 hours each week.

News director Al Blinke says, "Our goal is to provide information for viewers when they want it. Expanding 'Starting Today' allows us to do just that, in the early morning hours when people are getting ready for their day."

Della Crews will continue to anchor "Starting Today," along with weathercaster Bill Cardille and sportscaster Dee Thompson.

In addition to "Starting Today," WPXI-TV's news programming includes the "Channel 11 Noon News," "First at 5:00," "Channel 11 News at 6:00 and 11:00," and the four-hour "Channel 11 News: Saturday Morning." WPXI-TV is the only Pittsburgh television station to offer viewers local news every hour and weather every half hour with the "24-Hour News Source" and is the only station with an established radio news network, linking its news department to radio newsrooms in a five-county area.

NAPERVILLE, ILL. (NOV. 5) PR NEWSWIRE - First Midwest Bancorp, Inc. (NASDAQ: FMBI) today announced that it has acquired from the Resolution Trust Corp. the deposits of the Moline and East Moline, Ill., offices from Community Federal Savings Bank.

The acquisition took the form of a "clean" purchase and assumption transaction that saw approximately $26 million in core deposits assumed by First Midwest Bank, the company's approximate $302-million bank headquartered in Moline. Consideration of $1,561,000 was paid by the bank for the two offices. The former thrift offices will be operated as a branches of the bank.

"The acquisition represents a cost effective means of attaining immediate presence in important new submarkets and enhancement of our already strong market share," said Robert P. O'Meara, First Midwest Bancorp president and CEO. "Our Moline headquartered bank enjoys excellent financial performance, returning approximately 23 percent on average equity and 1.36 percent on average assets in the first nine months of 1990, and will readily assimilate the new branches."

With total assets of approximately $2.3 billion First Midwest Bancorp is one of Illinois' largest bank holding companies operating 34 banking and five trust offices in northern Illinois.

BALTIMORE (NOV. 5) PR NEWSWIRE - Nova Pharmaceutical Corporation (NASDAQ: NOVX) today reported revenues from product sales for the first time in the company's history. The company reported $9 million in third-quarter sales of the psychiatric product line it began marketing in July of this year.

Revenues for the third quarter were $12.7 million, up more than 300 percent from the $3.1 million reported for the same period in 1989. The increase in revenues was due primarily to the initiation of sales of the psychiatric product line. For the nine-month period, revenues were up 89 percent to $22.1 million, compared to $11.7 million for the same period last year.

Total expenses for the quarter were up 141 percent to $15.9 million, compared with $6.6 million for the same period in 1989. For the nine months, expenses were up 57 percent to $32.1 million, compared with $20 million for the first nine months of 1989. The increase in expenses for both periods in 1990 over 1989 resulted primarily from expenses associated with the sale of the psychiatric products as well as a $2.3 million increase in proprietary research and development expenses for the first nine months of 1990.

The reported net loss for the quarter decreased to $3.2 million, or $.12 per share, compared with $3.5 million, or $.13 per share, for the third quarter of 1989. For the nine months, the loss was $10 million, or $.37 per share, compared with $8.7 million, or $.33 per share, for the first nine months of 1989. The net loss adjusted for non-cash expenses was $1.5 million for the third quarter of 1990, compared with $2 million in the third quarter of 1989. For the nine months, the net loss adjusted for non-cash expenses was $5.1 million, compared with $4.2 million for the same period last year.

"Expenses for the third quarter of this year were partially offset by more than $1 million of operating income generated from the sale of the psychiatric

products. These expenses reflect the continued expansion of our investment in proprietary research and development as projects move from the laboratory to the clinical development stage," said Dr. Hans Mueller, Nova president and chief executive officer.

Nova Pharmaceutical Corporation, based in Baltimore, is engaged in the research and development of new drugs and drug delivery systems, with a primary focus on central nervous system disorders and pain and inflammation.

WEST CALDWELL, NJ (NOV. 5) PR NEWSWIRE - Merrimac Industries, Inc. (AMEX: MRM) today announced results for the third quarter and nine months of 1990.

For the three months ended Oct. 6, while net sales fell 2.4 percent to $4,189,307 compared to $4,292,941 for the comparable period in 1989, net income was $377,898 compared with $123,345 for 1989. Net income per share was 17 cents for the 1990 third quarter compared to six cents for the third quarter of 1989.

For the nine months, net sales were $10,860,460, up five percent from the $10,808,668 for 1989. Net income rose 103.5 percent to $862,411 compared to $423,751 for the nine months ended Oct. 7, 1989.

Paul Terranova, chairman and chief executive officer of Merrimac, said: "Third quarter 1990 results reaffirm management's philosophy to operate a dynamic, high technology, world class electronics business with a global customer base.

"Contrary to the persistent 'gloom and doom' news that is being declared throughout our industry, Merrimac believes that with all the 'irons it now has in the fire' its share of the business will grow profitably through the 1990s " he said.

Merrimac Industries, Inc., designs, manufactures and markets high performance mixers and passive components for telecommunications, defense, and aerospace.

HIGHLAND PARK, MICH. (NOV. 5) PR NEWSWIRE - T. R. (Ted) Cunningham has been elected to the new position of executive vice president - Sales & Marketing of Chrysler Corporation (NYSE: C), effective today.

Cunningham, 44, has been vice president - Service and Parts Operations since January 1988.

In his new position, Cunningham will have responsibility for all of the company's U.S. and Canadian sales and fleet operations and all marketing activities, Service and Parts Operations and the Pentastar Transportation Group, Inc., which includes Thrifty, Snappy and Dollar car rental companies.

He reports to Bennett E. Bidwell, chairman of Chrysler Motors, and Robert A. Lutz, president of Chrysler Motors.

Reporting to Cunningham are: E. T. (Tom) Pappert, vice president - Sales; John B. Damoose, vice president - Marketing; Harold L. Barton, general manager - Fleet Operations; and William E. Lobeck, chairman and president - Pentastar Transportation Group, Inc.

Service and Parts Operations will continue to report to Cunningham. Cunningham joined Chrysler Corporation in 1968, held a number of positions in the sales organization, then was named general manager of Import Operations in 1985.

He was named vice president - Sales and Marketing of Chrysler Canada in 1986, vice president - Dodge/Dodge Truck Marketing in 1987 and vice president of Service and Parts Operations in 1988.

Cunningham is a native of Escanaba, Mich. He holds a B.A. degree in administration from Southern Illinois University, Carbondale, Ill., and completed the Advanced Management Program at Harvard University. He is married and lives in Troy, Mich.

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - Norstan, Inc. (NASDAQ: NRRD) announced today that it has entered into an agreement under which the company will receive $500,000 in consideration for its preferred stock investment in New Summit, Inc. (NSI). As a result, Norstan will release its security interest in the assets of NSI. The payment will be made to Norstan by a privately held Minnesota-based company. In addition, Norstan will receive certain notes and other considerations from the principal shareholder of NSI. These notes and other considerations will release the personal guarantee made by NSI's principal shareholder to Norstan at the time of the original sale of assets.

New Summit, Inc. is the company which purchased the assets of Summit Gear, Inc. from Norstan in 1987. In May of this year, Norstan was notified that NSI was in default on certain of its loan covenants with its principal lender. As a result, Norstan established a $5.85 million provision for loss in the fourth quarter of its 1990 fiscal year.

Norstan also announced that earnings for the company's second quarter ended Oct. 27, 1990, will be lower than previously expected. While the company's sales are in line with expectations, margins have been lower than anticipated due to general market conditions.

Norstan, Inc., based in Maple Grove, Minn., is a multi-product communications services company that designs, sells, installs, services and supports business telephone systems. The company has 1,200 employees in 10 states and 21 cities.

NORFOLK, VA (NOV. 5) PR NEWSWIRE - Norfolk Southern Corporation (NYSE: NSC) today announced a separation program for some of its clerical workers and some of those employed by its Norfolk and Western Railway subsidiary in Roanoke, Virginia. Only active clerical employees covered under a Transportation Communication Union contract who entered service prior to April 15, 1986, are eligible to participate in the program.

Employees whose applications to participate in the program are accepted will receive a one-time separation allowance of $35,000. In addition, the company will provide certain medical care coverage for employees participating in the program who will be age 55 or older at the time they are separated.

Employees have until Nov. 16, 1990, to apply for the program, which is not available to employees outside the included Roanoke seniority districts. "This program reflects Norfolk Southern's ongoing efforts to reduce the size of its work force in order to make its operations more efficient and competitive in the marketplace," said Marcellus C. Kirchner, Director-Human Resources.

CONTACT: R.C. Fort, Assistant Vice President, Public Relations Dept., (804) 629-2714, or Don Piedmont, Director, Public Relations Dept., (703) 981-5407, both of Norfolk Southern Corporation.

ARLINGTON HEIGHTS, IL (NOV. 5) PR NEWSWIRE - Motorola Inc.'s (NYSE: MOT) Radio-Telephone Systems Group has been awarded contracts to supply cellular radio telephone systems in four regions of Mexico.

In 1989 the Mexican government granted each independent consortium a 20-year license to operate a cellular radio telephone network in each of eight designated regions of the country.

Motorola has won contracts in four of these eight regions - more than any other supplier - which are operated by the following cellular consortia: Baja Celular Mexicana in the northwest with Tijuana and Ensenada; Comunicaciones Celulares de Occidente (Comcel) in the west with Guadalajara; Portatel del Sureste in the southeast with Cancun; and Telefonia Celular del Norte (Norcel) in the north with Juarez and Chihuahua. Motorola also has a minority position in Norcel.

The cellular telephone network for the city of Guadalajara, Jalisco State, went into commercial service early in August. The AMPS 800 MHz system, installed by Motorola in 58 days, is operated by the Comcel consortium, whose members include BellSouth International. Comcel is the first A band cellular operator to go into commercial service in Mexico among the eight independent regional consortia.

"Motorola is very proud to be the supplier of so many distinguished operators in these key regions of Mexico," said Bernard R. Smedley, senior vice president of Motorola Inc. and general manager of the Radio-Telephone Systems Group.

"We look forward to implementing these systems continuing their expansion and

to creating an interconnected network, with the objective of bringing cellular telephony rapidly and efficiently in all these regions of the country," added Smedley.

The four regions have a total population of about 25 million. The plan for the four consortia reflects a total investment of about $100 million for the next few years and a cumulative projection of over 70,000 subscribers, which represents approximately a 30 percent market penetration.

Motorola has been operating in Mexico for over 30 years, employing today 2,500 people in two major manufacturing facilities - in Guadalajara, Jalisco for semiconductor components and in Leon, Guanajuato for two-way radio equipment - and to over 30 service and sales offices throughout the country.

Motorola is the world's leading designer, manufacturer, and supplier of cellular systems, infrastructure equipment and subscriber products. It is also a leading provider of electronic equipment, systems, components and services for worldwide markets, including two-way radios, pagers, semiconductors, defense and aerospace electronics, automotive and industrial electronic equipment, computers, data communications, and information processing and handling equipment.

MONTREAL (NOV. 5) PR NEWSWIRE - Sand Technology Systems International (NASDAQ: SNDCF) today reported a record year end income of $520,455 or $0.11 per share on sales amounting to $35,824,966 as compared to July 1989 fiscal year end income of $500,714 or $0.10 per share on sales amounting to $36,725,033. Arthur G. Ritchie, Sand's chairman and CEO., stated that he felt that the future of Sand was a continuing trend in profitability.

For the fiscal year 1990 the company stressed selling, general & administration (SG&A) reductions as reflected in the expenses for fiscal 1990 at $4,940,577 or 13.8 percent compared to $5,660,136 or 15.4% of sales in fiscal 1989. SG&A expenses were reduced as a result of ongoing cost reduction efforts, despite unusual costs for professional fees.

Sand Technology Systems International markets complete large-scale IBM compatible computer systems in Canada and computer printers and sophisticated information systems products in the U.S.A. To date SAND and its affiliates have installed equipment valued in excess of $400 million.

MILAN, ITALY (NOV. 5) PR NEWSWIRE - Ausimont (a Ferruzzi-Montedison subsidiary) and Atochem North America (part of Elf-Aquitaine Group) have signed a definitive agreement regarding Atochem's fluoropolymer production facilities at Thorofare, N.J., and Ausimont's organic peroxides business at Spinetta Marengo, Italy.

Through this transaction, Ausimont acquires the Thorofare plant which produces polyvinylidene fluoride (PVDF) fluoropolymers and related intermediates, which are used for architectural coatings and protection, in the electronics industry and in the chemical processing sector. Atochem North America receives Ausimont's organic peroxides business. Organic peroxides are used to harden resins in the polymerization phase and for the production of elastomers.

The finalization of this agreement follows the approval given by the Federal Trade Commission (FTC) on Aug. 30 to Atochem North America's request to divest its Thorofare plant.

Under the agreement, Ausimont is also to receive the technological and marketing activities associated with the Thorofare plant.

Ausimont N.V., a Ferruzzi-Montedison company, is a multinational specialty chemicals company and a leading producer of fluorine-based chemicals. The company's principal operations are located in the United States and Italy.

The Ferruzzi Group is a leading international industrial system which operates through Montedison in the chemical, pharmaceutical and energy sectors, as well as in the agro-industrial sector, with an aggregate turnover of approximately $40 billion.

DALLAS (NOV. 5) PR NEWSWIRE - Don L. Bolen has been appointed executive vice president with USLIFE Insurance Services Corporation, a wholly owned subsidiary of USLIFE Corporation (NYSE: USH). The announcement was made today by Jerry J. Wakefield, president and chief executive officer of USLIFE Insurance Services.

In his position, Bolen will be responsible for the day to day operations of USLIFE Insurance Services which provides a variety of policyholder and administrative services for the ordinary life insurance subsidiaries of USLIFE Corporation.

Don L. Bolen began his life insurance career in 1961 as an agent with Allstate Insurance Company. In 1969, he was promoted to regional sales manager and, then in 1977, to zone sales manager. In 1978, he was named assistant vice president-marketing at that company's headquarters in Northbrook, Ill.

Most recently, from 1983 to 1990, he was president of the Zale Insurance Group in Dallas, an organization comprised of three life insurance companies, two property and casualty companies, and an advisory/replacement services division.

Bolen is a graduate of Kansas State University where he earned his Bachelor of Science degree in marketing/business in 1956.

Bolen and his wife, Jan, reside in Frisco, Texas.

#90309p3345 11/05/1990 ~PR Newswire

CINCINNATI (NOV. 5) PR NEWSWIRE - Jacor Communications, Inc. (NASDAQ: JCOR) today reported its financial results for the three months and nine months ended Sept. 30, 1990

For the three months ended Sept. 30, 1990, the company had broadcast revenue of $23,985,000, up 6.8 percent over the $22,450,000 for the third quarter of 1989. Broadcast cash flow (profit from broadcast operations before depreciation, amortization, corporate expenses, interest expense and income taxes) for the third quarter of 1990 totaled $6,226,000, up 19.5 percent over the $5,209,000 for the third quarter of 1989.

The company had a loss before extraordinary item for the third quarter of 1990 of $2,843,000 or $.30 per common share, as compared to a loss before extraordinary item of $1,846,000, or $.29 per common share for the same period in 1989.

For the nine-month period ended Sept. 30, 1990, the company had broadcast revenue of $67,196,000, up 6.1 percent over the $63,317,000 for the nine-month period of 1989. Broadcast cash flow for the first nine months of 1990 totaled $14,195,000, an increase of 19.5 percent over the $11,888,000 for the same nine-month period of 1989. Larger non-cash charges resulting from the amortization of a non-compete agreement and an increase in interest expense caused by the larger amount of outstanding long-term debt led to a larger loss before extraordinary item for 1990 than for 1989. The loss per common share before extraordinary item for the first nine months of 1990 was $1.11 per share compared to a loss of $1.14 per share for the 1989 period.

Terry S. Jacobs, chairman, president and chief executive officer of Jacor, explained, "Jacor's revenue growth and effective cost controls have allowed us to realize an excellent rebound of broadcast and operating cash flow. The softness in advertising during 1990 has affected all media businesses but radio has performed better than print or television thus far. We are pleased with Jacor's operating performance in this environment, and we intend to continue our efforts to control costs and increase revenues. The company's radio stations continue to enjoy excellent ratings success which should help us sustain revenue growth at our stations during the fourth quarter of 1990."

Jacor Communications, Inc., headquartered in Cincinnati, currently owns 13 radio stations, a cable television system, the Georgia Network and Critical Mass Media, Inc. The company's stations are located in Cincinnati, Atlanta, Cleveland, Denver, Nashville, Knoxville, Jacksonville and Tampa.

NEW YORK (NOV. 5) PR NEWSWIRE - Rockefeller Center Properties, Inc. (RCPI) (NYSE: RCP) announced today net income for the third quarter of 1990 of $9,534,000, or 26 cents per share, on revenues of $31,176,000. For the same period in 1989, the company reported net income of $10,882,000, or 29 cents per share, on revenues of $31,756,000.

Income before extraordinary item for the third quarter of 1990 was $9,536,000, or 26 cents per share, compared to 29 cents per share for the same period in 1989. RCPI stated that the decline in earnings, which was principally due to increased interest expense and decreased revenue from portfolio investments, was anticipated and is reflective of its capital structure.

ROCKEFELLER CENTER PROPERTIES, INC.

GAITHERSBURG, MD. (NOV. 5) PR NEWSWIRE - Penril Corp. (AMEX: PNL) today announced that Penril DataComm has signed a contract with US Sprint Communications Company to supply Penril's V.32 transmission products for use in the Public Data Network (PDN) operated by US Sprint.

The five-year contract does not provide for specific unit quantities; however, a Penril spokesperson said, "The supply arrangement is significant to Penril in both revenues and the recognition of our DSP technologies." US Sprint will use the products internally to the PDN, as well as offer the products for resale to their customers.

Penril Corp. manufactures data communications equipment and test and measurement instruments.

FARMINGTON, N.M. (NOV. 5) PR NEWSWIRE - Mesa Airlines Inc. (NASDAQ: MESA) today released its traffic figures for October. The airline carried 78,996 passengers in October which is a 90 percent increase over October 1989. Revenue passenger miles increased 121 percent to 16,534,000 and available seat miles were up 110 percent to 34,672,000 as compared to the same time period last year. Load factors also increased to 47.7 percent from 45.3 percent in October of 1989. This is the 19th consecutive month of traffic increases for the air carrier.

"This October we completed our first decade as a scheduled air carrier," said airline president Larry Risley. "On Oct. 12, 1980, Mesa had its first flight between Albuquerque and Farmington in a five-seat Piper Saratoga, a single-engine aircraft. When you compare that to the 41 aircraft we have today, the largest carrying 30 passengers, it gives an idea of how far we've come."

Mesa Airlines operates as an independent carrier out of its Albuquerque and Phoenix hubs and as a United Express carrier out of its Denver hub. Skyway Airlines, a wholly owned subsidiary, operates as a code-share with Midwest Express Airlines out of its Milwaukee hub.

PHILADELPHIA (NOV. 5) PR NEWSWIRE - Consolidated Rail Corp. (NYSE: CRR) has named R. Paul Carey to the newly created position of general manager-route optimization.

Carey, who reports to Donald A. Swanson, senior vice president- pperations, will focus on Conrail's efforts to improve utilization of the company's physical plant, including the effective use or ultimate disposition of track, yards and sidings.

Carey joined Conrail in 1979 and has since held key supervisory positions in the mechanical and operating departments, most recently as general manager of Conrail's Albany Division, based in Selkirk, N.Y. Carey holds a bachelor of arts degree from Colgate University, Hamilton, N.Y., and has attended the Graduate School of Business Administration at Boston University.

In other system appointments, based at corporate headquarters in Philadelphia, Gary M. Spiegel was promoted to general superintendent- transportation, and William J. Egan was promoted to general superintendent-road foreman and training. Division operating appointments were also announced.

Spiegel is responsible for analyzing, supervising and directing all aspects of freight train performance and operations, and for effective utilization, distribution and control of freight locomotives across the rail system. He began his railroad career in 1970 with the Erie Lackawanna Railroad, a Conrail predecessor, and has served in various operating positions, most recently as assistant general manager- Harrisburg Division.

In his new position, Egan is Conrail's highest-ranking locomotive engineer, responsible for train handling procedures and the training of locomotive engineers on a systemwide basis. Egan began his railroad career in 1967 with the Pennsylvania Railroad. With Conrail, Egan has held a number of road foreman positions across the system.

Conrail operates a rail freight service network in 14 Northeastern and Midwestern states, the District of Columbia, and the Province of Quebec.

PHILADELPHIA (NOV. 5) PR NEWSWIRE - Consolidated Rail Corp. (NYSE: CRR) has named Baxter D. Wellmon assistant vice president- continuous quality improvement.

Wellmon, who reports to Dr. John M. Samuels, vice president- continuous quality improvement, will assist Conrail departments in their benchmarking efforts as part of the company's newly implemented continuous quality

improvement process.

"Conrail is committed to a long-term continuous quality improvement process in every function of its operations," said James A. Hagen, Conrail's chairman, president and chief executive officer. "Baxter Wellmon has been involved in the development of this process and his appointment demonstrates our commitment to meet or exceed expectations in all dealings with our customers on an ever-improving basis."

Wellmon is the author of a book on continuous quality improvement, "Surviving the 90's and Winning," published by Air Academy Press, Colorado Springs, Colo.

Wellmon began his railroad career in 1967 with the New York Central, a Conrail predecessor. With Conrail he has held various positions in finance, cash management and customer service, including, most recently, general manager-stations.

Prior to Conrail, Wellmon served in financial planning and budget positions with the United States Railway Association (USRA) and was a member of USRA's Conrail Activation Task Force.

Wellmon was graduated from Gannon College, Erie, Pa., and holds a master of business administration degree from Temple University, Philadelphia.

Conrail operates a rail freight service network in 14 Northeastern and Midwestern states, the District of Columbia and the Province of Quebec.

#90309p3358 11/05/1990 ~PR Newswire

PHILADELPHIA (NOV. 5) PR NEWSWIRE - Consolidated Rail Corp. (NYSE: CRR) has named Paul T. Jones Jr. manager-minority vendor program.

In his new position, Jones is responsible for expanding the number of minority and women-owned businesses qualified to provide goods and services to Conrail. Jones reports to Jeremy T. Whatmough, vice president-materials & purchasing.

Conrail's minority vendor program encourages minority and women- owned businesses to supply a wide variety of goods and services used by the railroad including materials used in railroad operations, financial services and outside legal counsel. In 1989, Conrail purchased more than $96 million in goods and services from 329 minority and women-owned businesses, representing more than 13 percent of Conrail's total purchases for the year. Conrail also had deposits and other transactions valued at more than $113 million with minority-owned banks at the close of 1989.

In addition to its own programs, Conrail encourages minority business development by supporting the New-Penn-Del Minority Supplier Resource Council, a Philadelphia-area non-profit organization of about 150 locally-based corporations and 500 minority business enterprises. The council honored Conrail in 1988 as its "Corporation of the Year."

Since 1981, Conrail's program also has been recognized by the New York/New Jersey Regional Minority Purchasing Council, the National Bar Association, the Greater Philadelphia Chamber of Commerce, the U.S. Small Business Administration and the U.S. Department of Commerce.

Jones, a native of Essington, Pa., holds a bachelor of science degree from Drexel University, Philadelphia. Since 1979, he has held various purchasing positions at Conrail, most recently, manager-asset Sales. He succeeds Walter R. Livingston III, who was named a member of Conrail's Quality Council, which is involved in the implementation of a continuous quality improvement initiative.

Conrail operates a rail freight service network in 14 Northeastern and Midwestern states, the District of Columbia and the Province of Quebec.

#90309p3359 11/05/1990 ~PR Newswire

PITTSBURGH (NOV. 5) PR NEWSWIRE - Pitt-Des Moines Inc. (AMEX: PDM) (PDM) has previously reported, and disclosed in its financial statements for 1989 and several previous years, various claims by Washington Public Power Supply System (WPPSS) in the U.S. District Court for the Eastern District of Washington concerning retrofit work performed by PDM at Nuclear Unit No. 2, Hanford, Wash.

As also previously reported, on Mar. 29, 1989, the U.S. Court of Appeals for the Ninth Circuit affirmed the judgment of the district court that PDM was not liable for breach of warranties. However, the Ninth Circuit remanded the case to the district court for a determination of whether WPPSS had released its claims against PDM for breach of contract.

While that determination has not yet been made, on Oct. 20, 1990, the district court granted PDM partial summary judgment eliminating PDM's liability for any consequential damages and limiting any damages recoverable against PDM to claims for the direct costs of repairing or replacing defective or nonconforming hardware.

WPPSS may prevail upon the district court to vacate or amend the Oct. 20, 1990 order and WPPSS may also appeal to the U.S. Ninth Circuit Court of Appeals. If the Oct. 20, 1990 order is ultimately affirmed (as to which there is no

assurance and no prediction can be made), then it could have the effect of substantially reducing the potential financial exposure of the company for any claims that WPPSS may be allowed to pursue.

Pitt-Des Moines Inc. and its subsidiaries operate four basic business units: Standard Products, Technology Products and Services, Steel Construction and Service Centers. PDM(R) provides a wide range of custom engineered products, structures and facilities for commercial, industrial, municipal and governmental customers in addition to processing and distributing a general line of carbon steel products.

The court's Oct. 20, 1990, order denied PDM's alternative motion for summary judgement which sought to limit WPPSS' claims to warranty remedies.

PDM has facilities in the following locations: Atlanta; Cedar Rapids, Iowa; Chicago; Columbus, Ohio; Costa Mesa, Calif.; Des Moines, Iowa; Fresno, Calif.; Fullerton, Calif.; Houston; Morristown, N.J.; Pittsburgh; Sacramento, Calif.; Santa Clara, Calif.; Spanish Fork, Utah; Sparks, Nev.; Stockton, Calif.; Tenio Wash.; and Tualatin, Ore.

BOULDER, COLO. (NOV. 5) PR NEWSWIRE - Cell Technology, Inc. (NASDAQ: CELL), the Colorado-based biotechnology firm specializing in the development of biologic response modifier (BRM) technology, today presented interim data from its current Phase II (dose optimization) clinical trial of its anti-cancer BRM application, ImuVert, at "Cancer in the Nervous System," the 34th annual Clinical Conference and 23rd annual Special Pathology Program sponsored by the M.D. Anderson (University of Texas) Cancer Center in Houston. The company announced that ImuVert has shown encouraging results in the treatment of recurrent and refractory malignant astrocytomas and its intent to initiate a pivotal clinical trial to further evaluate ImuVert preparatory to filing a Product License Application (PLA) with the U.S. Food and Drug Administration.

The presentation was made by Kurt Jaeckle, M.D., of the University of Utah Health Sciences Center's Department of Neurology, Dr. Jaeckle had previously conducted the company's pilot Phase II clinical trial of ImuVert in refractory brain tumors. Those results were published this past August in the Journal of Clinical Oncology.

The results of that study included two complete responses, one minor response, and four stable patients in a population of 19 patients with grade 3 and 4 astrocytomas which had been recurrent from, or refractory to, previous therapy. Three of those patients are currently alive more than three and one half years from the date they entered the study. "These results are

particularly encouraging," stated Jaeckle, "inasmuch as the expected survival for patients who have failed conventional therapy is less than 26 weeks."

The interim data presented today concerns a study of 113 patients being conducted at 11 U.S. clinical centers and suggest that therapeutic responses may be achieved with acceptable toxicity. The data also suggest that patients who demonstrate a complete or partial response or a disease stabilization when treated with ImuVert have longer than expected survivals. Furthermore, the interim data corroborate the results demonstrated in the earlier-reported Phase II pilot trial by Jaeckle.

As a result, the company and its clinical investigators believe that the data are supportive of further clinical investigation of ImuVert in the treatment of brain tumors. To this end, the company may initiate a pivotal Phase III clinical trial preparatory to filing a PLA for ImuVert.

Commenting upon the findings presented at this conference, W. Terrance Schreier, chairman, president and CEO of the company, noted, "We are pleased and encouraged by the findings reported by the investigators at this conference. We believe that the work completed in the University of Utah Phase II pilot program has now been reconfirmed in several sites and that the drug should move into Phase III clinical testing. We anticipate meeting with officials of the U.S. Food and Drug Administration to review our results in detail and to suggest our ongoing clinical strategies in the development of this drug."

Cell Technology, Inc. is a biotechnology company specializing in the field of immunotherapy. The company's innovative BRM products are being developed to activate the body's own immune response to fight cancer, viral infections, and to act as a general immunomodulating agent.

CONTACT: W. Terrance Schreier, chairman, president and CEO, or Michael J. Andrews, Ph.D., vice president-clinical and regulatory affairs, or William H. Critchfield, vice president-finance and CFO of Cell Technology, 303-443-8155

#90309p3362 11/05/1990 ~PR Newswire

HOUSTON (NOV. 5) PR NEWSWIRE - Conquest Exploration Company (AMEX: CQX) announced today that it received from Forest Oil Corporation (NASDAQ-NMS: FOIL) late Friday afternoon, Nov. 2, 1990, an unsolicited bona fide offer to acquire Conquest. The offer contemplates that a wholly-owned subsidiary of Forest would merge with and into Conquest. As previously announced, on Oct. 21 1990 Conquest executed a definitive merger agreement with American Exploration Company (AMEX: AX).

In the merger proposed by Forest, each share of Conquest common stock would be converted into the right to receive 0.20 shares of Forest common stock. If,

however, a holder of Conquest common stock would receive less than $2.00 in market value of Forest common stock for each share of Conquest common stock (based on the average of the closing prices of Forest common stock on specified days prior to the completion of the merger), then Forest would at its option either issue additional shares of Forest common stock having a market value, or pay cash in an amount, equal to the lesser of (A) $0.20 or (B) the difference between $2.00 and the market value of 0.20 shares of Forest common stock. In addition, if a holder of Conquest common stock would receive more than $2.20 in market value of Forest common stock, then the conversion ratio would be downwardly adjusted, without limit, to maintain the market value to be received for a share of Conquest common stock at $2.20. The closing price of Forest common stock on Nov. 2, 1990 was $9.25.

The Forest offer also contemplates that the Conquest preferred stock currently held by The Dyson-Kissner-Moran Corporation (DKM) would be purchased for cash equal to its liquidation value of $23.75 million, plus accrued dividends.

Forest also offered to enter into a stock purchase agreement with DKM substantially identical to the stock purchase agreement that DKM entered into with American.

The merger proposed by Forest would be subject to approval by the shareholders of Conquest and Forest and the satisfaction of customary conditions substantially the same as those contained in the American merger agreement.

Forest's offer expires at 5:30 p.m. Houston time, Nov. 11, 1990. As previously announced, the American merger agreement provides that each share of Conquest common stock will be converted, in accordance with the election made or deemed to have been made by the holder thereof, into the right to receive either 0.44 shares of American common stock or $1.90 in cash without interest, provided that (subject to certain adjustments) approximately 88 percent of the aggregate shares of Conquest common stock will be required to receive shares of American common stock and approximately 12 percent of the aggregate shares of Conquest common stock will be required to receive cash. The agreement between American and DKM provides for the purchase by American of all outstanding shares of Conquest preferred stock for $21 million plus accrued dividends. The closing price of American common stock on Nov. 2, 1990 was $3.625.

The American merger agreement permits Conquest to terminate the agreement if Conquest receives an unsolicited bona fide offer which the Conquest board of directors determines, after consultation with its financial advisors, is likely to result in a transaction more favorable to the holders of Conquest common stock from a financial point of view than the American transaction. If the merger agreement is so terminated, Conquest will be obligated to pay American immediately $2 million.

The Conquest board of directors has authorized its chairman, legal counsel and

financial advisors to carefully analyze Forest and its offer and to report back to the board of directors as soon as practicable.

#90309p3363 11/05/1990 ~PR Newswire

CINCINNATI (NOV. 5) PR NEWSWIRE - Gibson Greetings, Inc. (NASDAQ: GIBG) today announced record revenues for the third quarter and first nine months of 1990.

For the third quarter ended Sept. 30, 1990, revenues were $145.6 million, up 9.6 percent, while income before income taxes was $20.2 million, down 13.4 percent from the comparable period last year. Net income was $12.7 million, down 16.5 percent, while net income per share was $.80 versus $.97, down 17.5 percent from the like period last year. Results for the third quarter of 1989 included the reversal of a tax penalty, previously recorded in 1987 and 1988, of approximately $3.1 million pretax and related interest expense which combined represented $.26 per share. Excluding the nonrecurring reversal, recorded in the third quarter of 1989, net income per share would have increased from $.71 to $.80 or 12.7 percent. The effective tax rate was 37.0 percent versus 34.7 percent for the third quarter of 1989.

For the nine month period ended Sept. 30, 1990, revenues were $306.1 million, up 14.2 percent, while income before income taxes was $33.4 million, down 8.2 percent from the comparable period last year. Net income was $20.9 million, down 12.6 percent, while net income per share was $1.32, down 13.2 percent from the like period last year. Excluding the nonrecurring reversal of the tax penalty and related interest of $5.4 million pretax, or $.28 per share, recorded in the first nine months of 1989, net income per share would have increased from $1.24 to $1.32 or 6.5 percent. The effective tax rate was 37.5 percent versus 34.3 percent for the first nine months of 1989.

Results for the first nine months of 1990 include a second quarter pretax charge related to accounts receivable of approximately $2.4 million or $.09 per share, principally attributable to the bankruptcy of Ames Department Stores. Excluding this charge and the nonrecurring gain in the third quarter of 1989, net income per share for the nine months ended Sept. 30, would have been $1.41 versus $1.24 in the prior year, up 13.7 percent.

Benjamin J. Sottile, chairman, president and chief executive officer, stated that gains in revenues for the third quarter and first nine months of 1990 were principally attributable to increased sales of seasonal and everyday cards to existing accounts and lower return rates for certain seasonal card products. He stated that sales of seasonal Cleo brand gift wrap products also increased but at lower rates than anticipated. Growth in sales of certain related products such as paper party goods, candles and calendars were

particularly strong.

Sottile added that income before income taxes for the third quarter and nine months benefitted from increased revenues and lower cost of products sold ratios offset by higher operating expense ratios and interest expense.

Stockholders' equity at Sept. 30, 1990 was $243.4 million, up 17.3 percent from the comparable 1989 period, while long-term debt was $25.8 million, up $11.8 million from the year ago quarter end. The increase in long-term debt resulted from the issuance of bonds in late 1989 to construct a new manufacturing/distribution facility in Memphis, Tenn. Reflecting the high degree of sales seasonality, short-term debt at Sept. 30, 1990 was $118.2 million, versus $68.2 million at the like date last year.

#90309p3368 11/05/1990 ~PR Newswire

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - Cray Research Inc. (NYSE: CYR) today introduces new disk drives to complement the performance of the new CRAY Y-MP2E supercomputer. The disk drives, known as DD-60 and DD-61, use highly reliable eight-inch disk technology to offer customers access to large amounts of data with two performance options and reduced requirements for floor space, power, and cooling. The DD-60 and DD-61, which will be supported by version 6.1 of the UNICOS operating system will be available in the second quarter of 1991.

The DD-60 is a 24-million-byte-per-second (Mbyte/sec) disk drive with a sustained transfer rate of 16-20 Mbytes/sec, which is twice as fast as previous Cray Research disk products. Its formatted data capacity is 1.96 billion bytes (Gbytes).

The DD-61 disk drive offers larger storage capacity and lower price than the DD-60 disk drive. It is a 3-Mbyte/sec disk drive with a sustained data transfer rate of 2.3 to 2.6 Mbytes/sec. Its formatted storage capacity is 2.23 Gbytes.

Both the DD-60 and DD-61 can be configured to allow up to eight disk drives to be connected to a single disk channel. A fully configured CRAY Y-MP2E system can support over 400 Gbytes of DD-60 or DD-61 storage.

The new disk drives also complement the file server features recently introduced by Cray Research. The file server, known as the UNICOS Storage System, is a high-performance network storage management system that provides high-speed access to large numbers of files on a variety of storage media. With the introduction of the DD-60 and DD-61 disk drives, the UNICOS Storage System can be supported by large high- speed data storage, which can be combined with the automated off-line storage to provide total system data capacity of over 19 trillion bytes.

The new disk drive consumes less power than previous models, and are equipped with dual 50/60 hertz power supplies to accommodate most standard power sources. Floor space requirements are reduced significantly with a new disk cabinet design that contains up to eight disk drives and the elimination of a separate disk controller cabinet.

Cray Research, Inc. designs, manufactures, markets, and supports large-scale, high-speed computer systems for scientific and engineering applications.

UNICOS is a registered trademark of Cray Research, Inc. UNIX is a registered trademark of UNIX System Laboratories, Inc.

HOUSTON (NOV. 5) PR NEWSWIRE - Enron Corp. (NYSE: ENE) announced today that Teesside Power Company, Ltd., a partnership operated by Enron, has received the final permission required to construct and operate a 1,725 megawatt combined heat and power combined cycle gas turbine power station at Wilton, on Teesside in the United Kingdom.

The consent to construct and operate the power project was granted today by John Wakeham, secretary of state of energy in the United Kingdom.

The project is the first power station, and also the largest, proposed by an independent generator to be given the energy secretary's consent under the 1989 Electricity Act.

"We are delighted to receive this permission to construct the plant at Teesside under the government's privatization effort," said John B. Wing, chairman of Enron Power Corp. and Enron Europe, Ltd. "This marks the beginning of the construction of the plant, which Wimpey Construction Company actually started today, on receipt of this permission. The completed plant will deliver its first electricity to the national grid in April 1993."

In addition to its employment impact in the region, including the impact of the associated gas terminal and pipeline projects, the Teesside project will improve the environment and deliver electricity at a very competitive price, Wing said.

"We appreciate the cooperative spirit and commitment to privatization shown by the staff of the secretary of state of energy," Wing said. "We also admire and respect the dedication and community spirit of the local community environmental groups and planning councils we have worked with in this approval process. We look forward to working with them in the future in an

effort to be a model corporate citizen in the United Kingdom."

Enron also announced that the final negotiations are proceeding on the financing for the Teesside project. A consortium of international banks has been selected to underwrite the financing which will be non- recourse and off-balance sheet to the project owners.

#90309p3370 11/05/1990 ~PR Newswire

MANILA, PHILIPPINES (NOV. 5) PR NEWSWIRE - Atlas Consolidated Mining & Development Corporation (AMEX: ACMB) has reached an agreement with its bank lenders to restructure its foreign currency loans, it was announced today.

In a restructuring agreement signed in Hong Kong Oct. 31, 1990, Atlas agreed to repay US$46.1 million at a predetermined discount and to restructure the balance of US$115.7 million of foreign bank loans. Atlas will utilize the proceeds of the US$30 million loan it obtained recently from Mitsubishi Metal Corporation for the repayment. The restructuring will generate US$16.1 million in gross revenues arising from the discount on the loans obtained from the banks.

The restructured amount has been divided into two tranches. Tranche A will be for an amount of US$46.1 million, which will be repaid over three years inclusive of a grace period of 1-1/2 years. Tranche B covers the balance, which will be repaid over seven years inclusive of a grace period of three years. Both tranches will bear an interest rate equivalent to the London Interbank Offer Rate plus a margin of 1-1/2 percent to 2 percent per annum. Atlas has obtained the leaders' commitment to permit it to repay Tranche A at a pre-agreed discount. Once effected, the restructuring is expected to improve Atlas' financial ratios and reduce its annual debt service payments. Atlas also plans to raise additional funds from a stock rights offering when market conditions will allow it.

Financial advisers for the restructuring consisted of AB Capital Corporation, the Asian Oceanic Group, and Citicorp International Limited. The agent for the lenders under the restructuring agreement is the Chase Manhattan Bank, N.A. while the trustee under the mortgage trust indenture is the Hong Kong and Shanghai Banking Corporation.

EL SEGUNDO, CA (NOV. 5) PR NEWSWIRE - Pursuant to authority previously granted by the board of directors of Wyle Laboratories (NYSE: WYL), Stanley A. Wainer, chairman of the board, today announced a plan to purchase from time to time in the open market, or through negotiated purchases, up to 1,000,000 shares of the corporation's common stock. A total of 9,766,000 shares of common stock is currently outstanding.

The shares acquired will become authorized but unissued shares and would be available for various corporate purposes. The funds required for the stock purchases will be provided out of working capital and bank borrowings. No time limit was set for the completion of the program.

Wainer said: "We believe that the current market price of Wyle's common stock does not accurately reflect the underlying value of the outstanding shares. Accordingly, we believe the reactivation of our share repurchase program represents a sound investment of company resources."

Wyle Laboratories is one of the nation's leading marketers of high-technology electronic components and computer systems. The company is also a major supplier of research, engineering and testing services to the aerospace, defense and energy industries.

LOS ANGELES (NOV. 5) PR NEWSWIRE - Calprop Corp. (AMEX: CPP), a California homebuilder, reported today that its board of directors voted to suspend issuance of dividends for the fiscal year ending Dec. 31, 1990. Victor Zaccaglin, chairman and chief executive officer, said, "In light of the depressed market for all real estate company stocks and the slowdown in the California housing market, we believe it would be counter-productive to issue a stock dividend at this time."

Building and marketing homes for over 28 years, Calprop is a conservatively managed company providing architecturally award winning, quality homes in some of the state's most desirable communities in the San Francisco Bay Area, the greater Los Angeles region and the Inland Empire of Riverside and San Bernardino counties.

CONTACT: Scott Barnes of Calprop, 213-306-4314; or Nick Farina, 312-266-7800;

ORANGE, CALIF. (NOV. 5) PR NEWSWIRE - West Coast Bancorp (NASDAQ: WCBC), a California regional multi-bank holding company, today reported a loss for the third quarter ended Sept. 30, 1990, of $904,000 or 10 cents per share, compared to earnings of $761,000 or 8 cents per share in 1989. For the nine months, the company reported a loss of $197,000, or 2 cents per share, compared to earnings of $1.4 million, or 15 cents per share, in the same period last year.

John B. Joseph, chairman and chief executive officer, said, "The third quarter loss resulted from the addition of $3.6 million to the provision for loan losses including $2.1 million at our non-bank subsidiary, West Coast Realty Finance, which discontinued its operations in April 1990. The provision was increased due to charge-offs of $3 million, including $1.4 million reported in August 1990 at West Coast Realty Finance, and to increase loan loss reserves in response to a weaker economy. West Coast Bancorp was profitable in both the first and second quarters of this year. We believe we can regain profitability in the fourth quarter and report a small profit for the full year."

Financial Performance Net interest income at $6.8 million remained flat for the three months compared to the prior year and increased 4.6 percent to $20.6 million for the nine months. Non-interest income for the quarter of $1 million was down from $1.6 million in 1989 and declined to $3 million from $3.8 million for the nine months due to the discontinuation of loan origination and servicing activities at West Coast Realty Finance. Also, the third quarter of 1989 included a non-recurring gain on the sale of a fixed asset of $553,000.

Non-interest expense declined 5.7 percent for the three months to $5.8 million and increased 3.5 percent to $18 million for the nine months. Non-interest expense as a percentage of average assets declined in 1990 over 1989 for the three and the nine month periods.

West Coast Bancorp operates three subsidiaries in two of California's fastest growing areas: Sunwest Bank and Heritage Thrift & Loan Association in Orange County; and Sacramento First National Bank in Sacramento County. Established as a bank holding company in 1984, with approximately $40 million in assets, the company has grown to over $470 million in assets today. West Coast Bancorp trades on the NASDAQ National Market System under the Symbol WCBC.

APPLIED DNA SYSTEMS' SUBSIDIARY RECEIVES $320,000 R&D GRANT APPROVAL BY RIPSAT

WARWICK, RI (NOV. 5) PR NEWSWIRE - Applied DNA Systems, Inc. (the company) today announced that the Rhode Island Partnership for Science and Technology (RIPSAT) approved $320,000 in research funding for the company's wholly owned subsidiary, Analytical Biosystems Corporation (ABC).

This research program will be directed toward the development of a test to determine the sensitivity of malignant tumors to the combined treatment of chemotherapy and radiation. This research project is expected to take two years.

The Rhode Island Partnership for Science and Technology was established in 1985 by the State of Rhode Island as a fund to be a catalyst for the development of the high-tech sector in Rhode Island.

The approval of the grant was announced on Nov. 2, 1990, during a press conference held at the state house by the governor of Rhode Island, Edward D. DiPrete. The full text of the announcement follows:

DiPrete Announces Rhode Island Partnership Funding for New Cancer Treatment Testing Research Gov. Edward D. DiPrete today announced that the Rhode Island Partnership for Science and Technology has approved $320,338 in research funding for Analytical Biosystems Corporation (ABC) of Warwick. ABC will collaborate with Dr. Boris Rotman and Dr. John Leith of Brown University on the research project, which is expected to take two years and cost over $534,000 in total.

This research program will be directed toward the development of a test to determine the sensitivity of malignant tumors to the combined treatment of chemotherapy and radiation.

According to the governor, the test that ABC is proposing to develop will significantly enhance the quality and effectiveness of anti-cancer therapy for countless cancer patients. "Many of us have loved or known someone afflicted with cancer. And because of the determined efforts of companies like ABC, many have been given a fighting chance in their battle against what was once an almost certainly fatal condition. I applaud ABC's efforts and wish them the greatest success," the governor remarked.

The DiPrete administration established the Partnership for Science and Technology in 1985 to be a catalyst for the development of the high-tech sector in Rhode Island. To date, the partnership has invested more than $3 million in research of commercial promise at Brown, URI, Miriam Hospital and Roger Williams Hospital, and eight companies have invested more than $6 million in these projects. In addition, the partnership has thus brought about more than $9 million of research at local colleges and hospitals.

Analytical Biosystems Corporation was originally founded in 1985 by Dr. M. Boris Rotman of Applied DNA Systems, Inc. and Brown University Research Foundation, who was the 1990 recipient of the Governor's Science and Technology Award.

According to Dr. Patricia Meitner, who will direct the research at ABC, the funds provided by the state will assist the effectiveness of radiation used in combination with chemotherapy drugs for the treatment of certain types of cancers.

"What we know already is that every individual cancer patient's response to therapy is different and unpredictable; cancer is truly an individual disease. Once proven, our new test will provide oncologists with important information to enhance the effectiveness of treatment for cancer patients," Meitner explained, "enabling them to act with confidence in offering combined therapy to those patients predicted as likely to respond."

"Further," she said, "those predicted unlikely to respond will be spared from the sometimes devastating side effects of an ineffective treatment."

Meitner went on to say, "We are encouraged by the interest and support given to our innovative technologies by Gov. DiPrete, the Department of Economic Development, and particularly the Rhode Island Partnership for Science and Technology. We are gratified that they have acted with such foresight in supporting our research efforts here at ABC. In this climate of federal cutbacks in all areas of research, it is refreshing to those of us involved in research and development to find such enthusiasm and support locally."

Bruce Lang, executive director of the partnership, stated that he is "very pleased with the establishment of Analytical Biosystems in Rhode Island. The partnership has been working with ABC for over a year to develop this grant. This research, to be done in collaboration with Brown University and the

eventual commercialization of the resulting cancer test, should bring substantial note to all Rhode Island elements involved -- ABC, Brown and the State of Rhode Island. This union among business, education and state government is what the Partnership for Science and Technology is all about." Lang said, "This leading edge company is an extremely good example of Rhode Island's growing sophistication in the commercial biomedical field."

Analytical Biosystems operates a 10,000-square-foot laboratory in Warwick, R.I., and is licensed by the State of Rhode Island. In July of this year, ABC granted Adria Laboratories, a division of Erbamont, an exclusive option to enter into an executive sales agency agreement for the marketing of ABC's chemosensitivity assay. Adria, which has approximately 100 oncology specialty sales representatives, is a leader in the North American oncology market.

According to Dr. Kenneth E. Blackman, president of ABC, "The relationship with Adria brings to ABC 17 years of marketing experience in the chemotherapy marketplace. Adria has a strong research team that has successfully brought to the market several major drugs which generate annual sales of over $200 million."

#90309p3380 11/05/1990 ~PR Newswire

HOUSTON (NOV. 5) PR NEWSWIRE - Wainoco Oil Corporation (NYSE: WOL) today reported revenues for the three months ended Sept. 30, 1990 of $12 million, 22 percent above $9.8 million in the prior year's period. Net income of $1.3 million, or $.06 per share, rose 132 percent over $559,000, or $.03 per share, in the 1989 quarter.

Cash flow from operating activities of $5.7 million was 35 percent higher than $4.2 million in last year's similar period. Improvements were gained through increased production and higher oil prices.

Oil production of 236,000 barrels, or 2,565 barrels per day, was 40 percent above that in last year's quarter, and its average price rose 35 percent to $21.24/bbl. Natural gas production of 5.1 billion cubic feet, or 55 million cubic feet daily, was four percent higher than that in the 1989 period but its average price of $1.25/mcf fell two percent.

The year's first nine months' revenues of $32.4 million were 11 percent above those in the prior year's period. A loss of $5.9 million, or $.30 per share, compared to net income of $2.9 million, or $.15 per share, in the 1989 period was attributable to the $7.2 million noncash write-down of U.S. properties in the first quarter.

Nine months' oil production of 571,000 barrels and its average price of $18.57/bbl were both 18 percent above those reported in the prior year's period. Natural gas production of 15 billion cubic feet and its average price of $1.31/mcf were slightly higher than those in the initial nine months of 1989.

"Record production for the year to date has been achieved through our expanding exploration and acquisition programs," said John B. Ashmun, Wainoco's chairman. He also stated that further gains would result from the company's improving operations as well as from higher prices.

Wainoco Oil Corporation is an oil and gas exploration and production company with operations throughout North America. Wainoco's common shares are listed on the New York and Alberta Stock Exchanges.

BILLERICA, MASS. (NOV. 5) PR NEWSWIRE - CSP Inc. (NASDAQ: CSPI) released its audited financial results for the fiscal year ended Aug. 31, 1990. The company president, Samuel Ochlis, reported that sales for fiscal 1990 were $11,298,000 as compared to sales for the previous fiscal year which were $12,040,000. The sales decrease was due to the transition from selling a chassis-based array processor system to a new board-level array processor product.

The company's net income ws $839,000, or 31 cents per share, which was down slightly from the previous fiscal year of $869,000, or 32 cents per share.

Ochlis indicated that he is encouraged about fiscal 1991 with the success of new SuperCard family of array processors which were introduced during the fiscal year. The MasterScan Interpretive Densitometer, which has become a reality after four years of development, will broaden CSPI's product base.

CSPI was formed in 1968 with specific strengths in signal processing and computer technology. Today, CSPI is recognized as a leading manufacturer of array processors to enchange a computer's ability to perform high-speed arithmetic. Markets served include science and engineering applications in signal processing, sonar/radar/ASW, image processing, seismic research, medical imaging, electronic publishing and others. In addition to its array processors products, CSPI recently formed a new division called Scanalytics for the development and marketing of turnkey image analysis systems. CSPI is a public company with stock traded over the counter via NASDAQ.

CHICAGO (NOV. 5) PR NEWSWIRE - American businessman Raymond G. Ankner, president and chairman of the board of the InterAmerican Companies headquartered in Chicago, shared Germany's achievement by recently flying 250 top producers to Germany.

InterAmerican is part of a U.S.-based financial concern consisting of insurance, actuarial consulting and financial entities. The company provides innovative life, annuity and investment products for group and individual markets.

Said Ankner, "We could not have chosen a better time to share in Germany's victorious and historical event. We are cognizant of Germany's enhanced status in the world. As it is now faced with being a country with wider opportunities so is it faced with being a fully independent country. Our recent trip to Germany was indicative of our respect for the country as a growing influence on the world economy."

At a reception, guest speakers Otto Wolff von Amerongen, senior president of the Chamber of Industry and Commerce of Cologne; Norbert Burger, lord mayor of Cologne; and Joern Badenhoop, director, German Life Insurance Association, addressed the economic impact of the reunification.

Included in the week's activities was a tour of the Gerling-Konzern Globale headquarters. Gerling-Konzern is a worldwide group of Insurance and Reinsurance companies, with headquarters in Cologne, Germany. One of its companies, the Gerling-Konzern Global is one of the world's ten largest professional reinsurers.

Ankner commented, "Because of the nature of our business, we require an understanding of the marketplace that is global as well as local. Through our meetings in Cologne and Munich, which included German dignitaries, we gained an appreciation of the new power the European common market will bring to the world economy in general, and the insurance market in particular.

"We are also in a better position to understand the dynamics of such historical events as the breaching of the Berlin Wall, the collapse of communism and the first free elections in the East, and the start of German economic and monetary union."

"Our trip to Munich gave us a better appreciation of the opportunities and challenges that lie ahead for corporations worldwide," stated Ankner. "We now have a greater understanding of the social, economic, and political impact on American business working in partnership with European-based organizations."

VIENNA, VA. (NOV. 5) PR NEWSWIRE - Cable & Wireless Communications (NYSE: CWP), the nation's largest telecommunications company which exclusively serves businesses, has reached an agreement to acquire the assets of Washington-based Alba Data Technology, which operates under the trade name DataAmerica.

DataAmerica provides domestic and international data networking services to Fortune 1000 businesses.

Financial terms of the agreement were not disclosed. According to C. Alan Peyser, president of Cable & Wireless Communications, the acquisition is a strategically important step for Cable & Wireless as it prepares to offer end-to-end enhanced data networking services to transnational companies with global networking requirements.

DataAmerica currently provides domestic and international packet switching services including async, 4.8 and 9.6 Bps public dialing; X.25, X.75 and SDLC interconnection; fractional T-1 service; private network service; electronic messaging; basic value-added and IBM/SNA networking services; gateway services and access to more than 850 information retrieval services. Service will continue to be offered under the trade name DataAmerica.

Cable & Wireless Communications, owned by London-based Cable & Wireless plc, provides a wide range of switched and private line services exclusively to businesses through a fiber optic-based network which stretches from coast to coast. The company made its foray into the electronic messaging market in May when it introduced a feature-rich enhanced facsimile service called SureFax.

Cable & Wireless plc is one of the world's largest multinational telecommunications companies. Cable & Wireless has more than 100 years of experience in the field of telecommunications and provides service to customers in 48 countries. The company is in the final stage of building the first Global Digital Highway which will link the world's major financial centers via optical fiber.

PITTSBURGH (NOV. 5) PR NEWSWIRE - James L. Gallagher, a 27-year Westinghouse Electric Corp. (NYSE: WX) veteran, has been promoted to general manager of the corporation's Government Operations Business Unit.

Gallagher will succeed Dr. William M. Jacobi, who has elected to retire on Feb. 1 after 35 years of Westinghouse service.

The business unit, headquartered near Pittsburgh, provides management and operations oversight for five U.S. Department of Energy (DOE) nuclear sites. These include the Feed Materials Production Center, near Cincinnati; the Idaho Chemical Processing Plant, near Idaho Falls; the Waste Isolation Pilot Plant, near Carlsbad, N.M.; the West Valley Demonstration Project, at West Valley, N.Y.; and the Hanford Site, near Richland, Wash.

Westinghouse Savannah River Co., a wholly-owned subsidiary which manages and operates the DOE's Savannah River Site (SRS), near Aiken, S.C., will continue to operate as a separate business unit.

The Government Operations Business Unit also has oversight responsibility for the corporation's machinery technology division, at Large, Pa., which provides engineering services for the U.S. Navy.

Gallagher is presently vice president and general manager of Westinghouse Savannah River Co.'s reactor restart division. He was appointed vice president and general manager of the company's engineering and projects division in April of last year, when Westinghouse assumed management of the site from E.I. du Pont de Nemours and Co.

In recent years, Gallagher served as general manager of Westinghouse's nuclear technology systems division, strategic programs manager for the corporation's commercial nuclear power business and president of Westinghouse Nuclear Espanola.

Gallagher is a University of Pittsburgh graduate and holds bachelor of science and master of science degrees in chemical engineering. He also attended Pennsylvania State University's executive management program.

His present duties will be assumed by Paul D. Rice, who will bring to SRS 24 years of experience in nuclear reactor technology. For the past year, Rice has worked as a consultant to the nuclear industry. From 1982 to 1989, he held various management positions with Georgia Power Co., most recently as executive vice president and project director of the utility's Vogtle nuclear power plant in Waynesboro, Ga.

Prior to joining Georgia Power, Rice held various management positions in DOE's Naval reactors program in Vallejo, Calif.; Pascagoula, Miss.; Pearl

Harbor, Hawaii; and Washington, D.C.

SEATTLE (NOV. 5) PR NEWSWIRE - Malaysia Airlines (MAS) has ordered 10 Boeing 737-400 passenger jets and acquired 10 options, to meet long-term domestic and regional traffic growth, Boeing Commercial Airplane Group confirmed today.

Value of the 10 firm orders is about $330 million. In 1989 Malaysia Airlines signed an agreement with Boeing for 10 twinjet 737-400s and six 737-500s and obtained options for 16 more. With today's agreement, Malaysia Airlines now has on firm order a total of 20 Boeing 737-400s, six 737-500s and 16 options.

The new airplanes will replace an existing fleet of 12 Boeing 737-200s and a number of interim 737-400s currently being leased.

MAS Managing Director Tan Sri Abdul Aziz said, "The new twinjets will help the airline increase capacity and expand its service domestically as well as throughout Asia, where we foresee continued traffic growth."

The MAS-configured 737-400s will carry 146 passengers -- 20 more than the older 737-200s -- and will have a range of approximately 3,476 kilometers (2,160 statute miles).

"We are proud to see MAS expand its route system and add new capacity with the new-technology 737 family," said James F. Chorlton, Boeing vice president, international sales.

"By purchasing additional 737 aircraft and reserving additional follow-on positions, MAS is assured of the benefits of quiet, reliable and fuel-efficient aircraft for many years into the future."

The 737-400s will be powered by CFM56-3C engines. Boeing 737-400 orders now total 264 with orders for all 737 models at 2,852.

DENVER (NOV. 5) PR NEWSWIRE - Scientific Software-Intercomp Inc. (NASDAQ: SSFT) announced today that the Securities and Exchange Commission (SEC) has commented on various matters in conjunction with the company's audited financial statements for 1989 and its Form 10-K for that year. There are two matters which remain unresolved relating to when revenue is recognized by the

company with respect to software licenses and to the amortization period of the company's capitalized software.

The company has agreed with the SEC to change its revenue recognition policy to recognizing revenues upon shipment of licensed software rather than upon execution of the licenses, although the company's prior accounting practice, which was disclosed in its financial statements, is in accordance with generally accepted accounting principles. The company has not however resolved with the SEC how to implement this change. In the company's opinion and that of its independent auditor the change should be implemented beginning with the company's 1990 financial statements and be reflected in part by a substantial one-time cumulative charge to earnings.

With respect to software amortization, the SEC has advised the company that it should utilize a shorter amortization period than the 13-year-period presently used by the company. The 13-year period was established by the company as a result of extensive deliberations with the SEC in 1984 and the company strongly believes that the continued use of this period is proper.

The company intends to pursue a favorable resolution of both these matters.

Scientific Software-Intercomp Inc., for more than 20 years, has provided high technology software and consulting services to the oil and gas industry. The company has offices in Denver, Bakersfield, Calif., Houston, Calgary, London and Cairo.

ANAHEIM, CA (NOV. 5) PR NEWSWIRE - DILOG (NASDAQ: DLOG) today announced a major expansion beyond its traditional Digital Equipment Corporation marketplace with the introduction of six new disk and tape peripheral subsystems for enhancement of engineering workstations made by Sun Microsystems Inc.

The new subsystems include internal and external disk drives, tape drives and DILOG's popular DATstacker 4mm digital audio tape drive that automates cassette handling for unattended disk backup applications. All of the new units are offered as upgrades for data storage and backup applications on Sun 3/80, SPARCstation and SPARCserver systems. All of the new subsystems use existing internal SCSI controllers and are compatible with Sun 4.1 operating system software. They are intended for use in working and archival storage for large volume computer-aided design, engineering and manufacturing applications, according to Lyle Parthemer, DILOG product manager.

"All of these desktop peripherals have been designed specifically to be user-installable, so that Sun users can upgrade their systems to handle critical, high performance engineering applications that require more primary data storage as well as secure disk backup media," Parthemer said. "The disk drives provide up to twice the storage capacity of standard Sun drives and the variety of 4mm and 8mm tape backup systems provides greater capacity as well as more convenient operation than Sun's 1/4-inch cartridge tape offering. In addition, the DATstacker system provides the ability to automatically back up CAD/CAM/CAE files and programs as large as 10.4 gigabytes during quiet periods such as overnight."

With the exception of the one internal disk drive, all of the new units simply connect to the existing SCSI (small computer systems interface) port on the

Sun workstations. They include: an internal add-in drive that provides 209 megabytes of storage capacity; 778-megabyte and 1.2-gigabyte external tabletop disk drives; tabletop 4mm DAT and 8mm cartridge tape drives; second versions of the tape drives, each with an operator status panel to indicate the status of all tape handling operations; the tabletop 4mm DATstacker tape subsystem with an automatic cartridge handling stacker. Each of the external subsystems comes complete with a "shoebox" enclosure and external cabling. The DATstacker unit includes a software driver that is compatible with Sun operating systems.

#90309p3401 11/05/1990 ~PR Newswire

BETHPAGE, N.Y. (NOV. 5) PR NEWSWIRE - Grumman Corporation (NYSE: GQ) today reported third quarter 1990 net income of $25.6 million or 75 cents per share, up 51 percent from $16.9 million or 48 cents per share in the year-ago quarter. Sales increased 11 percent to $1.01 billion from $905.4 million.

Interest expense of $24.3 million was $800,000 less than the year- ago quarter. As of September 30, long-term debt was $820.2 million, down from $865.7 million a year earlier.

For the first nine months, net income was $68.9 million or $2.00 a share on sales of $2.92 billion. In the 1989 period, net income was $52.5 million or $1.50 a share on sales of $2.69 billion.

Third quarter sales in the aerospace segment increased 13 percent to $755.9 million from $668.2 million. Operating income was up 28 percent to $45.6 million from $35.7 million.

Both sales and profit increases were primarily from the F-14D aircraft. The prices of the first seven F-14D's delivered in the 1990 nine months include non-recurring costs.

In the electronics segment, sales declined three percent to $102.6 million, from $105.6 million, as sales on the Joint STARS program were lower in accordance with the government spending plan for the test phase of the program. In the third quarter of 1989, there was a charge of $4 million for the closing of the Tachonics subsidiary, a maker of gallium arsenide electronic components.

Quarterly sales in the information and other services segment increased to $151 million from $132.3 million due to increased activity in the Data Systems and Space Station Program Support divisions. Operating income was $5.1 million after a provision of $5.8 million for potential difficulties with a foreign service contract. Comparable income for 1989 was $11.9 million.

Quarterly sales in the special purpose vehicle segment increased slightly to $99.3 million from $98 million. Operating income was $8.9 million, up from $3.2 million. The Postal Service delivery truck program continued a very strong performance with excellent operating efficiencies. Over 14,800 units were delivered in the first nine months, 260 more than the same 1989 period.

As of Sept. 30, the company's total backlog was $7 billion, up slightly from $6.9 billion a year earlier.

#90309p3406 11/05/1990 ~PR Newswire

GREENSBORO, N.C. (NOV. 5) PR NEWSWIRE - The Directors of Jefferson-Pilot Corp. (NYSE: JP) Monday declared two quarterly cash dividends, each in the amount of $.38 per share. The first dividend is payable Dec. 7, 1990 to shareholders of record Nov. 16, 1990 and the second will be payable March 1, 1991, to shareholders of record February 8, 1991.

The Corporation announced that its earnings for the nine months ended Sept. 30 1990 were $115,516,000, or $3.20 per share, compared to $96,782,000, or $2.56 per share for the first nine months of 1989. The 1990 third quarter earnings were $38,372,000, or $1.08 per share, versus $30,942,000, or $.82 per share for the third quarter of 1989.

The third quarter of 1990's earnings included $.19 per share gain from sales of investments net of income taxes. The third quarter of 1989 included $.01 per share gain from the sale of investments. This year's first nine months included $.38 per share gain from sales of investments net of income taxes compared to $.24 for the first nine of months of 1989.

The average number of shares outstanding for the quarter ended September 30, 1990 was 35,457,200, compared to 37,601,281 for the same period last year. The average number of shares outstanding for the nine months ended September 30, 1990 was 36,142,617, compared to 37,813,457 for the first nine months of last year.

#90309p3410 11/05/1990 ~PR Newswire

EAST HARTFORD, CONN. (NOV. 5) PR NEWSWIRE - Malaysia Airlines has selected Pratt & Whitney PW4000 engines to power up to seven Boeing 747-400 aircraft which the airline has on firm order or option. The engine order is worth up to $243 million to Pratt & Whitney.

This marks the first time that Malaysia has ordered the PW4000 for its growing fleet of 747-400 aircraft. The airline also previously selected the PW4000 for its Airbus A330 fleet.

Pratt & Whitney will supply Malaysia with 15 PW4000 engines, including spares, worth $100 million at time of delivery for three 747-400s on firm order.

When Malaysia converts the four option aircraft to firm orders, Pratt & Whitney will supply an additional 19 engines, including spares, worth about $143 million at time of delivery.

Deliveries of the aircraft on firm order are scheduled to begin in January 1994, with deliveries of option aircraft extending until 1999.

"Malaysia is a leading airline in a part of the world where air traffic is growing very rapidly," said William Raabe, vice president- marketing for Pratt & Whitney. "They, like many airlines in the Asia-Pacific region, see the value of the PW4000 in powering their expanding wide-body fleets."

The PW4000 is the most fuel-efficient high-thrust engine ever developed. It ranges from 56,000 to 84,000 pounds of thrust with growth capability to nearly 100,000 pounds of thrust to meet future aircraft requirements.

The PW4000 has been selected to power every wide-body aircraft currently in production or planned, including the Boeing 777 for which it is the launch engine.

Pratt & Whitney is a unit of United Technologies Corporation (NYSE: UTX) of Hartford, Conn.

#90309p3412 11/05/1990 ~PR Newswire

NEW YORK (NOV. 5) PR NEWSWIRE - The Cooper Companies, Inc. (NYSE: COO) has established a Healthcare Group and named two senior executives, Richard W. Turner and Nicholas Pichotta, to new positions.

Formal establishment of the Healthcare Group completes the second of four planned phases designed to restructure and rebuild the corporation, it was jointly announced today by co-chairman Gary A. Singer and Bruce D. Sturman.

"The Cooper Companies has successfully restructured its finances and refocused its operations during the last two years. Today, following the Oct. 31 close of this management's third fiscal year, we are pleased to announce that with the formation of our Healthcare Group and promotion of two senior executives, we have successfully completed the second of four planned phases to rebuild the corporation. Now we believe we are even better positioned for our phase III acquisition and phase IV integration program," the co-chairmen said in a prepared statement.

Named chief executive officer of the new Healthcare Group is Richard W. Turner interim president and chief operating officer of The Cooper Companies; and named to succeed him as president of the corporation's CooperVision subsidiary is Nicholas Pichotta.

Turner has 18 years experience in the healthcare field. He became president of CooperVision in 1989 after having managed the divestitures of CooperVision Surgical, Natural Y, CooperVision International and Cooper Technicon. Prior to 1989, he was president of Cooper LaserSonics.

Pichotta, previously vice president of Corporate Development at CooperVision and a 20-year executive within the healthcare industry, was named president of CooperVision. Pichotta began his career at Baxter Travenol as director of sales and marketing with its Hyland Laboratories Division, and subsequently served as president of the Surgical Laser Division of Cooper LaserSonics, Inc.

CooperVision, which presently manufactures and/or distributes some 15 brands of contact lenses including two special lines of lenses for use by individuals following surgery, targets specialty niches in selected segments of the contact lens market. Among its major products are soft and rigid gas permeable lenses sold through its own sales representatives and telemarketing experts to both optometrists and ophthalmologists in the United States and Canada under its Vantage, Mystique, Permaflex and Flouroflex trademarks.

GROSSE POINTE, MICH. (NOV. 5) PR NEWSWIRE - William T. McCormick Jr., chairman and chief executive officer of CMS Energy Corporation (NYSE: CMS), was today awarded the first Hugh A. Wichert Business Excellence Award by the Rotary Club of Grosse Pointe.

The award will be given annually to an individual who best meets the following criteria:

1. Statesmanlike leadership in the encouragement of excellence in the practice of managing business and community affairs.

2. A business leader who believes in, strives for, and inspires others to the ethical management of business and life.

3. One who puts knowledge to practical use, using Wichert principles of M.B.E., which stand for Master of Business Excellence.

Mentor - a leader who is a mentor to others
Builder - a leader who helps to build others
Exemplar - a leader who is always an example to others

Mr. Wichert, a former Grosse Pointe Rotarian who is now deceased, distinguished himself as a business adviser and consultant for many Fortune 500 companies.

In presenting the award to McCormick, the Rotary Club said he exemplifies business excellence through his commitment in his faith, his personal and professional life. The award, the Club said, is presented to McCormick due to his contribution to the life of the community and to the economic betterment of Detroit.

"You have stood for the excellence for which we all strive and have been an outstanding example and role model for the young of our nation," said Theodore C. Hadgis, D.D.S., president of the Rotary Club.

McCormick is also chairman of the board and chief executive officer of CMS Energy Corporation's principal subsidiary, Consumers Power Company.

CMS Energy Corporation is a $3 billion (sales) diversified electric and gas utility with additional interests in oil and gas exploration; gas transmission and storage; cogeneration and independent power generation; and utility services. CMS Energy is headquartered in Michigan and its utility operations are the 11th-largest in the United States serving 6 million of the 9 million residents of the state.

#90309p3427 11/05/1990 ~PR Newswire

LISLE, IL (NOV. 5) PR NEWSWIRE - The Van Kampen Merritt Limited Term High Income Trust (NYSE: VLT) and Van Kampen Merritt Intermediate Term High Income Trust (NYSE: VIT) announced today that the board of trustees of each trust has authorized the repurchase of up to 25 percent of the initial outstanding preferred shares. The preferred shares of the Limited Term Trust, liquidation preference $25 per share (the "preferred shares"), are listed on the New York Stock Exchange under the symbol, "VLTpr." The preferred shares of the Intermediate Term Trust, liquidation preference $100,000 per share, have been designated Auction Market Preferred Shares (the "AMPS").

The board of trustees of each trust had previously authorized each trust to repurchase or redeem up to 25 percent of their outstanding preferred shares. Van Kampen Merritt noted that each trust has recently substantially completed the repurchase of the preferred shares previously authorized to be repurchased. The Limited Term Trust currently has outstanding preferred shares with an aggregate liquidation preference of approximately $46.5 million. The Intermediate Term Trust currently has outstanding AMPS with an aggregate liquidation preference of approximately $63.8 million.

In accordance with the terms of the preferred shares and under the Investment Company Act of 1940, each trust is required to maintain net assets with a value at least equal to 200 percent of the aggregate liquidation preference of

its outstanding preferred shares. The board of trustees of each trust has authorized each trust to repurchase in the open market or to redeem up to 25 percent of its initial outstanding preferred shares in order to increase the trust's asset coverage margin. Preferred shares may be repurchased in the open market by each trust at a price per share equal to its market value (or, in the case of Intermediate Term Trust, a liquidation preference plus accrued dividends). The terms of the preferred shares of each trust also provide that at the trust's option, the trust may redeem all or a portion of its outstanding preferred shares at a price per preferred share, in the case of the Limited Term Trust, of $26.90 plus accrued dividends, and at a price per AMPS, in the case of the Intermediate Term Trust, of $100,000 plus accrued dividends. Preferred shares of either trust called for redemption would be selected by lot, on a pro rata basis or by such other method as the trust deems fair and equitable.

Each trust is a closed-end management investment company. The investment objective of each trust is to provide their common shareholders with high current income, while seeking to preserve shareholders' capital, through investment in a diversified portfolio of high-income producing fixed-income securities. Each trust invests primarily in medium- and lower-grade, fixed-income securities. The preferred shares of the Limited Term Trust and the AMPS of the Intermediate Term Trust are currently rated "AAA" by Standard & Poor's Corporation and "aaa" by Moody's Investors Service.

#90309p3433 11/05/1990 ~PR Newswire

CAMBRIDGE, MASS. (NOV. 5) PR NEWSWIRE - Advanced Magnetics, Inc. (NASDAQ: ADMG) announced today that it achieved record sales in the fiscal year ended Sept. 30, 1990.

Revenues for the fiscal year ended Sept. 30, 1990 increased 21 percent of $9,312,000 from $7,719,000 in the year-earlier. Net income for fiscal year 1990 was $481,000 or 14 cents per share compared to $1,056,000 or 34 cents per share for the 1989 period.

Revenues for the fourth quarter ended Sept. 30, 1990 were $2,386,000 compared with revenues of $2,363,000 for the fourth quarter of 1989. Net income for the 1990 quarter was $211,000 or 6 cents per share compared to $513,000 or 16 cents per share for the 1989 quarter.

The company said the increase in revenues was due to a 26 percent increase in

product sales and the effect of the license agreements it completed with Eiken Chemical Company, Ltd. of Tokyo and Mallinckrodt Medical, Inc. of St. Louis, Mo.

The company said research and development expenses including expenditures for human clinical trials and pre-clinical toxicology increased 59 percent to $5,217,000 in 1990 from $3,283,000 in 1989 and that this increase was an offset to the gain in revenues.

Advanced Magnetics, Inc. is a medical diagnostics company devoted to the development and manufacture of diagnostic pharmaceuticals for use with magnetic resonance imaging as well as clinical and research products for in-vitro testing.

#90309p3434 11/05/1990 ~PR Newswire

CALGARY, ALBERTA (NOV. 5) PR NEWSWIRE - Alberta Natural Gas Co. (Toronto, Montreal, Vancouver, Alberta: ANG) reports today that the unaudited consolidated net income in the third quarter of 1990 was $6.0 million or 29 cents per share, compared with $6.7 million or 31 cents per share in 1989.

Unaudited consolidated net income for the nine months ended Sept. 30, 1990, was $16.9 million on revenue of $274.3 million or 80 cents per share, compared with $17.7 million on revenue of $273.5 million or 83 cents per share during the same period in 1989.

The reference in the Earnings Statements to discontinued operations reflects the final disposition of the assets of Angus Biotech Inc. at the erythromycin facility at Long Beach, Calif. The 1989 operating results from this facility have been restated to ensure that results from continuing operations are comparable.

Lost sales to the agricultural markets in Florida due to cold weather, resulted in a decrease in earnings in the chemical business during the first half of 1990. However, earnings in the chemical business recovered to 1989 levels for the third quarter of 1990.

Earnings from the hydrocarbons business show slight improvement over 1989, although a positive impact from the increase in prices for natural gas liquids has yet to be fully realized.

ANG's profits continue to be negatively affected by high interest rates in Canada and the corresponding high price of the Canadian dollar versus the

United States dollar.

In the third quarter, ANG acquired a controlling interest in the MagCan partnership by increasing its interest from 50 percent to 54 percent. As a result, MagCan will be fully consolidated with ANG.

MagCan is in the process of increasing its production of high quality magnesium. However, the operation is not yet commercial and therefore all related costs are being capitalized.

ANG is a Calgary-based company operating in three business areas - hydrocarbons, specialty chemicals and magnesium. ANG common shares are listed on Toronto, Montreal, Vancouver and Alberta Exchanges and traded under the symbol ANG.

DETROIT (NOV. 5) PR NEWSWIRE - Toyota Motor Sales, U.S.A., Inc. today established a record for car sales in the Midwest for the month of October.

Toyota sold 12,277 cars in 14 Midwestern states during October 1990, a 13.7-percent increase over the same month of 1989 when 10,802 cars were sold.

Toyota car sales in the Midwest during the first 10 months of 1990 increased 16.8 percent to 133,981 from 114,757 reported Jan. 1 to Oct. 31, 1989.

In Toyota's Chicago Region, which includes the states of Illinois, Indiana, Wisconsin, Minnesota and Michigan (Upper Peninsula), car sales in October were up 20 percent to 5,165 from 4,303. Sales in the first 10 months of 1990 were 53,151 an 18.4-percent increase from 44,884 for the same period last year.

In Toyota's Cincinnati Region, which includes the states of Ohio, Michigan (Lower Peninsula), Kentucky and Tennessee, car sales in October were up 11.8 percent to 5,132 from 4,592. From Jan. 1 to Oct. 31, sales posted a 16.5-percent increase to 59,588 from 51,146.

In Toyota's Kansas City Region, which includes the states of Missouri, Kansas, Iowa, Nebraska, North Dakota and South Dakota, car sales for the month increased to 1,980 from 1,907 in October 1989. For the 10-month period this year, sales totaled 21,242, an increase of 13.5 percent over last year's 18,727.

In addition to Toyota car sales, Lexus dealers in the Midwest sold 863 Lexus LS 400 and ES 250 luxury cars in October, a 96-percent increase. Lexus sales in the first 10 months of 1990 in the Midwest totaled 7,941. Lexus is the

luxury car division of Toyota Motor Sales, U.S.A., Inc.

DETROIT (NOV. 5) PR NEWSWIRE - General Motors and its employees announced today that they will contribute approximately $11.3 million to the 1990 United Way Torch Drive Campaign.

The total includes contributions of $7,702,246 from the Detroit-area GM employees and $2,300,000 from Pontiac-area GM employees. Employees from GM facilities in Ypsilanti contributed an additional $198,134.

Combined with a $1,095,000 contribution from the GM Foundation, employee pledges and contributions totaled $11,299,380. That total far exceeded GM's goal of $9.2 million.

This year's gift was announced by co-chairs of the GM employee campaign, Richard F. O'Brien, vice president of the GM Personnel Administration and Development Staff and UAW Vice President Stephen P. Yokich, director of the Union's GM Department.

In congratulating GM employees for once again exceeding their campaign goal, O'Brien and Yokich said, "It is heartwarming to know that GM people who work so hard to put 'Quality on the Road,' are putting that same level of quality back into our community through their generous contributions."

TROY, MICH. (NOV. 5) PR NEWSWIRE - Fayette Tubular Products (FTP), a leading supplier of automotive air conditioner tube-and-hose assemblies, has appointed veteran automotive supplier executive Robert S. Marty to general manager of a major manufacturing plant in Fayette, Ohio.

Marty joined FTP from Kelsey-Hayes Corp., where he was vice president in charge of its Western Wheel subsidiary, which produces aluminum wheels. He worked his way up to that vital post over the course of 22 years.

Marty first joined Kelsey-Hayes in 1968 as a process engineer at its plant in Milford, Mich., where he worked on processes for producing antilock braking systems.

He then was promoted to corporate manufacturing engineer. In this assignment he set up a brake caliper plant in Germany to service Volkswagen.

He later went to the Rockford, Ill., heavy truck wheel plant, as project engineering manager, where he worked on developing the braking system for Chrysler's K-cars.

Marty has served as operations manager for two plants in Jackson, Mich., responsible for manufacturing, engineering, and maintenance. He also was general manager of two plants in Davenport, Iowa, that produce wheels for agricultural and off-highway equipment.

In 1987, Marty was promoted to vice president in charge of the Western Wheel subsidiary, with responsibility for operating three aluminum wheel plants, as well as marketing, product development and other key functions.

Headquartered in Troy, Fayette Tubular Products specializes in developing automotive air conditioner tube-and-hose assemblies, and supplies them directly or indirectly for most of the North American automakers. The company operates plants in Fayette, Ohio, Oxford and Reading in Michigan, and in Livingston, Tenn.

Fayette Tubular Products is a subsidiary of the Danaher Corporation (NYSE: DHR), a major manufacturing company headquartered in Washington, D.C., and listed on the New York and Pacific stock exchanges.

TROY, MICH. (NOV. 5) PR NEWSWIRE - Fayette Tubular Products, Inc. (FTP) has centralized all of its corporate, engineering, research and development, sales and marketing activities at a new world headquarters at 1835 Technology Drive in Troy.

Establishing the Troy world headquarters involved the transfer of FTP's extensive research and development laboratory from its former location in Fayette, Ohio. In addition, design, engineering and product prototype facilities were consolidated at Troy from Fayette and Reading, Mich.

FTP specializes in designing and supplying air conditioner tube-and- hose assemblies for the automotive industry, and serves most of the automotive companies operating in North America.

FTP operates advanced production facilities that utilize cellular one-piece flow processing technology, at Fayette, Reading and Oxford in Michigan, and

Livingston, Tenn.

According to James Sheline, FTP president, relocation of these functions to the new Troy world headquarters improves communications with many primary customers, who can now participate on-site in FTP's product development and testing programs.

BALTIMORE (NOV. 5) PR NEWSWIRE - The Westinghouse Electric Corporation (NYSE: WX) has acquired Innovative Computing Corporation (ICC), a leader in management systems for the trucking industry, it was announced today.

ICC, in business for more than 20 years, employs 175 people and has among its 500 customers many of the major domestic and international freight transportation companies. The company also has operations in Bristol, England.

ICC, of Oklahoma City, will become a subsidiary of the Westinghouse Electronic Systems Group, headquartered here. G.D. Madden, an ICC founder, will remain as president. Terms of the acquisition were not disclosed.

Edward N. Silcott, vice president and general manager of the Westinghouse Commercial Systems Divisions, said: "The ICC acquisition is a key step in the corporation's strategy to carry its electronic systems technology and expertise into non-defense markets. ICC will provide us with the marketing experience, technology and leadership to enable us to contribute significantly in the cargo and freight management systems market."

Westinghouse, a diversified company which had 1989 sales of $12.8 billion, offers a number of services and products to the transportation industry. Thermo King, a subsidiary, is a world leader in transportation temperature control. Westinghouse also supplies air traffic control equipment and systems to the nation's airports.

The Electronic Systems Group furnishes a range of electronic systems and services for military, civilian and commercial applications. It has annual sales of about $3 billion and is diversifying into non-defense markets, as represented by the ICC acquisition.

MORRISTOWN, N.J. (NOV. 5) PR NEWSWIRE - Barringer Resources Inc. (NASDAQ: BARR) today announced that its Ionscan drug and explosives detection equipment has been successfully tested in field demonstrations by the U.S. Customs Service.

Barringer's Ionscan unit was field tested by the U.S. Customs Service at the San Ysidro and Otay Mesa border crossings in Southern California. It successfully demonstrated its ability to detect minute traces of drugs on vehicles, luggage and people and even detected and identified narcotics missed by conventional detection means. For this particular test, the U.S. Customs requested that the Ionscan unit be preprogrammed and calibrated for narcotics detection, specifically heroin and cocaine.

The Ionscan unit can detect narcotics and explosives in under six seconds -- a feature that takes on added significance at border crossings where thousands of vehicles pass through daily and where customs officers must process many vehicles and packages quickly.

Several U.S. and Canadian government agencies, including International Civil Aviation Organization, FBI, U.S. Drug Enforcement Agency, Revenue Canada, the Royal Canadian Mounted Police, National Research Council, and Transport Canada have evaluated Ionscan prototype units, and were impressed with their explosive and drug detection capability. Transport Canada (FAA's Canadian counterpart), Revenue Canada (Canadian Customs), and the U.S. Customs Service provided partial funding for the development of the detector.

At San Ysidro, Ionscan operated for 16 hours successfully sampling cars, people, briefcases, bags, etc. In every case where other methods detected drugs, Ionscan confirmed their presence; in some cases where other methods failed, Ionscan detected drugs.

The conclusion of these tests and field demonstrations is that Ionscan is an effective drug detection device and is fast, sensitive and accurate. Ionscan has demonstrated to the U.S. Customs Service, and other agencies which have tested it, that if narcotics are present, even in minute quantities, it can detect and identify them.

The tests conducted by the U.S. Customs Services appear to confirm that the high sensitivity, speed and reliability of Barringer's Ionscan unit will prove extremely valuable in identifying drug traffickers, who will have taken great pains to conceal and camouflage their illicit cargoes.

Barringer Resources revealed that its Ionscan unit has been involved in a number of other field tests and demonstrations, the details of which cannot be released due to the sensitive nature of the tests. In all cases, however, the field trials have unequivocally demonstrated the efficacy of the system.

Headquartered in Morristown, Barringer Resources Inc. is a holding company with two operating entities: Barringer Laboratories, Inc. (NASDAQ: BALB), 48 percent-owned, provides analytical testing services for the environmental and minerals industries; Barringer Instruments Inc., develops, manufactures and markets specialty analytical instruments for security, law enforcement, exploration and environmental monitoring applications.

#90309p3444 11/05/1990 ~PR Newswire

TROY, MICH. (NOV. 5) PR NEWSWIRE - Fayette Tubular Products (FTP) has appointed a new general manager at its automotive air conditioner tube-and-hose assembly plant in Livingston, Tenn., which specializes in developing and supplying assemblies used in American-made cars and by several Japanese automakers.

Danny L. Kirby, a native of Tennessee, joined FTP as Livingston general manager after serving for the past six years with the Jacobs Brake Division of Jacobs Manufacturing Company, a leading manufacturer of heavy-duty vehicle engine retarders. Both FTP and Jacobs Manufacturing are subsidiaries of the Danaher Corporation (NYSE: DHR), a major manufacturing company headquartered in Washington, D.C., and listed on the New York and Pacific stock exchanges.

Kirby formerly was operations manager at Jacobs Brake, and played a major role in implementing just-in-time (JIT) production and shipping methods with that company. He was a specialist in developing the flexible cellular production concept, which also is widely used at all of FTP's plants.

Before being named operations manager at Jacobs Brake, Kirby had held positions as general manager of sales and service, eastern region manager, national accounts manager and territory manager.

Kirby also has 10 years' production experience with Ford Motor Company, having worked in various production positions, including foreman, with the Ford glass plant in Murfreesboro, Tenn., from 1968 to 1978.

He holds a bachelor of business administration degree from Middle Tennessee State University, and also studied civil engineering at Tennessee Technological University.

Kirby is a member of the Heavy Duty Manufacturers Association, Heavy Duty Business Forum, The Maintenance Council and the Motor and Equipment Manufacturers Association.

Headquartered in Troy, Fayette Tubular Products is one of the nation's leading suppliers of automotive air conditioner tube-and-hose assemblies, and operates four major plants to develop and manufacture these products.

The plants are located in Livingston, Tenn., Oxford and Reading in Michigan, and in Fayette, Ohio.

#90309p3451 11/05/1990 ~PR Newswire

NEW YORK (NOV. 5) PR NEWSWIRE - Time Publishing Ventures, Inc., which already owns 50 percent of In Health magazine and its related businesses, has reached an agreement in principle to acquire the remaining half, the company announced today.

Time Publishing Ventures is The Time Inc. Magazine Company unit responsible for the company's regional and special interest magazines and its worldwide development activity.

Widely recognized for its editorial excellence, In Health is a bimonthly consumer health magazine published in Sausalito, Calif. It was originally launched as Hippocrates which is now the name of a trade edition for physicians. The name changes took effect with the January/February 1990 issues of both magazines.

The publication won two National Magazine Awards in its first two years -- for General Excellence in 1988 and for Best Single Topic Issue in 1989. In 1990, the magazine was a finalist in three National Magazine Award categories -- General Excellence, Design, and Photography.

In Health, which is the fastest growing health magazine in America, will increase its rate base to 800,000 with its March/April 1991 issue. The magazine, which was conceived as a single source of reliable and readable information about health for an educated audience, premiered in April 1987 with a rate base of 300,000.

Hippocrates, a controlled circulation publication for physicians that carries pharmaceutical advertising, was also part of the transaction announced today. It has a similar editorial package to In Health, but includes some different articles geared to physicians' specific interests. It is sent to 120,000 family practitioners, general practitioners, cardiologists, internists and osteopaths.

A subsidiary of The Time Inc. Magazine Company, the nation's largest magazine

publisher and a wholly owned subsidiary of Time Warner Inc. (NYSE: TWX), Time Publishing Ventures, Inc. purchased 50 percent of the company, Hippocrates Partners, which publishes both In Health and Hippocrates, in November 1988.

Financial terms of the transaction were not disclosed.

#90309p3452 11/05/1990 ~PR Newswire

AUSTIN, TEXAS (NOV. 5) PR NEWSWIRE - Volvo Cars of North America today announced that it has voluntarily withdrawn its recent advertisement showing a "Monster Truck" attempting to crush a row of cars. The ad was challenged by Texas Attorney General Jim Mattox.

Volvo stated the concept for this ad came from an actual "Monster Truck" event which was conducted by the Arthritis Foundation of Vermont on Sept. 11, 1988. According to a letter and video tape received by Volvo, after repeated passes by a "Monster Truck," the passenger compartment of a Volvo 240 station wagon remained largely intact and uncrushed while the cars surrounding it were flattened.

On June 12, 1990 in Austin, Texas, a film production company hired by Volvo's advertising agency, Scali, McCabe, Sloves, Inc., staged a dramatization of the Vermont event for the purpose of making a Volvo advertisement. The company recruited approximately 400 local residents to participate as crowd extras in this production. Two "Monster Trucks" were hired, three used Volvos, and approximately twenty other used cars were collected for the filming. Unlike a typical "Monster Truck" event, this was a filming for a commercial which required numerous partial runs and reruns to secure all of the photography necessary.

The advertisement, as released, failed to state it was a dramatization of an actual event, as opposed to a scientific demonstration of Volvo's safety. Proof of Volvo's safety is readily available through numerous independent sources including the Insurance Institute for Highway Safety and the Highway Loss Data Institute. Studies from these organizations indicate Volvos are among the safest cars on the road today.

Since the Austin event was staged for the purpose of filming, modifications were made to the vehicles to enable the filming to be done without threatening the safety of the production crew and to allow the Volvo to withstand the number of runs by the "Monster Truck" required for filming.

Appearing before the press in Austin, Attorney General Mattox was joined by William J. Hoover, senior vice president Volvo Cars of North America. Hoover stated that Volvo had built its reputation on honesty and candor. He assured

Mattox and the public it was never the company's intention to produce an ad which deceived or mislead. Hoover ended his remarks by thanking the attorney general for bringing this matter to Volvo's attention so that the appropriate action could be taken.

"It was unfortunate that we did not label this advertisement as a dramatization," Hoover stated, "it would be even more unfortunate however, if our agreement to withdraw the advertisement at this time created any doubt about the real world safety of Volvo cars."

In reaching an agreement with the State of Texas, Volvo has voluntarily withdrawn the advertisement and has agreed to reimburse the attorney general's office for its investigative costs and legal fees. Additionally, Volvo has purchased space in nineteen Texas daily newspapers, The Wall Street Journal, and USA Today for the purpose of explaining its decision to withdraw the advertisement at this time. The company has also agreed to make certain records regarding its advertisements, available to the Texas Attorney's General's office.

Under the terms of the agreement, Volvo has not admitted any fault, nor has it admitted it violated any laws. No fines, penalties, or restitution was ordered.

TORRANCE, CALIF. (NOV. 5) PR NEWSWIRE - October Lexus sales of 5,530 jumped 62 percent compared to October 1989, according to figures released today by the luxury division of Toyota Motor Sales, U.S.A. Inc.

Sales of 3,764 LS 400 models were up 56 percent from a year ago, while ES 250 sales of 1,766 were up 76.5 percent. Year-to-date 1990 Lexus sales reached 50,944.

"This increase reflects the continued momentum Lexus has been building since last September's introduction, rather than a reaction to the impending luxury tax," said Dave Illingworth, Lexus vice president and general manager. "The increase in ES 250 sales -- nearly equal to that of the LS 400 -- indicates the overall strength of Lexus sales during October."

#90309p3461 11/05/1990 ~PR Newswire

PHILADELPHIA (NOV. 5) PR NEWSWIRE - National Media Corp. (NYSE: NM) "will

report record operating results for the second quarter and first half ended September 30, but is now feeling the effects of the slowdown in consumer purchasing witnessed even earlier in the year on a broader basis by retail outlets," David E. Baxter, acting president, stated today.

"Although we expect second quarter pre-tax earnings to be up more than 70 percent on an approximate 90 percent gain in revenues, and total first half profits and revenues to be significantly ahead of the like period, we nonetheless consider it prudent to react quickly to what is clearly a more moderate sales climate. We are experiencing a slowdown in sales, probably caused in large part by consumer concerns regarding a possible recession, and as a result National Media is adopting a cautionary posture regarding overhead. We believe that full year sales will be ahead of last year's, but second half earnings are unpredictable at this moment.

"Final second quarter results won't be available for another two weeks, but we believe second quarter earnings will be about $.12 per share after taxes against $.08 on a reduced federal tax basis in the comparable quarter last year, with second quarter revenues up some 90 percent to approximately $39 million against $19 million in last year's second quarter," Baxter said.

Baxter also noted, "Consistent with our decision to streamline overhead, we are immediately integrating our Kwik-Way fulfillment operations into other segments of our business, thus lowering continuing overhead costs. We will be reviewing other National Media operations in an ongoing effort to always maximize profit opportunities, a program which will remain central to our corporate growth philosophy," he said.

Baxter, a director of National Media Corp., assumed the presidency on Oct. 17. Baxter had been a co-founder and president of QVC, the second largest competitor in the television home shopping industry, and also had served as vice president finance and chief financial officer of Franklin Mint, formerly a division of Warner Communications.

WASHINGTON (NOV. 5) PR NEWSWIRE - GEICO Corporation (NYSE: GEC) today reported its results for the third quarter and nine months ended Sept. 30, 1990.

The corporation's interim report to shareholders will be mailed on or about Nov. 12, 1990.

Commenting on the corporation's results, Chairman Bill Snyder said: "We are

pleased with the company's financial results through the first nine months of 1990. Net income was $153.6 million, up 15.5 percent from the same period in 1989. The realized gains included in net income were well below the 1989 year-to-date level, primarily a result of the generally unfavorable securities market in the third quarter (a condition which has continued into the fourth quarter). Financial results excluding realized gains were quite favorable and well ahead of last year.

"On a per share basis, net income this year was $10.03, up 16.9 percent from $8.58 for the same period in 1989. Net income included realized investment gains (after tax) of $1.33 per share in 1990 and $2.27 per share for nine months of 1989.

"Underwriting results were excellent. The consolidated underwriting ratio year-to-date was 95.7 percent compared to 96.8 percent for the corresponding period in 1989. Weather-related catastrophe losses were well below those experienced last year but still more than what we consider to be a 'normal' year for weather losses. Auto injury tort claims frequency continued to rise while frequency for most other coverages declined. Auto claims severity for all coverages continued to increase.

"Property and casualty earned premiums through nine months were up 5.9 percent over the same 1989 period. The number of voluntary policies in force at the end of September was 5.0 percent above the number in force 12 months earlier. This growth rate is a favorable trend as it continues to be better than the rate achieved in recent years.

"In GEICO, our principal subsidiary, earned premiums were up 6.3 percent over the 1989 level and we sold 8.3 percent more new policies than were sold in the first nine months of 1989. GEICO's underwriting ratio was 95.2 percent compared to 96.5 percent in the corresponding 1989 period," Snyder said.

DALLAS (NOV. 5) PR NEWSWIRE - Associates Corp. of North America and Transamerica Commercial Finance Corp. today announced that The Associates has purchased Transamerica Fleet Leasing Corp. Terms of the agreement were not disclosed.

As a result of its purchase, The Associates assumes lease and management responsibilities for approximately 9,300 autos and light trucks previously owned or managed by Transamerica Commercial Finance Corp. The Associates now has more than 66,000 autos and light trucks under lease and management nationwide.

"The acquisition of the Transamerica automotive portfolio is a significant addition to Associates Leasing," said Reece A. Overcash, Jr., chairman of The Associates. "Transamerica Fleet Leasing has a reputation for providing high standards of service to its clients and we intend to maintain that quality."

"The sale is a continuation of our strategy to focus our commercial financing activities on inventory financing, insurance premium financing and specialized asset-based lending," said Robert A. Watson, president and CEO of Transamerica Commercial Finance Corp. "The Associates is an outstanding company with a strong commitment to the fleet leasing industry. We are confident of their ability to manage the operation as well as satisfy our former customers."

The Associates provides consumer finance, specialized commercial finance and leasing, and insurance. Part of the Financial Services Group of Ford Motor Co., The Associates has assets of more than $16 billion and manages financial assets of about $5 billion for Ford subsidiaries in the United States, the United Kingdom, Japan and Canada.

Chicago-based Transamerica Commercial Finance Corp. is a wholly owned subsidiary of Transamerica Corp., a market leader in the inventory financing, insurance premium financing and specialized asset-based lending industries.

DELAVAN, WIS. (NOV. 5) PR NEWSWIRE - Ajay Sports Inc. ("Ajay") (NASDAQ: AJAY) announced today that it has hired Michael S. Casazza to head its wholly-owned subsidiary, Ajay Leisure Products Inc. Cassaza will serve as President and Chief Executive Officer of this unit.

Casazza has been associated with the sporting goods industry for 18 years, most recently as Vice President/General Manager of the Wilson Sporting Goods Co., Golf Division where he was responsible for $145 million in annual sales and 1,500 employees. Prior to his tenure with Wilson, Casazza was employed by Dunlap Slazenger Corp. where in his final two years he was President, Racket Sports Division.

As had been previously announced, Casazza has also been appointed President of MacGregor Sports Inc., a wholly-owned subsidiary of MGS Acquisitions Inc. Ajay Sports currently has a Letter of Intent to purchase up to 60 percent of MGS Acquisitions common stock contingent upon certain conditions being met. It is expected that Casazza will devote such time as is necessary to both operations.

Ajay Sports, through its 100 percent wholly-owned subsidiary, Ajay Leisure Products is one of the largest distributors of golf accessories as well as the nation's largest manufacturer of golf bags and hand-pulled golf carts.

#90309p3479 11/05/1990 ~PR Newswire

PURCHASE, N.Y. (NOV. 5) PR NEWSWIRE - IBM Corporation and Utility Graphics Consultants (UGC) today announced that they have formed a new business relationship. UGC is a leading geographic information systems (GIS) consulting firm based in Englewood, Colo.

The firm, which will be doing business as UGC Consulting, will provide executive and technical management consulting, offering IBM's clients

assistance in defining strategic information needs, developing implementation strategies, providing overall project management support and offering GIS integration management expertise. As part of the new relationship, IBM has announced that it has made a financial investment in UGC Consulting. IBM and UGC Consulting will focus together on enterprises seeking to integrate GIS within their overall computing environment.

"Our customers tell us they want earlier, more cost-effective solutions for a variety of complex GIS problems, and these solutions must be strategically integrated," said Denny Sigloh, IBM's director of Geographic Information Systems. "Many of these customer requirements dictate the need for a broad base of in-depth GIS skills and a single organization to assume full responsibility for the solution. This new strategic relationship, which broadens IBM's GIS team, contributes significantly to providing that capability."

UGC Consulting President Glenn E. Montgomery said, "There are two primary reasons for our alliance with IBM. The first is IBM's role as a leader in the development of enabling technologies that are critical to an integrated information environment. The second is IBM's significant commitment to the GIS marketplace. IBM's GIS solutions, coupled with its historic strength in information management, make IBM a strong choice to accomplish the objective of a fully integrated information environment across the total enterprise."

In October 1989, IBM acquired an equity interest in Geographic Systems Corporation, a provider of GIS solutions based in Green Bay, Wis. IBM, GSC and UGC Consulting will team together to address evolving GIS requirements.

IBM and UGC Consulting will be discussing their new relationship at a press conference during the GIS/LIS conference in Anaheim, Calif., on Nov. 8, 1990.

#90309p3480 11/05/1990 ~PR Newswire

MIAMI (NOV. 5) PR NEWSWIRE - In an emergency motion filed Friday afternoon in U.S. Bankruptcy Court, General Development Corporation (NYSE: GDV) suggested that its stockholders were not likely to receive any distribution in its pending bankruptcy proceedings.

The motion sought reconsideration of the Bankruptcy Court's ruling last Wednesday that the company must hold its 1990 annual meeting of stockholders on Dec. 28. At a hearing held earlier today, the Bankruptcy Court granted the company's motion and vacated its prior ruling that the annual meeting be held on Dec. 28.

In moving Friday to reverse the setting of a date for its 1990 annual meeting, the company argued that the substantial expense and diversion of management resources that would be required to prepare for and conduct that meeting on such short notice would be "in gross disparity to the economic rights and interests, if any, of the equity holders" in the company's bankruptcy proceedings.

Noting that The Palmieri Company, the business consultant retained to assist the company in the formulation of a business plan and plan of reorganization, is scheduled to make a presentation to the Bankruptcy Court by Dec. 5, 1990, on its progress and recommendations.

The company's motion continued by stating: "It is the (company's) belief that in all likelihood the Palmieri report will demonstrate that under every conceivable reorganization or liquidation scenario the unsecured creditors in this case will receive substantially less than full payment of their claims."

A company spokesperson today reconfirmed the company's view of its likely insolvency, noting that, if such view were correct, absent a consensual plan of reorganization in which the company's creditors agreed to the contrary, the Bankruptcy Code's "absolute priority rule" would likely preclude any distribution in respect of shareholder interests.

The company spokesperson added that the company was unable to predict whether or when any plan of reorganization, consensual or otherwise, might be confirmed in the company's bankruptcy case.

DALLAS (NOV. 5) PR NEWSWIRE - Quest Medical Inc. (NASDAQ: QMED) today announced results for the third quarter and nine months ended Sept. 30, 1990.

For the third quarter, net revenues were $1.4 million compared to $1.3 million in the same period of 1989. The net loss was $115,000, or 2 cents per share, including an unrealized loss of $309,000 on the company's investment in Kirschner Medical Corp. and a loss of $100,000 from release of indebtedness. Net earnings in the year-earlier period were $962,000, or 16 cents per share, including a net gain of $1.1 million from the sale of the company's investment in HemoTec Inc.

For the nine months ended Sept. 30, 1990, net revenues were $4.4 million, compared to $4.6 million in the same period last year. Net earnings were $1 million, or 18 cents per share, compared to $3.6 million, or 58 cents per share, in the year-earlier period. The respective periods included net gains from favorable court rulings of $1.2 million in 1990 and $2.6 million in 1989.

The 1990 period also included an unrealized loss of $639,000 on the Kirschner investment and the $100,000 loss from release of indebtedness; the 1989 period included a net gain of $1.1 million on sale of the HemoTec investment.

Thomas C. Thompson, President of Quest, commented that the company showed profits in both the third quarter and first nine months of 1990 before taking the charge-offs for the Kirschner investment and the release of indebtedness.

Dallas-based Quest Medical develops, manufactures and markets proprietary products for the hospital market.

ATHLONE, IRELAND (NOV. 5) PR NEWSWIRE - Elan Corporation plc (AMEX: ELN) today said earnings for its second quarter ended Sept. 30 rose 148 percent to IRP 1.4 million (US$2.4 million), or IRP .09 (US$0.15) per share, from IRP 679,000 (US$967,000), or IRP 0.04 (US$0.06) per share in the year-ago period.

Revenue for the quarter was IRP 8,438,000 (US$14,467,000) vs. IRP 8,156,000 (US$11,613,000) for fiscal 1990's second quarter.

Revenue for the six months ended Sept. 30 increased 22 percent to IRP 20,255,000 (US $34,727,000) vs. IRP 16,557,000 (US$23,576,000) a year ago.

Net income for the six months of IRP 2,790,000 (US$4,783,000) compared to a net income of IRP 1,334,000 (US$1.9 million) last year. Earnings per share were IRP 0.17 (US$0.30) compared to IRP 0.08 (US$1.12)

Commenting on the results, Elan's chairman and chief executive officer, Donald E. Panoz said:

"I am pleased to report continued growth at Elan for the first half of fiscal 1991. These results reflect improved performance from each of Elan's businesses, and more efficient operation from our manufacturing facilities."

Panoz attributed the results for the quarter and the half year to the licensing and subsequent launch in the United States of Verelan(R) by Lederle Laboratories and its co-marketing partners Wyeth-Ayerst and A. H. Robins and to the continuing sales growth in the United States of Cardizem SR(R).

Elan Corporation plc is a leader in the specialized health care field of advanced reformulation and drug delivery technologies, concentrating on improved drug absorption and utilization. Elan operates research and manufacturing facilities in Athlone, Republic of Ireland; Enschede, Netherlands; Manila, Philippines; Cambridge, Mass.; Gainesville, Ga., and Brea Calif.

#90309p3487 11/05/1990 ~PR Newswire

ST. PAUL, MN (NOV. 5) PR NEWSWIRE - Yukon Energy Corporation (NASDAQ: YUKN) today announced record third quarter sales and earnings for the period ended Sept. 30, 1990.

Sales rose 13 percent to $1,258,000 compared to $1,115,000 for the third quarter of 1989. Net income for the period increased 60 percent to $109,000, compared to $68,000 for the third quarter of 1989. Income per share was 2 cents for the third quarter compared to 2 cents a share during the third quarter of 1989. For the nine month period net income is 0 cents per share compared to a loss of 3 cents per share at the nine month period during 1989.

"With a reduction in R&D expenditures, and increased sales, we had a record third quarter," said Dave Tjosvold, president of Yukon. "We are pleased that our energy-efficient furnaces are being well received in the marketplace. In our drive to return to profitability we are benefiting by the past few years of heavy R&D, culminating in products that are exactly right for today's market needs. During the last oil crisis, Yukon experienced a significant increase in business. If this current uncertainty in oil prices continues, Yukon is in a strong position to provide extremely energy-efficient furnaces in a variety of styles which benefit users by dramatically reducing their oil and gas heating bills. If the interest in our furnaces continues, and given the current strong backlog, we should return to profitability for the year."

Yukon Energy Corporation develops, manufactures, and markets a variety of energy-efficient residential and light commercial furnaces. These furnaces employ advanced heating technology and proprietary features to achieve total home comfort with substantial fuel savings. The company's product lines consist of several new, patented, high- technology gas and oil-fired furnaces, as well as a line of multi-fuel furnaces which burn wood or coal in combination with oil, gas or electric fuel. Products are sold to heating equipment wholesalers and private label manufactured for large marketing partners.

The company's common stock is traded over-the-counter and quoted on NASDAQ under the symbol "YUKN."

PALO ALTO, CA (NOV. 5) PR NEWSWIRE - At the ONLINE/CD-ROM '90 conference in Washington D.C., today, Dialog Information Services Inc. unveiled DIALOG Menus(SM), an easy-to-use, menu-based version of its highly respected DIALOG(i) online information service.

DIALOG Menus is designed to bring the latest information directly to the desks of busy research, business, and information professionals. It offers menu-assisted access to more than 220 DIALOG databases covering the spectrum of subject areas -- from business and finance to science and engineering, biotechnology to current news. DIALOG Menus databases include the complete text of articles from more than 1,100 journals and newsletters, as well as directory listings, patent records, company financial statements, bibliographic citations, and more.

Drawing on technology used in the development of other successful menu-based DIALOG products and services such as DIALOG Business Connection(i) and KNOWLEDGE INDEX(i), the interface for DIALOG Menus was originally introduced in 1989 as part of DIALOG Corporate Connection(i) (DCC), a comprehensive information product intended for end users with little or no online searching experience.

Designed to be administered by information center managers, generally in large corporations or research centers, DIALOG Corporate Connection was an immediate hit with both the managers and their clients. GE's Whitney Library, an early subscriber to the service, received more than 120 password requests within a week, and typical comments have noted that, "The ability to search on my own is a real plus." DIALOG Corporate Connection has been equally well received in other organizations, and currently more than 2,000 subscribers are using the service.

Dialog Information Services is the acknowledged world leader in electronic information access and delivery. The DIALOG service contains more than 380 databases used by over 125,000 customers in nearly 100 countries. For more information on DIALOG or the new DIALOG Menus, contact Dialog Marketing at 800-334-2564 or 415-858-3785, or via fax, 415-858-7069.

(i) DIALOG, DIALOG Corporate Connection, DIALOG Business Connection, and KNOWLEDGE INDEX are servicemarks, registered U.S. Patent & Trademark Office, and DIALOG Menus is a servicemark of Dialog Information Services Inc., a Knight-Ridder company.

UPPER SADDLE RIVER, NJ (NOV. 5) PR NEWSWIRE - Western Union Corporation

(NYSE: WU) announced today that it is extending to midnight on Nov. 19, 1990, the period of its current exchange offer, in which the company is proposing to issue new notes and common shares in exchange for up to $530 million of its presently outstanding 19-1/4 percent senior secured notes and 16 percent notes. The exchange offer had been scheduled to expire at midnight on Nov. 13.

The company also announced that it has scheduled an informational meeting for the holders of its 16 percent notes on Nov. 15. This meeting will be part of an effort by Western Union management to explain to this particular group of debtholders the critical necessity of their participation in the exchange offer.

The meeting for holders of Western Union's 16 percent notes will be held on Nov. 15, 1990, beginning at 10 a.m., at Merrill Lynch Capital Markets, 25th Floor, 250 Vesey Street (World Financial Center - North Tower), in New York City.

Preliminary figures indicate that, as of 9 a.m. today, $345,794,000 aggregate principal amount of the 19-1/4 percent notes and $1,436,000 aggregate principal amount of the 16 percent notes had been tendered in the current exchange offer (including securities as to which delivery has been guaranteed).

HIGHLAND PARK, MI (NOV. 5) PR NEWSWIRE - Chrysler Corporation (NYSE: C) reported an increase of 7.5 percent in total car sales for the final ten days of October, finishing the month with 88,027 sales, its best month for car sales since August 1989.

All of the company's car brands registered increases for the month with Chrysler up 20 percent, Eagle up 11 percent, Dodge up eight percent and

Plymouth up three percent.

Nearly all models registered increases. Plymouth Acclaim was the volume leader for the month on sales of 13,308, up 30 percent. Dodge Dynasty sales of 11,850 were up 21 percent, Dodge Spirit sales of 11,061 were up 23 percent, and the Dodge Shadow and Plymouth Sundance combined for more than 15,000 sales with increases of 21 percent and 14 percent, respectively. Other significant increases were posted by Chrysler New Yorker and LeBaron nameplates, Plymouth Laser and Eagle Talon.

Plymouth Voyager and Dodge Caravan minivan sales were up nine percent and one percent, respectively, for the final ten-day period of the month. Jeep Wrangler posted a four-percent gain.

#90309p3496 11/05/1990 ~PR Newswire

LOS ANGELES (NOV. 5) PR NEWSWIRE - First Capital Holdings Corp. (NYSE: FCH) today announced net income of $6.5 million or $.14 per fully diluted share for the quarter ended Sept. 30, 1990, compared with $18.7 million or $.40 per fully diluted share for the quarter ended Sept. 30, 1989. Company President Gerry R. Ginsberg states "When adjusted for capital gains and losses and income tax rate differentials, net income was within $.02 per fully diluted share of the comparable prior year quarter."

Net income included net capital losses of $5.7 million or a loss of $.12 per fully diluted share for the 1990 quarter compared with net capital gains of $1.2 million or a gain of $.02 per fully diluted share for the 1989 quarter. These amounts include additions to investment reserves of $8.0 million, net of income taxes, or $.17 per fully diluted share for the 1990 quarter compared with additions to investment reserves of $5.6 million, net of taxes, or $.12 per fully diluted share for the comparable prior year quarter. The 1989 quarter benefited by approximately $4.5 million from a lower tax rate while 1990 benefited from a gain of $2.0 million on the extinguishment of $5 million of senior subordinated debt. Ginsberg added, "Reserve strengthening in the quarter is consistent with our previously announced program of balance sheet improvement."

For the nine months ended Sept. 30, 1990, net income was $31.7 million or $.68 per fully diluted share compared with $52.0 milion or $1.12 per fully diluted share in the first nine months of 1990.

Premiums received were $304 million for the 1990 quarter compared with $684 million for the 1989 quarter, reflecting the continuing trend toward slower growth. Premiums received for the first nine months of 1990 were $1.0 billion compared with $2.2 billion for the same period last year. Shareholders'

equity was $408 million or $8.74 per common share, an increase of $26 million from Dec. 31, 1989.

First Capital Holdings Corp. is a financial services holdings company whose principal subsidiaries are First Capital Life Insurance Company headquartered in San Diego, Fidelity Bankers Life Insurance Company based in Richmond, Va., and World-Wide Reassurance Company Ltd. with offices in Windsor, England.

AMERICAN FORK, UTAH (NOV. 5) PR NEWSWIRE - Shareholders of Deseret Bancorporation today approved a merger agreement under which First Security Corp. (NASDAQ: FSCO) will acquire the Utah County-based Deseret Bank and its holding company, Deseret Bancorporation. The announcement was made by Kay L. Jacobs, chairman of the board of Deseret Bancorporation.

Under the terms of the agreement, Deseret Bank's banking offices will merge into First Security Bank of Utah, N.A., at the close of business of Nov. 9. Shareholders of Deseret Bancorporation will receive First Sercurity common stock in exchange for their Deseret Bancorporation shares. The exact exchange ratio will be determined at the close of business on Nov. 9.

The merger has been approved by the Federal Reserve Board, the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corp. and the Utah State Department of Financial Institutions. It also has been reviewed by the Securities and Exchange Commission.

Spencer F. Eccles, chairman and chief executive officer of First Security, said, "We are delighted to welcome such a well-managed, well-capitalized, well-known banking organization into the First Security system. The merger of our two strong Utah banks will benefit customers, employees and shareholders alike."

Deseret Bank operates six branches in Provo, Orem, Lehi, American Fork, Pleasant Grove and Lindon. It has assets of $112.3 million, deposits of $97.8 million and loans outstanding of $60.4 million. Its total capital exceeds $13 million.

With assets of $3.38 billion, First Security Bank of Utah is the state's largest financial institution. Its parent company, First Security Corp., is the largest financial services organization headquartered in the Intermountain West. Founded in 1928, First Security Corp. is the oldest continuously operating multistate bank holding company in the United States. It operates 181 full-service banking offices in Utah, Idaho, Oregon and Wyoming. Other subsidiaries include a leasing company, two insurance companies, an investment management firm and a discount brokerage.

SPRINGFIELD, VA. (NOV. 5) PR NEWSWIRE - Versar, Inc. (AMEX: VSR) has announced the availability of a product emissions testing chamber at the facilities of its wholly owned subsidiary GEOMET Technologies, Inc. in Germantown, Md.

Recent studies have shown that many pollutant levels are often significantly higher indoors than outdoors. Since people spend approximately 90 percent of their time indoors, poor indoor air quality ("sick building" syndrome) has become a serious concern for many. Symptoms include eye, nose and throat irritation; headaches; nausea; dizziness and lethargy. In offices, "sick building" syndrome has been blamed for increased absenteeism and reduced productivity. Major indoor pollutant sources include building materials, furnishings, floor coverings, office machines and a variety of consumer products.

The GEOMET state-of-the-art product emissions testing chamber is designed specifically to measure the pollutant emissions of products used indoors. The chamber is capable of testing for a wide variety of pollutant emissions

under precisely controlled airflow, humidity and thermal conditions. Products that can be tested include building materials such as paints and sealants; furniture and furnishings including carpets and particleboard or plywood products; household appliances; office machines; and consumer products such as cleaners , sprays and hobbyists' materials. For more comprehensive emission testing, GEOMET maintains two houses that are dedicated to the analysis and testing of product emissions under full-scale, "real world" conditions.

Versar provides a wide range of scientific and technical services to solve environmental and health and safety problems caused by pollutants, hazardous materials and toxic substances.

NEW YORK (NOV. 5) PR NEWSWIRE - The Marcade Group, Inc. (NYSE: MAR) announced today that it has entered into an agreement with Robert Shipman, who had been president of RJMJ, Inc. a wholly owned subsidiary of Marcade engaged in apparel manufacturing and merchandising. Marcade had purchased RJMJ from Shipman on July 31, 1989.

Among other things, the agreement involved a reduction in the original purchase price paid by Marcade to Shipman by reducing obligations of RJMJ to

Shipman in the amount of approximately $2,650,000. In addition, Shipman's employment arrangement, which granted him significant participation in RJMJ's future earnings, was terminated.

"This agreement improves RJMJ's balance sheet and cash flow, and also permits Marcade's senior management to assume operating control of RJMJ," said Charles S. Ramat, president of Marcade.

"We are already implementing more sophisticated financial controls and reporting systems and are in the process of consolidating manufacturing operations for RJMJ with those of certain of our other entities so that we can utilize the most effective sourcing available on a worldwide basis. I also look forward to utilizing Mr. Shipman's know-how and experience in a consultative capacity."

Marcade had net sales of $377,651,000 in fiscal year ended Jan. 31, 1990. Its other operating divisions are Marlene, Booth Bay, Europe Craft Imports (Members Only), Perry Manufacturing Company and Above-the-Belt.

#90309p3517 11/05/1990 ~PR Newswire

VALHALLA, NY (NOV. 5) PR NEWSWIRE - ComponentGuard, Inc. (NASDAQ: PLUGC; warrants: PLUWC), a provider of name brand extended service plans on a wide range of electronics products, today announced fiscal 1990 results in light of a change in the company's method of recognizing revenue and expensing costs.

In its financial reporting prior to the third quarter of the recently completed fiscal year, ComponentGuard had recognized revenue and expenses in full in the period they were received or incurred, and accrued an estimate for future claims. Under the revised method of accounting, which is being retroactively applied to prior periods, net revenues and direct selling expenses are not recognized for approximately the first five months after the sale of a warranty contract and are thereafter recognized during the subsequent 36 months using the straight line method. The period of recognition approximates the period that an extended warranty contract becomes and remains effective.

Under the new method of accounting, net revenues increased to $782,497 for the fiscal year ended July 31, 1990, from $67,665 for the fiscal year ended July 31, 1989. In addition, under this new method, $5,408,903 of $5,746,666 in revenues from sales of extended warranty contracts during the fiscal year ended July 31, 1990, were deferred to future periods. At July 31, 1990, the company's financial statements included $6,396,358 of deferred revenues associated with extended service contracts and $1,007,792 of deferred costs associated with such contracts. These amounts will be recognized in future periods, along with non-deferred expenses (which will include the actual service expenses) incurred in those periods.

In view of the costs associated with the expanded level of activities of the company, under the revised accounting method, the company reported a fiscal year loss of $3,428,822, or 17 cents per share, compared with a loss of $1,390,776, or 7 cents per share, in fiscal 1989.

The change in accounting method was promoted by comments from the Securities and Exchange Commission when it reviewed the registration statement for the company's publicly traded stock purchase warrants earlier this year. The new method of revenue recognition was determined after discussions with the SEC as to the current status of generally accepted accounting principles applicable to the company's revenue generation. Similar restatements have also been announced by several of the company's competitors, suggesting an industry-wide move toward greater conservatism in treating revenue and profit recognition.

Robert P. Minnick, ComponentGuard president and chief executive officer, attributed the company's record twelve month growth in sales of extended warranty contracts to advertising efforts that have promoted ComponentGuard to both the consumer and the consumer electronics retailer as the only brand name extended service contract, and to the success of the GUARDMAN program introduced at the end of fiscal 1989. GUARDMAN has distinguished itself as the country's first packaged "off- the-shelf" extended service plan.

COMPONENTGUARD, INC.

Year ended July 31:	1990	1989
Revenues from sales of extended service contracts	$5,746,666	$1,421,629
Less: Deferred revenue	5,408,903	1,375,627
Current deferred revenue earned	337,763	46,002
Prior deferred revenue earned	444,734	21,663
Other revenue	55,395	--
Net revenue	837,892	67,665
Net (loss)	(3,428,822)	(1,390,776)
Net (loss) per common share	(.17)	(.07)
Wtd. avg. no. of common shares outstanding	20,336,435	19,082,807

Balance Sheet July 31, 1990

Cash	$1,280,195
Deferred costs associated with extended service contracts	1,007,792

SANDUSKY, OHIO (NOV. 5) PR NEWSWIRE - Cedar Fair, L.P. (NYSE: FUN), a publicly traded partnership which owns and operates two seasonal amusement/theme parks, today announced record revenues and net income for the third quarter of 1990.

Net revenues increased 4 percent to $88.3 million for the quarter ended Sept. 30, 1990, compared with $84.6 million in the comparable quarter last year. Net income for the period was $42.4 million, or $1.98 per limited partner unit up 6 percent from $40.0 million, or $1.87 per unit, in 1989.

Cedar Point, located on Lake Erie between Cleveland and Toledo, and Valleyfair near Minneapolis/St. Paul, concluded their 130-day and 120- day operating seasons on Sept. 30.

Richard L. Kinzel, president and chief executive officer of Cedar Fair Management Company, the managing general partner of Cedar Fair, L.P., explained that virtually all of Cedar Fair's gross income is realized during the operating season from early May to late September, with the major portion concentrated in the peak vacation months of July and August.

"We are extremely pleased with the record third quarter results," Kinzel said. "On a combined basis, the increase in revenues resulted from a 6 percent increase in in-park guest per capita spending offset by a 2 percent decrease in attendance at our parks for the quarter. We worked very hard this summer to control our operating costs and the efforts are reflected at the bottom line and in our cash distribution increase."

Cedar Fair's cash distribution was increased 16 percent to an annual rate of $1.45 with the third quarter distribution of 36.25 cents per unit, declared on Sept. 18 and payable Nov. 15 to holders of record Oct. 5.

For the entire 1990 operating season, combined in-park guest per capita spending rose 5 percent and combined attendance decreased 4 percent from 1989's record level. Kinzel explained that world-class roller coasters were introduced at both parks in 1989, and the partnership historically experiences a small decline in attendance in the year following the addition of major new thrill rides. Given this and the added impact of unusually poor weather, particularly on weekends, experienced by both parks during the 1990 season, Kinzel said the partnership was very pleased that combined attendance exceeded 4 million visitors for the fourth time in the past five years.

Looking ahead to the 1991 operating season, Kinzel noted that $12 million in capital expenditures are already underway at the partnership's two parks, including a $7.5 million wooden roller coaster at Cedar Point. Named "Mean Streak," the new wooden coaster will be the highest and fastest in the world and is expected to be ready for opening day in May 1991. Capital expenditures at Valleyfair will total $2.5 million and will include a 36-hole Adventure Golf attraction and a 1,200 foot Grand Prix-style go-kart track.

PONTIAC, MI (NOV. 5) PR NEWSWIRE - Pontiac Sunbird set an any-month sales record in October and Grand Prix posted its best ten-day and October marks since its reintroduction in 1988 to help propel Pontiac Division vehicle sales to a 5.9-percent increase in October over the same year-ago month.

Sunbird posted the best single month since its in introduction as a 1982 model with sales of 17,168 units in October, up 36.9 percent from October 1989. The previous all-time sales month for Sunbird was set in May 1984 when 14,984

units were delivered. Sunbird's 1990 calendar-year sales of 103,391 units through October are up 17.9 percent from last year.

Grand Prix sales of 3,883 cars during the final ten-day period of October were 28.8 percent over the same period last year, while October sales were up 32.7 percent from October 1989 with a total of 10,377 units sold. To date, calendar-year sales of Grand Prix are 102,862 units, a 4.3-percent gain from the 1989 calendar-year pace.

ROCKY MOUNT, NC (NOV. 5) PR NEWSWIRE - After nearly a year in the making, Peoples Bancorporation (AMEX: PBK) and The Planters Corporation (NASDAQ-NMS: PNBT) have merged to become Centura Banks, Inc (NYSE: CBC). The new bank, which officially opened for business across the state at 9 a.m. today, ranks as North Carolina's seventh largest bank holding company, with assets of approximately $2.6 billion.

"We are celebrating the birth of a new company and opening the door to the future today," said Centura chief executive officer, J. Richard Futrell, Jr., at news conferences held in Rocky Mount and Raleigh this morning. "Centura Banks will build and strengthen the tradition of unwavering banking excellence that both Peoples and Planters banks had in North Carolina. We have hand-picked the best elements and features of both and have created a progressive, dynamic bank to take us through the 1990s and into the 21st century."

Futrell and Robert R. Mauldin, Centura's president and chief operating officer presided over the cutting of a ceremonial ribbon to officially open the new bank. Similar ceremonies and news conferences were held at Centura Banks across the state.

During the news conferences, officials also announced the bank's kickoff of a major statewide advertising campaign, which will be the largest advertising campaign in the history of either Peoples or Planters. Beginning November 4, Centura will air more than 5,000 television ads, 4,000 radio ads, and hundreds of print and billboard ads across North Carolina to introduce the new bank. The focus of the ads is the bank's commitment to personalized customer service.

"We want quality to be Centura's hallmark," Mauldin said. "You will see it in our new look, in our ads, and in our new products and services. Most importantly, you will see it in our employees. Our goal is to make sure every customer walks away from Centura Banks truly glad they are doing business with us."

More than 1,600 Centura employees will operate 116 Centura branches in North Carolina, from Kitty Hawk to Boone. The merger is intended to offer enhanced products and services to customers, expand market share and offer more convenient locations throughout the state. It will also, according to bank officials, enhance the bank's profit potential and put the bank in a better position to compete.

"As one of the 200 largest banks in the nation, we have created a more powerful financial institution that will provide exceptional opportunities for our customers, employees and shareholders," Futrell said. "Our success strategy is based on the simple philosophy that excellent service will bring us more customers, and more customers will help us achieve outstanding financial performance."

In what is considered by many to be a troubled banking environment, this "merger of equals" has allowed Centura to emerge with strong asset quality and opportunities for operational efficiencies. Centura's asset quality ranks among the best of similar-sized banks nationwide.

Under a pooling of interests arrangement, stockholders will receive one share in the new company for each share of Peoples or Planters common stock held on the closing date. As of the date of the merger, almost 11,000 shareholders own the almost 14 million shares of Centura stock available on the New York Stock Exchange (NYSE: CBC).

Centura will be a state-chartered bank and a member of the Federal Reserve Bank of Richmond. This designation will give Centura more flexibility in acquiring nonbank financial companies such as insurance and travel agencies. However, for the time being, officials said, Centura management and staff alike will be concentrating all of their efforts on making the merger a success.

The management of Centura Banks will be overseen by a 26-member board of directors and an eight-member executive committe, made up of an equal number of members from each bank. Under the merger agreement, Futrell will serve as the bank's CEO and chairman, while Mauldin will be president and chief operating officer. In April 1993, Mauldin will succeed Futrell as CEO, at which time Futrell will become executive committee chairman.

With 102 branches, Centura Bank is the company's largest subsidiary; other banks held by Centura Banks, Inc. include Watauga Savings with four branches and headquarters in Boone, and Mid-South Bank & Trust with 10 branches and headquarters in Sanford. The new company will maintain its headquarters in Rocky Mount, which has been home to Peoples and Planters for a combined 150 years.

SAN JOSE, CA (NOV. 5) PR NEWSWIRE - Dan Ozley, general manager of Scientific-Atlanta's (NYSE: SFA) Broadcast Satellite System Division, has been elected chairman of the board of the United States Distance Learning Association (USDLA).

The election was announced during the USDLA's annual meeting conducted at the TeleCon X in San Jose.

The USDLA was founded in 1988 as a non-profit organization of educators and corporate trainers who use technology to deliver courses, seminars or corporate training.

Ozley succeeds Dr. Ralph D. Mills, California State University System. Ozley has more tha 20 years experience in the systems project management field, specifically related to electronics, broadcasting and satellite systems.

He began his telecommunications career in 1977 at the broadcast division of the Harris Corp., where he was responsible for the management of major radio and television transmission and studio systems throughout the United States. He has also had extensive international telecommunications experience including assignments in the Middle East, Africa and South America.

From 1983 to 1984 Ozley directed the design, manufacturing, integration, installation and maintenance of the NBC Satellite Television System.

In 1985 he joined Scientific-Atlanta where he has been responsible for the successful implementation of more than 70 satellite uplink projects including the CBS Television Distribution System, various education networks including the National Technological University System, Community College Satellite Network and a number of independent educational telecommunications systems.

Scientific-Atlanta Inc. is a leader in cable television electronics and satellite-based communications networks and is a key supplier of electronic instrumentation for industrial, telecommunications and government applications worldwide.

FAIRFIELD, NJ (NOV. 5) PR NEWSWIRE - Cantel Industries, Inc. (NASDAQ: CATBC) today reported that Stendig, Inc. has ceased its business operations and will not be able to honor its obligations under a $2.75 million note given to Cantel as partial payment for certain assets purchased by Stendig in 1989. The carrying value of the note had been reduced to $1.0 million in April 1990.

Cantel has taken possession of the collateral which secured the note and intends to sell or otherwise dispose of the assets. These assets consist primarily of inventory, accounts receivable, trademarks and tradenames. No reasonable estimate can be made as to what will be realized upon the disposition of these assets.

Cantel has also cancelled its subleases with Stendig for properties on which Cantel is the prime tenant. Minimum annual rental obligations under those leases are approximately $270,000 through June 1997 and $80,000 from July 1997 through September 1999. Cantel is actively seeking to sublet or otherwise reduce its obligations under the leases.

ATLANTA (NOV. 5) PR NEWSWIRE - Atlanta Gas Light Company (NYSE: ATG) will refund $16,342,000 as a credit on customers' November bills.

The refund money from the company's pipeline suppliers will be distributed to customers according to a plan approved by the Georgia Public Service Commission.

The gas company will begin mailing bills with a refund credit on Nov. 5 and will continue sending them to each eligible customer whose meter is read in November.

To be eligible for a refund, residential customers had to have received

service from the gas company in March 1990 or July 1990. Refunds will average $9.13 to residential customers. The exact amount of each residential customer's refund will be based on the amount of natural gas used during March and July. Customers who did receive service during those months, but are no longer customers, are also due a refund and should contact the gas company to provide a forwarding address and billing information. Refunds to commercial and industrial customers generally will be larger because their usage of natural gas is greater.

The refund is primarily the result of rulings by the Federal Energy Regulatory Commission (FERC) involving pipeline suppliers' rate cases. The refund includes interest earned on the money while it was held prior to the refund.

"Our company has consistently sought lower gas costs through our participation in the process by which our suppliers' rates are regulated at the federal level," said Charles W. Bass, senior vice president-governmental and regulatory affairs for Atlanta Gas Light Company. "This refund is largely the result of that effort."

Pipeline suppliers of Atlanta Gas Light Company are permitted to put new rates into effect pending the outcome of their rate cases before the FERC. At the conclusion of each rate case, the FERC-approved lower rates are applied retroactively to calculate the amount of money to be set aside for refund. The total $16 million refund is the result of FERC decisions affecting Southern Natural Gas Company, Transcontinental Gas Pipe Line Corporation, East Tennessee Natural Gas Company and South Georgia Natural Gas Company.

Atlanta Gas Light Company is the largest distributor of natural gas in the Southeast, serving 1.1 million customers in 225 Georgia communities. In some areas of the state, it serves under the trade name Georgia Natural Gas Company and it serves the Savannah area as Savannah Gas Company.

BEAVERTON, ORE (NOV. 5) PR NEWSWIRE - Mentor Graphics Corp. (NASDAQ: MENT) today announced Joint Marketing Agreements (JMAs) with Zycad Corp. (NASDAQ: ZCAD) and IKOS Systems Inc. (NASDAQ: IKOS). These agreements will expand the hardware acceleration options for the Mentor Graphics Explorer Lsim simulation environment.

The agreements cover the joint promotion and cooperative selling of Mentor Graphics' Lsim product line and the hardware accelerator products of Zycad and IKOS. The Explorer Lsim environment provides industry-leading mixed signal, multi-level simulation targeted at customers in the IC marketplace.

Mentor Graphics and Zycad signed their joint marketing agreement on Oct. 30. The Lsim/Zycad transparent interface will be available in November 1990 from Mentor Graphics. The interface integrates Zycad's XP 100/200 simulation accelerators into the backplane of Mentor Graphics' Lsim Simulation Manager.

IKOS and Mentor Graphics will extend their support for Mentor Graphics' simulation product line to include transparent interfaces that integrate the IKOS 2800/2900 simulators into the backplane of Mentor Graphics' Lsim Simulation Manager. These interfaces will be available in the first half of 1991.

In May 1990, Mentor Graphics and IKOS announced a similar agreement for Mentor Graphics' QuickSim simulation environment. This agreement integrates IKOS' hardware-based simulators with Mentor Graphics' Software Release 7.0 and 8.0 QuickSim environments, and provides for joint marketing between the two companies. In addition, the agreement includes provisions for a worldwide OEM of IKOS products by Mentor Graphics.

Zycad Corp., Menlo Park, Calif., designs, manufactures and markets high-performance logic simulation, design verification, test-generation tools and services for the computer-aided engineering (CAE) industry. Zycad solutions are used to substantially increase engineering productivity in the design, development and test of sophisticated electronic systems and integrated circuits.

IKOS Systems Inc. designs, manufactures, markets and supports advanced simulation systems for the ASIC and system design markets. With certified libraries from over 12 ASIC suppliers, IKOS is the industry's leading supplier of hardware-assisted simulators used for ASIC design. Headquartered in Sunnyvale, Calif., the company employs more than 100 people worldwide. IKOS is publicly traded over-the-counter under the NASDAQ symbol IKOS.

Mentor Graphics Corp., Beaverton, Ore., was established in 1981 to design, manufacture, market and service electronic design automation (EDA) systems. The company is the leader in worldwide EDA sales, with revenues of $433,781,000 over the last 12 months. The company currently employs more than 2,600 people. In addition to its corporate offices in Beaverton, Mentor Graphics has sales and support offices in 66 locations worldwide. The company's headquarters are located at 8500 S.W. Creekside Place, Beaverton, OR 97005.

WASHINGTON (NOV. 5) PR NEWSWIRE - The Carlyle Group announced today that John C. Marous, the recently retired chairman and chief executive officer of Westinghouse Electric Corp. (NYSE: WX), has become senior advisor to Carlyle, effective Nov. 1.

The firm's management stated that Marous will be assisting the Carlyle Group with the operations of its existing assets and with the acquisition of additional assets.

Frank Carlucci, vice chairman of the Carlyle Group and former secretary of defense and national security advisor, said: "John Marous did a spectacular job leading Westinghouse and is no doubt one of the nation's leading industrialists. Carlyle is very fortunate to have John associated with us, and we are confident that he will be an invaluable addition to the firm.

The Carlyle Group is a private merchant bank based in Washington, D.C., and owned in part by the Richard King Mellon family of Pennsylvania. In the past two years, the Carlyle Group has led partnerships that have purchased Coldwell Banker Commercial Group, Ticketron, Marriott In-Flite Services and BDM International. This year, companies for which Carlyle has led acquisitions will have revenues in excess of $2 billion.

The managing directors of Carlyle include Carlucci, William E. Conway Jr., Daniel A. D'Aniello, Stephen L. Norris and David M. Rubenstein. Fred Malek, formerly president of Marriott Hotels and currently vice chairman of Northwest Airlines, also serves as senior advisor to Carlyle.

Marous currently is a member of the board of directors of Bell Atlantic, Connecticut Mutual Life Insurance Co. and the Mellon Bank. He is also chairman of the University of Pittsburgh board of trustees and chairman of the U.S.-Japan Business Council.

Prior to being elected chairman, Marous served as president of the corporation's Industries and International Group, which included businesses involved globally in the development, manufacture and marketing of a wide variety of electrical and electronic products for industrial, construction and utility markets.

Marous joined Westinghouse on the graduate student training program in 1949. He held a series of key sales and marketing positions in electronic and construction products divisions and was named executive vice president of the Construction Group 1973.

HOUSTON (NOV. 5) PR NEWSWIRE -Serv-Tech Inc. (NASDAQ: STEC) announced that it has been awarded a contract by Star Enterprise for a major revamp of its fluid catalytic cracker No. 3 unit at the Port Arthur, Texas refinery. Preliminary work will begin immediately, with a scheduled completion date of April 1991. The contract, which exceeds $7 million, involves the removal of the existing regenerator head, along with 39 cyclones, and the installation of the new head.

Richard W. Krajicek, president, stated that award of this contract confirms Serv-Tech's position as a major provider of specialized maintenance services to the hydrocarbon processing industry. With this contract, Serv-Tech backlog is higher than at any time in its history.

Serv-Tech provides specialty maintenance services to the refining, petrochemical and gas processing industries throughout the United States.

#90309p3543 11/05/1990 ~PR Newswire

EDMONTON, Alberta (NOV. 5) PR NEWSWIRE - Echo Bay Mines Ltd. (AMEX: ECO) reported today net earnings of US$5.1 million (US$0.05 per share) in the third quarter of 1990, down from US$9.6 million (US$0.10 per share) in the third quarter of 1989. Quarterly revenues were US$88.9 million this year and US$84.6 million last year.

Earnings in the third quarter were up from the second quarter, when the company reported net earnings of US$778,000 (US$0.01 per share).

Operating cash flow per share was US$0.24, compared with US$0.26 in the third quarter of 1989 and US$0.20 in the second quarter of 1990.

The average price realized per ounce of gold sold during the third quarter was US$406 this year, up 5 percent from US$387 a year ago.

The company produced 208,507 ounces of gold in the third quarter, about 95 percent of last year's record third quarter production of 218,597 ounces, despite a three-week shutdown of the company's largest mill, located at McCoy/Cove in Nevada, principally to correct an environmental problem. A production increase of 59 percent at Round Mountain in Nevada made up for the shortfall at McCoy/Cove.

Production from the company's newest mine, Kettle River in Washington State, largely offset reduced production levels at the Borealis mine in Nevada, which wound down operations in the third quarter after being mined out earlier this year as planned.

Consolidated cash production costs were US$244 per equivalent ounce of gold produced in the quarter, up from US$210 in the year-ago period but down from US$251 in the first half of this year.

At 50 percent-owned Round Mountain in Nevada, third quarter production was up by 59 percent and costs were reduced to US$186 per ounce from US$202 a year earlier. The much higher production and lower costs per ounce were the result of improved ore grade (0.042 vs. 0.029 ounce per ton) and successful debugging of major new facilities installed in a two-year expansion program completed in mid-1989. Quarterly production was 140,686 ounces (Echo Bay's 50 percent share, 70,343 ounces) -- an all-time record. A year ago, Round Mountain produced 88,448 ounces of gold in the third quarter (Echo Bay's half, 44,224 ounces).

Echo Bay is one of the largest gold producers in North America. The company's shares are traded principally on the Toronto and American stock exchanges and on other major exchanges in North America and Europe.

NEW YORK (NOV. 5) PR NEWSWIRE - The General Motors (NYSE: GM) board of directors today voted to continue the current dividends on all three classes of GM common stock for the fourth quarter of 1990.

Holders of GM's $1-2/3 par value common stock will receive $0.75 per share; those owning Class E common will receive $0.14 per share; and Class H common stock holders will receive $0.18 per share.

Dividends on all three classes of common stock are payable Dec. 10, 1990 to stockholders of record on Nov. 15, 1990.

The dividend on GM's $1-2/3 par value common stock has been maintained at its present rate since the first quarter of 1989. Class E and Class H dividends were established at current levels in the first quarter of 1990.

GM's board also declared quarterly dividends of $0.28 per share on Series E-II and E-III preference stock, and $0.36 per share on Series H- II and H-III preference stock. These dividends are also payable Dec. 10, 1990 to stockholders of record on Nov. 15, 1990

In addition, the board declared quarterly dividends of $1.25 per share on $5.00 series preferred stock, $0.9375 per share on $3.75 preferred stock, and $0.715 per share on Series E-I preference stock. The Series E-I preference stock dividend was increased Oct. 1, 1990, following the expiration of a put option available to holders of the stock. Dividends on these three stocks are all payable Feb. 1, 1991 to shareholders of record on Jan. 7, 1991.

DETROIT (NOV. 5) PR NEWSWIRE - United Technologies Automotive - Engineered Systems Division (ESD), headquartered here, today announced plans to discontinue operations at its Alma Trim Plant in Alma, Mich., effective Feb. 28, 1991.

Company officials cited general downturn in the automotive supply industry, and excess capacity within United Technologies Automotive (UTA), as the reasons for the decision.

The decision affects 152 hourly and 13 salaried personnel. ESD officials are working with other business units within United Technologies Automotive in an effort to place the affected employees in other UTA facilities.

The plant, at 725 E. Superior St. in Alma, supplies General Motors and Chrysler Corporation with such interior automotive trim components as sun visors, door inserts and insulation products.

According to Pete Fisher, director of human resource programs for ESD, the decision to close the plant was made after company officials evaluated current

and projected business volume.

"Business conditions in the automotive supply industry are difficult at this time," Fisher said. "The decision to close a plant is never an easy one to make. But if the volume isn't there, we can't operate a healthy facility."

ESD, a division of United Technologies Automotive, produces interior and exterior automotive trim systems and components, steering wheel products, coupled-hose assemblies, metal stampings and insulation/acoustical products for the worldwide automotive industry.

United Technologies Automotive is a unit of United Technologies Corporation (NYSE: UTX) (UTC), headquartered in Hartford, Conn. UTC provides a broad range of high-technology products and support services to the aerospace, building systems and automotive industries.

#90309p3554 11/05/1990 ~PR Newswire

SAN JOSE, CALIF (NOV. 5) PR NEWSWIRE - Exar Corp. (NASDAQ: EXAR) today reported net income and revenue gains for the second quarter and first six months of fiscal 1991, which ended Sept. 30, 1990. Net income of $1,812,000 ($0.35 per share) and $3,408,000 ($0.63 per share), respectively, compared with net income of $1,803,000 ($0.29 per share) and $3,256,000 ($0.53 per share for the comparable periods of the prior year.

Exar reported net sales for the second quarter of fiscal 1991 of $28,681,000, a 32 percent increase over the $21,751,000 recorded during the second quarter a year ago. Sales for the six months of fiscal 1991 totaled $53,669,000. The 34 percent increase over the $39,939,000 reported in the comparable period of fiscal 1990 included a 61 percent increase in sales of custom products and a 90 percent increase in standard products which more than offset decreases in sales of telecommunications products and sales of wafer foundry services to Rohm Co., Ltd.

"Exar's consumer oriented standard products, which include disk drives and specialty audio components, continue to be well received by certain major Japanese electronic companies," said Nob Hatta, president of Exar. "While these products currently have relatively low margins, they present Exar with business opportunities for the future."

"Exar's stock performance has not reflected the gains in revenues and income per share," commented Ronald Guire, senior vice president and CFO of Exar. "The company's balance sheet remains strong with cash of $21,000,000 and shareholders' equity in excess of $11 per share on an if converted basis. Considering these factors, our stock performance has been disappointing,"

continued Guire. "We trust that in the future, Exar's stock price will better reflect the underlying value of the company."'

Founded in 1971, Exar Corp. designs, manufactures and markets mixed signal (linear, digital and EEPROM) application specific integrated products (ASICs) for the telecommunications, data communications, computer peripheral, automotive and industrial markets.

#90309p3555 11/05/1990 ~PR Newswire

NEW YORK (NOV. 5) PR NEWSWIRE - The cover story on the issue of Newsweek released today dramatizes "Chronic Fatigue Syndrome - A Debilitating Disease Afflicts Millions and the Cause is Still a Mystery."

The FDA has given clearance to only one drug for use in clinical trials with CFS patients, Ampligen, developed by HEM Research Inc. These trials have been organized in several locations across the country over the past 60 days and are now in the process of starting up. Overall monitoring of the study is being provided by Dr. David R. Strayer of Hahnemann University in Philadelphia.

Ampligen has two primary activities - its acts as a broad anti-viral compound and as a modulator of the immune system. The fact that Ampligen appears to have helped a number of CFS patients in early experimental use lends further support to the theory that the disease has viral causes and involves a general dysfunction of the immune system. Ampligen was also cleared by the FDA for clinical trials involving the treatment of patients with AIDS and certain forms of cancer.

The plight of patients with CFS is that there is no known diagnostic test available to physicians that is currently able to provide a confirmation that

a patient has this disease. Its causes and its activity in the body remain a mystery.

While the Newsweek article summarizes the compelling evidence from leading medical researches that CFS patients are suffering from a debilitating organic disease, they are often dismissed as hypochondriacs by less-informed doctors, employers, and co-workers.

Ampligen is a special form of double-stranded RNA in which the strands have been mismatched. Research led by Dr. Robert Suhadolnik of Temple University has shown that the resulting molecule fits like a key into an enzyme that ignites the body's natural antiviral processes.

While other double-stranded RNAs have shown similar effects in the test tube, the mismatching of the strands in Ampligen eliminates the toxic side effects that has made the other drugs unusable among human patients.

The drug's development is being led by Dr. William A. Carter, chief scientist of HEM Research. HEM Research's principal offices are located in Philadelphia, and Tavernier, Fla., with its main research facility in Rockville, Md.

#90309p3559 11/05/1990 ~PR Newswire

RIVERDALE, ILL (NOV. 5) PR NEWSWIRE - The U.S. steel industry will hold its own competitively during the 1990s, predicts Brian W.H. Marsden, president and chief executive officer of Acme Steel Company (NASDAQ: ACME), Riverdale, Ill.

During the first half of the decade, steel consumption should remain steady, imports may decrease slightly, and exports could increase, Marsden recently told members of the Western States Blast Furnace and Coke Oven Association, meeting in Merrillville, Ind.

"Apparent domestic steel consumption should remain in the 95 million to 100 million ton annual range, barring a major global war or a major international recession," he suggested. "However, within this domestic consumption, there may be changes as more steel is used in rebuilding the nation's infrastructure more in energy development projects, but probably less in automobiles and residential and commercial construction," he added.

The Acme president is generally positive about steel trade trends during the period, too, despite the probable non-renewal of Voluntary Restraint Agreements when they expire in 1992.

Imports of steel, he believes, "may well be a lesser factor because of the

weak dollar (in relation to other currencies) and, more importantly, because the U.S. industry is much more efficient and produces a higher quality product than at any time in its history."

For these same reasons, he sees the opening of more of the world to free trade -- especially those countries in the Warsaw Pact -- bringing "somewhat greater opportunities to export our lower-cost steel and steel-content goods. This may aid our total domestic steel production."

Despite these opportunities, the Acme president doesn't see any increase in steelmaking capacity in the foreseeable future. "Indeed, with planned continuous caster installations in the next two years taking the industry to 80-percent-plus continuously cast, it is conceivable that there may be some further replacement or downsizing of raw steel capacity," he suggested.

"This is most likely to occur among some of the integrated producers where the erosion of market share by the mini-mills in such segments as standard structurals, bars, and rods may be expected to continue," he added. Some dropout or downsizing of the older, less efficient mini- mills may also occur.

Mini-mills will continue to target the flat rolled market, Marsden believes. "It is likely that one or two mills relying on the electric furnace/thin slab casting/direct rolling process route may come on stream. Their impact will be mainly felt in the lower quality, lower priced end of the flat rolled market, making tough competition among the integrated flat rolled producers even tougher," he noted.

Although the Acme president sees relatively stable markets during the 1990-1994 period, he expects continued change on the technological and manufacturing sides of the business -- driven in part by the need to reduce manufacturing costs and increase quality.

-- Environmental pressures may force some companies to build new, environmentally clean coke ovens. "In other cases, particularly where foreign ownership is a reality, it may be cheaper to rely on imported coke," he pointed out.

-- Cost pressures will push blast furnace operators to use maximum alternate fuel injection and pursue "the ever moving target of more consistent, better quality, and cheaper iron. Form coke may be tested again and achieve greater acceptance as a blast furnace fuel," he noted.

-- Cost and competitive pressures will push iron ore pellet producers to improve pellet properties, further rationalize their operations, and reverse the trend of rising pellet prices.

In this competitive environment, Marsden also sees the development of a direct coal-based iron add steelmaking operation using the COREX or a COREX

look-alike process. It would require the availability of low cost coal and iron-bearing materials and the ability to generate electricity from the off gases. The facility, he added, would have to be linked to existing steelmaking and rolling mill operations to make sense economically.

"If you allow yourself to dwell on the possibilities, both geographically and for market placement, the odds might well favor a coastal site for a new installation," he pointed out.

The Acme president also sees a renewed emphasis on investment in the industry's "hot end."

"Currently, most investment is centered on upgrading rolling and finishing facilities to reduce costs and improve product quality. History shows us, however, that it is difficult, if not impossible, to recover in subsequent operations if you have a high cost or inefficient steelmaking operation," he warned,

Investment will remain difficult, he added, due to problems raising capital domestically. As a result, he sees a continuing trend toward foreign ownership or joint ventures with U.S. steelmakers.

What about the industry's prospects for the second half of the '90s? "Five-year forecasting is tricky; forecasting beyond that is almost insane. But some trends are apparent to me," Marsden explained.

"The move toward downsizing of plants will continue. In addition, the days of the multi-product, large volume steel plant are becoming increasingly numbered " he suggested.

Technologically, Marsden sees straight-through processing (in contrast to the industry's current use of numerous separate operations to make intermediate products) as "inevitable as we see development of environmentally acceptable direct steelmaking processes; the linkage of continuous casting and rolling mills; the linkage of hot rolled processing to picking, cold rolling, annealing, temper rolling, and coating; and greater use of sensors and intelligent computerization of the process."

As result of this, the industry will be able to offer "much shorter cycles from the placing of an order to its just-in-time delivery," he added.

#90309p3562 11/05/1990 ~PR Newswire

BOULDER, CO (NOV. 5) PR NEWSWIRE - NBI Inc. (NYSE: NBI) today announced the signing of one of Spain's leading software republishers, Idealogic Software, to republish and distribute Legacy, NBI's recently introduced word processing, page layout, and graphics package for Windows 3.0.

Idealogic Software will republish and distribute the Spanish and English versions of the Legacy software on an exclusive basis, is Spain. NBI will market the Spanish version in both the United States and Latin America.

In making the announcement, Stephen Jerritts, NBI president and chief executive officer, stated, "This partnership with Idealogic Software expands our international distribution and supports our objective of distributing Legacy throughout Western Europe."

Based in Barcelona, Spain, and founded in 1984 as a privately held corporation Idealogic Software distributes Lotus, Fox, WordPerfect, Borland, Microsoft, SPC, and Central Point Software among others.

Legacy is a comprehensive word processing, page layout and graphics package. Compared with other Windows word processing packages, the depth of page layout and typographical controls and robust architecture in Legacy enable easier, faster creation of high-impact documents containing text, graphics and data.

In the United States, Legacy is available through authorized resellers at a suggested retail price of $495. It requires Microsoft Windows 3.0 and MS-DOS 3.2 or higher; an IBM AT or compatible (80282 or 80386 CPU) or IBM PS/2; 640K of RAM (1-2 MB recommended); EGA, VGA, or other Windows-compatible display; and a Windows-compatible mouse. For more information, users can call 800-NBI-1111.

Based in Boulder, NBI designs and markets advanced word processing software packages. A leader in the word processing industry for more than a decade, NBI also provides customer service and support to a wide base of system users in domestic and international locations.

CONTACT: Carole Kimminau of NBI Inc., (303) 938-2721.

#90309p3563 11/05/1990 ~PR Newswire

CINCINNATI (NOV. 5) PR NEWSWIRE - Great American Communications Company (NASDAQ: GACC) today reported third quarter results highlighted by improved operating earnings for the company's two major operating groups, Broadcasting and Entertainment.

For the three months ending Sept. 30, 1990, operating income grew 9. 7 percent to $12.5 million from $11.4 million during the same period in 1989; net revenues increased by 7.9 percent to $87.3 million from $80.9 million in the

third quarter of 1989.

After deducting interest expense and other non-operating income and expenses, third quarter losses from continuing operations were $30.9 million in 1990, compared with $34.8 million in 1989. In the third quarter GACC also posted a gain of approximately $39 million on the early retirement of debt. Net income for the quarter was $7.9 million as compared with a loss of $42.4 million a year earlier.

For the first three quarters, GACC reported an increase in net revenues of 5.2 percent from $216.4 million in 1989 to $227.7 million in 1990. Operating income was $31.6 million in 1990 compared with $31.8 million in the first three quarters of 1989. For the nine months the net loss was $6.1 million compared to a loss of $90 million last year.

The combination of asset sales (including the sale of Chiquita Brands International, Inc. common stock in the second quarter) and the refinancing of some of the company's debt caused GACC's interest expense to decline by 16 percent for the first nine months of 1990. While the company will continue to report reduced interest costs, GACC expects to remain in a net loss position for the forseeable future due to interest charges and significant non-cash charges for amortization of intangibles.

Additionally, the company announced that a dividend of $.02 per share on its common stock is payable Dec. 6, 1990 to holders of record at the close of business on Nov. 21, 1990.

GACC and its subsidiaries own and operate five network affiliated television stations, and twelve FM and six AM radio stations in the top 50 markets. Through Hanna-Barbera, it is involved in animated film and video production, distribution and marketing worldwide. GACC beneficially owns approximately 46 percent of Spelling Entertainment Inc.

American Financial Corporation beneficially owns 68 percent of GACC. GACC's common stock trades in the over-the-counter market under the symbol GACC.

#90309p3568 11/05/1990 ~PR Newswire

PITTSBURGH (NOV. 5) PR NEWSWIRE - Papercraft Corp., a wholly owned subsidiary of Amalgamated Investment Corp., announced today that the members of a bondholder committee representing a substantial majority of Papercraft's outstanding first priority notes and second priority notes have indicated that they would extend until March 1, 1991, the current waiver of a default under the first and second priority note indentures arising from the nonpayment of cash interest.

Prior to such date they will not exercise any rights of acceleration arising from the default (and will not seek to influence the indenture trustees to exercise any such rights).

Since Oct. 1, 1990, Papercraft has been engaged in ongoing discussions with the bondholders committee and its representatives in an effort to reach a long-term solution to adjust or reduce Papercraft's debt service requirements.

In connection with these discussions, the bondholder committee has undertaken to conduct a detailed review of Papercraft's affairs and has agreed to an extension of the cash interest default waiver to March 1, 1991.

The extension is conditioned upon Papercraft's agreement to provide the bondholder committee with various information concerning Papercraft's operations and not to engage in certain transactions outside of the ordinary course of business during the extension period without prior bondholder approval.

On Oct. 3, 1990, Papercraft announced that it would not make a cash interest payment on the cash portion of interest due Oct. 1 on Papercraft's first and second priority notes.

At that time, the members of the bondholder committee agreed to waive the default and their acceleration rights until Nov. 2, 1990. The first and second priority notes were originally issued in connection with Papercraft's May 1989 restructuring of its then outstanding debt. Papercraft Corp. owns subsidiaries which manufacture and distribute household products.

STAMFORD, CT (NOV. 5) PR NEWSWIRE - Savin Corporation (NYSE: SVB) announced it has been awarded a five year, multi-million dollar worldwide contract by the General Services Administration to provide photocopiers for use on U.S. Navy ships.

Savin will supply the Navy with approximately 2,000 mid-volume (20,000 to 40,000 copies monthly) Class III copiers, parts, training and service worldwide. These models were specifically modified to meet the unique specifications and conditions associated with shipboard environments. The first year of this five year contract, renewable annually, is valued at approximately $5 million.

William T. Smith, Savin vice chairman and chief operating officer, commented, "Savin understands the special needs of the U.S. Navy and this award demonstrates our ability to meet their high standards for communication equipment. We are pleased that the Navy continues to recognize our commitment to provide cost-effective, reliable products and ongoing technical support and service."

The new contract reinforces an ongoing relationship between Savin and the U.S. Navy that started in 1979 when Savin first designed specialized models for shipboard use.

In 1985, Savin was awarded the first five year contract to provide the Navy with convenience copiers in the low to mid-volume category (up to 20,000 copies monthly). Approximately 70 percent of all copiers in these categories currently installed on Navy ships were supplied by Savin.

Savin Corporation, founded in 1959, markets a full line of office copiers (color and black & white) and facsimile products through a North American network of 11 branches and over 380 dealers.

Savin introduced liquid toner technology to the copier market and is the only marketer offering both liquid and dry technologies. Savin Corporation, listed on the New York Stock Exchange, is approximately 55 percent owned by HCS Technology N.V., a Netherlands-based office equipment company.

#90309p3581 11/05/1990 ~PR Newswire

CINCINNATI (NOV. 5) PR NEWSWIRE - Robert J. Ready, president of LSI Industries Inc. (NASDAQ: LYTS) today reported operating results for the first quarter ended Sept. 30, 1990, as follows:

	(Amounts in Thousands)	
	1990	1989
Net Sales	$19,983	$20,255
Gross Profit	5,541	7,318
Operating (loss) income	(557)	2,102
Net (loss) income	(700)	1,120
Net (loss) income per share	$(.15)	$.22
Average shares outstanding	4,686	4,865

During the quarter ended Sept. 30, 1990, LSI Industries continued to experience a sales decline in its indoor/outdoor commercial lighting business. Sales of its domestic graphics operations were below prior year levels principally due to graphics programs of certain petroleum customers being deferred or reduced in scope. As a result, certain operations are being restructured to reduce personnel costs and close excess warehousing space. Restructuring costs are included in the operating loss reported in the September 1990 quarter.

"Despite short-term losses caused largely by the Mideast situation and economic conditions," said Robert J. Ready, LSI chairman and CEO, "we remain committed to our growth strategy in the commercial lighting and graphic product markets. Sales volumes and operating income have showed improving trends in September and October. LSI's U.K. graphics subsidiary, Duramark, is progressing on the development of a graphics image program for a major European petroleum company. Earlier U.K. quality problems have been corrected and volume is improving."

LSI designs, engineers, manufactures and markets a wide range of high-quality indoor, outdoor, and landscape lighting fixtures and graphic products. The company is the leading supplier of outdoor lighting and graphic products to retail gasoline facilities and a major supplier to the fast-food restaurant and automobile dealership markets. The company's common shares are traded on the NASDAQ National Market System under the symbol LYTS.

ELIZABETH, N.J. (NOV. 5) PR NEWSWIRE - Reflecting a commitment to customer service and continued growth, BFI has added two sales professionals to its New York office.

Bill DeGeorge of Islip Terrace, N.Y. joins the $50-million-a-year contract furniture and services firm as an account executive with more than 10 years experience in the contract furniture industry.

Also joining the firm is account representative Sephra Fisher of Oyster Bay, N.Y., a veteran of five years in the business with a background in architecture.

Fisher will spend much of her time working directly with professionals in the New York City design community.

"We're extremely pleased that Bill and Sephra have chosen to become part of BFI," said company executive vice president Dan Morley announcing the staff expansion. "Both are highly customer service- oriented -- committed to solving the problems and meeting the needs of our clients."

A graduate of the State University of New York at Farmingdale architecture program, DeGeorge said he strives to present conceptual and practical solutions to a client's facility concerns.

"Having begun his career in customer service, Bill is also well aware of the problems and concerns clients often face once a renovation or relocation is completed," explained Morley. "His clients have always had a lot of confidence in him as a result."

Clients frequently demonstrate that confidence by placing future orders with DeGeorge and seeking his advice as they expand and relocate.

When a large insurance company opened a facility on Long Island, DeGeorge secured the $1.5-million order to furnish the new location.

DeGeorge's professionalism, however, so impressed the company that it awarded him a project for its Albany, N.Y. office and selected him to coordinate two additional planned facilities.

"Customer service in the contract furniture industry and architecture are a natural combination," said DeGeorge in crediting his success to experience in both areas.

He also credited his avocation of surfing, which he learned off the south shore of Long Island, for teaching him a "go for it" attitude in a tight business economy.

"When you are out there paddling in the ocean in literally a life and death situation, you learn to work with the flow and not against it for success," he explained.

In a related pursuit, DeGeorge is recognized as one of the top two

sailboarders in the northeast.

Although he competed in the "Around the Big Apple" sailboard race and subsequently was invited to participate in the National Product Championship Invitational Sailboard Competition tour of U.S. cities, DeGeorge rejected the honor to come aboard BFI instead.

"We think that says something about Bill and BFI," concluded Morley. "We both think the industry and its customers come first."

NEW YORK (NOV. 5) PR NEWSWIRE - Appointments involving three key positions in GM's personnel activities were approved today by the General Motors Board of Directors, according to F. Alan Smith, executive vice president of General Motors (NYSE: GM). All appointments are effective immediately.

Alfred S. Warren Jr. has been named vice president in charge of Strategic Labor Issues. He will continue to coordinate the implementation of GM's new agreements with the United Auto Workers and other major unions, pending his retirement in April 1991.

Richard F. O'Brien succeeds him as vice president of the Industrial Relations Staff. Gerald A. Knechtel is promoted to vice president of the Personnel Administration and Development (PAD) Staff, replacing O'Brien. All three executives will report to Charles Kato, executive in charge of the Operating Staffs Group.

In his new assignment, Warren, 64, will cap a 35-year GM career marked by more than a decade as Industrial Relations vice president and head of the General Motors bargaining team in four national negotiating sessions.

Warren became a member of the faculty at the former General Motors Institute in Flint, Mich., in 1955, and subsequently joined the Chevrolet manufacturing organization.

He served in production management at Chevrolet plants in Buffalo, N.Y.; St. Louis; Flint and Warren, Mich.; and the Cleveland region before moving to the corporate PAD Staff in 1973, where he played a key role in the development of GM's Quality of Work Life program.

Warren became personnel director of GM's former Fisher Body Division in 1977, and returned to the corporation in 1980 as vice president of Industrial Relations.

O'Brien joined GM's former New Departure-Hyatt Bearings Division in 1966, following service with the U.S. Navy. He held a number of positions on the GM financial staff involving employee policies and benefits before becoming an assistant treasurer in 1981.

He transferred to the PAD Staff as general director of personnel administration in 1982 and subsequently became general director of employee benefits in 1984 on the PAD Staff before tranferring to the Industrial Relations and Staff in 1986 as general director of labor relations. O'Brien was elected vice president of the PAD Staff in 1988.

During his 27 years with GM, Knechtel, 49, has held a variety of posts in the personnel field. He joined GM Photographic personnel in 1963 and later moved to the PAD Staff where he oversaw compensation practices at GM's Central Office.

#90309p3594 11/05/1990 ~PR Newswire

DENVER (NOV. 5) PR NEWSWIRE - Asset Investors Corp. (NYSE: AIC) today announced its net income for the three months ended Sept. 30, 1990 was $7,369,000 or 53 cents per share, as compared to $5,789,000 or 42 cents per share during the third quarter of 1989. Net income for the nine months ended Sept. 30, 1990 increased 49 percent to $22,648,000 or $1.63 per share, as compared to $15,239,000 or $1.10 per share, during the prior year. Earnings per share are based on 13,892,000 weighted average shares outstanding.

Reported net income for the third quarter of 1990 increased 27 percent over the third quarter of 1989 before a noncash accounting adjustment of $5,200,000 or 37 cents per share. This adjustment reverses an equal charge to operations taken during the first and second quarters of 1989. The adjustment results from lower short-term interest rates during the third quarter of 1989 as compared to rates during the first two quarters of 1989.

As a real estate investment trust, Asset Investors' dividends are based on taxable income calculated under the Internal Revenue Code and not on GAAP. Federal taxable income for the three and nine months ended Sept. 30, 1990 is estimated to be approximately $7,500,000 or 54 cents per share, and $22,400,000 or $1.61 per share, respectively.

On Sept. 30, 1990, the company paid a third quarter dividend of 45 cents per share increasing total dividends paid during 1990 to $1.35 per share. Dividends during the first nine months of 1989 were $1.11 per share. Spencer I. Browne, president and chief executive officer of Asset Investors, stated that, "Asset Investors had paid out aggregate dividends of over $98,750,000 ($8.25 per share), since the company's inception in December 1986."

Net and taxable income continue to benefit from lower short-term interest rates, specifically the average London Interbank Offered Rate ("LIBOR"), which is the benchmark for determining the interest rate on the company's variable-rate CMO debt. LIBOR was over 115 basis points lower during the nine months ended Sept. 30, 1990 as compared to the like period in 1989. Other factors resulting in increased income in 1990 over 1989 include lower short-term interest expense due to lower borrowings at reduced interest rates and a substantial reduction in general and administrative expenses.

The company continues to reduce its portfolio's sensitivity to short-term interest rates by adding fixed-rate CMO residuals. The company acquired two fixed-rate CMO residuals during the third quarter and committed to acquire two more in the fourth quarter at an aggregate cost of approximatley $9,500,000.

Asset Investors is a real estate investment trust that generates income primarily from a portfolio of ownership interests in issuances of collateralized mortgage obligations and other mortgage-related assets.

ROWAYTON, CONN. (NOV. 5) PR NEWSWIRE - Baldwin Technology Company, Inc. (AMEX: BLD) announced today that it has been authorized to purchase, from time to time, up to 400,000 shares of its Class A common stock or such greater number of shares which may be purchased at an aggregate purchase price not to exceed $2,500,000. This represents an increase from the initial 100,000 shares the company announced it would repurchase earlier this year. To date, the company has repurchased 55,200 shares under this program.

The company believes that the current market price of its Class A common stock makes it an attractive investment at this time. Dean Witter Reynolds will continue to act as the company's agent for the repurchase.

Baldwin Technology Company, Inc. (BLD) is a leading multinational manufacturer of material handling, accessory, control and pre-press equipment for the printing industry. For the first quarter ended Sept. 30, 1990, the company had net sales of approximately $47.9 million and net income of approximately $1.5 million

NEW YORK (NOV. 5) PR NEWSWIRE - Orion Capital Corporation (NYSE: OC) announced today that, for the quarter ended Sept. 30, 1990, earnings from insurance operations (before realized investment gains /losses/) increased to $6,817,000, or $.77 per share (after preferred dividends) based upon 6,447,000 weighted average primary common shares outstanding, from $6,185,000, or $.65 per share (after preferred dividends) based upon 6,531,000 weighted average primary common shares outstanding, for the third quarter of 1989. On a per-share basis, this represents approximately an 18 percent increase in operating earnings for the quarter.

For the nine months ended Sept. 30, 1990 and 1989, earnings from insurance operations were $24,273,000, or $2.88 per share, and $21,983,000, or $2.48 per share, based upon 6,479,000 and 6,500,000 weighted average primary common shares outstanding, respectively.

Realized investment gains (losses) for the third quarter of 1990 and 1989 amounted to $949,000 and $(223,000) on a pre-tax basis, respectively. After taxes, realized investment gains were $93,000, or $.01 per share, in the third quarter of 1990, vs. $(10,000), or $(.12) per share, in 1989s third quarter. On a year-to-date basis, after-tax realized investment gains (losses) were $(1,070,000), or $(.17) per share, and $2,299,000, or $.35 per share, in the first nine months of 1990 and 1989, respectively.

For the three months ended Sept. 30, 1990, net earnings were $6,910,000, or $.78 per share, compared with $5,375,000, or $.53 per share, for the third quarter of 1989. Year-to-date net earnings for 1990 and 1989 amounted to $23,203,000, or $2.71 per share, and $24,282,000, or $2.83 per share, respectively.

On a fully diluted basis, earnings from insurance operations amounted to $.70 per share and $.62 per share, on 9,072,000 and 8,233,000 fully diluted shares, for the quarters ended Sept. 30, 1990 and 1989, respectively. After-tax realized investment gains (losses) per fully diluted share amounted to $.01 and $(.10) in the third quarter of each year, respectively. Fully diluted net earnings amounted to $.71 per share and $.52 per share for the three months ended Sept. 30, 1990 and 1989, respectively.

Year-to-date, earnings from insurance operations amounted to $2.51 per share and $2.22 per share, on 9,104,000 and 9,149,000 fully diluted share, for the first nine months of 1990 and 1989, respectively. After- tax realized investment gains (losses) per fully diluted share amounted to $(.12) and $.25 for the first nine months of each year, respectively. Fully diluted net earnings amounted to $2.39 per share and $2.47 per share for the nine months ended Sept. 30, 1990 and 1989, respectively.

Orion Capital is engaged in the specialty property and casualty insurance business through various wholly owned insurance subsidiaries.

VOORHEES, N.J. (NOV. 5) PR NEWSWIRE - Glendale Bancorporation (NASDAQ: GNBC), the holding company of Glendale National Bank of New Jersey and Glendale Bank of Pennsylvania, today reported net income of $655,000 for the nine months ended Sept. 30, 1990, as compared with $852,000 for the comparable period in 1989.

On a per-share basis, primary and fully diluted net income was $.34 as compared to $.43 for the nine months ended Sept. 30, 1990 and 1989, respectively. The lower net income is attributable to an increase in the allowance for loan losses. During the nine months ended Sept. 30, 1990, the corporation provided $957,000 to the allowance for loan losses as compared to $375,000 for the same period of 1989, an increase of $582,000. Total consolidated assets were $242,397,000 at Sept. 30, 1990.

MINNEAPOLIS (NOV. 5) PR NEWSWIRE - Health Risk Management, Inc. (NASDAQ: HRMI) announced today that it filed a registration statement with the Securities and Exchange Commission for an initial public offering of 1,200,000 of its common shares on Nov. 2. All of the shares will be offered by Health Risk Management, Inc. Net proceeds from the offering will be used for repayment of indebtedness and for working capital and general corporate purposes.

The offering will be managed by Wessels, Arnold & Henderson. It is currently estimated that the public offering price will be between $9 and $11 per share, and that the offering will be listed on the NASDAQ National Market System under the proposed symbol of "HRMI."

Health Risk Management, Inc. provides a broad range of integrated managed health care services to self-insured employers, unions, governmental entities, and insurance company clients. The company's services are designed to manage the quality, volume, and cost of health care provided under clients' employee benefit plans. Health Risk Management, Inc. has developed its managed care services based upon proprietary clinical practice guidelines, company-developed medical databases, and extensive medical expertise. For the fiscal year ended June 30, 1990, the company managed over $1 billion in claims for approximately 120 clients covering approximately 1.5 million lives.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission, but has not yet become effective. These securities may not be sold, nor may offers to buy be accepted, prior to the time the registration statement becomes effective. This news release shall not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any state in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities law of any such state.

NEW YORK (NOV. 5) PR NEWSWIRE - Goldman, Sachs & Co., as lead manager of the underwriting group, announces a public offering today of 2,500,000 CAC 40 Paris Stock Exchange index put warrants expiring Nov. 4, 1992, of Societe Generale Warrants Limited N.V. at a price of $2.75 per warrant. Societe Generale Warrants Limited N.V. is a subsidiary of Societe Generale, a major French bank. The issue is supported by a letter of credit issued by Banque Nationale de Paris, New York branch. The issue is the first public offering in the United States of warrants relating to the CAC 40 Stock Index. Dean Witter Reynolds Inc., Oppenheimer & Co., Inc. and Societe Generale Securities Corporation are co-managers. The underwriters have been granted an option to purchase up to an additional 375,000 warrants to cover over- allotments. The warrants are listed on the American Stock Exchange under the symbol SGG.WS.

Each warrant will entitle the holder thereof to receive from Societe Generale Warrants Limited N.V. the cash settlement value, if any, of the right to sell to Societe Generale Warrants Limited N.V. one-fifteenth of the U.S. dollar equivalent of the CAC 40 Stock Index for $21.57. Accordingly, upon exercise, the holder of the warrant would receive the excess, if any, of $21.57 over one-fifteenth of the U.S. dollar equivalent of the then prevailing CAC 40 Stock Index.

The U.S. dollar equivalent of the CAC 40 Stock Index shall be calculated using a fixed exchanged rate of FF5.0105 equals $1.00. As a result, the cash settlement value in U.S. dollars that a warrantholder may receive upon exercise, expiration or cancellation of its warrant shall not be affected, as such, by fluctuations in the actual French franc/U.S. dollar exchange rate.

The CAC 40 Stock Index is a cap-weighted stock index that measures the aggregate price performance of 40 of the most widely followed equities listed on the Paris Stock Exchange, representing a cross- section of industries.

#90309p3617 11/05/1990 ~PR Newswire
CYPRESS, CALIF. (NOV. 5) PR NEWSWIRE - Mitsubishi Motor Sales of America Inc. today posted a 45 percent increase in passenger car sales for the month of October, despite industrywide competition and continued soft sales within the marketplace. The company reported total year-to-date sales of 163,732 units, representing a 35 percent increase in vehicle sales from a year earlier.

"Sales of U.S.-built Mitsubishi products have become a strong catalyst for our consistent growth this calendar year," said Rick Lepley senior vice president of sales. "We anticipate additional domestic volume to be gained this model year with production of the Mirage 4-door alongside the Eclipse at Diamond-Star Motors in Illinois."

Passenger car sales reached 11,625 units and included 3,835 units of domestically-built product. Lepley also noted that October was Mitsubishi Motors' strongest month for passenger car sales since last June.

"Our dealers have been coping with a very short supply for the past couple of months while awaiting '91 product," Lepley continued. "Now with the arrival of new products including the stylish 3000GT, we expect dealer and consumer enthusiasm to be on the rise.

Mitsubishi remains aggressive in regard to sales projections and future products and is anxious to introduce its all-new luxury sedan this coming spring. The company will be introducing a total of five new products during the next two years.

Mitsubishi Motor Sales of America Inc., based in Cypress, was established in 1981 by Mitsubishi Motors Corp., based in Tokyo, and markets a full line of subcompacts, compacts, sports coupes, light trucks and sport/utility vehicles.

#90309p3620 11/05/1990 ~PR Newswire
CALGARY, ALBERTA (NOV. 5) PR NEWSWIRE - Coho Resources Inc. (NASDAQ: COHO) announced today its financial and operating results for the nine months ended Sept. 30, 1990.

For the nine months ended Sept. 30, 1990, the company has reported net earnings of $5.2 million ($0.50 per share) compared to $7.4 million ($0.93) per share for the same period in 1989.

Net production revenue increased 28 percent from $11.7 million reported in 1989 to $15.0 million reported in the nine month period in 1990 as a result of higher production and product prices.

Cash flow from operations, before working capital adjustments, decreased from $9.0 million for the nine month period in 1989 to $8.6 million in 1990. The decrease is a result of interest charges on bank debt during 1990 which had not been recorded in previous years.

For the nine month period ending Sept. 30, 1990, oil production averaged 3,101 barrels per day compared to 2,518 barrels per day during the same period in 1989. Equipment problems experienced at Laurel resulted in three wells being shut in during September of 1990, reducing the company's production levels by approximately 400 barrels (net to Coho) of oil per day. This production is expected to be recovered in the fourth quarter.

During the first nine months of 1990, the company has experienced an increase in its operating costs as a result of increased production, the purchase of the Soso and Summerland fields (which have historically high operating costs), and equipment problems at Laurel. A significant proportion of the increased field operating costs occurred in the third quarter, reflecting equipment difficulties at Laurel and the acquisition of the Soso field. The company anticipates that it will be able to reduce the operating costs at Soso and Summerland over the next several quarters with the implementation of new operating practices, and is currently testing a new type of production equipment at Laurel.

For the nine month period in 1990, the company has spent $24.8 million on capital expenditures. Activities included drilling 13 wells (8.3 net), numerous recompletions in the Summerland field, lease acquisitions, and the purchase of the Soso field in Mississippi.

DETROIT (NOV. 5) PR NEWSWIRE - Cadillac Motor Car opened the first month of the 1991 model year with sales of 22,841 units -- up 3.8 percent -- compared to the same period last year when the luxury automaker sold 21,180 units.

Sales of De Ville/Fleetwood models were reported at 16,008 units, an increase of 11.5 percent from the opening month last year. Sales of the Seville model also were up sharply with 1,889 units sold during the month of October compared to 1,441, in 1989.

Since January, sales of the Seville were 28,947 units, up more than 55 percent compared to 18,593 units sold in the same period last year.

"We're encouraged by the opening month sales figures for the new model year," said John O. Grettenberger, Cadillac general manager and General Motors vice president. "Confidence in our products, as evidenced by our recent winning of the Malcolm Baldrige National Quality Award, remains strong despite the sluggish economy."

OAK BROOK, IL (NOV. 5) PR NEWSWIRE - Waste Management, Inc. (NYSE: WMX) said today that it has agreed to settle for $19.5 million a class-action suit brought by Cumberland Farms, Inc. and others more than three years ago.

The company said the plaintiffs concurred that it was uncertain that they could win a judgment that there had been a broad antitrust conspiracy as they had originally alleged. The plaintiffs agreed to limit the settlement fund provided by Waste Management to 13 markets where prior antitrust investigations had been concluded while dismissing all other claims against the company.

Browning-Ferris Industries, which was named as a co-defendant in the 1987 class-action suit, also concluded a settlement with the plaintiffs. Formal notice to the class encompassing the settlements with both companies was mailed today following preliminary approval of the settlements by the U.S. District Court for the Eastern District of Pennsylvania.

''On one hand the plaintiffs acknowledged, after extensive discovery, that there clearly was uncertainty whether they could prevail in court with their class action. On the other hand, however, we acknowledged there could have

been further civil exposure in those 13 markets,'' said J. Steven Bergerson, vice president and general counsel of Waste Management, Inc.

''We have maintained from the very beginning of this litigation back in 1987 that no broad conspiracy ever existed. We decided to settle the case primarily to protect the company against suits arising from old investigations concluded long ago and to spare the company the high cost of continued civil litigation,'' Bergerson said.

CHICAGO (NOV. 5) PR NEWSWIRE - In a one-week period ending Nov. 9, Montgomery Ward will have opened six new full-line specialty stores and completed the remodeling of three additional stores, all utilizing the company's latest specialty store concept, according to Chairman and Chief Executive Officer Bernard F. Brennan. The six new stores raise the company's total to 343, an increase of more than 50 stores in the past four years.

The six new stores are in Westminster, Md. (Baltimore market); Chesapeake, Va. (Norfolk area); Indianapolis, Ind. (Castleton Mall); Chicago, Ill. (Yards Plaza at 47th & Damen); Lewisville, Texas (Dallas/Ft. Worth Market); and Victorville, Calif. (south central California). The three stores receiving extensive remodeling are in Albuquerque, N.M.; Mt. Prospect, Ill.; and Omaha, Neb.

Brennan said the new store openings are part of the company's plan to expand in existing company markets. For example, he noted that all six of the new stores opening in November are in markets where Montgomery Ward already has a strong presence: ''Since our management team purchased the company in 1988, it has always been our objective to grow the company. We will open a total of 17 new stores this year out of a total of 53 new stores we plan to open in the next year and a half. These stores, together with the 50-plus new stores opened in the past four years, means that Montgomery Ward will have opened close to 100 new stores in a five-year period,'' said Brennan.

Brennan said that the stores being opened in November employ a concept unique in retailing. ''This format, which we introduced in 1989 with great success in our Niles, Ill., store, is new in terms of design, merchandise presentation and customer service. Each specialty category has a distinctive design, achieved through differences in colors, signing and layout. Each is linked in an integrated setting to create the feel and apearance of a contemporary mall inside the store,'' he said. (The Niles stores recently won 1st Place for design excellence in the ''Best New Super Specialty Store'' catgegory, part of Chain Store Age Executive magazine's annual ''New Store of the Year Design Contest.'')

''Our new stores are designed to be fun stores in which to shop, and to provide shoppers with the very best in customer service,'' Brennan added. ''We have combined the elements of separate 'destination stores' with the convenience of one-stop shopping for customers. Each of our specialty stores has the breadth and depth of quality brand name merchandise of a fine specialty store. But we also provide customers with the convenience of being able to walk from one specialty to another, much like a mall,'' he said.

Brennan explained that the design of the new stores is the culmination of five years of a carefully planned evolutionary process that began with the deicsion to change from mass merchant to a chain of value-driven specialty stores. The company's stores now offer four basic specialty merchandise catgegories with full-line stores offering all the specialty categories at one location. Smaller Montgomery Ward stores may offer one or various combinations of these specialty stores. The specialty categories are: Electric Avenue, Home Ideas (including Window Ideas), the Apparel Store (including the Kids Stores and Gold 'n Gems) and Auto Express.

With the addition of these six new stores Montgomery Ward will have 343 stores in 39 states; the company employs some 67,000 people.

STAMFORD, CONN. (NOV. 5) PR NEWSWIRE - Calvin J. Guass has been named president of the Playtex Family Products Corporation, reporting to Playtex' chairman, Joel E. Smilow. The position has been open since the December 1988 formation of the Playtex Family Products Corporation. Gauss had been senior vice president and general manager of the Playtex Family Products Corporation for the past year.

Gauss has been with Playtex since 1980. Prior to his current reassignment to the United States, he was vice president and general manager of the Playtex Canadian operations, which reached record levels in market share, sales and profitability during his tenure. Prior to joining Playtex, Gauss was a marketing executive with the Clairol Division of Bristol-Myers.

Playtex Family Products Corporation, a leading consumer products company in the segments of personal, household, beauty and infant care products. Outstanding products, such as Playtex Tampons, Jhirmack, Playtex and Cherubs infant feeding systems, Playtex Living and Handsaver Gloves, are manufactured and distributed by Playtex Family Products Corporation.

ST. LOUIS (NOV. 5) PR NEWSWIRE - INTERCO Inc. (NYSE: ISS) announced today that it has filed with the Securities and Exchange Commission an amendment to its preliminary registration statement in connection with the restructuring of the company's outstanding debt and preferred stock. The amended registration statement, which is subject to review by the Commission, reflects the previously announced agreement in principle between INTERCO and steering committees for the company's bank group, medium-term noteholders and subordinated debentureholders.

"We are pleased that our restructuring plan continues to move forward. We are anxious to proceed with the restructuring, which we believe provides a long-term solution for INTERCO and for our banks, medium-term noteholders, debentureholders and stockholders," commented Richard B. Loynd, Chairman and Chief Executive Officer. "As we have consistently stressed, INTERCO has four successful core companies, each of which has excellent long-term potential for growth. However, INTERCO's debt is much larger than these fine companies can support.

"The restructuring will address INTERCO's balance sheet problems," Loynd said. "This will not only enhance the long-term stability of INTERCO, but will permit us to capitalize on the inherent strengths of the core companies, including well-established dealer networks, high brand recognition, and efficient manufacturing operations."

INTERCO is a major manufacturer of furniture and a manufacturer and retailer of footwear, through its four core companies: Broyhill Industries Inc., The Lane Co. Inc., Converse Inc., and The Florsheim Shoe Co.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission, but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This announcement does not constitute an offer to sell or the solicitation of an offer to buy any security or the solicitation of any consents or approvals. Offers and solicitations shall be made only by means of the proxy statement/prospectus filed by INTERCO with the Securities and Exchange Commission.

SAN JUAN, P.R. (Nov. 5) PR Newswire - Banco Popular de Puerto Rico (NASDAQ: BPOP) and BanPonce Corporation (NASDAQ: BDEP) announced today that the board of governors of the Federal Reserve System had approved their application for merger.

Banco Popular and BanPonce said that they currently expect to complete their merger by Dec. 31, 1990. The resulting bank holding company will be named BanPonce Corporation, and the combined banks will be called Banco Popular de Puerto Rico.

Under the terms of the merger, announced Oct. 19, 1989, shares of BanPonce will be exchanged for either shares of the new holding company or cash, subject to an election procedure and allocation limitations. Election forms are expected to be mailed to BanPonce shareholders shortly. Banco Popular shares will be exchanged for shares of the new holding company on a one-for-one basis.

In order to receive approval for the merger, the companies have agreed to divest some branches in Puerto Rico with deposits of about $90 million. The companies said that they are negotiating the sale of these branches and that they expect to complete the sale during the second quarter of 1991.

Earlier, the Commissioner of Financial Institutions in Puerto Rico approved the merger.

The combined company will be the largest bank holding company in Puerto Rico with approximately $9 billion in total assets and 165 branches in Puerto Rico, 22 in New York City and five elsewhere in the U.S.

CALGARY, ALBERTA (NOV. 5) PR NEWSWIRE - Gulf Canada Resources Limited's (Toronto, Montreal: GOU) cash generated from continuing operations before exploration expenses was $90 million for the three- month period ended Sept. 30, 1990, compared with $99 million for the same period in 1989. The world-wide increase in crude oil prices, which made a noticeable impact in the latter part of the quarter, was offset by lower liquids volumes, the absence of Beaufort Sea drilling activity this year and higher financing costs. Third quarter 1990 earnings were $17 million, compared with $6 million a year ago. Earnings were affected by the same factors, as well as lower exploration expenses and gains on asset dispositions.

For the nine-month period ended Sept. 30, 1990, cash generated was $248 million, compared with $318 million for the same period in 1989. The loss for

the first nine months of 1990 was $34 million, compared with earnings from continuing operations of $58 million and total earnings of $39 million for the first nine months of 1989. Nine-month results were also affected by the lack of Beaufort Sea activity, higher prices, lower volumes and higher financing costs. In addition, earnings were impacted by the second quarter write-off of previously incurred frontier exploration expenses, losses on asset dispositions and the absence of a 1989 nonrecurring foreign exchange gain on early retirement of debt.

Gross sales of crude oil, natural gas liquids and synthetic crude oil averaged 90,700 barrels per day for the first nine months of 1990, compared with 100,500 barrels per day in the same period in 1989. The decrease was primarily due to natural declines from existing fields in Indonesia and Western Canada. Third quarter sales were also affected by the sale of certain non-strategic Western Canada properties.

Natural gas sales in the first nine months of 1990 averaged 327.0 million cubic feet per day, slightly higher than sales for the same period in 1989.

#90309p3646 11/05/1990 ~PR Newswire

LEBEC, CALIF. (NOV. 5) PR NEWSWIRE - Tejon Ranch Co. (AMEX: TRC) today reported net income of $1,124,000, or $.09 per common share, for the nine months ended Sept. 30, 1990. This compares with net income of $1,735,000 or $.14 per common share for the same period in 1989.

Net income for the third quarter ended Sept. 30, 1990, was $300,000 or $.02 per common share compared to net income of $210,000 or $.02 per common share for the same period in 1989. Total revenues from operations, including interest income, for the third quarter ending Sept. 30, 1990, were $2,219,000 compared to $3,583,000 for the same period in 1989. Total revenues, including interest income, for the nine months ending Sept. 30, 1990, were $7,778,000 compared to $10,126,000 for the same period in 1989.

Net income for the nine months ended Sept. 30, 1990, decreased when compared to the same period last year. This decrease is largely associated with the receipt in April, 1989 of an $884,000 cash settlement for a gas pipeline condemnation. Decreased livestock sales during 1990, due to drought conditions, have also reduced earnings for the first nine months. These earnings reductions in 1990 were partially offset by lower water costs during the third quarter due to the return of a portion of the company's water entitlement back to a local water district. Proceeds received from a settlement with a commercial lessee covering a fire loss also helped offset reduced earnings.

Tejon Ranch Co. owns approximately 270,000 acres of land approximately 60 miles north of Los Angeles and is engaged in cattle, farming, oil and minerals and commercial highway leasing operations.

TORRANCE, CALIF. (NOV. 5) PR NEWSWIRE - The Acura Division of American Honda Motor Co. Inc. announced today the introduction of an all-new, totally redesigned Legend line of automobiles. The introduction of the second-generation, 1991 Legend is an important milestone in the evolution of American Honda's Acura Division. In the five years since the Legend was first introduced, it has received consistently high praise from both the press and public alike.

"Like the original Acura Legend, which was the first Japanese luxury performance automobile, the second-generation Legend is certain to set new standards in its class for the '90s " stated Ed Taylor, vice president, Acura Division.

Through the years, Acura has experienced a number of firsts: the first Japanese luxury automobile division established; the first automobile division to rank No. 1 in the J.D. Power Customer Satisfaction Index Survey for product quality and dealer service for four years in a row -- every year the division has been eligible; and the first to introduce a high-performance, all-aluminum mid- engine sports car, the Acura NSX.

The introduction of the all-new Legend caps off a busy year for Acura in which the division launched the NSX, a state-of-the-art mid-engine sports car, and reached a sales milestone of selling its 500,000th automobile since the start of operations in 1986.

The all-new Legend is longer, wider, more powerful and achieves better fuel economy. The Legend boasts a powerful 3.2-liter 24-valve V-6 engine which produces 200 horsepower. The all-new drivetrain in the 1991 Legend features a longitudinally mounted engine, an advanced three-stage Variable Induction System, Programmed Fuel Injection (PGM-FI), and a Direct Ignition System. Also standard on all models is a Honda R & D-designed Anti-Lock Braking System a driver's side air bag and on Legend LS models, a passenger's side air bag is also included. The Legend Coupe and Sedan feature a Formula One-inspored double-wishbone suspension which delivers precise, responsive handling, combined with excellent ride quality.

Prices for the 1991 Legend Sedan start at $26,800 for the base model with a 5-speed transmission. The new Legend Sedan will be available at over 300

Acura dealerships nationwide in mid-November, with the Legend Coupe to be available in early 1991.

BEVERLY HILLS, CALIF (NOV. 5) PR NEWSWIRE - Cannon Pictures Inc. (NASDAQ: CNPI) today announced that Christopher Pearce, the chief executive officer of Cannon, by and through his wholly owned corporation, has entered into an agreement with Pathe Communications Corp. to acquire the 32,766,667 shares of common stock Pathe owns in Cannon, together with the 26,100,000 Class B Warrants Pathe owns in Cannon, for a purchase price of $5,000,000 payable by promissory note. In addition, by and through another of his wholly owned corporations, Pearce has agreed to acquire from an affiliate of Pathe, the office building located at 8200 Wilshire Blvd., Beverly Hills, Calif., for a purchase price of $9,000,000, also payable by promissory note. Cannon currently occupies a portion of the office building.

In connection with the foregoing, Pearce has agreed to vote the common stock he will acquire in Cannon so that Pathe will have one of its nominees on Cannon's board of directors, but only for so long as the promissory notes

remain unpaid. Additionally, Pearce's agreement with Pathe provides that members of Cannon's board of directors who serve as officers and directors of Pathe will resign from the Cannon board at the closing of Pearce's acquisitions of the common stock, warrants and office building.

Pearce's agreement with Pathe further provides that Giancarlo Parretti, Comfinance S.A. and Pathe will be released from their obligations to provide or guarantee the loan of funds to Cannon for motion picture production and overhead expenses; this release will be effective, however, only at the closing of these transactions. Pearce, again through one of his wholly owned corporations, is working closely with Credit Lyonnais Bank Nederlands N.V. to obtain a loan to pay off Cannon's secured debt to CLBN in the approximate amount of $17,500,000. In turn, Cannon will issue its secured promissory notes to Pearce's corporations in the approximate amount of $17,500,000. It is anticipated that Cannon will serve as a guarantor of Pearce's corporations' debt to CLBN. The foregoing financial arrangements and acquisitions have not yet been completed, and the parties can provide no assurances as to whether or when such arrangements and acquisitions will be completed.

Cannon is primarily engaged in the financing, production, worldwide distribution and exhibition of motion pictures for the theatrical market. It also distributes motion pictures for exhibition on free and pay television and in home video markets.

MOSCOW (NOV. 5) TASS - AS MANY AS 1,965,000 CRIMES WERE RECORDED IN THE

SOVIET UNION OVER THE PAST NINE MONTHS, 12.3 PER- CENT MORE THAN DURING THE SAME PERIOD OF LAST YEAR.

AS IN I989, THE NUMBER OF GRAVE CRIMES GREW FASTER THAN THAT OF OTHER OFFENCES. DELIBERATE MURDERS, SERIOUS BODILY INJURIES AND RAPE ACCOUNTED FOR 26.4 PERCENT OF THE TOTAL. THESE FIGURES WERE DIVULGED TODAY AT A BRIEFING AT THE CENTRAL MUSEUM OF THE USSR MINISTRY FOR THE INTERIOR, HELD ON THE EVE OF SOVIET MILITIA DAY.

AS MANY AS 346,000 PEOPLE WERE ARRESTED FOR VIOLATING THE LAW THIS YEAR. THE MILITIA TRACKED DOWN ALMOST 88,000 WANTED CRIMINALS. JOINTLY WITH THE KGB, THE MILITIA HAS EXPOSED 921 ORGANISED GANGS, AS MANY AS 13,700 CRIMES CONNECTED WITH DRUG TRAFFICKING, CONFISCATED 14.8 TONNES OF NARCOTICS AND WIPED OUT 18,300 UNLAWFUL NARCOTIC CROPS PLANTATIONS.

EFFORTS TO COMBAT CRIME IN THE NATIONAL ECONOMY HAVE BEEN INTENSIFIED. ACCORDING TO DATA FURNISHED BY VYACHESLAV RUNYSHKOV, CHEIF OF THE CENTRAL BOARD FOR COMBATTING THEFTS OF SOCIALIST PROPERTY AND BLACK-MARKETEERING, SOME 55,900 THEFTS WERE DISCLOSED SINCE THE BEGINNING OF THE YEAR. MORE THAN 7,000 OF THEM WERE PARTICULARLY LARGE SCALE. THERE WERE 3,500 CASES OF BRIBING AND MORE THAN 185,000 PEOPLE CAUGHT RESELLING GOODS IN SHORT SUPPLY.

ACCORDING TO THE USSR MINISTRY OF THE INTERIOR, 775 MILITIAMEN AND INTERIOR SERVICEMEN WERE KILLED AND 6,799 WOUNDED ON DUTY. THE MILITIA RESORTED TO FIRE ARMS IN 2,470 CASES THIS YEAR.

THE TOTAL ALLOCATIONS FOR THE MILITIA AMOUNTED TO 11 BILLION ROUBLES THIS YEAR. INTERIOR MINISTRY OFFICIALS BELIEVE THAT APPROXIMATELY 20 BILLION ROUBLES WILL BE REQUIRED TO COMBAT CRIME EFFECTIVELY NEXT YEAR. FIFTY-THREE PER CENT OF THIS SUM SHOULD COME FROM THE FEDERAL BUDGET AND 47 PERCENT FROM REPUBLICAN BUDGETS.

MOSCOW (NOV. 5) TASS - IT WAS REPORTED HERE TODAY THAT CONSULTATIONS WERE HELD AT THE SUPREME SOVIET OF THE RUSSIAN FEDERATION BETWEEN PLENIPOTENTIARY DELEGATIONS FROM RUSSIA AND THE UKRAINE TO DRAW UP A TREATY ON BASIC PRINCIPLES FOR RELATIONS BETWEEN THE RUSSIAN FEDERATION AND THE UKRAINIAN REPUBLIC.

PREVIOUS CONSULTATIONS WERE HELD IN KIEV THIS OCTOBER. THE MOSCOW MEETING HAS PRACTICALLY AGREED UPON THE TEXT OF THE TREATY. IT ENVISAGES DEVELOPING RELATIONS BETWEEN THE TWO REPUBLICS ON THE BASIS OF FRIENDSHIP, GOOD-NEIGHBOURLINESS, MUTUALLY ADVANTAGEOUS COOPERATION, NON-INTERFERENCE IN INTERNAL AFFAIRS AND RENUNCIATION OF POWER AND ECONOMIC PRESSURING.

THE DRAFT TREATY STIPULATES MUTUAL RESPECT FOR THE STATE SOVEREIGNTY AND

TERRITORIAL INTEGRITY OF THE TWO REPUBLICS WITHIN THEIR EXISTING BORDERS.

CONSULTATIONS ARE EXPECTED TO BE COMPLETED WITHIN THE NEXT FEW DAYS.

KISHINEV (NOV. 5) TASS - THE MOLDAVIAN PARLIAMENT HAS REJECTED ATTEMPTS TO SETTLE INTERETHNIC CONFLICTS IN THE REPUBLIC BY FORCE, MOLDAVIAN PARLIAMENT VICE PRESIDENT VIKTOR PUSHKASHU SAID TODAY.

IN A RADIO ADDRESS, PUSHKASHU SAID THE REPUBLICAN PARLIAMENT HAS DECIDED TO DISBAND VOLUNTEER, SELF-DEFENCE AND OTHER ILLEGAL DETACHMENTS WITHIN 24 HOURS AND LIQUIDATE ALL RECENTLY ERECTED CONTROL POSTS AND STRUCTURES ON ROADS AND IN REPUBLICAN SETTLEMENTS.

THE REPUBLICAN INTERIOR MINISTRY AND THE REPUBLICAN KGB HAVE BEEN INSTRUCTED TO ENSURE CONTROL OVER THE VOLUNTARY TURNING IN OF ARMS AND CONFISCATION OF WEAPONS, EXPLOSIVES AND PYROTECHNICAL SUBSTANCES AND COPYING FACILITIES FROM ILLEGAL FORMATIONS.

THE PARLIAMENT HAS SET UP A CONCILIATORY COMMISSION TO WORK OUT PROPOSALS BY NOVEMBER 12 ON MOVING THE REPUBLIC OUT OF THE CRISIS.

THE MOLDAVIAN PARLIAMENT CALLED ON THE MASS MEDIA TO RESTRAIN FROM PUBLICATIONS, CAPABLE OF STIRRING UP PASSIONS AND AGGRAVATING THE SITUATION. "IT IS NECESSARY TO MAKE PEOPLE RETURN TO WORK, AS MANY OF THEM HAVE RECENTLY BEEN DIVERTED FROM THEIR DAILY BUSINESSES," PUSHKASHU SAID.

MOSCOW (NOV. 5) TASS - THE INTRODUCTION OF A COMMERCIAL EXCHANGE RATE FOR THE ROUBLE IS A LOGICAL EVENT IN THE REFORM OF THE SOVIET UNION'S FOREIGN ECONOMIC ACTIVITY, OLEG MOZHAISKOV, MEMBER OF THE BOARD OF THE USSR STATE BANK, TOLD A PRESS CONFERENCE HERE TODAY.

HE SAID THE AIM OF THE MOVE WAS TO "COMPLETELY EXCLUDE REQUESTS BY SOVIET PARTNERS IN FOREIGN ECONOMIC TIES FOR BUDGET ALLOCATIONS".

MOZHAISKOV SAID THE PROBLEM OF THE ROUBLE'S "REAL EXCHANGE RATE TO THE DOLLAR HAS NEVER BEEN AS ACUTE UNDER THE CENTRALISED ECONOMY AS IT IS NOW".

"SEVERAL YEARS AGO, THE ABSOLUTE EXCHANGE RATE OF THE ROUBLE DID NOT MATTER MUCH TO PARTNERS IN FOREIGN ECONOMIC TIES, AS THE STATE KNEW IN ADVANCE WHAT IT WOULD SELL AND BUY.

"ALL PROFITS FROM FOREIGN TRADE OPERATIONS WERE INCLUDED IN THE BUDGET, AND

UNPROFITABLE OPERATIONS WERE SUBSIDISED FROM IT.

"THE DECENTRALISATION OF FOREIGN ECONOMIC ACTIVITIES HAS COMPLICATED RELATIONS BETWEEN SOVIET ENTERPRISES PARTICIPATING IN FOREIGN ECONOMIC OPERATIONS AND THE STATE. THE INTRODUCTION OF THE NEW EXCHANGE RATE WILL MAKE THE PROBLEM MUCH LESS ACUTE."

MOZHAISKOV EXPLAINED THAT THE NEW COMMERCIAL EXCHANGE RATE OF THE ROUBLE -- 1.8 ROUBLES PER U.S. DOLLAR -- "REFLECTS THE AVERAGE PARITY BETWEEN THE PURCHASING POWER OF THE ROUBLE AND THE DOLLAR. THIS PARITY HAS BEEN ESTABLISHED ON THE BASIS OF THE CORRELATION BETWEEN SOVIET AND WORLD PRICES ON A WIDER RANGE OF GOODS THAN PREVIOUSLY USED."

HE NOTED THAT THE FORMER EXCHANGE RATE -- 60 KOPECKS PER DOLLAR -- WAS "UNREAL AS IT REFLECTED PRICES ON A VERY NARROW GROUP OF GOODS".

MOZHAISKOV SAID THE NEW RATE "CORRESPONDS TO THE SOVIET ECONOMY'S EXPORT POSSIBILITIES. HOWEVER, THE INTRODUCTION OF THE COMMERCIAL EXCHANGE RATE DOES NOT ANNUL THE EXISTING RATE USED IN FOREIGN TRADE PAYMENTS.

"THE EXISTENCE OF PARALLEL EXCHANGE RATES IS IN LINE WITH INTERNATIONAL PRACTICES, FOR INSTANCE, IN COUNTRIES WITH NONCONVERTIBLE CURRENCY, WHERE EACH EXCHANGE RATE FULFILLS ITS OWN FUNCTIONS.

"THE ROUBLE'S COMMERCIAL EXCHANGE RATE SHOULD PREVENT SOVIET ENTERPRISES AND ORGANISATIONS FROM ASKING THE FINANCE MINISTRY FOR SUBSIDIES. SUBSIDIES SHOULD NOT EXIST, EXCEPT FOR THOSE FOR IMPORTS OF SOCIAL SIGNIFICANCE, SUCH AS MEDICINES."

SPEAKING ABOUT PAYMENTS FOR GOODS AND SERVICES BY SOVIET HOLDERS OF HARD CURRENCY, MOZHAISKOV SAID THAT PRICES OF THESE GOODS AND SERVICES "ARE BEING BROUGHT INTO LINE WITH THE NEW RATE" AND THAT THEIR HARD CURRENCY PRICES "REMAIN UNCHANGED".

MOSCOW (NOV. 5) TASS - PAULA DOBRIANSKY WAS SWORN IN AS ASSOCIATE DIRECTOR OF THE UNITED STATES INFORMATION AGENCY (USIA) IN MOSCOW TODAY.

THE CEREMONY TOOK PLACE DURING A RECEPTION FOR PARTICIPANTS IN THE FOURTH SOVIET-U.S. MEETING ON CULTURAL AND INFORMATION EXCHANGES, GIVEN BY U.S. AMBASSADOR JACK MATLOCK AT HIS SPASO HOUSE RESIDENCE.

MATLOCK TOLD THE AUDIENCE THAT PRESIDENT GEORGE BUSH HAD SIGNED DOBRIANSKY'S APPOINTMENT A FEW DAYS EARLIER, AND PROPOSED HOLDING THE SWEARING-IN CEREMONY DURING THE RECEPTION.

USIA DIRECTOR BRUCE GELB READILY AGREED AND SWORE IN HIS NEW ASSOCIATE.

SOVIET DEPUTY FOREIGN MINISTER VLADIMIR PETROVSKY, HEAD OF THE SOVIET DELEGATION TO THE SOVIET-U.S. MEETING, WAS AMONG THE FIRST TO CONGRATULATE DOBRIANSKY.

DOBRIANSKY TOLD TASS THAT THE FACT THAT THE CEREMONY TOOK PLACE IN THE SOVIET UNION WAS HISTORIC AND SYMBOLIC, AS SHE IS OF UKRAINIAN DESCENT.

THE SWEARING-IN CEREMONY WILL BE REPEATED IN WASHINGTON AFTER DOBRIANSKY'S RETURN TO THE UNITED STATES.

#90309u0034 11/05/1990 ~United Press International

(NOV. 5) UPI - The U-S-born founder of the Jewish Defense League is dead. Rabbi Meir Kahane was shot and killed tonight at a midtown Manhattan hotel. Police say the suspect in the shooting was also shot... and is in custody.

The shooting comes one week after fliers threatening Jewish children began circulating through a Brooklyn neighborhood. The fliers signed ''Moslems from New York'' said Jewish children would be killed in response to the deaths of Palestinians in Israel.

President Bush signed the nation's deficit-cutting agreement tonight, putting pen to paper after a day of campaigning in Texas. The plan includes tax hikes and spending cuts that evolved during a protracted fight on Capitol Hill.

In a statement, Bush calls the budget plan ''a compromise that merits enactment.'' Bush alienated many members of his own party by going back on his campaign pledge of NO new taxes.

The Democratic Senatorial Campaign Committee is criticizing Republicans in North Carolina for sending out what the Justice Department terms ''inaccurate'' postcards on voting tomorrow. The panel's chairman says ''Jesse Helms will have to answer'' for any efforts to deny citizens their right to vote.

-30- 1364

#90309u0070 11/05/1990 ~United Press International

(NOV. 5) UPI - On a day when six games were lopsided, Jeff Rutledge lifted the Washington Redskins to the biggest comeback in the NFL this season.

Rutledge came off the bench to replace Stan Humphries with the Redskins trailing 35-14 early in the third quarter. He completed 30 of 42 passes for 363 yards and a touchdown, ran 12 yards to a TD that sent the game into overtime and led Washington into position for Chip Lohmiller's 34-yard

overtime field goal.

Lohmiller's field goal gave the Redskins a 41-38 road victory over the Detroit Lions.

''It's something I'll always look back on if I never play another game,'' said Rutledge, who played in only one game each of the last two seasons while with the New York Giants.

''To be able to come to Washington (as a Plan B free agent) and get the chance to play is a dream come true. I didn't know if I'd ever get to play ... I may never get to play again, but you can't take away today,'' said the 13-year veteran from Alabama.

''I told my wife earlier in the week I thought I was going to get a chance to play. I don't know why. I just had a gut feeling. Maybe it was wishful thinking.''

Rutledge led Washington to its 12th straight victory over the Lions and kept the Redskins, 5-3, in the NFC wild-card race lead. He also won a starting job.

''I think I'd be hung from something if I didn't start Jeff next week,'' Redskins Coach Joe Gibbs said.

Rutledge led Washington on five scoring drives. He hit Gary Clark on a 34-yard strike in the fourth quarter before scoring on a quarterback draw with 18 seconds left in the fourth quarter.

There were another half dozen teams that could have used Rutledge- like heroics, although even he likely could not help Cleveland Sunday.

The Browns were trounced 42-0 by Buffalo, suffering their worst home loss ever and worst beating anywhere in 21 years. Thurman Thomas scored three TDs and Darryl Talley returned his second interception 60 yards for another TD to lift Buffalo, 7-1, to its sixth straight victory. The Browns, 2-7, lost their fourth straight and added fuel to speculation coach Bud Carson will be fired soon.

Even Carson said he feared the end was near.

''Absolutely,'' he said when asked if he was worried about his job. ''I've got to go home and think about it myself. To be honest with you, the last thing I want to do is be part of a football team that can't win. If I'm that part of it, then I'll know it and I'll step away from it.''

-- AROUND THE NFL --

Five other games Sunday were decided by 15 or more points. Miami slammed

Phoenix 23-3, Chicago slapped Tampa Bay 26-6, Philadelphia bombed New England 48-20, San Diego trounced Seattle 31-14, and the NY Jets ripped Dallas 24-9.

On Monday night, Indianapolis is home against the New York Giants.

At Miami, Dan Marino threw touchdown passes of 17 yards to Tony Paige and 7 to Mark Clayton and the Dolphins defense shut down Phoenix for their fifth straight victory. Miami, 7-1, remained tied with Buffalo atop the AFC East.

At Tampa, Fla., rookie safety Mark Carrier keyed a defense that forced six turnovers and yielded just nine first downs, sparking Chicago to a vengeful rout. Carrier, a first-round pick out of Southern Cal, caused a fumble and intercepted two passes as the Bears built a 17-0 halftime lead and coasted. In avenging two losses to Tampa Bay last season, the 7-1 Bears registered five interceptions against Vinny Testaverde, the NFL's second-rated passer.

At Philadephia, Randall Cunningham passed for four touchdowns and ran for a fifth to lift the Eagles to a 48-20 rout of the New England Patriots. Cunningham hit Keith Jackson for two TDs, scored on a 52-yard run and gained 124 yards rushing on eight carries. Heath Sherman also ran for 113 yards, marking the first time since 1978 two Philadelphia runners gained 100 yards in a game. Philadelphia, 4-4, reached .500 for the first time this season while New England, 1-7, lost its sixth straight.

At Seattle, Billy Joe Tolliver threw two touchdown passes and rookie Nate Lewis returned a punt 63 yards to lead San Diego to its first victory in Seattle since 1980. The Chargers had lost their last eight trips to the Kingdome.

At East Rutherford, N.J., rookie Terance Mathis tied an NFL record with a 98-yard punt return and New York held Dallas without a touchdown. Brad Baxter and Freeman McNeil ran for fourth-quarter TDs to help the Jets, 4-5, win their second straight.

In other games, Kansas City shaded the Los Angeles Raiders 9-7, San Francisco edged Green Bay 24-20, New Orleans cracked Cincinnati 21-7, the Los Angeles Rams trimmed Houston 17-13, Pittsburgh dumped Houston 21-9 and Minnesota nicked Denver 27-22.

At Kansas City, Mo., Kevin Porter blocked a punt and Albert Lewis recovered a fumble to set up two of Nick Lowery's three field goals for the Chiefs. Kansas City, 5-3, pulled within one game of the first-place Raiders, 6-2, in the AFC West.

At Green Bay, Wis., Joe Montana threw for 411 yards and three touchowns to help the 49ers win their 16th straight game and avenge their last loss. San Francisco, 8-0, last lost Nov. 19, 1989, 21-17, to Green Bay at Candlestick Park. The 49ers have won 14 straight regular season road games. Montana

completed 25 of 40 attempts, and moved past John Hadl into fifth place on the NFL career list with 33,599 passing yards.

At Cincinnati, Craig Heyward rushed 121 yards and Rueben Mayes ran 115 yards to power New Orleans past Cincinnati. Heyward, who carried 19 times including a 1-yard touchdown, and Mayes, who ran 30 times with a 6-yard TD, gave New Orleans a pair of 100-yard rushers for only the third time in franchise history.

At Anaheim, Calif., Bobby Humphery intercepted a fourth-quarter pass in the end zone and knocked away another in the final seconds to preserve the Rams' victory. Humphery intercepted a Warren Moon pass with 6:30 left and batted away a fourth-down pass at the 1 with 40 seconds left.

At Pittsburgh, Bubby Brister passed for two second-half touchdowns and the Steelers forced five turnovers to rout the Falcons and give coach Chuck Noll a victory over archrival Jerry Glanville. Warren Williams put the game out of reach when he broke loose for a 70-yard touchdown with 2:41 left, helping the Steelers, 5-4, tie Cincinnati for first place in the AFC Central.

At Minneapolis, Anthony Carter made a leaping catch of Rich Gannon's 56-yard TD pass on a flea-flicker early in the fourth quarter to help the Vikings snap a five-game winning streak. The Broncos, 3-5, blew a 16-0 first-half lead and played the second half without quarterback John Elway, who was injured in the second quarter. Denver is off to its worst start in a non-strike season since 1975.

#90309u0075 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Democrats will retain control of Congress in Tuesday's volatile midterm elections, but a strong anti-incumbent fever among voters could claim some well-known Senate veterans, both political parties agree.

Republicans and Democrats do not expect a blowout election - the ''throw the bums out'' mood crosses party lines - but forecast marginal gains in the House for the Democrats and possibly a standoff, or a small gain for either party, in the Senate.

The GOP feels it has managed to stem anti-Republican fervor, fueled by the Democrats' highly succesfull ''soak the rich'' campaign that sent poll numbers for their candidates skidding and threatened a double-digit loss in the House.

Going into the election, the Democrats control the House 258-175 with two vacancies and the Senate by a delicate 55-45, not enough to override any of President Bush's 16 vetoes in the last two years.

Republicans have not had a majority in the House since 1953-54 and in the Senate since 1986.

Analysts for both parties expect only minor changes in the House, although that could be an effort to put some ''spin control'' on the elections to guard against too-high expectations.

Republicans claim they hope only to hold the seats they have. Democrats contend that picking up more than eight House seats would be a good showing for them.

But independent analysts report a plunge in the polls for many incumbents and see a re-election rate for House members below the 98 percent in 1988 and 1986.

Republicans and Democrats agree that the Senate will remain at or within one, or at the outside two, seats of the current 55-45 margin, with the races in Hawaii, Oregon, Minnesota and North Carolina probably deciding the result.

The Republicans single out Rep. Patricia Saiki as having the best chance to unseat a Democrat, Sen. Daniel Akaka of Hawaii, who was named to fill the vacancy created by the death of Sen. Spark Matsunaga, also a Democrat.

Late polls showed Saiki with a small edge, well within the margin of error, over Akaka. But Hawaii is traditionally a Democratic state and a good turnout by the party machine could be decisive.

In three other races rated the closest - Oregon, Minnesota and North Carolina - veteran Republican senators are in danger of losing their seats to almost unknown Democratic challengers.

The closest - and closest watched - race is in North Carolina, where three-term Sen. Jesse Helms, the guru of the political right, is running against Harvey Gantt, the black liberal Democratic former mayor of Charlotte.

Democrats and Republicans agree this is a dead-heat race with the outcome hinging on voter turnout. The polls show Helms and Gantt within a few percentage points, but pollsters often have been misled when a black candidate is running.

Helms injected the racial issue by accusing Gantt of backing ''Kennedy quotas'' and Democrats have charged the GOP with intimidation tactics in a campaign that turned increasingly uglier as election day neared.

In Oregon, Sen. Mark Hatfield, the last Republican liberal in the Senate, has run into an alarmingly strong challenge from political novice Harry Lonsdale, a Democrat stressing environmental issues.

This is also considered a dead-heat race, although Republicans contend, and

Democrats do not disagree, that Hatfield might have turned the corner last week and will keep intact his record of never having been beaten in nearly 40 years in politics.

But the election has been a dramatic eye-opener for Hatfield, who, before this year, never used television ads or negative campaigning. He was finally forced to fight back after Lonsdale accused him of being a toady of the lumber industry and that he had lost contact with the state.

In Minnesota, internal GOP tracking polls showed that Sen. Rudy Boschwitz, a Republican seeking a third term, has never trailed, but even Republicans concede he is in a ''clearly close race'' against political scientist Paul Wellstone and that the battle has ''tightened considerably'' in the last 30 days.

Although Democrats do not say so publicly, they seem to indicate that their best shot of unseating a Republican is in Minnesota.

Both parties are still keeping an eye on Iowa, where independent and GOP polls show Sen. Thomas Harkin, the Democrat, holding a seven-point lead over Republican Rep. Tom Tauke. Iowa is considered an unpredictable state and the GOP clings to the fact that Harkin has yet to breach the magic 50 percent mark in any polls.

Republicans also still talk of the vulnerability of Sen. Claiborne Pell, D-R.I., and even of Sen. John Kerry, D-Mass. But the numbers don't look good for the Republican candidates.

None of the best-known House members are considered in serious trouble. At one point Democrats, and probably some mainline Republicans, hoped that Rep. Newt Gingrich of Georgia, the conservative assistant House GOP leader and White House nemesis, would get dumped. It doesn't seem in the cards.

Several members could get beat by their connections to the savings and loan scandal or to the figures in the financial disaster. They include 26-year veteran Rep. Frank Annunzio, D-Ill., Rep. Charles Pashayan, R-Calif., and Rep. Denny Smith, R-Ore.

Rep. Roy Dyson, D-Md., has been hit by new disclosures of his ties to defense contractors and his late acknowledgments that he was a conscientous objector during the Vietnam War, and Rep. Arlan Strangeland, R-Minn., has been hounded for using congressional phones for personal calls.

#90309u0130 11/05/1990 ~United Press International

HOUSTON (NOV. 5) UPI - President Bush conceded it was risky, but accepted the dare anyway. Perhaps now he wishes he picked another number.

With a bevy of reporters watching at a Texas GOP telephone bank, Bush selected a name at random from the Greater Houston telephone book and placed a call on behalf of Clayton Williams, the Republican gubernatorial nominee.

The phone was listed to Malissia Johnson on Sayers Street.

''Ms. Johnson. You won't believe this,'' he began Sunday. ''This is the president of the United States calling, and I'm just doing a little work at the polling operation, trying to get people out to vote. And I just hope you and your family are all going to vote this year and needless to say I'd appreciate it if you could vote for our full ticket.''

Bush understood her to say she would, and exclaimed, ''Will ya,'' drawing laughter, cheers and relief from Williams and campaign supporters.

''Thank you,'' he gushed. ''I'll drop you a little note.''

Johnson, reached afterward, said she thought at the time that the call was from a prankster.

''I thought it was a joke,'' said Ms. Johnson, a home health care worker and a registered Democrat who said she intends to vote Tuesday for Williams' Democratic foe, Ann Richards.

She said she told Bush that she was going to vote, but that he must have understood her to say she would vote Republican.

One other thing.

Ms. Johnson's first name isn't Malissia. It's Mary. ''Malissia was my mother-in-law. She's dead.''

#90309u0217 11/05/1990 ~United Press International

(NOV. 5) UPI - The Los Angeles Kings traded a first-round draft pick to obtain Daniel Berthiaume. Sunday night, the goaltender proved there was some merit to the exchange.

Berthiaume stopped all 40 shots Sunday night and Luc Robitaille snapped a scoreless tie early in the second period, leading Los Angeles to a 2-0 triumph over the Chicago Blackhawks.

''Berthiaume stood on his head tonight,'' said Blackhawks winger Steve Thomas, robbed by the 24-year-old goaltender on numerous occasions.

Chicago, which snapped its three-game winning streak, outshot the Kings 40-24 overall and 14-2 in the final period. Berthiaume recorded his fifth career shutout and first since early last season when he was with Winnipeg.

Berthiaume improved his record to 6-1 on the season, his first victory with Los Angeles since being acquired from Minnesota Sept. 6.

''He played extremely well, but I felt both goaltenders had an outstanding game,'' Kings Coach Tom Webster said. ''We gave up a first- round draft pick for him. He came into training camp very determined, and tonight he certainly put on another tremendous performance.''

Steve Kasper added an empty-net goal with one second left.

''When you have no goals against and 40 shots, it has to be one of your best games,'' Berthiaume said. ''But I think it was one of the biggest wins for the team so far this season.''

After a thrilling but scoreless first period, the Kings connected for the game's first goal on the power play at 6:44 of the second. Los Angeles failed to score with a two-man advantage, but Robitaille finally broke through with defenseman Chris Chelios still in the penalty box for cross-checking.

Todd Elik dished a perfect feed in front that Robitaille buried past Beflour's glove side for his eighth tally of the season. Wayne Gretzky got the other assist.

''That's the kind of play we practice every day,'' Robitaille said. ''I probably take a 1,000 shots every day, and I take about 500 like that. I just had to walk in and bury it in the corner.''

''Berthiaume played a great game, and he got a couple breaks,'' said Chicago goalie Ed Belfour, equally brilliant for Chicago before a sellout crowd of 18,472.

Facing Gretzky for the first time in his career, he stopped the Great One on a breakaway midway through the first period. Gretzky picked off a pass at center ice, moved in alone and tried to beat Belfour with a backhander, but the rookie slid to his left and blocked the shot with his pads.

Facing Belfour, the NHL's leading goaltender in wins and goals- against average, Berthiaume knew he would have to be at his best.

''I thought if we could put a couple in, maybe he would get shaky,'' Berthiaume said. ''But he was awesome and made some really good saves. I closed the door on my side, and that's all I can say.''

Webster complimented Gretzky on his defense.

''He was committed,'' Webster said. ''He came back, worked down low with the defensemen in some unknown territory that he hasn't been before. It was tremendous.''

Elsewhere in the NHL, Buffalo beat Calgary 2-1, Minnesota and Montreal tied 2-2 and Philadelphia blasted Toronto 7-1.

-- AROUND THE NHL --

Sabres 2, Flames 1

At Buffalo, N.Y., Dave Snuggerud's goal early in the second period broke a 1-1 tie and Clint Malarchuk stopped 34 shots to help the Sabres remain undefeated in their last five games. Calgary, which outshot Buffalo 35-21, had their five-game victory streak snapped.

North Stars 2, Canadiens 2, OT

At Montreal, Andrew Cassels scored his first goal of the season at 12:54 of third period to lift the Canadiens to the tie with Minnesota. Cassels took a pass from Mathieu Schneider at the blue line, skated in and fired a high shot past goalie Jon Casey.

Flyers 7, Leafs 1

At Toronto, Scott Mellanby had two goals and an assist and Tim Kerr set up three goals, powering Philadelphia. Keith Acton added a goal and an assist and Flyers goalies Pete Peeters and Ken Wregget combined to stop 31 shots.

#90309u0251 11/05/1990 ~United Press International

BANGKOK, Thailand (NOV. 5) UPI - Vietnam has agreed to increase by 30,000 the number of people allowed to emigrate legally to about 100,000 people next year a Vietnamese newspaper said.

''Altogether, some 100,000 people, including those scheduled to leave for Europe, will be granted exit permits in 1991,'' the newspaper Saigon Giai Phong reported Oct. 11. A translation of the report was made available Monday.

That would be a major increase over the estimated 70,000 Vietnamese emigrating in 1990, the report said.

The newspaper said U.S. and Vietnamese officials agreed that some 66, 000-72,000 Vietnamese would be resettled in the United States next year. Those people would include some 15,000 children of American servicemen from the Vietnam War era and their families, along with 18,000 former ''re-education camp'' prisoners.

The 1991 plan includes provisions for 9,000 people to emigrate to Australia and 5,000-6,000 to Canada, the newspaper said.

Saigon Giai Phong said Vietnamese and U.S. officials agreed to improve procedures for interviews and medical checkups to eliminate the need for

would-be immigrants to the United States to stop over in Thailand for further health and paperwork checks.

Two Vietnamese hospitals will arrange for more than 12,000 health checkups per month, it said.

The national airline, Air Vietnam, has agreed to provide transport for some 55,000 people with the rest transported by foreign airlines, it said.

The program for legal emigration from Vietnam was set up to prevent Vietnamese from making risky and illegal attempts to leave the country by boat.

Officials estimate that tens of thousands of Vietnamese have been killed in storms or encounters with pirates during illegal escapes. Thousands more remain in refugee camps around Southeast Asia.

#90309u0364 11/05/1990 ~United Press International

MANILA, Philippines (NOV. 5) UPI - The military announced Monday the capture of the deputy chief of the communist hit squad blamed for hundreds of

assassinations since 1987, including the April 1989 killing of U.S. Col. James ''Nick'' Rowe.

In a news conference, Army chief Maj. Gen. Guillermo Flores said troops arrested Reynaldo Bernardo, 36, Sunday as he waited for a bus in suburban Quezon City. Flores said Bernardo carried a .45 caliber pistol and did not resist arrest.

Flores said Bernardo was the intelligence chief of the communist Alex Boncayao Brigade, and was responsible for selecting ''quality targets'' of the squad. Police said Bernardo carried on his head an $18,00 reward.

A handcuffed Bernardo was presented to reporters Monday but was not allowed to talk. He had bloodshot but quick eyes, and he limped slightly and smoked as he was led to his cell.

The ABB, the Manila-based assassination squad of the 19,000-member communist New Peoples Army, has been blamed for killing more than 200 police officers, government officials and local leaders since they were let loose in the capital in early 1987.

Flores said as intelligence chief of the ABB, Bernardo had a hand in the April 21, 1989, killing in the capital of Rowe, a Vietnam War hero and ranking U.S. army officer in the Philippines. The ABB has admitted Rowes assassination.

Flores said Bernardo was undergoing ''tactical interrogation'' and shall face ''appropriate charges'' in court.

The NPA has been fighting the Manila government for 21 years.

#90309u0366 11/05/1990 ~United Press International

(NOV. 5) UPI - Snow socked in the western mountains and the central part of the nation Monday, making roads slick and driving dangerous, while cool, wet weather stretched across much of the Midwest and East.

High winds rushing at 35 mph moved into the western mountains as one feature of a Pacific storm that dumped up to 8 inches of snow on the peaks of Wyoming.

More unusual was a storm that dropped up to 3 inches of snow on Kansas City, Mo., and combined with cold temperatures to make roads slippery.

The storm was part of a large slow-moving front that extended from the Gulf of Mexico to Michigan and was bringing wet, and some freezing, weather to the area.

More than an inch of snow covered an area near Topeka, Kan., Monday, while

snow coated grassy areas and some bridges in Lawrence, Topeka and Ottawa.

Blowing snow cut visibility in the northern and central mountains of Colorado as winds moved in from Idaho and western Montana. By Monday afternon, 4 to 8 inches of snow was expected to fall on the region.

Winds moved at 40 mph in southern Wyoming and most roads in the northern and central mountains were expected to become snowpacked Monday as temperatures remained below freezing for the night.

To the east, New York City had lows in the 50s and light winds, and Pittsburgh expected rain with winds reaching 15 mph.

Small craft advisories were posted along the coastal waters of Massachusetts from the Merrimack River to Watch Hill in Rhode Island, including Buzzards Bay Cape Cod Bay and Boston Harbor.

To the South, where Indian summer weather hung on for one more day, a small craft advisory was in effect from St. Augustine to Jupiter, Fla., with winds topping 15 mph and seas at 5 to 8 feet for higher.

#90309u0367 11/05/1990 ~United Press International

MANILA, Philippines (NOV. 5) UPI - Former first lady Imelda Marcos, who was reported to have reached a deal with government repatriating part of her family's wealth, has offered to return all her late husband's riches, a newspaper said.

The independent Manila Standard said Marcos made the offer in exchange for Manila's permission to allow her to return. The Standard said it interviewed Marcos by telephone from her Beverly Hills hotel in Los Angeles Saturday.

But President Corazon Aquino said Monday the return of the former first lady was not being discussed in current negotiations for the repatriation of the Marcoses wealth from Hong Kong.

''This does not concern the return of Mrs. Marcos here,'' Aquino said.

Marcos and her late husband, Ferdinand, who was overthrown in a civilian-backed military uprising in 1986 and forced into Hawaiian exile, were alleged to have stolen upwards of $10 billion during the late dictator's 20-year rule.

President Corazon Aquino's government has banned the return of the Marcoses for security reasons.

David Castro, chairman of the presidential commission on good government,

which is in charge of recovering the Marcos wealth, announced last week the government of President Corazon Aquino was concluding a deal with Marcos repatriating 60 percent of the cash and gold in five Hong Kong banks.

Aquino said Friday in a statement to reporters the deal ''concerns sums of money held under names of nominees.''

''All the wealth of President Marcos, and my life as well, I dedicate for the betterment of all Filipinos,'' Marcos was quoted to have said by the Standard in the local Tagalog dialect.

''I am coming home to dedicate my life and my husband's legacy to rebuild the country and provide a better life for all Filipinos.''

Aquino also said ''the projected settlement does not entail dropping civil cases (against the Marcoses) in the Philippines, but possibly civil cases in the United States only, if the amounts are significant.''

Aquino said criminal cases are not part of the settlement.

The government has lodged some 47 civil suits in the Philippines against the Marcoses and their ''cronies'' in an effort to recover the alleged ill-gotten wealth stashed in local and foreign banks, but have avoided filing criminal suits against Imelda and her children.

Philippine law calls for presence of the accused in criminal suits.

Castro said the Philippines, saddled with a $27 billion foreign debt, has realized it would take a long time for the courts to settle government claims against the Marcoses.

In July, a New York federal district court acquitted Marcos of charges she stole more than $200 million during her husband's rule and spent the money to buy New York skyscrapers and works of art.

''I have long wanted to come home and help (in Philippine economic recovery) '' the Standard quoted Marcos. ''I feel like a tree, in full bloom, bursting to provide fruit, but uprooted and barred from being productive.''

#90309u0370 11/05/1990 ~United Press International

COTABATO, Philippines (NOV. 5) UPI - Five people, including three children, drowned and another child was missing when a passenger boat capsized at a river here Monday, the Coast Guard said.

Coast Guard spokesman Lt. Cmdr. Emerson Pareja said 275 other passengers were rescued when the motor vessel Aida III overturned and capsized while cruising

the Mindanao river in Cotabato, 550 miles south of Manila.

Pareja said the 150-foot boat hit a rock on a shallow portion of the river delta, causing panic among the passengers and forced the vessel to tilt and overturn.

He said said rescuers found the bodies of five people Monday, including those of seven-month old Rodolfo Duhenia, eight-month old Arnel Montilla, and Gan-gan Losa, 4. They also recovered the bodies of two other passengers.

#90309u0476 11/05/1990 ~United Press International

CAIRO, Egypt (NOV. 5) UPI - Baghdad Radio's latest propaganda ploy to get U.S. troops out of the Persian Gulf by accusing their warships of polluting the waterway has struck a chord among ecologists.

But a spokesman aboard the U.S. Navy flagship La Salle in the gulf dismissed any pollution fears, saying Monday, ''That is not an issue here.''

A U.S. Central Command spokesman in Riyadh, Saudi Arabia, indicated the pollution issue was low priority for the military and said, ''We have no information on that.''

A recent broadcast on the Iraqi state-owned radio said the sensitive environment in the gulf, already damaged by oil leaks, floating and corroding mines, ship wrecks, explosions and toxic waste after the 1980- 88 Iran-Iraq war, would suffer irreversible damage if hostilities between Iraq and the power-packing U.S.-led multinational force were to break out.

''The environment in the Arabian Gulf is already extremely sensitive and requires a great deal of care,'' the radio broadcast said.

''Marine life has suffered a great deal during the (Iran-Iraq) war, and any further hostilities, especially with the large number of American warships in such a small enclosed area, would be an ecological disaster that must be avoided.''

Officials at the United Nations Environment Protection Agency in Athens, Greece, may not agree with Iraqi leader Saddam Hussein's decision to invade and annex Kuwait, but they are very worried about war-related pollution problems.

''We have been working so hard, step by step, to get Mediterranean states to recognize that they must clean their sea even if the cost will be more than $30 billion,'' said a UNEP spokesman.

''After the end of the (Iran-Iraq) war in 1988 there were hopes states there

would start cleaning up the gulf, and indeed almost all the major countries, including Iran and Iraq, took part ... and now we have gone back to step one with the new gulf crisis,'' the spokesman said.

''It's depressing there may be a war, but in the long term it's depressing the gulf may die,'' he said.

UNEP officials pointed out that land-based pollutants such as mercury and other industrial wastes, rather than oil slicks, cause the most damage to the environment in the gulf.

''As if pollution is not enough of a problem, we also have to worry about floating mines on beaches that explode, killing humans as well as fish,'' one official added.

The Iraqi message was music to the ears of a group of Italian ''Greens'' who visited Baghdad recently, according to the broadcast.

''Environmentally conscious people such as a recent group of visiting Italian ''Greens'' remind us that war would not only cause human lives to be lost, it would also cause serious damage to the sensitive environment of the Arabian Gulf,'' the broadcast quoted an Iraqi official as saying.

''For this reason if for no other we think the (Western forces) should think twice before any decision is taken to embark on a course of aggression.''

Ironically, the gulf's first effective anti-pollution organization after the Iran-Iraq war was set up in Kuwait and representatives from both the former war foes, Iran and Iraq, as well as from all other gulf states, had taken part.

(NOV. 5) UPI - President Bush is in Texas to cast his own ballot and to help Republican candidates in tomorrow's elections. Bush has scheduled campaign appearances today in Tyler and Waco with gubernatorial candidate Clayton Williams and Senator Phil Gramm.

The Washington Post quotes Secretary of State Baker as telling reporters aboard his plane en route to the Persian Gulf region that the United States is prepared to use force if the Iraq crisis cannot be resolved peacefully. .

Baker talked with Bahrain's leaders, then arrived today in Saudi Arabia, where he is expected to ask King Fahd's permission to launch a military strike against Iraq if it proves necessary. .

Baker first is meeting with the emir of Kuwait, who told reporters that he wants his country back ''today and not tomorrow.'' The emir said the timing of

any military option against Iraq is up to the members of the United Nations Security Council.

An oil industry newsletter published in Cyrpus says that soaring crude prices caused by the Gulf crisis are expected to cut demand for OPEC oil by about one-point-seven Million barrels a day during the first half of next year.

Officials in Cairo say an Egyptian Islamic group plans to translate Islamic books into Russian and send them to Moslems in the Soviet Union now that they have religous freedoms. About 11 percent of the Soviet Union's 270 Million people are Moslems.

A Justice Department report says that as of December 31st, there were an estimated four-point-one Million adults... about one out of every 46 adults nationwide... under the supervison of a corrections agency. .

The report said that a record two-and-one-half Million convicted criminals were on probation or parole last year. The report found that in the 1980's, the number of people on probation grew by 126 percent and jail and prison population grew by 114 percent.

NASA says an investigation is underway at the Kennedy Space Center after a small amount of cocaine was found under a desk in a hangar where space shuttles are prepared for launch. NASA says the desk is used by more than one person.

Striking New York Daily News workers handed out leaflets yesterday to spectators of the New York City Marathon, urging people to boycott the newspaper and its advertisers. The strike is in its 12th day today.

Reports from South Korea say at least 21 people were killed yesterday when a bus carrying classmates of former President Chun Doo Hwan crashed into a reservoir after colliding with a truck. Survivors said the passengers were returning from a visit with Chun, who is living in self-imposed internal exile.

A candidate backed by Japanese Prime Minister Toshiki Kaifu squeaked through to victory yesterday in a parliamentary by-election. The contest was widely seen as a referendum on Kaifu's plan to send troops to the Middle East.

A survey of lawyers specializing in matrimonial law says that instability in the nation's economy translates into an increase in rocky marriages and divorces. The lawyers meeting in Chicago say domestic violence will increase as a result of the additional stress in relationships because of financial difficulties.

RANGOON, BURMA (NOV. 5) UPI - The government newspaper called Monday for a U.N. official investigating human rights violations by the ruling military junta to also look into abuses by British and Japanese troops dating back more than a century.

Sadako Ogata, an expert of the U.N. Human Rights Commission, met with diplomats at the Japanese Embassy while armed guards were stationed at a state guest house apparently to prevent her from meeting freely with the public, a diplomat said.

The government newspaper, the Working People's Daily, marked the beginning of Ogata's investigation with an appeal for her to investigate human rights abuses by British troops during the sack of the Mandalay Palace in 1885 and by British and Japanese troops during World War II.

The paper said Ogata should help Burma get back the crown jewels and other priceless articles taken away by British troops during the sack of King Thibaw's palace.

It also asked her to get reasonable compensation for the loss of life and property suffered by the Burmese people during World War II because of human rights violations by British and Japanese troops.

Diplomatic sources contacted from Bangkok said the demands appeared to be an effort to distract attention from human rights abuses by the military government.

The State Department and the human rights organization Amnesty International have charged the Burmese leadership with widespread arrests of political opponents, routine torture, suppression of free speech, and abrogating the rights of those accused to a legal defense in court.

Ogata, who arrived in Rangoon on Saturday with Jakob Moller, a senior official of the Center for Human Rights in Geneva, was housed in a tightly guarded state guest house instead of a hotel as originally planned.

A diplomat said the housing arrangement appeared intended to limit her contact with the public. She was, however, able to meet diplomats at the Japanese Embassy in a closed meeting, he said.

On the eve of her arrival, Gen. Saw Maung, head of the military government, said he could grant only those human rights that comform to the Burmese situation.

''To those of you who are saying you would get chocolates and human rights when somebody (Ogata) comes, let me tell you this: If you want the human right they have in the United States, England and India, go to those countries, if they agree to accept you,'' he said.

Saw Maung said he would not allow student demonstrations, strikes, any imitation of the East European revolutions, scribbling of demands for democracy, or destroying a dictatorship such as in Romania.

(NOV. 5) UPI - Washington's Mount St. Helens rumbled to life early today... shaking violently and spewing ash to a height of 30-thousand feet. Scientists could NOT make direct visual observation of the event because it occurred during darkness... but they say it is comparable to a minor eruption that occurred last winter. The volcanic event today occurred without warning.

Secretary of State Baker left Bahrain for Saudi Arabia today as he continues his eight-nation Mideast-European tour. Baker yesterday told U-S troops that the world had made a terrible mistake in not standing up to Adolf Hitler in the 1930's, but would not repeat the same mistake in the 1990's. .

Baker met with U-S troops somewhere in Saudi Arabia yesterday and praised the sacrifices that American troops and their families are making. Baker said the main question he was asked by the troops was how long they would be in the Mideast. But Baker said ''of course that's something that right now can't be answered with a great deal of specificity.''

The official Islamic Republic News Agency says Iran is bracing for an influx of between one-and-three Million refugees across its borders if war breaks out between Iraq and the U-S-led multinational force in Saudi Arabia. The news agency quoted a Tehran newspaper says saying ''Iran will be the nearest and safest shelter for those who flee the scene.''

President Bush campaigns for Republican candidates in Texas today, the day before elelctions. Bush plans to spend today campaigning across Texas on behalf of gubernatorial candidate Clayton Williams. Bush will speak to rallies in Tyler, Waco and Houston.

The Philippine military has announced the capture of the deputy chief of the communist hit squad in Manila blamed for hundreds of assassinations since 1987. The victims included American Colonel James Rowe, who was killed in April 1989. An army spokesman said Reynaldo Bernardo was arrested while waiting for a bus in suburban Quezon City.

Philippine President Corazon Aquino says the return of former First Lady Imelda Marcos is NOT being discussed in current negotiations for the return of the Marcos wealth from Hongkong. Mrs. Marcos was reported yesterday to have offered to return the alleged stolen wealth in exchange for permission to allow her to return.

The funeral for actress Mary Martin will be private, but a public memorial service in New York will be announced at later date. Martin, veteran of 50 years on stage and screen, died Saturday of cancer at the age of 76. A spokesman for Martin's son Larry Hagman, said the actress was hospitalized in late October in Rancho Mirage, California, and was released last Tuesday to return to her home in the desert resort.

#90309u0591 11/05/1990 ~United Press International

(NOV. 5) UPI - Stock prices posted slight gains Monday on the Tokyo Stock Exchange as the Middle East situation coupled with U.S. developments robbed the market of virtually all activity.

The key Nikkei Average of 225 selected shares, which fell 100.17 points Friday rebounded 190.34 points to 24,385.33.

The broader-based Tokyo Stock Exchnage Price Index, which lost 8.41 points Friday, advanced 14.85 points to 1,801.23.

Advances led declines 696 to 226, while 153 issues remained unchanged.

In one of the slowest sessions of the year, just 220 million shares changed hands, compared with 320 million Friday.

Elsewhere in Asia, stock prices on the Hong Kong Stock Exchange reversed an early 25-point gain to close lower Monday in quite trading.

The benchmark Hang Seng Index, which gained 10.18 points Friday, shed 11.68 points to 2,967.24.

Among the narrower indexes, financials shed 17.15 points, industrials added 1.81, utilities lost 13.52 and properties fell 35.52 points.

Volume amounted to an estimated 710 million shares, compared with 670 million shares Friday.

In Singapore, stocks firmed in light trading on the Singapore Stock Exchange in line with the gain in Tokyo as bargain hunters halted a streak of declines over four sessions.

The Straits Times Industrial Index, which lost 2.58 points Friday, rose 1.82 points to 1,132.92. The broader-based All Singapore Index rose 0.08 point to 315.15.

Volume amounted to around an estimated 29.4 million shares, compared with 28.6 million shares Friday.

Elsewhere around the region: Stocks closeed higher in moderate trading on the Thailand exchange.

In Taipei, stocks closed higher on the Taiwan Exchange.

In Australia, stock prices closed higher in moderate trading on the Sydney Sharemarket.

In Wellington, stock prices closed higher in moderate trading on the New Zealand Exchange.

#90309u0721 11/05/1990 ~United Press International
KARACHI, PAKISTAN (NOV. 5) UPI - The right-wing alliance that defeated former Prime Minister Benazir Bhutto in last month's parliamentary elections formed a coalition government Monday in her stronghold of southern Sind Province.

The provincial Assembly in the Sind capital of Karachi elected Jam Sadiq Ali of the Islamic Democratic Alliance, a loose army-backed coalition of parties opposed to Bhutto, as the chief minister. Ali received 58 votes in the 107-member Assembly.

Legislators from Bhutto's Pakistan People's Party boycotted the session for the second straight day, alleging the IDA had confined a number of PPP and independent members at Ali's residence to prevent them from voting. Ali denied the charge.

The PPP won 47 seats in the Sind Assembly in the Oct. 27 provincial elections, making it the largest single party. But the IDA received the support of enough independents and smaller parties to enable it to form a coalition government in the PPP's stronghold.

The IDA won a big majority in Punjab, the country's most populous province, in the provincial polls and is set to form a coalition government in the Northwest Frontier Province and is also trying to form the provincial administration in Baluchistan in alliance with smaller parties.

The PPP had hoped to form the government in Sind so it could challenge the authority of the IDA administration in Islamabad.

The party suffered a crushing defeat to the IDA in Oct. 24 parliamentary elections. IDA leader Nawaz Sharif is expected to be elected prime minister by the National Assembly in Islamabad on Tuesday.

#90309u0761 11/05/1990 ~United Press International
NEW DELHI, INDIA (NOV. 5) UPI - Dissidents in Prime Minister V.P. Singh's Janata Dal party said Monday they no longer recognize the prime minister as head of the party, but Singh loyalists expressed confidence in the embattled leader.

The developments indicated a Janata Dal split, with both camps claiming a majority of party legislators.

Senior Janata Dal leader Chandra Shekhar, who with former deputy prime minister Devi Lal is behind the dissident movement, said he would ask President R. Venkataraman to allow him to form a new government.

The dissident faction claimed 68 of the 140 Janata Dal members of the lower house of Parliament attended their meeting. Lal and Shekhar claim that gives them enough support to form a government with the backing of former prime minister Rajiv Gandhi's Congress (I) Party.

Congress (I) officials said Monday they would support a Janata Dal government headed by someone other than Singh. Gandhi was to meet with Shekhar early Tuesday.

Supporters of the prime minister held a separate meeting, during which they expressed faith in Singh's leadership. A Janata Dal spokesman said the dissidents' meeting was ''illegal.''

Singh later expelled Shekhar and 29 other dissident members of Parliament from the party. Janata Dal spokesman Jaipal Reddy said the prime minister's action was done with the approval of party President S.R. Bommai.

Reddy said 83 Janata Dal legislators of the lower house of Parliament attended their meeting. Exactly how many Janata Dal party legislators attended each gathering could not be independently determined.

On Wednesday, Singh is to face a special vote of Parliament to test his majority.

The prime minister's 11-month-old five-party National Front coalition government was plunged into its worst crisis Oct. 23 when the right-wing Hindu Bharatiya Janata Party withdrew its crucial support.

The BJP made the decision hours after its president, L.K. Advani, was arrested for defying a government warning to halt a controversial campaign to relocate a 460-year-old Moslem mosque and begin construction of a temple to honor an important Hindu god.

Support of the BJP was necessary for the survival of the coalition government, although the party is not a member of the coalition.

Despite Advani's arrest, Hindu radicals pressed ahead with their plan to build the temple in the northern Uttar Pradesh state town of Ayodhya, about 345 miles southeast of New Delhi.

Violence between police and Hindu devotees resulted in Ayodhya and in other parts of India, leaving more than 170 people dead.

To protest the killings, the BJP called on its followers to enforce a general strike in New Delhi on Monday and more than 600 of them were arrested following clashes with police, the Press Trust of India news agency said.

In Ayodhaya, the Vishwa Hindu Parishad, another radical group involved in the construction drive, Sunday asked its followers to temporarily call off the campaign and instead participate in religious ceremonies to mourn those who died in clashes over the past week.

A VHP spokesman in New Delhi said a new date for beginning construction of the temple would be announced later. The ceremonies were to begin Monday and continue through Wednesday.

Hindu radicals claim that the mosque that occupies the Ayodhya site was built by the Moghul emperor Babbar after he destroyed a temple marking the birthplace of Lord Rama, one of the most important gods in the vast Hindu pantheon.

Moslem leaders refute the claim and contend that no temple ever existed at the disputed place.

The Ayodhya dispute has been smouldering since February 1986 when a court agreed to allow Hindus to worship in the mosque. The move led to widespread communal riots in northern India.

#90309u0772 11/05/1990 ~United Press International

ATHENS, GREECE (NOV. 5) UPI - An exiled Iranian dissident group said Monday hard-line clerics in Tehran were seeking the replacement of Ayatollah Ali Khamenei as spiritual leader of the Islamic Republic.

The Mojahedin Khalq organization, a dissident group based in Baghdad, quoted reports from inside the Iranian government as saying the hard- line clerics met privately in Tehran recently to discuss the possible replacement of Khamenei as spiritual leader.

The Assembly of Experts, a special college of clerics, elected Khamenei spiritual leader of Iran after the death last year of Ayatollah Ruhollah Khomeini, founder of the Islamic Republic.

A Mojahedin statement telexed to Athens from Paris quoted hard-liner Hojatoleslam Mohammad Khoeyniha as saying in a private meeting of radical clerics in Tehran that Khamenei needed to be replaced because ''the present leadership's direction is deviated.''

There was no indication word on how the hard-liners could have Khamenei replaced.

The hard-line clerics stepped up their attacks on Khamenei last month after he backed moves by the pragmatists, led by President Akbar Hashemi-Rafsanjani, to keep them out of elections to the Assembly of Experts.

The assembly is an 83-member clerical body whose sole function is to choose a spiritual leader for Iran when the need arises.

The power struggle intensified after the polling, when hard-line leader Hojatoleslam Ali Akbar Mohtashami, a former interior minister, claimed in a fiery speech in the Majlis, or Parliament, that moves had begun to oust the radicals from the legislature.

Khamenei then lashed out at the hard-liners in a speech broadcast on Tehran radio, saying the Majlis had become divided between rival groups and that fredom of speech in the legislature was being abused.

Reports from Tehran, however, said Khamenei ordered the cancellation of a demonstration planned by the supporters of the pragmatic group in front of the Majlis, for fear clashes would break out between them and supporters of the hard-liners.

Majlis speaker Mehdi Karubi, a member of the hard-line group, expressed support for Khamenei in the legislature. Regional analysts said this came after Khamenei ordered an enquiry into the finances of the Martyrs' Foundation which Karubi also heads.

The Martyrs' Foundation controls scores of industries seized from supporters of the late Shah after the 1979 revolution. A brother of Karubi was recently arrested on embezzlement and corruption charges.

Sunday, Khamenei made an apparent gesture to the hard-liners by issuing a strongly-worded message attacking the United States on the 11th anniversary of the seizure of the U.S. embassy in Tehran, at the start of the 444-day hostage crisis.

Khoeyniha, who acted as the clerical mentor to the radical group who took over the embassy, was asked to read Khamenei's message at the gates of the embassy compound, where an officially sponsored march ended Sunday.

In a departure from a recent trend, Rafsanjani also attacked the United States in a speech broadcast on Tehran radio. There was no immediate word on how far the two anti-American statements succeeded in mollifying the hard-liners.

#90309u0775 11/05/1990 ~United Press International

HOUSTON (NOV. 5) UPI - President Bush is winding up the 1990 campaign season

trying to exact revenge on Ann Richards, the state treasurer who held him up to public ridicule at the 1988 Democratic Convention.

Bush devoted Monday to campaigning across Texas on behalf of Clayton Williams, Richards' Republican foe in Tuesday's gubernatorial election.

The president was to address rallies in Tyler, Waco and Houston, the final stops on his six-day, cross-country campaign swing for fellow Republicans in Tuesday's congressional and gubernatorial races.

The entire House, a third of the Senate and 36 gubernatorial seats will be decided, and the president would take special delight in seeing Williams, a flamboyant oilman and rancher, defeat Richards, Bush's own longtime nemesis.

Richards drew knee-slapping laughter at the Democratic National Convention in San Francisco when she described Bush, then a Republican presidential candidate, as a stumbling aristocrat.

''He can't help it. He was born with a silver foot in his mouth,'' Richards declared from the podium.

Bush, who has taken a number of swipes at Richards since, told a news conference in Orlando, Fla., last week: ''I'm strongly in favor of Clayton Williams over his opponent - not just for personal reasons, either.''

Polls show that Williams' lead of Richards, once in the double digits, has been reduced to just a few percentage points. Much of the decline can be traced to Williams sticking his foot in his mouth. Like the time he received headlines by joking that rape was like the weather because ''if it's inevitable, just relax and enjoy it.''

Since taking office two years ago, Bush has raised about $85 million for the GOP by speaking at more than 130 rallies in 40 states.

On Sunday, he focused on getting out the vote.

Speaking from a suite in the Houstonian Hotel, which he lists as his official residence, Bush placed telephone calls to Republican pep rallies in Alaska, Nebraska, Utah and Maryland.

Bush's own approval rating nationwide has plunged in recent months from more than 70 percent to only about 50 percent, but Williams figures Bush is still a big enough political force in the president's adopted homestate of Texas to be a boost for him Election Day.

On Sunday, Bush and Williams, in a made-for-television event, also sat down a GOP telephone bank in Houston and called Texans, asking them to vote Republican Tuesday.

''Hello, Martha, this is George Bush, the president ... I hope you'll vote for Claytie Williams and the rest of the Republican ticket. Can we count on you? Thanks a million!''

The initial half-dozen telephone calls Bush placed on behalf of Williams were all to registered Republicans - and all said they would vote for Williams. On a dare from reporters, Bush randomly picked a number out of the telephone book and dialed with trepidation.

''This is risky,'' the president conceded as he waited for the phone listed to Malissia Johnson to be answered.

''Ms. Johnson. You won't believe this. This is the president of the United States calling. ... I'm trying to get people out to vote. ... Needless to say I hope you'll vote for our full ticket.''

Ms. Johnson apparently answered affirmatively, and Bush exlaimed, ''Will ya!'' - drawing laughter, applause and relief from Williams and a host of campaign volunteers. ''Thank you,'' Bush said. ''I'll drop you a little note.''

But later, Johnson, reached at her home, said she thought Bush was an impostor and that she intends to vote Democratic. ''I thought it was a joke,'' Johnson explained. She also said her first name is Mary. ''Malissia was my mother-in-law. She's dead,'' the woman said.

The president made campaign visits last week to seven states - Massachusetts, Florida, Ohio, Minnesota, Iowa, California and Iowa.

Initially, the White House considered having the president visit at least 10 states, maybe more, in the final week of the 1990 campaign.

But the big drop in his approval rating, much of it traced to his handling of the budget debacle, reduced the number of Republicans interested in being seen with the him.

A year ago, with the nationwide approval rating hovering near 80 percent, the White House saw Tuesday's election as a chance to gain some seats in the Democrat-controlled Congress.

But now the administration concedes it will likely lose at least a few seats, but insists that the election won't be a referendum on the Bush presidency. However, the election will go a long way toward setting the political landscape for 1992, when Bush will be up for re-election.

VICENZA, ITALY (NOV. 5) UPI - A 32-year-old worker broke into the home of his estranged wife early Monday and stabbed to death the woman, her mother and sister, and his 2-year-old daughter. He then killed himself, police reported.

Police identified the killer as Marino Pivotto, described by the village mayor as a violent, hot-tempered man who had frequently threatened his wife in recent weeks.

The tragedy took place in the village of Lusiana, 18 miles north of Vicenza in northeastern Italy.

Police said Pivotto broke into his mother-in-law's house, where his wife Rosalina, 34, and their daughter Stefania, 2, were living with the wife's mother, Maddalena, 61, and sister, Ornella, 27.

Using a hunting knife with a 6-inch blade, Pivotto stabbed them all to death and then committed suicide by stabbing himself in the chest, police said.

(NOV. 5) UPI - President Bush is campaigning for Republican candidates in his adopted homestate of Texas today. He's stumping for gubernatorial nominee Clayton Williams. The flamboyant oilman is locked in a tight race against Bush's long-time nemesis, Ann Richards. Richards drew gales of laughter at the Democratic National Convention in San Francisco two years ago when she described then-Vice President Bush as being ''born with a silver foot in his mouth.''

The president plans to speak at rallies in Tyler, Waco and Houston today as he wraps up a six-day cross-country campaign blitz for tomorrow's elections. The entire U-S House of Representatives, one-third of the Senate and 36 governorships will be decided.

The Supreme Court meets today to hear arguments on Michigan's controversial drug sentencing law. At issue is the constitutionality of the nation's toughest drug law. It sets the penalty for anyone caught with 650 grams or more of heroin or cocaine at mandatory life in prison- without parole. That's less than a-pound and a-half of the drugs. The case involves a 45-year-old man who is serving a life sentence after being caught with 672 grams of cocaine in his car during a 1986 traffic stop. The 1978 law was aimed at drug kingpins.

News from the Persian Gulf is more war-like this morning. An unnamed Egyptian military official is quoted in Cairo as saying the United States would leapfrog right over Kuwait in the event of war and head straight into Iraq. That would cut Iraqi troops in Kuwait from their supply lines, allowing for them to be mopped up later. Saudi Arabia's Riyhad Radio says that Secretary of State Baker has returned to the kingdom from Behrain to discuss a possible

timetable to get Iraq out of Kuwait.

An exiled Iranian dissident group based in Baghdad says hard-line clerics in Tehran want to replace Ayatollah Ali Khamenei as spiritual leader of the Islamic Republic. The dissident group, the Mojahedin Khalq organization, quotes reports from inside the Iranian government as saying the hard-liners met privately in Tehran recently to discuss Khamenei's possible replacement.

Scientists near Vancouver, Washington, are waiting for more daylight so they can check for possible damages from an eruption on Mt. St. Helens early today. Commercial airline pilots reported a plume of ash at 30-thousand feet eight minutes after the volcano rumbled back to life. Scientists call it an ''explosion type signal'' similar to several last December and January.

In India, there are indications there's a split in Prime Minister V-P Singh's Janata Dal Party over the issue of who's running the party. Dissidents say they NO longer recognize the prime minister as head of the party. But Singh loyalists expressed confidence in the embattled leader. Both camps claim a majority of party legislators.

Former German Chancellor Willy Brandt is set to leave for Iraq today aboard a 260-seat Lufthansa Airbus. He's expected to stay four days and there are reports he has already received guarantees that hundreds of hostages may be allowed to fly home with him. The former Berlin mayor is honorary chairman of Germany's Socialist Democratic Party. Party officials say negotiations on the fate of hostages have reached an advanced stage.

#90309u0839 11/05/1990 ~United Press International

MANILA, PHILIPPINES (NOV. 5) UPI - The government has agreed to drop civil suits against a close associate of the late President Ferdinand E. Marcos in exchange for his assets in several Philippine companies, an official said Monday.

Arthur Defensor, spokesman for the Presidential Commission on Good Government, said Roberto Benedicto has agreed to give up assets totaling some $43.4 million.

Defensor said Manila in turn agreed to drop three civil suits accusing Benedicto of plundering during the 20-year rule of Marcos and to issue passports to his family cancelled after they left the Philippines following the late dictator's ouster in 1986.

Benedicto, 73, was a law school classmate of Marcos and a former ambassador to Japan. He was also appointed provincial governor, chairman of Philippine Sugar Commission and president of state-owned National Sugar Trading Corp., which monopolized the sugar industry.

Under the settlement, Benedicto will turn over holdings in two television stations, a mining firm, three sugar estates in the central Philippines, and in 39 other Philippine companies.

Defensor said the agreement, signed Saturday in Singapore, allowed Benedicto to retain holdings in the Traders Royal Bank, a hotel and properties he had inherited.

Benedicto had earlier returned about $28.3 million in deposits in the California Overseas Banks and in Swiss banks.

Also Monday, President Corazon Aquino said she has authorized the PCGG to negotiate with former First Lady Imelda Marcos for the return of some of the former first family's assets stashed in Hong Kong banks.

But Aquino said the return of Mrs. Marcos to Manila was not being discussed.

''There are negotiations going on,'' Aquino said. ''And the PCGG had asked for clearance in this regard. And I had given them authority to do so.

''This does not concern the return of Mrs. Marcos here.''

Last week, the PCGG said a deal was being hammered with Mrs. Marcos repatriating 60 percent of her assets from Hong Kong.

Aquino said Friday in a statement to reporters the deal ''concerns sums of money held under names of nominees.''

''All the wealth of President Marcos, and my life as well, I dedicate for the betterment of all Filipinos,'' Marcos was quoted to have said by the Manila Standard newspaper in the local Tagalog dialect.

''I am coming home to dedicate my life and my husband's legacy to rebuild the country and provide a better life for all Filipinos.''

Aquino also said ''the projected settlement does not entail dropping civil cases (against the Marcoses) in the Philippines, but possibly civil cases in the United States only, if the amounts are significant.''

Aquino said criminal cases are not part of the settlement.

The government has lodged some 47 civil suits in the Philippines against the Marcoses and their ''cronies'' in an effort to recover the alleged ill-gotten wealth stashed in local and foreign banks, but have avoided filing criminal suits against Imelda and her children.

Philippine law calls for presence of the accused in criminal suits.

Castro said the Philippines, saddled with a $27 billion foreign debt, has realized it would take a long time for the courts to settle government claims against the Marcoses.

In July, a New York federal district court acquitted Marcos of charges she stole more than $200 million during her husband's rule and spent the money to buy New York skyscrapers and works of art.

''I have long wanted to come home and help (in Philippine economic recovery) '' the Standard quoted Marcos. ''I feel like a tree, in full bloom, bursting to provide fruit, but uprooted and barred from being productive.''

The Marcos family and associates were alleged to have stolen upwards of $10 billion from the Philippine treasury until they were ousted in a ''people power'' uprising in 1986 and forced into Hawaiian exile, where Mr. Marcos died in September 1989.

Aquino's government has barred Mrs. Marcos from returning home, citing security reasons.

#90309u0892 11/05/1990 ~United Press International

BALTIMORE (NOV. 5) UPI - Businessman Harry Weinberg, an elementary school dropout who made a fortune in real estate and mass transit and died Sunday of cancer, left nearly $1 billion to a foundation to help the poor, trustees say.

Weinberg, of Baltimore, died at 82 in Honolulu, Hawaii, after an eight-year battle with bone cancer.

With the exception of about $3 million left to grandchildren, the entire Weinberg estate is to be transferred to the Harry and Jeanette Weinberg Foundation, which becomes one of the nation's 12 largest charitable organizations and the largest in Baltimore, his native city.

Trustees estimated the estate at $900 million to $1 billion but say much of it is in the form of valuable Hawaiian land and is not known.

The foundation that bears his name and that of his late wife is obligated to spend as much as $45 million a year to serve the poor, The (Baltimore) Sun reported. Foundation trustees said one-third to one-half of the money will be spent in Baltimore.

''It really is an unbelievable task,'' said Shale Stiller, lawyer for the foundation. ''It's an incredible amount of money to give away.''

The corporate charter allocates 25 percent of each year's expenses to

charities benefitting the predominantly Jewish and needy, another 25 percent to charities whose beneficiaries are predominantly gentile and needy.

The remaining 50 percent is to be given to charities that benefit the needy regardless of religion, color or creed.

Weinberg, the son of immigrant parents, quit school at 12, worked in his father's auto shop, sold newspapers on the side and eventually parlayed a series of successful business deals into enormous wealth.

In 1948 Weinberg bought bonds in Baltimore Transit Co. at bargain prices and sold them later for what was described as ''an enormous'' profit, The Sun said. It was the first of many transit company purchases in the late 1940s and erly 1950s that eventually included lines in Scranton, Pa., Dallas, New York and Honolulu.

''He was someone who brought himself up from nothing,'' said his younger brother, William Weinberg, who is to serve as a foundation trustee. ''And I believe that if all the money in the world were suddenly taken away and everyone had to start over again, he'd still end up with (his) money.''

Weinberg was criticized because some of his real estate holdings, including large tracts in downtown Baltimore and several area shopping centers, were largely untended or unimproved.

He had lived in Hawaii since 1968 and was Baltimore's invisible billionaire.

Weinberg is survived by his son, Morton, of Seal Beach, Calif.; three brothers William, David and Nathan Weinberg, all of Pikesville, Md.; a sister, Betty Fine of Baltimore; four grandchildren, and one great- grandchild. His wife of 57 years, Jeanette, died in 1989.

Private services will be held Wednesday, with burial at the Hebrew Friendship Cemetery in East Baltimore.

GREENBELT, MD (NOV. 5) UPI - The Hubble Space Telescope has made its first observation of the chemical makeup of a faint object - a distant quasar that may provide clues about the early universe, NASA officials reported Sunday.

Using the telescope's Faint Object Spectrograph, astronomers from the National Aeronautics and Space Administration, Johns Hopkins University in Baltimore and the University of California-San Diego observed the spectrum of a faint quasar, called UM675, about 12 billion light years from Earth. A light year is the distance light, which moves at a speed of 186,000 miles per second, travels in one year - about 6 trillion miles.

Quasars are the brightest objects in the universe, pouring out energy that seems too intense to be produced from something so compact. Although quasars were first discoverd in 1963, scientists still understand little about how they work.

E. Margaret Burbidge, the University of California-San Diego astronomer who led the team, said one of the goals of the eight-hour observation was to look for the spectral ''signature'' of helium in the far ultraviolet.

The strength of that helium signature should tell scientists about helium abundance in the early universe, Burbidge said.

''We've waited a long time. Of course, the scientific results of the observations will only be known after intensive data analysis,'' Burbidge said.

Helium is the second most abundant element in the universe, but scientists say the amount of the gas still appears too great to be made by stars' nuclear fusion, which transforms hydrogen to helium. Consequently, it has been theorized that most of the helium was made in the ''big bang'' explosion that astronomers think created the universe about 15 billion years ago.

The part of a quasar's radiation that includes the main spectral lines produced by helium cannot be picked up by ground-based telescope.

But Hubble can make such observations because it operates above Earth's atmospheric ozone, which blocks out the ultraviolet radiation that contains the helium signatures.

Although the Hubble telescope capabilities have been limited by a defect in one of its mirrors, the instrument can still conduct a variety of research such as spectral observations until the flaw is repaired, probably in 1993.

#90309u0905 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The Supreme Court Monday let stand a ruling that a consumer ordering obscene material through the mail can be prosecuted under a 1958 federal statute.

The court refused to review a decision of the 8th U.S. Circuit Court of Appeals, which upheld the conviction of Alfred Kuennen, a Missouri man

sentenced to 3 1/2 years in prison for causing ''to be delivered by mail'' an obscene magazine from Denmark.

Kuennen contended he was a ''victim'' of pornography, not a criminal, and that the portion of the federal regulation used to convict him applies only to those sending obscene materials through the mail - not those receiving the material.

The federal government agreed that while the 1958 act indicates recipients of obscene materials were among those the act was enacted to protect, ''the history does not manifest an intention to immunize persons who knowingly induce the use of the mails to transmit such materials.''

The government also said the 6th U.S. Circuit Court of Appeals had used the ''causes to be delivered by mail'' portion of the statute to justify a similar conviction while the 9th U.S. Circuit Court of Appeals used a different part of the law to uphold the conviction of a pornography recipient.

The government said the only case supporting Kuennen was a 25-year- old district court decision. The Supreme Court had never ruled on the particular issue.

The act specifies that those who ''take such things from the mails'' can be prosecuted if they did so ''for the purpose of circulating or disposing thereof.''

Kuennen claims that portion of the act also did not apply because he never intended to circulate the magazine, which contained pictures of sexual activities involving young boys.

The magazine arrived in Chicago in June 1984.

The Customs Service inspected the package and then plotted with the Postal Service to capture Kuennen. It was sent to his post office box in St. Louis, and he picked it up on March 20, 1985.

Kuennen was arrested on the spot and admitted to a Customs agent he had ordered the magazine. A search of his home disclosed additional pornographic material.

He was convicted and the appeals court affirmed, rejecting his contention that prosecution should have been barred because Customs agents made a controlled delivery of the package nine months after it arrived in the United States.

Kuennen claimed if his conviction was allowed to stand by the high court, ''millions'' of people receiving obscene magazines through the mail could become liable for prosecution.

#90309u0913 11/05/1990 ~United Press International
JAKARTA, INDONESIA (NOV. 5) UPI - President Suharto leaves Sunday on an 11-day swing through three Asian nations, visiting Japan, China and Vietnam, it was announced Monday.

Suharto will first stop Sunday in Tokyo to attend the coronation of Emperor Akihito, remaining until Nov. 14. He then travels to China from Nov. 14-19, and visits Vietnam Nov. 19-21, State Secretary Murdiono said.

The main purpose of Suharto's trip is to attend the coronation of Akihito, Murdiono added.

He said during the four days in Tokyo, Suharto would also have meetings with other world leaders attending the coronation, including Vice President Dan Quayle.

Suharto will become the first Indonesian head of state to visit China in nearly three decades. Sukarno, Indonesia's first leader, visited in the early 1960s.

After visiting China, Suharto will proceed to Vietnam. It will be the his first visit to Vietnam during his 25 year as president.

#90309u0918 11/05/1990 ~United Press International
HOUSTON (NOV. 5) UPI - U.S. drilling activity increased by 37 rotary rigs last week but offshore drilling in the Gulf of Mexico dropped by two rigs compared with the previous week, energy surveys showed Monday.

Baker Hughes reported the number of rotary rigs under contract nationwide climbed from 1,107 rigs on Oct. 29 to 1,144 Saturday compared with 1,042 rigs for the same time one year ago.

The Offshore Data Services reported 142 rigs were working in the Gulf of Mexico last week compared with 144 the previous week and 162 for the same time one year ago.

The offshore utilization rate in the Gulf was 66.7 percent, down from 75 percent a year earlier. Offshore drilling activity in Europe declined to its lowest level since early July, said Tom Marsh, Offshore Data Services drilling editor.

The European offshore rig utilization stood at 92 percent with 126 of the 137

mobile offshore drilling rigs in the North Sea, Mediterranean Sea and other European waters working. That is a decrease of two rigs since last week.

Baker Hughes reported rotary drilling activity was up in Texas with 398 rigs working compared with 375 rigs the previous week and 322 for the same time last year.

Other rig counts included: Oklahoma, 143, 141 and 130; Louisiana, 156, 156, and 153; Canada, 147, 143 and 175.

#90309u0937 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - More than four years after the death of University of Maryland basketball star Len Bias, the Supreme Court Monday let stand a ruling that his family is not entitled to any of the millions of dollars he was on the brink of making before his cocaine- induced death.

The court refused to review a decision of the U.S. Court of Appeals for the District of Columbia Circuit, which held the basketball player's agent was not liable for failing to obtain a $1 million life insurance policy or a lucrative shoe endorsement contract before Bias died.

Bias died June 19, 1986, of cocaine intoxication after an all-night party at his College Park dormitory. He was celebrating his selection by the Boston Celtics as the second player overall in the National Basketball Association draft two days earlier.

As a top NBA pick, the two-time Atlantic Coast Conference Player of the Year was expected to sign a multimillion dollar contract. Bias's father, James Bias contends his son also agreed to an endorsement contract with Reebok shoes June 18, the day before he died, but that his agent failed to sign the contract as had been agreed upon.

James Bias claims Advantage International Inc., and agent Lee Fentress lied, telling the Bias family they had obtained a $1 million life insurance policy for the ball player when in fact they had secured a $1 million ''disability'' policy.

A court later ruled the disability policy did not cover a ''drug related'' death, and the Biases got nothing.

Bias's parents argued they would have obtained their own life insurance policy for their son had they known Advantage and Fentress failed to carry out their instructions.

Advantage, which began representing Bias nine weeks before his death, argued that even if it had obtained a life insurance policy for Bias, no policy would

have covered a self-induced death caused by the ingestion of illegal drugs, especially when coupled with testimony from two of Bias's teammates that he used cocaine in the past.

James Bias claims the testimony of his son's teammates, Terry Long and David Gregg, that Bias used cocaine on various occasions was suspect and that there was no credible evidence Bias used cocaine prior to the morning of his death.

Advantage argued it had no realistic chance to finalize a contract with Reebok shoes on June 18, and the lower courts agreed.

90-439 James Bias vs. Advantage International, Inc., et al.

#90309u0941 11/05/1990 ~United Press International

LONDON (NOV. 5) UPI - Prime Minister Margaret Thatcher met senior members of her Conservative Party Monday, apparently to discuss strategy to deal with a possible challenge to her leadership over mounting disagreement toward her stance on Europe.

The meeting came after Michael Hesseltine, a former defense secretary, directly confronted the prime minister, declaring her policy conflicted with the collective wisdom of her Cabinet.

His challenge came after the Thursday resignation of deputy prime minister Sir Geoffrey Howe, who quit to mark his dissatisfaction with Thatcher's opposition to certain moves toward economic and political union by the other 11 nations of the European Community.

Senior ministers say there is no deep division within the ruling party, but junior legislators, who are most threatened by the party's low opinion poll standing in the runup to elections that must be held before mid-1992, predict Thatcher will be confronted with a leadership challenge.

Conservative Party Chairman Kenneth Baker and Vice Chairman David Trippier spent 45 minutes with Thatcher in her Downing Street office for a routine meeting.

Neither official would comment on the discussions, but the BBC said the meeting ''will have been dominated by the threat of a leadership challenge, and how to see it off.''

Thatcher counterattacked after Howe's resignation, reshuffling her Cabinet Friday to appoint new ministers to the health and education sectors, areas in which it has been criticized by the main opposition Labor Party.

But Hesseltine reignited the debate, declaring in a letter released before his

Saturday departure to the Middle East, that the party was suffering a crisis of confidence that must be repaired or it would be consigned to the political wilderness for the next decade.

John Mc Gregor, who was assigned to take Howe's other key position of leader of the Conservatives in the lower house of Parliament, said Hesseltine's statements were not good for the party.

''In so far as it has caused a flurry of newspaper headlines, clearly that does not help in the short term because the country expects the party to beunited,'' he told the BBC. ''If there appears to be a lack of unity, it does not help us in the short term.''

Political observers will be closely watching a by-election to be held Thursday in the central city of Bradford to see if there has been any deep desertion by voters. The Conservatives were unexpectedly routed last month in another by-election in district of Eastbourne.

Elsewhere, Foreign Secretary Douglas Hurd endorsed Thatcher's policy on Europe at a meeting of the Confederation of British Industries.

''Europe is a continuing debate,'' he said. ''As far as the policy of the government is concerned ... we have a united view.''

Thatcher believes the European Community has not thought through its unification strategy, and is asking member nations to yield too many sovereign powers. She alone has refused to endorse a plan to create a united European currency by the year 2000, and many British businessmen fear the nation may be excluded from the benefits and expected prosperity of the united market.

#90309u0949 11/05/1990 ~United Press International

MANILA, PHILIPPINES (NOV. 5) UPI - The head of the Asian Development Bank expressed concern Monday that the Middle East crisis has shown the ''fragility of the world economy.''

In a speech at the opening of a five-day conference to discuss the world economic outlook, ADB President Kimimasa Tarumizu said developments in Eastern Europe and the Soviet Union early this year renewed hopes for an era of peace and vitality in world economy.

But ''recent events in the Middle East remind us of the fragility of the world economy and have cast dark clouds over the short and medium- term prospects for the world economy in general, and developing countries in particular,'' Tarumizu said.

''After a long period of sustained economic growth,'' Tarumizu said, ''the

world economy appears to be teetering on the edge of a recession.''

Tarumizu said the Asia-Pacific region in particular has been severely affected by the ''uncertainties,'' despite a rapid pace of economic progress made in the last two decades.

He said many Asian developing countries have lost abruptly substantial amounts of remittance incomes from labor exports in the Middle East and were reeling from high oil import bills.

ADB was hosting the meeting attended by leading economic analysts, forecasters and policymakers from 50 countries and major international organizations.

Among the speakers in the conference was Nobel laureate professor Lawrence Klein of the University of Pennsylvania. ADB said Klein has been the ''driving force'' behind Project Link, one of the major research and forecasting projects in economics.

#90309u0953 11/05/1990 ~United Press International

ATHENS, GREECE (NOV. 5) UPI - The wave of Albanian dissidents fleeing to Greece continued with another 28 crossing the border at three different points during the past two days, seeking political asylum, officials said Monday.

The latest arrivals brought to 52 the total number of Albanian refugees who crossed into Greece since Thursday, but two died after making the journey.

Police said 28 dissidents, who included five ethnic Greeks, crossed the Albanian border near the Greek villages of Filiates, Thesprotia and Pogoni, all close to Ioannina, some 180 miles northwest of Athens.

No immediate details of the new arrivals were released, but officials said their requests for political asylum were being considered.

Earlier, 24 Albanians crossed the border into Greece on Thursday and Friday, at three points near Ioanina and Florina, some 215 miles northwest of Athens. They included several soldiers, who handed over their weapons to the Greek police.

Police said two of the dissidents, identified as Michael Skevis and Filippos Boros, died after crossing the border.

No bullet wounds were found on Skevis's body, and police believed he died of exhaustion. Boros's body was sent for a postmortem examination to determine the cause of his death.

LUSAKA, ZAMBIA (NOV. 5) UPI - More than 2,000 miners at one of the world's largest copper mines on a wildcat strike refused union appeals Monday to end the walkout, the government newspaper reported.

The report in the Daily Mail said mining operations at the Nchanga mine of the Zambia Consolidated Copper Mines (ZCCM) came to a standstill Sunday when hundreds of workers joined a walkout that began Saturday by some 400 engineering department employees.

Mineworkers Union of Zambia General Secretary Koshita Shengomo declined Monday to discuss details of the strike, saying only that union officials were traveling to the mine in Chingola to assess the situation.

The newspaper reported the workers had ignored union appeals to return to work.

The walkout was alleged to have started over conflicting reports on anticipated wage increases. Both underground and open pit workers are demanding 200 percent increases with immediate effect.

The mine is one the largest open pit mines in the world.

Zambia derives more than 95 percent of its foreign exchange earnings from copper sales. ZCCM is the country's largest employer with about 50, 000 workers.

#90309u0984 11/05/1990 ~United Press International
VANCOUVER, WA (NOV. 5) UPI - Mount St. Helens rumbled to life unexpectedly early Monday, shaking violently and shooting ash 30,000 feet skyward in what scientists called a minor eruption.

Clouds and darkness obscuring the volcano in southwest Washington raised concerns during the night that the mountain was unleashing another major blast of the type that killed 59 people on May 18, 1980.

Warnings were issued, but officials quickly determined that only a relatively mild ''event'' had occurred, lightly dusting nearby areas with ash and leaving the volcano's crater and lava dome intact.

''It was a small explosion from the dome,'' said Steve Brantley of the U.S. Geological Survey. ''In comparison with the eruptive activity of the past 10 years, it was relatively minor.''

The eruption, he said, ''does not represent a precursor to stronger eruptive activity.''

Needles on seismographs connected to monitoring stations on and all around the 8,365-foot peak began swinging back and forth without warning at 2:07 a.m., seismologists reported. Brantley said the eruption appeared to have begun about two minutes later.

By 2:15, the Federal Aviation Administration said commercial pilots began reporting an ash plume pushing through clouds to an altitude of 30,000 feet.

Scientists could not directly observe the eruption because of the darkness and cloud cover, but said it was comparable to a minor eruption that occurred last winter.

''This morning's event does appear to be similar to several periods of sustained earthquake activity that we have observed during the past 10 months '' Brantley said, adding, ''This morning's event is the largest in the past 10 months.''

Chris Trisler, a spokeswoman at the University of Washington Geophysics Lab in Seattle, said the blast may have destroyed two seismic monitoring stations on the north side of the lava dome - a mound of hardened magma pushing up inside Mount St. Helens' gaping crater, representing the birth of a new summit for the once cone-shaped peak.

However, Trisler noted that a seismic monitor atop the dome was still intact - a clear sign that a major eruption had not occurred.

''The seismic site at the top of the lava dome has continued to transmit, so the top of the lava dome seems fine,'' she said. ''The two stations that were lost were north of the dome.

''What could have happened is they may have been caught in some kind of sideways blast out of the north side of the dome'' or a small mudflow or rockfall could have taken them out, she said.

Brantley said that, weather permitting, crews would be sent up in helicopters to observe the volcano. However, he said, ''the weather does not look very good.''

Trisler said the seismic readings were definitely an ''explosive type signal'' and lasted about 45 minutes before returning to normal ''background'' levels, but were not marked by the frantic needle ''clicking'' of more violent volcanic eruptions.

Monday's event occurred without warning, Trisler said.

The National Weather Service issued a flash flood watch effective until 8 a.m. for people along the north fork Toutle River in Lewis, Cowlitz and Skamania

counties, which have been deluged by past eruptions.

The weather service also warned people living to the southeast in Klickitat, Yakima and Benton counties to be aware of the possiblility of ash fallout.

However, no mudflows or ashfall materialized of the type that occurred on May 18, 1980, when the volcano blew off a cubic mile of its summit, destroyed 250 square miles of forestland, darkened skies as much as 200 miles away, buried much of eastern Washington in up to a foot of ash and sent volcanic dust circling the globe.

Mark Stewart of the state Department of Emergency Services said the state activated its state emergency operations center and alerted all counties in southwest Washington. But Stewart said only a light dusting of ash was reported south of the mountain in Skamania and Klickitat counties.

#90309u0989 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The Supreme Court Monday let stand a decision that the constitutional right of public and media access to court proceedings does not extend to juvenile court cases where publicity could harm an innocent child.

The court refused to review a ruling by the Ohio Supreme Court that there exists ''no qualified right of public access to juvenile court proceedings to determine if a child is abused, neglected or dependent, or to determine custody of a minor child.''

The court's refusal to hear the case sets no precedent, meaning it could take up the issue at another time if it causes problems in the lower courts.

The case in question stems from a bizarre Ohio child custody battle involving a surrogate mother and a divorcing husband and wife who paid $10,000 for the surrogacy contract.

The case eventually ended with the husband getting custody and his ex-wife shooting him to death, but only after the Ohio courts had barred the media from proceedings out of fear the spotlight - which had led to publicity ranging from a story in The New York Times to a segment on the television program ''A Current Affair'' - would cause emotional damage to the young girl at the center of the controversy.

Owners of The Columbus Dispatch newspaper asked the high court to review the decision of the Ohio Supreme Court allowing juvenile court in Franklin County, Ohio, to bar the media and the public from the child custody hearings and impose a gag rule on parties involved to keep them from speaking out publicly about the case.

The case began in May 1987, when Richard and Beverly Reams filed separate divorce petitions, both seeking to retain custody of Tessa, born in 1985 to Norma Lee Stotski, who at the time was working for a ''surrogate mother service.''

The Reamses had never formally adopted Tessa - who was not a blood relative - and Stotski joined the three-way custody battle.

In December 1988, after the couple's divorce had been finalized, a Franklin County Probate Court judge considering separate adoption petitions ordered Richard Reams and Beverly Reams - then known as Beverly Seymour - each to post a $3,000 bond. The judge also encouraged Richard Reams to give up his efforts to obtain the child so she could be adopted by a wealthy East Coast couple.

Seymour, claiming she could not afford the $3,000 bond, went public in a two-page news release distributed to news agencies.

The story was picked up nationwide.

A court-appointed guardian then asked for a gag order on the parties involved. To that point the proceedings had been open to the public and media.

Franklin County Judge Ronald Solove held a hearing and levied a gag order, writing that ''so long as there is a scintilla of possibility of harm to the child, this court will restrict the rights of adults involved.''

Solove then closed the judicial proceedings to the public and the media.

The Dispatch sued, arguing the gag and closure rules violated the First Amendment.

The Ohio Court of Appeals agreed, barring enforcement of the gag rule or court closure orders, and holding there is a presumption of openness for juvenile courts as well as adult courts.

The Ohio Supreme Court then reversed.

The custody hearings continued behind closed doors on Aug. 14, 1990, when Richard Reams was granted custody of Tessa.

However, when he went to Seymour's home to take the child, Seymour shot him to death. She reportedly told the county sheriff she shot Reams in part because she ''felt she had not been given a fair opportunity by the courts.''

Solove then opened the record of the Aug. 14 custody action to the press, at the urging of the Dispatch.

In arguing that the case not be reviewed, attorneys for Judge Solove said juvenile court proceedings have not historically been bound by the same First Amendment public access rights that pertain to adult criminal proceedings, and thus the power of judges to limit access to protect children should not be diminished.

90-431 State, ex rel. The Dispatch Printing Co. vs. The Honorable Ronald L. Solove, et al.

GENEVA (NOV. 5) UPI - The European Community must make a flexible offer on agriculture by mid-November to save the Uruguay Round world trade liberalization talks, Cairns Group members said Monday.

Trade ministers from the 14-nation group charged EC failure to present a proposal on farm trade shows "total disregard" for Uruguay Round objectives agreed when negotiations began in 1986 among members of the General Agreement on Tariffs and Trade. They said the EC would also be responsible for "an unleashing of protectionist forces" if the talks collapse over the agriculture issue.

The talks set a goal of an average one-third cut in barriers to trade in all areas from manufactures to agricultural products, services such as banking and insurance, textiles, and intellectual property such as patents.

The United States and the Cairns Group countries led by Australia, Argentina and Canada have repeatedly rejected any package excluding farm trade at a final ministerial conference in Brussels scheduled for Dec. 3-7.

"European Community failure to show flexibility has placed the entire Uruguay Round in jeopardy," Cairns Group trade ministers said after an emergency meeting among themselves. Lack of a "flexible" EC proposal on agriculture has blocked all other areas of the negotiations, a statement said.

"Unless significant progress is achieved by mid-November, all participants would need to assess the implications for the further conduct of the Round," the Cairns Group statement said.

EC farm subsidies proposals being discussed in Brussels, the statement said, would be "inadequate" and would have to be improved if presented at the talks in Geneva.

"It is simply unrealistic for the Community to expect progress to be made elsewhere while it continued to stall on agriculture," it said. "If the Round fails, it is the EC which must shoulder the blame," the Cairns Group said. The Cairns Group is named after the Australian resort where the member states

first met. The group accounts for one-third of world farm exports.

"There is little doubt that failure of this Round will see an unleashing of protectionist forces," the statement warned. "Any wrong signal from the Round at this time would have unforseeable negative effects on each and every country's economic activity."

Neal Blewett, Australian minister for trade negotiations and chairman of the group, told a news conference "a whole range of options" existed in the absence of a flexible EC offer on agriculture. Blewett said those included a delay in the scheduled concluding meeting in Brussels, and having "further negotiations down the line."

NEW YORK (NOV. 5) UPI - Latest metal market prices as quoted Monday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 79.00-81.00 c- lb.

Antimony, domestic, refined in alloy, $2.00 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 121.63-123.00 c-lb.

Lead, common, U.S. primary producers 40.00-52.00 c-lb.; U.S. non- primary (secondary) producers 45.00-52.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $210.00-$240.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.50-4.75 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $102.00-$107.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $435.50-$459.00; dealer- approx., $436.00-$460.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $105.00-$109.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $105.67 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 295.75 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 80.00 c-lb.

GREENWOOD, Miss. (NOV. 5) UPI - A man wanted for stabbing four of his young nieces and nephews to death after his sister refused to give him money to buy crack cocaine surrendered to police Monday.

Henry Curtis Jackson Jr., 26, of Eupora, Miss., walked into the West Point, Miss., Police Department about 7:45 a.m. and gave himself up. Police were releasing no other details about his condition or what caused him to surrender.

''He surrendered and is in custody. That's about all I can say,'' a West Point police dispatcher said.

Deputies and Mississippi Highway Patrol officers had pursued Jackson through the Mississippi countryside since Thursday night, when he allegedly crashed through a bedroom door at his mother's home and stabbed to death the four children, all his nieces or nephews and between the ages of 2 and 5.

Neighbors in the Rising Sun subdivision just south of Greenwood, said the stabbings occurred after Jackson's sister refused to give her brother money for drugs. His mother, Martha Jackson, was at a church service when the incident occurred, a Leflore County deputy said.

Two other nieces and his sister, 23-year-old Regina Fay Jackson, were wounded before Curtis Jackson fled in a car loaned to him by his mother, Martha Jackson, authorities said.

Leflore County Coroner James Hankins said he found the victims on the floor and ''all had been stabbed in the neck with a sharp instrument.''

Webster County Sheriff Bill Middleton said Curtis Jackson will be charged with four counts of murder and three counts of attempted murder.

Tricia Chick, spokeswoman at Greenwood Leflore Hospital, said Regina Jackson was in stable condition and had been moved to a room from the hospital's intensive care unit to recover from multiple stab wounds.

Sarah Denise Jackson, 11, was listed in serious but stable condition with stab wounds.

Andrea Alice Jackson, 1, was first treated at the hospital in Greenwood, then transferred to the University Medical Center in Jackson. Barbara Austin, a spokeswoman at the Medical Center, said the child was in critical but stable condition after surgery Friday.

Hankins identified the victims as Andrew Jackson, 2, Antonio Jackson, 3, Shumetricia Jackson, 2, and Dominique Jackson, 5.

Authorities said Curtis Jackson was the uncle of all of the children. Four of the children - Andrew, Antonio, Sarah Denise and Andrea Alice - belonged to his sister, Glenda Jackson of Louisiana. The other two children - Shumetricia and Dominique - were daughters of Regina Jackson.

All the children and Regina Jackson lived with their grandmother, relatives

said.

(NOV. 5) UPI - Secretary of State Baker inspected U-S troops and international forces in eastern Saudi Arabia yesterday. Today, he met with Kuwait's exiled ruler who said he wants fast military action to free his occupied country from its Iraqi invaders. More war-like messages come from an unnamed Egyptian military official in a weekly newspaper run by Egypt's ruling National Democratic Party. The official says U-S- led forces could launch 15-hundred to two-thousand air strikes against Iraq within the first 72 hours of hostilities.

President Bush is out to get some political revenge. Bush is campaigning in three Texas cities today to drum up support for Republican gubernatorial candidate Clayton Williams. Williams' opponent in tomorrow's election is Ann Richards, the state treasurer who held then-Vice President Bush up to public ridicule at the 1988 Democratic Convention. Bush is to address G-O-P rallies in Tyler, Waco and Houston.

Anyone ordering obscene materials through the mails can expect to be fully prosecuted after a Supreme Court ruling today upholding provisions of a 1958 federal statute. The nation's high court upheld the conviction of a Missouri man who ordered pornographic material from Denmark. The defendant had maintained the federal regulation applies only to those sending obscene material through the mail, NOT those receiving it.

The justices also upheld earlier rulings and tradition that the news media has NO rights when it comes to poking around in juvenile court cases where the publicity could harm an innocent child. The case involved efforts by the Columbus, Ohio, Dispatch newspaper when it tried to use First Amendment arguments to overturn a juvenile court gag ruling in a child custody case. A local court then ruled it had the right to impose such rules and the Ohio Supreme Court backed up that decision.

For the first time since 1985, the government has revised its Dietary Guidelines that give consumers suggestions on healthy eating. And it has run into immediate criticism from the Center for Science in the Public Interest. It says the overall revisions only weaken the guidelines, pushing them further behind dietary advice given by health authorities. The center claims the revisions are designed NOT to offend anyone in the meat, poultry or dairy industries.

Mississippi authorities say a man wanted in the stabbing deaths of four of his young nieces and nephews surrendered to police this morning. Police say 26-year-old Henry Jackson Junior walked into the West Point police department and gave himself up. Jackson had been pursued by authorities throughout the Mississippi countryside since Thursday night, when he allegedly stabbed the four children after his sister refused to give him money to buy crack cocaine.

A Pacific storm system socked the western mountains and the central part of the nation with wintry weather today. The storm dumped up to eight inches of snow on the peaks of Wyoming and up to three inches in Kansas City, Missouri. Snow coupled with cold temperatures made roads slick and driving dangerous. Elsewhere, cool, wet weather stretched across much of the Midwest and East.

#90309u1116 11/05/1990 ~United Press International

NICOSIA, Cyprus (NOV. 5) UPI - Soaring crude prices caused by the Persian Gulf crisis are expected to cut demand for OPEC oil about 1.7 million barrels dailyduring the first half of next year, an oil industry newsletter said Monday.

The Nicosia-based Middle East Economic Survey said demand for the more expensive crude, especially in North Africa and Europe, would fall 2.3 percent - or 800,000 million barrels a day - during the first half of 1991.

This would be offset to some extent by a 400,000 barrel-a-day gain in other regions.

But the overall downward revision in demand for Organization of Petroleum Exporting Countries oil due to higher prices and lower economic growth was forecast at ''1.7 million barrels a day less in the first half of 1991 than in the (pre-Gulf crisis) estimates (of 21.5 million barrels a day as against pre-crisis demand of 23.25 million barrels a day,)'' MEES reported.

Saudi Arabia's Oil Minister Hisham Nazer also was reported in an interview published in Sunday's New York Times as saying Saudi production was now running at 8.2 million barrels a day and was expected to rise to 8.5 million barrels daily by early next year.

This would be almost 3 million barrels higher than the Saudi 5.6 million-barrel-a-day output prior to Iraq's Aug. 2 invasion of Kuwait and would largely make up for the 4.2 million barrels lost daily to world markets by the U.N. embargo of Iraqi and Kuwaiti crude.

#90309u1125 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - Corporate profits increased slightly in the third quarter, but the gain was partly due to poor results in the year-ago period and higher oil prices this year, The Wall Street Journal reported Monday.

A survey of 633 major companies found net income rose 4 percent in the July-September period, compared with an 11-percent drop in the second quarter, the Journal said. After-tax earnings on continuing operations increased 5 percent.

The newspaper said results for the latest period were helped by $5 billion of losses posted by major banks in the 1989 third quarter, mainly because of additions to loan-loss reserves to cover troubled loans to developing countries.

Earnings in the 1990 period also benefited from the rise in crude oil prices resulting from the Mideast crisis, which lifted inventory profits at the oil companies.

These positive factors, however, were largely offset by a record $2.1 billion write-off by General Motors Corp. to cover closings of at least seven assembly plants, the Journal said.

''Corporate profits have weakened over the last year under the pressure of slow volume growth, labor and interest cost advances, and competitive restraints on prices,'' Richard Rippe, chief economist of the investment firm Dean Witter Reynolds Inc., told the Journal.

''These pressures are expected to persist through the rest of 1990 and into the first half of 1991,'' Rippe added.

Robbert Eggert, editor of Blue Chip Economic Indicators, a Sedona, Ariz.-based newsletter, told the Journal two-thirds of the participants in his monthly survey expect a recession to start this year or next.

Those analysts, like most forecasters, see profits improving modestly next year after the economy begins showing a bit more strength, Eggert told the newspaper.

Among major groups, third-quarter income dropped for automakers, steel producers and securities firms, while oil companies and aerospace industries

posted strong gains.

Operating income for the Big Three automakers was flat, with small profits at GM and Ford offsetting a loss at Chrysler.

Ford's net was hurt by sharply lower overseas results and the need to boost loan-loss reserves at its big thrift unit, the Journal said.

Chrysler's results were hurt by the closure of both its minivan plants for four weeks during the quarter to prepare for new 1991 models.

The newspaper said the fourth quarter looks equally bleak for the auto industry, with soaring gasoline prices and plunging consumer- confidence levels expected to hurt sales.

Profits of major steel companies were rocked as prices failed to keep pace with rising costs, although demand remained relatively strong given the soft economy.

Securities firms' profits plunged because of a pullback in investor activity, the Journal said.

WASHINGTON (NOV. 5) UPI - Society's pessimistic attitude towards aging is depriving many Americans of a chance to lead healthy, satisfying lives in their later years, a National Academy of Sciences report said Monday.

A committee convened by the academy's Institute of Medicine urged doctors to look beyond the cure of severe life-threatening diseases and find better ways to reduce mental and physical disability among the elderly.

''American culture clings to some very pessimistic assumptions about aging. Growing old is often associated with fraility, sickness and a loss of

vitality. We frequently assume that older inviduals are a burden to the state, their families or even to themselves,'' the committee said.

''In fact, many older individuals lead satisfying lives and maintain their health well beyond society's expectations.''

In its 332-page report, the 15-member panel said it found U.S. health policies are often written ''as though our older generations are beyond help,'' with the elderly often not being advised to stop smoking, begin exercising or be immunized against infectious diseases.

Currently, about 30 percent of Medicare costs are spent for caring for seriously ill older people in the last year of life.

''Should we continue to devote these resources to the provision of acute care or should we allocate more of them to prolong independent functioning in a community seting?'' asked the expert panel headed by Robert Borg of the University of Rochester's School of Medicine.

The fastest growing segment of the U.S. population is the elderly. In 1988, about 30 million Americans, or 12.4 percent of the total population, were age 65 or older. By 2030, 22 percent of the population will fall into that category.

The committee's recommendations to improve older people's health include:

-Medicare and private insurers should pay for blood pressure checks, devices to reduce handicaps caused by sight or hearing loss and treatment for psychiatric disorders like depression.

-Age must be considered when testing new drugs, and doctors need to learn more about the special types of adverse drug reactions that occur in the elderly.

-Pneumonia and flu vaccines should be given to all people over age 50.

-Screening programs should be developed to detect osteoporosis early before bone fractures occur. Research is also needed to find ways to prevent potentially deblitating falls among the elderly.

-The elderly should be urged to stop smoking and to exercise more.

-Older people suffering from social isolation need to be identified, and provided with better social support.

The report comes on the heels of a study released last week by Chicago researchers who estimated the average American's life span probably will not exceed 85 even if cancer and heart disease are eliminated. A newborn American baby currently has a life expectancy of about 75 years.

Like the academy committee, the Chicago researchers called for greater efforts to reduce non-fatal, debilitating ailments associated with aging, like arthritis. ''We need to be more concerned with quality of life for the elderly '' said Bruce Carnes, a co-author of the study.

CAIRO, EGYPT (NOV. 5) UPI - Egypt, the only Arab country to make peace with Israel, Monday condemned the actions of Israeli troops in the occupied West Bank and Gaza Strip and called on Israeli leaders to show restraint toward Palestinians.

Widespread violence erupted in the Gaza Strip over the past few days, sparked by the death of a Palestinian prisoner who sources said he died under interrogation.

''Egypt, while denouncing the Israeli practices against the Palestinian people in the occupied Arab territories, calls on Israeli officials to show self restraint to avert more of such practices, which only draw the condemnation of the world community,'' Egypt's Foreign Ministry said in a statement.

The statement also called on the Israeli government to reconsider its stance toward an international team empaneled by the U.N. Security Council to investigate the killing of 20 Palestinians by Israeli police on Temple Mount in Jerusalem on Oct. 8.

''We call on the Israeli government to respond to the Security Council resolution which authorized the U.N. secretary-general to send a team to occupied Arab territories to investigate the killing by Israeli police of more than 20 Palestinians last month,'' the statement added.

#90309u1173 11/05/1990 ~United Press International

BERLIN (NOV. 5) UPI - Just a few weeks after celebrating the country's reunification, Germans on Friday will be raising glasses to toast the first anniversary of the opening of the Berlin Wall - a key step on the road to making the merger possible.

The historic event, ironically, occurred as the result of a misunderstanding.

Berliners remember the exhilarating night of Nov. 9, 1989, when hundreds of thousands took to the streets, freely crossing from East to West for the first time in 28 years.

Champagne corks popped, strangers hugged each other and people wept openly in

the streets, their faces reflecting incredulity over the ease with which they had just passed what until then was one of the most heavily guarded borders in the world.

Friday's celebrations will doubtless be a little more subdued and include the unveiling of a memorial to the 77 people shot dead while trying to cross the barrier over the years and the inauguration of a bronze plaque that commemorates the Nov. 9 events.

For millions of television viewers worldwide, the pictures of the huge Berlin party represented a grand finale to the Cold War.

In the summer and fall of 1989, the East German communist government headed by Erich Honecker had faced its toughest - and last - major crisis when tens of thousands of East Germans fled the country in a massive exodus.

Simultaneously, huge pro-democracy rallies were held throughout East Germany. Honecker was eventually forced to resign Oct. 18 after ruling the country with an iron fist for 18 years. The resignation marked the beginning of a frenzied year of dramatic changes.

On the morning of Nov. 9, 1989, the Central Committee of the Communist Party held a crisis meeting to discuss the resignation two days earlier of the entire Politburo, which effectively ran the government.

At the meeting, Honecker successor Erich Krenz approved new travel regulations which stated that permits to travel abroad should be freely available.

Because of a minor misunderstanding between Krenz and his press spokesman, Guenter Schabowski, history was made the same day.

The East German news agency ADN was supposed to release details of the new travel regulations at 4 a.m. on Nov. 10, but Schabowski read the rule out loud at the evening news conference shortly before 6 p.m a day earlier.

When asked when the regulation would become effective, he hesitated. Then, with a puzzled look on his face, said: ''As far as I know ... it's effective now, right away.''

Within hours, crowds of East Germans gathered in front of the Berlin Wall and other border crossings around the country to see if what they heard on the news was true.

Confused border guards were taken by surprise and were unable to contain the huge crowds of East Germans, only few of whom had tried to get official travel permits.

In the last hour of that mild November night, thousands crossed without

showing any documents and celebrated with neighbors, families and total strangers.

The Wall had fallen, the people were free, the party was on - and the world watched in amazement.

#90309u1186 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - A ''snapshot'' portrait of the homeless taken by rescue mission workers showed Monday that the face of homelessness is becoming younger and the homeless are more rooted to their community.

More than 60 percent of nearly 20,000 homeless people staying in rescue missions on Oct. 12, were local residents, shattering the ''drifter'' stereotype, the International Union of Gospel Missions survey said.

It was the second annual ''snapshot'' poll of the homeless taken in the IUGMs 230 inner-city rescue missions in the United States and Canada.

''Many of the people we serve are hometown folks - 25 percent have lived there all their lives, and 60 percent have lived there for at least six months,'' said Stephen Burger, IUGM executive director.

''The idea that missions draw homeless to a community doesn't stand up under these facts,'' Burger said. ''The majority are community residents in need.''

In recent months some cities have been considering cutting back on services to homeless, with critics arguing that providing the homeless decent services only attracts non-residents to their cities.

District of Columbia voters will cast ballots Tuesday on an initiative that would restore a guaranteed right to shelter for all district residents - a right that was taken away by the City Council earlier in the year after it was argued the program cost too much money.

Burger said the survey also showed that homeless are continuing to become younger, as well. Statistics showed an increase in every age group in the 45-and-under categories during the past year, with more than 50 percent of the homeless now under age 35.

Those between the ages of 26 and 35 composed the largest population of those seeking shelter in the rescue missions, 28 percent, the survey said, with those between 36 and 45 a close second at 24 percent.

The number of children and teenagers - those under 18 years old - rose to 9 percent, while the over 65 group fell from 6 percent to 4 percent.

''The increase in the 'under 18' group is significant because it indicates a contrast from the stereotypical Skid Row view of the homeless as older men,'' Burger said.

Of the women, children and families at rescue missions that Oct. 12 night, women traveling with children were the largest group - 63 percent - a significant increase from last year's 46 percent. Intact families accounted for 16 percent, while 17 percent were couples.

The survey also said 53 percent of the people residing in shelters Oct. 12 were white, 35 percent black, 7 percent Hispanic, 4 percent Indian and 1 percent Asian.

Burger also said that 78 per of the 19,763 people counted were men, 13 percent were women and 9 percent were children.

Just 43 percent indicated they have been homeless for less than one year, down from last year's 50 percent.

Of the 19,763 counted, 2,279 said they were in rehabilitation programs addressing substance abuse, educational and vocational training, counseling and spiritual guidance.

''Looking at the unfolding profile of the homeless in this survey prevents us from categorizing the homeless as one mass of people,'' Burger said.

''These figures help rescue missions increase their ability to break the cycle of homelessness, by ministering to the individual men, women and children who come to us for help.''

#90309u1190 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - The Defense Department will call up thousands of combat reserves within a few months to join Operation Desert Shield in the Persian Gulf area, The New York Times reported Monday.

The report said the Pentagon made its decision to call up major combat units after Congress doubled the limit on active-duty service for combat reservists to 360 days before adjourning last week. The previous limit was 180 days, not considered enough time to train troops sufficiently for gulf area duty.

The Times quoted Defense Department officials as saying the reservists could be in the Middle East by early next year. They are expected to be among as many as 100,000 additional troops the Defense Department has said it will send to the gulf area in coming weeks.

The use of combat reservists would be a new dimension to the military buildup in the gulf, The Times said, in that it would test the military's concept of integrating active-duty combat forces with part- time counterparts. The concept was part of the Total Force Policy adopted in 1973 when the draft was abolished.

More than 34,000 reservists have been mobilized to perform support roles for the anti-Iraq military buildup in the United States and the Middle East. The Pentagon previously opposed mobilization of combat reservists on the grounds that the months needed to train them would eat into the 180-day limit that reservists could service.

Congress' action in extending the limit to 360 days angered some lawmakers, the paper said. They argued that if the Bush Administration believed the reserve combat units were needed, a national emergency should have been declared that would have extended the call-up to two years.

#90309u1214 11/05/1990 ~United Press International

LONDON (NOV. 5) UPI - Stock prices closed higher Monday in light trading on the London International Stock Exchange, boosted in part by the stronger performance on Wall Street and hopes of a lowering of Britain's interest rates.

The blue-chip Financial Times 100-stock index, which added 2.7 points Friday, gained 19.4 points to 2,050.1. The narrower top 30 industrial average gained 10.4 points to 1,581.1.

Volume amounted to around a slow 306 million shares compared with 404 million shares changing hands on Friday.

Despite poor political news for the British government, with leadership challenges to Margaret Thatcher's position on European union, market dealers felt a chance of interest rate cuts from the British Treasury would spell relief for business.

Industrialists are pushing for lower interest rates before Christmas to spur a boom in consumption that could also mean a comeback in political fortunes for the ruling Conservative party, analysts said.

Advances on Wall Street, with U.S. dealers expecting rate cuts from the U.S. Federal Reserve to stave off recession, consolidated the gains in London, analysts explained.

On the economic front, the Central Statistical Office reported Britain's retail sales volume rose a revised 0.6 percent in September from August and was up 0.3 percent from September 1989.

The government agency said the Retail Index for September rose to 122.7 from 122.0 in August and 122.3 in September 1989.

Analysts noting the low volume said many professional investors remained sidelined ahead of Thursday's semiannual economic address by Chancellor of the Exchequer John Major on the state of Britain's economy.

The autumn statement centers on the government's spending program for the coming fiscal year, and traditionally contains forecasts on such economic indicators as gross domestic product, inflation and the currenct account.

On the trading floor, stocks in companies holding shares in British Satellite Broadcasting zoomed after the announced merger with Rupert Murdoch's Sky Television.

Pearson climbed 23 cents to $11.80 and Granada climbed 18 cents to $3.15.

Reuters gained 61 cents to $11.81 as worries that Murdoch's Australian-based News International Corp. would sell its stake in the media and financial information services group receded.

News International Corp. rose 45 cents to $2.37 on the merger of Sky with BSB.

Retailer Sainsbury added 6 cents to $5.85 amid expectations of better-than-expected interim figures later this week.

Elsewhere in Europe, stock prices closed mixed in sluggish on the Frankfurt Stock Exchange.

The closely watched German Stock Index closed up 0.81 points to 1, 414.95.

#90309u1226 11/05/1990 ~United Press International

MEXICO CITY (NOV. 5) UPI - More than 100 tourists and locals chased a furious bull that escaped from Acapulco's bullfighting ring down the main boulevard and stretch of beach of the posh Pacific resort, it was reported Monday.

The bull, after escaping from a traditional Sunday bullfight, tore down the main boulevard and beach area of Acapulco, a Pacific resort town 180 miles south of the capital, the Mexico City newspaper La Jornada said.

Some 100 people chased the bull that wounded two people in its path and caused several head-on car collisions, La Jornada said.

Screaming tourists dispersed in all directions when the bull charged a beachfront seafood restaurant, overturning tables and sending plates of fried shrimp flying into the air.

La Jornada said police killed the beast with five shots after it had crossed the entire tourist area and charged the town's crowded central plaza.

#90309u1233 11/05/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (NOV. 5) UPI - Police reported sporadic fighting in a black township west of Johannesburg Monday on the fifth day of clashes that have left at least 19 dead in a dispute blamed on youths supporting rival political movements.

State-run radio said the violence began Thursday when youths clashed over whether to boycott examinations at schools in Bellersdal township - politically split between supporters of the African National Congress and racially exclusive Black Consciousness movements.

By late Sunday, at least 18 people had been reported killed in fighting, most of them stabbed or hacked to death. A township constable was among the fatalities. Police said he was stabbed and set afire over the weekend.

Police spokeswoman Henriette Bester said Monday the death toll had risen to 19 and that sporadic fighting continued. One youth was seriously wounded Monday when he was speared, she said. Several houses have been burned down during the fighting.

#90309u1258 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The Food and Drug Administration Monday moved to require drug makers to warn doctors about possible side effects of prescription drugs in older people.

''As our knowledge has grown of how drugs work within the body, we've recognized the special concerns associated with drug use in the elderly, '' Health and Human Services Secretary Louis Sullivan said in announcing the proposed change.

Sullivan said people often lose a third or more of their kidney function between the ages of 30 and 90, which means drugs may not clear the body as quickly. For example, a dose of a muscle relaxant that might work fine in a young man or woman might so relax an older woman that she ''elax an older woman that sh

In addition, liver function may be impaired with age, brain cells change in sensitivity, muscle tissue declines and fat accumulates, Sullivan said.

''Because of these changes, physicians need to be provided with any pertinent information that's available about the drugs they prescribe for senior patients,'' he said.

Under the FDA proposal, that information would be included in drug labeling instructions to doctors.

Assistant Secretary for Health James Mason said the proposed requirement would complement guidelines on drug testing in the elderly issued by FDA in March. ''The guidelines are intended to encourage drug manufacturers to carry out thorough evaluations of the effects of drugs in elderly populations,'' he said.

There is a 60-day period of public comment on the latest proposal, which was published last week in the Federal Register. Drug manufacturers would have one year after publication of a final rule to update drug labeling.

-30- 1870

#90309u1267 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - Strikers at the Daily News redoubled their efforts Monday to discourage advertisers as the nation's biggest tabloid continued publication in the face of sporadic incidents of violence.

A management spokesman, Lisa Robinson, insisted that the News was ''still successful at getting the newspaper on the street'' in the 12th day of the strike, but few midtown Manhattan newsstands were offering it for sale and there were reports of continued giveaways of the paper.

''We are approaching out normal daily distribution despite continuing violence

in and hope to attain it shortly,'' Robinson said.

Larry Hackett, a spokesman for striking Newspaper Guild members, said a union survey of midtown found no papers on sale anywhere.

''We've doubled the pressure on advertisers to get them to pull their ads from the News and we're going to continue that pressure until it is effective,'' Hackett said.

The Guild scheduled a general membership meeting to discuss the walkout at the Roosevelt Hotel at 7:30 p.m. It announced that a prominent News staffer, sportswriter Harvey Araton, who had returned to work last week, has rejoined the picket line.

And despite calls from management and some union members to end the violence, police continued to report additional arrests, with two men picked up Sunday for vandalizing a News building on Long Island, police said.

Nassau County police said they arrested the two for ripping radio transmission wires off the side of a News building at 813 Jericho Turnpike in New Hyde Park early Sunday morning.

The strike has been marked from the start with violence, from delivery trucks being set afire on the night before the strike began to the firebombing of a Queens newsstand Friday. No arrests were made in the firebombing incident.

The News announced Saturday it would offer rewards ranging from $500 to $5,000 for help leading to the arrests or convictions in documented cases of ''events perpetrated by union members.''

-30- 2212

#90309u1279 11/05/1990 ~United Press International

(NOV. 5) UPI - World oil prices declined in early trading Monday on news of anticipated falling demand and rising output by the OPEC cartel as the market focused on supply-demand fundamentals instead of possible war in the Middle East.

On the New York Mercantile Exchange, the benchmark West Texas Intermediate for December delivery was down 65 cents to $33.35 a barrel, after selling for as low as $32.20 a barrel.

Joe Miller of Shearson Lehman Hutton's International Energy Desk in New York said prices were down because of an interview in Sunday's New York Times with Saudi Oil Minister Hisham Nazer as well as the expectation of declining demand.

''There's no war and there's a perception that there won't be one at least this week,'' the trader said.

''The market's concentrating today on (supply-demand) fundamentals,'' echoed Peter Beutel of Pegasus Econometrics Group, Hoboken, N.J.

In his interview in the New York Times, Nazer was reported as saying Saudi production was now running at 8.2 million barrels a day and was expected to rise to 8.5 million barrels daily by early next year.

This would be almost 3 million barrels higher than the Saudi's 5.6 million-barrel-a-day output prior to Iraq's Aug. 2 invasion of Kuwait and would largely make up for the 4.2 million barrels lost daily to world markets by the U.N. embargo of Iraqi and Kuwaiti crude.

Saudi Arabia is the world's biggest exporter of crude oil and the largest producer of the Organization of Petroleum Exporting Countries.

The authoritative Nicosia, Cyprus-based Middle East Economic Survey also reported Monday that soaring crude prices from the Persian Gulf crisis are expected to cut demand for OPEC oil about 1.7 million barrels daily during the first half of next year.

On the Merc, home heating oil for December delivery was down 0.52 cent to 86.90 cents a gallon, while December unleaded gasoline was up 0.54 cent to 89.75 cents a gallon.

Miller said gasoline was showing some strength because of an explosion Sunday night that temporarily shut down a Mobil Corp. refinery at Chalmette, La., near New Orleans.

Mobil spokesman John Lord said the refinery, which has a daily output of 160,000 barrels a day, was gradually being brought back into production Monday with the exception of the 18,000 barrel-daily hydrocracker unit, where the explosion occured.

Lord could not say to what extent gasoline production would be affected. But he added, ''We don't expect any problems in supplying our customers.''

Fear that gasoline output might be affected was sufficient, however, to prompt some traders to cover short positions previously taken in anticipation of lower prices, Miller said.

On the European spot market, where crude is bought and sold for cash, Britain's widely traded North Sea Brent was down $1.05 at midday to $33.60 a barrel.

United Arab Emirates' Dubai Light - the key OPEC crude from the Middle East shipped mainly to the Far East - had lost $1 to $28.40 a barrel.

#90309u1301 11/05/1990 ~United Press International
BRUSSELS, Belgium (NOV. 5) UPI - European Community ministers, meeting for the seventh time in five weeks, were warned Monday that world trade talks could collapse unless they immediately adopted a plan to cut farm subsidies.

The EC Executive Commission proposed a three-part declaration that offered something for everyone, in hopes of finally reaching agreement after weeks of disarray.

''The trade talks must not be allowed to fail, but if we don't decide we will be responsible for this failure,'' said Italian Trade Minister Renato Ruggiero who chaired the meeting expected to last well into the night.

''The time is up and we have to make a decision today,'' he told a joint meeting of EC agriculture and trade ministers, who failed in a marathon 16-hour meeting on Oct. 26 to reach a compromise.

The 12-nation Community missed an Oct. 15 deadline for submitting its proposal to Geneva talks on the General Agreement on Tariffs and Trade, as six prior EC ministerial meetings ended in deadlock.

The Uruguay Round of GATT talks, which began in that country in 1986, are due to end in Brussels on Dec. 7.

France and Germany have bitterly objected to a proposal by the EC Commission to reduce subsidies by 30 percent in the decade ending in 1996.

A new Commission declaration, unveiled at Monday's meeting, calls for EC farmers to receive other compensations to make up for the cut in subsidies. They include French-sought preference for EC products, a set- aside program for non-food use favored by Germany and aid to ''less- favored'' regions in the Mediterranean.

Ray MacSharry, the EC agriculture commissioner, said the Commission proposal was ''a substantial offer, not a minimalist offer'' as described in some reports.

The proposed 30 percent reduction falls far short, however, of the U.S. proposal to slash farm supports by 75 percent by the year 2000, including cuts of 90 percent in market-distorting export subsidies.

The U.S. proposal is backed by the Cairns Group of agriculture producers, which includes Argentina, Australia and New Zealand.

Ruggiero has toured EC countries in the past week for bilateral talks aimed at finding a compromise, but officials said no radically different positions were

presented.

''Everyone has to approach the negotiations with the spirit of compromise,'' he told the meeting. ''The failure of the Uruguay Round will be to the advantage of those who support protectionism in the world.''

-30- 2668

#90309u1305 11/05/1990 ~United Press International

(NOV. 5) UPI - The Defense Department reportedly plans to call up major combat units from the reserves in the next few months to join the anti-Iraqi military buildup in the Persian Gulf. The New York Times quotes Pentagon officials as saying the reservists could be on the front lines by early next year. The paper says the reservists are expected to be among as many as 100-thousand additional troops that the Defense Department has said it will send to the gulf area in coming weeks.

Secretary of State Baker says the crisis in the Persian Gulf is entering ''a new phase'' and the United States must be ready ''to exercise any options'' to settle the conflict. Baker made the comments today after meeting with Kuwait's exiled Emir in Saudi Arabia. Baker is expected to meet with Saudi King Fahd later today, reportedly to ask Fahd's permission to launch a military strike against Iraq if necessary.

In Dallas, more damaging testimony was heard today in the fraud trial of former Vernon Savings and Loan owner Don Dixon. A former financial officer for the defunct thrift says he was ordered to disguise payments for prostitutes as Christmas bonus checks written with taxpayer- guaranteed funds. Garrison Roth testified that he once paid 300-dollars each for eight girls to accompany a group of Vernon executives on a boat ride for eight hours. Dixon's thrift failed in 1987 at a loss of one- point-three-BILLION dollars.

The Food and Drug Administration is proposing requiring drug makers to warn doctors about possible side effects of prescription drugs in older people. The proposed change was announced by Health and Human Services Secretary Louis Sullivan. Sullivan noted that as people age they undergo physical changes that may make them more prone to drug- related side effects than a younger person. Under the F-D-A proposal, information about side effects in the elderly would be included in drug labeling instructions to doctors.

A ''snapshot'' survey by rescue mission workers shows that more and more young people are joining the ranks of the nation's homeless, with more than half of the homeless now under age 35. The International Union of Gospel Missions survey also shattered the stereotype of homeless people being drifters. It says more than 60 percent of nearly 20- thousand homeless people staying in inner-city rescue missions in the United States and Canada on October 12th, were local residents.

Jesse Jackson is set to win election to public office for the first time. Jackson is certain to be elected to one of two so-called ''shadow senator'' posts for the District of Columbia. The mission of the two ''shadow senators'' will be to act as super lobbyists for statehood for the District of Columbia.

-30- 2923

#90309u1348 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Yields declined on 13-week and 26-week T-bills Monday at the government's weekly auction.

The Treasury Department auctioned $9.839 billion of 13-week bills at an average discount of 7.07 percent, down from 7.12 percent last week and the lowest since Aug. 15, 1988, when the auction yielded 7.05 percent.

The Treasury also sold $9.818 billion of 26-week bills at an average of 7.05 percent, down from 7.13 percent last week and the lowest since July 11, 1988, when the yield stood at 6.99 percent.

The investment rate was 7.30 percent on the 13-week bills at an average price of $9,821.30 per $10,000 face value. The rate on the 26- week bill was 7.41 percent at $9,643.60.

#90309u1370 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Eight Republican members of the House are fighting for election to the Senate in Tuesday's midterm elections. The winners get a pay cut and the losers go on the breadline.

The Republicans, all of whom had safe seats, not only took a political risk in taking on entrenched Senate incumbents but, probably to their chagrin, the the prospect of a sizable cut in pay, even if they win.

The House, in 1989, voted for a large pay raise that takes the pay of their members from $96,600 to $124,600 on Jan. 1.

But terrified of the political fallout, the Senate only voted cost- of-living increases, bringing the salaries of its members to $104,600 starting the first of next year.

Three of the Republicans abandoned their seats to run for open seats in New Hampshire, Colorado and Idaho where the incumbents, also Republicans, did not seek re-election.

Rep. Hank Brown, R-Colo., and Rep. Larry Craig, R-Idaho are heavy favorites to make it to the Senate and gulp their $20,000 cut in pay.

But Rep. Robert Smith, R-N.H., appears to be in a fight against former Sen. John Durkin, who is waging an aggresive campaign in the one of the country's most Republican states.

Rep. Patricia Saiki, R-Hawaii, is in a close race against Sen. Daniel Akaka, D-Hawaii, and could make the move accross the Capitol.

Ironically, Akaka, then a member of the House, gave up his chances at the pay raise when he was appointed to the Senate last summer to replace the late Sen. Spark Matsunaga, also a Democrat.

If Matsunaga, who had two years to go on his term had lived, both Saiki and Akaka would be assured of more money next year. Now, the best they can hope for is the $101,400 Senate salary.

And Rep. Tom Tauke, R-Iowa., remains within striking distance of Sen. Tom Harkin, D-Iowa, in the Hawkeye state.

But the three other Republicans, if the polls are on target, should be making out their resumes.

Reps. Lynn Martin, R-Ill., Claudine Schneider, R-R.I., and Bill Schuette, R-Mich., are given little, if any chance, of unseating Sens. Paul Simon, D-Ill., Claiborne Pell, D-R.I., and Carl Levin, D-Mich.

Two other Republican members of the House, Republican John Rowland and Democrat Bruce Morrison, are both running for governor in Connecticutt and neither probably will win. Former Sen. Lloyd Weicker, a liberal Republican running as an independent, has held a steady lead.

If either Rowland or Morrison slip by Weicker, they will begin earning on Inauguration Day, $78,000 a year.

Democratic Rep. Joseph Brennan who was governor once before, is trying to get back in the governor's mansion in Maine, although that post pays a miserly $70,000.

Although the pay scale for the governors is on the low side, in almost all cases the perks are better than those in Congress and include a governor's mansion and staff.

Sen. Pete Wilson, R-Calif., has the best of all worlds. He is running for governor of California against former Mayor Diane Feinstein of San Francisco and has job security, win or lose.

If Wilson is elected governor, he will draw at least the current $85, 000. But a pay commission is going to set a new salary scale for state employees and

the governor's salary is sure to go up.

And if Wilson loses, he can return to the Senate. Two more years remain on his six-year term.

#90309u1378 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Education Secretary Lauro Cavazos smiled gently and wore a look of intense envy when his Swedish counterpart, Goran Persson, said his country had licked illiteracy.

But Cavazos's eyes began to roll when Persson mentioned that a national curriculum is part of the package deal under Sweden's Democratic Socialist form of government.

The idea of a national curriculum appeared to be an anathema to Cavazos, noting that in the United States, 16,000 different school boards make curriculum decisions, not the Education Department.

''I do not envy you,'' Persson said, shaking his head in amazement.

Cavazos and Persson met in Washington last week to compare notes on education and discuss the Nov. 13-14 meeting of the Organization for Economic Cooperation and Development's education committee. Ministers or deputy ministers of the 24 participating OECD countries will meet in Paris to discuss improving the quality of education and training.

The nations are Australia, Austria, Belgium, Canada, Denmark, Germany, Finland France, Greece, Iceland, Ireland, Italy, Japan, Luxembourg, Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. Yugoslavia will participate as a ''special status'' country.

After their private session, Cavazos and Persson told reporters that while their respective countries have different types of educational systems, they both suffer an estimated 20 percent drop-out rate. They hope to get ideas on solving that problem at the meeting.

''The international consensus on the need to improve quality and access for all children, and particularly those who are most at risk for educational failure, precisely mirrors the determination expressed in our national educational goals that all or children will receive an outstanding education '' Cavazos said.

When asked if the U.S. educational goals, which President Bush announced last year, can be achieved, Persson said diplomatically, ''The most important thing is that you set the goals.''

#90309u1380 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The National Oceanic and Atmospheric Administration has sent a letter of warning to a Gulfport, Miss., firm for allowing Miss Teen U.S.A. contestants to frolic with captive dolphins.

The NOAA warning was contained in a letter dated Nov. 1 to Marinelife Oceanarium in Gulfport, charging it with violating the Marine Mammal Protection Act by letting Miss Teen U.S.A. pageant contestants swim with captive dolphins.

The letter said that on July 2, 1990, ''several contestants in the Miss Teen U.S.A. beauty pageant visited Marine Life Oceanarium, Gulfport, Miss., in order to participate in a video taping of activities involving interactions between the contestants and dolphins.''

The letter said the tape showed ''several of the contestants in the water feeding a dolphin (or dolphins) and repeatedly riding on the dolphin(s) by holding onto the animal's dorsal fin.''

The agency said Marine Life Oceanarium's permits ''do not include the activities involving swimming and other physical interaction between the visiting pageant contestants and the dolphins of the sort that took place on July 2, 1990.''

The violations, NOAA said, ''are subject to a variety of penalties, including monetary penalties. However, after reviewing the facts and circumstances of this case, I find that a written warning, which carries with it no monetary penalty, is a sufficient sanction. This letter, however, serves as a warning that a violation has been documented and that a future violation may be dealt with more severely.''

Only four facilities in the United States have permits that allow humans to swim with captive dolphins. Three of them are in the Florida Keys and the other is in Hawaii.

''Only four facilities hold permits allowing swim-with-the-dolphin activities under an experimental program, and we will not tolerate abuses by permit holders who beyond the purview of their existing permits,'' said William W. Fox Jr., assistant administrator of NOAA's National Marine Fisheries Service. ''Violators will incur not only warnings, but fines, penalties, and possible revocation of permits allowing them to hold captive animals for public display.''

NOAA, under the Marine Mammal Protection Act, is responsible for ensuring the overall well-being of marine mammals in U.S. waters.

NOAA spokesman Roddy Moscoso said the first permit allowing swimming with dolphins was issued on an experimental basis in 1985.

The permits were to have expired April 30, 1990, but were extended to Dec. 31, 1991, still under experimental conditions. At the time NOAA said ''no new permits, however, will be issued to other locations at this time, and no additional dolphins may be captured for use in these programs.''

The National Marine Fisheries Service has said it had received ''no physical evidence that the dolphins involved in the programs have suffered more health problems than dolphins, which are used for public display in aquaria habitats.''

While NOAA decided to allow the programs to continue, it also announced that the NMFS also intended to strengthen its monitoring of the programs and strictly enforce new conditions to the existing permits. Under the new conditions, dolphins are to be provided additional rest periods, increased security, and a means of escape from the swimming public. Potential health risks to the general public are ''blic are

Moscoso said concerns about the swim-with-the-dolphins program include transfer of disease from humans to the dolphins and social and behavioral changes in the dolphins that would cause them to become more trusting of humans, increasing their risk of injury.

#90309u1389 11/05/1990 ~United Press International

LONDON (NOV. 5) UPI - The wives of 10 British hostages said Monday they will travel to Baghdad this week to try and plead with Iraqi President Saddam Hussein for the release of their husbands.

One politician advised them to ''keep a stiff upper lip'' and not to becomeemotional.

Baghdad last week said relatives of all hostages could travel to Iraq to visit their loved ones. The announcement prompted fierce objections from the Foreign Office over Iraq's strategy of keeping civilians as human shields against possible attack by a 300,000-member multi-national military force assembled in Saudi Arabia.

But the wives of 10 British hostages said they planned to accept the offer of Iraqi visas and travel on Thursday to Baghdad, where they hoped to meet Saddam and secure the freedom of their husbands.

''We don't have anything to negotiate,'' Dorothy Goodwin said at a news conference. ''We are not politicians or diplomats. We are purely wives of

hostages who are going out there. We hope that if we have an interview with the president on humanitarian grounds, he may allow us to bring our husbands home.''

But Sir John Stokes, a senior parliamentarian from the ruling Conservative Party, advised the women to ''do their crying in private,'' and warned that the visit would undermine the international front created against Iraq for its Aug. 2 invasion of Kuwait.

''I think they are going over the top,'' he said. ''I think they should have complained privately by letter ... and not by emotionalism on the box (TV).''

''We in this country are known for our stiff upper lip and this is what they should show,'' the politician said.

#90309u1422 11/05/1990 ~United Press International

CAPE CANAVERAL, FL (NOV. 5) UPI - A small amount of cocaine found in a space shuttle hangar likely belonged to an individual and does not indicate a widespread drug problem at the Kennedy Space Center, a top NASA official said Monday.

Forrest McCartney, director of the Kennedy Space Center, told reporters there is no evidence drugs were involved in any of a number of embarrassing mishaps and accidents at the spaceport earlier this year.

''It's been suggested perhaps that could have been involved in some of the incidents we've had,'' McCartney said. ''We have not found that and in analyzing each one of those instances, we have not found a common thread that would cause you to think that.

''I don't see any evidence whatsoever that links drugs to the incidents or accidents that we've had.''

In the meantime, engineers at launch pads 39A and 39B are pressing on with plans to launch the shuttle Atlantis around Nov. 16 and its sistership Columbia just two weeks later around Nov. 30.

Atlantis had been scheduled for takeoff Friday night, but problems with the ship's secret spy satellite payload forced Air Force mission managers to order a delay. While McCartney would not discuss the progress of work to repair the payload, he said the spaceplane should be ready for launch next week.

''The 16th, give or take a day or so, is the best guess now. That's a reasonable planning time,'' he said. ''I'm not speaking for the Department of Defense. But if you were to ask me what's a good planning date now ... I think the middle of the month is reasonable to assume.''

As for Columbia, an internal NASA rule calls for three weeks between shuttle missions so data from one flight can be studied before launching the next. McCartney said agency managers are studying ways to reduce the time needed for a post-flight assessment of Atlantis's mission in order to launch Columbia around the end of the month.

''We'd like very much to fly (Columbia), get it down and get it home before Christmas,'' he said. ''But we're not going to waive any of the looking, what we look at'' between missions.

As for drug use at the space center, a small packet of cocaine containing about 1 gram of the drug - about .04 ounces - was discovered Friday morning in Orbiter Processing Facility No. 1 where the space shuttle Discovery is being serviced after a mission last month.

McCartney said an alert individual spotted the drug under a desk in the OPF and called security personnel.

It was ''a very small amount,'' McCartney said, and ''it was very clear that it belonged to perhaps an individual rather than some ... big operation. I think when we get down to it, what we'll find is that unfortunately, some individual has a habit.''

The cocaine discovery was the latest in a series of embarrassing incidents at the Kennedy Space Center. The most recent accident involved a 9-foot-long, 70-pound beam that fell in the shuttle Atlantis's engine room as the ship was being hoisted into the vertical launch position.

The beam was part of an access platform that was accidentally left inside the shuttle's engine compartment. Atlantis did not suffer any manager damage and McCartney said drug use at the spaceport did not appear to be a factor in any of the incidents.

''We have 20,000 people working here,'' he said. ''Drugs are a problem for society today (and) we are very sensitive to that problem. This has every appearance to be, unfortunately, someone has a drug problem. That's regrettable.

''Certainly, you'd like to be sure that all the folks who are doing any work on flight hardware are in full command of themselves so it does concern me. On the other hand, it's not unexpected. It would be naive to think that with as many thousands of people as we have here that there aren't some people who have that problem.''

He said security personnel would continue an investigation into the cocaine seized Friday ''to try to determine who was involved in it. Hopefully, we'll be able to find the individual who was involved and offer some assistance.''

LANNEMEZAN, FRANCE (NOV. 5) UPI - Four prisoners flew to freedom aboard a helicopter Monday in a daring escape from a penitentiary in the rugged French Pyrenees after an accomplice took the pilot hostage, police said.

They identified two of the four who escaped from the Lannemezan central the Hautes pyrenees as Frederic Boulay and Gislain Gilbert, who took part in another prison escape in December 1989 but later were re- captured.

The last such escape attempt by helicopter in France happened last June 20, when two armed men hijacked a chopper at the airport of Cannes- Mandelieu and flew over the main penitentiary at Nice.

#90309u1433 11/05/1990 ~United Press International

CHICAGO (NOV. 5) UPI - Soybeans were sharply lower at the close Monday on the Chicago Board of Trade. Corn was slightly higher, wheat was slightly lower and oats were narrowly mixed.

Light commercial buying supported futures but a round of professional selling took the November and January bean contracts to their lowest level since last fall and set new lows for the September and November 1991 contracts. The November through July contracts suffered double- digit losses.

Traders said ideas that the USDA will increase its soybean crop estimate on Thursday - with demand remaining nothing exceptional - pressured prices. Beans also were pressured by lower prices for soybean oil and meal, and the lack of trading on European markets.

Corn prices got some support from lack of farmer selling and expectations of a USDA report calling for a slightly lower corn production estimate. Trading in corn was choppy.

The negative action affecting beans, spilled over to wheat to trim gains that had been made.

At the close, corn was up 1/2 to 2, beans were off 3 1/2 to 12 1/4, wheat was off 1/2 to 1 1/2 and oats were up 1/4 to off 1/2.

-30- 1307

#90309u1437 11/05/1990 ~United Press International

NEWARK, NJ (NOV. 5) UPI - A U.S. District Court judge ruled Monday there is no evidence to link the National Republican Committee to a controversial so-called voter security project in a tight U.S. Senate race in North Carolina.

Judge Dickinson Debevoise ruled the national party is not involved in the program sponsored by the North Carolina GOP, which mailed 150,000

official-looking postcards to predominantly minority Democratic precints, which warned voters of the penalties of committing voter fraud.

''I concluded that the kind of program in North Carolina that is taking place appears to be the kind of activity that violates (the 1982) consent decree, but I concluded that the national party did not participate in the program,'' Debevoise said.

Under the consent decree supervised by Debevoise and reaffirmed in 1986, the Republican party agreed to refrain from running such programs if they would discourage minorities from voting.

''Had (the North Carolina GOP) been subject to the agreement, the ballot security project would have violated it but they are not a party to it,'' the judge said. ''I only have jurisidiction over the national committee.''

Arch-conservative Republican incumbent Jesse Helms is locked in a fierce re-election battle with Democrat Harvey Gantt, who is seeking to be the first black elected to the Senate from the South since Reconstruction.

Democrats have charged the voter security effort is designed to frighten minorities into staying away from the polls on Election Day.

The cards read, in part, that it is a federal crime ''to knowingly give false information abut your name, residence or period of residence to an Election Official.''

''This is a clear victory for the RNC. What the judge did today was stop a fishing expedition,'' said Tom Kirby, an attorney for the GOP. ''There was no indication that we were involved in North Carolina.''

Ben Ginsberg, a second attorney for the Republicans, added that the DNC ''has made broad allegations (but) the judge confirmed there is no evidence we have engaged in the activity.''

''If there was some great, dark plot by the Republicans, (the Democrats) have no proof it exists,'' Ginsberg added.

Bob Bauer, a spokesman for the DNC, said he was satisfied the hearing put the GOP on notice the party is carefully observing the Helms-Gantt race.

''We will be looking for minority disenfranchisement in every county in North Carolina,'' he said. ''If we find out on Election Day there are poisoned fruits of this mailing, we will be back here in court at top speed.''

#90309u1444 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - Glamour magazine Monday named its 10 women of the year, ranging from the leader of the Chinese students' democracy movement to Madonna.

The magazines' annual award hailed the women ''who lit up the year with their daring, enterprise and vision.''

Chai Ling, a former student at Beijing Normal University, who fled China after the Tiananmen Square massacre last year, was honored ''for her leading role in China's democracy movement.''

Madonna was praised ''for personifying women's power of self- determination.''
The other winners:

- Sen. Barbara Mikulski, D-Md., ''For waking up the Senate to women's health problems.''

- Sarah Brady, wife of White House aide James Brady who was shot in an assassination attempt on President Reagan, ''For working to reduce the handgun epidemic in the U.S.''

- Marian Wright Edelman, founder and president of the Children's Defense Fund, ''For making child care a front-rank issue in the U.S.''

- Wendy Kopp, founder of the non-profit organization, ''Teach for America,'' ''For her imaginative program to bring top students into teaching.''

- Tennis champ Chris Evert, chairwoman of ''Clean Start,'' a Florida- based program that helps inform young pregnant women about the dangers of drug use, ''For refusing to rest on her laurels.''

- Elizabeth Glaser, wife of actor Paul Michael who has been a leading fund-raiser and lobbyist in the fight against AIDS, ''For her all-out fight to fund AIDS research.''

- Rep. Patricia Schroeder, D-Colo., ''For highlighting women's health care equity.''

- TV personality Jane Pauley, ''For extraordinary grace under pressure.''

#90309u1449 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - While Tuesday is nail-biting time for many candidates, 45 members of Congress can relax - they have no major party opposition.

The lack of competition, however, did not keep the office holders from raising

hundreds of thousands of dollars in campaign contributions.

The list includes 41 members of the House and four senators. In addition, Sen. J. Bennett Johnston, D-La., has already won re-election under the Louisiana system whereby a majority winner in the primary automatically gets the seat.

Two Democrats and two Republican senators face no major party opposition: San Nunn, D-Ga., David Pryor, D-Ark., Thad Cochran, R-Miss., and John Warner, R-Va.

Nunn, often mentioned as a potential Democratic candidate for president in 1992, raised more than $1.9 million despite being unopposed.

Warner raised more than $1.6 million and Cochran and Pryor both raised more than $1.2 million.

The unopposed House members include some of the biggest names in that chamber.

Rep. Bob Michel, R-Ill., the House Republican leader, and Rep. Dan Rostenkowski, D-Ill., were so solid that no one would run against them.

Other major names included Kika de la Garza, D-Texas, chairman of the House Agriculture Committee; Henry Gonzalez, D-Texas, chairman of the House Banking Committee; and Jim Leach, R-Iowa, one of the leaders of the House GOP moderates.

Nearly half of the Texas delegation - 13 out of 27 seats - were unopposed, the largest number of any state.

In addition to del la Garza and Gonzalez, they included Democrats Ralph Hall, Craig Washington, Mike Andrews, Ron Coleman, Solomon Ortiz, Marvin Frost and Charles Stenholm and Republicans Jack Fields, Steve Bartlett, Larry Combest and Bill Archer.

Earlier this fall, Massachusetts voters participated in heavy anti- incumbent, ''throw the rascals out'' style primaries. But chances of doing so Tuesday are much weaker since four of their 11 congressmen are unopposed.

The four Democrats are Joe Early, Ed Markey, Joe Moakley and Brian Donnelly.

Like their Senate counterparts, the unopposed House candidates still have been out raising hundreds of thousands of dollars even without serious opposition.

At least six of they have raised a half million dollars each - Washington, Bartlett, Michel, Frost, Bob Roe, D-N.J., and Larry Smith, D-Fla. - with Markey and Andrews not far behind.

(NOV. 5) UPI - The exiled Emir of Kuwait is calling for swift military action to end Iraq's occupation of his country. The emir told reporters after meeting with Secretary of State Baker in Saudi Arabia that he wants Kuwait freed ''today and NOT tomorrow.'' Baker is in Saudi Arabia to discuss with Arab leaders a possible military strike against Baghdad.

While Baker discussed military options, the troop buildup in the region continued with the sending of more Syrian armored formations to Saudi Arabia. Egypt also pledged to deploy more tanks and jet fighters in the region. And the New York Times reports the Pentagon will call up thousands of combat reserves to join Operation Desert Shield.

President Bush is spending the day campaigning for Republican candidates in his adopted home state of Texas... winding up the 1990 campaign season. Bush spoke to a flag-waving crowd of a few thousand people at Tyler Junior College in East Texas during an appearance on behalf of gubernatorial candidate Clayton Williams. He'll also address rallies in Waco and Houston.

Mount St. Helens rumbled to life early today. But scientists at the U-S Geological Survey characterize the unexpected eruption as ''relatively minor.'' The volcano in southwest Washington state shook violently and spewed ash 30-thousand feet into the air. The mountain blew its top in 1980, killing 59 people.

A top NASA official says there's NO indication that drug use is widespread at the Kennedy Space Center. Forrest McCartney, director of the Kennedy Space Center, told reporters today that a small amount of cocaine found in a space shuttle hangar Friday likely belonged to one individual. It was the latest in

a series of embarrassing incidents at the spaceport.

Thousands of high school students marched on the National Assembly in Paris today to protest conditions in schools. Police say about 20- thousand students from the capital and the Paris region took part in the protests. Organizers put the figure at 40-thousand. Up to 100-thousand students took part in similar protests elsewhere in France.

In South Africa, a fifth day of sporadic fighting in a black township west of Johannesburg has left at least 19 dead. Most of the victims were stabbed or hacked to death. State-run radio says the violence erupted Thursday when youths clashed over whether to boycott examinations at schools.

A raging bull escaped from Acapulco's bullfighting ring during yesterday's traditional fights and caused several head-on car collisions as it ran down the main boulevard of the posh resort. A Mexico City newspaper reports the bull was chased by more than 100 tourists and locals. Two people were injured. The paper says police shot and killed the charging beast.

#90309u1502 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Secretary of State James Baker Monday fired Felix Bloch, a high-ranking diplomat suspected of illegal contacts with Soviet espionage agents.

It marked the first time the U.S. government has used national security reasons as the grounds for removing a State Department employee.

The ruling by Baker, based on a hearing and a review by a high- ranking board of appeals, means that Bloch's administrative remedies are now exhausted and he must turn to the courts for any possible reversal.

But Bloch, who had been deputy chief of mission at the U.S. Embassy in Vienna, has refused to testify formally about his contacts with Soviet agents. If he were to take an appeal to the courts, he would have to open himself to examination under oath by government prosecuters.

No formal charges have ever been raised against Bloch, but widespread leaks from U.S. government investigators said that he had been in contact with a Soviet agent in Paris and in Vienna, and that he had been photographed handing over a briefcase to the Soviet citizen.

According to the leaks, Bloch was taped telling his wife that he had received money from the Soviets, but the surreptitious tape recording would not have been admissible in any American court.

Bloch, as a member of the Foreign Service, was protected from dismissal from his $80,000-a-year job under normal conditions. But the State Department used the little-known national security provision and Baker, in signing the order, found Bloch's removal ''necessary and advisable in the interest of national security because of his deliberate false statements to the FBI in the course of a national security investigation.''

The dimissal order also cited his ''behavior, activities and associations,'' but those allegations were not made specific in the final order.

Bloch has been suspended from his job since the investigation began last year, but he remained on the payroll until earlier this year when the national security charges were raised.

His dismissal, and termination of salary, became effective at the close of business Monday. His pension, which would eventually be more than $50,000 a year, is not directly affected by the dismissal.

While he was suspended and under investigation, he was followed by teams of FBI agents and, occasionally, television camera crews. Periodically, without exchanging any words with them, he would lead them on ''death marches,'' rapid-paced hikes that would be as long as 22 miles.

The State Department and the FBI have never revealed what information Bloch is accused of turning over to the Soviets, but as a high-ranking official in the Vienna Embassy, he would have had access to the highest levels of top secret

documents, including arms control negotiating position papers.

He would also have been aware of the names of any intelligence agents working under cover in the U.S. Embassy.

Bloch, 55, was born in Austria and had served in Berlin and Vienna as a political and economics officer. In Vienna, he had served under two Reagan administration political appointees, Helene Von Damme and Ronald Lauder, both widely regarded as inexperienced amateurs.

Bloch had occasionally expressed his scorn for them and his frustration of being passed over for higher posts by such political appointees in talks with other diplomats.

He would have been in line for an ambassador's post, but the Reagan administration filled the available spots with political appointees, and Bloch was sidelined to a minor office in the State Department, which kept track of the activities of the European Common Market.

#90309u1504 11/05/1990 ~United Press International

JERUSALEM (NOV. 5) UPI - Defense Minister Moshe Arens said Monday that increased military preparedness in response to the Gulf crisis will cost Israel about $1 billion over a six-month period, Israel Radio reported.

Arens told a meeting of the Israeli-American Chamber of Commerce in Tel Aviv that the Persian Gulf crisis had forced Israel to increase its alertness, make an additional callup of army reserves, and take other special preparations, the radio reported.

''The state of alert that we're in, the preparedness that we have to achieve, I think over a six-month period is probably costing us about a billion dollars '' the defense minister told the radio.

Arens said he was pleased with the U.S. response to his request for more military aid during his recent visit to Washington, but he declined to discuss the matter further.

Israel has repeatedly said it has no plans to become involved in the crisis or strike at any country, but would respond forcefully to any attack.

Israeli army spokesmen have refused as a matter of policy to discuss any measures that have been taken since the Iraqi invasion of Kuwait.

In the Gaza Strip Monday, shots were fired at an Israeli army patrol as more than 150,000 Palestinians were confined to their homes by curfews to prevent a third day of violence.

The Gaza Strip was relatively quiet after two days of widespread violence in which one Arab was killed and more than 220 wounded by army gunfire.

In Shabura neighborhood of Rafah city, shots were fired at a patrol. The soldiers fired back, but did not apprehend the assailants. Security forces put the area under curfew and began combing the area for suspects, military sources said.

No soldiers were wounded in the incident, the third time guns have been used against Israelis in recent weeks in Gaza.

Discussing the disturbances in Gaza, Arens said recent criticism of Israel's handling of demonstrations encourgaged more unrest and vowed Israel would not be influenced directly or indirectly by the violence.

''The hope is that the (violence) will cause reverberations abroad, that it will cause reverberations in the U.N. Security Council ... and that this influence from the outside will affect us,'' he told a meeting of the Israel-American Chamber of Commerce.

#90309u1514 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Existing homes sales slipped nationwide during the third quarter while the median price for a single-family home posted a modest gain, the National Association of Realtors said Monday.

Resales were down or showed no change in 29 states and improved in 19 states and the District of Columbia. Nevada resales posted the greatest gain at 25 percent.

Overall resales slipped 2.5 percent during the quarter to an annualized rate of 3.66 million homes.

Norman Flynn, the association's president, said the overall resale slowdown masked bright spots in some markets, including Nevada, Idaho, South Dakota, Utah and South Carolina. Resales remained sluggish in New England and along the California coast.

''Consumers should not be led to believe that the residential housing market is no longer a good place to make an investment, even though some areas of the country are slow right now,'' Flynn said.

Flynn said the housing market is expected to remain slow through the middle of next year.

In the South, resales increased 1.4 percent from year-earlier levels, although

certain areas, namely those in the oil-patch states, are showing more significant gains. Median prices in the region rose 1.8 percent to $87,200.

Resale activity in Texas gained 8.8 percent while Oklahoma posted a 7.3 percent gain in resales during the quarter. South Carolina posted the region's greatest increase at 12.6 percent.

In the Midwest, resale activity declined by 1 percent from year- earlier levels, although median prices in the region gained 3.6 percent to $75,100.

Sharp drops in resales along the California coast fueled an 8.8 percent decline in resale activity in the West.

Resales in California dropped 18.9 percent during the quarter. Hawaii and Washington posted declines of 14 percent and 14.4 percent, respectively. Median prices fell 5.3 percent from year-ago levels to $138,200.

The Northeast real estate market remained sluggish with resales declining 8.5 percent. Pennsylvania appeared to recovery but local real estate markets along the Boston-New York corridor remained soft. Median prices in the region dropped by 2.7 percent to $143,100.

The association also said the national median price for a single family home increased 1.8 percent during the quarter to $96,600, with Honolulu boasting the country's most expensive residential real estate.

Nationwide, median housing prices ranged from a high of $375,000 in Honolulu to a low of $49,200 in Saginaw, Mich.

Foreign investors continued to heat the Hawaiian real estate market, accounting for a 36.4 percent surge in the annual median price in Honolulu.

Seattle posted the nation's second-highest price increase at 24.9 percent to $144,800, followed by a 24.4 percent increase in Sacramento, Calif., to $144,600.

Homes in less expensive areas of the country posted a greater appreciation during the quarter than did houses in costlier areas. Appreciation was mixed in the West and Northeast but increased steadily in the Midwest and South.

#90309u1543 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The State Department accused the Iraqi government Monday of playing a cruel game of cat and mouse with the lives of innocent hostages.

Spokesman Richard Boucher was referring to a series of telephone calls and

statements from some American hostages in Iraq, some of them reporting humane treatment by their captors, but others reporting appalling hardships and deprivation.

The pattern described by State Department officials appears to be one in which Iraq intends to keep the hostages in the limelight, maintaining their value as bargaining chips in an eventual negotiated solution.

Boucher said that 21 telephone calls were received over the weekend from American hostages.

It appeared, said Boucher, that those hostages were subjected to harsh conditions: ''Consistent with other reports we have received, many detainees said they were losing weight, that the food was poor, and that with the approach of winter they were frequently cold. Others expressed concern that the medication they were using was running out.''

However, other communications from other hostages, including television interviews permitted by the Iraqi authorities, talked of humane treatment and ample food.

The State Department said, ''It was clear from the comments of several of the detainees that the mail we are delivering from the families to the Ministry of Foreign Affairs is not reaching the people held by the Iraqis.''

Boucher said, ''It appears to us that Saddam Hussein has chosen to play games with innocent human lives. We think that if he's genuinely concerned about allowing husbands and fathers to talk to their wives and children he should simply release all the hostages and let them come home.''

Four American citizens were released by Iraq over the weekend and three of them were due to arrive in the United States Monday.

''We know from returning Western hostages that detention conditions vary widely,'' the State Department spokesman said. ''These conditions, as reported by those who have been there and have left, range from acceptable to appalling.''

Iraqi officials have said they would let all the hostages leave if the Iraqi government were given some assurance by permanent members of the United Nations Security Council that there would be no military attack against Iraq.

However, that Iraqi proposal mentioned nothing about withdrawing Iraqi troops from Kuwait first, a consistent demand by U.N. Security Council.

#90309u1571 11/05/1990 ~United Press International

ANCHORAGE, AK (NOV. 5) UPI - Regardless of who wins the race for governor of Alaska, history will be made.

If Democrat Tony Knowles wins, it would be the first time an Eskimo - in the form of Knowles' running mate, Willie Hensley - had won a statewide election.

If Republican Arliss Sturgulewski wins, she would become the first woman to govern the rough-and-tumble, some would say macho, Last Frontier.

But if Wally Hickel is victorious - and all pre-election public opinion polls put him in the lead - he would become the first independent to command the state.

Only three times in U.S. history has a state elected an independent to the governship, according to the National Association of Governors: Oregon in 1931 North Dakota in 1937 and Maine in 1975.

This year, two states, Connecticut and Alaska, may elect independents. Lowell Weicker Jr., stands a good chance of beating the two major party candidates in Connecticut, just as Hickel does in Alaska.

But in Alaska pollsters have a tough time accurately assessing the political pulse in remote areas because there are few telephones in many bush

communities.

Hensley said he is confident that those communities - which he said can deliver 50,000 votes or one-sixth of the state's registered voters - would vote so overwhelmingly Democrat that his ticket can win.

''There are a significant number of votes out there,'' Hensley said, acknowledging, however, that the ''bush is becoming more independent.''

Native support for the Democrats, which is not unanimous, still offers only minority support. Together, Eskimos, Indians and Aleuts make up about 16 percent of Alaska's population.

Another factor in the race is gender. Sturgulewski, who has made an issue of her abortion rights stance - despite opposition from her own party on that issue - has openly sought women's support.

But Knowles also supports abortion rights and has been trying hard to lure women away from Sturgulewski.

In a bizarre endorsement that may reflect some of the political divisiveness among moderate and liberal women, the Alaska Women's Political Caucus has endorsed Sturgulewski, the Republican, for governor, and Democrat Hensley for lieutenant governor - an impossible ticket.

That would be like having endorsed Republican George Bush for president and Democrat Lloyd Bentsen for vice president.

The women's caucus made its endorsements prior to the open August primary, when voters could choose any candidate of any party for any office, but the impossible Sturgulewski-Hensley endorsement has been displayed in recent caucus political endorsement ads.

Hickel, a long-time Republican, entered the race late, just six weeks ago, on the Alaskan Independence Party ticket. Hickel said he does not support the party's call for independence - separation from the United States - but was using the fringe party as a vehicle to run on a conservative platform against a moderate and a liberal that he said left many voters no candidate.

Only 4,588 Alaskans registered to vote as members of the Alaskan Independence Party. But party means next to nothing in Alaska. Out of 300,463 registered voters in the state, Republicans can claim only 63, 131, and only 57,974 voters registered as Democrats. A whopping 168,726 - more than Republicans and Democrats together - refused to be identified with any party when they registered.

Hickel, 71, was elected governor of Alaska in 1966 - his only election victory - but quit two years later to become President Nixon's Secretary of Interior.

Two years after that, Nixon fired him. For the past decade, Hickel has been pushing for construction of an $11 billion trans-Alaska natural gas pipeline.

Knowles, 47, served two terms as mayor of Anchorage. Hensley, 49, is an Eskimo leader who has served in the state senate.

Sturgulewski, 63, is a state senator. Her running mate had been Jack Coghill, 65, an arch-conservative state senator who left the ticket to run with Hickel. James Campbell, 58, a businessman, then became Sturgulewski's running mate.

All three gubernatorial candidates, Hickel, Knowles and Sturgulewski, are residents of Anchorage, where half the state's population lives. Each campaign has spent about $1 million; Hickel and Sturgulewski are both millionaires and most of his Hickel's campaign money has been his own.

Various polls show Hickel ahead, with 35 percent of the vote. Knowles and Sturgulewski each have about 30 percent.

A fourth candidate, Green Party candidate Jim Sykes, was seeking to get 3 percent of the vote, the minimum required to have the state recognize his environmentalist party as an official party with an automatic slot on future ballots.

Democratic Gov. Steve Cowper is retiring after one term.

NEW YORK (NOV. 5) UPI - Eight people were under arrest Monday in a fatal Halloween rampage by a masked gang that shouted ''trick or treat'' before attacking homeless people on a desolate island off Manhattan.

The defendants made incriminating videotaped statements placing themselves at the scene of the brutal crime and pinning the actual killing on an 18-year-old male, whose name was not immediately released, said a police source.

That 18-year-old defendant, who was arrested early Monday, also made a videotaped statement about killing on Wards Island, the source said.

''They put themselves there, but they never actually do the killing. Everybody puts it on him,'' the source said.

A ninth youth was being sought in the attack by assailants who wore Halloween masks, wielded a meat cleaver, vacuum cleaner parts and broken bottles and shouted ''trick or treat'' before setting upon their victims.

Many of the victims lived in the Charles H. Gay Men's Shelter on Wards Island, and police say the attackers went after homeless men as they crossed the pedestrian bridge from Manhattan.

They are accused in the death of Carlos Melendez, 25, who apparently tried to fend off the attackers in the woods on the Wards Island side of the bridge. Melendez had been walking along a path toward the shelter when he was attacked.

Police charged the following with two counts of second-degree murder and one count of riot: Robert Sherman, 23, Hector Torres, 15, Aaron Ware, 13, John Morano, 16, and Raymond Fenner, 22.

They are charged with murder under the theories of intentional killing and displaying a depraved indifference to human life.

Eric Williams, 15, whose address was unknown, was charged with first- degree attempted assault and second-degree assault in a separate attack on Wards Island.

The names of the other defendants were not immediately available. They were expected to be arraigned late Monday at Manhattan Criminal Court.

Police said one of the suspects wore the mask of Freddy Kruger, the character in the ''Nightmare on Elm Street'' movies. Another wore a hockey mask, the symbol of the character Jason from the horror film ''Friday the 13th.''

#90309u1605 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - Standard & Poor's Corp. downgraded senior debt of Citicorp Monday to A-plus from AA-minus Monday, the second such demotion the No. 1 U.S. bank holding company has sustained in seven months, but conceded the company continues to maintain "substantial strengths." About $22 billion in debt and preferred stock issued by Citicorp and various domestic and overseas subsidiaries was affected.

The agency also lowered its estimate of the safety of certificates of deposit and letter of credit-backed issues of Citibank N.A., Citibank (North Dakota) and other banking units, and Citicorp commercial paper.

S&P's echoed currently widespread concerns about deterioration of Citicorp's asset base - particularly loans made on commercial real estate and highly leveraged corporate transactions. The agency said it considered Citicorp's

provisions against possible loan losses to be on the low side.

"The lower ratings reflect S&P's expectation that asset quality will continue to deteriorate, albeit at a slower pace than that of the past year," S&P's said. "The problems should continue to be concentrated in the real estate and highly leveraged transaction lending areas.

"At the same time, the company has maintained an aggressive philosophy on capital and reserves that has kept those ratios low by industry standards. In an increasingly difficult business environment, earnings are also likely to remain depressed by heavy provisions for loan losses."

Citicorp had third-quarter profits of $221 million, off 38 percent from the year-ago quarter, allocating $640 million to cover loan losses. In the period, nonperforming commercial assets rose $1.1 billion to $9.2 billion.

Citicorp spokesman John Maloney, in a prepared statement, said bank officers were "disapppointed with the one-notch downgrade." He said holding company and bank debt "continues at high investment grade."

Acknowledging S&P's concern about Citicorp's commercial real estate holdings, Maloney said such loans were "a relatively low six percent of assets." He noted in addition that only ten percent of Citicorp's funding came from capital and money markets, vs. 65 percent from mostly consumer deposits.

He added that bank executives were "pleased with S&P's strong recognition" of Citicorp's industry leadership, its profitable consumer operations, business and geographical diversity and commitment to global operations.

While the downgrade followed by just seven months the last demotion of senior debt issued by Citicorp - S&P's downgraded it to AA-minus from AA April 26 - it left Citicorp debt six steps above the speculative zone.

"This is still a very solid rating for a bank," said analyst Tanya Azarchs, whose commentary on the bank's credit standing underscored its diversity, both in product lines and and geographical distribution, and consumer operations, including credit cards, which remain highly profitable.

"An A-plus is a very high rating, and I don't mean to imply ... just because some people might ask, are they about to fail," she said. "I've been getting questions like that lately and so it was partly to preempt those."

Among the debt instruments downgraded was Citicorp preferred stock, on which, in recent days, the bank has been obliged to lift the dividend rate to as high as 13 percent - far above the normal market return. The bank has $950 million in such stock outstanding, and issues are regularly repriced.

Asked how this might affect the auction-rate securities, Azarchs said the 13

percent yield "correlates to a rating that is much lower than A- minus anyway, so I don't know what the market will do."

She noted that the high rate paid on the securities reflected not the risk of default by Citicorp, but investors' insistence that the preferred stock remain a highly liquid - i.e. easy to sell - investment vehicle. "We don't have any concerns about the liquidity of the corporation," she said.

Citicorp is suffering from the same problems as many other banks, especially losses on commercial real estate loans, but it has taken a different approach to coping with them, Azarchs said. Unlike Chase Manhattan Corp. and others, it has declined to cut its dividend and drastically downscale.

"In some ways they believe they are special partly because of their broad diversity," she said, "and in some ways we accept that but we would still like to see higher levels of capitalization and reserves."

For now, Citicorp meets regulatory requirements setting the minimum level of capital expressed as a percentage of assets, Azarchs said. But it has "a ways to go" to meet new, higher capital ratios coming into effect in stages between now and 1992, when an 8 percent ratio will be required.

Citicorp Chairman John Reed has rebutted criticisms by stating he believes in "capital efficiency," not "capital adequacy," Azarchs noted. "We believe in capital cushions," she said, "especially in difficult times."

#90309u1608 11/05/1990 ~United Press International

CHICAGO (NOV. 5) UPI - Riding in the back of a pickup truck appears to be particularly risky for children, researchers reported Monday.

The researchers from the University of Utah School of Medicine in Salt Lake City studied 40 patients ages 16 and under who had been injured in pickup truck accidents.

Reporting in the journal Pediatrics, the researchers found 73 percent had been passengers in the bed of an open pickup and the rest were passengers in an enclosed cargo area. None of those studied had worn restraints.

Ninety-three percent of the accidents occurred in populated areas and 88 percent occurred between April and September, the researchers said. A number of the injuries were sustained when drivers made sharp turns, quick stops and rough accelerations.

''It is striking to note that 38 percent of the patients were injured in noncrash events,'' the researchers said. ''In this type of incident, restraint devices would have prevented the victim from being thrown about inside the

cargo area or being ejected from the vehicle.''

National Highway Traffic Safety Administration data indicate 22 percent of children's deaths in pickup truck accidents in the United States in 1987 were associated with riding in the cargo area, the researchers said.

Though all states now have passenger vehicle restraint laws for children, only 17 have any type of restriction for passengers riding in the back of pickup trucks, the researchers said.

''These data confirm our suspicion that this mode of transportation is a particular risk to the pediatric age group,'' the researchers said.

''We need to convince legislators that restrictions, restraint devices or prohibition of people riding in the back of pickup trucks are needed to curtail this type of transportation and to educate parents to avoid this dangerous and potentially lethal activity.

''Part of the resistance to passage of this type of legislation involves perceived impact on the agricultural sector of the U.S. - our data suggest that the vast majority of morbidity and mortality in children is not related to agricultural use of pickup trucks.''

#90309u1638 11/05/1990 ~United Press International
WASHINGTON (NOV. 5) UPI - A day before the midterm election, Democrats looked ready Monday to capitalize on voter discontent and expand their control of the House and Senate, while some analysts predicted any large-scale anti-incumbent fever would fizzle.

With the entire House, one-third of the Senate and 36 governorships at stake, the central question of the voting appeared to be whether public anger with elected officials will translate into a movement to ''throw the bums out.''

However, strategists from both parties indicated that they did not believe the public's distress would translate into massive forced exits by incumbents.

That was even more likely, they theorized, because voter turnout was projected to be extremely poor - perhaps hitting a post-World War II low.

In the Senate, where Democrats hold a 55-45 edge over Republicans, the Democrats hoped they could pick up perhaps two seats, while GOP analysts theorized that they could get out of Election Day without losing any more ground.

In the House, the situation appears much more volatile. Democrats, who currently hold a 258-175 edge with two vacancies, publicly said Monday that at best they may pick up about eight seats. However, some Republicans say it's possible the GOP could lose about 15 seats.

As candidates closed out their campaigns across the country, President Bush wrapped up a weeklong, six-state swing in Texas, urging voters to ignore the so-called experts and vote their true feelings.

''Tomorrow's vote is critical,'' he said at a Republican rally in Tyler, Texas. ''My message to you all is that you have a chance to make a difference.''

''I see all these great inside-the-beltway experts telling us everything that is wrong with the United States. Tomorrow you can go to the polls and say what's right about it,'' he said.

The problem for Republicans, according to some disgruntled GOP insiders, is that Bush's declining popularity is hurting their chances.

''The anti-incumbent thing is real,'' said one Republican strategist. ''But the reason it hurts us more than the Democrats, even though they have more incumbents, is that we also have Bush.''

According to independent projections, eligible voter turnout could be below the 36 percent level recorded in the last midterm election in 1986.

However, analysts said turnout would almost certainly not be uniform across the country, with the sites of the most hotly contested campaigns almost certainly having the largest numbers of voters.

Probably the most closely watched race in the nation was also one of the ones that will determine next year's Senate makeup - a neck-and-neck battle in North Carolina between Republican conservative Jesse Helms and liberal black Democrat Havey Gantt.

But also grabbing center stage were a host of tight gubernatorial races, including a close California race between Republican Pete Wilson, a U.S. senator, and former San Francisco Mayor Dianne Feinstein.

Also on tap is a close Florida race between Republican incumbent Gov. Bob Martinez and Democrat Lawton Chiles, a former U.S. senator, and the Texas gubernatorial shootout between Republican Clayton Williams and Democrat Anne Richards.

LUSAKA, Zambia (NOV. 5) UPI - More than 2,000 miners at one of the world's largest copper mines heeded an appeal by union leaders Monday to call off a wildcat strike that began over the weekend, Zambian Consolidated Copper Mines said.

Operations at ZCCM's Nchanga mine came to a standstill Sunday when hundreds of workers joined a walkout that began Saturday by some 400 engineering department employees, the state-owned Daily Mail newspaper said.

Mineworkers Union of Zambia General Secretary Koshita Shengomo declined Monday to discuss details of the strike, saying only that union officials were traveling to the mine in Chingola to assess the situation.

In a brief announcement later, the state-controlled ZCCM said union officials headed by Treasurer Peter Chilindi had urged the employees to call off the protest pending the start of formal wage negotiations on Tuesday.

''They were told that their action would jeopardize negotiations due to start tomorrow for collective agreement,'' the statement said.

The miners in the politically volatile copper belt are demanding a 200 percent wage increase and better working conditions generally.

Zambia derives more than 95 percent of foreign exchange earnings from copper sales. ZCCM is the country's largest employer with about 50,000 workers. The Nchanga is one of the largest open pit mines in the world.

(NOV. 5) UPI - Secretary of State Baker says the Persian Gulf crisis is entering a new phase.

Baker arrived in Taif, Saudi Arabia, today... the second stop on a week-long, eight-nation tour to talk about possible military action against Iraq with Arab leaders.

Baker says while the United States is still seeking a diplomatic solution to the standoff with Saddam Hussein, it can NOT rule out other options.

Saudi King Fahd has said he will NOT allow his country to be used as a base to launch a strike against Baghdad.

But the exiled Emir of Kuwait today suggested just that, calling for a quick strike to drive Iraqi forces out of his occupied homeland.

The Kuwaiti monarch, who has set up a government-in-exile in the Saudi mountain resort of Taif, told reporters- ''As far as I am concerned, I would like my country today and NOT tomorrow.''

In other Gulf news, the New York Times says thousands of military reservists may be sent to Saudi Arabia by next Spring. The paper reports the Defense Department plans to call up combat reserves in a few months. They are expected to be among as many as 100-thousand additional troops the Pentagon says will be deployed as part of Operation Desert Shield.

The State Department today accused Iraq of playing a cruel game with the lives

of the innocent hostages in Kuwait and Iraq. The statement was a reference to telephone calls from some American hostages reporting humane treatment to counter reports the captives are undergoing appalling hardships.

-30- 1679

#90309u1679 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Hundreds of thousands of poor students could be deprived of an education at trade and technical schools, community colleges and even four-year universities under provisions in the budget plan Congress sent to President Bush, educators say.

The five-year, $490 billion deficit reduction package, passed by Congress on Oct. 27, slices some $1.7 billion out of the most popular federal student loan program by creating rigid restrictions aimed at educational institutions whose students have high loan default rates.

For the next two years, any school with a default rate of above 35 percent will be barred from all federal student loan programs, with the default rate cutoff dropping to 30 percent for 1993 and beyond. Historically black colleges and Indian community colleges are exempt until 1994.

The congressional action was spurred by concern over high default rates at some educational institutions, from trade schools to major universities, and several instances of flagrant fraud and waste by disreputable schools.

About 300,000 students nationwide will lose eligibility for guaranteed federal student loans, but just 50,000 of those will come from traditional four-year colleges and community colleges, according to the National Association of Trade and Technical Schools.

Stephen Blair, the association's president, predicted that about 10 percent of the nation's approximately 4,000 trade schools, particularly those located in inner-cities, could be forced to close because of financial losses caused by the loan rollback due to high default rates.

''It's going to have a substantial impact upon poor folks,'' said Blair, whose organization represents some 1,300 schools, including those specializing in automotive and diesel repair, cosmetology and medical services.

Blair said high default rates are less a function of mismanaged schools than what population receives loans, saying high default rates usually are produced by schools with high poor enrollment.

''Yes, there have been abuses,'' Blair added. ''Yes, there have been some terrible scams committed by (technical and trade) school people. But what you're talking about is probably one-half of 1 percent that have engaged in fraud and abuse.''

''It is so much easier to make budget cuts when you believe that you are eraticating fraud and abuse. The simple truth is you're cutting out poor people and feeling OK about it,'' Blair added.

Other loan restrictions in the budget include: requiring student loan applicants without a high school diploma or equivalency degree to pass an independently administered standardized test in order to receive the loan and delaying disbursement of loan money for 30 days for first-time borrowers.

The American Council on Education, an umbrella group representing colleges and universities nationwide, said it is too early to estimate the impact of the new loan policies on American higher education, particularly the traditional four-year institutions.

Pat Smith, the group's director of legislative analysis, said about 3 percent of the approximately 3,500 community colleges and four-year colleges and universities have default rates above 35 percent.

''You're not looking a huge numbers of schools,'' Smith said. ''This (policy of loan restrictions) wouldn't have been our choice. But, on the other hand, it doesn't look disastrous.''

Melanie Jackson, a lobbyist for the Association of Community College Trustees, which represents about 1,000 public community colleges across the country, said the impact on two-year community colleges is likely to be muted by the fact that only about 6 percent of the approximately 5 million community college students receive federal student loans.

#90309u1697 11/05/1990 ~United Press International

(NOV 5) UPI - World oil prices declined Monday on news of falling world demand and rising output by the OPEC cartel, as the rumor-sated crude market focused on supply-demand fundamentals instead of possible war in the Middle East.

On the New York Mercantile Exchange, the benchmark West Texas Intermediate for December delivery ended the day down $2.04 from Friday to $31.96 a barrel, after having sold for as low as $31.80 a barrel in Monday's trading.

''There's a lack of willingness to play this market unless there is substantial news. For the past week, the market has not been willing to react to every little rumor anymore,'' said Ed Kevelson of Dean Witter Reynolds' International Futures Group in New York.

For a while, it appeared the market was trading in a range of $33-$36 a barrel. Now, it looks like the low end of the range will be $28-$30 a barrel, the region where prices bottomed out two weeks ago, the trader said.

Depending on what the American Petroleum Institute reports in its weekly inventories survey late Tuesday, prices could slip to that range by Wednesday, Kevelson said.

Joe Miller of Shearson Lehman Hutton's International Energy Desk in New York said prices Monday were affected by an interview in Sunday's New York Times with Saudi Oil Minister Hisham Nazer as well as by an expected decline in demand.

In the interview, Nazer was reported as saying daily Saudi production was now running at 8.2 million barrels and was expected to rise to 8.5 million by early next year.

This would be almost 3 million barrels higher than the Saudis' 5.6 million-barrel-a-day output prior to Iraq's Aug. 2 invasion of Kuwait and would largely make up for the 4.2 million barrels lost daily to world markets by the U.N. embargo ordered against Iraqi and Kuwaiti crude soon after the invasion.

Saudi Arabia is the world's biggest exporter of crude oil and the largest producer among members of the Organization of Petroleum Exporting Countries.

Also, the authoritative Nicosia, Cyprus-based Middle East Economic Survey reported Monday that soaring crude prices stemming from the Persian Gulf crisis are expected to cut daily demand for OPEC oil by about 1.7 million barrels during the first half of next year.

On Friday, the International Energy Agency, set up by large industrialized nations to monitor global oil production and consumption, estimated world daily oil consumption in the current fourth quarter would drop 800,000 barrels from previous forecasts because of higher prices and slowing economies.

The IEA also estimated industrialized nations' consumption would drop an additional 500,000 barrels in the first quarter of 1991 to 37.9 million barrels a day.

On the Merc, home heating oil for December delivery was down 2.96 cents to 84.46 cents a gallon, while December unleaded gasoline lost 1.67 cents to 87.54 cents a gallon.

Miller said gasoline showed relative strength because of an explosion Sunday night that temporarily shut down Mobil Corp.'s Chalmette, La., refinery near New Orleans.

Mobil spokesman John Lord said the refinery, which has a daily output of 160,000 barrels, was gradually being brought back into production Monday with the exception of the 18,000-barrel-a-day hydrocracker unit, where the explosion occurred.

Lord could not say to what extent gasoline production would be affected but added: ''We don't expect any problems in supplying our customers.''

Fear that gasoline output might be affected was sufficient, however, to prompt some traders to cover ''short'' positions previously taken in anticipation of lower prices, Miller said.

#90309u1703 11/05/1990 ~United Press International

(NOV. 5) UPI - The State Department today dismissed Felix Bloch, a high-ranking diplomat suspected of illegal contacts with Soviet espionage agents.

It's the first time ever the government has used national security reasons as the grounds for firing a State Department employee.

The ruling by Secretarty of State Baker was based on a hearing and a review by a high-ranking board of appeals. It means that Bloch's administrative remedies have been exhausted and he must turn to the courts for any possible reversal.

The diplomat has refused to testify formally about his contacts with Soviet agents. But if he appeals to the courts, he'll have to open himself up to examination under oath by government prosecutors.

NO formal charges were ever raised against Bloch, who was deputy chief of mission at the U-S Embassy in Vienna. But widespread leaks from U-S government investigators said he had been in contact with a Soviet agent in Paris and in Vienna.

Bloch was suspended from his job when the investigation began last year, but had remained on the payroll until earlier this year.

Scientists are downplaying today's rumblings at the Mount St. Helens volcano in southwest Washington state.

The volcano rumbled to life unexpectedly this morning... shaking violently and shooting ash 30-thousand feet into the sky.

But scientists at the U-S Geological Survey say the eruptive activity was ''relatively minor'' and does NOT represent a precursor to stronger explosions.

Clouds and darkness obscuring the volcano raised concerns that the mountain was unleashing another major blast of the type that killed 59 people on May 18th, 1980.

Officials issued warnings but quickly determined that only a relatively mild

''event'' had occurred, lightly dusting nearby areas with ash and leaving the volcano's crater and lava dome intact.

Experts say this morning's activity was the biggest in the past 10 months and was comparable to a minor eruption that occurred last winter.

#90309u1710 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The U.S. government had frequent secret contacts with the Palestine Liberation Organization, including a carefully choreographed series of exchanges that led to direct U.S.-PLO talks, according to a forthcoming book.

The book, ''Arafat, In the Eyes of the Beholder,'' by Janet and John Wallach, also says that a former U.S. ambassador to Lebanon, who had frequent contacts with PLO officials in Lebanon, believes that a ''friendly power'' - presumably Israel - objected strenuously to those meetings.

John Gunther Dean, according to the book, published by Lyle Stuart, believes that the the Phalangist militia that tried to assassinate him in Beirut in the summer of 1980 was supplied by Israel with the weapons that were used in the attempt.

The most elaborate series of U.S.-PLO diplomatic contacts, at a time when the United States was forbidden by law to have such a dialogue, came in 1988, in the closing days of the Reagan administration.

The book describes a process that began in the summer of 1988 when Swedish Foreign Minister Sven Andersson approached Secretary of State George Shultz with a proposal that Sweden be used as an intermediary to set up a direct series of meetings between the U.S. government and the PLO.

The U.S. government was insisting that the PLO renounce terrorism and agree to recognize Israel's right to exist as conditions for U.S.-PLO talks. But the book said that Shultz suggested that if the PLO wanted to attach conditions of its own, that would be the PLO's perogative.

The contacts quickened after the November 1988 elections but Shultz, according to the book, did not consult either President-elect Bush nor his designated secretary of state, James Baker, about his negotiations with the PLO.

The authors write that Shultz called in the Swedish ambassador on Dec. 3, 1988 with a secret letter to Andersson in Stockholm, giving Yasser Arafat the exact formulation to use in meeting the U.S. conditions about renouncing terrorism and recongizing Israel's right to exist.

The secret letter, which Shultz said Andersson could share ''with your visitor

from Tunis,'' (Arafat, who was then due to arrive in Stockholm) was hand-carreid to Sweden to prevent leaks.

The Shultz letter said that the United States would have no objection if Arafat added further declarations of his own, including an intention to have an independent Palestinian state.

The PLO responded, through the Swedish Foreign Ministry, that it would follow the Shultz formulation but would make some additions. While renouncing terrorism, the PLO would also denounce ''state terrorism,'' a reference to Israeli raids on PLO positions in southern Lebanon.

The PLO also persuaded Shultz to drop language that would call for an end ''to all forms of violence once the negotiations began,'' since the PLO convinced Shultz that it was incapable of stopping the intifada, or uprising in the Israeli-occupied terrirtories.

The book reports that Shultz even told the PLO of his planned answers at a news conference, announcing the start of the dialogue with the PLO. The plan, which was to plant some questions with friendly newsmen, did not work out, according to the book.

The U.S.-PLO dialogue, as outlined in the secret negotiations, began but not until there were several misfires, including a speech by Arafat in Geneva in which he failed to utter the required language. Finally in a news conference, Arafat spoke the necessary words and the the U.S.-PLO dialgoue was opened.

The talks were broken off this year after an attack on an Israeli beach by a group headed by one of the members of the PLO Central Committee.

#90309u1720 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The EPA, opening a new line of attack on water pollution, imposed sweeping new requirements Monday on cities and industry to develop programs for reducing contaminated runoff from streets, landfills, factories, and construction sites.

In the first government effort to address ''poison runoff,'' the Environmental Protection Agency issued regulations under which some 100, 000 industrial plants, 173 cities and 47 heavily populated counties will have to take steps to minimize pollutants that might be picked up by rainwater.

Under the program, cities and industry will have to obtain discharge permits from the EPA or state government for storm water sewers that collect runoff water from street drains and ultimately dump it into rivers and lakes.

In flowing down city streets and industrial sites into drains, runoff picks up grease, toxic metals, pesticide residues and larger debris that is not subject to any decontamination treatment before final discharge.

EPA and state officials say such ''non-point'' pollution - as opposed to wastewater discharges from specific effluent pipes - is the largest single cause of water contamination.

Environmentalists said the EPA's new regulatory program was a long overdue effort to address a little-noticed but massive contributor to water pollution.

''Poison runoff has been neglected for far too long,'' said Richard Cohn-Lee, a research expert on water contamination for the Natural Resources Defense Council. ''It's an insidious form of pollution that can produce the same deleterious effects as pollution coming from the end of a pipe.''

But while praising the EPA program as a good start, they criticized the agency for not requiring some specific pollution control measures.

EPA officials said they had not yet determined what cleanup steps would be required under the new program. They said the agency soon would issue a follow-up rule specifying what cities and industry would have to do to achieve the program's goal of cutting polluted runoff to the ''maximum extent practicable.''

In general, the discharge permits will call for city officials and businesses to submit plans to the EPA or state government outlining what pollution control initiatives they would take.

For cities, discharge permits likely will call for such measures as halting disposal of used oil in street drains, reducing grease and oil on roads and

parking lots, minimizing pesticide and fertilizer application and replacing road salt with less harmful de-icing substances.

Municipal officials also will focus on detecting and removing illegal connections in which businesses flush contaminated wastewater into storm water sewers.

Affected industries will be required to cover raw material storage areas now exposed to rainfall, take greater precautions to prevent chemical spills and plugging leaks in sewage and wastewater pipes.

The discharge permits must be obtained by all cities or urban counties with populations of 100,000 or more. EPA estimates it will cost a city between $50,000 and $75,000 to apply for a discharge permit.

A wide range of industries is covered, including paper, petrochemical, rubber, leather tanning, stone, clay, glass, concrete, metal and ship-building manufacturers.

Also included are toxic waste and municipal garbage landfills; junkyards and recycling facilities; sewage treatment plants handling more than 1 million gallons of wastewater a day; power plants, including coal handling sites; transportation facilities such as airports, bus and train depots; and construction sites of 5 acres or more.

A large number of other industries, ranging from food vendors to computer companies to drug manufacturers to cabinet makers, are affected if they have materials exposed to the elements.

#90309u1732 11/05/1990 ~United Press International

(NOV. 5) UPI - The government today gave Americans the most detailed advice yet on healthful eating.

In its new edition of the Dietary Guidelines released today, the government recommends that Americans limit fats to 30 percent of their intake and be sure to eat grains, fruits and vegetables every day. Most Americans get about 37 percent of their calories from fat.

It's the first time since the government began issuing the guidelines in 1980 that it made specific suggestions on limiting fat or how much fruit and vegetables to eat each day.

The guidelines also recommend eating a variety of foods, maintaining a healthy weight, including plenty of fiber in meals, and using salt and sugar ''only in moderation.'' The guidelines conclude, ''If you drink alcoholic beverages, do so in moderation.''

The 1985 edition, for instance, simply said ''it is sensible to reduce daily consumption of fat'' but said there was disagreement over acceptable levels.

Some consumer groups hail the stronger language but say the government is NOT doing enough to turn its advice into reality.

WASHINGTON (NOV. 5) UPI - A Michigan prosecutor told the Supreme Court Monday that his state's law allowing a first-time drug offender to spend life in prison is not cruel and unusual punishment but a needed weapon if the nation is serious in its war on drugs.

But Carla Johnson, a court-appointed attorney defending one of more than 120 people sentenced to life in prison without the possibility of parole under Michigan's 1978 statute, said it has done nothing to curb the drug trade and has simply forced addicts and others in need of a fast buck to agree to transport drugs while traffickers themselves go free.

The law requires a sentence of life in prison without parole for anyone convicted of possessing more than 650 grams of cocaine, about 1 1/2 pounds. It does not distinguish between drug traffickers with long criminal pasts and first-time offenders found simply carrying the drugs.

In other states and under federal guidelines, the same offense if possession of 650 grams of cocaine generally would call for a sentence of up to 10 years in prison.

''Michigan is way out of line with every other state in the union,'' said Johnson in asking the high court to reverse a decision of the Michigan Court of Appeals upholding the sentence.

But Justice Anthony Kennedy said if the drug trade is continuing to flourish in Michigan, maybe even stricter penalties are needed to deter the crime.

''What are you going to do next, cut their arms off?'' asked Johnson.

The exchange took place during hour-long oral arguments in the case of Ronald Harmelin, 45, sentenced three years ago under the statute for possessing 672 grams of cocaine. He claims the statute violates the Eighth Amendment prohibition against cruel and unusual punishment.

Johnson said any sentence of life in prison without parole for a crime other than murder that does not allow a judge to consider mitigating circumstances is illegal.

''Mandatory life in prison with no chance of parole is death in prison,'' argued Johnson. ''It's qualitatively different'' from other sentences that would allow for parole.

Johnson said the law violates the court's own 1983 guidelines for determining if a sentence violates the Eighth Amendment. One of the guidelines was proportionality with other jurisdictions.

Richard Thompson, prosecuting attorney for Oakland County, Mich., said the law does not violate those standards, although he is asking the court to overturn its 1983 decision in addition to upholding the Michigan law.

''We have the toughest penalties,'' he said. ''(That) doesn't mean it's grossly disproportionate.''

Some of the justices seemed to indicate problems with being asked to overrule the Michigan legislature.

Justice Antonin Scalia said Michigan lawmakers could retroactively decide to lower sentences.

''We could wait several years and see if the Michigan legislature really thinks this thing works,'' he said.

He also equated a life prison term for a 20-year-old to a ''20-year- term for a 70-year-old'' who would not be expected to live through his prison term, and wondered if that, too, could be considered unconstitutional.

Justice Sandra Day O'Connor said the court has made it ''reasonably clear'' that outside death penalties, mandatory sentencing was allowed.

She also said while the Michigan statute does not give judges sentencing discretion, it allows a prosecutor to charge a lesser offense, thus providing ''prosecutorial discretion.''

And the governor would retain the power to commute a sentence.

''There are checks and balances,'' said Thompson.

But Justice John Paul Stevens mocked the idea that ''prosecutorial discretion'' can be used to defend the statute.

''I find it amazing that you defend the law on the grounds the prosecutor might ignore it,'' Stevens told Thompson.

Justice David Souter asked Thompson if the 650 gram cutoff was a ''surrogate way of identifying a dealer.''

''Yes, your honor,'' replied Thompson, explaining that the law draws no distinction between a drug dealer and a drug possessor as far as sentencing is concerned.

''If you have 650 grams of cocaine that is not for personal use,'' said Thompson.

#90309u1816 11/05/1990 ~United Press International
NEW YORK (NOV. 5) UPI - Stocks closed higher in light trading Monday, as financial issues again led an advance pinned to hopes that interest rates will come down soon and give the economy a boost.

The Dow Jones industrial average, which jumped 35.89 Friday, rose another 11.39 to close at 2502.33.

Among broader market gauges, the New York Stock Exchange composite index added 1.42 to 171.49 and Standard & Poor's 500-stock index rose 2.74 to 314.59. The price of an average share rose 24 cents.

Advances outpaced declines, 1,025-545, among the 1,995 issues crossing the NYSE tape. Volume amounted to 147,510,000 shares, down from the 168,691,370 traded Friday.

Analysts said continued optimism about the outlook for U.S. interest

ratessparked carryover buying from Friday, when a rosier rate scenario emerging after the most recent evidence of economic weakness fueled a rally.

They cited a strong feeling among traders the Federal Reserve would soon have to cut interest rates further to keep the economy from becoming dangerously weak after U.S. employment data for October was released Friday. The report showed a surprisingly large drop in jobs.

With wide expectations the Fed would loosen credit policy, gains in financial and other rate-sensitive issues - which took a beating in the market's recent decline and which would benefit greatly from easier credit - set the pace for the advance Monday.

"I think a lot of hopes are pinned on lower rates," said Ron Doran, director of institutional trading at C.L. King & Associates in Albany, N.Y. He noted that some of Monday's advance also reflected buyers stepping in and "participating off the rally on Friday," including "a little more institutional participation."

Doran said lower oil prices generated a little activity. Crude oil closed down $2.04 to $31.96 a barrel. There were few substantive developments in the Persian Gulf crisis to influence Monday's trading of the commodity.

But the main concern now, he said, is the domestic economic outlook and the resulting and optimism that the Fed will have to step in to pump it up. "That's where the hope lies, in lower rates and (in) that maybe we can get the economy moving again," said Doran.

"But it's going to be a long process and, in any rally, people will be taking advantage and lightening up (selling) in the groups that they want to. We'll take an up day today, though."

On the trading floor, C&S-Sovran was the most active issue, up 1/8 to 16, a reflection of the general strength among banks and other issues sensitive to interest rates.

Mortgage investor Fannie Mae followed, up 7/8 to 30 1/8. Philip Morris was third, up 5/8 to 49.

Citicorp was next, down 1/4 to 12 3/8, after Standard & Poor's lowered the bank holding company's senior debt rating. BankAmerica was also active, jumping 1 1/2 to 21 7/8.

Among other blue chips, AT&T rose 1/2 to 35 1/4, IBM added 3/4 to 107 7/8, General Electric gained 7/8 to 53 7/8, and Woolworth jumped 1 1/8 to 27 1/8.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 185,399,280 shares, down from

204,465,250 shares traded in the previous session.

Prices gained in light trading on the American Stock Exchange. The Amex Market Value index rose 1.60 to 291.58. Advances led declines 288-270 among the 794 issues traded. The price of an average share added six cents. Composite volume totaled 10,663,000 shares vs. 11,197,345 traded Friday. Continental Air led the Amex issues, up 1/8 to 2 3/4.

The National Association of Securities Dealers composite index gained 4.31 to 340.76.

(NOV. 5) UPI - High-ranking State Department diplomat Felix Bloch was fired today from his 80-thousand-dollar-a-year-job. Bloch is suspected of illegal contacts with Soviet espionage agents. Bloch was deputy chief of mission at the U-S Embassy in Vienna.

The State Department today accused Iraq of playing a cruel game of cat and mouse with the lives of American hostages. Officials cite telephone calls and statements from some hostages reporting humane treatment while others reported hardships and deprivation.

Former German Chancellor Willy Brandt headed to Baghdad today to seek the release of more foreign hostages, despite protests by Britain, Belgium and Holland. Brandt's visit to the Iraqi capital comes amid claims he's already received guarantees that hundreds of captives will be freed.

In New York, authorities have arrested eight people in a fatal Halloween rampage by a masked gang that attacked homeless people on a desolate island off Manhattan. Police say the assailants shouted ''trick or treat'' before setting upon their victims.

Volvo Cars of North America has agreed to pull ads showing its automobiles standing up to a ''Monster Truck'' during a car crushing ''exhibition.'' The automaker admits the ads were staged with reinforced Volvos.

The Soviet Union today announced a record grain harvest. The government said the 1990 harvest was 240 Million tons, eclipsing the record 237 Million of 1978. But it says it caN'T get the bumper crop in from the farm for worthless rubles.

#90309u1886 11/05/1990 ~United Press International

ST. LOUIS (NOV. 5) UPI - An Amalgamated Clothing and Textile Workers Union strike at two Rawlings Sporting Goods Co. plants in Missouri continued Monday, two days after workers walked out in a dispute over contract negotiations.

About 600 workers walked out of the plants in Licking and Ava on Saturday after voting to strike because of alleged unfair labor practices by Rawlings during final negotiating sessions for a new three- year cotract. The employees have worked without a contract the last five months.

''We are on strike to force the company to bargain in good faith, something it has been either unwilling or unable to do for over five months,'' said Joan Suarez, southwest regional director of ACTWU.

Suarez said the union was prepared to resume negotiations ''as soon as Rawlings is willing to bargain in a serious and legal manner.''

The employees and the union formally charged the company with bad faith

bargaining and are awaiting the issuance of a complaint by the National Labor Relations Board.

Rawlings, a division of Figgie International Inc., is based in St. Louis. The company manufactures baseball gloves and uniforms for professional teams, official National Collegiate Athletic Association basketballs and footballs, and other sports equipment.

#90309u1893 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - Hundreds of thousands of poor students could be deprived of getting an education at trade and technical schools, community colleges and four-year universities under provisions in the budget plan that will become law with President Bush's signature, educators say.

The five-year, $490 billion deficit reduction package, passed by Congress on Oct. 27, slices some $1.7 billion out of the most popular federal student loan program by creating rigid restrictions aimed at educational institutions whose students have high loan default rates.

For the next two years, any school with a default rate of above 35 percent will be barred from all federal student loan programs, with the default rate cutoff dropping to 30 percent for 1993 and beyond. Historically black colleges and Indian community colleges are exempt until 1994.

The congressional action was spurred by concern over high default rates at some educational institutions, from trade schools to major universities, and over several instances of flagrant fraud and waste by disreputable schools.

About 300,000 students nationwide will lose their eligibility for guaranteed federal student loans, 50,000 coming from traditional four- year colleges and community colleges, according to the National Association of Trade and Technical Schools.

Stephen Blair, the association's president, predicted that about 10 percent of the nation's approximately 4,000 trade schools, particularly those located in inner-city areas, could be forced to close because of financial losses caused by the loan rollback due to high default rates.

''It's going to have a substantial impact upon poor folks,'' said Blair, whose organization represents some 1,300 schools, including those specializing in automotive and diesel repair, cosmetology and medical services.

Blair said high default rates are less a function of mismanaged schools than what population receives loans, saying high default rates usually are produced by schools with greater enrollments of poor students.

''Yes, there have been abuses,'' Blair said. ''Yes, there have been some terrible scams committed by (technical and trade) school people. But what you're talking about is probably one-half of 1 percent that have engaged in fraud and abuse.''

He added: ''It is so much easier to make budget cuts when you believe that you are eraticating fraud and abuse. The simple truth is you're cutting out poor people and feeling OK about it.''

Other loan restrictions in the budget include requiring student-loan applicants without high school diplomas or equivalency degrees to pass an independently administered standardized test in order to receive the loan and delaying disbursement of loan money for 30 days for first-time borrowers.

The American Council on Education, an umbrella group representing colleges and universities nationwide, said it is too early to estimate the impact of the new loan policies on American higher education, particularly the traditional four-year institutions.

Pat Smith, the group's director of legislative analysis, said about 3 percent of the approximately 3,500 community colleges and four-year colleges and universities have default rates above 35 percent.

''You're not looking a huge numbers of schools,'' Smith said. ''This (policy of loan restrictions) wouldn't have been our choice. But, on the other hand, it doesn't look disastrous.''

Melanie Jackson, a lobbyist for the Association of Community College Trustees, which represents about 1,000 public community colleges across the country, said the impact on two-year community colleges is likely to be muted by the fact that only about 6 percent of the approximately 5 million who study at community colleges receive federal student loans.

#90309u1894 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - In a move to further expand its global trading capabilities, the American Stock Exchange Monday opened a market in put warrants on the CAC-40 Index of the Paris Bourse, an index of 40 blue- chip French stocks.

Societe Generale is the issuing company.

Trading under the ticker symbol SGG.WS, the new warrants opened at 2 3/4 on 10,000 warrants.

''Investors now have an opportunity both to hedge existing investments in the French equity marketplace and to follow its different moves through the

trading of the CAC-40 warrants,'' AMEX chairman James R. Jones said.

''Societe Generale, the fifth largest bank in France, provides the ideal expertise in the French marketplace,'' Jones added.

Two weeks ago, the Paris Bourse began trading warrants on Amex's Major Market Index, an index that closely tracks the Dow Jones Industrial Average. The Bourse expects to list additional warrants on that index in the ''near future '' the Amex said.

At the opening of the new warrants on the Amex floor, Pierre Barcelo, head of new listings at the Paris Bourse, said: ''We are very excited about our new relationship with the Amex. This is the first time that out CAC-40 index is being traded in the U.S. marketplace and we hope to continue this relationship with the Amex and other U.S. marketplaces.''

Since 1990, the Amex began trading warrants on the Nikkei Stock Average, the blue-chip index of the Tokyo stock market; warrants on the Financial Times-Stock Exchange 100 index, the principal index of the London market; and options on the Japan Index developed by the Amex, which closely follows the Tokyo market.

#90309u1899 11/05/1990 ~United Press International

NEW YORK (NOV. 5) UPI - Former junk-bond king Michael Milken is expected to be sentenced next week, a clerk for U.S. District Court Judge Kimba Wood said Monday.

Milken faces a maximum jail term of 28 years after pleading guilty in April to six counts of securities fraud.

The former chief of Drexel Burnham Lambert Inc.'s junk-bond department has already agreed to pay $200 million in fines and $400 million in restitution to victims as part of his plea agreement.

The sentencing follows a two-week ''Fatico'' hearing, which ended Oct. 26, ordered by Wood to determine if Milken had commited other crimes besides those he has already admitted to.

At the hearing, prosecutors argued that Milken had been involved in a wide-ranging conspiracy to manipulate the financial markets, including bribing corporate executives and trading on insider information.

Milken's lawyers, however, claimed that their client had ''crossed the line'' only in a few isolated cases in an effort to help Drexel customers.

CLEVELAND (NOV. 5) UPI - Outfielder Candy Maldonado, who rebounded from a terrible 1989 season to hit .273 with 22 homers and 95 runs batted in last year, Monday was named UPI's American League Comeback Player of the Year.

Maldonado, who earned $900,000 in 1989, generated little interest as a free agent last winter, finally reluctantly agreeing to sign a one- year deal with a Cleveland team that has been unable to attract top quality free agents.

This year figures to be very different for the 30-year-old right- handed hitting native of Puerto Rico. One publication said Maldonado could expect to more than double his salary on the free agent market.

''I never had any doubts in my mind that I could play,'' Maldonado said. ''I learned from my mistakes, I learned from the struggles, I learned from that year (1989) that not every dream that you want comes true, especially with this game.

''All the goals that you establish for yourself, they don't happen. It teaches you a lot because I learned more about life and more about a lot of things

that are more important than just baseball.''

Maldonado hit .217 with San Francisco in 1988 with nine home runs and 41 RBIs. In Cleveland, he was reunited with batting coach Jose Morales, who coached him during his best seasons with the Giants, and Maldonado responded with his best major league season.

His totals in home runs, average and RBIs are career highs, as were his 32 doubles, 590 at bats, 155 games, 134 strikeouts and 49 walks.

''He's like a daddy to me,'' Maldonado said of Morales. ''I can't explain it, don't ask me why, I've never been able to come up with the answer, but it seems like every time we work together good things happen. Even in my worst year, it was a year I drove in 68 runs and hit (.255).

''I know that year I was kind of hurt a little bit, but there was that production. There was that push. (Morales is a) guy that talks to you as a father and as a coach and as a great friend.''

Maldonado does not rule out staying in Cleveland, but he is angry about the Indians' decision not to negotiate with him during the year while they tried to sign pitcher Bud Black to a new contract.

''This is the first time I've been able to be in the driver's seat,'' he said. ''It's not my fault that the market out there is sky high, it's not my fault that players are getting more money than they maybe really deserve. After eight years in the big leagues, this is my one chance.

''It feels great, but I'm not thinking about that. It's something that's going to happen sooner or later. I'm more relaxed. If there was one time I had to be worried it was last year, and I never had any doubts.''

Obviously, Maldonado wants to make the most of his opportunity to strike it rich. But he also wants to make sure he never falls as low as he was after the 1989 season, when the only team interested in him was the Cleveland Indians.

''When you're in that hole, you don't ever want to fall in that hole again,'' Maldonado said.

#90309u1974 11/05/1990 ~United Press International
CLEVELAND (NOV. 5) UPI - A financial planning expert recommends high-income individuals to change their normal year-end planning because of changes in tax laws.

''Many upper-income taxpayers with taxable income beyond the bubble are at the 28 percent rate and should consider accelerating income into 1990,'' said Charles Kowal of Ernst & Young's Cleveland office.

''Those with income likely to stay under $185,000 on a joint return and $109,000 if single with no other dependents should follow traditional year-end planning principles - deferring income to next year.''

Kowal said tax changes among the most significant for planning purposes are an increase to 31 percent for the top tax rate, a limit on itemized deductions for taxpayers with adjusted gross income of more than $100,000, and the phase-out of personal exemptions for those with adjusted gross incomes of more than $150,000 for joint returns and $100, 000 for single returns.

He also noted the new 10 percent tax on purchases of luxury items and the 28 percent maximum capital gains rate for those now in the 33 percent tax bracket.

''Considering the size of the budget deficit, tax rates could continue to increase in future years, particularly for upper-income taxpayers,'' Kowal said.

Kowal suggested that high income individuals look at ways to accelerate income such as investing money in securities that pay interest before the end of the year.

''This also will keep their income base as low as possible next year and thereby minimizes the potential loss of their itemized deductions,'' Kowal said. ''From a tax perspective, this is not the traditional thing to do, but the new tax agreement makes it worth considering.''

#90309u1988 11/05/1990 ~United Press International
(NOV. 5) UPI - The exiled Emir of Kuwait today told Secretary of State Baker he wants quick military action to end the three-month-old Iraqi occupation of his homeland. Baker says the Persian Gulf crisis has entered a new phase and that the United States is NOT ruling out any option. Baker arrived in Saudi Arabia today on a eight-nation tour to discuss possible military action in the Gulf.

British politicians are advising the wives of 10 British hostages to ''keep a

stiff upper lip'' when they travel to Baghdad this week to plead for the release of their husbands. Saddam Hussein last week invited relatives of hostages to come to Iraq to see their loved ones being held as human shields against a U-S-led attack. The 10 wives say they plan to accept the offer of visas and hope to meet with Saddam personally.

NASA officials say there's NO indication that a widespread drug problem exists at the Kennedy Space Center. Forrest McCartney, director of the Kennedy Space Center, says the small package containing about of one gram of cocaine found in a space shuttle hangar Friday probably belonged to one individual. McCartney also says there's NO evidence that drugs were involved in any of a number of embarrassing mishaps and accidents at the spaceport earlier this year.

The Supreme Court today refused to review an appeal filed by the father of late University of Maryland basketball star Len Bias. The U-S Circuit Court of Appeals for the District of Columbia ruled the basketball player's agent was NOT liable for failing to obtain a one- Million-dollar life insurance policy or lucrative endorsement before the star died of a cocaine-induced coma after an all-night dorm party in 1986. Bias had just been drafted by the Boston Celtics as the second N- B-A pick. The Washington Circuit Court ruled the Bias family was NOT entitled to any of the money their son might have made had he lived.

Educators say new federal loan restrictions contained in the budget plan Congress sent to President Bush could deprive hundreds of thousands of poor students of a college education. The deficit reduction package slices some one-point-seven-BILLION dollars out of the most popular federal student loan program by creating rigid restrictions. The provisions are aimed at trade and technical schools, community colleges and even four-year universities whose students have high loan default rates.

The Environmental Protection Agency today opened a new line of attack on water pollution. The E-P-A imposed sweeping new requirements on cities and industry to develop programs for reducing contaminated runoff from streets, landfills, factories and construction sites. Under the regulations, some 100-thousand industrial plants, 173 cities and 47 heavily populated counties will have to take steps to minimize pollutants that might be picked up by rainwater.

History will be made in Alaska tomorrow regardless of who wins the governor's race. Democrat Tom Knowles' running mate, Willie Hensley, could become the first Eskimo to win a statewide election in Alaska. But the Republicans are aiming for a first, too. G-O-P candidate Arliss Sturgulewski could become Alaska's first woman governor. And if breakaway Republican Wally Hickel is elected, he would be the state's first independent to become governor.

#90309u2037 11/05/1990 ~United Press International

ANCHORAGE, Alaska (NOV. 5) UPI - Marijuana supporters demonstrated Monday to keep pot legal in Alaska amid growing signs that voters are ready to outlaw the drug after 15 years of legal tolerance.

Several dozen protestors chanted and waved signs in sub-freezing temperatures during the noon demonstration in front of the Federal Building and then paraded along downtown streets exhorting voters to maintain the status quo by voting down a Tuesday ballot measure to recriminalize marijuana.

Pollster David Dittman predicted voters would outlaw marijuana by a 2-to-1 ratio in the only state where it is legal. Both sides have been working to win votes in the final days before the election.

Demonstrators put the drug war slogan - ''Just Say No'' - on signs urging people to vote no on Proposition 2, the initiative to make possession of marijuana a crime punishable by up to 90 days in jail.

Protesters even planted a campaign sign across the street from the Federal Building in front of the Fire Department.

An occasional whiff of marijuana smoke could be detected in the air, but authorities ignored the demonstrators.

The small rally included pro-marijuana activists from several groups outside Alaska - the National Organization for Reform of Marijuana Laws, Help Eliminate Marijuana Prohibition (HEMP) and Freedom Fighters.

The battle to keep marijuana legal in Alaska has been led by Alaskans for Privacy, headed by the lawyer who got Alaska's marijuana law thrown out 15 years ago, but that group was not part of Monday's demonstration.

The state Supreme Court ruled in 1975 that Alaska's constitutional right to privacy protected adults using marijuana at home from police action.

Demonstrators distributed leaflets quoting from the opinion by Justice Jay Rabinowitz: ''Our territory and now state has traditionally been the home of people who prize their individuality and who have chosen to settle or continue living here in order to achieve a measure of control over their own lifestyles which is now virtually unobtainable in many of our sister states.''

''Turning people into criminals is not going to solve the drug problem,'' speaker Richard Ziegler told the group. ''We have a drug problem in America, but it's not marijuana. We don't want heroin up here. We don't want cocaine up here.''

''The No. 1 drug problem in Alaska is alcohol,'' said Talyne Belka.

Outlawing marijuana will worsen the alcohol problems, said Dawn Montiel.

Ziegler said he doesn't like to drink, but said, ''I like an occasional joint in my home once in a while.''

He called it discriminatory to allow public drinking but outlaw private marijuana smoking.

Alaska permits adults to have up to 4 ounces of marijuana at home, but passage of Proposition 2 would outlaw possession of any amount.

''Small amounts of marijuana in private ought to allowed,'' said Steve Seiff, a Boulder, Colo., resident who identified himself as a member of the pro-pot group Freedom Fighters, which called on its members to go to Alaska to campaign to keep cannabis legal. He said, ''Marijuana's relatively innocuous.''

''Keep it legal,'' shouted Mark Sailors of Baltimore, adding, ''I don't want to go to jail. I don't do anything wrong. I just smoke pot.''

''Authoritarian type people are extremely determined and get whipped up by politicians and will get out and vote for this proposition,'' said Terry Mitchell, a Washington, D.C. Freedom Fighters activist who organized the rally.

''Self-control, not state control,'' read one sign. ''Prohibition only helps the dealer,'' said another. ''Vote for freedom. Vote for privacy,'' yet another sign said.

#90309u2059 11/05/1990 ~United Press International

BEIRUT, Lebanon (NOV. 5) UPI - Rival Shiite militias in Lebanon signed an agreement in Damascus to end their bloody three-year struggle, the Syiran-Iranian Higher Committee announced Monday.

Damascus radio said the agreement between pro-Syrian Amal militia and Iranian-backed Hezbollah was aimed at ending the dispute to control Lebanon's Shiite community and promote measures by the Lebanese government to extend its authority over all Lebanese territory.

The broadcast said the five-point agreement, effective Nov. 10, was signed by Amal chief Nabih Berri and Sheikh Subhi Tufaili, secretary- general of Hezbollah. Syrian and Iranian foreign ministers Farouk Sharaa and Ali Akbar Velayati witnessed the signing.

Amal and Hezbollah have been locked in a fierce struggle to control Lebanon's 1.5 million Shiites, the country's largest sect.

More than 1,000 people have been killed and thousands others wounded or

displaced in the feud that first erupted in the southern suburbs of Beirut then expanded to the Iklim Al Tuffah region, east of the port city of Sidon, 24 miles south of the capital.

Many attempts by Damascus and Tehran have failed in the past to halt Amal-Hezbollah fighting.

A Syrian-Iranian engineered accord was signed in 1988 in Damascus to settle the inter-Shiite war but often was violated.

The new agreement obliges the parties to abide by the Damascus accord of 1988 regarding the implementation of a cease-fire and the withdrawal of militiamen from positions they have captured in Iklim Al Tuffah.

Disputes between the parties will be settled by a joint Syrian- Iranian committee headed by Syria's chief of intelligence in Lebanon, Brigadier Ghazi Kanaan, and Iran's ambassador in Damascus, Hassan Akhtari.

The agreement stipulated that both parties facilitate the deployment of Lebanese troops in any part of the country including Iklim Al Tuffah.

Following a series of meetings with Syrian and Iranian officials in Lebanon, Amal and Hezbollah agreed last Tuesday on a ''complete and comprehensive cease-fire.''

The Syrian-Iranian Higher Committee headed by Syrian Vice President Abdel Halim Khaddam and his Iranian counterpart, Hassan Habibi, has been meeting in Damascus since Saturday to discuss the gulf crisis, Lebanon and issues of mutual interest.

It was the first meeting since the committee was formed last September during Syrian President Hafez Assad's visit to Tehran.

BUENOS AIRES, ARGENTINA (NOV. 5) UPI - The nation's cost of living increased 7.7 percent in October, according to official figures released Monday by the National Institute of Statistics and Census.

The October rate was the first to come in at single digits in 11 months. The November 1989 inflation rate was 6.5 percent.

Prices in the last 12 months rose 1,199.1 percent, the institute said.

In September, the cost of living climbed 15.7 percent.

-30- 628
#90309u2068 11/05/1990 ~United Press International
WACO, Texas (NOV. 5) UPI - President Bush wound up the 1990 political season trying to exact revenge on Ann Richards, the shrill-voiced Texas state treasurer who held him up to public ridicule at the 1988 Democratic Convention.

''Where's George? Right here! Right here in Waco, Texas, supporting ... Clayton Williams,'' Bush told a GOP rally of several hundred people in Richards' hometown in central Texas.

Williams is Richards' Republican foe in Tuesday's Texas gubernatorial election. Polls show the tough-and-tumble race to be a tossup.

The president devoted the entire day to campaigning in his adopted homestate of Texas for the GOP ticket headed by Williams and Sen. Phil Gramm, who is expected to win re-election by a wide margin.

Winding up a six-day, cross-country political trek for fellow Republicans, Bush made campaign stops in Tyler, Waco and Houston.

''You know the story about Claytie,'' Bush, speaking at a flag-waving rally at Tyler Junior College, said of the flamboyant millionaire rancher and oilman. ''He's a Texas original. (A) straight-shooter who will do what needs to be done.''

The entire House, a third of the Senate and 36 gubernatorial seats will be decided in Tuesday's election, and the president would take special delight in seeing Williams defeat Richards, Bush's own longtime nemesis.

Richards drew knee-slapping laughter at the Democratic National Convention in San Francisco when she described Bush, then a Republican presidential candidate, as a stumbling aristocrat.

''He can't help it. He was born with a silver foot in his mouth,'' Richards declared from the podium.

Bush, speaking in Waco, said, ''I'm sorry I'm a little late. Claytie and I both set off the metal detectors with our silver feet.''

The crowd roared.

The president also made a crack about Sen. Edward Kennedy, D-Mass., who repeatedly invoked the line, ''Where's George,'' at the 1988 Democratic convention. Bush sarcastically called the liberal senator ''that last bastion of democracy,'' drawing more applause and laughter.

Bush made no reference to Richards by name, but said repeatedly, ''I want a governor in Texas I can work with.''

Just a few months ago, Williams enjoyed a seemingly safe, double- digit lead over Richards. But latest polls show his margin down to precarious few percentage points.

Much of the decline can be traced to Williams sticking his foot in his mouth. Like the time he received headlines by joking that rape was like the weather because ''if it's inevitable, just relax and enjoy it.''

The president's own polls have dropped due in large part to the new tax-raising, deficit cutting budget that he arranged to sign late Monday.

Administration official said they don't believe the election eve signing would have any impact on the election, but as Bush arrived in Tyler it was on the mind of at least one demonstrator who held up a sign reading ''Read my Lips, no new taxes,'' a reminder of Bush's broken 1988 ''reminder of Bush

During the past five days, the president made campaign visits to a total of eight states - Massachusetts, Florida, Ohio, Minnesota, Iowa, California, New Mexico and Texas.

A year ago, with the nationwide approval rating hovering near 80 percent, the White House saw Tuesday's election as a chance to gain some seats in the Democrat-controlled Congress.

But now the administration concedes it will likely lose at least a few seats, but insists that the election won't be a referendum on the Bush presidency. However, the election will go a long way toward setting the political landscape for 1992, when Bush will be up for re-election.

#90309u2084 11/05/1990 ~United Press International

DETROIT (NOV. 5) UPI - General Motors Corp.'s board of directors said Monday the current dividends on all three classes of stock will be maintained in the fourth quarter.

The payout on GM's $1-2/3 par value common stock will stay at 75 cents a share while dividends on Class E stock, representing subsidiary Electronic Data Systems, will hold at 14 cents and on Class H stock, covering the GM Hughes Electronics Corp. unit, at 18 cents a share.

All three dividends are payable Dec. 10 to shareholders of record as of Nov. 15, the giant automaker said.

The payout on GM's $1-2/3 par value dividend has remained at its current level since the first quarter of 1989. Current levels on GM's Class E and Class H stock were established during the first quarter of 1990.

Last week, GM posted a $2 billion loss for the third quarter of 1990, taking a $2.1 billion writeoff to formally close four idled assembly plants and either close or consolidate several more facilities by 1993.

The loss was the largest for any quarter in automotive history.

#90309u2105 11/05/1990 ~United Press International

OAK BROOK, Ill. (NOV. 5) UPI - Waste Management Inc. Monday announced a $19.5 million settlement of a 1987 class-action antitrust suit brought by Cumberland Farms Inc.

The company said Cumberland Farms and other plaintiffs in the class action agreed it was uncertain they could win a judgment on their contention of a broad antitrust conspiracy by Waste Management and Houston-based Browning-Ferris Industries Inc., another company involved in waste disposal that was named as co-defendant in the suit.

In the settlement, the plaintiffs agreed to limit the settlement fund provided by Waste Management to 13 markets where prior antitrust investigations had

been concluded. All other claims would be dismissed.

Browning-Ferris also concluded a settlement with the planitiffs.

Notice of the settlements were mailed Monday to potential parties to the class action following preliminary approval of the settlements by the U.S. District Court for the Eastern District of Pennsylvania.

''On one hand, the plaintiffs acknowledged, after extensive discovery, that there clearly was uncertainty whether they could prevail in court with their class action. On the other hand, however, we acknowledged there could have been further civil exposure in those 13 markets,'' said J. Steven Bergerson, Waste Management vice president and general counsel.

''We have maintained from the very beginning of this litigation back in 1987 that no broad conspiracy ever existed. We decided to settle the case primarily to protect the company against suits arising from old investigations concluded long ago and to spare the company the high cost of continued civil litigation '' Bergerson said.

#90309u2111 11/05/1990 ~United Press International

(NOV. 5) UPI - Secretary of State James Baker says the United States still seeks a diplomatic solution to the Persian Gulf crisis. But he says the Bush administration is NOT ruling out other options. Baker today met with the exiled emir of Kuwait, who called for swift military action to free his country from Iraq. Cairo Radio says Baker is expected to discuss with Saudi leaders a possible timetable to oust Saddam Hussein from Kuwait.

The State Department fired accused spy Felix Bloch on national security grounds today. Secretary of State Baker took the action after Bloch received a hearing and a board of appeals review following charges he had illegal contacts with Soviet agents while he was deputy chief of mission at the American Embassy in Vienna. NOTHING was ever proven against Bloch and he was suspended after he refused to testify formally about his activities. Block had remained on the government payroll making 80-thousand dollars a year.

The Supreme Court heard arguments today on Michigan's tough mandatory drug sentencing law. A state prosecutor told the justices that a law ordering mandatory life in prison without parole for anyone convicted of possessing more than 650 grams of cocaine or heroin does NOT constitute cruel and unusual punishment. But court-appointed defense lawyer Carla Johnson says the 1978 statue has done NOTHING to curb the drug trade. More than 120 people are serving life in Michigan prisons for drug offenses without the possiblity of parole.

President Bush made appearances on behalf of Republican gubernatorial

candidate Clayton Williams in Tyler, Waco and Houston, Texas, today. The president and Mrs. Bush plan to vote in Houston tomorrow before heading back to Washington to watch election returns. Earlier today, Bush told a crowd at Tyler Junior College they can go to the polls tomorrow and say what's right about America.

The Food and Drug Administration today ordered drug labeling for the elderly. The proposed F-D-A change would require drug makers to warn doctors about possible side effects of prescription drugs in older people. The Pharmaceutical Manufacturers Association says the industry group like the idea of giving doctors as much information as possible.

Researchers say riding in the back of a pickup truck appears to be particularly risky for children. Reporting in the journal Pediatrics, the researchers from the University of Utah School of Medicine found 38 percent of 40 patients ages 16 and under surveyed had been injured in noncrash events. But it said a number of injuries were sustained when drivers made sharp turns, quick stops and rough accelerations and that restraint devices would have prevented the accidents.

#90309u2127 11/05/1990 ~United Press International

MANAGUA, Nicaragua (NOV. 5) UPI - President Violeta Chamorro's popularity has dropped 13 percentage points since she took office, and former President Daniel Ortega is even less popular, according to a survey published Monday.

Via Civica, an independent organization that promoted voting in elections last Feb. 5, said it interviewed 540 people over the age of 16 in Managua, the capital.

''After 180 days in government, President Chamorro has a 42 percent acceptance which, compared to the 55 percent of the vote with which she was elected, shows a drop in popularity of 13 percent,'' the report said.

Chamorro, a newspaper publisher whose candidacy was supported by the United States, won a surprise victory over Sandinista President Daniel Ortega with 55 percent of the vote. Ortega won 42 percent.

Her election victory ended more than 10 years of Sandinista rule, and helped bring an end to more than eight years of civil war between the Sandinista government and U.S.-funded Contra rebels.

Since taking office, however, Chamorro's government has been beset by high unemployment, runaway inflation, massive devaluations of the cordoba and a series of strikes.

#90309u2200 11/05/1990 ~United Press International

WASHINGTON (NOV. 5) UPI - The Justice Department said Monday it is investigating charges of voter intimidation by the Republican Party in North Carolina, site of a bruising and racially charged U.S. Senate race.

Assistant Attorney General John Dunne said the department has ordered the FBI to look into Democratic charges that the GOP sent intimidating postcards to largely Democratic districts in North Carolina, where Republican Sen. Jesse Helms is facing a tough re-election battle against Democrat Harvey Gantt, the former mayor of Charlotte.

Democrats complained that the 100,000 postcards sent to 29 counties across the state contained inaccurate information on voting laws and that they were designed to scare away Democratic voters.

''These cards had been disseminated on a fairly broad base,'' Dunne said, ''and there was, in our judgment, a statement on the card that was misleading, if not totally inaccurate.''

Democrats also charged that Republicans were collecting postcards returned as undeliverable and were planning to use them at polling places to challenge the eligibility of those voters if they showed up to cast ballots.

The plan was lambasted by Sen. John Breaux, D-La., chairman of the Democratic Senatorial Campaign Committee.

''Jesse Helms and his Republican cohorts will have to answer tomorrow for any efforts to deny North Carolina citizens their right to vote by fear and intimidation,'' Breaux said.

Dunne, head of the civil rights division, said the Justice Department had secured a pledge from Republicans not to use the returned postcards on Election Day, and said the FBI would investigate whether the mailing constituted voter intimidation.

''What we wanted to do is take some action today which could have some affect in terms of stemming any negative effect that these cards would have,'' Dunne said.

He said FBI agents traveled to Raleigh on Friday and interviewed top state Republican Party officials, and Justice Department officials obtained documents from the GOP relating to the incident.

''We will continue to look into this whole scheme,'' said Dunne.

In addition, the Justice Department's voting rights section dispatched a team of lawyers to North Carolina to monitor the election, and the Office of Personnel Management will maintain a local hotline to field any complaints.

''The right to vote is one of America's most cherished freedoms,'' Breaux said in criticizing the GOP postcards. ''This scheme is straight out of the politics of our past, and it will backfire on the Republicans in North Carolina.''

The Justice Department already is sending 36 election observers to Edgecombe County in North Carolina, although a spokeswoman said the decision was made before the postcard controversy.

#90309u2232 11/05/1990 ~United Press International

LOS ANGELES (NOV. 6) UPI - Moody's Investor Service said Monday it had lowered its rating on the debt of Orion Pictures Corp., the second such downgrade for the troubled studio in less than a week.

The rating service, citing poor earnings performance and increasing debt levels, said its action affected about $265 million of subordinated debt.

Orion, which has long been a target of takeover speculation, said last week it had hired investment bankers Salomon Bros. to ''examine strategic alternatives.'' Such a move often indicates that a company is hanging out a ''for sale'' sign.

Orion lost $2.5 million in the second quarter on sales of $110.1 million, and cited increased TV production costs. But its major films - ''Robocop 2'' and ''Cadillac Man'' - performed poorly at the box office, leaving the studio without a hit for more than a year.

Moody's said the studio, which has a debt load of more than $400 million, had only $12 million available under its credit agreement as of Oct. 12. ''Moody's believes that Orion has become increasingly dependent on the success of future releases,'' the agency said.

Standard & Poor's rating service said last week it was also lowering its debt ratings for Orion, which is 70 percent owned by billionaire John Kluge.

Orion stock rose 37.5 cents to $11.50 Monday on the New York Stock Exchange after jumping $1.50 on Friday on speculation that German conglomerate Bertelsmann was considering an acquisition.

Orion may have a hit on its hands shortly with the release of Kevin Costner's ''Dancing With Wolves,'' a drama about American Indians. The three-hour film, which has received good reviews, opens in limited release this weekend.

#90309u2256 11/05/1990 ~United Press International

(NOV. 5) UPI - The White House says it does NOT believe President Bush's election- eve signing of the new budget bill will have any impact on elections tomorrow. But the plan to cut the deficit by 492-BILLION dollars during the next five years was on the mind of at least one demonstrator today in Texas. The protester greeted Bush as he campaigned for the state's Republican gubernatorial hopeful, holding up a sign reading- ''NO new taxes.''

Secretary of State Baker today fired Felix Bloch, a high-ranking diplomat suspected of illegal contacts with Soviet espionage agents. Bloch has NEVER been formally charged... but leaks by U-S government investigators say Bloch was in contact with a Soviet agent in Paris and Vienna. Baker's dismissal order cites Bloch's- quoting here- ''behavior, activities and associations.''

The Defense Department expects to release a statement tomorrow on the Supreme Court's refusal to hear its case against allowing a homosexual soldier to re-enlist. The high court let stand an order forcing the Army to allow Perry Wadkins to re-enlist. Wadkins was drafted during the Vietnam War and accepted into the Army despite acknowledging he was gay. The case is NOT expected to affect the Pentagon's broader policy of banning homosexuals from the military.

A National Academy of Sciences report says poor attitudes about aging is depriving many Americans of leading healthy, happy lives in their later years. The academy's Institute of Medicine urges doctors to look beyond curing severe life-threatening diseases and find better ways of reducing mental and physical disability among the elderly. A committee covened by the panel states- ''American culture clings to some very pessimistic assumptions about aging.''

Glamour magazine named its 10 women of the year today. The list ranges from Chai Ling, the leader of the Chinese students' democracy movement, to pop star Madonna. Others on the list include Democratic Senator Barbara Mikulski of Maryland... Sarah Brady, the wife of White House aid James Brady... tennis champ Chris Everet... and television personality Jane Pauley.

LOS ANGELES (NOV. 6) UPI - A former Newport Beach stockbroker pleaded guilty Monday to charges he used information in an unreleased Business Week magazine column to purchase stocks that brought him about $66,000.

John Petit, 34, pleaded guilty to two federal felonies alleging he committed insider trading by obtaining information from the Business Week column well in advance of the magazine's release to the public.

Based on information he received in the ''Inside Wall Street'' column, Petit, a former broker at Smith Barney, Harris Upham & Co. in Newport Beach, purchased stocks grossing him $66,000 between 1986 and 1988.

Petit would purchase the stocks before the magazine's release.

Assistant U.S. Attorney Alice Hill said the purchases were successful because ''a security that received a favorable mention in the 'Inside Wall Street' column typically inreased in price in the period immediately following public dissemination of the magazine.''

Petit received the inside information on the column from Shayne Walters, a former employee of R.R. Donnelley & Sons Co. in Torrance, which prints the magazine.

Walters, who Petit payed for the information, has pleaded guilty to charges in New York.

#90309x1123 11/05/1990 ~Comtex

NEW YORK (UPI) - In ''Buddy, The Buddy Holly Story'', Broadway finally has what every new Broadway season needs, a musical of hit proportions which establishes Paul Hipp as a star.

The theatrical biography of the rock 'n' roll star who died in a plane crash in 1959 at age 22 opened at the Shubert Theater Sunday and had the audience literally dancing in the aisles. The original success of the show in London's West End last year seems destined to be repeated in New York.

Alan Janes' book closely follows Holly's brief career, three years of recording and only 18 months on the Top 10 with his group, the Crickets. The story is told in vignettes that never quite capture the feel of reality, but Holly's music and the performance of a marvelous cast makes up for any shortcomings in the writing.

The first act tends to be a teaser, with bits and pieces of Holly's early compositions when he first began his revolt against country music. It ends with a concert at Harlem's Apollo Theater, for which Holly was engaged by an agent who had heard his music and thought he was black. It leaves the audience shouting for more.

More is delivered in act two with complete delivery of Holly's most memorable hits winding up with a simulated ''Winter Dance Party'' at the Surf Ballrom in Clear Lake, Iowa. Usherettes from the cast pass out typical programs for this sort of concert to capture the era when rock was performed in more intimate spaces than arenas.

Clear Lake was Holly's last appearance. Only hours later he died with J.P. Richardson, the Big Bopper, and Ritchie Valens as they flew to their next gig on a chartered plane in a snowstorm. For rock fans, it was ''the day the music died.''

Hipp, a lanky chap with black curls and what sounds like an authentic West Texas twang, is as close to a reincarnation of the be-spectacled, clean-living Holly as can be hoped for. He has a shyness that masks a will of iron when it comes to his music and his career.

Hipp is a well-known rock 'n' roll musician and composer in his own right (Paul Hipp and the Heroes) and a charismatic actor whose peformance as Holly in London won him a nomination for the coveted Olivier Award for best actor in a musical. His voice runs the gamut from sweet innocence to tart impudence and he is a devil on the guitar.

He is backed up by flashy peformances by David Mucci as Big Bopper, who gives a gyrating rendition of ''Chantilly Lace,'' and Philip Anthony as Ritchie Valens who detonates ''La Bamba'' with a series of megabomb explosions.

Kurt Ziskie is totally winning as Norman Petty, the Lubbock, Texas, a producer and manager who gave Holly his start, and Jo Lynn Burks is perfectly cast as his helpmeet wife. Fred Sanders makes much of the role of Hipockets Duncan, who also figured in Holly's early success.

Bobby Prochaska and Russ Jolly are as alike as peas in a pod as the faceless Crickets, Jerry Allison and Joe B. Mauldin. Don Stitt is tremendous as the bombastic Surf Ballroom emcee, but Jill Hennessy is less successful in the thinly drawn role of Holly's bride, Maria Elena, a stunning secretary to whom he proposed on their first date.

Cleverly articulated sets by Andy Walmsley, made up of 1950s billboard images allows for quick changes made necessary by the many scenes in the show. Costumes by Bill Butler and Carolyn Smith catch the generally demure style of the period epitomized by the bouffant-skirted backup singers. Graham McLusky's lighting is complex and effective.

Rob Bettison's direction gives the dramatic part of the show more vitality than is implicit in the book but the music takes direction from its own rhythms, beat and drive. To evoke nostalgia for the ''golden years'' of rock, there is nothing like ''Peggy Sue,'' ''Raining in My Heart,'' ''Blue Days, Black Nights,'' ''You Send Me,'' and ''Why Do Fools Fall in Love?''

#90309x1424 11/05/1990 ~Comtex

LOS ANGELES (NOV. 5) UPI - The surprise hit ''Ghost,'' which relied heavily on its appeal to women amid a crush of male-oriented action-adventures, has become the No. 1 movie of the year, it was announced Monday.

The Paramount Pictures film, starring Patrick Swayze and Demi Moore, surpassed Disney's ''Pretty Woman'' Friday _ its 113th day of release _ when it reached $178.3 million in domestic ticket sales. By the end of the weekend, its gross had topped $180.6 million.

The film, still being shown in more than 1,500 theaters across the country, has a good chance at surpassing the $200 million barrier, said Barry London, president of the studio.

''We are certainly going to keep it out in a lot of theaters for some time to come,'' London said.

''Ghost'' is already the 12th-highest grossing movie of all time in North America, the studio said. The movie is also the studio's fourth- highest grosser, following ''Raiders of the Lost Ark,'' ''Beverly Hills Cop'' and ''Indiana Jones and the Last Crusade.''

''Ghost'' was released amid the height of the action-adventure summer blockbuster season, competing against Universal's ''Back to the Future Part III,'' Disney's ''Dick Tracy,'' Carolco's ''Total Recall,'' Warner's ''Gremlins 2,'' Orion's ''Robocop II,'' Fox's ''Die Hard II'' and Paramount's own ''Another 48 HRS'' and ''Days of Thunder.''

The plethora of action films was clearly aimed at duplicating the success of 1989's smash hit, Warner's ''Batman,'' which grossed more than $250 million.

Paramount executives launched a major push for ''Ghost,'' believing at the time that the marketplace had been saturated with male-oriented films, leaving a big opening for a romance, London said.

''From a marketing standpoint, we decided that the film would initially have its biggest imapct among female moviegoers,'' London said. ''So it was positioned as a romance with an edge.''

In the film, Swayze portrays Moore's murdered lover. As a ghost, he tries to contact Moore's character through a psychic, portrayed by Whoopi Goldberg.

''There are a lot of themes in the movie that have been very strong for people such as good guys going to heaven and looking after people that are still living,'' London said.

Paramount said that the film is its sixth release since 1972 to hit the No. 1 spot at the box office for the year. In 1972, Paramount's ''The Godfather'' landed in the top spot. The others were ''Beverly Hills Cop II'' (1987), ''Top Gun'' (1986), ''Raiders of the Lost Ark'' (1981) and ''Grease'' (1978).

#90309x1624 11/05/1990 ~Comtex

CHICAGO (NOV. 5) UPI - The Field Museum Monday opened an exhibit of the world's oldest ''modern'' bird _ the only such U.S. display before the fossil is returned to China for study.

The fossil of the 135-million-year-old bird was found in China in 1987. The display includes a drawing of the unnamed bird, which has links to both dinosaurs and today's birds.

William Simpson, chief preparator of fossil vertebrates at the museum, and University of Chicago paleontologist Paul Sereno prepared the fossil for display by using chemicals to remove bone tissues from the rock. They then prepared cross sections and made casts of the indentations.

''It was too difficult to take the rock off the bone, so we took the bone off the rock,'' Simpson said. ''What we have now is essentially a negative and the next move is to make a positive.

''I think what we'll do is use an airbrush to spray on natural latex rubber. The rubber will become what's called a 'latex peel,' and we'll use that to make another mold out of silicone rubber. From the silicone mold we'll make epoxy casts _ the ultimate goal. They'll be hard and durable and won't change

dimensions over time.''

Simpson said most of the work had to be done under a microscope.

Sereno said the fossil is not perfect, that the head bones appear to have drifted before the fossil was formed, making it difficult to determine exactly what the bird looked like.

The bird lived about 10 million years after the Archaeopteryx, a transitional form between dinosaurs and birds.

The exhibit will run through Nov. 15.

#90309x1843 11/05/1990 ~Comtex

HOLLYWOOD (NOV. 6) UPI - The psychological thriller ''Jacob's Ladder'' climbed to the top of the nation's box office with an impressive $7.5 million take in its debut over the weekend - more than double the gross of any other movie.

The film, which has received mixed reviews, revolves around a Vietnam veteran (Tim Robbins) who experiences vividly portrayed hallucinations.

Directed by Adrian Lyne (''9 1/2 Weeks,'' ''Fatal Attraction''), ''Jacob's Ladder'' could be a significant success for Carolco Pictures, which saw its last major release - ''Total Recall'' - gross nearly $120 million over the summer.

''Jacob's Ladder,'' appearing across 1,052 screens, will face new competition next weekend - the last before the major Christmas season releases begin - from Universal's ''Child's Play 2'' and Kevin Costner's ''Dances With Wolves '' which will go into limited release.

Meanwhile, Kirstie Alley's latest comedy, ''Sibling Rivalry,'' held on to second place with a respectable $3.24 million weekend at 1,445 screens. The comedy, directed by Carl Reiner, has grossed $8.4 million in 10 days for Columbia.

''Ghost,'' which became the year's biggest hit on Friday, moved from the No. 5 to the No. 3 spot with a $3.22 million take at 1,713 screens. ''Ghost'' has now pulled in $180.6 million for Paramount, surpassing Disney's ''Pretty Woman'' as this year's top-grossing movie. ''Pretty Woman'' has lured $178.1 million in ticket sales after 34 weeks in release and is still showing at 202 screens.

The May-to-September romance ''White Palace'' slid from No. 3 to No. 4 with a still-solid gross of $3 million at 892 screens. The film, starring Susan

Sarandon and James Spader, sold $9.1 million of tickets in 17 days for Universal.

Stephen Seagal's revenge-actioner ''Marked for Death'' fell from No. 4 to No. 5 after three straight weeks at No. 1, taking in $2.58 million at 1,553 screens.

As expected, ''Stephen King's Graveyard Shift'' was buried by its competition over the weekend, falling to the No. 6 slot and scaring up a mere $2.55 million at 1,603 screens.

Warner's World War II flying flick ''Memphis Belle'' landed in No. 7 with a $2.48 million gross at 1,300 screens.

Rock star Prince's latest film ''Graffiti Bridge'' posted an adequate opening with $2.44 million at 688 screens, good enough for No. 8. The film, a continuation of Prince's 1984 hit ''Purple Rain,'' will probably drop off sharply.

MGM/UA's ''Quigley Down Under,'' starring Tom Selleck as a cowboy in Australia was No. 9 with a $2.3 million third weekend at 1,035 screens. Finally, ''Avalon,'' Barry Levinson's latest tribute to his Baltimore roots after ''Diner'' and ''Tin Men,'' continued to perform strongly in its third weekend in wide release with a $1.727 million take at 635 screens.

The top 10, weekend gross, total gross and weeks in release:

1. ''Jacob's Ladder,'' $7.5 million, 1 week.
2. ''Sibling Rivalry,'' $3.24 million, $8.4 million, 2 weeks.
3. ''Ghost,'' $3.22 million, $180.6 million, 17 weeks.
4. ''White Palace,'' $3 million, $9.1 million, 3 weeks.
5. ''Marked for Death,'' $2.58 million, $37.5 million, 5 weeks.
6. ''Stephen King's Graveyard Shift,'' $2.55 million, $9 million, 2 weeks.
7. ''Memphis Belle,'' $2.48 million, $19 million, 4 weeks.
8. ''Graffiti Bridge,'' $2.44 million, 1 week.
9. ''Quigley Down Under,'' $2.3 million, $11 million, 3 weeks.
10. ''Avalon,'' $1.7 million, $8.8 million, 5 weeks.

FOXBORO, MA (UPI) - Robert Perryman, the New England Patriots starting fullback since 1988, Monday was given his release.

Perryman, 26, had started all eight games this season but in 32 rushes had just 97 yards with one touchdown. He was a third-round pick in the 1987 draft.

The Patriots, 1-7, have the league's worst record.

Perryman had sought a huge contract during the summer, claiming he was one of the league's top fullbacks.

''Unfortunately, Robert did not live up to the expectations that the organization had for him,'' said Patriots general manager Patrick Sullivan. ''We feel that it is in the best interest of the club to make this move at this time.''

#90309x2092 11/05/1990 ~Comtex

SAN JOSE, Calif. (NOV. 6) UPI - Struggling computer reseller Businessland Inc. posted a $19.9 million first-quarter loss Monday and announced its fourth round of layoffs this year.

Businessland, which has cut 536 jobs since June 30, said it would lay off another 240 workers, about 7 percent of the current workforce, by the end of the year in an attempt to reverse four straight quarters of red ink.

In September, the company announced plans to lay off 370 and fold its money-losing ComputerCraft retail subsidiary into Businessland's main operations. That followed layoffs of 200 in January and of 18 in the United Kingdom in April.

By the end of the year, Businessland plans to trim its workforce to 3,120 people worldwide, compared with 3,900 people at the end of June, and merge all of its former ComputerCraft stores into Businessland's operations, said David Norman, chairman and chief executive officer.

The company's first-quarter loss included a $4.5 million restructuring charge to pay severance wages for affected employees and to close down facilities. In the year-earlier quarter, Businessland earned a profit of $4.3 million, or 14 cents a share.

Businessland said sales in the quarter ended Sept. 30 had slipped to $308.9 million from $315.9 million in the year-earlier period, reflecting a 6 percent decline in U.S. sales, which account for about 85 percent of Businessland's revenue.

Norman cited the weakening economy and steep price discounting in the personal computer reseller market for the lower sales. He said the company was trying to restructure its pricing so it would be better compensated for the service and support provided customers along with hardware.

#90309x2177 11/05/1990 ~Comtex

WORCESTER, MA (NOV. 6) UPI - Andrea Temesvari, ranked No. 7 six years ago but now No. 128, Monday rallied for a 2-6, 7-6 (8-6), 6-4 victory over Gigi Fernandez, ranked No. 30, who squandered a second-set match point.

In the third set, with the score tied 4-4, Fernandez missed an easy overhead then netted a backhand to give Temesvari the decisive service break.

Fernandez, who held a match point at 6-5 in the second-set tie- breaker, said, ''I gave it away, basically. I had a match point in the tie-break, it was a second serve, she hit a backhand crosscourt and I didn't come in. If I had come in, it would have been over with.''

Temesvari ''has been in the top 10 and she still hits the ball hard,'' said Fernandez, who has a sore left knee, having hyper-extended it last week. ''I'm not running 100 percent and I couldn't run down balls I usually do.''

''It was a weird match,'' said Temesvari. ''I was struggling with my game. I couldn't get the right rhythm on (deciding) when to float balls, when to go into the net and when to put pressure on her.''

''I played some good returns, I hung in there,'' said Temesvari. ''I didn't feel I played great but after the second-set tie-break I was fighting more for the match ... I started to loosen up and move her around the court.''

Last year's champion, Martina Navratilova, is not defending her title. Among the 28 entrants are all four semifinalists from September's U.S. Open: top seed Steffi Graf; No. 2 Mary Joe Fernandez; No. 3 Gabriela Sabatini, the Open champion; and No. 4 Arantxa Sanchez-Vicario.

In other pairings of unseeded opponents, Renata Baranski of Rock Hill, S.C., defeated Katrina Greenman of Westwood, Mass., 6-2, 6-4; Florencia Labat of Argentina outlasted Eva Pfaff of Germany, 6-1, 2-6, 7-6 (10-8); and Mercedes Paz of Argentina downed Ann Henricksson of Mill Valley, Calif., 6-3, 7-6 (7-4).

The tournament features a winner's purse of $70,000 and the runner-up will receive $35,000.

EVERETT, WA (NOV. 6) BUSINESS WIRE - John Fluke Mfg. Co. Inc. Tuesday, Nov. 6 1990, reported operating results for its 1990 fiscal year ended Sept. 28, 1990.

Revenues for fiscal 1990 were $233.8 million, a 6 percent decline from fiscal 1989 revenues of $247.7 million.

Net income was $12.2 million, or $1.72 per share on approximately 7.1 million shares and share equivalents outstanding, compared to fiscal 1989 net income of $23.2 million, or $2.80 per share, on some 8.3 million shares and share equivalents outstanding. Fiscal 1989 net income included a gain on a land sale and investment write-downs that represented a net gain of approximately $7.6 million after tax. Excluding these unusual items, net income for fiscal 1989 was $15.5 million or approximately $1.88 per share.

Fourth quarter fiscal 1990 revenues were $55.3 million compared to $62.7 million in last year's final quarter. This represents a decline of 12 percent. Net income also fell below last year's fourth quarter figures of $3.8 million to $1.8 million in FY'90.

Orders for fiscal 1990 declined 3 percent from $235.1 million in 1989 to $228.8 million. Fourth quarter FY'90 orders declined 5 percent from $64.2 million in FY'89 to $60.9 million, but were improved from third quarter FY'90 order levels of $53.7 million. Order comparisons in general turned negative in May.

The shortfall occurred primarily in the United States, while orders from international customers ended the year essentially flat with the previous year. The sustained order growth among international customers outside Europe shoftened this year, with declines in countries such as Canada offsetting growth in many Asian markets, including Japan.

John Fluke Mfg. Co. Inc. is a leading supplier of electronic instrumentation and services that improve the productivity of technical users engaged in research, service, design, manufacturing and calibration. Fluke focuses on customers who are manufacturers and users of electronic and electrical equipment in defense and aerospace, government agencies, computers and

peripherals, electronic instrumentation, communications, utilities, automotive and consumer electronics. Founded in 1948 and headquartered in Everett, Fluke employs more than 2,100 people.

BELLEVUE, WASH. (NOV. 6) BUSINESS WIRE - Aris Corp. (NASDAQ:LMNT) announced that it has entered into an agreement for a new long-term credit facility, and Lamonts Apparel Inc., its sole operating unit, announced record sales for the quarter and the year ended Nov. 3, 1990.

Leonard Snyder, chairman and chief executive officer of Lamonts, said Aris has entered into an agreement which provides for the retirement of the existing $43.1 million bridge loan due in March 1991.

The new financing will consist primarily of a 10-year term loan provided by Executive Life Insurance Co. as well as a two-year real estate facility. Completion of this financing will occur in several stages. The initial closing, completed today, has provided for the refinancing of approximately $22.0 million of the bridge loan, and the balance is expected to be refinanced by the end of this calendar year. In connection with the agreement, the maturity of the remaining balance of the existing bridge loan has been extended to March 1992.

Snyder also said estimated sales for the year, including leased departments, were a record $264 million, a 12 percent increase over $236 million last year, while comparable stores achieved a 9 percent increase. Fourth-quarter sales grew to $65 million, a 5 percent comparable-store increase. Additionally, Lamonts expects to report record operating cash flow (earnings before interest taxes, depreciation, amortization, LIFO and other non-cash accounting adjustments) for its 1990 fiscal year.

''The vitality of Lamonts' sales and our new financing arrangement are good news all around,'' Snyder said. ''The new long-term credit facility provides a strong capital base for our future growth plans.

''Lamonts continues to generate strong sales gains substantially in excess of industry averages. Our improved sales reflect the strength of Lamonts' focused marketing strategy, and the relative economic strength of the markets in which we compete.''

Lamonts is a Pacific Northwest specialty apparel retailer with 49 stores located in Washington, Oregon, Alaska, Montana, Idaho and Utah. In the past three years, the company has opened 19 new stores and remodeled 18 existing

stores. Lamonts was purchased by Aris Corp. in September 1989.

TORRANCE, CA (NOV. 6) BUSINESS WIRE - Clint Trainor has been promoted to operations manager for the Aluminum Extrusion/Cast House division for International Light Metals Co. (ILM) of Torrance.

He replaces Jim Luse, who will soon be retiring. Luse, a 30-year ILM veteran, will remain with ILM in a top executive staff advisory role. Trainor's appointment was announced by the company's president, Gene Gambill.

Prior to his appointment, Trainor was production superintendent for the Aluminum Extrusion/Cast House division; he is a 25-year veteran of the aluminum industry. Trainor also served former ILM owners Martin Marietta and Harvey Aluminum.

International Light Metals has over 45 years of extrusion and forging production experience and is a joint venture of Martin Marietta and NKK.

SALT LAKE CITY (NOV. 6) BUSINESS WIRE - As part of the company's strategy to expand its business, EFI Electronics (NASDAQ:EFIC) Tuesday announced that it has developed a major new product line of Uninterruptible Power Supply (UPS) or Battery Back-up Products to complement its full line of high-performance surge suppression equipment.

The new products, known as SysGarde 505 and LanGarde 505, are designed to protect computer and microprocessor-based office automation, medical and industrial equipment from premature shut down and harmful transient voltages or power surges.

It is estimated that the power conditioning industry, currently at $1.3 billion, is expected to grow to over $2.8 billion by 1995. This unprecedented growth is expected to be fueled by demands for power source protection and reliability from all segments of the computer and electronics industry.

Scott Nelson, president and chief executive officer of EFI, stated: ''EFI's entry into this fast-growing business represents a natural extension of our technical ability to provide the marketplace with superior quality products coupled with state-of-the-art design. Our attention to quality and performance has become the trademark of the entire EFI product line.''

Product shipments will begin on a limited basis next month with production gearing up for general shipments to begin through the company's normal distribution channels by January 1991.

Founded in 1979, EFI Electronics Corp. markets power surge suppression equipment in the United States and Canada. Its products are designed to protect computer, telecommunications and microprocessor-based medical and industrial equipment in a wide range of applications.

WESTBORO, MASS. (NOV. 6) BUSINESS WIRE - Interleaf Inc., the leading corporate publishing supplier, has signed an agreement with Data General Corp. to port Interleaf publishing software to Data General's AViiON RISC based computer systems.

The Original Equipment Manufacturer (OEM) distribution agreement expands Data General's electronic publishing offerings in the UNIX systems environment.

''Interleaf offers a comprehensive solution for the entire range of information publishing,'' says Stephen P. Baxter, vice president of corporate marketing at Data General. ''This agreement opens the door to many new accounts for Data General in vertical markets such as government, aerospace, engineering and departmental publishing networks.''

Mark Ruport, Interleaf's senior vice president of sales and marketing, said, ''Together, Interleaf publishing software and the Data General AViiON systems provide users state-of-the-art tools to customize their information flow for maximum productivity, even under the most demanding circumstances.''

Interleaf active publishing technology provides full solutions for accessing information, transforming it into text and graphics, distributing it electronically or on paper, and managing the flow of documents and information. Users can create text and graphic documents and can import data into Interleaf publishing software from popular word processors, PC's, computer-aided design (CAD) systems, scanners and mainframes. Interleaf publishing software automatically hyphenates and spell checks in 13 languages, and supports European paper sizes, keyboard layouts, and character sets.

With 31 sales offices in the United States and Canada, and subsidiaries and distributors in Europe, Latin America, and Asia/Pacific, Interleaf has more than 50,000 users.

Data General, a Fortune 300 company based in Westboro, Mass., is a leading supplier of general purpose computer and communication systems worldwide.

PROVO, UT (NOV. 6) BUSINESS WIRE - Rocky Mountain Helicopters Inc. (NASDAQ:RMHI) Tuesday announced that it has signed a contract to lease five BO-105 helicopters to Helivia Air Taxi Limited of Rio de Janeiro, Brazil.

The contract, amounting to approximately $5 million, coincides with RMH's international expansion efforts. Three of the five aircraft have already been delivered; the other two will arrive in Brazil later this month.

Jim Bianchi, managing director for Helivia, indicated that the aircraft will be used for offshore support services and onshore oil exploration near the Amazon River. ''We chose Rocky Mountain because they are an excellent organization. We are familiar with the work they do and are confident in their capabilities. Their support services are vital to this project.''

RMH vice president, Bryan Burr, says that future agreements with Helivia are in the planning stages. ''We look forward to a long-term relationship with Helivia in Brazil,'' Burr said.

Rocky Mountain Helicopters Inc., is one of the largest providers of helicopter support services in the United States. RMH provides air medical, mining, logging and remote installation support, and it is the industry leader in air medical transport services. The company operates a fleet of 88 helicopters and 21 fixed-wing aircraft.

#90310b0045 11/06/1990 ~Business Wire

ABINGTON, MA (NOV. 6) BUSINESS WIRE - Abington Bancorp Inc. (NASDAQ/NMS: ABBK) Tuesday announced results for the third quarter and nine months ended Sept. 30 1990.

For the quarter ended Sept. 30, 1990, Bancorp reported a net loss of $2,035,000 or $1.09 per share, compared with net income of $304,000 or 15 cents per share for the same period a year earlier.

Bancorp also reported a net loss for the nine months ended Sept. 30, 1990 of $2,550,000 or $1.37 per share, compared with net income of $1,011,000 or 49 cents per share for the corresponding period in 1989.

At Sept. 30, 1990, assets totaled $232,767,000 compared to $239,593,000 at Dec. 31, 1989. Total outstanding loans and deposits at Sept. 30, 1990, were $143,620,000 and $151,847,000, respectively, compared with $134,052,000 and $163,502,000, respectively, at Dec. 31, 1989.

Stockholders' equity at Sept. 30, 1990, was $22,776,000, reflecting a stockholders' equity to assets ratio of 9.8 percent. Book value per common share at Sept. 30, 1990, was $12.23. At Sept. 30, 1990 Bancorp's non-performing assets amounted to $9,940,000 compared to $11,549,000 at Dec. 31, 1989, reflecting a decrease of $1,609,000 or 13.9 percent.

Bancorp's President and Chief Executive Officer Donald R. Eldridge said that the third quarter and nine month results reflect losses on sales of marketable securities of $2,038,000 and $1,951,000, respectively, compared to net gains of $262,000 and $526,000, respectively, in the corresponding periods of 1989.

This loss is a result of management's plan to restructure the bank's investment portfolio and to take advantage of tax carryback benefits amounting to $691,000. Such benefits were due to expire after Oct. 31, 1990, Bancorp's year end for income tax purposes.

Also, a write-down of $617,000 has been reflected in the quarter and nine months ending Sept. 30, 1990 to recognize management's judgment that the value of shares of a regional bank stock held in portfolio has been permanently impaired.

In addition, the third quarter and nine month results include decreases in net interest income of $203,000 or 13.7 percent and $1,369,000 or 27.5 percent, respectively, as compared to the prior year's comparable periods, reflecting market conditions, the impact of non-performing assets and higher cost certificates of deposit which have matured during 1990.

The provision for possible loan losses increased $375,000 and $830,000 respectively for the quarter and nine months ended Sept. 30, 1990 compared to the corresponding period in 1989.

These increases are a response to what the bank considers to be a declining regional economy and real estate market in particular which has had an impact on the bank's loan portfolio.

Eldridge commented that he was pleased with the decrease in non-performing assets since Dec. 31, 1989, but still felt that the additions to the loan loss reserves were necessary in these uncertain economic times. Eldridge also noted that the bank's high cost certificates of deposit have continued to mature

resulting in a decline in its cost of funds.

Abington Bancorp Inc. is a holding company that operates Abington Savings Bank as a wholly-owned subsidiary. Abington Savings Bank is a Massachusetts-chartered savings bank whose deposits are insured by the Federal Deposit Insurance Corp. and the Mutual Savings Central Fund Inc. In addition to its headquarters and loan center located in Abington, the bank has two other branches located in Halifax and Kingston, Mass.

#90310b0069 11/06/1990 ~Business Wire

SAN JOSE, CALIF (NOV. 6) BUSINESS WIRE - Valid (NASDAQ:VLID) Tuesday announced that it had received $1.3 million in orders from Litton Guidance and Control Systems in Woodland Hills, Calif.

The orders were for a full package of Valid's electronic design automation software for ASIC design, analog and digital simulation, printed circuit board design, and custom interface development, along with 23 Sun workstations and servers. The systems are being used by Litton to build a new concurrent engineering environment, replacing earlier design tools from Dazix, Computervision and other suppliers.

According to Mel Ashcraft, director of engineering for Litton, the move is part of an overall strategy to develop an efficient and integrated design environment capable of handling many designs simultaneously from start to finish.

''We were looking for someone who could provide a strong set of EDA software tools, network software licensing, and an open platform strategy,'' stated Ashcraft. ''We looked at all the leading EDA vendors and felt that Valid met our requirements the best.''

Using a team of 20 experienced engineers, Litton conducted a year-long evaluation of the design process and available EDA tools. After completing the final benchmark, the evaluators were asked to select between two finalists -- Valid and Mentor.

''An overwhelming majority picked Valid,'' said Ashcraft.

In addition to the applications, Ashcraft cited Access, Valid's network software licensing capability, as a key decision factor, enabling Litton to freely move data and applications between remote divisions during joint design projects.

''When you look at concurrent engineering in real terms, network licensing becomes paramount,'' noted Ashcraft. ''We need to be able to use any or all tools from any or all stations. A lot of people are talking about doing this, but Valid is there.''

Software purchased by Litton also includes Valid's DaisyLink data conversion software for migrating schematics and library models from Dazix design data bases to the new Valid equipment. Ashcraft reported that Litton had already transferred several existing designs and libraries to the Valid environment and planned to migrate a variety of older designs for reuse in future products.

Litton Guidance and Control Systems designs and manufactures inertial navigation systems for all classes of military vehicles. The division also designs digital computers for military and aerospace applications, special display systems, and ship communication and control systems.

Valid is a leading supplier of EDA systems, with 1989 revenues of $174 million. The company designs, manufactures, markets and supports a full line of EDA solutions based on industry standard hardware, operating systems and networks. Valid products are used to develop electronic systems, including integrated circuits, application-specific ICs, and printed circuit boards.

Valid has sales and support operations in more than 40 locations worldwide. Valid corporate headquarters is located at 2820 Orchard Parkway, San Jose, 95134. Telephone is 408/432-9400.

#90310b0070 11/06/1990 ~Business Wire

LOS ANGELES (NOV. 6) BUSINESS WIRE - Spelling Entertainment Inc. (ASE: SP) has created a new wholly-owned subsidiary, Spelling Films International Inc., to acquire and distribute feature films both theatrically and in home video format in the international marketplace, it was announced Tuesday by Aaron Spelling, chairman and chief executive officer, and Jules Haimovitz, president and chief operating officer, of Spelling Entertainment.

Spelling Films International, which will be based in Los Angeles, will begin operations immediately. The company simultaneously announced that Ian Jessel has been named president and chief executive officer of the entity, effective immediately.

In addition to being responsible for overall management of Spelling Films International, Jessel will be actively involved in the development and structuring of European co-production and co-financing agreements.

"Spelling Films International plans to be very aggressive in its acquisition policy," commented Spelling. "And, wherever possible, it will seek to develop projects with strong international partners."

"This is a great opportunity," commented Jessel, "for synergy between films and television. It's a wonderful chance to blend the two."

"Ian's extensive international experience will prove invaluable in broadening Spelling Entertainment's continued expansion into the global arena," said Haimovitz. "We're extremely pleased that he will play an integral role in taking the company into the 1990s."

Jessel most recently was president and chief operating officer of Nelson Entertainment International after serving for four years as vice president of international distribution and marketing for CBS Theatrical Films. He has also

held senior executive positions at I.T.C. International, World Film Services, and Rank Overseas Film Distributors.

Spelling Entertainment is primarily engaged in the development, production and distribution of television series, television series pilots, movies for television and television mini-series. The company also produces feature films financed and distributed primarily by major studios and licenses music and merchandising rights associated with its television properties.

Other wholly-owned subsidiaries are Aaron Spelling Productions Inc., Worldvision Enterprises Inc., and Laurel Entertainment Inc. Aaron Spelling Productions produced "Mr. Mom" and is presently in production on "Soap Dish," starring Sally Field, Robert Downey Jr., Kevin Kline, and Whoopi Goldberg.

#90310b0072 11/06/1990 ~Business Wire

SUNNYVALE, CA (NOV. 6) BUSINESS WIRE - Performance Semiconductor Corp. Tuesday announced that it will make available in the first quarter of 1991 the industry's first Multichip Module with MIPS architecture. Performance calls its Multichip Module PIMM (Performance Integrated Multichip Module).

PIMM operates at system clocks of 30, 35 and 40MHz, producing sustained throughputs of 25, 29 and 33VUPS. PIMM is a fully functional CPU, FPA, 32K Bytes Instruction cache, 32K Bytes Data cache and PACEWRAP R3100A system bus interface chip in this single VLSI package, replacing approximately 50 packages used on earlier designs.

The module is in a single 144 pin VLSI PGA package for commercial applications and a single 144 lead VLSI Quad Flat Pack for military applications.

PIMM operates using the standard MIPS Computer Systems Inc. compilers and operating systems with no limitations in their applicability. It is targeted at a broad range of applications from workstations to high-end embedded controllers for both commercial and military users. Commercial 1000 piece PIMM pricing is $578 for 30MHZ, $752 for 35MHz and $983 for 40MHz.

Performance has consistently been the MIPS Architecture leading supplier beginning with the development of the first R3000 operating at 25MHz in March 1988. This was followed quickly by production with Performance shipping enough good die by January 1989 for 50,000 PACEMIPS processor and floating point accelerator chips.

In February 1989 Performance became the first RISC processor vendor to ship over $1 million of RISC processors in a single month. Performance shipped the first 33MHz PR3000s in July of 1989 and the first 40MHz PR3000As in July of

1990. Next year, Performance will begin shipping the next generation MIPS RISC processor, the R4000.

Performance first entered the multichip module arena in 1989 with the PACE1757M, a 16-bit product that combined three chips from its highly successful MIL-STD-1750A 16-bit PACE1750A family into a single VLSI package for military applications. The next product was the PACEMIPS R3400A, a single VLSI package with the PR3000A and PR3010A in the same pinout as the PR3000A. They began shipping the PR3400A in mid-1990.

PIMM is a new level of integration in multichip modules for RISC microprocessors. It incorporates the PR3000A, PR3010A, four BIcameral SCRAMS (Dual 8Kx15 chips with on chip address latches), and the PACEWRAP (PR3100A), a Write, Read and Parity buffer.

These seven chips are configured to limit the outside signal interface to only the clocks, interrupts and system bus interface. The system bus is accessed through the Performance PACEWRAP, PR3100A.

#90310b0104 11/06/1990 ~Business Wire

NEW YORK (NOV. 6) BUSINESS WIRE - GenCorp Chairman and Chief Executive Officer A. William Reynolds spoke to the New York Society of Security Analysts in New York City today (Tuesday).

In that address, Reynolds reviewed the company's outlook for 1990 and 1991 and outlined his reasons for confidence in GenCorp's longer term business prospects.

Here is a summary of the principal points which Reynolds made in his address:

''I see GenCorp as a company of great technological capability and strong competitive positions in very large industries; a company with somewhat higher debt than desirable and a variable earnings history, but with manageable financial challenges and a clear understanding about what it must do over the next few years to get onto a rock-solid foundation. I believe our management team is fully committed to getting there. I have confidence in our future,'' he said.

He commented on the company's earnings outlook for 1990 by saying, ''I recognize that my visit to New York in the last month of our fiscal year requires me to comment on our outlook for 1990. I do so with a good deal of caution. I have not yet seen our actual results for October.

''At the end of every year there is a possibility of accounting adjustments. But recognizing those uncertainties and without making forecasts, let me say that our current expectations would not surprise analysts who follow us closely and who do make forecasts.

''Their forecasts for earnings per share are generally in the range of 85 cents to 95 cents for continuing operations, excluding our Sacramento environmental settlement and other special items. That would be roughly equal to 1989. Including special items would add another 57 cents. Two weeks ago we would have expected to be near the top end of that range. We were surprised by the wave of automotive assembly plant shut downs announced after fairly strong mid-October vehicle sales. We are still assessing the impact of those shut downs on November, but we would now expect to be at the lower end of the analysts range.''

In looking ahead to 1991, Reynolds said the company is approaching the year with a great deal of caution. ''For planning purposes, we are looking for a flat year in terms of sales and operating profit,'' he said. Reynolds indicated that sales and operating profit for Aerojet, the company's aerospace/defense segment, should be about equal in 1991 to its sales and operating profit for 1990.

GenCorp is a technology-based company with strong positions in aerospace, automotive and related polymer products.

#90310b0116 11/06/1990 ~Business Wire

BEVERLY HILLS, CA (NOV. 6) BUSINESS WIRE - The 15th ship in a series of 19 Aegis guided missile cruisers being built for the U.S. Navy by Litton's Ingalls Shipbuilding division will be christened Anzio at Ingalls' Pascagoula, Miss., production facility on Saturday, Nov. 10.

The name Anzio commemorates the World War II action of U.S. and Allied forces in four months of battles against German troops in the Anzio-Nettuno beachhead area of Italy leading to the breakout toward Rome in May 1944.

The 567-foot, 9,500-ton ship, designated CG-68, is equipped with the Aegis combat system, the world's most advanced air defense system for surface ships. The vessel also is equipped with a below-deck vertical launching system capable of firing missiles against air, surface and undersea threats.

Four gas turbine jet engines, generating a total of 80,000 shaft horsepower, will drive the ship to speeds in excess of 30 knots.

Lead builder for this class of ships, Ingalls has delivered 13 of the 19 Ticonderoga (CG-47) class Aegis cruisers it has been contracted to produce.

In addition to construction of six more Aegis cruisers, including Anzio, Ingalls is currently contracted to build six Aegis destroyers and three 40,500-ton Wasp class amphibious assault ships for the Navy.

Since 1975, Ingalls has delivered 54 newly constructed major surface combatant ships to the Navy, including destroyers, cruisers and amphibious assault ships.

Litton is a technology-based company providing advanced electronic and defense systems, resource exploration services and industrial automation systems to U.S. and world markets.

#90310b0117 11/06/1990 ~Business Wire

ALBANY, NEW YORK (NOV. 6) BUSINESS WIRE - Lawrence Insurance Group Inc.'s (LIG) (AMSE:LWR) net earnings for the three months ended Sept. 30, 1990 were $2,010,000, as compared with net earnings of $949,000 for the same period in 1989.

Earnings for the third quarter of 1990 were consistent with the average of $2,024,000 experienced during the first two quarters of 1990. Operating results for the third quarter of 1990 reflected the positive impact on earnings generated as a result of LIG's acquisition of United Republic Reinsurance Co. (URRC) during the fourth quarter of 1989.

Per share earnings increased to 14 cents on 14,121,482 shares outstanding from 9 cents on 10,963,587 shares for the same quarter last year.

Gross premiums earned increased 41 percent over the third quarter of 1989. Consolidation of URRC's financial data with LIG for the three month period ended Sept. 30, 1990 accounted for 26 percent, and 15 percent was contributed by United Community Insurance Co. and Senate Insurance Co.

Net premiums earned increased by 102 percent reflecting the combined benefit of increased gross premiums and the fact that less reinsurance was purchased, thus keeping more of the business in-house.

Net investment income rose 60 percent reflecting the increase in the average invested asset base between the third quarters of 1990 and 1989. Total operating expenses rose in approximately the same proportion as the increase in net premiums earned.

On a year-to-date basis, net earning for the nine months ended Sept. 30, 1990 increased 63 percent to $6,058,000 from $3,722,000 for the same period in 1989. Earnings per share increased 26 percent to 43 cents on 14,121,482 shares outstanding from 34 cents on 10,963,587 shares.

Through its subsidiaries, Lawrence Insurance Group Inc. is currently licensed or accredited in 45 states and Washington, D.C. with applications in process in the remainder. The company's common stock is traded on the American Stock Exchange under the symbol LWR. The group is comprised of United Community Insurance Co.; United Republic Reinsurance Co.; Senate Insurance Co.; and Commercial Resources Insurance Co.

Executive offices of Lawrence Insurance Group Inc. are located at 500 Fifth Avenue, in New York City, while the operating headquarters is at 33 Elk Street Albany, New York.

BLUE BELL, PA (NOV. 6) BUSINESS WIRE - Unisys Corp. Tuesday announced the V460, a new dual-processor model for its V400 line of mainframe computers.

The new system was unveiled to customers last week during a semiannual conference sponsored by CUBE Inc., a North American association of Unisys systems users.

The new Unisys V460 boosts the performance of the single-processor V430 by nearly 80 percent, expanding the onsite, in-cabinet growth range of the V400 series to 3.6 times the performance of the entry-level V410. Current users of V430 systems can upgrade to a V460 in just hours with the new V436 field kit.

The V460 system consists of two central processing units (CPUs) based on Complementary Metal Oxide Semiconductor (CMOS) technology, 20MB of main memory (expandable to 40MB) featuring 1Mbit Dynamic Random Access Memory (DRAM) chip technology, an I/O subsystem that has a combined data transfer rate of up to 16MB per second, and a maintenance subsystem built around a Unisys B28 workstation.

The V460 is object-code compatible with previously released Unisys (Burroughs) B2900/B3900/B4900 and V300/V400/V500 mainframes.

Unisys V Series mainframes are general-purpose data processing computers designed for transaction-intensive applications in batch and real-time environments. V Series processors are integral components of Unisys Corp.'s

industry-leading check and check image processing (InfoImage IIPS) systems.
Availability and Pricing

The Unisys V460 mainframe computer will be available in March, 1991. Pricing starts at $535,000.

IRVINE, CALIF (NOV. 6) BUSINESS WIRE - Startel Corp. (NASDAQ:STAS) Tuesday announced results from operations for the third quarter ended Sept. 30, 1990, with revenues of $1,106,000, down 42 percent from $1,916,000 in the same period of 1989.

Net loss for the third quarter was $562,000 compared with income of $101,000 in the same period of 1989. Related loss per share for the third quarter was 12 cents per share compared with earnings of 3 cents per share in the same period of 1989.

Results for the nine months ended Sept. 30, 1990, included revenues of $4,832,000, down 14 percent from $5,596,000 in same period of 1989. Net loss for the nine months ended Sept. 30, 1990, was $438,000 compared with a loss of $848,000 in the same period of 1989.

Related loss per share for the nine months ended Sept. 30, 1990, was 9 cents per share compared with a loss of 18 cents per share in the same period of 1989.

Don Berry, chairman of the board of Startel, stated that the decline in revenues in the third quarter was attributable primarily due to reduced capital spending by customers as a result of uncertainty regarding the U.S. economy and the international situation.

Additionally, the company embarked on a program to strengthen its sales and marketing organization through professional consultation, reorganization, education and training. The changes associated with this program also had a negative impact on the third-quarter results.

It is anticipated that this investment will have a positive impact on the company's future revenues and profitability.

Startel continues to maintain a strong balance sheet with over $800,000 in cash and no bank debt. The company is committed to maintaining its leadership in providing telemessaging systems to hospitals, universities, executive suites and telephone answering bureaus.

Startel manufactures and markets telecommunications systems with integrated voice, data, database and networking capabilities. Startel has installed to-date approximately 1000 systems worldwide in corporations, executive suites hospitals, telemarketing centers and telephone answering bureaus.

ROUYN-NORANDA, QUEBEC (NOV. 6) BUSINESS WIRE - Lyon Lake Mines Ltd. (ME: LLL) announces that additional drilling and trench sampling results were received from the Beta Vargas property in Costa Rica.

Lyon Lake has the right to acquire a 50% interest from Black Cliff Mines Ltd. in this property and in three other properties totalling 78 square kilometers. Results from drill hole No.4, located 50 meters north of drill hole No. 1 which had intersected 59 feet at 0.035 oz/st in gold, are as follows:

Drill Hole No. 4	Meters	Feet	Oz/st Au
From 9.1 m to 21.3 m	12.2	40	0.084
From 68.0 m to 69.2 m	1.2	4	0.207

Because of problems encountered with the recovery of the drill core due to ground conditions, the hole had to be stopped at 69.2 meters.

Drill hole No. 2, located 50 meters east of hole No.4, had to be stopped at only 31 meters without having reached the favorable horizon. Drill hole No. 3, located 50 meters west of drill hole 90-4, did not intersect significant values. At the same time however, trenching carried out more to the south of hole No. 3 indicated an average of 0.123 oz/st in gold over 65 feet.

Drilling continues on the property and sampling and geological reconnaissance work is being carried out on the adjacent properties, Canamazo and Nancital. A bulk sample will also be done in November on the Beta Vargas property in order to conduct heap leaching tests in Canadian laboratories.

SAN FRANCISCO (NOV. 6) BUSINESS WIRE - For the first time, California consumers can choose MCI's long distance service to complement the 800 services offered by local telephone companies.

Through this complementary offering, subscribers to Pacific Bell's Custom 800 service or GTE's Business Line service can select MCI for the in-state, long-distance portion of their 800 calls.

''We're pleased to be able to give customers MCI quality through this arrangement with Pacific Bell and GTE,'' said George DeSola, vice president of sales and marketing. ''This complementary offering is another value-added element in our 800 service capabilities.''

Through Complementary 800 service, consumers can combine features offered by Pacific Bell or GTE with MCI's advanced 800 services, including tailored call coverage and flat-rate distance-sensitive pricing.

In addition, customers have the flexibility to pinpoint areas in California in which to offer toll-free access. The service is available through a single call to the customer's local telephone company.

MCI's own family of 800 services includes Personal 800, which was introduced last month. The service provides residential customers with 800 calls directly to their homes for a single, low, per-minute rate, regardless of distance of calls or number of calls made. Personal 800 service is only available by calling MCI.

MCI Communications Corp., the nation's second-largest long-distance telecommunications company, maintains its Pacific Division headquarters in San Francisco, and serves residential and business customers with domestic and international communications services.

#90310b0209 11/06/1990 ~Business Wire

MILWAUKEE (NOV. 6) BUSINESS WIRE - Applied Power's net earnings for fiscal 1990 were $19.6 million, or $1.48 per share, which included $7.0 million, or 52 cents per share, of non-cash amortization and asset write-up depreciation charges from recent acquisitions.

1989 net earnings were $19.8 million, or $1.51 per share, which included $2.6 million of amortization and asset write-up depreciation charges and a net $1.6 million of favorable unusual items.

Without these charges and unusual items, Applied Power's ''cash profits'' in 1990 were $26.6 million, or $2.00 per share, up 28 percent compared to 1989 ''cash profits'' without unusual items of $20.8 million, or $1.58 per share.

Earnings for Applied Power's 1990 fourth quarter were $5.0 million, or 38 cents per share. Cash profits as defined above were $6.7 million, or 51 cents per share, and were 11 percent higher than the equivalent number for ongoing operations in 1989.

Earnings in the 1989 fourth quarter were $4.6 million, or 35 cents per share. Cash profits in the 1989 fourth quarter without unusual items were $6.1 million, or 46 cents per share.

Total net sales for 1990 were $445.4 million, up 81 percent over sales of $246.2 million in 1989. Orders in 1990 were $446.1 million, up 69 percent over $263.2 million in 1989. Sales in the fourth quarter of 1990 were $111.1 million, up 32 percent over $84.3 million in 1989. Orders in the fourth quarter were $108.9 million, 20 percent above $90.7 million in 1989.

Fourth-quarter orders for Enerpac, Power-Packer, GB Electrical and APITECH segments were up 8 percent, 17 percent, 18 percent and 62 percent, respectively, over the fourth quarter of 1989. The Barry Controls and Wright Line segments, acquired on June 28, 1989, as part of the acquisition of the Barry Wright Corp., are not comparable.

Richard G. Sim, the chief executive officer of Applied Power, noted that the improvement of orders for Applied Power's traditional business in the fourth quarter as well as early indications of continued improvement in the first quarter of 1991 demonstrates the importance of Applied Power's global reach to cushion the effects of recession in parts of the world. While orders in the U.S. businesses remain about even with last year, orders in Europe and Asia continue to improve strongly in local currencies and are further increased due to the current weakening of the U.S. dollar.

Total debt at year end was $195.2 million, down $3.6 million from the end of the third quarter. During the fourth quarter Applied Power completed a $75 million 10-year private placement to reduce commercial paper by an equal amount. The company also finalized transfer of approximately $50 million of debt to outside the U.S. into subsidiary debt in local currencies to take advantage of U.S. tax regulations and to provide a better hedge against currency fluctuations.

Applied Power is traded on the NASDAQ National Market System under the APWRA symbol. Applied Power is a global company which manufactures and distributes tools, equipment, systems, components and consumable items to manufacturing, construction, transportation, mobile equipment, aircraft, natural resource, specialized machinery and office markets.

SEYMOUR, IN (NOV. 6) BUSINESS WIRE - The annual meeting of shareholders of Home Federal Savings Bank (NASDAQ:HOMF) was held Tuesday, Oct. 30, in Seymour.

All proposals brought before the meeting received shareholder approval. John K. Keach Jr., president and chief operating officer of Home Federal; and David W. Laitinen M.D. were elected directors of Home Federal. Eugene C. Burke, a director since 1972, retired from the board at the close of the annual meeting.

The reorganization of Home Federal into the holding company form of ownership was approved by shareholders. Home Federal will become a wholly owned subsidiary of Home Federal Bancorp, a newly formed Indiana corporation. The effective date of the reorganization is expected to be Dec. 1, 1990.

Shareholders will have the option to exchange Home Federal stock certificates for holding company stock certificates. Instructions with respect to the voluntary exchange of these stock certificates will be sent to all shareholders of record after the effective date of the reorganization.

Also amended was Home Federal's charter to change the address of its home office from 211 N. Chestnut St., Seymour; to 222 W. Second St., Seymour.

Home Federal is an FDIC insured savings bank founded in 1908, currently operating 14 full-service offices in southeastern Indiana, with total assets of $516 million.

WALNUT CREEK, CA (NOV. 6) BUSINESS WIRE - Air Liquide America announced an increase to its existing price schedules for bulk liquid and gaseous oxygen, nitrogen, argon, hydrogen and carbon dioxide supplied to U.S. customers to be effective Dec. 1, 1990. This increase applies to both the National Price Schedule and the Western U.S. Schedule for California, Nevada, and Arizona.

The new price schedules reflect a ten percent increase on all gases. Air Liquide America is also removing discounts so the actual increases realized by individual customers will vary depending on the relationship between their current pricing and the revised schedule. Continuing cost increases in the manufacture of industrial and medical gases made these increases necessary.

Air Liquide America is part of the world's largest industrial gas organization L'Air Liquide, S.A. Air Liquide America's operations within the United States include Liquid Air Corporation's Merchant Gases Division, Big Three Merchant Gases Division, Cardox and Alphagaz.

These divisions serve the diverse needs of the semiconductor, advanced materials, laser, food, beverage, medical, pulp and paper, wastewater treatment, metallurgy, welding, research and development industries with both cryogenic and non-cryogenic gases.

LOS ANGELES (NOV. 6) BUSINESS WIRE - Mosby-Year Book, a subsidiary of The Times Mirror Co., announced Tuesday that it has completed the purchase of the book publishing operations of B.C. Decker Inc., widely known for its titles in the field of medicine and related disciplines.

In March of this year, Mosby-Year Book acquired 45 percent of B.C. Decker's capital stock.

''B.C. Decker is noted for its innovative and high-quality books,'' said Patrick A. Clifford, Times Mirror's vice president for medical, scientific, technical and college publishing.

''This acquisition is an attractive addition to Mosby-Year Book's list of premier medical, dental and allied health titles and will significantly strengthen our worldwide sales. The quality of the B.C. Decker list and its impressive growth is testimony to the creative and well-executed strategy of its founder, Brian C. Decker.''

Brian C. Decker will continue as president of B.C. Decker, which will operate at its present Philadelphia location as a Mosby-Year Book subsidiary.

The current transaction represented the acquisition of the outstanding Decker shares not owned by Mosby-Year Book. B.C. Decker's Canadian-based journal and electronic publishing operations were not included in this transaction. Additional terms of the agreement were not disclosed.

Times Mirror (NYSE/PSE:TMC), a Los Angeles-based media and information company publishes the Los Angeles Times, Newsday and New York Newsday, the Baltimore Sun newspapers, The Hartford Courant, The Morning Call, The (Stamford) Advocate and Greenwich Time. The company also has interests in broadcast and cable television, and book, magazine and other publishing.

#90310b0291 11/06/1990 ~Business Wire

FRESNO, CA (NOV. 6) BUSINESS WIRE - WestAir Holding Inc. (ASE:WAH), operating as United Express, Tuesday reported operating results for the third quarter ended Sept. 30.

Operating revenues for the third quarter increased 38 percent to $67.9 million compared to the like period in 1989. The company showed an operating loss for the quarter of $1,920,000 compared to an operating income of $2,566,000 in 1989. The net loss was $1,346,000 (21 cents per share based on 6,554,000 common share equivalents) compared to 1989 net income of $1,470,000 (20 cents per share based on 7,335,000 common share equivalents).

For the third quarter of 1990, passenger boardings increased 23 percent to 787,478 compared with 640,030 in 1989. Revenue passenger miles rose 32 percent from 130,730,000 in 1989 to 172,025,000 in 1990.

Available seat miles for the period increased 36 percent from 280,463,000 in 1989 to 380,616,000 this year. Load factor decreased from 46.6 percent to 45.2 percent. Passenger journey increased 7 percent from 204 miles in 1989 to 218 miles in 1990. Yields increased 4 percent to 38 cents in 1990 compared with 37 cents for the third quarter 1989.

''A sharp rise in revenues and improved yields during the period were offset by dramatically increasing jet fuel costs and higher maintanence expense associated with expiration of manufacturer's warranties,'' said WestAir Holding Inc. Chairman Timothy P. Flynn.

''The average fuel price per gallon during the quarter was 88 cents, a 27 percent rise compared to the 70 cents a gallon we paid during the quarter last year. Fuel represented 13.2 percent of total expenses compared to 11.7 percent during the same period last year,'' Flynn said.

''With today's estimated average fuel price at $1.36 per gallon, the outlook is for greater losses for the fourth quarter and thus a loss for the year,'' Flynn added. WestAir last month announced a system-wide route realignment, an accelerated fleet modernization program and a corresponding workforce reduction in an effort to cut costs and non-productive flying.

For the nine months ended Sept. 30, WestAir Holding Inc. showed a net profit of $243,000 on operating revenues of $194.4 million. Earnings per share through the nine months was 4 cents (based on 6,579,000 common share equivalents).

WestAir Holding Inc.'s airline units operate as United Express through marketing agreements with United Airlines. The company previously announced it is merging its wholly owned subsidiaries into a single airline operation with a Pacific Coast and an Atlantic Coast Division. WestAir Holding serves cities in the West and along the East Coast utilizing both jet and turbo-prop aircraft.

The company's major hubs are Los Angeles, San Francisco, Portland, Seattle, Sacramento and Washington.

WestAir Holding Inc. is headquartered in Fresno.

EAST HARTFORD, CT (NOV. 6) BUSINESS WIRE - KCR Technology Inc. (NASDAQ:KCRT) Tuesday filed a voluntary petition seeking reorganization under Chapter 11 of the United States Bankruptcy Code.

Incorporated in 1977, KCR has been engaged in the development of a high speed, non-pact printing system based on direct charge deposition technology. KCR presently maintains 18 units of its printing system with customers in various lines of business.

It intends to continue maintenance of those systems during the Chapter 11 proceedings. Recently KCR announced a down-sizing program and its withdrawal from active manufacturing and marketing of its printing system in order to focus its limited resources on further product development.

When the down-sizing program was initiated, KCR stated that its long-term viability would depend upon completion of the development of its product and the formation of a strategic partnering relationship with an entity which could provide financial, manufacturing and marketing support.

Moore Business Forms Inc., the principal stockholder of KCR, has agreed to provide funding temporarily and on a limited basis during the Chapter 11 proceeding while alternatives for the future of KCR are explored.

#90310b0334 11/06/1990 ~Business Wire
EL SEGUNDO, Calif. (NOV. 6) BUSINESS WIRE - Merisel Inc. (NASDAQ:MSEL) Tuesday reported a net loss of $1,264,000, or 5 cents per share, for the third quarter, down from net income of $2,170,000, or 17 cents per share in the same period in 1989.

Net income for the nine months ended Sept. 30, 1990, decreased to $115,000, or 1 cent per share, compared with $6,871,000, or 54 cents for the same period in 1989.

Net sales for the third quarter 1990 were $305,956,000, compared with $151,616,000 in the same period in 1989. Net sales for the nine months ended Sept. 30, 1990 increased to $835,569,000, compared with $441,332,000 in the same period in 1989.

Merisel President and Chief Executive Officer Michael D. Pickett said: ''The loss is reflective of duplicate expenses associated with the merger and due to the industry's traditional summer slowdown. The increase in sales is reflective of our recent merger, continued increase in international sales and growth of the combined company.

''We concentrated our efforts this quarter on reorganizing and streamlining our operations, while establishing our new sales strategy consisting of sales divisions targeted at market segments such as VAR, Retail, Workstation, Major Accounts and Macintosh.''

Merisel, formerly Softsel/Microamerica, is one of the largest distributors of microcomputer hardware and software products to computer resellers worldwide. The company presently stocks over 7,000 products from more than 400 hardware and software manufacturers for sale to 50,000 resellers worldwide.

International operations account for approximately 30 percent of sales and consist of seven wholly-owned subsidiaries serving resellers in Canada, Europe Latin America, and Australia, in addition to a joint venture in the Soviet Union.

The company supplies products for microcomputer platforms including Apple Macintosh, IBM and compatibles, and a variety of UNIX and workstation systems, and offers a wide range of services to help resellers support these products.

SUNNYVALE, CA (NOV. 6) BUSINESS WIRE - Boole & Babbage Inc. (NASDAQ: BOOL) Tuesday announced audited results for its fiscal year ended Sept. 30.

Revenue for fiscal 1990 increased 33 percent to $93,927,000 from $70,568,000 in fiscal 1989. Fiscal 1989 revenue is net of $4,200,000 from a one-time sale of product distribution rights in Japan.

Net income for fiscal 1990 was $4,942,000, or $1.27 per share, up 25 percent from the $3,939,000, or $1.05 per share earned last year. Fiscal 1989 profit is net of $1,039,000, or 28 cents per share, from the sale of a product family and the sale of product distribution rights.

Revenue for the fourth quarter of fiscal 1990 was $25,273,000, a 33 percent increase from the $19,014,000 reported in the fourth quarter last year. Net income for the fourth quarter was $1,511,000, or 39 cents per share, compared to $1,350,000, or 35 cents per share, for the year-ago period.

In commenting on the results, Han Bruggeling, president and chief executive officer said, ''Fiscal 1990 was a challenging year for us. We saw relatively robust growth in our base systems software business. Although net income was up 25 percent over last year, profits would have been higher if not for the continued losses we have experienced in integrating our new network subsidiary Avant-Garde Computing.

''We're encouraged that revenues from Avant-Garde's product, Net/Command, have increased recently and expect that continued sales growth will soon lead to Avant-Garde's profitability.'' Avant-Garde recently changed its name to Boole & Babbage Network Systems.

''We continue to be very optimistic about Boole & Babbage's prospects, as more and more online organizations around the world turn to our performance management solutions,'' Bruggeling concluded.

Boole & Babbage is a leading developer and worldwide distributor of software products for automation and management of complex information systems. The company sells its products directly through its domestic sales organization, Empact Software, Boole & Babbage Computer Services, and Boole & Babbage Europe.

Internationally, the company sells its products through distributors in Australia, Japan, Korea, the Pacific Rim and Latin America.

#90310b0606 11/06/1990 ~Business Wire

PURCHASE, NY (NOV. 6) BUSINESS WIRE - International Paper Tuesday announced that it has agreed to acquire the Cookson Graphics business from Cookson Group plc of the United Kingdom for approximately $215 million. (U.S.).

Cookson Graphics is a global supplier of lithographic printing plates, press-room chemicals and plate processing equipment to the commercial printing industry. It has manufacturing facilities in the U.K., Germany and the U.S. It is estimated that Cookson Graphics' 1990 sales will total approximately $300 million. The company employs 1,600 worldwide.

''The acquisition of Cookson Graphics represents a continuation of our strategy in graphic arts,'' said John A. Georges, chairman and chief executive officer of International Paper. ''Cookson Graphics' product lines complement the photosensitive papers and films made and sold by our Anitec division.

''With this acquisition, International Paper's total sales of consumables and equipment to the commercial printing industry will more than double to nearly $600 million. Together with our Ilford division, which produces professional black-and-white and color papers and films, International Paper's total sales in imaging products will exceed $900 million.''

International Paper also indicated that it expects a smooth integration between Cookson Graphics and Anitec. In the U.S., Anitec's strong dealer network will be helpful in accelerating the growth of Cookson Graphics' printing plate sales. In Europe, Anitec and Cookson Graphics both have significant sales forces and dealerships. The acquisition is expected to further increase International Paper's European penetration of both film and plate markets.

International Paper, headquartered in Purchase, N.Y., is a worldwide producer of a variety of paper and forest products. The company is a major producer of printing and writing papers, paperboard and packaging products and wood products.

The company also operates specialty products businesses and distributes paper and wood products. International Paper has manufacturing operations in 22 countries and exports its products to more than 100 nations.

TROY, MICH. (NOV. 6) BUSINESS WIRE - Inacomp Computer Centers Inc. (NASDAQ Symbol: INAC) Monday announced the signing of an agreement with NEC Technologies Inc. to provide NEC's full line of products to Inacomp locations.

A major reason behind Inacomp's decision to adopt the NEC line was to provide incremental opportunities through it's franchise and company owned locations, explained Rick Inatome, Inacomp president and CEO. ''The fact that many of our locations were already selling NEC products and many potential franchises expressed interest in the product line influenced our decision,'' said Inatome. ''This product line provides additional opportunities.''

''There are numerous market opportunities that require diverse offerings for specific applications and customer sets. We feel NEC products will help us capture these new opportunities, maximizing our market penetration without displacing sales from our existing vendors,'' Inatome continued.

''NEC is delighted about our new partnership with Inacomp and confident that this will be a beneficial relationship to both parties involved,'' said Mike Anderson, executive vice president of NEC Technologies Inc. ''Inacomp's commitment to customer support and value-added solution sales will create many new opportunities for NEC to expand business.''

Inatome further stated that NEC can address several market niches with its full range of products, including desktop and laptop computers, monitors, printers and CD-ROM software and hardware.

NEC Technologies Inc. is an affiliate of NEC Corp., a $24-billion manufacturer of computer, communications, semiconductor and home entertainment products. The company is headquartered in Boxborough, Mass.

Inacomp Computer Centers Inc. markets microcomputer systems and related products and services through over 230 company owned, franchised and affiliate locations across the country. The company provides network consultation, installation, classroom training, system maintenance and repair to its customers. Inacomp also provides short-term rental and long-term leasing of microcomputer systems. Corporate offices are in Troy.

MILPITAS, CALIF. (NOV. 6) BUSINESS WIRE - Dysan International has announced it will market the Dysan brand Magneto Optical Disks (MO) worldwide, by forming a marketing alliance with Hoechst AG, one of the world's leading chemical companies, based in Germany, has invested heavily in Magneto Optical Disk technology to ensure the manufacture of high-quality, precision products.

Hoechst began marketing 5.25-inch and 3.5-inch disks worldwide in April 1990, focusing mainly on drive manufacturers and system integrators.

The Ozadisc Media factory in Wiesbaden, West Germany, has a production capacity of more than 1 million disks per year. The Ozadisc Business Unit is part of the Technical Information Systems Division, with 22 production facilities worldwide, as well as marketing and technology centers in North America and the Far East.

Overall, Hoechst employs 169,000 people worldwide in production, research and development, and marketing. Six thousand people are active within research and development with a budget of 2.6 billion DM (US $1.6 billion) in 1989. The Hoechst Group is a major producer of chemicals, colors, fibers, polymers, pharmaceuticals, agriculture and engineering products with sales of 46 billion

DM (US $28 billion) in 1989.

Dysan International will market the Dysan brand Magneto Optical Disks through their established distribution channels for flexible disks. ''We seized the opportunity to market Magneto Optical Disks in order to continue our growth in the high technology industry of removable storage media,'' stated Phil Micciche, president of Dysan International.

With headquarters in Milpitas, Dysan International is the worldwide distributor of Dysan, Precision, StorageMaster, XM2 and Xidex brand flexible disks, with five sales offices in the United States, as well as subsidiaries in Canada, the United Kingdom, Germany, Australia and Hong Kong.

CUPERTINO, CALIF. (NOV. 6) BUSINESS WIRE - The Motorola Commercial Systems Division (CSD) announced it will debut at COMDEX/Fall a prototype of a new integrated imaging and facsimile package for the company's MultiPersonal computer.

Motorola will demonstrate the prototype of the MultiPersonal's new imaging system at COMDEX/Fall (booth 1088, Main Hall) in Las Vegas, Nov. 12-16. The product will be available in the first quarter of 1991.

Motorola executives claim the new hardware and software features of the imaging system will help the company continue to compete aggressively in the growing corporate publishing and office automation markets. Dataquest, a San Jose-based market research firm, expects the market for electronic publishing equipment to grow to $75 billion in the next 10 years.

''The MultiPersonal computer's bundled networking and graphics capabilities, combined with its high performance, make it a natural platform for corporate publishing and office automation applications,'' said Warren Blossom, CSD vice president of marketing.

The new integrated package will allow MultiPersonal computer users to scan or import images, enhance them visually while displayed on the screen and then place the image in a document that can be printed or sent anywhere in the world through an online facsimile capability.

According to Blossom, while similar imaging/facsimile capabilities are available by combining several stand-alone PC publishing packages or by investing in expensive, proprietary high-end systems, Motorola will be the first to offer these enhancements in a networked and integrated

hardware/software package based on open computing standards.

When the product becomes available next year, all imaging, scanning and facsimile software modules will also be integrated with the applications that are bundled with the MultiPersonal computer.

The Commercial Systems Division of the Motorola Computer Group, based in Cupertino, designs and manufactures commercial workstations and network servers, multiuser workgroup systems and turnkey hardware/software solutions -- all based on ''open'' standards -- for commercial and government markets. These products are marketed to end users, value-added resellers, distributors and original equipment manufacturers.

Motorola Inc. is one of the world's leading providers of electronic equipment, systems, components and services for worldwide markets. Products include two-way radios, pagers, cellular telephone systems, semiconductors, defense and aerospace electronics, automotive and industrial electronics equipment, computers, data communications, and information processing and handling equipment.

#90310b0617 11/06/1990 ~Business Wire

IRVINE, CA (NOV. 6) BUSINESS WIRE - BoMed Medical Manufacturing Ltd. (NASDAQ:BOMD) premiered its CardioDynamic Manager/Central Nursing Station (CDM/CNS) system, the first non-invasive bedside hemodynamic patient monitoring and management system, during the 1990 American Society of Anesthesiologists (ASA) meeting, recently held in Las Vegas.

The CDM/CNS system allows nurses to monitor and hemodynamically manage up to four patients at a time from the central nursing station or from the patient's bedside.

The system's technology originated from BoMed's CardioDynamic Data Processing (CDDP) system. CDM/CNS is a real-time, non-invasive and non-occlusive hemodynamic patient management system that uses electrical bioimpedance to measure the patient's hemodynamic parameters -- global blood flow and mean arterial blood pressure.

The CDM/CNS system measures the patient's hemodynamics by using electronic data gathered by strategically placed electrodes, which use the patient's thorax as a transducer.

The data are displayed in two easy reading charts -- the Therapeutic Management Page (TMP), which processes the patient status in relation to the ideal hemodynamic state and calculates deviations in volume, inotropy and vasoactivity, and the Diagnostic Page (DP), which incorporates bar graphs displaying hemodynamic and cardiodynamic parameters in respect to the established normal range for each.

The CDM/CNS system measures mean arterial blood pressure and cardiac index in real time with the same clinical accuracy as invasive methods, yet has been considered a safer, non-invasive alternative to the invasive procedures.

Its numerous applications range from preoperative assessment to intraoperative and postoperative patient management in intensive care, cardiology, OB/GYN, anesthesia, hypertension and others.

BoMed is a leader in the field of non-invasive cardiodynamic monitoring and patient management. The company develops, manufactures and markets technically advanced instruments for a broad range of patient monitoring and therapeutic management applications.

RIDGEWOOD, NY (NOV. 6) BUSINESS WIRE - Quarex Industries Inc. (NASDAQ:QRXI) announced Tuesday increased sales and earnings for the quarter ended Sept. 28 1990.

In addition, Quarex announced combined sales and earnings for the quarter ended Sept. 28, 1990 prepared on a pro-forma combined basis with the sales and earnings reported by PSL Foods Inc. and affiliates with respect to its retail food business.

Quarex had previously announced that it has agreed in principle to combine with the retail food business of PSL.

Quarex reported net sales of $52,491,379 for the 13 weeks ended Sept. 28, 1990 as compared to $49,411,385 for the 13 weeks ended Sept. 29, 1989.

Quarex's net income of $501,559 for the 13 weeks of 1990 showed an increase of 8 percent over the net income of $463,141 during the 1989 period. Quarex's per share earnings increased to 14 cents in the 1990 quarter from the 13 cents reported in the 1989 quarter.

For the 39 weeks ended Sept. 28, 1990, Quarex's net sales increased to

$150,993,932 from $143,903,000 reported for the same period in 1989, an increase of 5 percent.

Quarex's net income for the 39 weeks of 1990 rose to $1,450,679, an increase of 25 percent over the $1,160,386 reported for the same period of 1989. As a result Quarex's per share earnings for the 39 weeks of 1990 rose to 41 cents, an increase of 8 cents per share over the earnings of 33 cents per share reported for the the same period of 1989.

For the quarter ended Sept. 28, 1990, on a pro-forma combined basis, net income of Quarex and PSL totaled $1,116,004 on sales of $67,922,110.

The per share earnings for the quarter ended Sept. 28, 1990 is calculated as 22 cents.

On a pro-forma combined basis net income of Quarex and PSL for the 39 weeks of 1990 totaled $2,836,818 on sales of $192,343,213. The per share earnings for the 39 weeks is calculated at 57 cents.

Additionally, PSL announced that on Oct. 29, 1990 it had opened an additional western beef store in the Springfield Gardens section of Queens, N.Y.

It is anticipated that this unit will add significantly to both sales and profits.

Jules Verner, Quarex treasurer, stated that Quarex anticipates additional growth during the balance of 1990 and also into 1991.

#90310b0622 11/06/1990 ~Business Wire

MONTGOMERY, AL (NOV. 6) BUSINESS WIRE - At its quarterly board meeting, Colonial BancGroup's (OTC:CLBGA) board of directors approved payment of its regular dividend of 15 cents on Class A common stock and 5 cents on Class B common stock.

The dividends will be paid on Nov. 13, 1990, to shareholders of record as of Nov. 6, 1990.

Colonial BancGroup chairman and chief executive officer Robert E. Lowder announced that net income for the third quarter of 1990 was $2,384,000, representing earnings of 37 cents per share. These figures compared with net income of $778,000 for third quarter 1989, representing earnings of 12 cents per share.

Income increased to $6,655,000 for the nine-month period ended Sept. 30, 1990, compared with $4,027,000 for the previous year. Earnings through September 1990 showed a gain of more than 64 percent, from 62 cents per share in 1989 to $1.02 per share.

The year-to-date income statement includes an extraordinary tax credit of $958,000 from utilization of a net operating loss carry-forward from 1989.

Colonial contributed $4,220,000 in loan loss provisions to its reserves during the first nine months of 1990, compared with $2,129,000 in 1989. The company's total loan loss reserve stands at $14,878,000, or 1.41 percent of net loans.

In addition to improvements in income, Colonial showed increases in total deposits and loans for the first three quarters of 1990. Total deposits grew from $1,278,340,000 in 1989 to $1,318,218,000 by Sept. 30, 1990. During the same period, net loans increased 5.5 percent, from $1,003,636,000 to $1,058,873,000.

For the first three quarters, BancGroup's return on average assets improved to .60 percent in 1990, compared with .37 percent in 1989. Return on average equity increased to 11.95 percent by Sept. 30, 1990, compared with only 4.68 percent in 1989.

Colonial BancGroup is an Alabama-based bank holding company with 71 offices and assets totaling $1,506,026,000.

MENLO PARK, CA (NOV. 6) BUSINESS WIRE - Raychem Corp. Tuesday announced the election of six new corporate officers.

Elected to the position of vice president are Charles J. Abbe, Stephen A. Balogh, Michael B. Sullivan, Eric Van Zele and John ''Jack'' A. Webb. Elected to the position of corporate controller is Deidra D. Barsotti.

Abbe is now vice president, strategic planning. He joined Raychem in 1989 and has served as director of logistics and strategic planning. Abbe came to Raychem from a position as a director at McKinsey & Company Inc., an international management consulting firm. He has a master of business administration from Stanford University and chemical engineering degrees from Cornell University.

Balogh is vice president, human resources. He joined Raychem in 1973 and has recently served as general manager of the Chemelex division. Balogh also has worked for Raychem in strategic and business planning, sales and marketing posts in the United States and Europe. He has a master of business administration from Stanford University and chemical engineering degrees from Cornell University.

Sullivan is vice president and general manager of the Electrical Products division, which develops and manufactures products for electrical utilities worldwide. He has served as general manager and European manager for the division.

Sullivan, who joined the company in 1968, also has served in sales and business planning roles. Sullivan has degrees in chemistry from Colgate University and the Rensselaar Polytechnic Institute.

Van Zele is vice president and general manager of the Ultratec division with headquarters in the company's Kessel-lo, Belgium, facility. He joined the company in 1972 and has been serving as general manager of the division, which develops, manufactures and markets products to the gas and water utilities and pipeline industries.

Van Zele also has worked in sales, marketing and product development posts for Raychem. He has degrees in electrical and mechanical engineering from the University of Louvain in Belgium.

Webb is a vice president in Raychem's Telecommunications division, which develops and makes products for telephone and television cable utilities. Webb joined Raychem in 1957 and has worked in sales, marketing, manufacturing

and general management positions for the Telecommunications division. He has a marketing degree from Hofstra College.

Barsotti is corporate controller for Raychem. She joined the company in 1986 and has worked as assistant corporate controller and the accounting operations manager. Prior to joining Raychem, she served as corporate controller for BRAE Corp. of San Francisco. She has a degree in business from the University of California at Berkeley.

Raychem Corp. of Menlo Park is a materials sciences company with 11,000 employees in 47 countries and sales of $1.1 billion in fiscal 1990. The company develops, manufacture and markets high-performance products utilizing specialized materials for electronic, industrial and telecommunications applications.

WASHINGTON (NOV. 6) BUSINESS WIRE - IDB Aero-Nautical Communications Inc. (IDB-A), a supplier of mobile communications services via Inmarsat satellite to the maritime industry, has signed a contract with Cruisephone Ltd., a leading supplier of cellular telecommunications to the cruise industry, for the exclusive provision of services to the pleasure cruise and private yacht markets worldwide.

Cruisephone will act as IDB-A's exclusive agent for the marketing, operation and accounting of IDB-A's phone, facsimile and telex satellite communications services to the cruise line and mega-yacht industries.

Maritime operators outfitted with Cruisephone cellular equipment and satellite communications terminals will be allowed access to IDB-A's satellite earth station network from any ocean region.

Interface equipment provided by Cruisephone will automatically switch calls originating from outside cellular operating areas to IDB-A's facilities. IDB-A's mobile telecommunications network provides worldwide ocean coverage via the Inmarsat satellite system.

Cruisephone, based in Fort Lauderdale, Fla., is the leading provider of custom-designed cellular equipment systems and service to the cruise ship and charter yacht industry in the Caribbean. The company, through its affiliate, Boatphone, provides cellular service throughout the Caribbean, from the Virgin Islands to Grenada.

IDB-A markets ship-to-shore satellite communications services to maritime

users, including commerical shipping fleets, fishing vessels, pleasure cruise lines, oil rigs and tankers. Similar mobile telecommunications services are offered by IDB-A to the aviation industry.

In September, IDB-A announced agreements to initiate maritime services using the earth station facilities of both Overseas Telecommunications Ltd. of Australia for the Indian and Pacific Ocean regions and Morsviazsputnik of the Soviet Union for the Atlantic (IDB news release: 9/24/90).

IDB's Systems division has also initiated construction for IDB-A of three permanent coastal earth stations to address Inmarsat -- two in Niles Canyon, Calif., and one at IDB's teleport facilities in New York.

IDB Aero-Nautical Communications Inc. is a joint venture between IDB Communications Group Inc. (NASDAQ:IDBX) and Teleglobe International (U.S.) Inc.

IDB-A's offices are in Rockville, Md. IDB Communications Group Inc. is a leading supplier of transmission services for radio, television, data and voice communications via satellite and fiber optics.

#90310b0635 11/06/1990 ~Business Wire

BUFFALO, NY (NOV. 6) BUSINESS WIRE - Walter Lantz' classic cartoon character Woody Woodpecker, will have his own line of school supplies next year.

New Age Pad & Paper Inc., the newly acquired licensed products division of The Colad Group Inc., has struck a deal with Merchandising Corporation of America Inc. (worldwide licensing division of MCA Inc.) to market a line of environmentally safe school products featuring Woody, his girlfriend Winnie Woodpecker, his nephew Knothead and niece Splinter, as well as Chilly Willy, Andy Panda and other friends created by Lantz.

Woody, who turned 50 this year as Lantz was celebrating his 90th birthday, is the spokescharacter for The National Parks And Conservation Association, as well as for Los Angeles County recycling programs. He is also the corporate recycling mascot for MCA/Universal Studios.

The new school supply line, that includes a number of items such as two-pocket portfolios and theme books made from recycled paper, will feature Woody in a variety of situations that demonstrate ways kids and their parents can be environmentally responsible. A portion of the profits will be donated by New Age in the name of participating retailers to environmental groups and associations.

President Miles Rothman thinks New Age is in a perfect position to teach, remind, and focus attention on environmental issues. "This is the first time a licensed cartoon character has been used to promote environmentally safe products," said Rothman. "Cleaning up the environment is a very important subject, especially for kids. Woody will help make pro-environmental lifestyles and work habits fun."

As the nation's premiere manufacturer and supplier of licensed school supplies and paper goods, with distribution in over 150,000 retail locations in the United States and Canada, New Age and its 46-year-old parent were among the first to take an aggressive stand on the side of environmentally safe products. Rothman declares openly that there is nothing altruistic in this approach.

"What we are doing is right. It makes sense from a clean Earth point of view and it makes sense from a marketing point of view. It has the potential for lowering costs of raw materials, therefore prices, over the long haul. And, in this sense we are merely marketing what we do, what we are and what we believe in," he said.

The Colad Group, was among the first paper products companies to convert to recyclable products. Most of its paper products are biodegradable and recyclable. The polypropylene film used to coat outer covers and create rich glossy colors is recyclable. Its specially formulated adhesives are water soluble, eliminating volatile organic compound emissions that would otherwise occur.

#90310b0638 11/06/1990 ~Business Wire

BREA, CALIF. (NOV. 6) BUSINESS WIRE - UnionFed Financial Corp. (NYSE:UFF), parent of Union Federal Savings Bank (the ''Bank''), Tuesday reported earnings for the first quarter of fiscal year 1991 of $906,000, or 12 cents per share fully diluted.

This compares with earnings of $5.1 million, or 73 cents per share, in the quarter ended Sept. 30, 1989.

The decline in earnings was due primarily to reductions in net interest income real estate operations income and other non-operating income.

Net interest income was $10.7 million for the quarter, compared with $11.5 million one year earlier. This decline was principally due to the classification of $100 million of loans, before charge-offs, as foreclosures for accounting purposes at June 30, 1990. Any interest received on these

loans is included in real estate operations.

Non-performing assets before loss reserves were $124 million at Sept. 30, 1990 including non-accrual loans of $17 million and real estate owned (including loans treated as foreclosures for accounting purposes) of $107 million, compared with $119.2 million at June 30, 1990.

Allowances for losses on loans and real estate totaled $23.2 million at Sept. 30, 1990.

The ratio of stockholders' equity to assets was 5.5 percent at Sept. 30, 1990, unchanged from June 30, 1990.

At Sept. 30, 1990, the Bank's investment in Uni-Cal Financial was $100 million $50 million of which was deducted from regulatory capital. The Bank intends to sell the real estate investments of Uni-Cal Financial as rapidly as market conditions permit.

UnionFed Financial is the holding company for Union Federal Savings Bank, a federally chartered savings bank with $2.5 billion in assets and 27 branches in Southern California.

#90310b0643 11/06/1990 ~Business Wire

CALGARY, ALBERTA (NOV. 6) BUSINESS WIRE - EnServ Corp. (TSE: ESV) Tuesday announced that it has purchased all of the shares of Energy Industries Ltd. of Calgary for $6.9 million cash.

The acquisition positions EnServ as one of the major suppliers of compression equipment to the Canadian natural gas industry. At the time of acquisitions Energy Industries Ltd's current assets exceeded current liabilities and debt by approximately $1 million.

Energy Industries Ltd. is a well-managed,successful compressor supply company which has been supplying the Canadian natural gas industry with quality products and services since 1972. The business activities of the company include the sale, rental, packaging and servicing of natural gas compressors and compressor components.

Energy Industries Ltd. is the Canadian distributor for the Energy Industries line of compressors which will continue to be supplied to EnServ on an ongoing basis by Energy Industries Inc. of Corpus Christie, Texas, under an exclusive,

long-term licensing arrangement.

The company continues to be managed by Mr. Bruce Herron, vice president and general manager, together with his management team. Given the prior success of the company's business operations and its favourable positioning in the industry, no changes in the operation are contemplated as a result of the purchase.

EnServ has also reached an agreement in principle with a major financial institution for financing in the amount of $5 million. The financing is subject to regulatory approval, finalization of documentation and final approval of the financial institution.

The funds will be advanced pursuant to an unsecured debenture maturing Nov. 30 1995, and will bear interest at the rate of 7 1/2 percent per annum. The debenture is structured in a manner similar to a convertible debenture, however, the financing provides that EnServ shall issue to the financial institution warrants to purchase 833,333 common shares of EnServ.

The warrants are exercisable at any time prior to maturity of the debenture at a price of $6.00 per share and any proceeds received by EnServ upon execution of the warrants will be applied to repayment of the debenture.

EnServ is a diversified, financially strong, Canadian oilfield service company whose shares are listed on The Toronto Stock Exchange (ESV).

FRAMINGHAM, MA (NOV. 6) BUSINESS WIRE - IG Laboratories Inc. (NASDAQ:IGLI) Tuesday reported a sharp rise in total revenues to $1,018,000 for the third quarter 1990, up 5 times from the same quarter 1989, and $2,077,000 for nine months ended September 1990.

Service revenues for the third quarter 1990, were $446,000, a seven-fold increase over the same period in 1989. Research revenues more than doubled to $299,000 for the third quarter 1990. Net losses for the third quarter were reduced by nearly 50 percent to $375,000, or 7 cents per share. These quarterly losses are attributed to resources invested to increase the levels of business activities.

In October 1990, the company expanded its operations into the southeast region of the U.S. through the acquisition of Genetics Associates in Miami, Fla., and also continued to increase its staff. The company intends to continue its operating strategy of agressively pursuing the acquisition of additional

regional laboratories located strategically throughout the United States.

IG Laboratories, headquartered in Framingham, Mass., provides genetic testing services to hospitals, clinical laboratories, genetic centers, physicians and health maintenance organizations located throughout the United States. The company is focused on prenatal genetic testing enables physicians to screen for and detect major genetic abnormalities.

#90310b0655 11/06/1990 ~Business Wire

CHICAGO (NOV. 6) BUSINESS WIRE - Aon Corporation Tuesday announced financial results for the third quarter and nine months of 1990.

Patrick G. Ryan, chairman and chief executive officer, said, ''Third quarter net income was 93 cents per share, an increase of 5 cents from last year's 88 cents. After tax income excluding realized investment gains was 92 cents per share in the quarter compared with 87 cents per share in last year's third quarter.''

Ryan continued, ''Third quarter revenue was $653.2 million, an increase of 10.3 percent from the prior year reflecting reasonably good growth in all business lines. Premiums earned and policy fees rose 10.6 percent to $386.4 million. Net investment income was up 10.1 percent to $168.9 million. Pretax realized investment gains totaled $1.1 million. Brokerage commissions, fees, and other were $96.8 million, a gain of 9.4 percent over last year. Benefits and expenses increased 10.8 percent to $569.5 million.

''The gain in total revenues and higher benefits and expenses resulted in a 7.1 percent increase in income before income tax to $83.7 million for the third quarter compared with $78.1 million in the prior year. Our tax rate this year is 26.5 percent compared to 26 percent for 1989.

''Net income totaled $61.5 million, up 6.4 percent from last year. Average shares outstanding increased 0.8 percent principally as a result of the Martin Boyer acquisition in the first quarter of this year.''

Ryan commented on segment revenue results, ''Our operating units made good progress during the quarter. Life revenues rose 13 percent largely as the result of strong annuity sales. Accident and Health revenues rose 10.3 percent reflecting the continuing growth of Combined's operations augmented by favorable exchange rates. Another contributing factor was the continued improvement in direct response revenues resulting from the acquisition of AAA

Motor Club business. Specialty property and casualty revenues were up 16.1 percent principally from the growth in the extended automobile warranty line. The increase in brokerage revenues was mostly attributable to our employee benefits and our reinsurance intermediary businesses.

''Corporate and other revenues largely made up of investment income on corporate invested assets were down 9.1 percent due to lower yields. Corporate invested assets are comprised of tax exempt bonds, preferred and common stocks and other equities not allocated to our operating units. Dividend trading results were down approximately $5 million from the record levels in the last year's third quarter. This was the result of higher interest rates and weakening common and preferred stock prices.

''Each of our operating businesses recorded pretax income gains. Ryan concluded, ''Our third quarter results showed improvement in each of our core businesses, reflecting the balance attained in our operations. In this challenging economic environment, we continue to put heavy emphasis on expense controls, maintaining the high quality of our investment portfolios and controlling underwriting risks. These elements are vital to our future growth. We look forward to further gains for the remainder of the year and into next year.''

#90310b0660 11/06/1990 ~Business Wire

KINGSTON, N.Y. (NOV. 6) BUSINESS WIRE - National Micronetics Inc. (NASDAQ) announced financial results Tuesday for the quarter ended Sept. 29, 1990.

For the first fiscal quarter, the company reported sales of $5,878,000 a net loss of $1,546,000, compared to prior year first quarter sales of $8,979,000 and a net loss of $632,000.

In an effort to stem losses and turn the company around, drastic cuts in overhead were made during the quarter as a response to lower production and sales.

The company is concentrating upon development of Metal-In-Gap technology. The company's hopes of returning to profitability are dependent upon successful completion of this effort.

As has been previously announced, a Korean company, Newmax Co. Ltd., is considering the purchase of a majority interest in the company (10.5 million shares) for a price of $4.2 milion. Bridge loans in the amount of $1.5 million by an affiliate of Newmax Co. Ltd., have been made which, in effect, will be converted into the proposed equity investment if that should take

place. The mailing of the annual report for the year ended June 30, 1990 and the scheduling of the annual shareholders meeting will take place upon consummation of the equity financing.

National Micronetics is an independent magnetic recording head manufacturer for the disk drive industry.

TAMPA, FL (NOV. 6) BUSINESS WIRE - International Container Systems Inc. (NASDAQ: ICSI) Tuesday announced revenues and earnings for the quarter and six months ended Sept. 30.

Net sales for the quarter were $2,411,000 compared to the previous year's net sales of $2,258,000 for the like quarter representing an increase of approximately seven percent. The net income for the quarter of $135,000 or five cents per share decreased by 31.5 percent from the net income of $197,000 or seven cents per share for the like quarter of the previous year.

Net sales for the six months ended Sept. 30, 1990 were $5,083,000, an increase of $688,000 or 15.7 percent above the net sales of $4,395,000 for the six months ended Sept. 30, 1989. The net income of $375,000, 7.4 percent of net sales, for the first six months of the current fiscal year compared to a net loss of $132,000, three percent of net sales, for the corresponding period in the previous fiscal year shows an increase of $507,000.

Net income of $375,000 for the six months ended Sept. 30 compared to net loss of $132,000, for the corresponding period in the previous fiscal year, shows an increase of $507,000. The increase in net income was basically the result of a special one time increase in depreciation required to reduce the carrying value of certain molds by $770,000 recorded during the quarter ended June 30, 1989.

Net income of $135,000 for the quarter ended Sept. 30 compared to income of $197,000, for the corresponding period in the previous fiscal year, shows a decrease of $62,000. The decrease in net income was basically the result of reduced gross profit, a decrease in selling and administrative costs, and increased interest income.

International Container Systems Inc. is a major supplier of proprietary and patented plastic packaging systems for the transport and merchandising of disposable glass and PET plastic bottles and cans of soft drinks.

#90310b0667 11/06/1990 ~Business Wire
BRIDGEPORT, CONN. (NOV. 6) BUSINESS WIRE - Connecticut Energy Corp. (NYSE:CNE) Tuesday reported net income for fiscal 1990 of $8,219,000 compared to $7,834,000 for 1989, with earnings per share of $1.33 for 1990 compared to $1.28 per share for 1989.

The company has changed its financial reporting year to a fiscal year ending Sept. 30, therefore a 12 month fiscal period for 1990 is presented for comparison to prior calendar years.

Several significant items affected the 1990 financial results, including a nonrecurring credit of $1,280,000, or 21 cents per share resulting from a change in the company's method of accounting for municipal property taxes.

Additionally, the company increased its provision for uncollectable accounts by 29 percent over 1989 to recognize the possibility of a rise in future uncollectable accounts due to a softening economy. This affected earnings by 11 cents per share.

Without this expense, the company succeeded in holding overall operating and maintenance costs to approximately the same level as 1989. Since the 1990 financial statements include the quarter ending Dec. 31, 1989, they also reflect a 17 cent per share loss arising from the nonregulated subsidiaries, including the writedown of the assets of the oil and gas operations to their net realizable value at that time.

''The heating season this past winter was a study of extremes,'' commented J.R. Crespo, chairman, president and CEO. ''After record low temperatures in December, January began the warmest winter quarter of the century.

''Since our principal subsidiary and gas distribution business, The Southern Connecticut Gas Company, typically earns the largest portion of its annual income in the January quarter, the warm weather significantly decreased heating sales volumes and therefore reduced revenues.

''We took immediate action to reduce discretionary spending, which, together with the outstanding cooperation of our employees, helped us to offset the impact of some of those revenue losses.''

Connecticut Energy Corp. is a utility and energy holding company. Its principal subsidiary provides natural gas service to over 151,000 customers in Fairfield, New Haven and Middlesex counties.

WHITE PLAINS, NY (NOV. 6) BUSINESS WIRE - IBM Tuesday announced Storyboard(a) Live!, a multimedia software product for the personal computer that brings animation, motion video and enhanced presentation capabilities to business people and educators. Storyboard Live! -- the latest evolution in the Storyboard line of multimedia products for the Disk Operating System (DOS) -- enables users to create on-screen presentations that incorporate drawing, painting, animation, motion video, music and voice. Storyboard Live! also allows customers to play back audio and video without additional hardware. With this new feature, users can distribute Storyboard Live! presentations on computer diskettes for viewing by individuals with standard computer hardware configurations.

There are 34 sprites, or canned animation routines, that ship with Storyboard Live! The new Sprite Editor enables users to edit sprites and create original animation routines using a built-in sprite generator. Users can create text, pictures, graphs or charts with the sprite generator and then animate the image by clicking on one of eight motion icons. Motion Video

The Video Editor, formerly part of an add-on program from Krepec Publishing Corp., has been fully integrated into Storyboard Live! The Video Editor allows users to capture video sequences for a presentation with a video capture board and a video source such as a VCR, laser disk or video camera. Once incorporated into the program users can play back the sequences from a personal computer's hard drive.

The sequences can be created in black and white or color and can appear on the computer screen in six different sized boxes. In addition, users can overlay a pointer on video sequences to call attention to a specific portion of the picture. Full motion video can be integrated into the program by accessing a video source, such as laser disk, through the Story Editor. Audio Storyboard Live! uses RealSound(a) technology, enabling users to playback voice and music from the computer's internal speaker without additional hardware. Customers can create these files with Creative Labs Soundblaster cards.

IBM Desktop Software, based in Milford, Conn., is a unit of the IBM Applications Solutions Division. Its mission is to acquire, develop and bring to market leading application software for the personal computer.

FORT WORTH, TEXAS (NOV. 6) BUSINESS WIRE - Pier 1 Imports Inc. (NYSE:PIR) announced Tuesday that an oral agreement has been reached to settle the law suit against Pier 1 Imports, Sunbelt Nursery Group Inc. (AMEX:SBN), Intermark Inc. (AMEX:IMI) and the other defendents with respect to the cash tender offer at $12 a share for any and all outstanding shares of common stock of Sunbelt.

Sun Acquisitions Inc., a wholly owned subsidiary of Pier 1 Imports, has extended the expiration date of the tender offer to 12:00 midnight, New York City time, on Friday, Nov. 16.

The expiration date of the tender offer has been extended to permit distribution to Sunbelt shareholders of supplements to Sun Acquisition's Offer to Purchase and to Sunbelt's Schedule 14D-9.

The previously scheduled expiration date of the tender offer had been Nov. 6.

Through the close of business on Nov. 2, approximately 1,585,561 shares had been tendered into the tender offer.

Sunbelt Nursery Group Inc. is a chain of 96 lawn and garden centers with major market positions in the southwest United States. For the three months ended July 31, Sunbelt reported sales of $39,438,000 and net income of $4,891,000 or $1.24 per share.

Pier 1 Imports is North America's largest and fastest growing specialty retailer of decorative home furnishings and related items with 541 stores in 44 states and Canada. For the fiscal year ended March 3, Pier 1 Imports had sales of $517 million and net income of $25.5 million.

NANUET, NY (NOV. 6) BUSINESS WIRE - Singapore Telecom will enhance its international telephone credit card (ITCC) through the acquisition of a CAVIAR (Computer Assisted International Auto Re-dialler) from Executive TeleCard Ltd.

Singapore Telecom operates both the national and international telecommunications services in Singapore. Singapore has one of the most advanced telephone systems in the world, with 38 telephone lines per 100 population, and over 96 percent of international traffic are automatic direct dial traffic. Singapore Telecom is the first country to offer total nationwide ISDN service.

In addition to supplying the CAVIAR system, Executive TeleCard International has an international telephone calling card system that allows travelers to place a call with operator assistance within the United States and Canada, from the United States and Canada to virtually everywhere in the world, and from 53 countries back to the United States and Canada. It can also be used within and from 20 countries to the rest of the world on a direct-dial basis, with no operator intervention. This is a service that no other company can provide, not even AT&T!

EXTL has established toll free numbers in the 20 countries which enables a caller to enter an automated system that is voice prompted on how to place a call. The system is activated by providing a credit card number. All further voice prompts are in the language of the credit card issuer (JCB - Japanese, CartaSi - Italian, Air Travel Card - English, etc).

A security code is then entered and the international or domestic number to be called, and the call is completed. The CAVIAR then captures the billing information, and the credit card issuer is provided with a magnetic tape outlining all long distance charges for billing to their customers.

JACKSON, MS (NOV. 6) BUSINESS WIRE - LDDS Communications Inc. (NASDAQ/NMS:LDDSA) announced Tuesday that it has requested the withdrawal of its proposed offering of $50,000,000 principal amount of convertible subordinated debentures and 1,400,000 shares of common stock.

Of the shares of common stock being offered, 1,303,272 were being sold on behalf of a selling shareholder, Heller Financial Inc. The company's president, Bernard J. Ebbers, cited unfavorable market conditions in explaining the company's decision.

Ebbers said: ''We simply did not need this financing enough to accept the terms caused by deteriorating market conditions. Our basic business plan and growth strategies remain intact and will not be materially affected by the decision to withdraw this offering.''

LDDS is one of the largest regional long distance companies in the United

States and provides long distance service to customers located in 12 contiguous states in the South and Midwest. The company offers its customers 24-hour station-to-station long distance service to all points in the United States and many foreign countries.

MONROE, LA (NOV. 6) BUSINESS WIRE - Century Telephone Enterprises Inc. (NYSE:CTL) Tuesday announced a 33.3 percent increase in earnings per share for the third quarter of 1990 over the third quarter of 1989 and a 32.7 percent increase for the first nine months of 1990, compared with the same period in 1989.

The company stated that third quarter earnings per share rose to 24 cents from 18 cents a year ago. Third quarter 1990 net income increased 29.9 percent to $7,468,000 from $5,749,000 for the same period in 1989 and revenues from telephone, cellular and paging operations increased 12.8 percent to $62,845,000 from $55,689,000.

Earnings per share were 73 cents for the first nine months of 1990, compared with 55 cents for the first nine months of 1989. Net income increased 42.2 percent to $22,912,000 from $16,118,000 and total revenues increased 20.8 percent to $184,005,000 from $152,344,000.

The company's sale of its interest in Telecom USA in the first half of 1990 resulted in increases in nine month net income and earnings per share of $2,591,000 and 8 cents, respectively.

The gain in earnings per share for the third quarter was primarily attributable to improvement in cellular operating results, the 1989 acqusition of Universal Telephone Inc. and increased toll revenues.

Century Telephone Enterprises Inc., headquartered in Monroe, is a diversified telecommunications company with operations in 15 states.

NEW YORK (NOV. 6) BUSINESS WIRE - Sargasso Mutual Life Insurance Co. Ltd. of Hamilton, Bermuda -- the directors and officers liability carrier for mutual life insurance companies in North America -- has announced the election of board members and officers.

Newly elected to vice president positions were Joseph J. Horvath of The Penn Mutual Life Insurance Co., and James L. Wertheimer of Massachusetts Mutual Life Insurance Co.

Also newly elected were directors John M. Bremer of The Northwestern Mutual Life Insurance Co., Gregg R. Narber of Principal Mutual Life Insurance Co., and Joseph A. Thomas of Pacific Mutual Life Insurance Co. and Harold K. Herzog retired senior vice president of New York Life Insurance Co.

Re-elected to officer were A. Peter Quinn of Day, Berry & Howard, chairman of the board; Kernan F. King of New England Mutual Life Insurance Co., president; and Edward E. Blakeslee of Rosenman & Colin, chief executive officer and managing director; and Jerome M. Sperber of Home Life Insurance Co., vice president.

The company also reported assets in excess of $20,800,000 as of Aug. 31, 1990 of which more than $19 million represents equity of its membership; almost four times the original equity of $5.2 million. The company's financial strength is further enhanced by $16 million of contractual obligations by its members.

Organized in 1986 by 10 major mutual life insurance companies, Sargasso has expanded its membership to 16 insurers. It was formed in response to the rise in cost of D&O (directors & officers) liability coverage, and an impending lack of capacity for such insurance from commercial carriers.

#90310b0719 11/06/1990 ~Business Wire

SEYMOUR, CONN. (NOV. 6) BUSINESS WIRE - TIE/communications Inc., a leading designer, manufacturer and distributor of advanced telecommunications systems, reported a third quarter loss of $2,925,000.

This compares to a loss of $4,541,000, before preferred stock dividends and accretions, in the comparable 1989 quarter. Sales for the third quarter 1990 were $33,676,000 compared to $51,771,000 in the third quarter of 1989. The loss per common share for the third quarter 1990 was 8 cents compared to a loss of 17 cents per common share in the 1989 quarter, after accretion and preferred stock dividends.

TIE's nine month figures show a net income of $2,370,000, compared to a loss of $10,720,000 for the comparable nine months of 1989. The net income for the nine months ending Sept. 30, 1990, before preferred stock dividends and accretions, includes a net gain of $13,358,000 on the sale of the TIE European Group which occurred in April of this year.

Sales for the nine months of 1990 were $116,456,000 compared to $174,688,000 for the comparable 1989 quarter. Net income for the nine months of 1990 was 3 cents compared to a loss of 42 cents for the nine months of 1989, after accretion and preferred stock dividends.

The lower revenue figures for the nine months reflect, in part, a loss of revenues heretofore generated by the TIE European Group. TIE anticipates a modest improvement in sales with the introduction of a new digital key telephone system, BUSINESSCOM Digital System 01, to the wholesale equipment side of the business in the Third Quarter of this year.

TIE's direct distribution and service division, TSI, continues to consolidate its installed base of equipment and generate a profit for the parent company. TIE will continue on its acquisition program to secure additional TIE base, as situations and opportunities warrant.

TIE/communications Canada Inc. purchased, in October 1990, the business of one of the largest interconnect companies in Canada, CTG, from British Telecom. This purchase places the Canadian subsidiary in a very strong position in the Canadian marketplace and by 1991, should make a positive revenue contribution to the parent company in the United States.

#90310b0720 11/06/1990 ~Business Wire

DAYTON, OH (NOV. 6) BUSINESS WIRE - NCR Corporation Tuesday announced availability of the NCR OS/2 Workgroup Platform, a comprehensive suite of MS OS/2R-based products that provides a client-server base for distributed applications, data and resource sharing across computer networks and throughout enterprises.

A key component of NCR's Open, Cooperative Computing Strategy, the NCR OS/2 Workgroup Platform will be demonstrated in Las Vegas at COMDEX/FALL '90 in booth No. 1616. The products forming the NCR OS/2 Workgroup Platform represent an implementation of the strategies outlined by NCR in last month's NCR System 3000, Cooperation and Open Networking Environment announcements.

"The NCR OS/2 Workgroup Platform gives users an industry-standard set of functions for developing and/or integrating client-server applications," said Alok Mohan, vice president of NCR's Workstation Products Division. "It focuses on empowering end-users to perform at their highest levels through immediate access to information and resources across enterprises."

The NCR OS/2 Workgroup Platform provides a comprehensive standards-based platform for client/server applications. It consists of:

- NCR's version of MS-OS/2 1.21 - which provides a strong server platform through its ability to support multiple, concurrent tasks;

- NCR LAN Manager 2.01 - which links DOS and OS/2 workstation users into logical workgroups by providing the connection between DOS and OS/2 local workstations and OS/2 servers;

- NCR SQL Server 1.1 - which expands the data sharing potential of the workgroup by providing mainframe-class SQL database services on the local area network to DOS and OS/2 workstations;

- NCR Communications Server 1.0 - which expands the reach of OS/2 and DOS workstations by providing access to enterprise resources in a hierarchical or peer SNA network.

- NCR SNA Software Distribution Product (SDP) for OS/2 - a set of software products that provides a method of electronically distributing software and data files over a SNA wide area network. With these products, users can easily send software and data files to multiple locations and systems throughout the enterprise.

#90310b0730 11/06/1990 ~Business Wire
HASBROUCK HEIGHTS, NJ (NOV. 6) BUSINESS WIRE - Jos. F. Bradway Jr., chairman of RMS International Inc. (ASE:RMS), Tuesday reported a profit for the third quarter and nine months ended Sept. 30, 1990.

Net sales for the third quarter of 1990 were $2.9 million compared with $3 million in the same quarter last year. The company reported net income of $54,302, or 3 cents per share, in the third quarter. This compares with a net loss of $158,666, or 10 cents per share, in the third quarter of 1989.

For the first nine months of 1990, net sales were $8.6 million compared with $9.8 million in the same period of 1989. Net income for the period increased to $108,301, or 7 cents per share, compared with a net loss of $608,413, or 39 cents per share, in the first nine months of 1989.

''RMS' profit in the third quarter was achieved despite lower sales in our core CATV business,'' stated Bradway. ''Since last year, our margins have improved due to improved product costs related to alternate suppliers and an improvement in the dollar-yen exchange rate.

''In addition, we have cut selling, general and administrative expenses related to our CATV business. We also have benefitted from lower interest costs as a result of lower average borrowings outstanding.

''Sales from our Color Optic division continue to improve as a result of expanded marketing programs. However, they have not offset the declines in our CATV business. As a result, we are continuing to look at other acquisition or merger possibilities to broaden RMS' base beyond the CATV business,'' concluded Bradway.

RMS International Inc. is a distributor of passive RF electronic devices for the cable television industry and a manufacturer of standby power supplies. In December 1988, the company acquired Color Optic Displays Inc., a designer, manufacturer and marketer of high quality clear plastic literature displays.

RMS' stock is traded on the American Stock Exchange under the symbol RMS.

#90310b0734 11/06/1990 ~Business Wire
BATON ROUGE, LA (NOV. 6) BUSINESS WIRE - United Companies Financial Corp. (NASDAQ/NMS:UNCF) Tuesday reported results for the third quarter ended Sept. 30, 1990.

Net income of $1.3 million was recorded on revenues of $52 million for the three months ended Sept. 30, 1990, compared with net income of $2.2 million on revenues of $51 million for the same period in 1989. On a per share basis, earnings for the respective periods were 34 cents for 1990 compared with 57 cents for 1989, based on 3,887,647 weighted average shares outstanding.

For the nine months ended Sept. 30, 1990, United Companies earned $6.1 million on revenues of $156 million, compared with $6.3 million on revenues of $150 million in 1989. On a per share basis, earnings for the nine month period of 1990 were $1.57, based on 3,887,647 weighted average shares outstanding, compared to $1.60 for the nine month period of 1989, based on 3,913,878 shares.

''The quarter is disappointing when viewed in a short term nature; however, we manage our business for the long term and have continued confidence in our basic lines of business'' said J. Terrell Brown, president and chief executive officer. He added, ''In addition, we are extremely excited about the acquisition of Foster Mortgage Corp.

''With this acquisition and continued improvement in our core businesses, we remain optimistic about our future results and corporate goals for 1990.''

At Sept. 30, 1990 the company had total assets of $1.28 billion, compared with $1.20 billion at year end 1989. At the third quarter end of 1990, stockholders' equity was $81.1 million compared with $77.8 million at year end 1989.

United Companies is a Louisiana based financial services holding company engaged primarily in the businesses of life insurance, mortgage lending, and mortgage servicing.
